Thorburn

Seeds

Bulbs

WE have paid \$225.00 for this chance to talk to you and realize the importance of saying something "worth while" and which will prove of value to us both. As you will consult the World Almanac for a year, here is a message for each season.

Spring: In the seed business this means from January to June *but get your order in early.* Write for our Catalog (illustrated above; and ready in January). When you get it study the Illustrated Contents in the front. It is full of good advice. You will be glad to see that we have done a lot of your thinking for you.

Summer: This is vacation time for city people, but it is "busy season" for gardens. We issue "a little monthly talk about gardens" to those who ask for it. Your free subscription can begin whenever you wish. Write for a few back copies and see if you think them likely to prove interesting.

Fall: Bulbs, bulbs, and then more bulbs should be your thought in the fall. Our Bulb Catalog is easily the most useful published, because—but ask for it and see. It is usually ready in August; but we will put your name down for a copy now. Shall we?

Winter: There are a lot of things to do for a garden in getting ready for winter. We are planning a book about this. You can have a copy any time after September 1st. It will prove a genuine surprise. Shall we enter your name for one?

If you will send us ten cents we will forward you a package of our *African Daisy Hybrids*, in many beautiful colors. This is the most attractive novelty in recent years.* It will be well worth the money; and our catalog will come with it. Write today.

* We would like to say a lot more about this beautiful flower. But better send for the seed, and you will say it for yourself when it blooms.

15 Notable Chalmers Features

- | | |
|------------------------------|----------------------------|
| Electric Lights | Eleven-inch Upholstery |
| Turkish Cushions | New Flush-sided Bodies |
| Nickel Trimmings | Increased Wheel Base |
| Improved Springs | Carburetor Dash Adjustment |
| Chalmers Self-starter | Big Wheels and Tires |
| Long Stroke Motor | Dual Ignition System |
| Demountable Rims | Speedometer |
| 4-Forward Speed Transmission | |

WE announce for 1913, big improvements in Chalmers cars in *comfort, convenience* and *appearance*. For it is along these lines that we believe the greatest advances in automobile building are to be made.

Few changes have been made in our chasses. The mechanical features of our cars have been right from the beginning. Satisfactory service in the hands of 27,000 owners proves this.

Here, then, are the principal additions and improvements on Chalmers 1913 cars:

More Conveniences for Operator

Electric lighting is regular equipment for 1913 on the "Thirty-Six" and the "Six." Just touch a switch on the dash and you can light at will head, tail and side lights.

And no more cranking. A season's use has proved the Chalmers air pressure starter the simplest and most efficient starting device yet designed.

Conveniently located on the new style Chalmers dash are all controls and indicators. Everything you need for running the car is within easy reach.

Easier Riding Qualities

Luxurious comfort is built into every detail of Chalmers cars. The Turkish cushions, 11 inches thick, are soft as a down pillow. The upholstery is of the overstuffed type. All seats are wide, filled with high-grade hair and covered with heavy, soft, pebble-grained leather.

The long wheel base, big wheels and tires, and long elastic springs, make all roads smooth.

Added Beauty

Chalmers cars have always been known for their "looks." For 1913, they are even more beautiful than in the past. Flush-sided metal bodies have the graceful bell-shaped back. Dash is of one piece with body.

Handsome nickel trimmings will be regular equipment. Leather lining throughout the body and on the dash leaves nothing to scratch or mar. The Chalmers finish cannot be surpassed.

Three Great Cars

Chalmers cars for 1913 are made in three chasses sizes and fourteen body types.

The "Six" is now offered at the unprecedented price of \$2400, a price made possible by our quantity production and increased manufacturing facilities. The "Six" motor, rated at 54 h. p., actually develops 60 to 70 h. p. In every point the "Six" is a maximum car.

The "Thirty-Six" with striking improvements and added features, at \$1950, is more than ever an ideal, all-around car. Wheel base is now 118 inches. Full electric lighting, Chalmers self-starter, reliable speedometer—are all furnished on the "Thirty-Six."

New "30," self-starting, \$1600 with improved motor, 34x4-inch tires, demountable rims, large brakes, beautiful new flush-sided body. Two body types, 5-passenger touring car \$1600; 4-passenger torpedo \$1600.

All cars are fully equipped with top and windshield.

Order now for early delivery so that you can get the use of your car during the best motoring season.

So look these cars over carefully at our dealers' salesrooms. Compare them with other cars of the highest price. We are sure your verdict will be favorable to the Chalmers.

Chalmers Motor Company, Detroit

Reduce or Increase Your Weight —Improve Your Health—Perfect Your Figure

BECOME my pupil and I will make you my friend. Devote but fifteen minutes daily to my system and you can weigh what Nature intended. You can reduce any part of your figure burdened with superfluous flesh or build up any part that is undeveloped.

The effect of my system can be concentrated on your hips, waist, limbs or any other part of your body.

My system tends to make a figure perfectly proportioned throughout—a full, rounded neck; shapely shoulders, arms and legs; a fine, fresh complexion; good carriage with erect poise and grace of movement.

YOU CAN IMPROVE YOUR HEALTH.

My system stimulates, reorganizes and regenerates your entire body. It helps transform your food into good, rich blood. It strengthens your heart, lungs and other organs, conquering all weaknesses and disorders and generating vital force.

My latest book, "The Body Beautiful," should be read by every woman, and I will send it to you free. It explodes the fallacy that lack of beauty or health cannot be avoided. In it I explain how every woman can be **VIGOROUS, HEALTHY AND ATTRACTIVE.**

Send 2c. Stamp for "The Body Beautiful" and Trial Plan To-Day.

I have practised what I teach. In childhood I was puny and deformed. I have overcome all weaknesses by my own natural, drugless methods. Millions of people have seen in me a living demonstration of my unique system of

health-culture and body-building. If you are weak, nervous, fat, thin, unshapely, tired, lacking vitality, or in any other respect not at your very best, I can surely be of service to you.

MY GUARANTEE. With my free book, "The Body Beautiful," which is fully illustrated with photographs of myself explaining my system, I give full particulars of my Guarantee Trial Plan, whereby you can test the value of my instruction without risking a single penny.

WINTON SIX

Make Your Family Happy

Promote the happiness and unity of *your* family by owning a Winton Six. It is a car for *all* the family—big enough that nobody need be left behind. Self-cranking, and easily handled. It has the beauty of appearance and performance that makes the family glad to be seen in it, and the power and sturdiness to guarantee their safety. Its new-idea upholstery gives *more restful riding* than was ever before known.

It is a car of distinction; the leader of Sixes, lowest in repair expense, and least costly of all high-grade cars to buy.

A proper expenditure for the pleasure and entertainment of the family is a legitimate part of your yearly expense. An expenditure for a genuinely good motor car is advantageous in health, happiness, unity, and usefulness. The Winton Six solves the family problem.

Permit us to send you our 64-page, library size catalog. It is full of useful information.

The Clipless Paper Fasteners

DO IT ALL!

Briefly, these new Paper Fasteners offer the business man four definite advantages:

- (1) A quicker way to fasten papers.
- (2) A quicker way to make a more secure fastening.

(3) The elimination of clips and pins, which will pay for either the "Hand" or "Stand" Clipless Paper Fastener in a very few months.

(4) By eliminating the bulkiness of clips and pins they double the capacity of files.

"Stand" Machine, Weight 2½ lbs.; Height 5 in.; Price \$3.50

"Hand" Machine, Weight ½ lb.; Length 6½ Inches; Price \$3.50

Burpee's Annual for 1913

"The Leading American Seed Catalog"

Is now ready for mailing. The first edition of more than four hundred thousand copies will soon be distributed. As usual, it is sent unsolicited ONLY to "Customers of Record." We shall be pleased, however, to mail a copy immediately upon application (a postal-card will do) to every one who appreciates **QUALITY IN SEEDS**.

This **SILENT SALESMAN** (and we employ no "talking" salesmen to solicit orders) tells the plain truth about *The Best Seeds that Can Be Grown*. It is a bright book of 180 pages and shows, besides colored plates of Burpee Specialties, hundreds of the choicest vegetables and most beautiful flowers, illustrated from photographs. It is almost indispensable to all who garden either for pleasure or profit.

The "**HOUSE OF BURPEE**" is known the world over not only as **EXPERTS IN SWEET PEAS**, but also as **SEED SPECIALISTS**. No other American firm has ever introduced so many novelties of sterling value—and no other growers supply seeds annually direct to so many planters. It would be to your interest to read **THE BURPEE ANNUAL**. It will cost you only one cent for a post-card to send us your address, and you are under no obligation to buy. We never annoy applicants with "follow-up" letters!

Shall we mail you a copy?

If so, kindly **WRITE TO-DAY**.

FOR GUNS—3 in One gun oil lubricates perfectly lock, trigger, ejector and break joints. It cleans and polishes like new the barrels, inside and out—also the wooden stock. Absolutely prevents rust. All leading gun manufacturers use and recommend 3 in One.

FOR SEWING MACHINES—3 in One lubricates exactly right every action part, making the machine run 100 times easier. Saves the user's strength—saves wear on the bearings and prevents repair bills. Never collects any dirt, never gums or clogs. It cleans and polishes the wooden case, and prevents rust on all metal surfaces.

FOR RAZORS—3 in One means shaving luxury. Do this: Draw "safety" or "ordinary" blade between thumb and first finger moistened with a little 3 in One. Strop, and secure keenest edge ever. After shaving, oil blade again—no rust can form. Your request on a postal brings our "scientific "razor saver" circular, free.)

FOR FURNITURE—3 in One has simply revolutionized polishing furniture. This is the way: Wring out a soft cloth in cold water moistened with a little 3 in One. Go over your piano or other fine furniture. All the marks of time and soil will vanish. Then dry and polish with a piece of cheesecloth, rubbing with the grain of the wood. The beautiful lustre and high polish will come back right before your very eyes.

FOR TALKING MACHINES—3 in One makes every kind of a talking machine work beautifully—prevents irritating squeaks and "whir" of the motor and records. Always wipe your disc records with cheesecloth moistened with 3 in One. It prevents dust gathering on them and spoiling their exchange value.

FREE

Send us your name and address on a postal and we will mail you a generous sample of 3 in One and the 3 in One Dictionary—both free. Get the bottle and the book, now!

3 in One is sold in all good stores in 3-size bottles: 10c., 25c., and New ½-Pint for ¼ Dollar Household Size.

selling Victor safes and fireproof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalogue will enable you to present the subject to customers in as interesting a manner as though you were piloting them through our factory. Men appointed as salesmen receive advice and instructions for selling safes, giving convincing talking points which it is impossible for a prospective customer to deny. Why don't YOU be the first to apply from your vicinity before some one else gets the territory? We can favor only one salesman out of each locality.

OUR NEW HOME.

Wide-awake men are prompt to take advantage of our special inducement, and notwithstanding that the completion of our new factory has enabled us to double our output, indications point to an ever-increasing demand which will continue to tax our facilities. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars it will cost you only the price of a postal-card. Just ask for "New Offer 6."

IS IT FAIR

for you to pay \$1.25 to \$1.75 for roofing
COSTING LESS THAN 45c TO MAKE?

Many people ARE doing it every day. YOU are apt to if you don't know the facts, because ready roofing is being sold to jobbers for 45c per square. It certainly costs **less** than 45c to make, and you pay \$1.25 to \$1.75 for it.

You can always tell cheap roofing. It is literally bleeding to death. It is oily, greasy, dirty and sort of a sickish yellow color. You can actually see the oil coming out, proving that the cheapest adulterants were used in making it.

REX FLINTKOTE ROOFING

is the safest roofing to buy. It is clean, firm and always stays so. We have been making it for nearly fifteen years. The first made is still giving good service **without paint**.

Rex Flintkote Roofing is used in large quantities by some of the biggest corporations. Some of them got away from us for a while, and used cheaper roofing. They have come back, however, and are using more **Rex Flintkote** than ever. Cheap roofing is expensive **at any price**. Good roofing is economical at any price.

Rex Flintkote is guaranteed as follows:

1 ply 5 years 2 ply 7 years 3 ply 10 years

The guarantee is simplicity itself, and absolutely binding, which is **not** the case with cheap roofing guarantees.

The first cost of **Rex Flintkote** may be a trifle more than many other roofings, but it is the **cheapest per year** roofing you can possibly buy. Isn't that what you want?

Rex Flintkote will cost you:

\$1.75 per roll of $\frac{1}{2}$ ply, 108 sq. ft., weighing 25 lbs.
\$2.25 per roll of 1 ply, 108 sq. ft., weighing 35 lbs.
\$3.25 per roll of 2 ply, 108 sq. ft., weighing 45 lbs.
\$4.00 per roll of 3 ply, 108 sq. ft., weighing 55 lbs.

Also made in rolls of 216 square feet.

These prices apply only east of the Mississippi River.

Send for sample and booklet W. A. 13.

The
STEINWAY
PIANO

To uphold a reputation for tone quality unequalled; to build a piano that has fixed the basic principles for all makes; to create a world standard and keep it at a level unapproached by others—that is the Steinway achievement through four generations.

Quality should be the only determining factor in the selection of a piano.

Uprights from \$550 up.
Grands from \$750 up.

INVESTING FOR PROFIT

This Broad Gauge and Vitaly Helpful Magazine of Successful Finance YOURS

FOR SIX MONTHS FREE

If you will send me your name and address I will mail you this wonderful magazine Absolutely Free for six months—Special Trial Introductory Offer. Each copy is worth \$10.00 to \$100.00 to you.

“Wait till you see it is a good thing, but don't wait till everyone sees it—you will then be too late.” One good investment is worth a lifetime of labor.

Small Investors Have Made Stupendous Fortunes

You know and I know that small investors have made stupendous fortunes—men who, guided by judgment and courage, have placed their funds direct into creative enterprises at their inception, and thus reaped full benefit of the earning power of money. Today Opportunity on bended knee is entreating the small investor to accept her favors—and those who heed the insistent call are achieving fortunes.

My magazine explains the rules by which small investors have made wise and profitable investments—how \$100 grows into \$2,200—the actual possibility of intelligent investment.

Learn the REAL EARNING POWER of Your Money

The real earning power of your money is not the paltry 3% to 5% paid by banks or corporations who have their future behind instead of in front of them.

INVESTING FOR PROFIT reveals the enormous profits bankers make, and shows how one can make the same profit—it demonstrates the real earning power of your money—the knowledge that financiers and bankers hide from the masses—it explains HOW small investors are making big fortunes and WHY they are made.

This and other valuable financial information is yours—it is free for six months for the asking.

How to Determine the Value of Different Investments

There are thousands of salaried people today who have a small sum laid aside or who can invest a small amount each month, but who realize that they do not know how to determine the value of the different

classes of investments that are offered to them daily. This condition has created a demand for a publication or institution whose express object is to help direct and guide the small investor. **INVESTING FOR PROFIT** is the result of a pressing need and will be worth hundreds—even thousands—of dollars to you

If You Can Save \$5 a Month or More

INVESTING FOR PROFIT is for the man who intends to invest any money, however small, or who can save \$5.00 or more per month—but who has not as yet learned the art of investing for profit.

Read what Russell Sage, one of the most successful financiers of his day, said in regard to investments:

“There is a common fallacy that, while for legal advice we go to lawyers, and for medical advice we go to physicians, and for the construction of a great work to engineers, financing is everybody's business. As a matter of fact, it is the most profound and complicated of them all.”

Don't invest a dollar in anything anywhere until you have at least read one copy of my really wonderful magazine.

Send Your Name Today for Free Financial Advice and Magazine

There are absolutely no strings to my Six Months' Free Trial introductory offer. I will do exactly what I say. If you will send me your name and address I will send you absolutely without charge, for six months, my magazine—**INVESTING FOR PROFIT**; then you are to decide whether or not you care to continue to subscribe and want free advice on financial matters.

Surely this is a fair, square, liberal offer—so send your name before you turn this page.

H. L. BARBER, Room 421, 24 Jackson Blvd., Chicago, Ill.

"It's Time To Mend Your Ways"

Good roads are the red blood arteries of trade and travel. Such roads are best made and easiest maintained with

THE **GLIDE** Grader Leveller Ditcher

A Real Road Machine—A Demonstrated Success.

The Glide is made in two sizes:

No. 1—A two horse, one man machine—has proven itself to be the most successful lightweight road machine built, and to-day we rightly claim to have more of our No. 1 machines

in operation in all parts of this country and foreign lands than any other road machine manufacturers.

No. 3—Built for heavier work where 4 horses are required. Can be operated by one man if necessary.

INSURANCE IN ALL ITS BRANCHES

45 WILLIAM STREET, NEW YORK CITY

Fire, Marine, and Railroad Insurance effected on property located in any part of the United States. Life, Accident, Casualty, Liability, Fidelity, Bond, Rent, Elevator, Boiler, Sprinkler, Burglary and Theft, Tornado, and Plate Glass Insurance.

We have AGENTS and CORRESPONDENTS in all principal cities and abroad, and have special facilities for negotiating Insurance for Manufacturers, Merchants, Railroads, and property owners generally, at lowest possible rates, coupled with safest indemnity.

Our INSPECTION DEPARTMENT will analyze present Insurance Rates on our clients' properties for the purpose of discovering errors and overcharges; and will also suggest such changes and improvements as will tend to reduce the cost of their insurance.

We ADJUST ALL LOSSES for our customers without charge for our services, and have collected millions of dollars during the past fifty years. We have our own specialists in all branches of insurance whose technical knowledge and experience enable us to give best results to our clients.

We maintain a LAW DEPARTMENT in charge of our own Counsel, who passes upon all policies issued through our office and assists in the collection of our clients' losses. This Department is at the service of our clients in all matters connected with insurance law.

THE ACME FASTENERS

Would not the prevention of loss of one single legal document compensate the cost of a fastener outfit? Then again there is the convenience of keeping together important papers and communications for ready use.

Hundreds of users can testify to the value of these Wire Staple Binding Machines.

THE ACME No. 2
OUR BEST PRODUCTION
THE MIDGET

is designed for fastening papers and light fabrics. Used by Manufacturers and in Offices. Wonderfully convenient in the preparation of samples, etc. Holds 100 tinned steel wire staples. We do or can make any kind of stapling machine to serve your purpose perfectly.

STAPLES

ARE YOUR LUNGS WEAK OR PAINFUL?

DO YOUR LUNGS EVER BLEED?
DO YOU HAVE NIGHT SWEATS?
HAVE YOU PAINS IN CHEST AND SIDES?
DO YOU SPIT YELLOW AND BLACK MATTER?
ARE YOU CONTINUALLY COUGHING AND HAWKING?
DO YOU HAVE PAINS UNDER YOUR SHOULDER BLADES?

These are Symptoms of Catarrh, Bronchitis and

LUNG TROUBLE

You should take immediate steps to check the progress of these symptoms. The longer you allow them to advance and develop, the more deep seated and serious your condition becomes.

WE STAND READY TO PROVE TO YOU

absolutely, that Lung-Germine (German Treatment) has cured completely and permanently case after case of Chronic Bronchitis, Catarrh of the Lungs, Catarrh of the Bronchial Tubes, and other Lung Diseases.

Many sufferers who had lost all hope and who had been given up by physicians, have been permanently cured by Lung-Germine.

It is not only a remedy for Lung and Bronchial Diseases, but a preventive. If your lungs are merely weak and disease has not yet manifested itself, you can prevent its development, you can build up your lungs and system to their normal strength and capacity.

Lung-Germine has cured advanced Consumption, according to statements made by the patients themselves, in many cases over four years ago, and the patients remain strong and in splendid health today.

We Will Send You Proof Positive—Proof That Will Convince any Judge or Jury on Earth

We will gladly send you proof of many remarkable cures; also a FREE TRIAL of Lung-Germine, together with our new book on Consumption, Its Cause, Its Treatment.

SUPERIOR GRAIN DRILLS

In Illinois and Iowa where oats are sown in the stalks; in some of the Eastern States where farmers use a grain drill to sow beans, peas, etc., as well as small grains; in every country in the world wherever grain is grown, there you will find Superior Grain Drills at work planting the seed at an even depth—"Planting the Grain to Grow Again." No matter what your seeding conditions are, you can get a Superior Drill that will do the work right. "The Name Tells a True Story." Send for the Superior Catalogue. Read it and insist on your dealer showing you the Superior.

*THE AMERICAN SEEDING MACHINE CO. INCORPORATED
SPRINGFIELD, OHIO U. S. A.*

OUR WARRANTY

We unreservedly warrant every Grain Drill, Corn Planter, Corn Drill, Potato Planter, Broadcast Lime and Fertilizer Sower, Harrow, Cultivator, and every other machine of our manufacture, to be and to do ALL we claim for them. If, AT ANY TIME, a machine of our make shows defects in castings or workmanship, clearly our fault, we stand ready to make same good by repair or replacement.

THE AMERICAN SEEDING MACHINE CO., Inc., Springfield, Ohio, U. S. A.

BUCKEYE CULTIVATORS

Are made by men who know the Cultivator business from A to Z. They have had more than 50 years' successful experience. That's why we can sell Buckeye Cultivators under such a strong warranty. If they were not all we say they are, we would never dare guarantee them the way we do.

The new Buckeye Cultivator Catalogue should be in every farmer's possession. You will find in it just the style-cultivator you want, guaranteed to do everything claimed for it. Get this catalogue. Read it and then go to your local implement dealer and insist on seeing Buckeye Cultivators.

"The Buckeye—a Wise Buy."

The Springfield Metallic Casket

TRADE MARK.

This plate is on the end of every Springfield Metallic Casket.

Copyright—C. Deuble, Canton, O.

The McKinley Monument at Canton, Ohio. In this tomb lie the remains of the late President McKinley and his wife in Springfield Metallic Caskets of bronze.

SPRINGFIELD Metallic Caskets are indestructible. They are made of bronze, of cast metal or of steel.

They protect the bodies of your dead from the hideous violations of the earth. They keep the remains sacred forever. They place within the reach of everyone the protection which, formerly, only entire nations could yield to their saints and kings.

Their simple beauty is impressive and lends dignity to the last rites.

"The Final Tribute" tells of the efforts of all peoples, even savages to preserve the bodies of their dead. Write for it.

"Be Civilized!!"

Be civilized! Recognize the Truth and the truth shall make you Free—
from the ills and "horrors" due to Constipation Poison in your system.
Quit purging the bowels.

Nourish the bowel-nerves and thus
exercise the bowel muscles—they'll
do the rest. This won't strain, irri-
tate, nor drain the system of its al-
buminous fluids. Purging weakens
by taking these fluids from other
parts of the body to liquefy the
bowel's contents.

Physic mildly, by nourishing the
bowel-nerves with Blackburn's Cas-
ca-Royal-Pills. All druggists sell
10c and 25c packages.

THE CIVILIZED PHYSIC.

Have You a Cold?

Better Check It at Once—Neglect Often Leads To Serious Illness.

Oil of Pine is a splendid natural remedy for the treatment of throat and bronchial troubles. Because of its purity and freedom from opiates and narcotic drugs it is especially valuable for children. Two or three drops of the Pine, on a little sugar, affords speedy relief to the most obstinate cough, soothes the irritation and heals the inflamed mucous membrane.

Oil of Pine is often prescribed in the following formula, which, it is claimed, will break up a cold in twenty-four hours and cure any cough that is curable: Mix a half-ounce of Oil of Pine with two ounces of Glycerine and eight ounces (a half pint) of pure Whiskey. These ingredients can be purchased in nearly every first-class drug store and are easily mixed in a large bottle. A teaspoonful once in four hours is the usual dose.

Leach's Virgin **OIL of PINE**

Quickly allays all irritation and heals inflammation of the mucous membrane. Unexcelled for Coughs, Colds, Hoarseness and all throat and bronchial affections.

Sold by Druggists only in original 1/2-oz. vials as put up for dispensing by

LEACH CHEMICAL CO., Cincinnati, Ohio

PUBLISHERS VISITING NEW YORK

Are invited to call at the pressroom of *THE NEW YORK WORLD*
and witness in operation daily the wonderful new

“Augmented Octuple”

(72-PAGE)

DUPLEX ROTARY PRESS

which has upset all press traditions

This press can be seen producing 37 PER CENT. of *The World's* total output in two deliveries out of eight, averaging 75 PER CENT. MORE PRODUCT than corresponding presses of other makes in the same plant. (Figures from *World* pressroom records.)

THE NEW YORK TRIBUNE is now printed exclusively upon DUPLEX ROTARY PRESSES, the whole equipment in pressroom and stereotyping departments having been recently installed, the old-style skyscraper machines being entirely discarded in favor of this modern low-down construction. Any publisher interested is invited to inspect these machines in operation. The management will be glad to issue permits to pressroom.

The great simplicity of this press and its remarkable convenience are obvious at a glance. Its superiority over the "skyscraper" construction of other press builders is so great that they are already compelled to offer to build, and some of them are already building, machines of a similar type, in plain violation of our patent rights. We have brought suit in defense of these rights in the United States Courts and we hereby caution publishers against the purchase of infringing machines.

DUPLEX PRINTING PRESS COMPANY, Main

LONDON ADDRESS:

Linotype & Machinery, Ltd., 188 Fleet St., E. C. EASTERN OFFICE, WORLD

XLIV

The Duplex Tubular Plate Rotary Press

A New Feature Which Doubles the Productive Capacity of the Press

In the Duplex Single-Plate Rotary there is no collecting, no associating, no tapes, no half-speed cylinders. All sheets are cut **AFTER** passing over the former—not before, as in other makes. **ALL** products delivered **BOOK-FOLD** and **AT THE SAME RATE OF SPEED**, and with **NO DUPLICATE PLATES** and **NO WASTE SHEETS**.

THE DUPLEX TUBULAR SINGLE-PLATE 16-PAGE PRESS. CAPACITY: ANY EVEN NUMBER OF PAGES UP TO AND INCLUDING 16. SPEED: 30,000 PER HOUR FOR ALL PRODUCTS.

The **DUPLEX TUBULAR PLATE ROTARY PRESS**, carrying an equal number of plates, will give **TWICE THE PRODUCT** of any other press **IN THE SAME RUNNING TIME**—or, putting it the other way, **WILL DELIVER A REQUIRED PRODUCT IN ONE-HALF THE TIME**.

These are important claims, but more important still, they **HAVE BEEN PROVED**. The demonstration in a large number of important offices throughout the world is conclusive.

Your System Needs Such A Food as This

especially at this time of the year when winter has left you so susceptible to the ravages of sickness and disease. At this time, more than any other, your body requires a pure, wholesome, predigested liquid that is easily and quickly assimilated—one that will build up wasted tissues and weakened muscles—one that will strengthen and actually impart energy and vigor and life. That is why physicians everywhere recommend the use of

Pabst Extract The "Best" Tonic

a perfect food welcomed by the weakest stomach—containing all the nutritive and digestive properties of pure, rich barley malt and the quieting and restorative qualities of choicest hops in predigested liquid form. It is the ideal spring food—giving men and women just the right energy and strength to take their part in the battle of life.

Pabst Extract, The "Best" Tonic, is used all over the world to strengthen the weak and build up the over-worked; to relieve insomnia and conquer dyspepsia; to help the anaemic and turn nerve exhaustion into active, healthy vim; to encourage listless convalescence to rapid recovery; to assist nursing mothers and reinvigorate old age.

Encourages
Listless Con-
valescence

Order a Dozen from Your Druggist!—Insist Upon It Being Pabst
Free booklet, "Health Darts" tells ALL uses and benefits of Pabst Extract. Write for it, a postal will do.

Library Slip, good for magazines and books with each bottle.

The U. S. Government specifically classifies Pabst Extract as an article of medicine—not an alcoholic beverage.

L

SAVE \$8

Let us make to your order a fine tailored suit or overcoat which would cost at your local dealer's \$18 to \$30. Our direct-from-the-factory prices . . .

\$10
to
\$22

In the first place, and regardless of price, we can give you a better fitting and therefore more elegant and satisfactory garment than any clothing dealer simply because we make your suit **for you**—to your exact measure—adapted to your own figure. Ready-to-wear clothing is meant to fit a thousand different men fairly well, but we fit you **perfectly**—there's a big difference.

By doing business directly with you we of course entirely do away with the enormous expenses of the retailer's rent, clerk hire, light, advertising, etc. That saving goes to you in return for the slight task of sending for our catalogue and measuring yourself according to our perfectly plain and easy system of measurements. You take no risk whatsoever, for we absolutely guarantee to satisfy you, both as to fit and quality. We have pleased thousands of particular men, and can please you.

GLEN ROCK WOOLENS AND WORSTEDS **MADE TO YOUR MEASURE**

Our suits and overcoats are cut in accordance with the very latest New York City styles and are splendidly tailored by high-grade workmen. The linings are of best quality.

Don't overlook this chance to get better clothing than you ever bought ready-made, at a saving of at least \$8.00.

Send for our handsomely illustrated style book showing all the latest correct models and for a big assortment of pure Glen Rock Woolens and Worsted. Do it now—the book will absolutely convince you. It contains measurement blanks, tape and all necessary instructions.

Weak Eyes Need Exercise

If your eyes are affected in any way, they can be made strong and perfect again by restoring the normal circulation of blood.

If you wear glasses you know that they must be changed for stronger ones from time to time, showing that the eyes grow weaker.

For twenty years The Ideal Sight Restorer has been restoring perfect sight to thousands, and making them absolutely independent of Eye-Glasses—some of their visions were seriously affected, too.

By a simple and gentle exercise, given over the closed lids for 5 minutes twice a day, the normal and healthy circulation of blood is induced. Nature is aided in correcting the trouble, and the eyes rapidly regain their original strength and perfection.

To prove its efficiency to you personally we will be glad to have you try The Ideal Sight Restorer for 10 days before you decide to purchase.

Write to-day for interesting booklet No. 137 on the Care of the Eyes, and particulars of 10 days' test to

THE IDEAL CO., 134 West 65th St., N. Y.

EVERY THIN WOMAN CAN HAVE A SUPERB FIGURE WITHOUT PAYING A PENNY

Every woman wants a full, round bust, a symmetrical figure and shapely limbs. So no woman who reads this generous offer should, in fairness to herself, fail to respond to it. All you have to do is to write, saying: "Send me your free treatment and illustrated booklet."

By return mail we will send you, without a penny of cost, a sufficient quantity of Dr. Whitney's Nerve and Flesh Builder to give you the additional flesh that will add immeasurably to your style and attractiveness.

No matter whether your slimness is the result of sickness or inheritance, Dr. Whitney's Nerve and Flesh Builder will promptly build up and beautify your figure.

It acts directly on the fat-producing cells and fills out the hollow places. It will enlarge your bust measurement from 2 to 6 inches. And being a purely vegetable compound it cannot possibly do you any harm. Instead it actually benefits the health.

A special treatment can be obtained for developing the bust without enlarging other parts of the body.

Do not delay. Write to

THE C. L. JONES CO., 50 Friend Bldg., Elmira, N. Y.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the New Drug

An eminent skin specialist recently discovered a new drug, othine—double strength—which is so uniformly successful in removing freckles and giving a clear, beautiful complexion, that it is sold by all leading druggists under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask your druggist for the double-strength othine; it is this that is sold on the money-back guarantee.

Othine can be bought by the ounce from any druggist.

PATENTS

The Commissioner of Patents is reported to have said in an interview September, 1912, that—"a large percentage of the patents issued from this office are not good patents."

This is not surprising under present conditions. Inventors should awake to the fact that their patent applications should be prepared by one who is both a trained Engineer and a skilled Patent Lawyer.

The real value of a patent depends upon the expert preparation of the patent claims and the skilful prosecution in the Patent Office.

If your invention is worth anything at all, do not risk it in the hands of a mere tyro or shyster merely because he may advertise no fee until patent is obtained or money refunded, etc., as a bait to the uninitiated.

Industries are established upon patents prosecuted by me. Under date of Aug. 23, 1912, one client wrote me as follows:—

"Received your favor of the 17th, also copies of each of our patents, for which we beg to thank you.

"We beg to advise you that we have just a few days ago reorganized the company, and increased our Capital Stock from \$50,000.00 to \$500,000.00, and that in a very short time we will probably be in a position to give you more business."

Eugene C. Brown, Patent Lawyer

(Member of the Bar United States Supreme Court. Formerly Examiner U. S. Patent Office Over Nine Years.)

Patents, Trade Marks, Copyrights, Reports as to Patentability, Validity and Infringement. Patent Suits Conducted in All States.

Don't Envy a Superb Figure— Have One!

Many thousands of thin ladies, during the past 15 years of our remarkable success, have thought because they had always been thin that we could not help them. In every such case we have given these ladies a generous trial treatment of Dr. Whitney's Nerve & Flesh Builder without a penny of cost to them—The result is that they now have superb figures, with large, firm, beautiful busts, plump, prettily rounded shoulders and

perfectly developed limbs—their voluntary letters to us prove this, and you can write them personally if you so wish to prove it. We now offer you, absolutely free, the same generous trial treatment that did so much for them—it is entirely different from any other treatment, purely vegetable, safe, always builds up the general health and quickly beautifies and clears the complexion. No. 1 is the general flesh builder. No. 8 is for developing the bust alone, without enlarging other parts of the body. Say which one you prefer. Just send us coupon below and get your free trial in plain wrapper by return mail.

FREE TRIAL COUPON—Cut this out now. This coupon entitles the sender to one full trial treatment of Dr. Whitney's Nerve & Flesh Builder, provided it is the first trial sender has received. C. L. Jones Co., 50 Friend Bldg., Elmira, N. Y.

Baby Chicks

BEST QUALITY

*S. C. White Leghorns
and
Barred Plymouth Rocks*

WHY EXPERIMENT IN HATCHING when you can buy strong, healthy chicks, delivered in prime condition, at less expense and with no trouble?

THE BEST EVIDENCE of the superior quality of Kerr's Chicks is the immense demand for them. This has come about solely because of the splendid satisfaction given customers. MY BOOKLET TO YOU will prove the advantage in buying chicks. Write for it now. It is Free.

RICHARD A. KERR

FRENCHTOWN, N. J.

POTATO GROWING COSTS CUT IN TWO

DOES
NOT
INJURE
SEED

Double your potato profits. Minimize labor. Use a **Eureka Potato Planter**. Opens the furrow, drops seed accurately any distance or depth desired; puts on fertilizer if wanted, covers perfectly and marks for next row. Always plants uniform depth. Requires only one man. Driver sees seed drop. Made in three sizes, for one or two rows.

The Eureka Mulcher and Seeder

Is a mulcher, smoothing harrow, cultivator, weeder and seeder. Forms dust mulch and conserves moisture. Three sizes, 8, 10 and 12 ft. Lever with pressure spring regulates depth of cut. Pulverizes the soil. Levels the ground. Teeth are flat and can be removed to cultivate between rows. The driver rides.

Seeding boxes quickly attached to sow grass seed, alfalfa, oats, etc. Adjusts for seeding various quantities. Teeth cover seed thoroughly either shallow or deep. Economical in price—serviceable, strong. Prompt shipments from branch near you. Send for free catalog to-day.

Eureka Centre Draft Mower

45 Years on the
Market.

Improved for 1913.

The cut crop is left in almost standing position, and cures rapidly, retaining natural color. No Hay Tedder required. No trampling of cut crop. One-third saving in time and labor.

NO SIDE DRAFT. Mows back and forth on one side of field any direction desired, and avoids pulling up hill. **FASTEST CUTTING, GREATEST STRENGTH, LONGEST LIVED.** Cuts heavy growths of timothy and alfalfa that side draft mowers cannot.

Worke in orchards and between rows. Cuts weeds and brush in pastures. Made in 5 sizes for one or two horses.

EUREKA MOWER CO.,
Box 710, Utica, N. Y.

Sell Your Stories

THE Editor of Lippincott's Magazine, Dr. J. B. Berg Esenwein, in his Short-Story Course of forty lessons, will help you to give your stories the correct form and detail which only training makes possible.

Story writers must be **made** as well as **born**; they must master the details of construction if they would turn their talents to account.

Dr. Esenwein

May we send you the names of students and graduates who have succeeded? And the success their letters prove is **practical**. It means

recognition, accepted manuscripts and checks from editors. Let us send you our 250-page Catalog.

(Mrs.) Sallie P. Harrison of Tazewell, Va., says: "My first effort at short-story construction, done as a part of a lesson in the Home Correspondence Course, was accepted by a leading fiction magazine and I have been asked to do more along the same line. I am greatly indebted to The H. C. S."

We also offer a course in journalism taught by Ernest Newton Bagg, formerly literary editor of the Boston Globe; and in all over One Hundred Home Study Courses, many of them under professors in Harvard, Brown, Cornell, and leading colleges. Please address

The Home Correspondence School
Dept. 99E, Springfield, Mass.

Are You Interested in Farming?

ONE Hundred forty-six pages of information valuable to every man using farm implements is what this new John Deere book contains. It is the most complete implement book ever published. It illustrates and describes the best line of farm tools made. Tells when and how to use them. It answers every question about farm machinery. No man interested in farming can afford to be without it. Get it quick—it's free.

Soil Culture and Modern Farm Methods

Contains over 140 pages of practical information and data on the latest and best known methods of farming. All crops are discussed. It is fully illustrated. This book is an expensive publication

and in order to keep it out of the hands of those not necessarily interested in farming, it will be supplied free upon receipt of five cents in stamps, the exact amount to cover postage.

John Deere Implements Standard for Three Generations

The John Deere trade mark on the goods and the John Deere sign at your dealer's place mean more to you than all the claims and guarantees that can be put upon farm implements.

Wherever farm machinery has been used, for more than three generations, implements bearing the name "John Deere" have been the standard. You have the assurance of these years of successful experience in manufacturing back of every implement you buy when it bears the John Deere trade mark.

To Get the Books You Want

Ask us for package No. X-57, stating where you saw this advertisement. We will then send you "Better Farm Implements and How to Use Them" free. Name the other books you want. In case you want the Soil Culture book, do not neglect to enclose the postage.

Agricultural Books Free

IF any of the following special farming books, by prominent authorities, will be of interest, ask us for the one you want and you will get it Free.

Bigger Crops from Better Seed Beds—What proper seed bed preparation means. Single and double action disc harrows.

Better Hay and How to Make It—How to cure hay uniformly; how to avoid bleached or sunburned hay, etc. Hay rakes and loaders for all kinds of hay.

More and Better Corn—Careful selection of seed corn; how to produce a uniform and perfect stand. The proper planters and how to use them.

Value of Manure—How crop yields are increased by the use of manure and what spreaders distribute it most economically.

Corn Culture—Preparation of soil for the best corn, both in quality and quantity, with the styles and kinds of cultivators to use.

Truth About Plow Shares—How and of what material they are made and which are best.

Alfalfa—Its seeding, culture and curing, the bacteria necessary, the seed bed, the machines required.

John Deere Engine Plows—Cost of engine and horse plowing, how to operate engine plows and why some engine plows are better than others.

Science and Art of Plowing—When and how to plow under all conditions, with all kinds of walking plows.

When the Going Is Hard—Roller Bearing Steel Wagons, their construction and use.

How to Build Corn Cribs and Granaries—Blue print plans and cost of material. Storing and handling of corn, etc. What elevators are best for each kind of grain.

How to Buy a Wagon of Quality—John Deere Wagons; how they are made and why they are best.

50c Package of Remarkable Flesh Builder, Protone,
Sent Free to Prove What It Will Do.

It is astonishing to see the effects produced by the new flesh-increaser, Protone. To put on real, solid, healthy flesh at the rate of a pound a day is not at all remarkable with this new wonder.

Protone Will Make You Nice
and Plump

Protone induces nutrition, increases cell-growth, makes perfect the assimilation of food, strengthens nerves, increases blood corpuscles, builds up, safely and quickly, muscles and solid, healthy flesh, and rounds out the figure.

For women who never appear stylish in anything because of thinness, Protone may prove a revelation.

It costs you nothing to prove the remarkable effects of Protone. It is non-injurious to the most delicate system. The Protone Company, 5136 Protone Bldg., Detroit, Mich., will send you, on receipt of your name and address, a free 50c package of Protone, with full instructions, to prove that it does the work; also their book on "Why You Are Thin," free of charge, giving facts which will probably astonish you. Send coupon below to-day with your name and address.

FREE PROTONE COUPON

This coupon is good for a free 50c package (all charges prepaid) of Protone, the remarkable scientific discovery for building up thin people, together with our free book telling why you are thin, if sent with ten cents in silver or stamps to help cover postage and packing, and as evidence of good faith, to

Deaf People Hear Whispers

With Common-Sense Ear Drums—
"Wireless Phones for the Ears."

For twenty years the Common-Sense Ear Drums have been giving good hearing to hundreds of thousands of deaf people, and they will do the same for all who try them.

Every condition of deafness or defective hearing is being helped and cured, such as Catarrhal Deafness, Relaxed or Sunken Drums, Thickened Drums, Roaring and Hissing Sounds, Perforated or Partially Destroyed Drums, Drums Wholly Destroyed, Discharge from Ears—no matter what the cause or how long standing the case may be, there is hope of good hearing for all the afflicted deaf.

The Common-Sense Ear Drum is made of a soft, sensitized material, comfortable and safe to wear. They are out of sight when worn, and easily adjusted by the wearer.

Good hearing brings cheerfulness, comfort and sunshine into the life of the lonely deaf.

Our Free Book, which tells all, will be sent on application. Write for it to-day to

Greatest Robber of the Pay Envelope—Drink

A Rensselaer Woman Says Renova Means Full Pay Envelopes

This is her experience—her own story in her own words. "I hope you will excuse me for keeping your letter as long as I have, but as it was near time for my husband to be paid again, I thought it best to wait and see how he acted, as he only drinks on the day he is paid. I am thankful to say he came home sober two different pay days."

Has this any significance for the family that is deprived of necessities and comforts because some one spends half his pay on drink? The remedy the Rensselaer woman writes about is Renova and you can get it at the drug store and put it in his tea or coffee and he won't know a thing about it, for it is tasteless and absolutely harmless. If there's a drinker in your family get it—get it right away—give it to him secretly, any way at all—but give him Renova and see if very soon you're not the happiest family in the world.

If you'd like to try it—free—before you buy a whole package, write in confidence to the Renova Co., 200 Broadway, Branch 110, New York, for a sample and proofs of what Renova does for victims of intemperance.

"If I Were a Young Man"

—Says LUTHER BURBANK, the Greatest Living Horticulturist
"I'd devote my life to the Pecan Nut, knowing as I do the possibilities of the Pecan Industry."

It is rare that an opportunity of saving and investing money in small amounts where it will yield such large returns with absolute safety of principal is given the business man of to-day. We assume all risk.

A PECAN GROVE ASSURES YOU AN INCOME FOR LIFE

and is *ten* times more valuable to you than *Life Insurance*. *Look into it*. Write to-day for

The Vanderbilt Hotel

"A Hotel of Distinction with Moderate Charges"

Thirty-fourth Street East at Park Avenue
New York City

SITUATION unique on the high ground of Murray Hill on New York's broadest avenue, at the threshold of the shopping district, convenient to the

theatres, three minutes from New York Central, New York, New Haven and Hartford and Pennsylvania Railway terminals. Subway station at the door.

"In the world but not of it."

The only residential building in the world in which no combustible material has been used.

In plan 600 rooms are exposed to direct sunlight and so disposed that without here is a most charming winter home.

Each bedroom has a private bath.

The central location of the hotel on a broad avenue makes it a favorite stopping place for visitors by automobile. Dressing rooms for automobilists—both ladies and gentlemen—will be found on the Mezzanine Floor. Arrangement with a nearby garage provides for the care of the visitor's car. Touring cars may be rented by the hour, day or week at reasonable rates.

An invitation is extended to inspect the various departments of the hotel, particularly the kitchens and wine cellars. Upon request guides will be sent from the office.

FUNSTEN Pays CASH for FURS!

We Want Ten Million Dollars' Worth of Furs

Biggest Prices! Better Grading! Most Money by Return Mail!

**LARGEST
IN THE
WORLD**

Those are the advantages you have in sending your furs to Funsten. We are the largest in the world in our line. The biggest American, Canadian and European buyers are represented at our regular sales. Competition for Funsten Furs is greatest. As we sell furs in larger quantities and get more spot cash, we can pay you more cash for yours than you can get anywhere. We count on large volume of business and small margin of profit. No traveling buyers—do all our business direct with you. We want ten million dollars' worth of furs. We want your shipments, **anything**—from one skin up.

Big Money in Trapping Do trapping during spare time. It's good sport and pays big. Mink, coon, skunk, muskrat, fox, wolf, lynx, white weasel and all kinds of furs are valuable.

Traps To accommodate trappers and shippers we furnish traps, including the famous **VICTOR**, at factory cost. Largest stock in U. S.

Funsten Animal Bait Guaranteed to increase your catch or money back. Beware of imitations. Funsten Animal Baits won Grand Prize at World's Fair in 1904.

U. S. Government uses Funsten Baits. One can of Funsten Animal Bait brought one man in St. Michaels, Alaska, \$1,199 clear profit. Costs only \$1 a can. Different kinds for different animals. Whether you are an experienced trapper or just a beginner, we can help you catch more furs—make more money. Write today for free Trapper's Guide, Game Laws and Trapper's Supply Catalog—three books in one—Fur Market Reports, Funsten Safety Fur Shipping Tags, etc. **ALL FREE.**

NEW YORK LAND

has produced more permanent, substantial fortunes than any other form of investment. There is no safer or more profitable security known. Statistics prove the steady enhancement of New York Realty regardless of general business or political conditions.

We are engaged in the acquisition of New York Real Estate for the income derived from PERMANENT OWNERSHIP. During 16 years we have amassed a large estate for our security holders, have returned to them over \$1,200,000; have paid continuous and increasing dividends, and accumulated \$1,000,000 surplus.

By associating the funds of hundreds of investors, large and small, through corporate ownership, we accomplish results impossible by individual effort.

WE OFFER TWO FORMS OF INVESTMENT:

6% GOLD BOND

based upon permanently owned New York real estate. \$5.00 in assets against every dollar issued. Term, 10 years; denominations \$100, and multiples thereof. Interest paid semi-annually by check (unbroken interest record for 16 years). This bond has become a standard security the country over. Issued upon receipt of price, or can be bought on instalment payments over a period of years.

CONV. BOND

Issued on three different plans, each affording you the opportunity to participate in the full profits and surplus of the Company at maturity (10 years), while securing substantial interest return on your investment in the meantime. Purchasable outright or on yearly or half yearly payments.

Circular Y fully describes our business and will be sent free upon request.

Here is a New Twist to the Advertising Pencil Idea

SEND each of your customers three assorted pencils in a box as illustrated. His own name on each pencil will please him immensely and make him keenly appreciative of your favor. YOUR name on the cover of the box will be one of the most effective forms of publicity that you can imagine. It allows ample room for a good big ad. and will be read as you see under conditions very favorable to the consideration of your proposition.

This combination has an irresistible appeal to every man with a keen sense of publicity values. The cost is very little. Your name on the cover of the box—your customer's name on each pencil in gold.

Unconsciously to him you secure in this way your customer's good will and get his orders. Every time he sees his own name on his pencil he thinks of your clever advertising idea and is reminded to order of you.

4 in 1 Magazine

Contains 4 leads full length of holder, about 4 in. On its surface may be displayed a six-line ad., trademarks, etc.

"AD" PENCIL

ROUND PENCILS

Prepared for advertising purposes, showing trade marks, etc. Our full line comprises a wide range of pencils in grades suited for any special office use or general distribution.

and

PENHOLDERS

office use or general distribution.

FARRAR PENCILS

are the finest grade ever produced—and may be obtained in any quantity desired.

For Large Firms

who value pencil quality and buy in large quantities. FARRAR pencils afford the *most* in satisfactory service and money-saving possibilities.

In order to realize FARRAR Superiority *you must see* FARRAR PENCILS. To make this easy we will promptly send assorted samples to business firms requesting on their letterheads. FARRAR QUALITY AND FARRAR PRICES will surprise you. *Write on your letterhead to-day.*

Play Billiards at Home!

The Famous Brunswick Billiard Tables—
Home Sizes, Attractive Prices, Easy Terms

"THE CRISIS"

From the Painting by C. Everett Johnson.

Multiply the attractions and delights of home by providing a beautiful Brunswick Home Billiard Table on which all can play real billiards! Practically the same in playing qualities as our larger sizes used in exclusive "Millionaires' Clubs."

BRUNSWICK "Baby Grand" BILLIARD OR POCKET-BILLIARD TABLES

World's finest home billiard tables. Genuine mahogany, inlaid design, highly finished. Celebrated Baby Monarch Cushions. Vermont Slate Bed. Concealed drawer holds Complete Playing Outfit. Also various styles instantly convertible from Billiard Table to Davenport, Dining or Library Table. Complete Playing Outfit free with each table.

Clergymen, Physicians, Educators Say—"Play Billiards"

The high opinion won by billiards as an ideal game for young people is shown by the many Y. M. C. A. Branches, Institutional Churches and Church Clubs which maintain Billiard Rooms.

Clergymen, Physicians and famous Educators are strong advocates of billiards.

"Billiards—The Home Magnet"—Free

Home Billiard Table.

The Schwarzlose Automatic Pistol

Manufactured by Warner Arms Corporation, Brooklyn, N. Y.

Eight trigger pulls, eight consecutive shots. Loaded automatically from the magazine. Only one shot to each trigger pull. The Schwarzlose is modelled so that the barrel registers with the natural pointing line of the forefinger.

Burglars and Hold-Up Men Fear the Schwarzlose

Advantages Over Other Automatic Pistols: A 4-inch barrel, with pistol only 5½ inches long over all; weight, 8 ounces. **Greater Range, Greater Accuracy and Greater Penetration** than others, because of its solid breech. Remember, "The Schwarzlose" is not a blow-back breech; barrel slides forward to function. **Important:** The Schwarzlose has the only positive safety which can be instantly operated by right or left hand. **In Construction it is Simplicity Itself.** Less parts than any other automatic. Men experienced in firearms recognize its superiority over other pocket firearms, and frankly admit it has others beat.

Our Factory Building

FREE TRIAL

Effective
Shooting
Range 200
Yards.

Reliable to the Extreme. Unequaled in Accuracy. Made under A. W. Schwarzlose patents, whose Automatic Arms have been adopted by European Armies. **Don't Buy a Pocket Arm** until you have seen a Schwarzlose. If your dealer has not one, don't take his "just as good" or "better sort," but write to us for illustrated description, booklet and expert opinions showing the superior features of this new, moderate-priced, "Faultless Automatic Pistol," free trial offer, etc. It shoots 32-calibre automatic cartridges, same as all other American automatic pistols. All parts are made to gauge and are interchangeable. Get the latest and best; it costs no more. Your dealer should keep it; if not, write to the manufacturers and get posted on the latest and best pocket arm made. New principles and novel features are employed, namely: all action being enclosed tight to exclude dirt, etc.

THE ELECTRIC RESPIRONE

(REG. U.S. PATENT OFFICE)

CAN ALSO BE FURNISHED WITH BATTERY

Is the latest and most effective achievement of Medical Science in the treatment of diseases of the nose, throat, bronchial tubes and lungs.

It has accomplished the much desired and long sought for method of applying the essential remedies directly to the parts affected without the necessity of taking any medicine into the stomach.

The six different formulas are the result of five years of experiment and research in the study of respiratory diseases and their causes. These formulas may be said to be the last word in respiratory medicine.

They have been compounded of the costliest ingredients by the foremost medico-chemists and are used in their full strength without any dilution with a cheaper element.

The great value of these formulas is conceded by the medical profession, but without a proper method of application the greater part of their efficiency would be lost. In the Respirone there has been developed a method that will successfully apply these formulas directly to the seat of the disease. In this manner an ideal remedy has been effected. It will not irritate inflamed membranes but acts quickly, alleviating congestion and soreness.

FORMULA

A-1. Catarrh and Colds
A-2. Asthma

A-3. Hay-Fever
A-4. Tonsilitis and Bronchitis

A-5. Pneumonia
A-6. Consumption

The Electric Respirone stands entirely on its own merits and if not entirely satisfactory may be returned to us and money will be immediately refunded. Write for complete information.

SECRET SERVICE STORIES

"Between the Lines"

told by Bvt. Major H. B. Smith, Chief under Major Gen'l Lew Wallace. (Civil War) 343 pages, vellum de Luxe.

Secret Service Stories of the Civil War that have never been told before.

Although many times imperturbed by friends, the author has refrained from telling the stories publicly, until time should have worn off the sharp cutting edge of disappointment.

This, the Semi-Centennial Season, is surcharged with reminiscences, indulged in by both the Blue and the Gray, with no show of bitterness, and is pre-eminently the time for even a Sphinx to try to contribute to the general fund of stories. They are told in a spirit that will gratify without wounding. \$1.25 mailed.

BOOZ BROS., Room 101, 314 W. 53d Street, New York

This 84-Page Book Free to You

YOU will be interested in the handsome booklet we have prepared, showing actual pages of the Encyclopedia Americana, with beautiful color-plates and fascinating illustrations.

Simply fill in the coupon below, mail it to us, and the booklet will reach you postpaid and free of cost. It describes the latest (1912) edition of the

ENCYCLOPEDIA AMERICANA

a universal reference library, covering the entire range of the world's knowledge. Concise, readable and understandable—very different from the usual prosy "encyclopedic" style.

Contains more subjects of living interest to the American people than any other. Prepared for Americans by Americans (assisted by over 2,000 of the greatest scholars and authorities of both hemispheres).

The new India-paper edition is extremely convenient—volumes are about one inch thick—very handy to carry and to hold while reading.

CASH for Your OLD Encyclopedia

If, in sending the attached coupon, you will state the name and date of publication of your old encyclopedia, we will make a liberal allowance in exchange for a set of the Encyclopedia Americana.

"Here Is Your Answer" in
WEBSTER'S NEW INTERNATIONAL
DICTIONARY—THE *MERRIAM WEBSTER*

Even as you read this Almanac you likely question the meaning of some new word. A friend asks: "What makes mortar harden?" You seek the location of Loch Katrine or the pronunciation of jujutsu. What is the Monroe Doctrine? What is white coal? etc., etc. YOU often long for a quick, accurate, encyclopedic answer. This NEW CREATION is an encyclopedia — equivalent in type matter to a 15-volume set. It answers all kinds of questions in Language, History, Biography, Fiction, Foreign Words, Trades, Arts and Sciences, with final authority. It is

used as the standard of the State Supreme Courts, which can be said of no other dictionary.

UNITED STATES COURT OF CLAIMS, Washington, D. C., says:

"Especially valuable is the New International Dictionary to all persons engaged in literary, scientific and professional work. This court finds the legal definitions accurate, and, in fact, of so full and extensive a character as practically to supersede the necessity for the publication of separate law dictionaries. Without hesitation we beg to say that the work is really a necessary adjunct to our daily labors."

400,000 Words Defined.

6,000 Illustrations.

2,700 Pages.

Cost \$100,000.

The only dictionary with the new divided page—characterized as "A Stroke of Genius."

WRITE for specimen pages, full particulars, etc. Name the *World Almanac* and receive FREE a set of pocket maps.

“You Have Learned How to Think —Take Charge”

“Your Sheldon training has increased your value to me and to yourself at the same time. It has trained you how to develop and use the very powers that most men allow to lie dormant. It has made you an executive before you realized it because it has taught you how to go ahead without supervision. This is a big jump for you, but it’s only a start if you keep on the way you have begun.”

Sheldon Develops and Trains Your Own Unused Strength

Few men ever use more than one-tenth of their full mental powers. Almost unlimited possibilities await the man who will develop his own dormant resources.

The new Sheldon Business Building Course teaches you how to think clearly and constructively in a straight line. It shows you how to use and apply the fundamental laws that absolutely govern success in every branch of business.

Every single word is thoroughly practical. Every lesson marks an immediate step forward toward success.

The Sheldon School

670 Republic Bldg., Chicago
300 Fifth Avenue, New York
Birkbeck, Bank Chambers,
London, England.

To Employers

The Sheldon Course in Business Building is the applied science of business in concentrated, practical form.

2,500 concerns that recognize the value of increasing the efficiency of their own organizations from the inside are now taking up the course officially with their employees. The results are remarkable. We shall be glad to supply you with the names of several in your own vicinity and allow you to communicate with them direct.

Send Now for the Sheldon Book

The coupon below or a postal or letter will bring you the valuable book, “The Service Idea,” and clear, complete, detailed information. No obligation whatever. It will only take a couple of minutes to get this information—it may be worth thousands of dollars to you. Send now.

Vapo-Cresolene

Established 1879.

FOR Whooping Cough, Spasmodic Croup, Asthma, Sore Throat, Coughs, Bronchitis, Colds, Diphtheria, Catarrh.

A simple, safe and effective treatment avoiding drugs.

Vaporized Cresolene stops the paroxysms of Whooping Cough and relieves Spasmodic Croup at once.

It is a boon to sufferers from Asthma.

The air carrying the antiseptic vapor, inspired with every breath, makes breathing easy, soothes the sore throat and stops the cough, assuring restful nights. It is invaluable to mothers with young children.

Cresolene relieves the bronchial complications of Scarlet Fever and Measles and is a valuable aid in the treatment of Diphtheria.

Cresolene's best recommendation is its 30 years of successful use. Send us a postal for Descriptive Booklet.

FOR SALE BY ALL DRUGGISTS.

Try Cresolene Antiseptic Throat Tablets for the irritated throat, composed of slippery elm bark, licorice, sugar and Cresolene. They can't harm you. Of your druggist or from us, 10c. in stamps.

THE HOUSEWIFE

THE HOUSEWIFE MAKES THE HOME,
AND THE HOME MAKES THE NATION

Of all the women's publications, THE HOUSEWIFE is the only one that a woman positively needs. As soon as the first copy reaches the home it becomes a valued member of the family, and continues so. Hundreds of happy subscribers say that they could not keep house without THE HOUSEWIFE. It is so bright, helpful, practical, entertaining and so thoroughly clean and wholesome that its presence is a constant encouragement and inspiration to the housekeeper. Its aim is to

brighten the home, save money and labor for the home maker, advise and instruct her on all household problems, and furnish her with absorbing, fascinating reading for her leisure hours. Every line teems with interest.

THE HOUSEWIFE contains short and serial stories by the best and most popular writers of the day, and these are illustrated by artists of national repute. The cover each month is a beautiful example of color work, and is well worth framing as a household decoration.

During its twenty-nine years of life THE HOUSEWIFE has enjoyed the reputation of the most "homey" magazine at any price.

The offers below will save you money by giving you splendid magazines at a club rate—a very positive saving to every one

PATENTS

Trade Marks and Copy-
rights Secured or Fee
Returned

Special Offer—Free Search of Patent Office Records

Send us a model or sketch and description of your invention, and we will make a *Free Search* of the *Patent Office Records* to ascertain if it is patentable. If we report the invention patentable we will guarantee to obtain a patent or return our fee, and furnish a certificate of patentability backed by a bonded contract to that effect.

This Certificate of Patentability will protect the inventor and serve as proof of the invention until the case can be filed in the U. S. Patent Office.

OBTAINING ASSISTANCE FOR INVENTORS

Our certificate is of great assistance to inventors who require financial aid to obtain patents.

OUR FOUR BOOKS MAILED FREE to any address. Send for these books—the finest publications ever issued for free distribution.

HOW TO OBTAIN A PATENT

Our illustrated eighty-page Guide Book is a book of reference for inventors, and contains 100 mechanical movements illustrated and described.

FORTUNES IN PATENTS

Tells how to invent for profit, and gives history of successful inventions.

WHAT TO INVENT

Contains a valuable **LIST OF INVENTIONS WANTED** and suggestions concerning profitable fields of invention; also information regarding prizes offered for inventions, among which is **PRIZE OF ONE MILLION DOLLARS.** offered for one invention, and \$10,000 for others.

PATENTS THAT PAY

Contains letters from our clients who have built up profitable enterprises founded upon patents procured by us; also endorsements from prominent inventors, manufacturers, Senators, Congressmen, Governors, etc.

Wanted Ideas

LIST OF PATENT BUYERS contains requests from **MANUFACTURERS** and **PROMOTERS** for patents secured by us, and suggestions as to **New Ideas** they wish to purchase.

WE ADVERTISE OUR CLIENTS' INVENTIONS FREE

in a list of Sunday newspapers with two million circulation, in manufacturers' journals and in the *World's Progress*. Sample Copy Free. We save you time and money in securing patents. After the patent is granted we assist you **TO SELL YOUR PATENT.**

10 DAYS' FREE TRIAL

We will ship you a "RANGER" BICYCLE on approval, freight

prepaid, to any place in the United States without a cent deposit in advance, and allow ten days' free trial from the day you receive it. If it does not suit you in every way and is not all or more than we claim for it and a better bicycle than you can get anywhere else regardless of price, or if for any reason whatever you do not wish to keep it, ship it back to us at our expense for freight and you will not be out one cent.

LOW FACTORY PRICES We sell the highest grade bicycles direct from factory to rider at lower prices than any other house. We save you \$10 to \$25 middlemen's profit on every bicycle. Highest grade models with Puncture-Proof tires, Imported Roller chains, pedals, etc., at prices no higher than cheap mail order bicycles; also reliable medium grade models at unheard of low prices.

RIDER AGENTS WANTED in each town and district to ride and exhibit a sample 1913 "Ranger" Bicycle furnished by us. You will be astonished at the wonderfully low Prices and the liberal propositions and special offer we will give on the first 1913 sample going to your town. Write at once for our special offer.

DO NOT BUY a bicycle or a pair of tires from any one at any price until you receive our catalogue and learn our low prices and liberal terms. BICYCLE DEALERS, you can sell our bicycles under your own name plate at double our prices. Orders filled

the day received.

TIRES, COASTER-BRAKE

rear wheels, inner tubes, lamps, cyclometers, parts, repairs and everything in the bicycle line at half usual prices. DO

NOT WAIT, but write to-day for our Large Catalogue beautifully illustrated and containing a great fund of interesting matter and useful information. It only costs a postal to get everything. Write it Now.

Don't Row It—"Evinrude" It

1. The "Evinrude" Detachable Row Boat Motor can be clamped to the stern of any row boat, round or flat bottom, in one minute.
2. Is adjustable for depth and angle of stern.
3. Is weedless and rudderless. Steers by propeller alone.
4. Develops full 2 H. P. and is guaranteed to drive an ordinary row boat 7 to 8 miles an hour.
5. Weighs but 50 pounds and is conveniently carried in canvas case.
6. Can be run slow enough for trolling.
7. No oil nor grease cups. Oil is mixed with gasoline, lubricating the entire engine.
8. Is reversible. Starts half turn of fly-wheel.
9. It is powerful enough to tow several boats. Its simplicity enables women and children to operate it with ease.

Send for beautifully illustrated catalog.

Why Internal Bathing Preserves Perfect Health

You cannot be healthy unless you keep your system absolutely free from waste matter.

For when the bodily waste is not promptly removed the blood passing through the intestines absorbs the deadly poisons and carries them back into the vital organs. Your powers of resistance against infection are thereby weakened. Headache, palpitation, sallowness, dizziness and a multitude of ills are the result. Moreover, you are exposed to the attacks of countless other serious and often incurable diseases.

The only natural way to keep the system absolutely free from this noxious waste is by means of the

J. B. L. Cascade

This is a scientific appliance built on the most approved medical principles. It thoroughly cleanses and purifies the system without the use of drugs. Moreover, it helps to strengthen the vital organs and aids the entire system to perform its functions naturally. It can be used by any one at home without the slightest trouble.

Stopped Chronic Headache

Dear Doctor—Some three months ago I ordered one of your "Cascades," thinking it might do something toward relieving me of violent headaches to which I am subject every two or three weeks. I knew these headaches were due to clogging up of the system and to overwork, and looked forward to them with dread. I have used the "Cascade Treatment" about five times, and at such times as I feel the headache coming on. No treatment has ever relieved me as has yours. You may make use of this if you think it will save any one from suffering the distress that I have passed through since boyhood days.

Very truly yours,

D. B. HAND, M. D., Scranton, Pa.

Makes the
Deaf Hear Perfectly

And is
Sent On 10 Days' Free Trial

The new Sound-Regulating Acousticon is a marvellous improvement in hearing devices, for by moving a tiny lever the degrees of sound may be instantly regulated—It will magnify sound upwards or downwards to exactly suit the needs of the affected ears, and the conditions under which you are listening.

It has been so unfaillingly successful that we feel we can well afford to say to all those who are deaf, "Give us one opportunity to make you hear. If you are not convenient to our offices take the new Sound-Regulating Acousticon and try it in your home for 10 days. If it does not make you hear, return it and you will owe us nothing."

The Sound-Regulating feature of the Acousticon is a recent achievement; but the proof that even without this great improvement the Instrument was most efficient lies in the fact that

The Acousticon

is now being used by over 70,000 Deaf People and over 500 Churches, Theatres and Public Buildings

So if you are hard of hearing—or, above all, if you have made up your mind that nothing can make you hear—just fill in the coupon to-day, and at least prove to your own satisfaction and without out cost or penalty of any kind, whether this Sound-Regulating Acousticon will do it or not. We are sure that it will or we would not make you this offer.

General Acoustic Co.
1265 Broadway, New York City

The Vast Majority of Patients I Treat are Those Who Have Failed With Other Treatments

You may feel discouraged on account of past failures; patent medicines may have proven worthless—your home doctor may have exhausted himself—even pronounced your case incurable—but this does not prove that I cannot help you. The worst cases come to me. My treatment may be a surprise to you. Set aside your doubts; try once more. Try at my expense. You have nothing to lose.

Send No Money

Just mark with a cross X in the coupon any of the different symptoms you have and send it to me, and I will send you the treatment free so you may make a personal test of just what my medicine will do.

This Treatment Will be Delivered by Mail, POSTAGE PAID, Right to Your Own Door Without One Cent of Expense to You

I repeat—you are under no obligation to accept this free offer. No contracts; no express charges. I will pay the postage myself and deliver the treatment right to your own door without one cent of expense to you. Do not delay; do not argue. Just say to yourself "If Dr. Jiroch has so much confidence in his ability and his treatment to go to all this expense I am going to let him try." Put an X mark before the symptoms you have, two XX marks before your worst symptoms, sign your name and address to the attached coupon, cut it out and mail it to me to-day. It will obligate you to nothing. Just let me try to help you.

Accept My Liberal Offer

Fill out the Coupon Carefully. Mark Your Symptoms. Sign Your Name in Full with Your Address and Mail It to Me Without Delay.

YOUR HEART

Does it Flutter, Palpitate or Skip Beats? Have you Shortness of Breath, Tenderness, Numbness or Pain in left side, Dizziness, Fainting Spells, Spots before the eyes, Sudden Starting in sleep, Nightmare, Hungry or Weak Spells, Oppressed Feeling in chest, Choking Sensation in throat, Painful to lie on left side, Cold Hands or Feet, Difficult Breathing, Dropsy, Swelling of the feet or ankles, or Neuralgia around the heart? If you have one or more of the above symptoms of heart disease, don't fail to use **Dr. Kinsman's Celebrated Heart Tablets**, the remedy which has made so many marvellous cures. Not a secret or "patent" medicine. One out of four has a weak or diseased heart. Three-fourths of these do not know it, and thousands die who have been wrongfully treated for the **Stomach, Lungs, Kidneys or Nerves**. Don't drop dead like hundreds of others when **Dr. Kinsman's Heart Tablets** will cure you.

FREE TREATMENT

Any sufferer sending their name and P. O. address to **Dr. F. G. Kinsman**, Box 860, Augusta, Maine, will receive a box of Heart Tablets for trial by return mail, postpaid, free of charge. Don't risk death by delay. Send at once.

I COULDN'T Give You a Better Hatcher if I Charged You \$100 for It Yet My Price Is Only

\$7⁵⁵
Freight Paid East of Rockies

Sold on One, Two or Three Months' Test

YOU can't get anything better than the best—then why pay more than I charge for my World's Championship Belle City Incubator? It has won the double world's championship in over 5,000 hatches—that makes it best of all—no matter what the price. Order from this advertisement if you wish to. Thousands do. Here is a description of the machine you will get: 140-Egg Belle City World's Championship Incubator has simple, perfect self-regulator, correct hot water heating system, copper tank and boiler, safety-lamp, double walls and double door, with dead air space all over, with roomy nursery, strong egg tray and high legs. I also supply "Tyco's" thermometer, egg tester, burner, funnel, everything you need, including valuable instruction book on operation, hatching and care of chicks.

\$11.50 Combination Offer

Gets my Belle City 140-Egg Incubator and my 140-Chick Hot-Water Brooder; guaranteed to raise more healthy chicks than any brooder made.

140-Chick Brooder

It is double-walled, hot-water, top-heated, metal safety lamp and burner, wire runway yard with platform. Absolutely the most perfect chick raiser made to-day.

\$4.85

We ship quick from St. Paul, Buffalo, Kansas City or Racine.
140-Egg Incubator \$7.55

By ordering together you save 90 cents—by ordering from this advertisement, save time. Doesn't it seem reasonable to buy your machine from me, as thousands of people do, right from this advertisement? Let me send you my portfolio "Hatching Facts."

Tuberculosis

Its Diagnosis, Treatment and Cure

Free

NEW TREATISE ON TUBERCULOSIS

By Freeman Hall, M. D.

This valuable medical book tells in plain, simple language how Tuberculosis can be cured in your own home. If you know of any one suffering from Tuberculosis, Catarrh, Bronchitis, Asthma or any throat or lung trouble, or are yourself afflicted, this book will help you. Even if you are in the advanced stage of the disease and feel there is no hope, it will instruct you how others, with its aid, cured themselves after all remedies tried had failed, and they believed their case hopeless.

Write at once to the Yonkerman Co., 5624 Water St., Kalamazoo, Mich., they will gladly send you the book in English, German or Swedish, by return mail FREE and also a generous supply of the new Treatment absolutely Free, for they want you to have this wonderful remedy before it is too late. Don't wait—write today. It may mean the saving of your life.

FRENCH—GERMAN SPANISH—ITALIAN

Is Easily and Quickly Mastered by the

LANGUAGE - PHONE

METHOD
Combined with the
Rosenthal Method of
Practical Linguistry

This is the natural way to learn a foreign language. You hear the living voice of a native Professor pronounce each word and phrase. He speaks as you desire—slowly or quickly, night or day, for minutes or hours at a time.

It is a pleasant, fascinating study; no tedious rules or memorizing. Not expensive—all members of the family can use it. You simply practice during spare moments or at convenient times, and in a surprisingly short time you speak, read and understand a new language.

The method is highly endorsed and recommended by well-known members of the faculties of the following universities and colleges:

Yale, Columbia, Chicago, Brown, Pennsylvania, Boston, Princeton, Cornell, Syracuse, Minnesota, Johns Hopkins, Virginia, Colorado, Michigan, Fordham, Manhattan, De La Salle, St. Joseph's, New York, U. S. Military Academy.

Send for interesting booklet, particulars of free trial offer and terms for easy payments.

THE LANGUAGE-PHONE METHOD

New York.

The Brush Electric Lighting Set

Made in sizes from 4 to 20 horsepower, engine direct-connected to dynamo; requires small floor space, and is suitable for use with gasoline, kerosene or gas.

The Brush Electric Lighting Set is a very compact unit, simple in design and construction, and can be readily handled and cared for by those who are not experts. The quality of electric light produced by this outfit is superior to that usually furnished by electric lighting stations, and the cost is from one-half to one-quarter the price charged by these stations.

There are very many uses to which the electric current may be put besides that of lighting, such as cooking, washing and ironing and the use of dozens of other household conveniences.

Our 125-page catalogue is the most complete work on isolated electric generating plants ever published, and will be sent post-paid to any address upon application.

DID YOU BREAK IT?

BUY A BOTTLE OF

It will permanently mend china, glassware, furniture, meerschaum, vases, books, etc. Also Leather and Rubber cement. All three kinds 15c per bottle from your dealer.

Pumping Machinery of Proved Economy

The "American" Trade-Mark on a pump is a guarantee of quality, because it represents 43 years' experience specializing in pump building, and the designs, material and workmanship have always been the best produced.

Moreover "American" Pumps succeed where others fail, because they are made in types to meet every possible pumping condition instead of attempting to adopt location to a single style of pump.

"American" Centrifugals are made in over 50 regular styles in any size, in both horizontal and vertical types and equipped with any power. Described in catalog 117.

"American" Deep Well Turbine Centrifugals are the most successful development of the centrifugal principle of pumping for deep wells. Described in catalog 124.

"American" Deep Well Plunger Pumps have been the world's standard in this type of pump for many years. Described in catalog 110.

The American Well Works

General Office and Works: Aurora, Ill.
Chicago Office: First Nat. Bank Bldg.

What "Rumely" Means to the World

Rumely power-farming machinery is reducing the cost of living in all parts of the world. It is providing a better and cheaper way for the farmer to do his plowing, cultivating, threshing, hauling, baling, pumping and scores of other things about the farm. The Rumely *Oilpull* Tractor alone has made cheaper wheat and cheaper bread by opening up thousands of acres of virgin land.

What "Rumely" Means

Especially to the Individual Farmer

To every farmer in particular the name Rumely stands for something else besides. It represents a solid reputation—60 years of experience in making farm machinery the best way it can be made—60 years of selling at fair prices and on fair terms.

No matter what the size or nature of the farm, there are Rumely machines for it.

Are You a Homeseeker?

¶ If you are you're probably looking for information. Do you know that Long Island is the nearest and most easily reached of any of the suburbs around New York? Every facility, every comfort is at the fingers' ends of the New York business man who makes his home on Long Island. The Pennsylvania Station, at 32d Street and 8th Avenue, amply serves the man uptown, and the Flatbush Avenue Station, Brooklyn, is in easy reach of the man downtown. No matter where you are located on Manhattan Island you're in close touch with one of these great gateways of travel to all

-LONG ISLAND-

¶ The good fellowship which exists in the country towns, the sociability of one's neighbors; the entertainment furnished at the various clubs, combining country and seashore with all the conveniences and advantages of the city, is a new existence for the city man and draws a distinctive line between business and home life.

¶ It used to be fashionable to live in the country. Now with the improved transit facilities—the tunnels and swift, clean electric service—it is recognized as *the only sane place to live.*

There isn't a square foot of "home atmosphere" on Manhattan Island to-day and the sooner you realize it the better.

The natural outlet is toward Long Island, where there's plenty of room for millions of people.

For information concerning Long Island address General Passenger Agent, Long Island Railroad, Room 391, Pennsylvania Station, New York City.

Prove It for Yourself

The curative value of a medicine is proven by its record of cures—by sworn testimonial letters from reliable citizens everywhere, *and by actual test.* **Dr. Kilmer's Swamp-Root**, the great Kidney, Liver and Bladder Remedy, stands the highest because of its remarkable success in the most distressing cases of kidney, liver and bladder troubles.

Although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root is not recommended for everything.

A sworn Certificate of Purity is with every bottle.

If there is any doubt in your mind, send at once for sample bottle, absolutely free by mail.

BULL'S EYE SPARK PLUG

“Why Work in the Dark”

FIRING

The **Crystal Ports** show you every explosion of the engine, enabling you to instantly locate any cylinder that is missing or working poorly.

MIXTURE

The **Crystal Ports** tell you if your mixture is correct. If right, the Ports show a blue flame; if wrong a yellow-white. If the latter, adjust carburetor until the flame shows blue.

VALVES

Should one of the plugs in your engine show a yellow flame and the balance blue you have a leaky valve.

CARBONIZATION

The main reason for the carbonization of cylinders and plugs is imperfect combustion. Look at the “**Bull's Eye**” and correct it, saving annoyance and expense.

GUARANTEE

The **Crystal Ports** of the **Bull's Eye Spark Plug** are guaranteed not to break. If they do, return by mail and a new plug will be sent free of cost.

If your dealer does not have them in stock order a set direct of the manufacturers. \$1.25 each, charges prepaid on receipt of check.

A REMARKABLE OFFER OF HENDERSON'S SPECIALTIES

Henderson's Invincible Asters
Mammoth Butterfly Pansies
Giant Spencer Sweet Peas

Ponderosa Tomato
Big Boston Lettuce
Scarlet Globe Radish

To demonstrate the superiority of Henderson's Tested Seeds, we have made up six of the best we have into a Henderson Collection, consisting of one packet each of these great specialties.

To obtain for our annual catalogue, "Everything for the Garden," described below, the largest possible distribution, we make the following unusual offer: To every one who will mail us ten cents, mentioning this publication, we will mail the catalogue and also send our Henderson Specialty Collection as above.

Every Empty Envelope Counts as Cash

This collection is enclosed in a coupon envelope, which when emptied and returned will be accepted as 25c. cash payment on any order of one dollar or over.

"EVERYTHING FOR THE GARDEN" our 1913 catalogue is without exception the best we have ever issued; 202 pages, 5 colored plates, 800 photo engravings, showing actual results without exaggeration, make it the most complete as well as beautiful horticultural publication of the year. In addition we will send to all ordering from this advertisement a copy of our new Garden Guide and Record. This is a handbook of general garden information, planting tables, cooking recipes,

cultural directions, etc., and in all is one of the most necessary and valuable of our many publications.

CORTLAND ST.
NEW YORK CITY

Are You a Strong, Vital Man?

It is not a matter of stature which makes a man strong and vigorous. A tall man may be weak and unmanly or a small man may be a giant of power in his community. No matter whether you are small or large, no matter whether you are young or elderly, no matter what may have sapped your courage and left you nervous and unstrung, I say to you in all seriousness, if I can be sure that you will help yourself and help me by following the dictates of Nature's laws, that is, if you really WANT to become strong again and will lead a healthy, natural life, be true to nature's law, be true to yourself, then under these fine conditions I promise you as man to man that if I can resupply your system with an abundant VITALITY or VITAL RESERVE, you should build up and develop into a strong, virile human being, with the same force and power that you see displayed in other full-blooded fellows about you. Vitality is the greatest single power in the world. Take my word for it, my friend, for I know whereof I speak. Over 200,000 debilitated men have written to me of their ailments during the past twenty years.

My little book, which I send free to men, goes into this matter of vitality thoroughly and should be read by all men. It fully describes my HEALTH BELT with attachments, a light, inexpensive appliance which you place comfortably around your waist upon going to bed and wear until morning. Thus, while you sleep, it is continually sending a great, soft, potent stream of real VITALITY and STRENGTH into your nerves, organs and blood. It often takes the pain or

weakness out of your back in one application, then before you realize that time is passing you commence to feel better, stronger, more ambitious, more manly, and will answer, "Never felt better in my life" to your friends' greetings, while they in turn will secretly marvel at the great change in your appearance. I have seen this work out in thousands upon thousands of cases before you. Remember, I am not asking you to buy a HEALTH BELT now, but merely want you to send for the book, then when you have thought the matter over I will gladly make some proposition whereby you can use a HEALTH BELT if you want to, but first get the book.

The truly VITAL man radiates power, as you know if you have observed the bright men in any assemblage. The weakling must stand aside. There are no drugs or medicines to take in connection with my HEALTH BELT. Simply wear it and absorb its wonderful health-giving power. With special attachments it is a fine treatment for rheumatism, kidney, liver, stomach, bladder disorders and general ill health. Call or write.

Let Me Send You THIS BOOK Free

Let me send you at once my free booklet in plain, sealed envelope. It is profusely illustrated with halftone photos. Keep it in your pocket for easy reference. Read the chapter on Vitality. Read the chapter on Debility. Read the chapter on

those subjects which interest every man, young or old, who would be strong and healthy. It is a word of hope, a carefully written, interesting book which should be in every one's possession. Therefore, send to-day. If in or near this city call at my office. Hours 9 to 6.

Keep Your Home Clean

Do away with sweeping and dusting drudgery

DON'T drudge with dust—GET RID OF IT.

Brooms and sweepers are your enemies—not your friends. They only use up energy and bring on backache. The harder you work with broom or sweeper the thicker the dust clouds. Conquer dust in the modern, sanitary way. Use a Vacuum Cleaner that GATHERS up dust, dirt, microbes and insects, and GETS RID OF THEM.

The EASY WAY to clean house, and keep it clean, is with the

MONARCH

Vacuum Cleaner

The Machine That Cannot Get Out of Order

Monarch Junior Hand-Vacuum Cleaner

A practical and efficient one-person hand cleaner. The Vacuum Suction is positive and continuous. Extremely simple, light and strong. Works without noise. **Guaranteed for 3 years.**

A real vacuum cleaner, not a substitute for one.

Price **\$25.00**
Complete
No extras of any kind.

The modern Vacuum Cleaner improved and perfected. Compact, simple, efficient and extremely light. Tested and proven in every way. Adopted, after competitive tests, by United States Navy, New York Police Department, Public Service Corporations, hundreds of Churches, Hotels, Clubs and Theatres. Used in thousands of homes. Works without noise or vibration.

GUARANTEED FOR 10 YEARS

The Monarch is the Machine YOU ought to have. Easy to handle, thorough in its work, economical on electric current.

PRICES { \$75 for Gun Metal Finish } With all equipments.
 { \$80 for Black or Silver Nickel Finish } No extras.

The Monarch Vacuum Cleaner Company is rapidly increasing its Agency Force and has a promising proposition to offer ambitious men and women. Those interested in securing a paying and permanent connection with a responsible company should at once make application to the home office for a local agency.

MONARCH VACUUM CLEANER COMPANY
 1153 Broadway New York City

\$13,400.31 on the Side

Mr. F. H. Dunlap of West Salisbury, N. H., in the past twenty-five years has cleared \$13,400.31 from hens. This is a remarkable record, when it is known that Mr. Dunlap is employed ten hours a day in a

store and all the time he has to put in with his hens is what he can get morning, noon and night. This \$13,400.31 was all made on the side. Nor does Mr. Dunlap get fancy prices for what he has to sell. He ships to Boston, and takes current quotations from the commission men there. Mr. Dunlap began in 1887 with twenty hens. In 1910 his poultry profits figured out \$1188.05—and this is all on the side. Mr. Dunlap's hens have bought him a beautiful home, purchased a horse and carriage, sent three boys to school and college,

besides saving something for a rainy day. Can others do equally well? "Sure thing," says Mr. Dunlap, "if they will wear out the soles of their shoes faster than they do the seats of their chairs." The story of Mr. Dunlap's success and his methods is told in the book, "Side-Line Poultry Keeping," and it is only one out of a score of things to set the blood tingling and make one resolve to get next to the \$600,000,000 spent in the United States each year for poultry and eggs.

\$1,009.31

R. A. Richardson of Haverhill, Mass., a shoe cutter, made his hens pay him \$1,009.31 in 1910, and kept working at the bench at the same time.

How he did it is told in "Side-Line Poultry Keeping."

"Side-Line Poultry Keeping"

is the name of a new book by the author of "200 Eggs a Year Per Hen," the most popular poultry book ever printed. "Side-Line Poultry Keeping" deals with the business side of poultry keeping as the other dealt with egg production. It tells how to make poultry keeping pay. It describes the methods by which F. H. Dunlap of West Salisbury, N. H., makes over \$1060 a year from eggs, devoting not over two hours a day to his hens. Not a detail left out. The book tells how to make a start, what breeds pay, how, when and where to buy a farm, how to make a living from the first, describes the most wonderful brooding system in the world, tells how to build the most economical poultry houses and trap nests, how to feed for best results, describes a feed that can be made for 15

cents a bushel and is without a peer for producing eggs, how to make money with pigeons, ducks and market gardening, how to buy and sell to advantage, how to pick out the laying hens, how to put down eggs so that they will keep a year, etc.

Invaluable to every man who wishes to make money on the side, and indispensable to the man who is looking forward to the free, independent, healthful life of the poultry farm. Ninety-six pages; illustrated. Price 50 Cents, or with the American Poultry Advocate one year 75 cents, two years' subscription and book for \$1.00, or given as a premium for two yearly subscriptions at 50 cents each. Our paper is handsomely illustrated, 44 to 124 pages, 50 cents per year, 3 months' trial, 10c. Sample free. Catalogue of poultry books free.

PENNSYLVANIA Oilproof VACUUM CUP TIRES

for AUTOMOBILES, MOTORCYCLES and BICYCLES

The greatest tire improvement ever devised. They resist the rotting effects of oil. The advantages of the oiled road can be enjoyed to the full without anxiety, because without risk of undue tire deterioration. **OIL ROTTS RUBBER.** Only Pennsylvania Vacuum Cup Tires have this new and wonderful feature. The saving in tire expense will be obvious to any user. This feature has lately been added to the anti-skid and long service qualities which have put four seasons of fame back of these tires. More than any tires on the market they can claim to be **TROUBLE-PROOF.**

Ask your dealer about Pennsylvania Tire guarantees, or write us.

An Independent Company with an Independent Selling Policy.

SOME months are occupied in printing a volume so bulky as THE WORLD ALMANAC, and it is necessarily put to press in parts or "forms." Changes are in the mean time occurring. Advantage is taken of the going to press of the last form of the First Edition to insert information of the latest possible date, which is done below. The readers of the ALMANAC are requested to observe these additions, corrections and changes, and it would be well to make note of them on the pages indicated.

- Table of Memorable Dates—The Balkan War. War declared by Bulgaria, Montenegro, Serbia and Greece against Turkey.
134. Panama Canal Act—On Nov. 13, 1912, President Taft issued a proclamation announcing the rates of toll to be paid by vessels passing through the waterway.
162. Prosecution of Trusts—The Supreme Court of the United States on Nov. 18, 1912, upheld the decree of dissolution against the Standard Sanitary Manufacturing Company and allied concerns, known as the "Bathub Trust," handed down by the Federal Court of Maryland. In a sweeping decision the Supreme Court of the United States held on Dec. 2 that the Harriman merger of the Union Pacific and Southern Pacific Railroad Companies constituted a combination in restraint of trade within the meaning of the Sherman Anti-Trust law, and should be dissolved. A civil anti-trust suit against the alleged "Candy Trust" was filed in Philadelphia Dec. 13 by Attorney-General Wickersham. A suit to dissolve the Elgin Board of Trade, known as the "Eutter Board," and the American Association of Creamery Butter Manufacturers was filed in Chicago Dec. 14 in the Federal Court.
213. Pennsylvania Railroad—On Nov. 13, 1912, President James McCrea resigned and was succeeded by Samuel Rea.
237. Statistics of Wool—Fleece and pulled scoured, product 1912, 136,866,652 pounds.
379. Davis Cup (Tennis)—The English lawn tennis team, challengers, defeated the Australian team, defenders, in the matches played at Melbourne, Australia, 3 matches to 2, winning cup and world's championship for England. Results by matches: November 28, J. C. Parke (England) defeated N. E. Brookes (Australia), 8-6, 6-2, 5-7, 6-2; C. P. Dixon (England) defeated R. W. Heath (Australia), 5-7, 6-4, 6-4, 6-4; November 29, N. E. Brookes and A. W. Dunlop (Australia) defeated J. C. Parke and A. E. Beames (England), 6-4, 6-1, 7-5; November 30, J. C. Parke (England) defeated R. W. Heath (Australia), 6-2, 6-4, 6-4; N. E. Brookes (Australia) defeated C. P. Dixon (England), 6-2, 6-4, 6-4.
401. Six-day bicycle race held at Madison Square Garden, New York City, December 9 to 14, 1912, final standing of teams: Rutt and Fogler, 2,661 miles 5 laps; Bedell and Mitten, 2,661 miles 5 laps; Clarke and Hill, 2,661 miles 5 laps; Root and Hehr, 2,661 miles 5 laps; Drobach and Collins, 2,661 miles 5 laps; Grenda and Pye, 2,661 miles 5 laps; Kramer and Moran, 2,661 miles 4 laps; Perchicot and Egg, 2,661 miles 4 laps; Wells and Walker, 2,661 miles 3 laps; Brocco and Berthet, 2,602 miles 1 lap; Cameron and Thomas, 2,547 miles 3 laps; Carmen and Loftes, 2,466 miles 4 laps; Suter Brothers, 2,355 miles 1 lap. The record, 2,737 miles 1 lap, was made by McFarland and Moran in 1908. Six teams were tied for first place and two for second at the finish of the long race, and one rider from each team competed in the final mile sprint to decide the places and money prizes. The sprint racers finished as follows: First, Rutt; second, Bedell; third, Clarke; fourth, Root; fifth, Drobach; sixth, Grenda; seventh, Kramer; eighth, Perchicot.
421. Countries of the World—Negotiations for cessation of hostilities in the Balkans may result in change of area and population of countries affected. On Dec. 21, 1912, Austria, France, Germany, Italy, Russia and Great Britain agreed on the principle of autonomy for Albania, with a provision guaranteeing to Servia commercial access to the Adriatic.
423. Dominican Republic—Eladio Victoria, President, resigned Nov. 28, 1912, and was succeeded by Archbishop Mouel as Provisional President.
- 424, 437. Italian Ministry and Government—A new ministerial department has been created, that of the Colonies (Tripoli, &c.). Colonial Minister—Hon. Pietro Bertolini.
425. Reigning Families of Europe—Luitpold, Prince Regent of Bavaria, died Dec. 12, 1912.
464. Military Educational System, Coast Artillery School—The school year for officers and enlisted men is from Jan. 3 to Dec. 15, instead of Sept. 1 to July 1.
489. Diplomatic and Consular Service—Whitelaw Reid, United States Ambassador to Great Britain, died December 15, 1912.
513. Sixty-third Congress—Salaries of Representatives are \$7,500 per annum, and mileage of 20 cents per mile each way to and from seat of government. Salary of the Speaker is \$12,000.
534. Roman Catholic Hierarchy, Dec. 2—The Pope at a consistory official^y announced the appointments of the following American prelates: The Right Rev. Dennis J. O'Connell, Bishop of Richmond; the Right Rev. Patrick A. McGovern, Bishop of Cheyenne; the Right Rev. Austin Dowling, Bishop of Des Moines; the Rev. Edward J. Hanna, Auxiliary Bishop of San Francisco. The Pope created a new Cardinal, Charles Baron Hornig, Bishop of Veszprim, Hungary. At the consistory the red hats were placed on the heads of Cardinal Francis X. Magl, Archbishop of Vienna; Cardinal Giuseppe Maria Cos y Macho, Archbishop of Valladolid; Cardinal Antonio Vico, Papal Nuncio to Spain; Cardinal Francis S. Bauer, Archbishop of Olmuetz, and Cardinal Enrique de Almaraz y Santos, Archbishop of Seville; Cardinal A. Capecealatro died.
549. National Highway Protection Society—President, Frederic R. Coudert. Headquarters, 1 W. 34th st.
562. Alfred B. Nobel Prizes—The board of directors of the Nobel Institute announced in December that no Peace Prize would be awarded in 1912.

OCCURRENCES DURING PRINTING.

625. Benefactions—Dr. Morris Loeb, chemist, left nearly a million dollars to scientific and charitable institutions, including \$500,000 to Harvard University.
643. Record of Events—On December 9 the British Government presented its protest to the Secretary of State of the United States against free tolls in the Panama Canal for American coastwise vessels. On December 9 a conference of the leaders of the Progressive party was held at Chicago and Col. Roosevelt was named as candidate for President in 1916. On December 16 the Turko-Balkan peace conference began at London.
647. Death Roll—On December 12, Luitpold, Prince Regent of Bavaria, at Munich, aged 91 years. On December 13, Bishop Thomas A. Jaggar, Protestant-Episcopal Bishop in charge of European churches, Cannes, France, aged 73 years. On December 15, Paul Smith, Adirondack guide and hotelkeeper, surgical operation, Montreal, aged 87 years. December 15, Peter Doelger, brewer, debility, New York City, aged 80 years. December 15, Whitelaw Reid, United States Ambassador to Great Britain, pulmonary oedema, London, England, aged 75 years. December 15, Lieut. Parke of the British Navy and Asklaw Hardwick, manager of the Handley-Page Aeronautical Company, were killed by dropping of a monoplane at Wombley, England.

Parcels Post—Packages weighing up to eleven pounds and of not more than 72 inches in length, breadth and girth combined, may be sent through the mails. See page 115.

GHENT UNIVERSAL AND INTERNATIONAL EXPOSITION.

April to November, 1913. An Exposition showing in detail the latest developments in Art, Science, Industry and Commerce, and to encourage universal and international trade relations. New York office, 339 Fifth Avenue.

NOTIFICATION TO THE PRESIDENT-ELECT AND VICE-PRESIDENT-ELECT OF THEIR ELECTION.

THE DETERMINATION OF THE RESULT OF THE 1908 PRESIDENTIAL ELECTION WAS AS FOLLOWS:

Feb. 10, 1909, the two Houses being assembled in the Hall of the House of Representatives for the count of the electoral vote, and the count having been duly made and certified to, and the announcement thereof made to the two Houses assembled, the statement of the Tellers closed in these words:

"This announcement of the state of the vote by the President of the Senate shall be deemed a SUFFICIENT DECLARATION OF THE PERSONS ELECTED PRESIDENT AND VICE-PRESIDENT OF THE UNITED STATES, each for the term beginning March 4, 1909, and shall be entered, together with a list of the votes, on the Journals of the Senate and the House of Representatives.

"The count of the electoral vote having been completed, and the result announced, the joint meeting of the two Houses was dissolved; and

"The Senate returned to its Chamber."

Ember and Rogation Days.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) about the beginning of the four seasons, and are the Wednesday, Friday, and Saturday after the first Sunday in Lent, in Spring; after the feast of Pentecost (Whit Sunday), Summer; after the festival of the Holy Cross, Autumn; and after the festival of St. Lucia, Winter. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days occur on the Feast of St. Mark, April 25, and on the three days immediately preceding Ascension Day.

The Jews of the World.

THERE are 11,483,876 Jews in the world, 8,876,299 are in Europe, 1,880,579 in America. The Russian Empire leads by far all the nations with 5,215,805. The United States follows second with 1,800,000. The distribution in the United States is very incomplete. While the city of Warsaw leads Russian cities with 220,000, New York City alone includes 905,000 Jews in its population. Philadelphia has only 100,000 and Chicago 98,000. New York City embraces one-thirteenth of the entire Jewish race. Every fourth person in New York is a Jew. Even London has only 140,000 Jews.—*Christian Work and Evangelist.*

Fountain Pen Filling Made a Pleasure Instead of an Inconvenience

GOOD WINE AND GOOD HEALTH

Why YOU Should Drink Some Wine Every Day
With Your Meals. "There's a Reason."

IF you want to keep in good health you should drink some good Wine. The simple reason is this: You have in Wine food elements and certain properties that you cannot get in any other beverage.

Just compare Wine with tea and coffee or with any of the so-called soft drinks, and you will see this is right. While tea, or coffee, or soft drinks are only good to stop thirst, they are neither a food nor a tonic, but Wine is both a food and a tonic. And this important fact should always be remembered: that Wine—the juice of the grape—is a natural product of food value, affording both pleasure as a drink and benefit as a tonic.

Let us see what you are drinking when you drink a glass of light table wine like claret. Well, you are drinking the purest of water distilled by summer's sunshine. You are drinking a very little alcohol that comes from the sugar in the grape. You are drinking a number of natural fruit acids, such as tartaric, malic, racemic, pectic and succinic acid. The acids of the grape are good for digestion; they prevent and cure dyspepsia; they drive out the noxious matters that clog the system and cause skin eruptions. Thus, the fruit acids are nature's own blood purifiers and good complexion makers. For proof, go to the grape district of France and Italy, where every man, woman and child drink wine every day of their lives, to see what fine complexions and good digestions they all have.

Moreover, the acids of wine neutralize in the blood the effete matters that impair the mind and organs of the body and make them sluggish. You are drinking in wine malic acid, the element that makes cider so healthful and refreshing. You are drinking in wine albuminous matters which are of course necessary food elements. You are drinking tannin, one of the most useful properties and good for the arteries, for the saying is, "a man is as old as his arteries." You are drinking in wine phosphorus and iron in the form in which they are available as the source of brain and nerve energy. Phosphorus and iron and other mineral salts, such as silicates, magnesium, chalk, etc., being held naturally in suspension in Wine are easily assimilated in the human body, which is not the case when such heavy mineral salts are put up in artificial tonics. If you drink some Wine with your food you will not need any medicinal compounds; if you are "run down" and need a stimulant, Wine is better than any patent medicine or any drug.

Now, it is a very good sign that the healthful habit of drinking some Wine at table with the daily meal is growing in this country. There is plenty of good, pure Wine made in the United States, and it is so cheap that almost every one can afford to drink a little Wine every day with their dinner.

"Get the habit" of taking some Wine with your meals, and you will feel better, think better, and be better.

Those who would like to know more about our good American Wines should send for the following valuable booklets: "The Food Value of Wines," by Prof. E. H. Twight; "The One Best Drink—Wine," by Louis James; "Temperance with Drinking Wine," by Rev. R. D. Sawyer; "How to Use Wines," by L. J. Vance. Free by writing to the

AMERICAN WINE GROWERS' ASSOCIATION
304 Broadway, New York

Few realize the tremendous dangers of **CONSTIPATION**

It is one of the greatest misery-producers in the world.

It is responsible for many serious diseases of the Stomach and Bowels. Don't wait until you are half dead from Constipation, Biliousness, Dysentery, Dyspepsia, Indigestion, etc. Clean the system out to-night—get a box of

Chew up just one candy (it's peppermint and pleasant), and in the morning you will feel like living once more.

Partola stands without a competitor—it is the most marvelous LAXATIVE BLOOD PURIFIER known—it does its work gently, thoroughly, without pain or griping, simply causing a natural, easy bowel movement without nausea.

Take one every Saturday night, or once a week, and you will be an optimist the balance of your life.

Partola is entirely harmless. It is made from the purest and best materials and is guaranteed to do all that is claimed for it and more—much more. Don't fail to try it and to-night—and remember—it is a laxative—gentle—smooth in action—NOT a Cathartic that tears and purges the system, leaving you weak and exhausted.

At all druggists, 25c., 50c. and \$1.00. For Free Sample and 100-page book write Partola Company, 160 Second Avenue, New York City.

P & O

MOGUL ENGINE PLOWS

Whenever you see an Engine Gang Plow with the levers pointing to the center of the platform it's a P. & O. Mogul. It is exclusive; no other plow is constructed in this way.

The Coming Universal System of Plowing

One of the leading farm papers, speaking of a recent well-known plowing contest, said: "Walking plows have apparently disappeared from the competing ranks. Their place has been more than filled by the huge plowing outfits drawn by tractors. A traction plowing contest, started at noon, held its own in point of audience even after a fast and close ball

game was started on the green. Sulky and gang were in evidence, but the sight of 1,500 earnest farmers studying the performance of a six-furrow (Mogul) traction outfit showed that interest in mechanical power is on the increase in every section." This is the condition wherever an engine gang plow is at work.

The Whole World an Open Market

A few years ago the Engine Gang was unknown except in a limited area, and was used only on the big "Bonanza" farms. To-day the entire farming area of North America is an open market for them. Not one man in a hundred who needs an engine gang owns one. We make three styles from 3 to 12 bottoms. Send for our special catalog, "Traction Engine Plowing;" it will

Help You to Decide Which One You Need

THE P. & O. Mogul Engine Gang Plow is made in five sizes, with 5, 6, 8, 10 and 12 bottoms, small enough for the ordinary farm, and large enough for the most extensive fields. The Mogul is protected by patents covering its exclusive features, chief among them being the bunching of the levers to the center of the platform; the self-castoring gauge wheels; the break pins for stony ground; the method of regulating suction; the manner of lining up the bottoms, and others. All kinds of bottoms fit the one style of standards. The simplest and strongest engine plow made, and it is Backed By An Unqualified Guarantee.

We make a full line of Plows, Harrows, Planters and Cultivators, described in a Catalog which we will gladly send upon request. Agents everywhere.

NEURALGIAS, LA GRIPPE, PAIN AND FEVER

ANTIKAMNIA TABLETS

FOR PAIN—(No matter where)

Dose:—Two tablets.

COLD-IN-THE-HEAD—(LaGrippe)

Dose:—Two every three hours.

FEVER—(Feverish Conditions)

Dose:—One every two hours.

HEADACHE—(All Kinds)

Dose:—Two, repeat two hours.

HEAT EFFECTS—(Dizziness)

Dose:—Two every three hours.

MELANCHOLIA—(From Worry)

Dose:—One every two hours.

NEURALGIA—(All Kinds)

Dose:—One every two hours.

OVERWORK—EXCESSES

Dose:—One every two hours.

SHOPPER'S or SIGHTSEER'S

HEADACHE

Dose:—Two every three hours.

Antikamnia Tablets

THE name itself suggests what Antikamnia Tablets are, and what their remedial characteristics are:—Anti (Greek *Αντι*), Opposed to—and Kamnia (Greek *Καμνος*), Pain—thus we have "ANTIKAMNIA" which means "OPPOSED TO PAIN," a remedy to relieve pain and suffering. The genuine "Antikamnia Tablets" always bear the *AK* monogram and the genuine "Antikamnia & Codeine Tablets" bear the *AK* monogram. Tablets on account of their convenience and accuracy, are recognized as the most approved form for taking these remedies. For sale at all druggists.

The Journal of Medicine.

LIGHT ON PAIN

Antikamnia & Codeine TABLETS

FOR COUGHS AND COLDS

Dose:—One dissolved on tongue. **BOWEL TROUBLES—(Diarrhœa and Pain)**

Dose:—One every two hours.

HYSTERICAL CONDITIONS

Dose:—One every hour or two.

INSOMNIA—RESTLESSNESS

Dose:—One at bed-time.

MIGRAINE—HEMICRANIA

Dose:—One every hour.

NERVE SEDATIVE

Dose:—One every three hours.

NEURALGIA—(Grippal)

Dose:—One every two hours.

OVARIAN PAIN

Dose:—One every three hours.

WOMEN'S ACHES AND ILLS

Dose:—Two every three hours.

For All Coughs

To administer Antikamnia & Codeine Tablets most satisfactorily for coughs, advise patients to allow one or two tablets to dissolve slowly upon the tongue and swallow the saliva. For night coughs, take one on retiring.

When Women Suffer

Give one or two Antikamnia & Codeine Tablets every three hours. Indicated in the many nervous conditions evidenced at time of period. In short, they are a most reliable remedy for the conditions generally known as "Women's Aches and Ills."

RATS AND MICE KILLED BY SCIENCE

By the aid of the wonderful bacteriological preparation discovered and prepared by Dr. Jean Danysz, Director of the Laboratory of Agricultural Micro-Biology of the Pasteur Institute, Paris, science has at last successfully solved the problem of exterminating rats and mice.

DANYSZ VIRUS (DANNIS VIRUS)

contains the germs of a disease peculiar to rats and mouselike rodents only, and is harmless to birds, human beings and animals other than mouselike rodents. The rodents always die in the open because of feverish condition. The disease is contagious to them. The Virus is easily prepared and applied.

Danysz Virus is distributed in France and Holland by the Government. At the Russian seaport, Odessa, a city of over 400,000 inhabitants, the whole city was freed from rats by an application of Danysz Virus. In England Dr. Danysz was hailed as a modern Pied Piper.

The success of Danysz Virus in the United States has been phenomenal. First tried by the United States Superintendent of Warehouses in New York and declared by him as a complete success, it has been indorsed by the United States Naval Academy at Annapolis, college professors, doctors, steamship companies, warehousemen, theatre owners, bankers, meat packers, manufacturers, farmers, private individuals, &c., throughout the United States and Canada.

How Much to Use—A small house, one tube; ordinary dwelling, three tubes (if rats are numerous, not less than six tubes); one or two dozen for large stable with hayloft and yard, or 5,000 square feet floor space in factories and warehouses; three to six tubes per acre in case of open fields, game preserves, &c. Price, one tube, 75c.; three tubes, \$1.75; six tubes, \$3.25; one dozen, \$6.00; delivered.

Do you use Press Clippings?

If you do not, drop a postal card to

**Romeike's
 Press Clipping Bureau**

and we will show you how Press Clippings can be used to your advantage.

Press Clippings are always interesting and profitable; they are indispensable to professional and business men alike.

Authors, artists, actors, singers and society leaders are supplied with reviews and criticisms.

We collect obituary notices and bind them in scrapbooks.

Lawyers, bankers, brokers, financial institutes depend largely on quick information from the columns of the press; we supply them.

To the manufacturer we show through the Clippings new markets for his products.

The inventor, the politician, the social reformer, in fact all who attract the attention of the press, are informed and kept up to date by Press Clippings.

A postal card will bring all the Information.

ELECTRO-CHEMICAL RING

TRADE-MARK E-C

Copyright, 1894, '5, '6; 1902, '4 and 1909, by W. G. Brownson.

REFERENCE—Northern National Bank, Toledo, Ohio.

YOU WILL FIND US QUOTED IN FINANCIAL RECORDS.

THE following diseases are caused by acid in the blood and are cured by this ring, which takes from one day to two weeks, after the ring commences to work, according to disease and circumstances. The ring and the acid create an electro-chemical action, removing the excess of acid, which cures the disease and will keep it cured.

Bright's Diseases, Diabetes—it is not a habit with children. Chorea—St. Vitus's Dance, Chlorosis—green sickness—Painful and Excessive Monthly Periods. Uremia, Syncope, Epilepsy, Nervous Prostration, Nosebleed, Internal Hemorrhages, Rhinolith—a stony concretion formed in the nose—Adenoids, Polypus, Cataract, Goitre, Whooping Cough. Rheumatism—inflammatory, Gout, Lumbago, Articular, Sciatic, Muscular, Asthma, Headache, Neuralgia, Neuritis, Valvular Rheumatism of Heart, Rheumatic Fever, Rheumatic Paralysis—Brain, Hair, Eyes, Ears, Limbs, Pen, Operators, Typewriters. Dropsy, Obesity, Fatty Degeneration of Heart. Appendicitis—Inflammation of Bowels, Chronic Dysentery, Acidity of Stomach, which causes the worst kind of constipation—the other is caused by liver disease. Cancer—carcinoma, Cancerous Tumors, Congestion of Kidneys, Stone in Bladder, Prostatitis, Gravel, Gall-Stone, Calculi, Deposit on Teeth, White Spots on Nails, Psoriasis, Salt-rheum, Varicose Veins and Ulcers. Varicocele—varicose veins in scrotum. Varicose Veins and Ulcers in Rectum—often mistaken for piles and fissure. The after effects of Diphtheria, Scarlet, Typhoid and Malarial Fevers.

This ring is not a cure-all. The ring will not cure liver disease and none of the liver diseases.

The ring will not work—deposit on ring and finger—unless it is necessary, but when it is necessary, it will work every second day and night, if it is a good fit and is used and cleaned as directed.

Price \$2.00; Gold-covered \$4.00. By Mail or will send by Express. Collect on Delivery, if you wish to pay charges. Send paper size of finger. Agents wanted at places not taken. Send for additional information. The \$2.00 ring is sold on a three-weeks' guarantee; ring can be returned and money will be refunded if not satisfactory. Not for sale by jewelers or druggists. Any person who uses our name or copies from our advertising is fraudulently trying to do business on the reputation of this ring and will be prosecuted.

This ring is not for sale by wholesale houses or any person advertising cheap rings and can only be obtained from us and our authorized agents.

PEOPLE WHO ARE SUBJECT TO RHEUMATIC, KIDNEY AND ALL ACID DISEASES HAVE EXPERIMENTED FOR HUNDREDS OF YEARS AND SPENT MILLIONS OF DOLLARS, TAKING AND APPLYING REMEDIES. The time will certainly come when intelligent people will not submit to be experimented with, to see if a medicine can be made to cure acid diseases.

Any reputable physician will advise you that a permanent cure in that manner is impossible, as the acid is liable to accumulate again at any time, after you quit using the best remedies or any other treatment. That acid in the blood caused a limited number of diseases has always been admitted, but the knowledge of the fact that an excess of acid is the cause of so many diseases of hitherto unknown pathology has been a revelation to the medical profession.

By the use of the Electro-Chemical Ring the best results are obtained by an electro-chemical action, as it acts directly on the acid; reducing the intensity and quantity, until there is no surplus, when the ring will quit working, and will work only when it is necessary to keep the acid reduced.

ELECTRO-CHEMICAL RING CO.

220 15th Street - TOLEDO, O.

LAW

Learn at Home

We are making a positively tremendous offer to students who enroll this year. On this special offer you can learn law **RIGHT AT HOME** just as well—yes, *better* than if you attended a big resident law school. Graduate correspond

ent students hold the *highest* records—are more successful in passing the bar examinations. Our course covers the same ground as **Harvard, Columbia, Michigan, Chicago, Leland Stanford**, and the leading law schools. Prepares you for the bar in any state.

FREE Scholarship

For advertising purposes we are giving away a limited number of scholarships this year in each state. On this free scholarship offer we give you a \$100 certificate of tuition **absolutely FREE**. This tuition entitles you to our three years' complete course of instructions. You get everything on this great offer just as though you paid the actual money.

Special Business Law Course We have arranged our course to give you the fundamental foundation and principles of business. We teach you both theory and practice of commercial and business law. Even though you never expect to be a lawyer you should know the law. It will aid you in all your pursuits. *Know your rights! Protect yourself and your interests. Avoid expensive law suits.*

We Guarantee

To coach free any student failing to pass the Bar Examination after taking our course. Decide now to study law. Take advantage of the great free scholarship offer.

Write for Catalog and Full Particulars

Yes, send at once for our big new catalog which explains the wonderful advantages of taking this course. Learn how you can get a free scholarship in this great Law School. Remember, a \$100 certificate of tuition entitles you to our complete three years' course **ABSOLUTELY FREE**. This is a most wonderful opportunity for the ambitious man.

Write at once. Your name and address on a post card will bring you our catalog and full particulars all free. No obligations on you whatever.

American Correspondence School of Law, Dept. Manhattan Bldg. 5451 CHICAGO, ILL.

Trusses Like These Are A Crime

Get Rid of Elastic Bands, Springs and Leg-Straps. Such Harness Has Forced Thousands to Undergo Dangerous Operations.

Trusses like those shown above—the belt and leg-strap, elastic and spring contraptions sold by drug stores, surgical supply houses and many self-styled "Hernia Specialists"—make life miserable for everybody who wears them.

And—even when drawn so tight you can scarcely stand to keep them on—they do no good whatever.

Instead, they often do immense harm—they squeeze the rupture, often causing strangulation—dig into the pelvic bone in front—press against the sensitive spinal column at the back.

The Plain Truth Is This.

Rupture—as explained in our free book—can't be relieved or cured—can't even be kept from growing worse—unless constantly held in place. Just as a broken bone can't "knit" unless the parts are held securely together.

And—just as a bandage or splint is the only way a broken bone can be held—the right kind of a truss is the only thing in the world that can keep a rupture from coming out.

What a difference it will make when you get that kind of truss.

And you can get exactly that kind of truss—without risking a cent of your money.

It's the famous Cluthe Truss or Cluthe Automatic Massager.

Far more than a truss—far more than merely a device for holding the rupture in place.

So different from everything else for rupture that it has received 18 separate patents. Thousands say it is as comfortable as their clothing.

No belt, elastic belt or springs around your waist, and no leg-straps. Self-regulating, self-adjusting. It is held in position by suction—can't shift or slip—the only truss in existence that is honestly guaranteed to hold your rupture every minute of the day.

Sent on 60 Days' Trial to Prove It.

We have so much faith in the Cluthe Truss—we have seen it work wonders for so many others—that we want to make one especially for your case and let you try it at our risk.

We'll give you 60 days' trial to prove that this truss will keep your rupture from coming out, when you are working and at all other times—that it will put an end to the trouble you've heretofore had with your rupture—that it will improve your condition. If the trial we allow you doesn't prove it, then the truss won't cost you a cent.

How It Strengthens and Heals.

In addition to holding the rupture the Cluthe Truss or Cluthe Automatic Massager is constantly giving a strengthening massage to the weak ruptured parts.

All automatically—the massage goes on all day long, all without any attention whatever from you.

This massage—which strengthens just as exercise strengthens a weak arm—is so remarkably beneficial—that nearly all feel better and stronger—get immediate relief—after trying this truss.

Get World's Greatest Rupture Book.

Don't go on letting your rupture get worse—don't spend a cent on account of your rupture until you get our book of advice—which two cents for a stamp—or a penny for a postal—will bring you.

This remarkable book—cloth-bound, 96 pages, 21 separate articles, and 19 photographic pictures—took us over 40 years of day-after-day experience to find out all the facts we've put in it.

It explains the dangers of operations and why they don't always cure to stay cured. Tells why—for the protection of the public—drug stores should not be allowed to sell trusses.

Explains why belt, spring and elastic trusses can do no good. Exposes the humbug "methods," "appliances," "plasters," "systems," etc.

And tells all about the C' the Truss—just how it holds—how it gives the curing massage—how it is water-proof—how it ends constant expense—how you can get it on 60 days' trial—thus giving you plenty of time to make sure of its wonderful holding and healing powers—and gives names and addresses of over 5,000 people who have tried it and want you to know about it.

Write for it to-day—don't put it off—this book may be the means of adding many years to your life and of restoring you to full strength and usefulness.

Just use the coupon, or simply say in a letter or postal, "Send me the Book." In writing us please give our box number as below—

Box 12—CLUTHE COMPANY

The World.

JOSEPH PULITZER.

April 10, 1847 † October 29, 1911.

WHEN Joseph Pulitzer, by the fire and force of brain and conscience, forged in THE WORLD a mighty weapon for the people fighting against privilege, he said on that 10th of May in 1883:

"Performance is better than promise. Exuberant assurances are cheap. I make none. I simply refer the public to the new WORLD itself. * * * Truly democratic—dedicated to the cause of the people rather than that of purse potentates * * *—that will expose all fraud and sham—fight all public evils and abuses—that will serve and battle for the people with earnest sincerity."

At his death on October 29, 1911, the press of this nation and of all Europe, journalists, publicists, educators and statesmen, individually bore eager witness that he and THE WORLD had kept the faith. By their united testimony the newspapers of the nation were better, stronger, more independent, more successful because of his example, his inspiration and his life work.

The entrance of THE WORLD into national politics under its new owner was in the campaign of 1884, which, after a generation, restored the Democratic party to power. Twenty years later President Cleveland paid this tribute to its work: "I recall not less vividly how brilliantly and sturdily THE WORLD then fought for Democracy; and in this, the first of its great party fights under present ownership, it was here, there and everywhere in the field, showering deadly blows on the enemy. It was steadfast in zeal and untiring in effort until the battle was won; and it was won against such odds and by so slight a margin as to reasonably lead to the belief that no contributing aid could have been safely spared. At any rate, the contest was so close that it may be said without reservation that if it had lacked the forceful and potent advocacy of Democracy at that time by THE NEW YORK WORLD the result might have been reversed."

Joseph Pulitzer is dead but THE WORLD he guided for twenty-eight years fights on. It has proved itself no less forceful and potent as an advocate of Democracy in a victorious national campaign no less notable and vital.

It exposed to a doubting nation and for two years it has led the warring against Colonel Roosevelt's ambitions; it has led the fighting against the false doctrines the ex-President brought forth in his long campaign; it has led the nation-wide protest against President Taft's approval of the Payne-Aldrich Tariff bill and his vetoes of tariff reform bills in violation of party election pledges that had promised "revision of the tariff downward," and it has continued with untiring vigor its long, unending fight against bosses and against a vicious campaign contribution corruption system.

Before the campaign of 1908 THE WORLD, on January 6 of that year, when Woodrow Wilson was still President of Princeton University, editorially presented him to the Democratic party as "an available candidate" "qualified in every respect for the great office of President of the United States." The editorial continued: "Who would more surely command the undivided support of

the independent press? Who would appeal more strongly to the latent moral sense which twice elected Cleveland? Who would inspire a more helpful feeling of security and stability in the minds of all business men engaged in honest enterprise?"

THE FIGHT FOR A FREE PARTY AND A FREE CONVENTION.

Throughout the preconvention campaign of 1912 THE WORLD called for a free party and a free convention. THE WORLD declared that the issue was greater than any man, greater even than the Democratic party. "The best wisdom and the best patriotism in the Baltimore convention will be none too great to meet this crisis," it said. "For itself THE WORLD intends to remain free to give to the Democratic party the benefit of its disinterested advice and its unblinded judgment." Refusing to chain itself to the ambition of any candidate, urging with impartiality the careful weighing of all, it declared that it could support Oscar W. Underwood, Champ Clark, Woodrow Wilson or Judson Harmon "without sacrificing any of our political principles."

But after the selection of delegates to the national convention had brought to no candidate for the Democratic nomination the necessary two-thirds, THE WORLD on May 30 editorially came out for Governor Woodrow Wilson of New Jersey, showing by plain figures, cold facts and careful analysis that he was the ablest man, the wisest statesman and the strongest campaigner; and that he would be the most successful vote-getter the party could present to the people.

"THE WORLD believes," it said, "that he would be a progressive constitutional President whom the American people could trust and for whom they would never have cause to apologize."

And in that editorial THE WORLD called on Mr. Bryan "to throw his great political influence upon the side of Governor Wilson and aid the Democratic party to meet adequately this great crisis in the Nation's history. He has the most brilliant opportunity for disinterested patriotic leadership that has come to any American of this generation."

THE WORLD'S hard-hitting editorials throughout the convention battles had been daily before the eyes of every delegate. On the day following the nomination, in its bugle call for this latter-day Armageddon THE WORLD voiced the verdict of the Democracy:

"The nomination of Woodrow Wilson for President means a new Democracy. It means a new epoch in American self-government. The Democratic party at last has broken its shackles. It has emancipated itself. It has rehabilitated itself in power and principle. It has turned its face to the rising sun, to re-establish the faith of the American people in their own institutions. Woodrow Wilson will be the next President of the United States. But he will be more than that. He will be the first President of the United States in a generation to go into office owing favors to nobody except the American people and under obligations to nothing except the general welfare.

"No political boss brought about his nomination. No political machine carried his candidacy to victory. No coterie of Wall Street financiers provided the money to finance his campaign. He has no debts to pay to corrupt politics or to corrupt business. He was nominated by the irresistible force of public opinion, and by that alone. He stands before the country a free man. The American people have set out to regain possession of their government, and Woodrow Wilson was nominated for President because he embodies that issue. The bosses and the plutocrats who tried to prevent his nomination were beaten by the power of the people, and the power that nominated him is the power that will elect him.

"It is because Governor Wilson represents this vital principle that THE WORLD so persistently urged his nomination. It is because Governor Wilson represents this principle that he will be triumphantly elected in November. Such a man is imperatively needed, and the American people, true to their traditions in every crisis, have again found him."

By an overwhelming electoral majority the States of the Union have put their seal of approval on these principles, and rejoicing in this verdict THE WORLD looks forward to the coming four years of Democratic administration with confidence in the final verdict of history.

In the four months' triangular campaign, though the task of reporting adequately the doings of three great parties with unusually vigorous State fights taxed the resources of the paper's news columns, THE WORLD was able to present to its readers the fullest, clearest exposition of the oppressive burdens of the Payne-Aldrich tariff. The figures were the work of months of its own experts ably assisted by such authorities as R. K. MacLea, and the presentation of the amazing facts vividly, pictorially and with many of the "jokers" required a page a day for sixteen issues. These features THE WORLD sent broadcast to important papers throughout the country.

THE FIGHT AGAINST HUGE CAMPAIGN CORRUPTION FUNDS.

It is with profound satisfaction that THE WORLD impresses on the attention of the public that this campaign of 1912 marked the end of a long fight which it has made in season and out of season against the corruption of huge campaign funds gotten together by the sale of privilege. "Frying the fat" out of tariff-protected industries was the terse characterization of B. F. Jones of Pittsburgh, the Republican National Chairman in 1884; "assessing the corporations" was Mark Hanna's plain, blunt, business man's expression when managing McKinley's campaigns in 1896 and 1900; "you and I are practical men" was the phrase in President Roosevelt's letter in 1904 to the man on whom he called at the eleventh hour to raise \$250,000, "which turned 50,000 votes in New York" in Mr. Harriman's own words. Bad as conditions had been in 1896, in no campaign had this become so grave a scandal, or the contributions so scientifically "demanded" as in that campaign of 1904. With the unerring insight of his long experience and keen judgment, Mr. Pulitzer on October 1 of that year published in THE WORLD an editorial, the longest and most carefully prepared that he ever wrote—it filled a page and a half. "How about the great corporations which do contribute to the campaign fund?" he asked of the President who was then a candidate for re-election. "There is no big stick for them; no marines, no warships—nothing but secrecy, silence, solicitation, surrender."

He then put to the President—"not for the Democratic party but for democratic institutions; not against the Republican party but for the Republic," these ten questions that have become famous:

How much has the Beef Trust contributed to Mr. Cortelyou?

How much has the Paper Trust contributed to Mr. Cortelyou?

How much has the Coal Trust contributed to Mr. Cortelyou?

How much has the Sugar Trust contributed to Mr. Cortelyou?

How much has the Oil Trust contributed to Mr. Cortelyou?

How much has the Tobacco Trust contributed to Mr. Cortelyou?

How much has the Steel Trust contributed to Mr. Cortelyou?

How much has the Insurance Trust contributed to Mr. Cortelyou?

How much have the national banks contributed to Mr. Cortelyou?

How much have the six great railroad trusts contributed to Mr. Cortelyou?

There was then no answer. There was a flaming retort from Colonel Roosevelt to Judge Parker when the Democratic candidate made on the stump kindred charges at the campaign's end. But the truth has come out—slowly, indeed, but surely. The first answer was forced out in the insurance investigation in 1905, which, thanks to THE WORLD'S persistent digging and Hughes' legal skill, became a powerful searchlight revealing a mass of hidden corruption. More appeared when THE WORLD on April 2, 1907, printed exclusively the famous letter of E. H. Harriman to Sidney Webster. And in the testimony before the Senate sub-committee in the Summer and early Autumn the whole story came out. The ten questions have been answered and THE WORLD on October 1 reprinted its editorial of eight years before that its then unheeded warning might carry again its lesson to ears at last opened to facts and eyes clear to see and shun danger. Not again will a Mark Hanna raise from beneficiaries of privilege a \$5,000,000 "slush fund." THE WORLD chronicled in November that the campaign fund of the successful Democratic party amounted to \$1,100,000, contributed by over 90,000 individuals, with not a dollar received from any corporation.

THE WORLD'S service in the New York State campaign was not less valuable. Its staff of investigators, aided by efficient engineers, was put to work in the State Highways Department and showed in a series of articles how the department under the Dix-Murphy administration had been turned into a powerful political machine to the serious detriment of the roads, how money had been lavishly spent and how much had been wasted, to say the least, and how by an unconstitutional "expedited routes" system privileged persons and communities had profited with expensive roads at the expense of those for whose benefit the huge highway fund of \$50,000,000 had been voted by the people. Governor Dix was not renominated; Boss Murphy kept his hand off the convention; and the Democrats nominated and elected William Sulzer Governor, a man who is pledged to an unbossed administration in which privilege gives way to the people.

Citizens of the Borough of the Bronx after the November election passed resolutions thanking THE WORLD for its ten years' fight helping that borough to become a county, an ambition happily attained by referendum on Election Day. To Senator Stephen J. Stillwell belongs the individual honor, for he, with tireless energy, put through the Legislature the bill that means so much to the political future of the Bronx, and, under wise leadership, of the State.

KEEP THE FAITH! CARRY OUT PARTY PLEDGES.

Though the new administration must wait until March 4 to take up its duties, THE WORLD began immediately after the election of Governor Wilson was assured to blaze the way to success. "Keep the Faith!" it cried as it editorially called attention to the fact that pressure had been brought to bear upon Woodrow-Wilson not to call Congress in special session to revise the Payne-Aldrich schedules, and that pressure has been brought to bear upon the Democratic National Committee to oppose a special session.

"This is a counsel of infamy to which Mr. Wilson cannot and will not listen, and to which no honest Democrat should listen," said THE WORLD editorially.

"If the Democratic party postpones tariff revision it is doomed. Delay will be interpreted as proof of timidity and bad faith, and the sentiment of the country will turn at once against the Wilson administration. It is the first great duty of the party to stand behind President Wilson as a unit and carry out the platform pledges without a day's unnecessary delay. This is no time for a second exhibition of Democratic perfidy and dishonor. 'Keep the Faith!'"

THE WORLD at once sent telegrams to every Democrat elected to the new Congress, asking him where he stood on the question of calling an extra session to take up tariff reform. The response to the poll was instant and overwhelmingly insistent that the party meet and "Keep the Faith!" Governor Wilson, impressed, asked THE WORLD for the answers of the Congressmen and on November 15 began his administration by his announcement to the press:

"I shall call Congress together in extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."

LIGHT ON THE MONEY TRUST.

THE WORLD added another valuable chapter to the many that it has exclusively presented to the public by exposing the real inwardness of the so-called Roosevelt panic of 1907. It had furnished to the Stanley committee of Congress invaluable facts as to one outcome—the gobbling up of the Tennessee Coal and Iron Company by the Steel Trust with the express permission of President Roosevelt. On June 13, while the Pujo committee of Congress investigating the so-called Money Trust was taking testimony in New York, THE WORLD published the actual facts surrounding the loan of \$25,000,000 to the brokers on the Stock Exchange on October 24, 1907, the big day of the panic. THE WORLD showed that this was not the money of J. P. Morgan & Co., the reputed saviors of Wall Street, but was money deposited that very day with selected national banks by the Secretary of the Treasury, Mr. Cortelyou.

The facts in brief were thus published: The Secretary of the Treasury on October 23, when call money had reached 125 and the gravest fears seemed certain to be realized, found that his mere promise of relief had not helped the situation. That night there was another long conference in which Mr. Morgan participated. At the close after midnight on the morning of the 24th, Mr. Cortelyou issued this statement:

"As an evidence of the Treasury's position I have directed deposits in banks of this city to the amount of \$25,000,000."

All the morning, bankers congregated around Mr. Morgan and William Rockefeller, who was with him in his office and learned to what extent each would share in the distribution of this money. Mr. Morgan was the absolute dictator. As soon as the word went forth that \$25,000,000 would be loaned out on Stock Exchange collateral by the banks sharing in it, the tension was relieved. Brokers gladly paid the high interest rate—50 per cent.—demanded. They were told at the close of business to send over to Morgan's office and get a memorandum which directed each broker to some bank that had received a deposit of Treasury funds. Mr. Morgan's part was that of being in control of

both the bank and the United States Treasury funds, by agreement of Secretary Cortelyou and the bankers under his direct or dominant influence.

"As soon as I read that exclusive publication in THE WORLD this morning," said Samuel Untermyer, counsel for the Pujo committee, "I decided to examine Mr. Cortelyou and subpoena any member of J. P. Morgan & Co. I could reach. The testimony of these gentlemen (Mr. Cortelyou and Mr. Charles Steele) has borne out fully everything stated in THE WORLD, and the evidence is conclusive that it was not the philanthropic Mr. Morgan but the Treasury of the United States that came to the rescue of the panic-stricken gamblers of the stock market."

From the records of the Sub-Treasury and of J. P. Morgan & Co. was put in evidence in consequence a table showing in brief that at this time the United States Treasury deposited in or loaned to fourteen banks \$37,697,000; that these fourteen banks agreed to loan brokers \$23,550,000; and that these fourteen banks actually did loan to brokers \$18,945,000. Twelve of these fourteen banks are generally recognized as being important members of the Morgan-Rockefeller group. They are the First National, the National City, the Hanover, the Chase, the Fourth National, the Park, the Chemical, the Mechanics and Metals, the American Exchange, the Corn Exchange, the National Bank of Commerce, and the Bank of America. The other two banks, whose combined loans amounted to \$800,000 only, were the Bank of the Manhattan Company and the Importers and Traders.

THE WORLD on October 20 and on November 11 added to its record for public service by publishing exclusively valuable analyses of the report prepared by the expert accountants of the Money Trust investigation committee of Congress which showed that the Morgan-Rockefeller interests dominate properties of all classes with capital and funded indebtedness of \$36,711,328,678, over one-third of the nation's wealth; and that in particular this same influence dominated 305 financial institutions (whose names, addresses and resources were given) with a total capital, surplus reserves and deposits of \$8,097,631,011—all this through a maze of interlocking directorates. And THE WORLD announced that the committee's attorneys will strive to show that it is absolutely impossible for "outsiders" to finance any enterprise without the sanction of the "Money Kings"; that unbecome competitors can be driven from the big pursuits of commerce with comparative ease if they offend those who hold the purse strings; and that there are few if any financial institutions in the country which are willing to withstand, or are capable of withstanding, the demands of the great Morgan-Rockefeller system of banks.

THE MURDER OF HERMAN ROSENTHAL.

Herman Rosenthal, an East Side gambler, who had sought the richer plinkings of Broadway and the Tenderloin, went before Magistrate Butts at the West Side Police Court on July 12 and made an affidavit charging oppression against Police Inspector Cornelius Hayes and Police Captain William Day of the West Forty-seventh Street Police Station, and asking for a warrant for their arrest because a policeman was being kept on permanent post in his gambling house, No. 104 West Forty-fifth Street since April 15, when it had been raided and put out of business by Police Lieutenant Charles Becker and his "Strong-Arm" squad. The Magistrate denied the request, holding the evidence presented insufficient, but all the newspapers printed the story of Rosenthal's futile visit, and an interview with him. He made open charges against the police, declared that a lieutenant of police was his partner in the gambling house, having put up \$1,500 on a chattel mortgage and collecting 20 per cent. of the profits of the house. He said he had laid the facts of the oppression before the District-Attorney, and, mentioning names, said he knew the entire system of "protection" and knew the men who were getting the thousands of dollars paid in weekly by the gamblers.

THE WORLD knowing that there was a very real basis for the gambler's charges did not drop the case. It sent a staff correspondent with Rosenthal's interview to see District-Attorney Whitman, who was at Newport. Mr. Whitman said: "I have had the charge made by Rosenthal under investigation for some time. I have no sympathy with Rosenthal the gambler. As such he is beyond the pale. But I have real use for Rosenthal, who, abused by the police, proposes to aid decency and lawfulness by revealing conditions that are startling. The boldness of some of the operations is astounding. The trail leads to high places, even if only a small part of the accusation of Rosenthal and others is substantiated. This man will have a chance to tell his story to the Grand Jury."

Another reporter of THE WORLD went to see Rosenthal and asked him for the facts to back up the accusations in his interview. Rosenthal demurred, saying that the police system was so strong that no newspaper would print the facts. He was told that he was mistaken; that THE WORLD would print them. Rosenthal then late that Saturday afternoon came to THE WORLD office and made an affidavit detailing the facts on which he had made his accusation against the police and naming Lieutenant Charles Becker as the man who had loaned him \$1,500 and as partner had taken 20 per cent. of the profits of his gambling house.

Lieutenant Becker, learning of the existence of the affidavit, came down to THE WORLD office that same Saturday evening with his counsel John W. Hart and was shown it as well as the interview with the District-Attorney. Lieutenant Becker said that under the rules of the Police Department he was not free to make any statement in regard to the charges, although he emphatically denied their truth. THE WORLD on Sunday published exclusively Rosenthal's affidavit in full, the interview with the District-Attorney, and the denials of Lieutenant Becker and his counsel. The publication aroused the city. District-Attorney Whitman hurried back to his office to make a thorough investigation of the charges presented in the columns of THE WORLD. Police Commissioner Waldo started back from Toronto, and the gamblers, apprehensive, were in panic. Rosenthal was persistent and announced his intention of going again before Magistrate Butts with additional charges and evidence. The police officials had nothing to say.

Mr. Whitman on Monday, July 15, made an appointment with Rosenthal to go over all his evidence at the District-Attorney's office on the following morning. Herman Rosenthal did not keep that appointment. In executing that affidavit printed in THE WORLD he had unwittingly signed his own death warrant. That night, two hours after midnight, he was called out of the café of the Metropole Hotel on West Forty-third Street a hundred feet from the heart of Broadway and shot to death.

The boldness of the crime was amazing. The city was aroused by its audacity and profoundly shocked by the too-evident connection between the System, the imminent investigation and the murder of the victim that had dared to "squeal."

The news spread with amazing rapidity. A telephone message from THE WORLD office awoke District-Attorney Whitman and he hastened at once to the West Forty-seventh Street Police Station, where the body of the murdered informer was taken, and personally assumed charge of the case. His promptness was of inestimable value to the cause of justice. The murderers, known to be a party of four, had escaped in a gray automobile. A passerby had caught its number, 41313, and had hurried to the police station to report it. He had been promptly locked up and other numbers appeared on the blotter. A telephone message had also brought Lieutenant Becker to the station house. After his first analysis the District-Attorney declared:

"I accuse the Police Department of New York, through certain members of it, with having murdered Herman Rosenthal. Either directly or indirectly it was because of them that he was slain in cold blood, with never a chance for his life."

THE PUBLIC CONSCIENCE AROUSED.

The investigation of the crime furnished dramatic disclosures daily. The public conscience was aroused in all except the highest officials of the city. The Police Department seemed unable or unwilling to find the murderers, but the District-Attorney was tireless and the newspapers of the city held up his hands. After a week's investigation THE WORLD was able to name the East Side gangsters who were the actual murderers. Evidence accumulated fast. Jack Rose, a gambler and a collector of graft for Lieutenant Becker; "Bridgie" Weber, another gambler, with rooms at Sixth Avenue and Forty-second Street, and Harry Vallon, all accomplices in the murder, one by one gave themselves up to the police and were handed over to Mr. Whitman. On July 29 they confessed the plot. The Grand Jury was quickly summoned at night and heard their stories under promise of immunity. Indictments were found at once and Lieutenant Becker was arrested at his desk and lodged in the Tombs on a charge of murder.

At last on August 15 THE WORLD printed exclusively and verbatim "Jack" Rose's confession of the crime. The full story filled a page and a half. It startled New York, though the city might well have been fed full with sensations. Rose told how he had collected graft money for Lieutenant Becker. The District-Attorney had already found bank accounts in the name of the Police Lieutenant or his wife amounting to \$50,000, besides a newly built house, real estate and some stocks and bonds. He told further how Becker had called for him, told him that Rosenthal was "getting dangerous," and that "he must be stopped." Becker, he went on, told him to get some of "Jack" Zelig's gang and have Rosenthal "croaked." Rose demurred at murder, but ultimately yielded to Becker's strength and dominance. He fixed the job with his friends Vallon and Weber, who had money. They got Zelig out of the Tombs, where he was confined on a charge of carrying a revolver (a "frame-up" by Becker's men, he declared), and arranged a cold-blooded compact with four of Zelig's gang to kill Rosenthal. A fourth figure was brought in after the murder, Sam Scheps, who went with Rose when \$1,000 of "Bridgie" Weber's money was paid to the gunmen for their job by Becker's orders.

Justice, thoroughly aroused, moved fast and sure. The District-Attorney put Becker on trial before Justice Goff on October 7, and under the latter's steady driving the trial was concluded on October 24, when at midnight the jury brought in a verdict of murder in the first degree. The police lieutenant is in Sing Sing under sentence of death. With him are also the four hired gunmen, base products of the East Side: Frank Muller, alias "Whitey Lewis;" Frank Crofiet, alias "Dago Frank;" Louis Rosenberg, alias "Lefty Louie," and Harry Horowitz, alias "Gyp the Blood." They stood trial together before Justice Goff on November 8, and on November 19, after but twenty minutes deliberation, all four were also found guilty of murder in the first degree, and they also were sentenced to death. Rose, Vallon and Weber, having turned State's evidence, were set free.

The Becker trial consumed but seventeen days. In spite of the long search for gunmen and witnesses, a verdict was reached 100 days after Rosenthal was murdered. In celerity and dignity the trial has set a new standard for famous cases in New York.

"Becker has been convicted of the murder of Rosenthal. The System has been convicted of the murder of Rosenthal. But what next?" said THE WORLD in watchful warning on this serious municipal situation. "Will Becker in the end escape his punishment through an appeal to the technicalities of the law? Will the System itself escape extermination through the inability of a government of law to cope with a government of crime? Justice is still on trial in New York, in spite of the righteous verdict of the Becker jury. It is on trial in the appeal that Becker's counsel will make to the courts of last resort. It is on trial in the devious and intricate processes of the law's delay, which money can always buy from cunning counsel. It is on trial in the attitude of State and City Government toward a Police Department which can harbor Beckers who traffic in law and traffic in human life. * * * Regardless of Becker's conviction, the shadow of the System still hangs over New York City. Even to-day the men who testified against him are in terror of their lives. The law is not dealing merely with a handful of miserable wretches who murdered a gambler. It is dealing with a great conspiracy in which murder was purchased to protect the shameless profits of official corruption. This is the balance in which the administration of the criminal law in New York must be weighed. This is the condition of government which leaves the administration of justice on trial so long as the technicalities of criminal procedure stand between Becker and the sentence of the court."

TRIAL AND CONVICTION OF CHARLES H. HYDE FOLLOWED.

Following these convictions, District-Attorney Whitman at once put Charles H. Hyde on trial before Justice Goff in the Supreme Court. Hyde, the protégé and former law partner of Mayor Gaynor, had been appointed to the important office of City Chamberlain by the Mayor, but had resigned that office May 3, 1911, after he had been indicted for bribery under Section No. 372 of Article 34 of the penal law of New York. The specific offense charged was that he had forced Joseph G. Robin, head of the Northern Bank, to lend \$130,000 to the tottering Carnegie Trust Company on August 22, 1910, under threat of withdrawal of large city deposits if he refused, and promise of the deposit of additional city money if he consented. The crime charged was rare; the proof was technical and difficult to get before a jury; and the defendant's long fight for delay and then for acquittal had been stubbornly made by able counsel. The trial began on November 19 and ended at midnight on the 29th with a speedy verdict of guilty. There was a singular kinship between the case of Hyde and the case of Becker. In each there was the grossest abuse of power by a public official; the same arrogance of might and a similar official alliance with criminals. "While the memory of Hyde's fate remains," said THE WORLD the morning of the verdict, "no other City Chamberlain will use the money of the people for the profit of crooked finance and criminal banking. Just as the verdict of the jury in the Becker case dealt a staggering blow to the police system, so the verdict of the jury in the Hyde case has dealt a blow to that other system in which corrupt business is in partnership with corrupt politics."

Robin's bank, the Northern, was closed by the State Banking Department on December 27, 1910, and soon after that Robin was arrested, charged with having stolen \$27,000 from the Washington Savings Bank. On January 7, 1911, the Carnegie Trust Company also was closed by the State Banking Department. THE WORLD had obtained convincing information that the City Chamberlain, Charles H. Hyde, was the key to the situation. Mr. Hyde was not at his post of duty; he was often absent, and at this time was said to be on a vacation and his address was refused. During the Fall of 1910 a legislative committee was investigating a scandal about the dispensing of a fund of some \$500,000 gathered from men eager to have horse racing restored to its former condition in the State. Hyde's name had been freely mentioned as one of a number of men who had knowledge of how this fund was spent and a subpoena had been issued for him. Wide search followed. At last a World staff man ran him down, finding him on his houseboat Stop-a-While in Florida. Hyde then hurried back to New York, reaching this city after an absence of forty-five days on the day after the legislative committee adjourned. The Carnegie Trust Company had long been tottering. Hyde, who had become a friend of William J. Cummins, its president, first deposited city money in that company in March, 1910. He was very helpful to his friends and at the time he left his office he had \$1,000,000 of city money on deposit there. Though he had

been deliberately sidetracked, Comptroller Prendergast, warned, had taken action immediately on Hyde's departure from the city and had drawn out the city's cash at the rate of \$50,000 a week, so that he had reduced the deposit to \$650,000 by the first week of January, 1911. Cummins went to Mayor Gaynor's house in Hyde's absence and pleaded for hours with him to direct Hyde's deputy to deposit with his company \$500,000 more of the city's money to stave off bankruptcy. The Mayor declined to interfere and the next morning the State Banking Department closed the doors of the Carnegie Trust. Its affairs were greatly involved.

This was the situation that confronted Mr. Hyde on his return. Robin, who had been led to believe that he would be "taken care of," found himself deserted. He chose on March 1 to plead guilty and gave the District-Attorney valuable information. Mr. Whitman's efforts were bringing to light evidence that portended indictments, when THE WORLD, which had been closely following the events and aiding the efforts to get at the facts, discovered that the powerful hidden influences opposed to the investigation had reached Governor Dix and had prevailed upon him to send a letter to Mr. Whitman taking the entire matter out of his hands and supplanting him with Attorney-General Carmody.

THE WORLD promptly turned the searchlight of publicity upon this action and in an exclusive page story on March 9, 1911, gave the extraordinary facts to the people. THE WORLD took this occasion to give the public also a most valuable piece of evidence which it had discovered—a list of eighteen banks which had gotten various sums of city deposits from the City Chamberlain, ranging from \$25,000 to \$750,000; and had thereupon loaned Cummins's Carnegie Trust Company sums ranging from \$35,000 to \$500,000. The total of city cash concerned was \$3,915,567, and the known loans were considerably in excess of \$2,625,000. THE WORLD was able to give a full story of the events leading to the Governor's unprecedented action and to name many of the men concerned in this effort to blanket investigation by the prosecuting attorney of the city.

THE WORLD's exposure awoke and aroused the community and was its first great step in awakening people to the condition of affairs. It also strangled the plan. Both Whitman and Hyde hurried to Albany. Governor Dix, becoming better conversant with the situation, revoked his order and told District-Attorney Whitman to go ahead. The investigation went on before the Grand Jury; within a fortnight indictments were found against William J. Cummins on which he was convicted, followed soon by indictments against Joseph E. Reichmann on which this director of the Carnegie Trust Company was also convicted; and finally on May 1, 1911, by the indictment of City Chamberlain Hyde. Two days later Hyde resigned his office. Further and stronger indictments were found on May 11. Then began a series of legal technical moves and counter-moves that delayed the trial of the former City Chamberlain until November 19, 1912. The trial then was sensational and made notable by the testimony given by eight bankers as to the coincidence of deposits of city money and of loans made to Cummins's distressed trust company.

The meaning of the Hyde verdict and the Becker verdict is that "New York is no longer a province to be looted," said THE WORLD editorially. "The partnership between crime and official corruption has been dissolved by public sentiment and due process of law. Becker and Hyde were both representatives of a single system—a system that for years has been buying and selling government for the profit of individual corruption. Becker was an agent of this system in its lowest, most degraded and most sordid form. Hyde was an agent of the same system in its more subtle and respectable form. Becker sold government to crooks, gamblers and thugs. Hyde sold government to bankers and financiers. The long struggle against political graft and corruption is finally bearing its fruit. New York is no longer cynical and indifferent, and it is undergoing the most notable civic reform that it has undergone since the passing of Tweed." And it is with deep satisfaction that THE WORLD recalls its persistent untiring efforts to rouse the public conscience, clarify and crystallize intelligent public opinion, and arm and strengthen public action against entrenched corruption.

THE STORY OF PANAMA BEFORE A COMMITTEE OF CONGRESS.

Congressman Henry T. Rainey of Illinois introduced this resolution in Congress:

"Whereas, as a former President of the United States has declared that he 'took' Panama from the Republic of Colombia without consulting Congress; and

"Whereas, the Republic of Colombia has ever since petitioned this country to submit to the Hague Tribunal the legal and equitable question whether such taking was in accordance with or in violation of the well established principle of the laws of nations; and

"Whereas, the Government of the United States professes its desire to submit all international controversies to arbitration, but has steadily refused arbitration to the Republic of Colombia; therefore be it

"Resolved, that the Committee of Foreign Affairs of the House of Representatives be, and the same hereby is, directed to inquire into the same; send for books, papers and documents; summon witnesses; take testimony; and report the same, with its opinions and conclusions thereon, to this House with all convenient speed."

The House referred the resolution to the Committee on Foreign Affairs, and its chairman, William Sulzer, wrote to THE WORLD asking this paper to place at the disposal of his committee the evidence bearing on the subject which it had collected in preparation of its defense in the suit for criminal libel instituted by the Government of the United States against that paper. THE WORLD agreed to produce so much as was relevant to the inquiry and sent Henry N. Hall of THE WORLD staff to Washington to present it to the committee. After Mr. Rainey had set forth the broad points of the case Mr. Hall on February 9 was called before the committee and for seven days presented "The Story of Panama" with varied documentary evidence. Much of the evidence THE WORLD had collected was new, as owing to the complete collapse of the Government's case against it the paper's attorneys had had no opportunity of bringing it out in court. As he concluded the presentation of the evidence Mr. Hall said to the committee:

"I have not spoken here as the advocate of Colombia nor as the prosecutor of Mr. Roosevelt. I have endeavored fairly and impartially to place the truth before you as I saw it from the documents gathered by THE WORLD. I trust you will arrive at a just and satisfactory solution of this momentous question. I sincerely hope you will find some way of settling a difference with Colombia which ought to be settled because the United States is losing in South American trade to-day very nearly as much as it is spending on the construction of the Panama Canal, and you are paying for the Panama Canal twice, once in cash and once in trade. But apart from sordid or commercial interests, there are other and higher reasons why this controversy ought to be settled. 'Righteousness alone exalteth an nation.' Truth, justice, honor demand that Colombia's claims be satisfied; and the Congress and people of this country owe it to themselves to satisfy those claims in a manner consistent with the dignity of the United States, and in keeping with its glorious traditions."

HURD'S STORY OF RESCUE OF TITANIC'S PASSENGERS.

When the great White Star steamship Titanic, carrying 2,181 men, women and children, crashed into an iceberg off the Banks in the night of April 14 and sank, the newspapers

strained every effort to get for their eager readers the facts of the terrible calamity. Wireless telegraphy slowly, laboriously, and well nigh miraculously flashed through the ocean air the names, often garbled, of the 705 survivors, but brought little else of news. That waited until the Cunarder Carpathia with its freight of rescued came to port four days afterward. THE WORLD was singularly favored by fortune. On board the Carpathia, bound out with his wife for a European vacation, was Carlos F. Hurd, a member of the staff of the St. Louis Post-Dispatch, and therefore of THE WORLD. It fell to his lot to be a witness of the scenes of rescue and to help minister to the bereaved ones on the return to New York. He wrote the full vivid, graphic story of the wreck and rescue, and, coming up the bay, tossed the copy safely wrapped in a cigar box over the rail to WORLD men chasing alongside in a tug. His story was hurried to THE WORLD office, put in type, and before the shipwrecked passengers had left the Cunarder pier the full dramatic story of the disaster and rescue was being read on the streets and in the homes of New York and being telegraphed to the papers of every city and town in the country.

THE WORLD on the earliest wireless report of the sea tragedy declared that it was due to speed-madness, demanded an investigation that would lead to laws compelling better wireless rules, adequate lifeboat provision for all passengers and the ship's company at sea, and new steamship lanes south of the ice region. Investigation that followed here and in England has already resulted in such new laws and regulations; without waiting for the compulsion of law the big lines refitted their steamships and even rebuilt some on safer plans as dictated by the grim lessons of the disaster.

INVESTIGATION OF FACTORY CONDITIONS.

In May and June THE WORLD sent to the more important cities of the State a staff correspondent to get first hand knowledge of the conditions of factory life in New York State that were being investigated by the New York State Factory Investigating Commission. This commission had been at work several months zealously and without pay. Its chairman is Senator Robert F. Wagner of New York, the members being Assemblymen A. E. Smith, Hamilton, Jackson and Phillips, Miss Mary E. Dreier, Samuel Gompers, Robert E. Dowling and Simon Brentano. Abram I. Elkus, regent of the State University, is its counsel, and Dr. George M. Price is the director of investigation. THE WORLD staff correspondent found conditions similar to those it had uncovered. He found ample proof that women are employed in slaughter houses, and in steel and iron foundries; that many employes are underpaid; that they are usually treated with less consideration than the machines they operate; that women are doing the work of men because they can be hired cheaper; that children are working long hours under the law; that machines dangerous to life and limb are too often operated without efficient safeguards; that ventilation is often wholly inadequate; that sanitary conditions in many factories are abominable and lead to the breeding of disease; and that little precaution is taken to guard against fatalities by fire. THE WORLD correspondent found some factories in excellent condition, but, like the commission, found many "sore spots." THE WORLD printed pages of the reports of his investigation. Wherever a factory had been named in the testimony taken by the commission THE WORLD offered its owners an opportunity to make such refutation as they saw fit and to give its representative visual proof of any inaccuracies. The searchers for truth met with hearty co-operation from city officials and bitter opposition from manufacturers who resented interference. The investigation by the commission has already done great good. It has remedied conditions in certain factories, awakened the conscience of employers and caused the passage of laws which will be exceedingly helpful. Yet there remains much to be accomplished.

FIGHTING FOR THE PUBLIC GOOD.

Two State laws remedying grave evils exposed by THE WORLD'S investigations were put on the statute books in 1912. It has been made a misdemeanor for a druggist to have fraudulent drugs in his possession, no matter whether or not he offers them for sale. This drastic provision of the penal code was rendered necessary by the serious condition of affairs in city pharmacies exposed by THE WORLD in 1911, and corroborated by an investigation made by ex-Comptroller Herman A. Metz and others this year. Then, too, on April 15 went into effect the Brennan law prohibiting the storage of any food products for a period longer than ten months. The law was a direct result of THE WORLD'S agitation in the interest of pure food.

THE WORLD has one fight always on hand that demands—and gets—eternal vigilance. It is against the persistent black smoke producers who, on the least relaxation of attention, poison the air of New York with rolling clouds of black, sooty bituminous coal smoke from the tall chimneys of factories, office buildings and apartment houses. It is cheaper. Simple automatic devices could be put in the furnaces and chimneys if the owners had public spirit. As they have not, it was necessary for THE WORLD to make a three-weeks' campaign in the Summer and to print the law, the names of the violators of that law, and the commissioners and inspectors responsible for letting them violate it before the nuisance was abated. THE WORLD expects to be obliged to do this again and again if the city is to be kept clean. It will do its part cheerfully. The law is plain.

Another fight against slothful injustice which THE WORLD has kept up has been to improve conditions in the naturalization bureau of the Supreme Court. County Clerk William F. Schneider bore this witness in a lecture before the Naturalization Aid League: "The changes which I have brought about are due entirely to the publication in the NEW YORK WORLD of a series of articles entitled 'The Bread Line.' To THE WORLD more than to any other agency must be attributed the credit for the success I have had in putting a stop to abuses and also the immense increase in the number of our naturalized citizens during the last two years."

UPLIFT FOR THE RISING GENERATION.

The public school children of the greater city enjoyed for the seventh year the keen interest and aid of THE WORLD. One hundred and fifty-seven schools held field day meets in 1912 under the auspices of the SUNDAY WORLD and the star athletes of these schools, graded for age, size and weight, made up the list of fifteen hundred contestants for THE WORLD'S silver and bronze medals and bronze pins at the concluding field and track games at Curtis High School athletic field, Staten Island, on October 12. In the preliminary meets 54,000 boys competed. In the seven years of SUNDAY WORLD field days, 928 separate school athletic meets have been held, with 235,000 contestants; 23,000 SUNDAY WORLD medals have been won, and 1,000 banners have been presented by THE WORLD as class trophies.

Still unsatisfied with this success, THE WORLD extended its efforts to cover also the vacation playgrounds recently established by the Board of Education. When the Summer months were over Dr. Edward W. Stitt, District Superintendent of Schools, and Superintendent of the vacation playgrounds and recreation centres, wrote to THE WORLD thanking it for "its most generous support" and saying that the success was remarkable, the aggregate attendance having been approximately 5,500,000. He added:

"To provide healthful recreation and amusement for this vast army of children has been no small task, and in co-operating with this department in seeking to establish a definite aim to this work THE WORLD has rendered a valuable public service. The medals so generously donated by THE WORLD have enabled us to carry on baseball contests in all the boroughs and to provide suitable prizes for the winners. This has served to create among the different playgrounds a spirited and

healthful rivalry. In also publishing the news of the various meets of the playgrounds **THE WORLD** has been a powerful factor in bringing the work of the playgrounds to the attention of the public."

Hundreds of **SUNDAY WORLD** bronze medals and pins were also awarded among the four thousand children enrolled in the School Garden Clubs as prizes for field work and for growing seeds in boxes at home and in schools.

In August and September the **SUNDAY WORLD** also gave thousands of individual drinking cups to the school children of New York—"one of the very best things that any newspaper has ever done," declared a district superintendent.

PUBLIC CONFIDENCE IN THE WORLD'S NEWS.

Public confidence in the accuracy of **THE WORLD'S** news columns was shown strikingly by a little incident in April. A conference was on in Philadelphia between a committee representing the United Mine Workers of America and another of the operators in the anthracite coal regions to arrange a scale. The mine workers, after the final conference, telegraphed to all their local organizations: "See article in **NEW YORK WORLD** this morning (April 13). Be guided by that in dealing with the men."

Then, too, Warren B. Stone, grand chief of the Brotherhood of Locomotive Engineers, chose **THE WORLD** as the best medium for placing his exclusive statement of wage-increase demands of his great organization before the bar of Public Opinion. In like manner **THE WORLD** has presented the side of the Industrial Workers of the World in an authorized page interview with William D. Haywood.

The year 1913 will see another of **THE WORLD'S** ten political planks of 1883 an accomplished fact after a thirty years' fight. The amendment to the Constitution which will permit a tax on incomes has been adopted by thirty-four States; four States have rejected it and of the ten whose Legislatures have not yet acted it is certain that two will join their sister States to make the necessary three-fourths vote. Another piece of public service was a poll of Senators, Congressmen, Governors and public men of the country which disclosed a large majority in favor of one Presidential term without re-election.

The American athletes who formed the winning Olympic team at Stockholm thanked **THE WORLD** for placing its columns at the disposal of their committee to assist in raising the large sum of money needed to pay their expenses to and at the games.

TEN THOUSAND DOLLARS FOR FREE CONCERTS.

In December, 1911, **THE WORLD** announced that it had given \$10,000 for a series of free orchestra concerts in the auditoriums of the city's schools, under the personal direction of Prof. Henry T. Fleck, head of the Department of Music of the Normal College. Sixty-one successful concerts were given and at some the attendance reached 5,000. The total attendance was 125,000. When Mme. Frances Alda sang in the Normal College auditorium 2,000 people were turned away unable to gain admission. The New York City Orchestra, numbering sixty pieces, added much. The orchestral were conducted by Prof. Fleck, Prof. Cornellus Rubner, of Columbia University; Prof. Samuel A. Baldwin, of the City College; Leo Schultz, cellist of the Philharmonic Society, and Frank Damosch, head of the Musical Institute of Art. Among the soloists were Mme. Schumann-Heink, contralto; Mme. Jomelli, Mme. Alda, Mme. Challa, sopranos; Miss Dagmar Rubner, pianist; Signor Alessandroni, baritone; Albert Spalding, violinist; Arthur Friedhelm, Albert von Doenhoff, pianists; Mlle. Borschneck, Signor Prati, Edmund Thiele, Mme. Carrie Bridwell, Claud Cunningham, Edith Goad, Edward Dethler, Carrie Hirschman, Harriet Barkley, Virginia Root, Marlon Van Duyen, Elsie Epstein, S. Freeman, H. Hepler, Hector Orpheus, M. Rosenzweig, Vivian Holt, S. Mirtz, Mme. Saltzberg, Mrs. Raphael, L. S. Samoloff, Henrietta Bach and Angelo Secchi. These concerts provided for by **THE WORLD** were absolutely free and were primarily for the benefit of the music-hungry public which cannot afford to pay the prices asked at the Metropolitan Opera or Carnegie Hall. The last concert was given on March 17 in the auditorium of Public School No. 95 in West Houston Street. At its close Borough President George McAneny said: "In behalf of the city I recognize what has been done for the city by this series of **THE WORLD'S** popular concerts. It has been a distinct public service, characteristic alike in conception and in execution of the public spirit and genius of that great publisher and splendid citizen, Joseph Pulitzer." Prof. Fleck said: "The purpose of the series may fairly be considered to have been accomplished. It was to give the city authorities an object lesson in the need for just such popular performances of good music. Thanks to **THE WORLD**, it realized the importance of the subject, and with its usual public spirit rose to meet the people's need, making it possible for me to carry out my ideas."

OPENING OF THE SCHOOL OF JOURNALISM.

Joseph Pulitzer's plans for a School of Journalism for the endowment of which he gave \$1,000,000 supplemented by another \$1,000,000 by his will, have been put in operation by President Butler and the trustees of Columbia University. Aided by the keen interest and experienced judgment of the Advisory Board an efficient teaching staff of twenty-four was selected in the Spring and Dr. Talcott Williams, long editor of the **PHILADELPHIA PRESS**, was placed at its head as Dean, a choice worthy of the high ideals of the foundation. The cornerstone of the stately building which is to be its home at the corner of Broadway and 116th Street was laid by Mrs. Kate Davis Pulitzer, widow of Mr. Pulitzer, on July 2 with simple ceremony. Inquiries flowed in during the Summer and September saw 100 students enrolled, representing twenty-one countries and states, including China and New Zealand. Nine of these are women. The school was formally opened on September 30 with exercises in Earl Hall when Dean Williams spoke of the ideals of its founder, and set forth the wide scope of the work for the year.

THE EVENING WORLD'S SILVER ANNIVERSARY.

THE EVENING WORLD, with pardonable pride, reviewed on October 10—its twenty-fifth anniversary—its more notable journalistic accomplishments during those years. "While the news of the world at large is never slighted and is always accurately and fairly presented," it said, "**THE EVENING WORLD** is essentially a newspaper of New York for New Yorkers and visitors within our gates." Reasserting its principles set forth in its first editorial utterance on October 10, 1887, it continued: "For twenty-five years the people of New York have piled proof upon proof of esteem and friendliness for the newspaper thus given into their keeping. During the best three months of its existence the average daily circulation of **THE EVENING WORLD** was 74,000. To-day that circulation exceeds 400,000. Its readers number a million and a half. To-day, therefore, this newspaper asks no more than proudly to renew its pledge made a quarter of a century ago to the public that has so generously trusted it. The great brain which for twenty-four years directed its policy and enterprise, whose ideals from the first moment inspired and shaped its course, is forever withdrawn. But **THE EVENING WORLD** dedicates itself anew to the sacred duty of carrying fearlessly and tirelessly forward the task from which its founder never turned or faltered—to watch over and further the happiness and well-being of the people to whom by right of solemn declaration and heroic sacrifice the institutions and liberties of this city and country shall from all time descend."

Esperanto.

THE INTERNATIONAL LANGUAGE.

The following statement has been prepared for THE WORLD ALMANAC:

Esperanto is an artificial language invented by the Russian Dr. L. L. Zamenhof, of Warsaw, Poland. It has only one object in view, namely, to serve as an international auxiliary language; it is not in the least intended to replace the national languages. The first book in the new language was published in 1887.

The Esperanto words are mostly of Latin, but to some extent also of Anglo-German origin, so that at the first glance Esperanto has the familiar appearance of a Roman language.

The great success of Esperanto, which is now known and studied all over the world, is chiefly due to the facility with which it may be mastered. The pronunciation is strictly phonetic, making the study of spelling unnecessary. The grammar does not admit of any exceptions to the rules, and is so logical and simple that it may be learned completely in a few hours by any person who is familiar with the grammar of his mother tongue. The vocabulary consists of about 2,500 root words, a large majority of which is known to anyone whose language contains a great number of Latin roots—for instance, English.

In spite of this small number of root words Esperanto has been made rich in words and expressions by the adoption of certain affixes and certain methods of word combination. By these simple and easy means a considerable vocabulary may be obtained. Esperanto is a well-sounding language when spoken.

Esperanto is now used for all civilized purposes by many hundreds of thousands of persons in all civilized countries. It made its appearance in the United States in an organized form in 1905, when the first society for its study was formed in Boston, and this was followed soon afterward by societies in New York and Philadelphia. It is now promoted by a large and flourishing national association, the "Esperanto Association of North America."

Esperanto has a large literature, over a hundred periodicals, including a number in the United States, being published and a large and powerful "Universal Esperanto Association" maintains a regular system of consulates all over the world, to facilitate the transaction of all kinds of legitimate business for its members by means of the common tongue.

International congresses of Esperantists have been held at Boulogne, Geneva, Cambridge, Dresden, Barcelona, Washington, and Antwerp. The last was attended by delegates representing the Esperantists of forty different nations and languages.

The Esperantists of America have established in Washington an office from which may be obtained without charge, any desired information of the movement. Address "Esperanto Office," Washington, D. C.

The Principal Languages of the World.

THERE are said to be 3,424 spoken languages or dialects in the world, distributed as follows: America, 1,624; Asia, 937; Europe, 587; Africa, 276.

The English language is spoken by more than 150,000,000 of people.
 German by more than 120,000,000 of people. | Spanish by more than 55,000,000 of people.
 Russian " " " 90,000,000 " " | Italian " " " 40,000,000 " "
 French " " " 60,000,000 " " | Portuguese " " " 30,000,000 " "

The English language contains approximately 600,000 words. Of this total nearly one-half consists of scientific terminology seldom met outside of text-books and of archaic, obsolescent or obsolete terms.

Various estimates of the sources of English words have been made at different times. On the basis of the Lord's Prayer, George Hickey calculated that nine-tenths of our words were of Saxon origin. Sharon Turner's estimate was that the Norman were to the Saxon as 4 to 6. Trench computed 60 per cent. Saxon; 30 per cent. Latin, including those received through French; 5 per cent. Greek, and 5 per cent. other sources. Prof. W. W. Skeat in the recently published fourth edition of his Dictionary, which contains approximately 20,000 words, shows the following sources:

Anglo-Saxon and English.....	3,681	Spanish.....	108
Low German.....	120	Portuguese.....	21
Dutch.....	207	Greek direct or through Latin, Late Latin, French or other sources.....	2,493
Scandinavian.....	693	Slavonic.....	31
German.....	333	Lithuanian.....	1
French from Low German.....	54	Asiatic: Aryan languages, including Persian and Sanskrit.....	163
" " Dutch or Middle Dutch.....	45	European non-Aryan languages.....	20
" " Scandinavian.....	63	Semitic: Hebrew.....	99
" " (1) German.....	85	" Arabic.....	272
" " (2) Middle High German.....	27	Asiatic: Non-Aryan, not Semitic, including Malay, Chinese, Japanese, Tatar, Australian.....	135
" " (3) Old High German.....	154	African languages.....	32
" " (4) Teutonic.....	225	American.....	102
" (Romance languages).....	297	Hybrid.....	675
" from Latin.....	4,842	Unknown.....	12
" " Late Latin.....	828		
" " Italian.....	162		
Celtic.....	170		
Latin (direct).....	2,880		
Provençal, from Latin.....	25		
Italian.....	99	Total.....	19,160

As regards the number of words in the principal other languages no estimate of any practical value has been made in recent years, but existing dictionaries show the following facts:

The vocabulary of the New Standard Dictionary of the English Language aggregates approximately 450,000 words.

The German word-book (Kürschner's Universal-Konversations-Lexikon) contains not more than 300,000 words, including personal names.

Grimm's Dictionary of the German Language contains approximately 150,000 words; Littré's Dictionary of the French Language, 210,000 words; Dahl's Dictionary of the Russian Language, 140,000 words; Carlos de Ochoa's Dictionary of the Spanish Language, 120,000 words; Petrocchi's Dictionary of the Italian Language, 140,000 words.

This table was prepared by Dr. Frank H. Vizetelly, Managing Editor of the Standard Dictionary.

Negro Disfranchisement.

THE total number of Afro-American males of voting age in the United States in 1910 was 2,459,327, or 9.1 per cent. Many of these voters in the Southern Democratic States are practically disfranchised and debarred from voting. The law prescribes the qualifications of all voters, without regard to race, color or previous condition; but the conditions are so hard that few colored voters can meet the tests required of them and, technically at least, required of all men. No man can vote who has not been registered, and no man can be registered who does not possess either an educational or property qualification, the registration officers being the judges of the educational qualification of voters, and the tax books determining the property requirement.

ELECTION LAWS OF SOUTHERN STATES.

The following are sections of some of the election laws of the South:

Alabama—1st. Those who can read and write any article of the Constitution of the United States in the English language, and who are physically unable to work; and those who can read and write any article of the Constitution of the United States in the English language and who have worked and who have been regularly engaged in some lawful employment, business or occupation, trade or calling for the greater part of the twelve months next preceding the time they offer to register, and those who are unable to read and write, if such inability is due solely to physical disability; or,

2d. The owner in good faith in his own right, or the husband of a woman who is the owner in good faith in her own right, of forty acres of land situated in this State upon which they reside; or the owner in good faith in his own right or the husband of any woman who is the owner in good faith in her own right of any real estate situate in the State assessed for taxation at the value of three hundred dollars or more, or the owner in good faith in his own right or the husband of any woman who is the owner in good faith of her own right of personal property in this State assessed at taxation at three hundred dollars or more; provided, that the taxes due upon such real estate or personal property for the year next preceding the year for which he offers to register shall have been paid unless the assessment shall have been legally contested and is undetermined.

Georgia—1st. Elections by the people shall be by ballot, and only those persons shall be allowed to vote who have first been registered in accordance with the requirements of law.

"Par. 2. Every male citizen of the State who is a citizen of the United States, twenty-one years old or upward, not laboring under any of the disabilities named in this article, and possessing the qualifications provided by it, shall be an elector and entitled to register and vote at any election by the people; provided, that no soldier, sailor or marine in the military or naval service of the United States shall acquire the rights of an elector by reason of being stationed on duty in this State.

"Par. 3. To entitle a person to register and vote at any election by the people he shall have resided in the State one year next preceding the election, and in the county in which he offers to vote six months next preceding the election, and shall have paid all taxes which may have been required of him since the adoption of the Constitution of Georgia of 1877, that he may have had an opportunity of paying agreeably to law. Such payment must have been made at least six months prior to the election at which he offers to vote, except when such elections are held within six months from the expiration of the time fixed by law for the payment of such taxes.

"Par. 4. Every male citizen of this State shall be entitled to register as an elector and to vote at all elections of said State who is not disqualified under the provisions of section 2 of article 2 of this Constitution, and who possesses the qualifications prescribed in paragraphs 2 and 3 of this section, or who will possess them at the date of election occurring next after his registration, and who, in addition thereto, comes within either of the classes provided for in the five following subdivisions of this paragraph.

"1. All persons who have honorably served in the land or naval forces of the United States in the Revolutionary war, or the war of 1812, or in the war with Mexico, or in any war with the Indians, or in the war between the States, or in the war with Spain, or who honorably served in the land or naval forces of the Confederate States, of the State of Georgia in the war between the States, or,

"2. All persons lawfully descended from those embraced in the sub-division next above, or,

"3. All persons who are of good character, and understand the duties and obligations of citizenship under a republican form of government, or,

"4. All persons who can correctly read in the English language any paragraph of the Constitution of the United States or of this State, and correctly write the same in the English language when read to him by any one of the registrars, and all persons who, solely because of physical disability, are unable to comply with the above requirements, but who can understand and give reasonable interpretation of any paragraph of the Constitution of the United States or of this State that may be read to them by one of the registrars, or,

"5. Any person who is the owner in good faith in his own right of at least forty acres of land situated in this State, upon which he resides, or is the owner in good faith in his own right of property situated in this State and assessed for taxation at the value of five hundred dollars."

"Par. 5. The right to register under sub-divisions 1 and 2 of paragraph 4 shall continue only until January 1, 1915. But the registrars shall prepare a roster of all persons who register under sub-divisions 1 and 2 of paragraph 4, and shall return the same to the Clerk's office of the Superior Court of their counties, and the Clerks of the Superior Court shall send copies of the same to the Secretary of State, and it shall be the duty of these officers to record and permanently preserve these rosters. Any person who has been once registered under either of the sub-divisions 1 or 2 of paragraph 4 shall thereafter be permitted to vote, provided he meets the requirements of paragraphs 2 and 3 of this section.

"Par. 6. Any person to whom the right of registration is denied by the registrars

on the ground that he lacks the qualifications set forth in the five sub-divisions of paragraph 4 shall have the right to take an appeal, and any citizen may enter an appeal from the decision of the registrars allowing any person to register under said sub-divisions. All appeals must be filed in writing with the registrars within ten days from the date of the decision complained of and shall be returned by the registrars to the office of the Clerk of the Superior Court to be tried as other appeals.

"Par. 7. Pending an appeal and until the final decision of the case, the judgment of the registrars shall remain in full force.

"Par. 8. No person shall be allowed to participate in a primary of any political party or convention of any political party in the State who is not a qualified voter."

Louisiana—"Section 3. He (the voter) shall be able to read and write, and shall demonstrate his ability to do so when he applies for registration, by making, under oath administered by the registration officer or his deputy, written application therefor, in the English language or his mother tongue, which application shall contain the essential facts necessary to show that he is entitled to register and vote, and shall be entirely written, dated and signed by him, in the presence of the registration officer or his deputy, without assistance or suggestion from any person or memorandum whatever, except the form of application hereinafter set forth.

"Section 5. No male person who was on January 1st, 1867, or at any date prior thereto, entitled to vote under the Constitution or statutes of any State of the United States, wherein he then resided, and no son or grandson of any such person not less than twenty-one years of age at the date of the adoption of this Constitution, and no male person of foreign birth, who was naturalized prior to the first day of January, 1885, shall be denied the right to register and vote in this State by reason of his failure to possess the educational or property qualifications prescribed by this Constitution; provided, he shall have resided in this State for five years next preceding the date at which he shall apply for registration, and shall have registered in accordance with the terms of this article prior to September 1st, 1898, and no person shall be entitled to register under this section after that date.

Mississippi—"Section 244. On and after the first day of January, 1892, every elector shall, in addition to the foregoing qualifications, be able to read any section of the Constitution of this State; or he shall be able to understand the same when read to him, or to give a reasonable interpretation thereof."

North Carolina—"Art. VI—Sec. 4. Every person presenting himself for registration shall be able to read and write any section of the Constitution in the English language, and shall show to the satisfaction of the registrar his ability to read and write any such section when he applies for registration, and before he is registered; provided, however, that no male person who was, on January first, one thousand eight hundred and sixty-seven, or any time prior thereto, entitled to vote under the laws of any State in the United States where he then resided, and no lineal descendant of such person shall be denied the right to register and vote at any election in this State by reason of his failure to possess the educational qualifications aforesaid: Provided, that it shall be made to appear to the registrar that he or his ancestor was entitled to vote prior to January first, one thousand eight hundred and sixty-seven, in any State in the United States, as prescribed by article six, section four, of the Constitution, and such person, if otherwise qualified, shall be registered, and no registrar shall have the right to inquire whether such person can read or write."

South Carolina—"Section 174. Every male citizen of this State and of the United States, twenty-one years of age and upward, not laboring under disabilities named in the Constitution of 1895 of this State, and who shall have been a resident of the State for two years, in the county one year, in the polling precinct in which the elector offers to vote four months before any election, and shall have paid six months before any election any poll tax then due and payable, and who can read and write any section of the said Constitution submitted to him by the registration officers, or can show that he owns and has paid all taxes collectible due the previous year on property in the State assessed at \$300 or more and who shall apply for registration, shall be registered."

Virginia—"Sec. 20. After the first day of January, nineteen hundred and four, every male citizen of the United States, having the qualifications of age and residence required in Section Eighteen, shall be entitled to register, provided:

"First. That he has personally paid to the proper officer all State poll taxes assessed or assessable against him, under this or the former Constitution, for the three years next preceding that in which he offers to register; or, if he come of age at such time that no poll tax shall have been assessable against him for the year preceding the year in which he offers to register, has paid one dollar and fifty cents, in satisfaction of the first year's poll tax assessable against him; or,

"Second. That, unless physically unable, he makes application to register in his own handwriting, without aid, suggestion or memorandum, in the presence of the registration officers, stating therein his name, age, date and place of birth, residence and occupation at the time and for the two years next preceding, and whether he has previously voted, and, if so, the State, county, and precinct in which he voted last, and,

"Third. That he answer on oath any and all questions affecting his qualifications as an elector, submitted to him by the officers of registration, which questions, and his answers thereto, shall be reduced in writing, certified by the said officers, and preserved as a part of their official records.

"Sec. 21. Any person registered under either of the last two sections, shall have the right to vote for members of the General Assembly and all officers elective by the people, subject to the following conditions:

"That he, unless exempted by Section Twenty-one, shall, as a prerequisite to the right to vote after the first day of January, nineteen hundred and four, personally pay, at least six months prior to the election, all State poll taxes assessed or assessable against him, under this Constitution, during the three years next preceding that in which he offers to vote; provided that, if he register after the first day of January, nineteen hundred and four, he shall, unless physically unable, prepare and deposit his ballot, without aid, on such printed form as the law may prescribe; but any voter registered prior to that date may be aided in preparation of his ballot by such officer of election as he himself may designate."

THE astronomical calculations in this work were expressly made for it by Dr. J. Morrison, and are given in local *Mean Time*.

Chronological Eras.

The year 1913 corresponds to the year 7421-22 of the Byzantine era; the year 7422 commencing on September 1; 5673-74 of the Jewish era, the year 5674 commencing at sunset on October 1; 2666 since the foundation of Rome according to Varro; 268.) of the Olympiads (or the first year of the 673 Olympiad commencing July 1); 2573 of the Japanese era, and to the first of the Taisei; 1331-32 of the Mohammedan era, the year 1332 beginning on November 30. The 138th year of the Independence of the United States of America begins on July 4, 1913.

Church Fasts.

The Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Fridays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts, while all Fridays of the year are days of abstinence from flesh meat. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

Divisions of Time.

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariable, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The *Astronomical Day* begins at noon and the *Civil Day* at the preceding midnight. The *Sidereal* and *Mean Solar Days* are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The *Tropical Year* is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the *Sidereal* and *Tropical Years* would be identical; but in consequence of the disturbing influence of the Moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of 50¹¹/₂₆ annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the *Tropical Year*, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The *Tropical Year* is not of uniform length; it is now slowly decreasing at the rate of 595 second per century, but this variation will not always continue.

Julius Cæsar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4 contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the sixth day before the Kalends of March twice; hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365²⁵²/₁₄₆₀ days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 200 centuries. It, however, 31 leap years were intercalated in 128 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

Standard Time.

PRIMARILY, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour, commencing with the 75th meridian. The first (eastern) section includes all territory between the Atlantic Coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific Coast. Standard time is uniform inside each of these sections, and the time of each section differs from that next to it by exactly one hour. Thus at 12 noon in New York City (eastern time), the time at Chicago (central time) is 11 o'clock A. M.; at Denver (mountain time), 10 o'clock A. M., and at San Francisco (Pacific time), 9 o'clock A. M. Standard time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 18 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

Table of Days Between Two Dates.

A TABLE OF THE NUMBER OF DAYS BETWEEN ANY TWO DAYS WITHIN TWO YEARS.

Table with columns for Day Mo. (Jan-Dec) and rows for Day Mo. (1-31). It provides the number of days between any two dates within a two-year period.

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE.—To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

Easter Sunday.

A TABLE SHOWING THE DATE OF EASTER SUNDAY IN EACH YEAR OF THE NINETEENTH AND TWENTIETH CENTURIES.

Table with columns for years (1801-1884, 1885-1901, 1902-1918, 1919-1934, 1935-1951, 1952-1967) and rows for dates of Easter Sunday.

Legal Holidays in the Various States.

JANUARY 1. NEW YEAR'S DAY: In all States (including District of Columbia, Porto Rico and Alaska), except Kansas and Massachusetts. (In Maine a bank holiday only legally).

JANUARY 8. ANNIVERSARY OF THE BATTLE OF NEW ORLEANS: In Louisiana.

JANUARY 19. LEE'S BIRTHDAY: In Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, Mississippi and Arkansas.

FEBRUARY. MARDI-GRAS: In the parish of Orleans, Louisiana.

FEBRUARY 12. GEORGIA DAY: In Georgia.

FEBRUARY 12. LINCOLN'S BIRTHDAY: In California, Colorado, Connecticut, Delaware, Illinois, Iowa, Indiana, Kansas, Michigan, Minnesota, Montana, Nevada, New Jersey, New York, North Dakota, Pennsylvania, South Dakota, Utah, Washington, West Virginia and Wyoming.

FEBRUARY 22. WASHINGTON'S BIRTHDAY: In all the States, District of Columbia, Porto Rico and Alaska.

MARCH (Third Tuesday). PRIMARY ELECTION DAY: (every Presidential year) in North Dakota.

MARCH 2. ANNIVERSARY OF TEXAN INDEPENDENCE: In Texas.

MARCH 4. INAUGURATION DAY: In District of Columbia in years when a President of the U. S. is inaugurated.

MARCH 21, 1913. GOOD FRIDAY: In Alabama, Connecticut, Delaware, Florida, Louisiana, Maryland, Minnesota, New Jersey, Pennsylvania, Porto Rico, Tennessee.

MARCH 22. EMANCIPATION DAY: In Porto Rico.

APRIL (First Monday). ANNUAL SPRING ELECTION: In Michigan.

APRIL 12. HALIFAX INDEPENDENCE RESOLUTIONS: In North Carolina.

APRIL 13. THOMAS JEFFERSON'S BIRTHDAY: In Alabama.

APRIL 19. PATRIOTS' DAY: In Maine and Massachusetts.

APRIL 21. ANNIVERSARY OF THE BATTLE OF SAN JACINTO: In Texas.

APRIL 26. CONFEDERATE MEMORIAL DAY: In Alabama, Florida, Georgia and Mississippi.

MAY 10. CONFEDERATE MEMORIAL DAY: In North Carolina and South Carolina.

MAY (Second Friday). CONFEDERATE DAY: In Tennessee.

MAY 20. ANNIVERSARY OF THE SIGNING OF THE MECKLENBURG DECLARATION OF INDEPENDENCE: In North Carolina.

MAY 30. DECORATION DAY: In all the States (and District of Columbia, Porto Rico and Alaska), except Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Texas.

JUNE 3. JEFFERSON DAVIS'S BIRTHDAY: In Florida, Georgia, Alabama, Mississippi, Tennessee, Texas and South Carolina. In Louisiana, known as "Confederate Memorial Day." In Virginia, in public schools.

JUNE 11. KAMEHAMEHA DAY: In Territory Hawaii.

JUNE (Last Wednesday). PRIMARY ELECTION DAY: In North Dakota.

JULY 4. INDEPENDENCE DAY: In all the States, and District of Columbia, Porto Rico and Alaska.

JULY 10. ADMISSION DAY: In Wyoming.

JULY 15. PIONEER DAY: In Idaho.

JULY 24. PIONEERS' DAY: In Utah.

JULY 25. LANDING OF AMERICAN TROOPS: Porto Rico.

JULY (Fourth Saturday). PRIMARY ELECTION DAY: In Texas.

AUGUST. PRIMARY ELECTION DAY: In Missouri. In Michigan (last Tuesday preceding every general November election).

AUGUST 1. COLORADO DAY: In Colorado.

AUGUST 16. BENNINGTON BATTLE DAY: In Vermont.

SEPTEMBER 1, 1913. LABOR DAY: In all the

States (and District of Columbia and Alaska). In Louisiana, observed in Orleans Parish.

SEPTEMBER. PRIMARY ELECTION DAY: In Wisconsin, First Tuesday. In Oregon, even years.

SEPTEMBER (Third Saturday). REGATTA DAY: In Territory of Hawaii.

SEPTEMBER 9. ADMISSION DAY: In California.

SEPTEMBER 12. "OLD DEFENDERS' DAY": In Baltimore, Md.

OCTOBER 12. COLUMBUS DAY: In Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Missouri, Montana, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Washington.

OCTOBER 31. ADMISSION DAY: In Nevada.

NOVEMBER 1. ALL SAINTS' DAY: In Louisiana.

NOVEMBER (first Friday). PIONEER DAY: In Montana, observed in public schools.

NOVEMBER — GENERAL ELECTION DAY: In Arizona, California, Colorado, Delaware, Florida, Idaho, Illinois (in Cairo, Chicago, Danville, East St. Louis, Galesburg, Rockford and Springfield), Indiana, Iowa, Louisiana, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, (from 5.30 A.M. to 9 A.M. only), Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Washington, Wisconsin and Wyoming, in the years when elections are held therein. In 1913 in States holding such elections the date is November 4.

NOVEMBER — 1913. THANKSGIVING DAY (usually the last Thursday in November): Is observed in all the States, and in the District of Columbia, Porto Rico and Alaska, though in some States it is not a statutory holiday.

DECEMBER 25. CHRISTMAS DAY: In all the States (except Kansas), and District of Columbia, Porto Rico and Alaska.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving and Christmas are observed. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14) and Arbor Day are holidays when so designated by the Governor. In South Carolina, Thursday of Fair Week is a legal holiday.

ARBOR DAY is a legal holiday in many States, although in some it is observed as designated by the Governor.

Every Saturday after 12 o'clock noon is a legal holiday in California in public offices, Illinois (in cities of 200,000 or more inhabitants), Maryland, Michigan, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, the District of Columbia (for banking purposes), and in New Orleans, La., and Charleston, S. C.; in Louisiana in all cities exceeding 10,000 inhabitants; in Missouri in cities of 100,000 or more inhabitants; in Tennessee, for State and county officers, and in Colorado (during June, July and August; in Indiana, first Saturday in June; last Saturday in October, inclusive, for all public offices in counties having a county-seat of 100,000 population or more; in New Hampshire in State offices.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

* At places marked * the time noted is in the morning of the FOLLOWING day.

(a) "EASTERN" includes: New York, Boston, Philadelphia, Baltimore, Washington, Richmond, Norfolk, Charleston, Buffalo, Pittsburgh, Montreal, Quebec, Ottawa, Toronto, etc.

(b) "CENTRAL" includes: Chicago, St. Louis, Minneapolis, St. Paul, Milwaukee, Kansas City, Omaha, Indianapolis, Cincinnati, Cleveland, Detroit, New Orleans, Memphis, Savannah, Pensacola, Winnipeg, etc.

(c) "MOUNTAIN" includes: Denver, Leadville, Colorado Springs, Helena, Regina (N. W. T.), etc.

(d) "PACIFIC" includes: San Francisco, Portland (Oregon), Victoria, Vancouver, Tacoma, Seattle, etc.

Old English Holidays.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of Britain.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDLEMAS: Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

FEBRUARY 14. OLD CANDLEMAS: St. Valentine's Day.

MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsommer Day.

JULY 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY: Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

SEPTEMBER 29. MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY: Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

DECEMBER 28. CHILDREMAS: Holy Innocents' Day.

Lady Day, Midsommer Day, Michaelmas, and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candlemas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Maundy Thursday, the day before Good Friday, are observed by the Church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

The Magnetic Poles.

THE geographical poles of the earth are the extremities of the imaginary line passing through its centre of gravity and about which it revolves, and are therefore symmetrically located with regard to the equator.

The magnetic poles, however, are not coincident with the geographical poles, nor are they diametrically opposite to each other. Prior to the recent attempt of Amundsen to determine the north magnetic pole, the only other was by Capt. James Ross in June, 1831, who found the dip of the magnetic needle to be 89° 59' .5, in latitude 70° 5' .2 N. and longitude 96° 45' .8 W., which is in King William Land, Canada. The result of Amundsen's observations has not yet been published by the Norwegian authorities.

The position of the south magnetic pole has been located in latitude 72° 23' S. and longitude 154° E. by Prof. Edward David and Mr. Douglas Marmor, members of Lieut. Shackleton's expedition to the South Pole, which left New Zealand on January 1, 1908.

By reason of the annual variation of the magnetic needle, it is believed that the magnetic poles are not stationary, but have a slow motion around the geographical poles. The subject is shrouded in mystery and constitutes one of the many as yet unsolved problems in terrestrial physics.

Table of Memorable Dates.

B. C.	A. D.	A. D.
1183 Fall of Troy.	1682 Pennsylvania settled by William Penn.	1846 War with Mexico began.
1089 Era of the Great Pyramid.	1685 Revocation of the Edict of Nantes, Oct. 22.	1848 French Revolution. Republic succeeded.
878 Carthage founded.	1688 James II. abdicated, Dec. 11.	1848 Gold discovered in California, Sept.
776 Olympic Era began.	1690 Battle of the Boyne, July 1.	1851 Gold discovered in Australia, Feb. 12
753 Foundation of Rome.	1690 First newspaper in America; at Boston.	1851 First International Exhibition, London.
588 Jerusalem taken by Nebuchadnezzar.	1704 Gibraltar was taken by the English.	1859 Louis Napoleon became Emperor.
536 Restoration of the Jews under Cyrus.	1713 Peace of Utrecht, April 11.	1853 Crimean War began.
509 Expulsion of Tarquins from Rome.	1714 Accession of House of Hanover, Aug. 1.	1854 Japan opened by Commodore Perry.
480 Xerxes defeated Greeks at Thermopylæ.	1715 First Jacobite Rebellion in Great Britain; the second in 1745.	1857 The Great Mutiny in India.
55 Cæsar conquered Britain.	1720 South Sea Bubble.	1857 The Dred Scott decision.
4 Birth of Jesus Christ.	1745 Battle of Fontenoy, April 30.	1857 First Atlantic cable message, Aug. 4.
A. D.	1756 Black Hole Suffocation in Calcutta.	1859 John Brown's raid into Virginia.
29 The Crucifixion.	1757 Clive won Battle of Plassey in India.	1860 South Carolina seceded, Dec. 20.
70 Jerusalem was destroyed by Titus.	1759 Canada was taken from the French.	1861 Emancipation of the Russian serfs.
313 Constantine converted to Christianity.	1765 Stamp Act enacted.	1863 Lincoln's Emancipation Proclamation, Jan. 1.
410 The Romans abandoned Britain.	1773 Steam engine perfected by Watt.	1863 Battle of Gettysburg, July 1-3.
227 Egbert, first king of all England, Oct. 14.	1773 Tea destroyed in Boston Harbor, Dec. 16.	1865 Lee surrendered at Appomattox, April 9.
1066 Battle of Hastings, Norman Conquest.	1775 Battle of Lexington, April 19.	1865 Pres. Lincoln assassinated, April 14.
1096 The Crusades began.	1775 Battle of Bunker Hill, June 17.	1867 Maximilian of Mexico executed.
1172 Ireland was conquered by Henry II.	1776 Declaration of Independence, July 4.	1867 The Dominion of Canada established.
1215 King John granted Magna Charta, June 15.	1777 Burgoyne's surrender, Oct. 17.	1869 Financial "Black Friday" in N. Y., Sept. 24.
1265 First Representative Parliament in England.	1779 Capt. Cook was killed, Feb. 14.	1870 Franco-German War began, July 19.
1415 Battle of Agincourt, Oct. 25.	1781 Cornwallis' surrender at Yorktown, Oct. 19.	1870 French capitulated at Sedan, Sept. 1.
1431 Joan of Arc was burnt, May 30.	1785 First settlement in Australia, Jan. 26.	1870 Rome became the capital of Italy.
1453 Constantinople taken by the Turks.	1789 The French Revolution began July 14.	1871 The German Empire re-established.
1455 The Wars of the Roses began.	1789 Washington first inaugural President.	1871 The Irish Church was disestablished.
1462 The Bible was first printed at Mentz.	1794 Cotton-gin invented by Whitney.	1871 The great fire in Chicago, Oct. 8-11.
1471 Caxton set up his printing press.	1793 Louis XVI. of France executed, Jan. 21.	1872 The great fire in Boston, Nov. 9.
1486 The Feuds of York and Lancaster ended.	1796 Vaccination discovered by Jenner.	1876 Prof. Bell perfected the telephone.
1492 Columbus discovered America, Oct. 12.	1798 The Irish Rebellion.	1876 Centennial Exposition at Philadelphia.
1517 The Reformation began in Germany.	1799 Battle of Seringapatam; death of Tippon.	1881 President Garfield shot, July 2.
1519 Cortez began the conquest of Mexico.	1801 Union of Great Britain and Ireland, Jan. 1.	1882 Great Blizzard in Eastern part of U. S., March 11-14.
1535 The first English Bible printed.	1803 Louisiana purchased from the French.	1889 Brazil became a Republic.
1639 Monasteries were closed in England.	1804 Bonaparte became Emperor of France.	1889 Johnstown, Pa., flood, May 31.
1558 Accession of Queen Elizabeth, Nov. 17.	1805 Battle of Trafalgar; death of Nelson.	1893 World's Fair at Chicago.
1565 Revolt of the Netherlands began.	1807 Fulton's first steamboat voyage.	1894 Chinese-Japanese War began.
1565 St. Augustine, Florida, settled.	1812 Second war with Great Britain.	1895 Cuban Revolution began, Feb. 20.
1572 The St. Bartholomew Massacre, Aug. 24.	1812 The French expedition to Moscow.	1897 The Turkish-Greek War.
1588 The Spanish Armada defeated, July.	1813 Perry's victory on Lake Erie, Sept. 10.	1898 The Spanish-American War.
1600 East India Company first chartered.	1814 The printing machine invented.	1899 Universal Peace Conference.
1603 Union of England and Scotland.	1814 Scott's "Waverley" published.	1899 The South African War began.
1605 The Gunpowder Plot in England.	1815 Battle of Waterloo, June 18.	1900 Boxer Insurrection in China.
1607 Jamestown, Va., was settled.	1819 First steamship crossed the Atlantic.	1900 The Galveston tornado, Sept. 8.
1609 Hudson River first explored.	1820 Missouri Compromise adopted.	1901 Death of Queen Victoria.
1616 Shakespeare died, April 23.	1823 Monroe Doctrine declared, Dec. 2.	1901 Assassination of President McKinley.
1618 Thakespear's War in Germany began.	1825 First passenger railroad in U. S.	1902 Martinique destroyed by volcano.
1620 Pilgrims for the Mayflower landed.	1830 Revolution in France, Orleans succession.	1903 Republic of Panama established.
1623 Manhattan Island settled.	1832 S. Carolina Nullification Ordinance.	1904 The Great Fire in Baltimore, Feb. 7.
1634 Maryland settled by Roman Catholics.	1835 Morse invented the telegraph.	1904 The Russo-Japanese War began.
1636 Rhode Island settled by Roger Williams.	1835 Seminole War in Florida began.	1906 San Francisco earthquake and conflagration.
1640 Cromwell's Long Parliament assembled.	1837 Accession of Queen Victoria, June 20.	1903 American Battleship fleet nearly circumnavigated the Globe.
1649 Charles I. was beheaded, Jan. 30.	1845 Texas annexed.	1908 Great Earthquake in Southern Italy.
1653 Oliver Cromwell became Lord Protector.	1846 Sewing machine completed by Howe.	1909 The North Pole discovered, April 6.
1660 Restoration of the Sturats.	1846 The Irish Potato Famine.	1910 Revolution in Portugal. Republic established.
1664 New York conquered from the Dutch.	1846 British Cora laws repealed, June 26.	1911 The Italian-Turkish War began.
1664 The great plague of London.		1911 The South Pole discovered, Dec. 14.
1666 The great fire of London began Sept. 2.		1911 China proclaimed a Republic.
1679 Habæus Corpus Act passed in England.		1912 Steamship Titanic wrecked, April 14.

The French Revolutionary Era.

In September, 1793, the convention decided that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

Vendémiaire (Vintage), September 23 to October 22.
 Brumaire (Foggy), October 23 to November 22.
 Frimaire (Sleety), November 22 to December 21.
 Nivose (Snowy), December 22 to January 21.
 Pluviose (Rainy), January 21 to February 20.
 Ventose (Windy), February 20 to March 19.

Germinal (Budding), March 22 to April 21.
 Floreal (Flowery), April 21 to May 20.
 Prairial (Pasture), May 21 to June 20.
 Messidor (Harvest), June 20 to July 19.
 Thermidor (Hot), July 20 to August 19.
 Fructidor (Fruit), August 19 to September 18.

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September: Primidi, dedicated to Virtue; Duodi, to Genius; Tridi, to Labor; Quartidi, to Opinion, and Quintidi, to Rewards. To Leap Year, called Olympic, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fêtes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants and traitors, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Distinctness, Stoicism, Love, Conjugal Fidelity, Paternal Love, Maternal Tenderness, Filial Duty, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

Anniversaries.

DATES OF HISTORICAL EVENTS CUSTOMARILY OR OCCASIONALLY OBSERVED.

Jan. 1. Emancipation Proclamation by Lincoln, 1863.	July 1. Dominion Day in Canada.
Jan. 8. Battle of New Orleans, 1815.	July 1-3. Battle of Gettysburg, 1863.
Jan. 17. Franklin born, 1706.	July 2. President Garfield shot, 1881.
Jan. 19. Robert E. Lee born, 1807.	July 3. Cervera's fleet was destroyed off Santiago, 1898.
Jan. 27. German Emperor born, 1859.	July 4. Declaration of Independence, 1776.
Jan. 29. William McKinley born, 1843.	July 12. Orangemen's Day.
Feb. 12. Abraham Lincoln born, 1809.	July 14. The Bastille was destroyed, 1789.
Feb. 15. Battle-ship Maine blown up, 1898.	July 16. Santiago surrendered, 1898.
Feb. 22. George Washington born, 1732.	July 21. Battle of Bull Run, 1861.
March 5. Boston Massacre, 1770.	Aug. 7. Gen. Nathanael Greene born, 1742.
March 15. Andrew Jackson born, 1767.	Aug. 13. Manila surrendered to Americans, 1898.
March 18. Grover Cleveland born, 1837.	Aug. 16. Battle of Bennington, Vt., 1777.
April 6. The North Pole reached by Commander Robert E. Peary, 1909.	Aug. 25. Montenegro became a kingdom, 1910.
April 9. Lee surrendered at Appomattox, 1865.	Sep. 1. Capitulation of Sedan, 1870.
April 12. Fort Sumter fired on, 1861.	Sep. 6. President McKinley shot at Buffalo, 1901.
April 12. Henry Clay born, 1777.	Sep. 10. Battle of Lake Erie, Perry's victory, 1813.
April 13. Thomas Jefferson born, 1743.	Sep. 11. Battle of Lake Champlain, McDonough's victory, 1814.
April 14. Lincoln assassinated, 1865.	Sep. 13. Battle of Chapultepec, 1847.
Apr. 18-19. Earthquake and great conflagration at San Francisco, 1866.	Sep. 14. City of Mexico taken by U. S. troops, 1847.
April 19. Primrose Day in England, Lord Beaconsfield died, 1851.	Sep. 15. William H. Taft born, 1857.
April 19. Battles of Lexington and Concord, 1775.	Sep. 17. Battle of Antietam, 1862.
April 23. Shakespeare born, 1564.	Sep. 19-20. Battle of Chickamauga, 1863.
April 27. Gen. U. S. Grant born, 1822.	Sep. 20. Italians occupied Rome, 1870.
April 30. Washington was inaugurated first President, 1789.	Oct. 8-11. Great fire of Chicago, 1871.
May 1. Dewey destroyed the Spanish fleet at Manila, 1898.	Oct. 12. Columbus discovered America, 1492.
May 13. First English settlement in America, at Jamestown, 1607.	Oct. 17. Burgoyne surrendered at Saratoga, 1777.
May 13. Society of The Cincinnati organized by officers of Revolutionary Army, 1783.	Oct. 19. Cornwallis surrendered, Yorktown, 1781.
May 18. The Czar of Russia born, 1868.	Oct. 27. Theodore Roosevelt born, 1858.
May 20. Mecklenburg, N. C., Declaration of Independence, 1775.	Nov. 5. Guy Fawkes Day in England. The Gunpowder Plot discovered, 1604.
May 24. Queen Victoria born, 1819.	Nov. 9. Great fire of Boston, 1872.
June 3. King George V. born, 1865.	Nov. 10. Martin Luther born, 1483.
June 14. Flag Day in the United States.	Nov. 25. British evacuated New York, 1783.
June 15. King John granted Magna Charter at Runnymede, 1215.	Dec. 2. Battle of Austerlitz, 1805.
June 17. Battle of Bunker Hill, 1775.	Dec. 14. Washington died, 1799.
June 18. Battle of Waterloo, 1815.	Dec. 14. The South Pole reached by Capt. Raoul Amundsen, 1911.
June 28. Battle of Fort Moultrie, Charleston, S. C., 1776.	Dec. 16. Boston "Tea Party," 1773.
	Dec. 16. The great fire in New York, 1835.
	Dec. 22. Mayflower pilgrims landed at Plymouth Rock, 1620.
	Dec. 25-26. Battle of Trenton, N. J., 1776.
	Dec. 28. Woodrow Wilson born, 1856.

Ready-Reference Calendar.—1.

For ascertaining the Day of the Week for any given Time from the Beginning of the Christian Era to the Year 2200.

RULE.—To the day of the Month, add Factors for Month, Century, and Year, and divide the total by 7.

If there is no remainder, the day is Sunday.		
“ 1 is the remainder	“	Monday.
“ 2	“	Tuesday.
“ 3	“	Wednesday.
“ 4	“	Thursday.
“ 5	“	Friday.
“ 6	“	Saturday.

Should the total be less than 7, it is to be taken as a remainder.

EXAMPLE :

Week-day of Washington's Birthday, February 22, 1913.

Factors for

Day.	Month.	Century.	Year.	
22	+ 5	+ 5	+ 2	= 34

34 divided by 7 leaves 6 remainder, therefore the day will be *Saturday*.

MONTHS.												YEARS.							
For Leap years figures in heavier type to be taken.												Leap years in heavier type.

The system of this Calendar is taken from one printed in Whitaker's (London) Almanac.

Ritualistic Calendar.

COLORS FOR THE ALTAR IN USE IN RITUALISTIC EPISCOPAL CHURCHES IN THE UNITED STATES.

White.—From the First Service (First Vespers) of Christmas Day to the Octave of Epiphany, inclusive (except on the Feasts of Martyrs); on Maundy Thursday (for the celebration); from the First Service of Easter Day to the Vigil of Pentecost (except on Feasts of Martyrs and Rogation Days); on Trinity Sunday, Conversion of St. Paul, Purification, Annunciation, St. John Baptist, St. Michael, St. Luke, All Saints, Saints who are not Martyrs, and Patron Saints (Transfiguration and Dedication of Church).

Red.—From First Vespers of Pentecost to the First Vespers of Trinity Sunday (which includes Ember Days), Holy Innocents (if on a Sunday), and Feasts of all Martyrs.

Violet.—From Septuagesima to Maundy Thursday (Easter Eve); Advent Sunday to Christmas Eve; Vigils, Ember Days (except in Whitsun Week), and Rogation Days; Holy Innocents (unless on Sunday).

Black.—Good Friday and at funerals. *Green.*—All other days. These regulations as to colors are general. A more minute code changing with each year is published in the church almanacs.

Our Moon.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 233,850 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles, respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of $5^{\circ} 9'$, in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years, 218 days, 21 hours, 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about $6^{\circ} 41'$. In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit; hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3-5 that of the earth, or about 3 2-5 that of water. At the lunar surface gravity is only 3-20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,063 miles below the surface.

The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably further, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space. — *Whitaker*

Moonlight Chart, 1913.

EXPLANATION.—The white spaces show the amount of moonlight each night. January 7, February 6, etc., new moon, no moonlight during the whole night; January 15, February 14, etc., the moon sets at or near midnight, when the first half of the night has moonlight; January 22, February 21, etc., full moon when moonlight lasts the whole night; January 29, February 27, etc., when the moon rises at or near midnight when the latter half of the night has moonlight.

				α Pegasi (Markab).....	+ 14 44	+ 21 34.7	+ 9 32.7

To find the time of the star's transit add or subtract, according to the sign, the numbers in the second column of figures to the date of the transit of the pole star given below. Thus, for α Andromæ February 1. Lower Transit of Polar Star is 4 h. 43 m. 35 s. A. M., to which add 10 h. 40 m. and we have 3 h. 23 m. 35 s. P. M.; for December 1, we find 7 h. 27 m. 51 s. P. M., etc. APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

	Parallax.	Light-Years.		Parallax.	Light-Years.
Polaris (Pole Star).....	0.073	45	α Lyræ (Vega).....	0.140	23
α Aurigæ (Capella).....	0.046	71	β Cygni.....	0.348-0.564	6-8
α Canis Majoris (Sirius).....	0.233	15	β Cassiopeiæ.....	0.137	17
α Canis Minoris (Procyon)...	0.123	27	γ Draconis.....	0.127	26
α Bootis (Arcturus).....	0.127	28	δ Pegasi.....	0.054	60
α Centauri.....	0.916	3.6			

The determination of stellar parallax is one of the most difficult and refined problems in practical or observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small, as seen from the above table, and which cannot be measured directly, but by various processes too complicated to be explained here.

From June 16 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest Eastern or Western elongation can be easily computed from the formula:

$$\sin A = \frac{\sin p}{\cos l}$$

where *A* denotes the azimuth, *p* the polar distance, and *l* the latitude of the place.

DATE OF GREATEST ELONGATION.

To find the time of greatest Eastern or Western elongation, let *H* denote the hour angle, and *l* and *p* as before, then we shall have

$$\cos H = \tan p \tan l.$$

And the hour angle in mean time is

$$H_m = H^{\circ} \times 0.0664846.$$

This quantity, *H_m*, added to or subtracted from the time of transit given above, according to the elongation required, will give the mean time of the greatest elongation at any place whose north latitude is *l*.

Astronomical Phenomena for the Year 1913

ASTRONOMICAL SIGNS AND SYMBOLS.

☉	The Sun.	♂	Mars.	♄	Conjunction.
☾	The Moon.	♃	Jupiter.	☽	Quadrature.
☿	Mercury.	♄	Saturn.	☽	Opposition.
♀	Venus.	♅	Uranus.	♅	Ascending Node.
♁	The Earth.	♆	Neptune.	♆	Descending Node.

Two heavenly bodies are in "conjunction" (♄) when they have the same *Right Ascension*, or are on the *same meridian*, *i. e.*, when one is due *north* or *south* of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♅) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" (☽) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (♅) or "descending" (♆) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" furthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

I.—ECLIPSES.

In the year 1913 there will be five eclipses, three of the sun and two of the moon, as follows:
1. A total eclipse of the moon March 22, partly visible in the United States.

PLACES.	Moon Enters Shadow.		Total Eclipse Begins.		Total Eclipse Ends.		Moon Leaves Shadow.	
	H.	M.	H.	M.	H.	M.	H.	M.
Boston.....	5	28.3 A.M.	After	After Moon Sets.	After	After Moon Sets.	After	After Moon Sets.
New York.....	5	16.8 A.M.	"	"	"	"	"	"
Washington.....	5	4.4 A.M.	6	2.7 A.M.	"	"	"	"
Charleston.....	4	53.1 A.M.	5	51.4 A.M.	"	"	"	"
Chicago.....	4	22.3 A.M.	5	20.5 A.M.	"	"	"	"
Denver.....	3	12.6 A.M.	4	10.9 A.M.	5	44.4 A.M.	"	"
San Francisco.....	2	2.9 A.M.	3	1.2 A.M.	4	34.7 A.M.	5	32.9 A.M.

Magnitude 1.57. Moon's diameter = unity.

2. A partial eclipse of the sun April 6, visible in Alaska, British Columbia, Alberta, the northwestern portion of Saskatchewan, Washington, Oregon, Northern California and the northwestern portions of Nevada, Idaho and Montana.

At Seattle the eclipse will begin at 8 hours 25.7 minutes A. M. and end at 9 hours 38.7 minutes A. M. The first contact will occur at 65° and the last at 11° 2 from the northern point of the sun's limb toward the West in both cases.

3. A partial eclipse of the sun August 31, visible only in Iceland, Greenland, Labrador, Newfoundland and the extreme eastern portions of Quebec, New Brunswick, and Nova Scotia.

At St. Johns, Newfoundland, the eclipse will begin at 5 hours 33.2 minutes P. M. and end at 6 hours 9 minutes P. M.

4. A total eclipse of the moon September 15, visible partly in the United States as follows:

PLACES.	Moon Enters Shadow.		Total Eclipse Begins.		Total Eclipse Ends.		Moon Leaves Shadow.	
	H.	M.	H.	M.	H.	M.	H.	M.
Charleston.....	5	33.0 A.M.	After	After Moon Sets.	After	After Moon Sets.	After	After Moon Sets.
Chicago.....	5	2.1 A.M.	"	"	"	"	"	"
Denver.....	3	52.5 A.M.	5	1.0 A.M.	"	"	"	"
San Francisco.....	2	42.8 A.M.	3	51.3 A.M.	5	25.5 A.M.	"	"

Magnitude 1.43. Moon's diameter = unity.

5. A partial eclipse of the sun September 29-30, visible only in Madagascar and the southeastern portion of Africa.

Astronomical Constants.

MEAN solar parallax, 8".80. Nutation constant, 9".21.
 Aberration constant, 20".47. Annual precession, 50".2564
 Obliquity of the ecliptic, 23° 27' 8".26—0".4684 (t—1900).
 Annual diminution of obliquity, 0".4684.
 Moon's equatorial horizontal parallax, 57' 2".68.
 Moon's mean distance from the earth (centre to centre), 238,850 miles.
 Sun's mean distance from the earth (astronomical unit), 92,894,800 miles.
 Velocity of light, 186,320 miles per second.
 Light travels unit of distance—viz. 92,894,800 miles in 498.566 seconds.
 Length of the Year—Tropical (equinox to equinox), 365.2421983 days.
 Sidereal or absolute revolution, 365.2563604 days.
 Anomalistic (from perihelion to perihelion), 365.2596413 days.
 Length of the Day—Sidereal, 23 hours 56 minutes 4.091 seconds (mean solar time). Mean solar, 24 hours 3 minutes 56.555 seconds (sidereal time).
 Length of the Month—Synodical (from new moon to new moon), 29 days 12 hours 44 minutes 2.8 seconds. Tropical, 27 days 7 hours 43 minutes 4.7 seconds. Sidereal (absolute revolution), 27 days 7 hours 43 minutes 11.5 seconds. Anomalistic (from perigee to perigee), 27 days 13 hours 18 minutes 33.1 seconds.
 Dimensions of the Earth—Equatorial radius, 3963.23 miles. Polar radius, 3949.79 miles. Eccentricity of the oblate spheroid, 0.0822718.

Halley's Comet.

Of the great number of comets which have temporarily visited our solar system or have become permanent members of it none has surpassed Halley's in historical associations. It has a record dating back to B. C. 240; its visitations spread alarm and consternation throughout Europe during the Middle Ages; was the first whose return was predicted by an Astronomer Royal of England, and will therefore, for these reasons, be an object of great scientific interest for all time. For the information of those who appreciate such matters the following are the elements of its orbit as deduced from the last visitation:

Perihelion Passage 1910, April, 19.67. Greenwich Mean Time.

Eccentricity = 0.967281.	Longitude of the ascending node = 57° 16' 12".
Semi-axis major = 17.9468.	Distance from perihelion to node = 111° 42' 16".
Perihelion distance = 0.58720.	Daily motion (mean) = 46".669
Inclination to the plane of the earth's orbit = 17° 47' 18".	Period = 74.424 years.*
	Motion, retrograde.

The semi-axis major and the perihelion distance are expressed in terms of the earth's mean distance from the sun, taken as unity. See also article on Halley's Comet and on Comets in ALMANACS of 1910 and 1911.

* The periodic time varies considerably by reason of the attraction of the planets. Its average duration is about 76.5 years.—J. M.

(By J. Morrison, M. D., Ph. D.)

NOTWITHSTANDING all the researches of man into the arcana of nature, there are several things which he, with all his boasted powers, cannot define, among which may be mentioned time, space, matter and force. We become cognizant of the existence of the first by reason of the daily and annual motions of the celestial bodies; but given a blank sky and a continuous vertical sun we would have a very imperfect appreciation of it, if any at all, since there would be no means of measuring it. It is a uniformly flowing quantity, of only one dimension, for as regards simple duration, we can only look back to the past and forward to the future. It may therefore be graphically represented by a straight line extending in opposite directions to infinity.

Space, we know, has three dimensions, length, breadth, and depth or height, each extending in opposite directions to infinity.

In a general way we say that matter is any substance which occupies space, but this is no definition. We know nothing of its intrinsic nature or essence whatever. There are on the earth some 67 or 68 different kinds of matter; we know something of their physical properties, of their combinations and reactions on one another; but beyond that we know nothing about them.

Everything in the universe, whether visible or invisible, is either material or spiritual; if there were no spiritual world, it is certain there would be no material one; matter undoubtedly rests or subsists on a spiritual basis.

When a portion of matter—a piece of iron for instance—is unsupported it falls to the ground, and being an inanimate substance, it cannot move itself, hence some invisible power or force moves it. This force is called gravity or gravitation and is due to the attraction of the earth. We cannot define force; we know nothing about its intrinsic nature. In general language we say, it is any agent or cause which changes or tends to change the state or position of matter with respect to rest or motion. Different names are given to forces according to the effects produced. Thus we speak of the force of attraction of the earth which holds ourselves and all movable things on its surface, molecular force which binds the molecules of a body together, repulsive forces, electrical forces, vital forces, etc., but they are all alike in their essential quality. All forces are spiritual in their nature; they are certainly not material. For instance the force which holds the moon in its orbit around the earth, does not consist of material bonds or wires. Since then it is not material, what is it? It must necessarily be of a spiritual nature, although it operates through matter. In the case of a body moving in a circle or of the moon around the earth or of a planet around the sun, we have occasion to speak of centripetal and centrifugal forces about which some erroneous impressions are taught in some works on physics.

As an illustration of these forces, let us consider the case of a railway car running on a smooth, straight, level track, to enter a circular curve. While moving on the straight track there is no force operating to sway it to one side or the other, but when it enters the curve it is constrained to move in the arc of a circle. The flange on the outer wheels presses against the inner edge of the outer rail, and the inner edge of the outer rail presses against the flanges, these pressures are equal, in opposite directions and always at right angles to the direction of motion upon which they have no influence whatever. The former—the pressure of the flange against the rail—is the centrifugal force—away from the centre, and the latter—the pressure of the rail against the flange—is the centripetal force. When the car leaves the curve and enters a straight track, these forces vanish instantly.

The mode or manner in which gravity or gravitation acts on matter, was discovered by Sir Isaac Newton. Its action is continuous and according to a certain law which we shall now explain.

In mathematics and physics a law may be defined to be the constant and continuous operation of a cause or agent by which certain effects or phenomena are produced. Thus we have the law of a series which determines the order of succession of the terms; the law of the compressibility of gases; the laws of motion; Kepler's laws of the planets; the law of universal gravitation, etc.

As an illustration of some of these laws, let us take the series

$$1-3+3-5+5-7+7-9+, \text{ etc.}, \text{ to infinity.}$$

Here the law of formation of the terms is evident. Each term increases but can never exceed unity and the sum of them all is infinity.

As another example take the series $1+6+20+56+144+, \text{ etc.}$

Here the law is not evident, but the subsequent terms are determined by a law as invariable as in the preceding.

The law of universal gravitation as originally propounded by Sir Isaac Newton is this: "Every particle of matter in the universe attracts every other particle with a force which varies directly as the mass and inversely as the square of the distance between them."

In accordance with this law it is easy to show mathematically that the attraction of a sphere on a body external to it, is exactly the same as if the entire mass of the sphere were condensed or collected at the very centre.

This will be more easily understood from the following illustration:

Let CA represent the radius of the earth and the points 2, 3, 4, etc., two, three, etc., radii from the centre C; then whatever may be the attraction at the surface A, one radius from the centre, at 2 it is 1-4; at 3, 1-9; at 4, 1-16 and so on, of what it is at A, that is to say, the force varies inversely as the square of the distance. If the mass of the earth, for instance, were doubled, trebled, etc., the force would be increased in the same ratio. This is what is meant by "directly as the mass."

The mean radius of the earth is about 3,956 miles—say 4,000 for the sake of illustration—and at the surface it has been found by actual experiments that a body will fall from rest, 16 feet and one inch—say 16 feet to avoid fractions—in one second; then according to the above law, at the distance of two radii from the centre or 4,000 miles above the surface, the body would fall only one-fourth of 16 feet or 4 feet in a second; at three radii from the centre it would fall one-ninth of 16 feet; at four radii one-sixteenth of 16 feet or one foot in a second and so on, decreasing as the square of the distance from the centre increases. At sixty radii—the moon's average distance—it would fall only the 1-3,600 of 16 feet or about one-nineteenth of an inch, and this is what the moon actually does fall or depart from the straight line in which it would move if not disturbed by the earth's attraction. This was the first verification made by Sir Isaac Newton, of this wonderful law.

Gravitation is universal, it holds the universe together in its tremendous grasp, it prevents the planets, the sun and stars from disintegration, that is to say from being torn in fragments by the centrifugal force generated by the rotation on their axes; its suspension would wreck the universe; if gravity were suspended on the earth only, our atmosphere would instantly vanish into space; our oceans and lakes would leave their beds and be thrown off like spray; our continents and mountains, now so solid under our feet, would be torn from their foundations and hurled in countless millions of fragments into the limitless regions of space. This, however, is a catastrophe which can never occur. But to return to a consideration of the effect of gravity on the earth's surface, in which every one is more or less interested, we first remark that it confers weight on bodies. Weight, however, is not an essential property of matter like porosity, elasticity, etc. The weight of a body is the measure of the attractive force of gravity on it and is not the same in all places. A pound of

Iron, for instance, at New York, is not a pound at Quebec or Panama, but this variation in its weight is no "freak of gravity" as some people have imagined, but in strict agreement with the law of gravitation and the physical condition of the earth. It would, too, weigh a trifle less on the top of a high mountain or in a deep mine or pit, than at the surface. Gravity retains the atmosphere around the earth. Marine animals live at the bottom of the ocean at the depth of a mile or two, and, of course, are subject to great pressure from the superincumbent water, so likewise we ourselves crawl around on the surface of the earth at the bottom of an aerial ocean not less than 50 miles in depth and also under great pressure. Some people can hardly realize that gases can have weight, but a column of air one inch square at the base and extending to the top of the atmosphere, weighs about fifteen pounds and a square mile of the earth's surface sustains an atmospheric pressure of 30,108,672 tons.

If our pound of iron could be taken to the centre of the earth it would have no weight because it would be equally attracted in all directions. Again, there is a point on the line joining the centres of the earth and moon, at which it would have no weight, being there equally attracted in opposite directions. There is also another point on the same line produced beyond the moon at which it would be equally attracted, but it would have weight because the attractions now act in the same direction and it would fall toward the moon. In all these instances it must be remembered that the mass or quantity of matter in the body is constant in all places, but the weight varies from place to place, by reason of causes which will now be explained. Astronomy and geology furnish abundant evidence that the earth was once in not only a gaseous but also subsequently in a plastic condition, having been detached or set free from the parent mass which ultimately became the sun. At its birth it would, by the laws of motion, receive not only a motion of translation but also a motion of rotation around an axis passing through its centre of gravity, and by virtue of this latter motion it would necessarily take the form of an oblate spheroid, or the shape of the body generated, by revolving an ellipse about its minor axis, that is to say, a globular body flattened at the poles, and protuberant along the equator like a Saturnian orange. This form or shape, first derived from theoretical considerations, was subsequently verified by actual measurements of arcs of meridians in Lapland, Peru, India, South Africa, England, France, and the United States. The boundary line between Maryland and Delaware, having a bearing of N. 3° 43' 30" W. was used for this purpose by the English astronomers Mason and Dixon, who also in 1763-8 established the boundary line between Maryland and Pennsylvania, the real Mason and Dixon line of ancient American politics. The dimensions of the earth deduced from these measurements as well as from the geodetic operations in this country, England, France, India, and Russia are as follows: Equatorial radius 3963.23 miles, polar radius 3949.79 miles, difference 13.44 miles, from which it appears that the poles are very nearly 13½ miles nearer the centre of the earth than any point on the equator is, and since the attraction of the whole spheroid is the same as if its entire mass were collected at the centre, the force of attraction at the poles is greater than at any other point on the earth's surface. For this reason alone the weight of a body increases as we approach the poles.

The earth makes one revolution on its axis in 24 hours and its circumference at the equator is 24,900 miles, which gives there a velocity of more than 1,000 miles per hour. This great velocity generates a centrifugal force which tends to lift bodies from the surface and therefore to oppose gravity. This force has already been referred to in the case of the pressure of the flange of the outer wheels of a railway car against the inner edge of the outer rail while the car is running on a circular track. It may also be easily demonstrated by tying a body to the end of a string and holding the other end in the hand, whirl it around; the body will tend to fly off, and if whirled fast enough it will break the string. This tendency of revolving bodies to depart from the centre of motion is called the centrifugal force and in the case of the earth is manifestly greatest at the equator and decreases as we approach the poles, where it vanishes.

Therefore, for this reason also, the weight of a body will increase as we travel north or south from the equator. These two causes, depending on the figure and motion of the earth, conspire to increase the weight of a body as its latitude increases.

Notwithstanding the great velocity at the equator, gravity is there 289 times greater than the centrifugal force, but if the earth revolved 17 times faster (the square root of 289) than at present, bodies at the equator would lose their weight and remain suspended without any visible support.

The centrifugal force varies directly as the square of the velocity and inversely as the radius of the circle in which it moves.

In the case of weighing the difference in weight of a body in different latitudes, common scales with weights cannot be employed, because the weights would be affected in the same way as the body to be weighed. A delicately and accurately constructed spiral steel spring is used, to which is attached a carefully graduated scale with a microscope or vernier for accurate reading. The elasticity of such a spring is not affected by gravity or the centrifugal force.

For all accessible heights above the earth gravity is regarded as a constant force, and is such that it will cause a body to fall from rest, 16 feet in the first second; 48 feet in the next second; 80 feet in the third second; 112 feet in the fourth second and so on, increasing as the numbers, 1, 3, 5, 7, etc. At the end of the first second its velocity is 32 feet, twice the distance it just fell; at the end of the next second the velocity is 64 feet, at end of the third second 96 feet and so on, increasing by 32 feet at the end of every second. This number, 32 feet per second, is constant and is taken as the unit or measure of gravity and denoted by the letter *g*, in all works on physics.

In all these illustrations, fractions of a foot have not been taken into account, nor the resistance and buoyancy of the atmosphere. Strictly speaking, the exact value at the equator is 32.0902 feet, at the poles 32.2549 feet, and at New York 32.1071 feet.

Most people believe that the pressure below the surface of the earth—say 100, 400 or 1,000 miles below the surface—must be very great, but such is not the case. Below the surface, gravity varies not inversely as the square of the distance, but directly as the distance from the centre, that is to say, taking 4,000 miles for the radius, at the depth of 1,000 miles, gravity would be three-fourths of what it is at the surface, 2,000 miles down it would be only one-half, at 3,000 miles, one-fourth and at the centre it would be zero.

The law apparently changes below the surface, but this is no "freak of gravity," but in strict accord with the law of inverse square as before stated. The weight or pressure of the material composing the earth's crust becomes less and less as we descend below the surface.

Suppose we could go down 1,000 miles, there would then be a sphere of 3,000 miles radius below us, imagine this sphere to be removed leaving behind a hollow spherical shell of 1,000 miles in thickness and we will assume of uniform density, now if a body be placed anywhere within the shell, it will have no weight and remain at rest, that is to say, the attraction of the nearer portions of the shell will be exactly neutralized by the opposite portions, but the attraction of the shell on a particle exterior to it varies inversely as the square of the distance from its centre.

There are some other interesting facts deduced by the aid of the higher mathematics that serve to impress us with this wonderful force; for instance, if a hole were cut through the centre of the earth from surface to surface, and if a number of bodies were placed at different points in this hole—say at the surface, 100, 500, 2,000 and 3,000 miles or only a few feet from the centre, and if all these bodies were dropped at the same instant they would all reach the centre at the same time, but with different velocities; the velocity of each, however, would carry it as far beyond the centre as it just fell; it would then stop and return, vibrating to and fro forever. This would be a genuine case of perpetual motion. The time of falling to the centre from the surface or from any other point in the

hole is 21 minutes and 7 seconds and the velocity acquired by falling from the surface is 4914 miles per second.

Again, the mass of the earth is such as to give to a body falling, say from the region of the fixed stars, a velocity of 6.9505 miles per second when it reaches the surface, or in other words if a body could be projected with a velocity greater than this, say seven miles per second, it would never return to the earth; gravity would not be strong enough to draw it back.

We now come to the consideration of a circumstance where it has been assumed that the centrifugal force, resulting from the diurnal motion of the earth, was suspended or rather reversed for a while. It is recorded in two different places in the old Testament, viz., II. Kings, chap. XX., also Isalah, chap. XXXVIII., that at a certain time the shadow cast by the style on the sun dial of Ahaz, went back ten degrees. Theologians and philosophers in all the churches of Christendom have been wrestling with this phenomenon, all down through the centuries, but with negative results, regarding it finally as one of the most stupendous miracles ever exhibited, surpassing even the performance of Joshua. He only made the sun stand still, but in this case, the sun not only stopped but went back in its apparent course ten degrees, which of course implies that the earth stopped in its diurnal motion, and then rotated back from east to west ten degrees—a movement which would have wrecked our globe and torn it into fragments—but notwithstanding its apparent impossibility, there is not the shadow of a doubt but that the phenomenon actually happened as recorded.

When the higher criticism brings the power of the higher mathematics to bear on the subject, it tells its own story. It tells us that it is simply an astronomical phenomenon which must occur under certain conditions and is no more miraculous than the daily rising and setting of the sun, moon and stars. The phenomenon can be demonstrated here in New York as well as in Jerusalem or any other part of Palestine, nor is it necessary to erect a sun dial to show that the shadow of its style can go back ten or even twenty degrees while at the same time the sun moves on in its apparent course through the sky. An ocular demonstration of the phenomenon can be shown by simply placing a straight stick in a certain position into the level ground, when the reason or cause will be apparent to the spectator. The mathematical discussion of the subject is too abstruse to be given here.

Joshua's "Sun standing still" was a meteorological phenomenon whose explanation does not fall within the domain of mathematics.

Facts About the Earth.

ACCORDING to Clark, the equatorial semi-diameter is 20,926,202 feet=3963.296 miles, and the polar semi-diameter is 20,851,895 feet=3950.738 miles. One degree of latitude at the pole=69.407 miles. One degree of latitude at the equator=68.704 miles.

POPULATION OF THE EARTH BY CONTINENTS.

CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.		CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.	
		Number	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa	11,513,579	170,000,000	14.78	Australasia	3,456,290	8,000,000	2.31
America, N.	8,037,714	110,000,000	13.68	Europe.....	3,754,282	400,000,000	106.54
America, S.	6,851,306	35,000,000	5.10	Polar Reg... ..	4,970,265	300,000	0.06
Asia	17,057,666	900,000,000	52.76	Total.....	55,641,102	1,623,300,000	29.22

The estimate in areas in the above table is the newest made by a competent geographer and is by Professor Supan of Gotha in his work entitled "Bevölkerung der Erde." It varies considerably from previous estimates. Central America and the West Indies are included in the estimate for North America. The estimate of population is from Whitaker's (London) Almanack for 1912, excepting that of the Polar Region.

Ravenstein's estimate of the earth's fertile region, in square miles, is 28,269,200; steppe, 13,901,000; desert, 4,180,000; polar regions, 4,888,800.

The population of the earth at the death of the Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century. — *Mulhall*.

The proportion of females to 1,000 males in 1901 was: Great Britain, 1,062; France, 1,033; Germany, 1,032; United States, 959. — *Webb-Mulhall*.

The area and cubic contents of the earth, according to the data of Clark, given above, are: Surface, 196,971,984 square miles; cubic contents, 259,944,035,515 cubic miles.

Murray (Challenger expedition) states the greatest depth of the Atlantic Ocean at 27,366 feet; Pacific Ocean, 30,000 feet; Indian Ocean, 18,582 feet; Southern Ocean, 25,200 feet; Arctic Ocean, 9,000 feet. The United States Collier Nero obtained a depth of 31,614 feet in the Pacific Ocean, near Guam, November 14, 1899. The Atlantic Ocean has an area, in square miles, of 24,536,000; Pacific Ocean, 50,309,000; Indian Ocean, 17,084,000; Arctic Ocean, 4,781,000; Southern Ocean, 30,592,000. The highest mountain is believed to be Deodhunga or Everest, one of the Himalayas, 29,002 feet.

For population of the earth according to creed, see RELIGIOUS STATISTICS.

POPULATION OF THE EARTH ACCORDING TO RACE.

(Based on latest estimate by John Bartholomew, F. R. G. S., Edinburgh.)

RACE.	Location.	Number.	RACE.	Location.	Number.
Indo-Germanic or Aryan (white).....	Europe, Persia, etc.....	625,000,000	Hottentot and Bushman (black).....	South Africa	150,000
Mongolian or Turanian (yellow and brown).....	Greater part of Asia.....	630,000,000	Malay and Polynesian (brown).....	Australasia & Polynesia	35,000,000
Semitic or Hamitic (white).....	North Africa, Arabia.....	65,000,000	American Indian (red).....	North & So. America.....	15,000,000
Negro and Bantu (black).....	Central Africa.....	150,000,000	Total.....		1,520,150,000

The human family is subject to fifty principal governments. As to their form they may be classified as follows: *Absolute monarchies*, Abyssinia, Afghanistan, Morocco, Siam; *Limited monarchies*, Austria-Hungary, Belgium, British Empire, Bulgaria, Denmark, Germany, Greece, Italy, Japan, Montenegro, Netherlands, Norway, Persia, Roumania, Russia, Servia, Sweden, Spain, Turkey; *Republics*, Argentina, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, France, Guatemala, Hayti, Honduras, Liberia, Mexico, Nicaragua, Panama, Paraguay, Peru, Portugal, Salvador, Switzerland, United States of America, Uruguay, Venezuela. Besides these are the undefined despotisms of Central Africa, and a few insignificant independent States.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to 65.

EUROPEAN LANGUAGES SPOKEN.

The Geological Strata.

THE strata composing the earth's crust is divided by most geologists into two great classes: 1. Those generally attributed to the agency of water. 2. To the action of fire; which may be subdivided as follows: (a) Aqueous formations, stratified, rarely crystalline (sedimentary or fossiliferous rocks; metamorphic or unfossiliferous). (b) Igneous formations, unstratified, crystalline (volcanic, as basalt; plutonic, as granite).

The geological record is classified into five main divisions or periods: 1. The Archæan, lifeless and dawn of life. 2. The Palæozoic (ancient life). 3. The Mesozoic (middle life). 4. The Cenozoic (recent life). 5. Quaternary, the age in which man's first appearance is indicated.

PERIODS.		Eras.	Series.	Subdivisions.	
Quaternary Period.	Age of Primeval Man.	Quaternary or Post Tertiary.	3. Recent. 2. Champlain. 1. Glacial.	Pleistocene.	
Cenozoic Period.	Age of Mammals.	Tertiary Era.	4. Pliocene.	English Crag.	
			3. Miocene. 2. Oligocene. 1. Eocene.	Upper Molasse, Rupelian and Tongrian of Belgium.	
Mesozoic Period.	Age of Reptiles.	Cretaceous Era.	4. Laramie.	Upper Chalk.	
			3. Colorado. 2. Dakota. 1. Lower.	Lower Chalk. Chalk Marl. Gault. Neocomian. Lower Greensand.	
		Jura-Trias.	Jurassic	3. Purbeck. 2. Oölite. 1. Lias.	Wealden. Purbeck, Portland. Kimmeridge. Oxford Oörites. Lower or Bath Oölite. 1. Lower Lias. 2. Maristone. 3. Upper Lias.
			7. Triassic.	4. Rhetic. 3. Upper. 2. Middle. 1. Lower.	Kössen beds, Dachstein beds; Alpine Kenper. (Trias. in part. Muschelkalk Bunter-Sandstein.

Archæan Period.			Cambrian.	Lower, Middle, and Upper Cambrian.	
			Eozoic (dawn of life). Azoic (lifeless).	1. Laurentian. Huronian.	

Table of Magnetic Declinations

OR VARIATION OF COMPASS FOR JANUARY, 1913—WITH THE ANNUAL CHANGE BETWEEN 1905 AND 1910 FOR THE PRINCIPAL PLACES IN THE UNITED STATES.

A plus (+) sign to the annual change denotes that the declination is increasing, and a minus (-) sign the reverse.

(Specially prepared for THE WORLD ALMANAC in the Office of the United States Coast and Geodetic Survey.)

Main table of magnetic declinations with columns for State or Territory, Station, Approximate Latitude, Approximate Longitude, Variation January, 1913, and Annual Change. Lists locations from Ala. to Wyo.

EXTREME VALUES.

Summary row for extreme values: Maine... [N. E. Corner...] [22 12 W] [6] Alaska... [N. E. Corner...] [38 57 E] [1]

DEPENDENCIES.

Table of dependencies: Cuba... Havana... Santiago... Porto Rico... San Juan... Ponce... Haw'n Islands... Honolulu... Hilo... Philip-pines... Manila...

Races of Mankind.

THE following is compiled from the arrangement by Ethnologist Figuler and others:

		WHITE RACE.	
European Branch.	{	Teutonic Family.....	Scandinavians, Germans, English.
		Latin Family.....	French, Spaniards, Italians, Moldo-Wallachians.
		Slavonian Family.....	Russians, Finns, Bulgarians, Servians, Magyars, Croats, Tchecks, Poles, Lithuanians.
		Greek Family.....	Greeks, Albanians.
Aramean Branch.	{	Libyan Family.....	Egyptians, Berbers.
		Semitic Family.....	Arabs, Jews, Syrians.
		Persian Family.....	Persians, Afghans, Kurds, Armenians, Ossetines.
		Georgian Family.....	Georgians.
Circassian Family.....	{	Circassians, Mingrelians.	
		YELLOW RACE.	
Hyperborean Branch.	{	Lapp Family.....	Samolede, Kamtshadale, Esquimau, Tenislian, Jukaghrite, and Koriak Families.
		Mongol Family.....	Mongols, Kalmucks, Burats.
Mongolian Branch.	{	Tunguse Family.....	Tunguses, Manchus.
		Turk Family.....	Turcomans, Kirghis, Nogays, Osmaulis.
Slnaic Branch.	{	Yakut Family.....	Yakuts.
		Chinese Family.....	Chinese.
		Japanese Family.....	Japanese.
Iudo-Chinese Family.....	{	Burmese, Siamese.	
		BROWN RACE.	
Hindoo Branch.	{	Hindoo Family.....	Sikhs, Jats, Rajpoots, Mahrattas, Bengalese, Cingalese.
		Malabar Family.....	Malabars, Tamals, Telugas.
Ethiopian Branch.	{	Abyssinian Family.....	Abyssinians, Berabars, Gallas.
		Fellian Family.....	Fellans.
Malay Branch.	{	Malay Family.....	Malays, Javanese, Battas, Bongis, Maccassars, Dyaks, Togals.
		Polynesian Family.....	Maoris, Tongas, Tanitians, Pomotouians, Marquesans, Sandwichiens.
Micronesian Family.....	{	Ladrone, Caroline, and Mulgrave Islanders.	
		RED RACE.	
Southern Branch.	{	Andian Family.....	Quichuas (or Incas), Antis, Andians, Araucanians.
		Pampean Family.....	Patagonians, Puelches, Charruas, Tobas, Moxas, Abipous, etc.
Northern Branch.	{	Guarani Family.....	Guaranis, Bocudos.
		Southern Family.....	Aztecs, Mayas, Lencas, Othomis, Tarascas, etc.
Northwestern Family.....	{	Cherokees, Hurons, Iroquois, Sioux, Apaches, Comanches, Creeks, etc.	
		Chinooks, Digger Indians, Nootkans, etc.	
		BLACK RACE.	
Western Branch.	{	Caffre Family.....	
		Hottentot Family.....	
Eastern Branch.	{	Negro Family.....	
		Papuan Family.....	Fijians, New Caledonians, etc.
Andaman Family.....	{	Andamaus, Australians.	

Earthquake Areas of the Earth.

MAJOR DE MONTESSUS DE BALORE, after years of labor, has drawn up a catalogue of 130,000 shocks, of which trustworthy details have been procured, and this indicates with some scientific accuracy how the symptoms of seismic activity are manifested over the earth's surface. The period of observation includes generally the last fifty years; but there is no reason to suppose that a longer time would materially affect the proportionate numbers. The appended figures, drawn from M. de Montessus's statistics, will give an idea of the general result:

AREA.	Earth- quakes.	AREA.	Earth- quakes.	AREA.	Earth quakes.
Scandinavia.....	646	Greece.....	10,306	United States, Atlantic coast.....	937
British Isles.....	1,139	Russia.....	258	Mexico.....	5,586
France.....	2,793	Asia Minor.....	4,451	Central America.....	2,739

Sicily.....	4,331	United States, Pacific coast.....	4,467	New Zealand.....	1,925

The most shaken countries of the world are Italy, Japan, Greece, South America (the Pacific coast), Java, Sicily, and Asia Minor. The lands most free from these convulsions are Africa, Australia, Russia, Siberia, Scandinavia, and Canada. As a rule, where earthquakes are most frequent they are most severe. But to this general statement there are exceptions—Indian shocks, though less numerous, being often very disastrous. Loss of life in many cases depends, however, on density of population rather than on the intensity of the earth movement. Numerically, also, France has registered more seismic tremors than Spain and Portugal, but France in historic times has experienced no earthquake disaster approaching the havoc wrought by the one calamity at Lisbon.

Rules for Foretelling the Weather.

ADAPTED FOR USE WITH ANEROID BAROMETERS.

A RISING BAROMETER.

A RAPID rise indicates unsettled weather.
 A gradual rise indicates settled weather.
 A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STRADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.
 A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in Winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from north-west by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail, or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from south-east by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

The above printed rules are in use by the Seawanhaka Corinthian Yacht Club of New York.

WEATHER WISDOM.

SUNSET COLORS.—A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain.

HALO (SUN DOGS).—By halo we mean the large circles, or parts of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

CORONA.—By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

RAINBOWS.—A morning rainbow is regarded as a sign of rain; an evening rainbow fair weather.

SKY COLOR.—A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

FOGS.—Fogs indicate settled weather. A morning fog usually breaks away before noon.

VISIBILITY.—Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars indicate rain.

FROST.—The first frost and last frost are usually preceded by a temperature very much above the mean.

OBJECTS VISIBLE AT SEA-LEVEL IN CLEAR WEATHER.

The following table shows the distance at sea-level at which objects are visible at certain elevations

ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.

The lowest point of dry land in United States is in Death Valley, Cal., 276 feet below sea level. NOTE.—The above table was prepared for THE WORLD ALMANAC by the Topographic branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is well known that there are higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to October 1, 1912.

Weather Flags

OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by telegraph, telephone and mail or by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

EXPLANATION OF WEATHER FLAGS.

No. 1. White Flag.	No. 2. Blue Flag.	No. 3. White and Blue Flag.	No. 4. Black Triangular Flag.	No. 5. White Flag with black square in centre.
				
Fair weather.	Rain or snow.	Local rain or snow.	Temperature.	Cold wave.

When number 4 is placed above number 1, 2, or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

WHISTLE SIGNALS.

A warning blast of from fifteen to twenty seconds' duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds duration) refer to weather, and shorter blasts (of from one to three seconds duration) refer to temperature; those for weather are sounded first.

Blasts.	Indicate.	Blasts.	Indicate.
One long.....	Fair weather.	One short.....	Lower temperature.
Two long.....	Rain or snow.	Two short.....	Higher temperature.
Three long.....	Local rain or snow.	Three short.....	Cold wave.

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable the forecast messages are telegraphed at the expense of the Weather Bureau; but if this is impracticable, they are furnished at the regular commercial rates and sent "collect." In no case are the forecasts sent to a second address in any place, except at the expense of the applicant.

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the central stations of their respective States, which are as follows:

Alabama, Montgomery.	Massachusetts, Boston (for New England).	Oklahoma, Oklahoma.
Arizona, Phoenix.	Michigan, Grand Rapids.	Oregon, Portland.
Arkansas, Little Rock.	Minnesota, Minneapolis.	Pennsylvania, Philadelphia.
California, San Francisco	Mississippi, Vicksburg.	South Carolina, Columbia.
Colorado, Denver.	Missouri, Columbia.	South Dakota, Huron.

Kansas, Topeka.	North Carolina, Raleigh.	Wisconsin, Milwaukee.
Kentucky, Louisville.	North Dakota, Bismarck.	Wyoming, Cheyenne.
Louisiana, New Orleans.	Ohio, Columbus.	
Maryland, Baltimore (for Delaware and Maryland).		

The Ancient and Modern Year.

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

Small Craft, Storm and Hurricane Warnings

OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

All square flags shown here are red with black centre when displayed as warnings.

Small Craft Warning—A red pennant indicates that moderately strong winds are expected.
Storm Warning—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; white, westerly; red, easterly. The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light below a red light westerly winds.

Hurricane Warning—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic coast.

Neither small craft nor hurricane warnings are displayed at night.

Velocity of Winds in the United States.

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by W. L. Moore, Chief of the U. S. Weather Bureau, and revised to January 1, 1912, for THE WORLD ALMANAC.)

Loss by Lightning in the United States.

THE Weather Bureau of the United States Department of Agriculture in October, 1900, issued a bulletin giving these facts: In 1899 the total number of strokes of lightning which caused damage was 5,527; number of buildings injured, 6,256; value of property lost, \$3,016,520; number of deaths by lightning during the year, 593; number of persons injured, 820; number of live stock killed in the fields, 4,251; value, \$129,955. These are the latest available statistics.

The Chronicle Fire Tables record 3,012 fires caused by lightning in the United States in 1902, the property loss occasioned thereby being \$3,396,810. These are the latest reported statistics on the subject.

HIGH-TIDE TABLES—Continued.

TIME OF HIGH WATER AT POINTS ON THE ATLANTIC COAST.

The local time of high water at the following places may be found approximately for each day by adding to or subtracting from the time of high water at Governor's Island, N. Y., the hours and minutes annexed.

Highest tide at Eastport, Me., 218 inches. Lowest tide at Galveston, Tex., 13 inches.

United States Steamboat Inspection Service.

The Steamboat Inspection Service, by act of Congress approved February 14, 1903, was transferred from the Treasury Department to the Department of Commerce and Labor. The transfer went into effect July 1, 1903. The Supervising Inspector-General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce and Labor for the fiscal year ended June 30, 1912: Number of annual certificates of inspection issued to domestic steam, motor, sail vessels, and barges, 7,398; number of certificates issued to foreign steamers, 438; total number of annual certificates of inspection issued to domestic and foreign, 7,836. Decrease in number of certificates to domestic vessels from previous year, 469; decrease in number of certificates to foreign vessels from previous year, 30. Increase in number of certificates of all kinds of vessels from previous year, 499. Gross tonnage of domestic vessels, all kinds, inspected, 5,370,375; gross tonnage of foreign steamers inspected, 3,384,905. Increase in gross tonnage of foreign steam vessels inspected over previous year, 54,638. Increase in tonnage of all kinds domestic vessels inspected over previous year, 205,656. Number of officers' licenses issued, 14,030. Increase in number of officers' licenses issued over previous year, 24. Number of new life-preservers inspected, 244,565, of which number 2,750 were rejected. Increase in number of new life-preservers inspected over previous year, 34,306. Increase in number of life-preservers rejected over previous year, 2,020. Number of marine boiler plates inspected at the mills by assistant inspectors, 3,786, being a decrease in number inspected from previous year of 130. Number of applicants examined for color blindness, 7,616, of which number 206 were found color-blind and rejected and 7,410 were passed. Increase in number of applicants examined over previous year, 6,299. Increase in number of applicants passed over previous year, 6,123.

CAUSES.	Accidents.		CAUSES.	Lives Lost.	
Fire.....	3	4	Snags, wrecks, and sinking....	11	32
Collision.....	17	31	Accidental drowning.....	..	139
Explosions or accidental escape of steam.....	8	14	Miscellaneous.....	..	44
			Total.....	39	264

Decrease in number of accidents from previous year, 9. Decrease in number of lives lost from previous year, 128. During the year 307,992,494 passengers were carried on vessels that are required by law to report the number of passengers carried. Taking the total loss of life as 264, it is seen that 1165,501 passengers were carried for each life lost, whether of passengers or crew, and from all causes.

A Table of Principal American Rivers.

NAMES.	Sources.	Mouths.	LENGTH MILES.
Alabama	Junction of Coosa and Tallapoosa, Ala.	Mobile River	175

Seed Planting in the United States.

(Compiled from reports of the Department of Agriculture.)

NEW ENGLAND.

KIND OF CROP.	Date of Planting.	Best Soil.	Amount of Manure per Acre.	Amount of Seed per Acre (l).	Weeks to Maturity.
Corn	May 10 to 30	Sandy or clay loam	8 to 12 tons	8 to 12 qts.	14-17
Wheat	Fall or Spring	Clay loam	18 tons	2 bush	20
Oats	Apr. to May	Strong loam	6 to 8 tons	2 to 3 bush	11-15
Barley	Apr. to June 20	Strong loam	7 to 8 tons	2 to 3 bush	10-15
Rye	Apr. to May, Sept.	Medium loam	7 to 8 tons	5 to 6 pecks	40
Buckwheat	June 1 to 20	Light loam	4 to 6 tons	1 to 1½ bush	10-15
White beans	May to June	Sandy loam	7 to 8 tons	8 to 16 qts.	8-14
Potatoes	Apr. 15 to May 1	Rich loam	15 to 20 tons	8 to 20 bush	12-20
Turnips	July 1 to Aug. 3	Sandy loam	10 tons	1 lb.	10
Mangels	Apr. 15 to May 5	Strong heavy loam	8 to 15 tons	4 to 6 los.	17-22
Tobacco	Seed bed Apr	Sandy loam	8 to 12 tons	9-12
Hay

MIDDLE STATES.

Corn	Apr. 20 to May 30	Medium loam	8 to 12 tons manure	6 to 8 qts.	16-18
Wheat	Sept. 20 to Oct. 20	Loam	8 tons; 300 lbs. fer.	2 bush	41-43
Oats	Mar. to May	Moist clay loam	8 tons; 300 lbs. fer.	2 to 2½ bush	16-17
Barley	Mar. to May	Clay loam	8 tons; 300 lbs. fer.	2 to 2½ bush	13-16
Rye	Sept. 1 to Oct. 1	Sand or gravel loam	8 tons; 300 lbs. fer.	1½ bush	40-43
Buckwheat	June to July	Loam	5 tons	½ to 1½ bush	8-10
White beans	May to June	Sandy loam	8 tons	1½ bush	13-14
Potatoes	Mar. to May	Loam	10 to 18 tons	8 to 15 bush	14-22
Sweet potatoes	May to June	Sandy loam	10 to 12 bush	10-15
Cabbage	Mar. to July	Clay or sandy loam	300 to 600 lbs. fer.	4 to 8 oz.	8-15
Turnips	July	Loam	2 to 5 lbs.	10-12
Mangels	May	Loam	10 to 20 tons	10 to 15 bush	15-18
Flax	May	Limestone loam	20 qts	8-10
Tobacco	Seed bed Mar	Sandy loam	Commercial fer	15-20
Hay, timothy	Aug. to Oct	Clay loam	6 to 8 qts
Hay, clover	Feb. to Apr	Clay loam	6 qts.

CENTRAL AND WESTERN STATES.

Corn	Apr. 1 to June 1	Black or sandy loam	5 to 10 tons	6 qts.	16-20
Wheat	Fall or Spring	Strong loam	8 tons	2 bush	40-42
Oats	Apr. 1 to May 1	Clay loam	8 tons	2 to 3 bush	12-14
Barley	Fall or Spring (1)	Clay loam	8 tons	2 bush	11-13
Rye	Sept 1 to 30	Light loam	8 tons	1 to 2 bush	35-40
Buckwheat	June	Clay loam	5 tons	1 to 2 bush	10-12
White beans	May 10 to June 10	Clay loam	8 tons	1½ bush	12
Potatoes	May 15 to June 1	Sandy loam	5 to 10 tons	5 to 10 bush	10-20
Turnips	July 15 to Aug 30	Loam or muck	8 to 10 tons	1 to 6 lbs.	10-16
Mangels	Apr. 1 to May 15	Sandy loam	8 to 12 tons	6 to 8 lbs.	22-24
Flax	Mar 15 to May 15	Loam	10 to 15 tons	2 to 3 pecks	15-20
Tobacco	Seed bed, Mar	Sandy loam	8 to 10 tons	oz. to 6 sq. rd.	15-18
Hay	Apr to May	Clay loam	10 tons	8 to 15 lbs.

SOUTHERN STATES.

Cotton	Feb. to May 15	Sandy loam (2)	1 to 3 bush	20-30
Corn	Feb. to June	Rich loam	10 bush, cot. seed	8 qts.	18-20
Wheat	Sept. to Nov.	Clay loam (2)	8 tons	2 bush	43
Oats	Feb., May, Sept.	Clay loam (2)	8 to 10 tons	2½ bush	17
Barley	Apr. to May	Clay loam (2)	8 to 10 tons	2½ bush	17
Rye	Sept. to Oct.	Clay loam (2)	10 tons	1½ bush	43
White beans	Mar to May	Light loam	8 tons	1 to 2 bush	7-8
Cabbage	Oct. Mar. to May	Light loam	6 to 10 tons	½ to 7 lbs.	14
Watermelons	Mar. 1 to May 10	Rich, light loam	5 tons; 300 lbs. fer.	2 to 2½ bush	16-20
Onions	Feo. 1 to Apr. 10	Loam or muck	16-24
Potatoes	Jan. Feo. to Apr.	Light loose loam	8 to 12 tons	8 to 10 bush	11-15
Sweet potatoes	May to June	Sandy loam	10 to 12 bush	12-15
Pumpkins	Apr. 1 to May 1	Rich, light loam	4 to 7 lbs.	17-20
Tomatoes	Jan. 1 to Feb. 19	Rich, sandy loam	4 to 9 oz.	14-20
Turnips	Feb., Aug.	Rich, light loam	2 to 6 lbs.	8-12
Tobacco	Seed bed, Mar	Sandy loam	8 to 15 tons	oz. to 6 sq. rd.	18-20
Cow peas	May 1 to July 15	Sandy loam	200 to 300 lbs. phos	2 to 5 pecks	6-8

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, guard seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, poole, fire; Southern States, fulcaster. Oats—New England, white; Middle States, white, black; Central and Western States, gray Norway, silver mine, Russian; Southern States, Texas rustproof. Barley—Middle States, mansbury; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white Winter; Central and Western States, Winter; Southern States, excelsior Winter. Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3. rose; Middle States, rose, carmen 3. rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, spanish, white burley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Sorghum is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

Metric System of Weights and Measures.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are however, frequently used: In Germany, $\frac{1}{2}$ kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka*, *hecto*, *kilo*, *myria*, from the Greek, and *deci*, *centi*, *milli*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 dm.; 1 decimetre or 1-10 of a metre = 1 dm.

The METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

The LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metric ton.

The GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metric ton.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

"The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system."

The following are the tables annexed to the above:

MEASURES OF LENGTH.

Metric Denominations and Values.		Equivalents in Denominations in Use.
Myriametre	10,000 metres.	6 2137 miles.
Kilometre	1,000 metres.	0 62137 mile, or 3,280 feet 10 inches.
Hectometre	100 metres.	328 feet 1 inch.
Dekametre	10 metres.	393 7 inches.
Metre	1 metre.	39.37 inches.
Decimetre	1-10 of a metre.	3.937 inches.
Centimetre	1-100 of a metre.	0.3937 inch.
Millimetre	1-1000 of a metre.	0.0394 inch.

MEASURES OF SURFACE.

Metric Denominations and Values.		Equivalents in Denominations in Use.
Hectare	10,000 square metres.	2.471 acres.
Are	100 square metres.	119.6 square yards.
Centare	1 square metre.	1,550 square inches.

MEASURES OF CAPACITY.

Metric Denominations and Values.			Equivalents in Denominations in Use.	
Names.	Number of Litres.	Cubic Measure.	Dry Measure.	Liquid or Wine Measure.
Kilolitre or stere	1,000	1 cubic metre	1 308 cubic yards	264 17 gallons.
Hectolitre	100	10 of a cubic metre	2 bush. and 3 35 pecks	26 417 gallons.
Dekalitre	10	10 cubic decimetres	9 08 quarts	2 6417 gallons.
Litre	1	1 cubic decimetre	0 908 quart	1 0567 quarts.
Decilitre	1-10	1 10 of a cubic decimetre	6 1022 cubic inches	0 845 gill.
Centilitre	1-100	10 cubic centimetres	0 6102 cubic inch	0 338 fluid ounce.
Millilitre	1-1000	1 cubic centimetre	0 061 cubic inch	0 27 fluid dram.

METRIC SYSTEM—Continued.

WEIGHTS.

METRIC DENOMINATIONS AND VALUES.			EQUIVALENTS IN DENOMINATIONS IN USE.
Names.	Number of Grams.	Weight of What Quantity of Water at Maximum Density.	Avoirdupois Weight.
Miller or tonneau.....	1,000,000	1 cubic metre.....	2204.6 pounds.
Quintal.....	100,000	1 hectolitre.....	220.46 pounds.
Myriagram.....	10,000	10 litres.....	22.046 pounds.
Kilogram or kilo.....	1,000	1 litre.....	2.2046 pounds.
Hectogram.....	100	1 decilitre.....	3.5274 ounces.
Decagram.....	10	10 cubic centimetres.....	0.3527 ounce.
Gram.....	1	1 cubic centimetre.....	15.432 grains.
Decigram.....	1-10	1-10 of a cubic centimetre.....	1.5432 grains.
Centigram.....	1-100	10 cubic millimetres.....	0.1543 grain.
Milligram.....	1-1000	1 cubic millimetre.....	0.0154 grain.

TABLES FOR THE CONVERSION OF METRIC WEIGHTS AND MEASURES INTO CUSTOMARY UNITED STATES EQUIVALENTS AND THE REVERSE.

From the legal equivalents are deduced the following tables for converting United States weights and measures.

METRIC TO CUSTOMARY.

CUSTOMARY TO METRIC.

LINEAR MEASURE.

<i>Metres = Ins.</i>	<i>Metres = Feet.</i>	<i>Metres = Yards.</i>	<i>Kilograms = Miles.</i>	<i>Ins. = Centimetres.</i>	<i>Feet = Metres.</i>	<i>Yards = Metres.</i>	<i>Miles = Kilometres.</i>

THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

TABLES OF THE SYSTEM.

Length.—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).
10 mm. = 1 cm.; 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.

Weight.—The denominations in use are grams (g.), kilos* (kg.), and tons (metric tons).
1,000 g. = 1 kg.; 1,000 kg. = 1 metric ton.

Capacity.—The denominations in use are cubic centimetres (c. c.) and litres (l.).
1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l. (seldom used).

Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about 1/2 inch; a metric ton is about same as a ton; a kilometre is about 3/4 mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

PRECISE EQUIVALENTS.

1 acre.....	= .40	hectar.....	4047	1 mile.....	= 1.6	kilometres.....	1.609
1 bushel.....	= 35	litres.....	35.24	1 millimetre.....	= .039	inch.....	.0394

* Contraction for kilogram. † Centimetres.

Minimum Weights of Produce.

The following are minimum weights of certain articles of produce according to the laws of the United States:

Per Bushel.	Per Bushel.	Per Bushel.			
Wheat.....	60 lbs.	White Potatoes.....	60 lbs.	Hungarian Grass Seed.....	50 lbs.
Corn, in the ear.....	70 "	Sweet Potatoes.....	55 "	Timothy Seed.....	45 "
Corn, shelled.....	56 "	Onions.....	57 "	Blue Grass Seed.....	44 "
Rye.....	56 "	Turnips.....	55 "	Hemp Seed.....	44 "
Buckwheat.....	48 "	Dried Peaches.....	33 "	Salt (see note below).	
Barley.....	48 "	Dried Apples.....	26 "	Corn Meal.....	48 "
Oats.....	32 "	Clover Seed.....	60 "	Ground Peas.....	24 "
Peas.....	60 "	Flax Seed.....	56 "	Malt.....	34 "
White Beans.....	60 "	Millet Seed.....	50 "	Brau.....	20 "
Castor Beans.....	46 "				

SALT.—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Course salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

Measures and Weights of Great Britain.

THE measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs. avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs. avoirdupois, the same as the long hundredweight of the United States. The English stone is usually equal to one-eighth hundredweight of 112 lbs., or 14 lbs. avoirdupois. The metre has been legalized at 39.37079 inches, but the length of 39.370452 inches, as adopted by France, Germany, Belgium, and Russia, is frequently used.

The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836; 10 lbs. of water = 277.123 cubic inches. (A late authority gives the weight of the Imperial gallon as 10.017 pounds and of the United States gallon as 8.345 pounds.)

The English statute mile is 1,760 yards or 5,280 feet. The following are measures of capacity :

NAMES.	Pounds of Water.	Cubic Inches.	Litres.	United States Equivalents.
4 gills = 1 pint	1.25	34.66	0.56793	1.20032 liquid pints.
2 pints = 1 quart	2.5	69.32	1.13586	1.20032 " quarts.
2 quarts = 1 pottle	5	138.64	2.27173	2.40064 " "
2 pottles = 1 gallon	10	277.27	4.54346	1.20032 " gallons.
2 gallons = 1 peck	20	554.55	9.08692	1.03152 dry pecks.
4 pecks = 1 bushel	80	2218.19	36.34766	1.03152 " bushels.
4 bushels = 1 coomb	320	8872.77	145.39062	4.12606 " "
2 coombs = 1 quarter	640	17745.54	290.7813	8.2521 " "

A cubic foot of pure gold weighs 1,210 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead, 710 pounds; pure platinum, 1,200 pounds; tin, 450 pounds; aluminum, 163 pounds.

Domestic Weights and Measures.

Apothecaries' Weight: 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

Avoirdupois Weight (short ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

Avoirdupois Weight (long ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

Troy Measure: 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.

Circular Measure: 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

Cubic Measure: 1.728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

Dry Measure: 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

Liquid Measure: 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31½ gallons = 1 barrel; 2 barrels = 1 hogshead.

Long Measure: 12 inches = 1 foot; 3 feet = 1 yard; 5½ yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.

Mariners' Measure: 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7½ cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,083 feet = 1 nautical mile.

Paper Measure: 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.

Square Measure: 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30½ square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

Time Measure: 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

MEDICAL SIGNS AND ABBREVIATIONS.

R (Lat. Recipe), take; ã, of each; lb, pound; ʒ, ounce; ʒ, drachm; ʒ, scruple; m, minim, or drop; O or o, pint; f ʒ, fluid ounce; f ʒ, fluid drachm; as, ʒss, half an ounce; ʒi, one ounce; ʒiiss, one ounce and a half; ʒij, two ounces; gr., grain; Q. S., as much as sufficient; Ft. Mist., let a mixture be made; Ft. Haust., let a draught be made; Ad., add to; Ad lib., at pleasure; Aq., water; M., mix; Mac., macerate; Pulv., powder; Pil., pill; Solv., dissolve; St., let it stand; Sum., to be taken; D., dose; Dil., dilute; Filt., filter; Lot., a wash; Garg., a gargle; Hor. Decub., at bed time; Inject., injection; Gtt., drops; ss, one-half; Ess., essence.

TEXAS LAND MEASURE.

(Also used in Mexico, New Mexico, Arizona, and California.)

26,000,000	square varas (square of 5,099	varas) = 1 league and 1 labor	= 4,605.5 acres.
1,000,000	square varas (square of 1,000	varas) = 1 labor	= 177.136 acres.
25,000,000	square varas (square of 5,000	varas) = 1 league:	= 4,428.4 acres.
12,500,000	square varas (square of 3,535.5	varas) = ½ league	= 2,214.2 acres.
8,333,333	square varas (square of 2,886.7	varas) = ¼ league	= 1,476.13 acres.
6,250,000	square varas (square of 2,500	varas) = ¼ league	= 1,107.1 acres.
7,225,600	square varas (square of 2,688	varas)	= 1,280 acres.
3,612,800	square varas (square of 1,900.8	varas) = 1 section	= 640 acres.
1,806,400	square varas (square of 1,344	varas) = ¼ section	= 320 acres.
903,200	square varas (square of 950.44	varas) = ¼ section	= 160 acres.
451,600	square varas (square of 672	varas) = ¼ section	= 80 acres.
225,800	square varas (square of 475	varas) = 1-16 section	= 40 acres.
5,645.876	square varas (square of 75.137	varas) = 4,840 square yards	= 1 acre.

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177½), and cut off six decimals.

1 vara = 33½ inches.

1,900.8 varas = 1 mile.

WEIGHTS AND MEASURES OF THE PHILIPPINES.

1 pulgada (12 linea)	= 927 inch.	1 libra (16 onzo)	= 1.0144 lb. av.
1 pie	= 11.125 inches.	1 arroba	= 25.360 lb. av.
1 vara	= 33.375 inches.	1 catty (16 tae)	= 1.94 lb. av.
1 gauthah	= .8796 gallon.	1 pecul (100 catty)	= 139.482 lb. av.
1 caban	= 21.991 gallons.		

Knots and Miles.

The **Statute Mile** is 5,280 feet.

The **British Admiralty Knot or Nautical Mile** is 6,080 feet.

The **Statute Knot** is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus. The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60), 21,600 knots to the circumference. 21,600 divided into 131,385.456—the number of feet in the earth's circumference—gives 6,082.66 feet—the length of a standard mile.

1 knot = 1.151 miles	4 knots = 4.606 miles	20 knots = 23.630 miles	600 feet = 1 cable
2 knots = 2.303 miles	5 knots = 5.757 miles	25 knots = 28.787 miles	10 cables = 1 knot
3 knots = 3.454 miles	10 knots = 11.515 miles	6 feet = 1 fathom	

Ancient Greek and Roman Weights and Measures,

WITH AMERICAN EQUIVALENTS.

WEIGHTS.
The Roman libra or pound = 10 oz. 18 pwt. 13.5-7 gr., Troy.

The Attica mina or pound = 11 oz. 7 pwt. 16.2-7 gr., Troy.

The Attica talent (60 minæ) = 56 lbs. 11 oz. 0 pwt. 17.1-7 gr., Troy.

DRY MEASURE.

The Roman modius = 1 pk. 2-9 pint.

The Attic choenix = nearly 1½ pints.

The Attic medimnus = 4 pk. 6-1-10 pints.

LIQUID MEASURE.

The cotyle = a little over ½ pint.

The cyathus = a little over 1½ pints.

The chus = a little over 6½ pints.

LONG MEASURE.

The Roman foot = 11 3-5 inches.

The Roman cubit = 1 ft. 5¾ inches.

The Roman pace = 4 ft. 10 inches.

The Roman furlong = 604 ft. 10 inches.

The Roman mile = 4,835 feet.

The Grecian cubit = 1 ft. 6¾ inches.

The Grecian furlong = 504 ft. 4 1-5 inches.

The Grecian mile = 4030 ft.

MONEY.

The quadrans = 1-1-10 mills.

The as = 1 3-10 mills.

The sestertius = 3 58 + cents.

The sestertium (1,000 sestertii) = \$35.80+.

The denarius = 14.35 + cents.

The Attic obolus = 2 39 + cents.

The drachma = 14.35 + cents *

The mina (100 drachmæ) = \$14.35+.

The talent (60 minæ) = \$861.00+.

The Greek stater = aureus (same as the Roman t) = \$3.58,79.

The stater = daricus = \$7.16,66.

*The modern drachma equals 19 3 cents. † Did not remain, at all periods, at this value, but this is the value indicated by Tacitus.

BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.

	Lbs.	Oz.	Pwt.	Gr.
The Gerah, one-twentieth of a Shekel	0	0	0	12
The Bekah, half a Shekel	0	0	5	0
The Shekel	0	0	10	0
The Maneh, 60 Shekels	2	6	0	0
The Talent, 50 manehs, or 3,000 Shekels	125	0	0	0

Electrical Units.

NAME.	Symbol.	Unit of	How Obtained.	CGS*	Equivalent.
Ohm	R.	Resistance	The electrical resistance of a column of mercury 106 centimetres long and of 1 square millimetre section.	10 ⁹	1 true ohm = 1.0112 British Association ohms.
Ampère	C.	Current	Is that current of electricity that decomposes .00009324 gramme of water per second.	10 ¹	Deposits 1.118 milligrams of silver per second.
Volt	E.	Electromotive force	One ampère of current passing through a substance having 1 ohm of resistance = 1 volt.	10 ⁸	.926 of a standard Daniell cell.
Coulomb	Q.	Quantity	A current of 1 ampère during 1 second of time.	10 ¹	Deposits 1.118 milligrams of silver.
Farad	K.	Capacity	The capacity that a current of 1 ampère for 1 second (= 1 coulomb) charges it to potential of 1 volt.	10 ⁹	2.5 knots of D. C. S. cable.
Microfarad	"	"	1-millionth of farad.	10 ⁵	
Watt	Pw.	Power	Power of 1 ampère current passing through resistance of 1 ohm.	10 ⁷	.0013405 (or $\frac{1}{746}$) of a horse power.
Jou	W. j.	Work	Is the work done by 1 watt of electrical power in 1 second.	10 ⁷	.238 unit of heat (Therm)

*C. G. S. = Electro magnetic units. Consult technical works in electricity.

Foreign Moneys.

English Money: 4 farthings = 1 penny (d); 12 pence = 1 shilling (s); 20 shillings = 1 pound (£).

21 shillings = one guinea; 5 shillings = one crown

French Money: 100 centimes = 1 franc.

German Money: 100 pfennig = 1 mark.

Russian Money: 100 copecks = 1 ruble

Austro-Hungarian Money: 100 heller = 1 kroue

For United States equivalents, see table of Value of Foreign Coins in U. S. Money. †

Table of Geometrical Progression.

(WHEREBY ANY questions of Geometrical Progression and of Double Ratio may be solved by Inspection, the Number of Terms not exceeding 56)

Standard Newspaper Measure.

THE Standard Newspaper Measure, as recognized and now in general use is 13 ems pica. The standard of measurement of all sizes of type is the "em quad," not the letter "m."

The basis of measurements adopted by the International Typographical Union is the lower case alphabet, from "a" to "z" inclusive, and the ems used are the same body as the type measured.

The weight of a cubic foot of distilled water at a temperature of 60° F. is 1,000 ounces Avoirdupois, *very nearly*, therefore the weight (in ounces, Avoirdupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.

* Compared with water.

Freezing, Fusing, and Boiling Points.

SUBSTANCES.	Reau- mur.	Centi- grade.	Fahren- heit.	SUBSTANCES.	Reau- mur.	Centi- grade.	Fahren- heit.

Tensile strength is the resistance of the fibres or particles of a body to separation. It is therefore proportional to their number, or to the area of its transverse section. The fibres of wood are strongest near the centre of the trunk or limb of a tree. * Tensile strength in pounds per square inch.

The Capitol at Washington.

THE Capitol is situated in latitude $38^{\circ} 53' 20''.4$ north and longitude $77^{\circ} 00' 35''.7$ west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac.

The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet, six inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height.

The southeast corner-stone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extensions was laid July 4, 1851, by President Fillmore.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

Lincoln's Gettysburg Speech.

(Address at the Dedication of Gettysburg Cemetery, November 19, 1863.)

FOURSCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion; that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.

United States Coast and Geodetic Survey.

THE Coast and Geodetic Survey of the Department of Commerce and Labor is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof, and the publication of charts covering said coasts. This includes base measure, triangulation, topography and hydrography along said coasts; the survey of rivers to the head of tide water or ship navigation, deep sea soundings, temperature and current observations along said coasts and throughout the Gulf and Japan streams, magnetic observations and researches and the publication of maps showing the variations of terrestrial magnetism; gravity research, determination of heights, the determination of geographic positions by astronomic observations for latitude, longitude and azimuth, and by triangulation to furnish reference points for State surveys and to co-ordinate Governmental surveys.

The results obtained are published in annual reports and in special publications; charts upon various scales, including sailing charts, general charts of the coast and harbor charts; tide tables issued annually in advance; coast pilots with sailing directions covering the navigable waters; notices to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Lighthouses and containing current information necessary for safe navigation; catalogues of charts and publications, and such other publications as may be required to carry out the organic law governing the survey.

Constitution of the United States.

Preamble. WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

ARTICLE I.

Legislative powers. SECTION I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

House of Representatives. SECTION II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

Qualifications of Representatives. 2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

Apportionment of Representatives. 3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative, and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 3; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia, 3.*

Vacancies, how filled. 4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

Officers, how appointed. 5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

Senate. SECTION III. 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

Classification of Senators. 2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

Qualifications of Senators. 3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

President of the Senate. 4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

Senate a court for trial of impeachments. 5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

Judgment in case of conviction. 6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Elections of Senators and Representatives. 7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

Meeting of Congress. SECTION IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

Organization of Congress. 2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Rule of proceedings. SECTION V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

Journals of each House. 2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

Adjournment of Congress. 3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

Pay and privileges of members. 4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

Other offices prohibited. SECTION VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

Revenue bills. 2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during its continuance in office.

How bills become laws. SECTION VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journals of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

* See Article XIV., Amendments.

Approval and
ve to powers
of the Presi-
dent.

3. Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.

Powers vested
in Congress.

SECTION VIII. 1. The Congress shall have power:
To lay and collect Taxes, Duties, Imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, Imposts, and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.
3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.
4. To establish an uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.

5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.

6. To provide for the punishment of counterfeiting the securities and current coin of the United States.

7. To establish post-offices and post-roads.

8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.

9. To constitute tribunals inferior to the Supreme Court.

10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.

11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.
12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.

13. To provide and maintain a navy.

14. To make rules for the government and regulation of the land and naval forces.

15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.

16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.

17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.

18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.

Immigrants,
how admitted.

SECTION IX. 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

Habeas corpus.

2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

Attainder.

3. No bill of attainder or ex post facto law shall be passed.

Direct taxes.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

Regulations re-
garding cus-
toms duties.

5. No tax or duty shall be laid on articles exported from any State.
6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.

Moneys, how
drawn.

7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

Titles of nobil-
ity prohibited.

8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.

Powers of
States defined.

SECTION X. 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

Executive pow-
er, in whom
vested.

SECTION I. 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:

Electors.

2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.

Proceedings of
electors.

3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]*

Proceedings of
the House of
Representa-
tives.

4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

Time of choos-
ing electors.

* This clause is superseded by Article XII, Amendments.

Qualifications of the President. 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

Provision in case of his disability. 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

Salary of the President. 7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

Oath of the President. 8. Before he enter on the execution of his office, he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

Duties of the President. Section II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

May make treaties, appoint ambassadors, judges, etc. 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provide two thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

May fill vacancies. 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

May make recommendations to Congress. Section III. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

How officers may be removed. Section IV. The President, Vice President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

Judicial power, how invested. Section I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

To what cases it extends. Section II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.

Jurisdiction of the Supreme Court. 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

Rules respecting trials. 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

Treason defined. Section III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

How punished. 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

ARTICLE IV.

Rights of States and records. Section I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

Privileges of citizens. Section II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

Executive requisitions. 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

Laws regulating or labor. 3. No person held to service or labor in one State, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

New States, how formed or admitted, and admitted. Section III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, no new State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

Power of Congress over public lands. 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States, and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

Republican government guaranteed. Section IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

ARTICLE V.

Constitution, how amended. The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress, provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

Validity of debts recognized. 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

Supreme law of the land. 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

Oath of whom required and for what. 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

Ratification of the Constitution. The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

AMENDMENTS TO THE CONSTITUTION.

ARTICLE I.

Religion and free speech. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press, or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

ARTICLE II.

Right to bear arms. A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

ARTICLE III.

Soldiers in time of peace. No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

ARTICLE IV.

Right of search. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

ARTICLE V.

Capital crimes and a arrest thereof. No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

ARTICLE VI.

Right to speedy trial. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

ARTICLE VII.

Trial by jury. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

ARTICLE VIII.

Excessive bail. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

ARTICLE IX.

Enumeration of rights. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

ARTICLE X.

Reserved rights of States. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

ARTICLE XI.

Judicial power. The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

ARTICLE XII.

Electors in Presidential elections. The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-Preidents shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

Vice-President.

ARTICLE XIII.

Slavery prohibited. 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

2. Congress shall have power to enforce this article by appropriate legislation.

CONSTITUTION OF THE UNITED STATES—Continued.

ARTICLE XIV.

Protection for all citizens. 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Apportionment of Representatives. 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Rebellion against the United States. 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.

The public debt. 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

ARTICLE XV.

Right of suffrage. 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.

Pennsylvania, December 12, 1787, vote 46 to 23.

New Jersey, December 18, 1787, unanimously.

Georgia, January 2, 1788, unanimously.

Connecticut, January 9, 1788, vote 133 to 40.

Massachusetts, February 6, 1788, vote 187 to 168.

Maryland, April 28, 1788, vote 63 to 12.

South Carolina, May 23, 1788, vote 149 to 73.

New Hampshire, June 21, 1788, vote 57 to 46.

Virginia, June 25, 1788, vote 89 to 79.

New York, July 26, 1788, vote 30 to 28.

North Carolina, November 21, 1789, vote 193 to 75.

Rhode Island, May 29, 1790, vote 34 to 32.

RATIFICATION OF THE AMENDMENTS.

I. to X. inclusive were declared in force December 15, 1791.

XI. was declared in force January 8, 1795.

XII., regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 25, 1804.

XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.

XIV. Reconstruction amendment was ratified by 23 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 28, 1868.

XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. Proclaimed March 30, 1870.

The National Flag.

THE official flag of the United States bears forty-eight white stars in a blue field, arranged in six rows of eight stars each. Two stars were added in 1912 by the admission of Arizona and New Mexico to the Union. The garrison flag of the Army is made of bunting, thirty-six feet fly and twenty feet hoist; thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since, June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

IN ORDER TO SHOW PROPER RESPECT FOR THE FLAG THE FOLLOWING CEREMONY SHOULD BE OBSERVED:

It should not be hoisted before sunrise nor allowed to remain up after sunset.

At "retreat," sunset, civilian spectators should stand at "attention" and uncover during the playing of the "Star Spangled Banner." Military spectators are required by regulation to stand at "attention" and give the military salute.

When the National colors are passing on parade, or in review, the spectator should, if walking, halt, and if sitting, arise and stand at attention and uncover.

When the flag is flown at half staff as a sign of mourning it should be hoisted to full staff at the conclusion of the funeral.

In placing the flag at half staff, it should first be hoisted to the top of the staff and then lowered to position, and preliminary to lowering from half staff, it should be first raised to the top.

On Memorial Day, May 30, the flag should fly at half staff from sunrise to noon and full staff from noon to sunset. —Sons of the Revolution in the State of New York.

Declaration of Independence.

IN CONGRESS JULY 4, 1776.

THE unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judicial Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us;

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States;

For cutting off our Trade with all parts of the world;

For imposing Taxes on us without our Consent;

For depriving us in many cases, of the benefits of Trial by jury;

For transporting us beyond Seas to be tried for pretended offences;

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies;

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms:

DECLARATION OF INDEPENDENCE—Continued.

Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES of AMERICA, IN GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE and INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is, and ought to be totally dissolved; and that as FREE and INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of divine Providence, We mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

SIGNERS OF THE DECLARATION OF INDEPENDENCE.

Washington's Farewell Address.

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION.—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Here, perhaps, I ought to stop; but a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn contemplation, and to recommend to your frequent review, some sentiments, which are the result of much reflection, of no inconsiderable observation, and which appear to me all-important to the permanency of your felicity as a people. These will be afforded to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel; nor can I forget, as an encouragement to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

PRESERVATION OF THE UNION.

The unity of government, which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enslave the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice of a common country, that country has a right to concentrate your affections. The name of America, which belongs to you in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings, and successes.

ENCROACHMENTS BY THE GOVERNMENT.

It is important, likewise, that the habits of thinking, in a free country, should inspire caution in those intrusted with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our own country, and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change or usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, and partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of times and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence (I conjure you to believe me, fellow-citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defence against it. Excessive partiality for one foreign nation, and excessive dislike for another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts

of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

PARTING COUNSELS.

In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which hitherto has marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism; this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796.

GEORGE WASHINGTON.

The Monroe Doctrine.

"The Monroe doctrine" was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. * * * We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

Secretary of State Olney in his despatch of July 20, 1895, on the Venezuelan Boundary Dispute, said: "It (the Monroe doctrine) does not establish any general protectorate by the United States over other American States. It does not relieve any American State from its obligations as fixed by international law, nor prevent any European power directly interested from enforcing such obligations, or from inflicting merited punishment for the breach of them."

President Roosevelt in a speech in 1902 upon the results of the Spanish-American war, said: "The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves; for in the world as it is, a nation which advances a given doctrine, likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

The United States Senate on August 2, 1912, adopted the following resolution proposed by Senator Lodge, by a vote of 51 to 4, the negative votes being those of Senators Cummins of Iowa, Mcumber of North Dakota, Percy of Mississippi, and Stone of Missouri.

"Resolved, That when any harbor or other place in the American Continent is so situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the Government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such relation to another Government, not American, as to give that Government practical power of control for national purposes."

This action of the Senate grew out of the report, that a stretch of territory bordering on Magdalena Bay, Mexico, might be acquired by the subjects of a foreign country, and thus through their control by their own national Government become the base of permanent naval or military occupation. In explanation of the resolution Senator Lodge said: "The declaration rests on a much broader and older ground than the Monroe doctrine. This resolution rests on the generally accepted principle that every nation has a right to protect its own safety; and if it feels that the possession of any given harbor or place is prejudicial to its safety, it is its duty and right to intervene." The Senate added that the opening of the Panama Canal gave to Magdalena Bay an importance that it had never before possessed, as the Panama routes pass in front of it.

Not being a joint resolution requiring the concurrence of the House of Representatives and the signature of the President, the resolution adopted as above was an expression of opinion of the Senate only. The other house took no action.

A National Memorial to Lincoln TO COST TWO MILLION DOLLARS.

THE Sixty-first Congress, third session, passed an act, approved February 9, 1911, "to provide a commission to secure plans and designs for a monument or memorial to the memory of Abraham Lincoln." The text of the act is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That William H. Taft, Shelby M. Cullom, Joseph G. Cannon, George Peabody Wetmore, Samuel Walker McCall, _____, and Champ Clark are hereby created a commission, to be known as the Lincoln Memorial Commission, to procure and determine upon a location, plan, and design for a monument or memorial in the city of Washington, District of Columbia, to the memory of Abraham Lincoln, subject to the approval of Congress.

SEC. 2. That in the discharge of its duties hereunder said commission is authorized to employ the services of such artists, sculptors, architects, and others as it shall determine to be necessary, and to avail itself of the services or advice of the Commission of Fine Arts, created by the act approved May 17, 1910.

SEC. 3. That the construction of the monument or memorial, herein and hereby authorized, shall be upon such site as shall be determined by the commission herein created, and approved by Congress, and said construction shall be entered upon as speedily as practicable after the plan and design therefor is determined upon and approved by Congress, and shall be prosecuted to completion, under the direction of said commission and the supervision of the Secretary of War, under a contract or contracts hereby authorized to be entered into by said Secretary in a total sum not exceeding two million dollars.

SEC. 4. That vacancies occurring in the membership of the commission shall be filled by appointment by the President of the United States.

SEC. 5. That to defray the necessary expenses of the commission herein created and the cost of procuring plans or designs for a memorial or monument, as herein provided, there is hereby appropriated the sum of fifty thousand dollars, to be immediately available.

SEC. 6. That said commission shall annually submit to Congress an estimate of the amount of money necessary to be expended each year to carry on the work herein authorized.

United States Secret Service.

THE Secret Service Division of the Treasury Department is under the direction of John E. Wilkie, chief of the division. The service is principally engaged in detecting and prosecuting makers and dealers in counterfeit paper money and coin. Details are also furnished for the protection of the President of the United States, and in the frequent journeyings of the present President he is always accompanied by one or more secret service men.

The arrests of counterfeiters number about 400 annually; other arrests are for bribery, impersonating United States Government officers, perjury, and violating sections of the United States Revised Statutes relating to foreign and domestic obligations and coins.

The Secret Service and the Special Agents Division of the Customs Service have been united under one administrative head, Mr. Wilkie being in charge of both divisions. The forces are used jointly in the investigation of offences against the Customs laws.

Telescopes.

THERE are two kinds of telescopes, viz., refracting and reflecting. In the former the rays of light are made to converge to a focus by lenses, while in the latter they are made to converge by being reflected from the surface of a slightly concave, highly polished mirror.

The chief disadvantages of refracting telescopes are the chromatic and spherical aberrations of the lenses. In reflecting telescopes these aberrations can be done away with by using parabolic mirrors, but the great objection to the latter are the many mechanical difficulties that have to be overcome.

Owing to the travelling of the earth in its orbit and revolving about its axis, stars if viewed by a fixed telescope would soon disappear. It is thus necessary that a telescope be mounted so a star will always be in its field. This is accomplished by using an equatorial mounting.

In an equatorial mounting there are two axes, one called the "polar" that is parallel to the axis of the earth, and the other the "declination" at right angles to it. Hence, when a star is to be followed, the telescope is clamped in position, and by means of clockwork, follows the star so it always remains in view.

The magnifying power of telescopes is generally expressed in diameters, the practical limit of power being 100 diameters per inch of diameter of the telescope. Thus the 36-inch telescope, at the Lick Observatory, may give a magnifying power of 3,600 diameters. But such high power can only be used in a very clear atmosphere, and consequently most astronomical observations are made at 1,000 diameters.

REFRACTING TELESCOPES.

The largest in the world are in the United States. The one at Yerkes Observatory, Geneva Lake, Wis., has an object lens 40 inches in diameter with a focal length of 64 feet. The movable part of the instrument turning on the polar axis weighs about 12 tons, and the clock 1½ tons. Other large telescopes are, the 36-inch at Lick Observatory, Mt. Hamilton, Cal., where many important astronomical discoveries have been made; the 26-inch at the U. S. Observatory, Washington, D. C., and the 24-inch belonging to Harvard University. A 30-inch refracting telescope was completed at the Allegheny Observatory, Riverview Park, Pa.

Abroad, is the 30-inch at the Imperial Observatory, Pulkova (near St. Petersburg), Russia. This telescope has a platform at the lower end of the polar axis, from which observers can readily operate the instrument. The Meudon Observatory (near Paris, France) has a 32-inch, the Potsdam, Prussia, a 31-inch, and the Royal Observatory, at Greenwich, England, a 28-inch.

REFLECTING TELESCOPES.

One of the most perfect instruments ever built is at Mt. Wilson Observatory, Cal. The mirror is silver on glass, 60 inches in diameter and weighs nearly a ton. The telescope is moved by electric motors in right ascension and declination. An important feature in this instrument is the different focal lengths that can be obtained. The 60-inch mirror has a 25-foot focus, but by a suitable arrangement of mirrors, it is possible to get focal lengths of 80, 100 and 150 feet. At the same observatory a 100-inch reflector is being constructed. The 150-foot tower for this telescope was completed, but difficulties have been experienced in getting suitable lenses. There is a 36-inch reflector at Lick Observatory, Harvard University has a 28-inch, and at the Yerkes Observatory is a 24-inch.

Other notable reflectors are the Lord Rosse, at Birr Castle, Ireland, which has a mirror 72 inches in diameter of speculum metal and a focal length of 54 feet, a 48-inch at Melbourne, Australia, a 60-inch at Ealing, England, a 48-inch at Paris, France, and a 39-inch at Meudon, France.

The Single Tax.

THE following statement of the single tax principle was written by Henry George, Sr.:

We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles, we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and all the obligations of all forms of direct and indirect taxation.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local governments, State government, and the general government, as the revenue from direct tax is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Then it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who, on a city lot, erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax, in short, would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world a perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full product of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

Progress of the United States

a Figures of 1912 are somewhat preliminary and subject to revision. b Exclusive of Alaska and islands belonging to the United States. c Census figures, relating to Continental United States; the figures for 1912 represent an estimate. d Census figures. e True valuation of real and personal property. f 1904. g 1800 to 1850, outstanding principal of the public debt, January 1. h Figures for the years 1800 to 1850 include the total public debt. i 1911. j Gold and silver can not be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation, except on the Pacific coast, where it is estimated that the average specie circulation was about \$25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. k As the result of a special investigation by the Director of the Mint, a reduction of \$135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on September 1, 1910, a reduction of \$9,700,000 was made in the estimate of subsidiary silver. l Includes notes of Bank of United States; State-bank notes; demand notes of 1862 and 1863; fractional currency, 1870; Treasury notes of 1890, 1900 to date; and currency certificates, act of June 8, 1872-1900. m Includes value of buildings, \$3,556,639,496. The Twelfth Census was the first to collect statistics of buildings on farms. n Includes value of buildings, \$6,325,451,528. o 1910. p Data of the Department of Agriculture, representing wealth production on farms. q Exclusive of neighborhood industries and hand trades, included in years previous to 1905. r "Ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands, and "miscellaneous," but do not include receipts from loans, premiums, Treasury notes, or revenues of Post-Office Department. s Includes corporation tax, \$28,583,104 in 1912. t "Ordinary disbursements" include disbursements for War, Navy, Indians, pensions, payments for interest, and "miscellaneous," but do not include payments for premiums, principal of public debt, or disbursements for postal service paid from revenues thereof. u Imports for consumption after 1850. v Domestic exports only after 1860. w Includes canal boats and barges prior to 1880. x Figures relate to the Western Union only and do not include messages sent over leased wires or under railroad contracts after 1900. y 1800 to 1850, inclusive, from census of 1880; from 1880 to 1900, inclusive, from Rowell's Newspaper Directory; after 1900, from Ayer's American Newspaper Annual. Figures for 1912 include outlying possessions. z Includes salaries for teachers only. * 1850, total alien passengers arrived; 1850, 15 months ending December 31; after 1850, fiscal years ending June 30.

United States Bureau of Mines.

CHAPTER 240 of the acts of the second session of the 61st Congress to establish in the Department of the Interior a Bureau of Mines was approved May 16, 1910. The act provided for the establishment of said bureau and a director "who shall be thoroughly equipped for the duties of said office by technical education and experience," with an annual salary of \$6,000. Transfer to the bureau was provided for the investigations of the analyzing and testing of coals, lignites and other mineral fuel substances, and the investigation as to the cause of mine explosions, from the United States Geological Survey. The duties of the bureau were prescribed by section 2 of the act, as follows:

"It shall be the province and duty of said bureau and its director, under the direction of the Secretary of the Interior, to make diligent investigation of the methods of mining, especially in relation to the safety of miners, and the appliances best adapted to prevent accidents, the possible improvement of conditions under which mining operations are carried on, the treatment of ores and other mineral substances, the use of explosives and electricity, the prevention of accidents, and other inquiries and technologic investigations pertinent to said industries, and from time to time make such public reports of the work, investigations and information obtained as the Secretary of said department may direct, with the recommendations of such bureau."

United States Customs Duties.

A TABLE OF LEADING ARTICLES IMPORTED, GIVING RATES AT ENTRY BY THE NEW TARIFF ACT OF 1909, COMPARED WITH THE DINGLEY TARIFF ACT OF 1897.

(The following table covers only the articles of principal importance imported into the United States The Tariff act of 1909 contains 480 paragraphs each relating to an article or a group of articles.)
(ad val.—ad valorem; n.s.p.f.—not specially provided for; n.e.—not enumerated.)

*In the entire Silk Schedule the classification was so changed in the new law as to make tabulated comparison with the classifications under the Dingley law impracticable. In general increases were made.

SCHEDULE A—CHEMICALS, OILS AND PAINTS.		
Alcoholic compounds, n.s.p.f.	60c. lb. and 45 p.c. ad. val.	60c. lb. and 25 p.c. ad. val.
Alkalies, alkaloids, distilled oils, essential oils and all combinations of the foregoing.	25 p.c. ad val.	25 p.c. ad val.
Ammonia, carbonate of.	1½c. lb.	1½c. lb.
Drugs.	1¼c. lb. and 10 p.c. ad val.	1¼c. lb. and 10 p.c. ad. val.
Glue, value not above 10c. per pound.	2½c. lb.	2½c. lb.
Oil, castor, gals.	35c. gal.	35c. gal.
Oil, cod liver, gals.	15c. gal.	15c. gal.
Oil, olive in bottles, etc., gals.	50c. gal.	50c. gal.
Opium, crude and not adulterated, containing 9 per cent. and over of morphia, lbs.	8c. gal.	8c. gal.
Phosphorus, lbs.	\$1 lb.	\$1.50 lb.
Perfumery, cosmetics, containing alcohol.	18c. lb.	18c. lb.
Perfumery, cosmetics, not containing alcohol.	60c. lb. and 45 p.c. ad val.	60c. lb. and 50 p.c. ad. val.
Soap, Castile.	50 p.c. ad val.	50 p.c. ad val.
Soap, perfumed toilet.	1¼c. lb.	1¼c. lb.
Soda, bicarbonate of.	50 p.c. ad val.	50 p.c. ad val.
	¼c. lb.	5-8c. lb.
SCHEDULE B—EARTHS, EARTHENWARE AND GLASSWARE.		
Cement, Roman, Portland, in barrels and sacks, lbs.	8c. 100 lbs.	8c. 100 lbs.
Earthenware, porcelain, decorated.	60 p.c. ad val.	60 p.c. ad val.
Earthenware, common.	25 p.c. ad val.	25 p.c. ad val.
Glassware, plain and cut, decorated.	60 p.c. ad val.	60 p.c. ad val.
Marble, manufactures of, except for jewelry.	55 p.c. ad val.	55 p.c. ad val.
Sponges.	50 p.c. ad val.	50 p.c. ad val.
Sulphur, refined.	20 p.c. ad val.	20 p.c. ad val.
	\$8 ton.	\$4 ton.
SCHEDULE C—METALS AND MANUFACTURES OF.		
Iron ore, tons.	40c. ton.	15c. ton.
Iron in pigs, wrought and cast, tons.	\$4 ton.	\$1 ton.
Iron, bar.	6-10c. lb.	6-10c. lb.
Automobiles and finished parts not including tires.	45 p.c. ad val.	45 p.c. ad val.
Cast iron pipe, lbs.	4 1-10c. lb.	¼c. lb.
Nails, horseshoe.	2¼c. lb.	1½c. lb.
Copper plates, lbs.	2½c. lb.	2½c. lb.
Pens, metallic, except gold pens.	12c. gross.	12c. gross.
Table and kitchen utensils, metal.	40 p.c. ad val.	40 p.c. ad val.
Tin plates.	1¼c. lb.	1 1-10c. lb.
Pins, not jewelry.	35 p.c. ad val.	35 p.c. ad val.
Iron, manufactures of.	45 p.c. ad val.	45 p.c. ad val.
SCHEDULE D—WOOD AND MANUFACTURES OF.		
Timber.	1c. cubic foot.	¼c. cubic foot.
Lumber, boards, planks, not planed.	\$1 per 1,000 feet.	50c. per 1,000 feet.
Lumber, finished on four sides.	\$4 per 1,000 feet.	\$2.75 per 1,000 ft.
Staves.	10 p.c. ad val.	10 p.c. ad val.
Shingles.	30c. per 1,000.	50c. per 1,000.
Wood, manufactures of, n.s.p.f.	35 p.c. ad val.	35 p.c. ad val.
SCHEDULE E—SUGAR, MOLASSES AND MANUFACTURES OF.		
Sugar (not above No. 16 Dutch standard)	Above 75 degrees polariscope 95-100 of 1c. per lb. and for each additional degree 35-1000 of 1c. per lb.	Above 75 degrees polariscope 95-100 of 1c. per lb. and for each additional degree 35-1000 of 1c. per lb.
Sugar (above No. 16 Dutch Standard) and all refined sugars.	1c. and 90-100 of 1c. per lb.	1c. and 90-100 of 1c. per lb.
Molasses, not above 40 degrees.	20 p.c. ad val.	20 p.c. ad val.
Maple sugar.	4c. lb.	4c. lb.
Glucose or grape sugar.	1½c. lb.	1½c. lb.
Sugar candy, valued at more than 15 cents per pound.	50c. ad val.	50c. ad val.
SCHEDULE F—TOBACCO AND MANUFACTURES OF.		
Tobacco, unmanufactured, lbs.	\$1.85 lb. to \$2.50 lb.	\$1.85 lb. to \$2.50 lb.
Snuff, lbs.	55c. lb.	55c. lb.
Cigars and cigarettes.	\$4.50 lb. and 25 p.c. ad val.	\$4.50 lb. and 25 p.c. ad val.

†See note following Free List.

THE FREE LIST.

The following is a list of the principal articles imported, which are put on the Free List by the Tariff of 1909. There are 236 articles in the list:

Aconite, agates, unmanufactured; albumen, n.s.p.f.; amber and ambergris, ammonia, sulphate of; arsenic, aniline salts, animals for breeding, exhibition or racing purposes; articles of growth or manufacture of the U. S. returned; barks, quinine; beeswax; birds, land and water fowl; bismuth; books, maps, music, engravings, bound or unbound, and charts, printed more than twenty years at the date of importation, and publications issued for subscribers or exchanges by scientific and literary associations or academies, or publications for gratuitous private circulation, and nautical documents of foreign governments; books and pamphlets in raised print, used exclusively by the blind; books, maps, music, specially imported, not more than two copies in any one invoice, for the use of any society or institution solely for religious, philosophical, educational, scientific or literary purposes; books, libraries, furniture, and similar household effects of persons or families from foreign countries, used abroad by them not less than one year; bristles, crude; bullion, gold and silver; camphor, crude; chalk, crude; coal, anthracite; coal tar, crude; cocoa, coffee; coins, copper ore, cotton and cotton waste. Diamonds and other precious stones, rough or uncut, and not advanced in condition or value from their natural state by cleaving, splitting, cutting, or other process, including glaziers' and engravers' diamonds not set. Drugs, crude, n.s.p.f.; fans, common palm leaf, not ornamented; fish, fresh, frozen, or packed in ice, caught in fresh waters by citizens of the United States, and all other fish, the products of American fisheries; furs, undressed; glass, enamel, white, for watch and clock dials; guano, manures; hides (see note); ice; India rubber, crude; indigo; iodine, crude; iridium; ivory tusks; kyanite or cyanite; leeches; life boats and life saving apparatus; lithographic stones, not engraved; manuscripts; medals of gold, silver, or copper, and other metallic articles accepted as honorary distinctions; meerschaum, unmanufactured; minerals, crude, n.s.p.f.; models of inventions; needles, hand, sewing and darning; newspapers and periodicals; nuts, Brazil nuts, cream nuts, cocoanuts in the shell and broken cocoanut meat or copra, not prepared; nuxvomica; oakum; oil cake; oils, almond, amber, crude and rectified ambergris; anise or anise seed, aniline, only for manure, bergamot, caraway, cassia, cinnamon, chamomile, citronella or lemon grass, clove, cocanut, (not refined and deodorized), cottonseed, croton, fennel, ichtyol, jasmine, juniper, lavender, lemon, limes, mace; narrol or orange flower; liquid and solid primal flower essences not compounded; nut oil or oil of olives, olive oil prepared solely for mechanical or industrial purposes by denaturing or process rendering it unfit for any edible use, attar of roses, palm, rosemary, thyme, red or white valerian; and also spermaceti, whale, and other fish oils of American fisheries, and all fish and other products of such fisheries; petroleum, crude or refined, including kerosene, benzine, gasoline, naphtha, and similar oils produced from petroleum.

Ores of gold, silver and nickel; paper stock, crude, of every description; paraffin, parchment and vellum. Personal effects, not merchandise, of citizens of the United States dying in foreign countries. Philosophical and scientific apparatus, specially imported for religious, philosophical, educational, scientific, or literary purposes. Phosphates, crude; platinum, unmanufactured; potash, crude. Professional books, implements, instruments, and tools of trade, occupation, or employment, in the actual possession at the time of arrival, of persons emigrating to the United States. Quinia, sulphate of and salts of cinchona bark; radium; statuary and casts for art and educational purposes only; sausages, bozlogna. Seeds, anise, canary, caraway, cauliflower, cotton, cummin, fennel, hemp, hoarhound, mangelwurzel, mustard, rape, sugar beet, sorghum or sugar cane for seed; bulbs and bulbous roots, not edible and n.s.p.f. Shrimps and other shellfish; silk, raw; silk cocoons and silkworm eggs; skeletons and other preparations for anatomy; spices, when unground; ginger, root, unground and not preserved or candied; stamps, foreign postage; stone and sand, n.s.p.f.; sulphur, lac or precipitated; sulphuric acid; tapoca, cassava; tar and pitch of wood, tea; teeth, natural. Tin ore, and tin in bars, blocks, pigs, or grain or granulated. Provided, all but tin ore shall pay 4c. lb. when mines of United States produce 1,500 tons of cassiterite and tin per year. Tobacco stems; turpentine, spirits of; turtles; vaccine virus; wax, vegetable or mineral; wearing apparel, articles of personal adornment, toilet articles, and similar personal effects of persons arriving in the United States not exceeding \$100 in value. Wood, logs and round unmanufactured timber including pulp woods, n.s.p.f.; woods, in the log, rough or hewn only; works of art, and science, brought by professional artists or scientists arriving from abroad, temporarily for exhibition or imported in good faith for exhibition and not intended for sale; works of art productions of American artists residing temporarily abroad or other works of art imported expressly for public institutions; works of art, which are proved to the satisfaction of the Secretary of the Treasury to have been in existence more than twenty years prior to the date of their importation and are not intended or suitable for purposes of utility; other works of art (except rugs and carpets), which shall have been produced more than one hundred years prior to the date of importation.

NOTE—After the Tariff law of 1909 was passed, but before it was signed by the President, the following concurrent resolution regarding hides was adopted:

Hides of cattle, raw or unred, whether dry, salted, or pickled, shall be admitted free of duty, provided, that on and after Oct. 1, 1909, grain, buff, or split leather shall pay a duty of 7½ per cent. ad valorem; that all boots and shoes made wholly or in chief value from cattle hides and cattle skins of whatever weight, of cattle of the bovine species, including calf skins, shall pay a duty of 10 per cent. ad valorem; that harness, saddles, and saddlery, in sets or in parts, finished or unfinished, composed wholly or in chief value of leather, shall pay a duty of 20 per cent. ad valorem.

Custom House Examination of Baggage.

THE following "Notice to Passengers" was issued by the Treasury Department March 14, 1911:
 709. "Wearing apparel, articles of personal adornment, toilet articles, and similar personal effects of persons arriving in the United States; but this exemption shall only include such articles as actually accompany and are in the use of, and as are necessary and appropriate for the wear and use of such persons, for the immediate purposes of the journey and present comfort and convenience, and shall not be held to apply to merchandise or articles intended for other persons or for sale: Provided, That in case of residents of the United States returning from abroad, all wearing apparel and other personal effects taken by them out of the United States to foreign countries shall be admitted free of duty, without regard to their value, upon their identity being established, under appropriate rules and regulations to be prescribed by the Secretary of the Treasury, but no more than one hundred dollars in value of articles purchased abroad by such residents of the United States shall be admitted free of duty upon their return."

RESIDENTS OF THE UNITED STATES.

Residents of the United States must declare all articles which have been obtained abroad by purchase or otherwise whether used or unused, and whether on their persons, in their clothing, or in their baggage. The foreign value of each article, stated in United States money, must also be declared.

Articles taken from the United States and remodelled, repaired, or improved abroad must be declared, and the cost of such remodelling, repairing, or improving must be separately stated.

The following articles are dutiable: Household effects, including books, pictures, furniture, tableware, table linen, bed linen, and other similar articles, unless used abroad by the owner for a period of a year or more. Goods in the piece. Articles of any nature intended for sale or for other persons.

The following articles are free if under \$100 in value and if necessary for comfort and convenience for the purposes of the journey, and not for sale nor for other persons: Clothing. Toilet articles, such as combs, brushes, soaps, cosmetics, shaving and manure sets, etc. Personal adornments, jewelry, etc. Similar personal effects, which may include—cameras, canes, fishing tackle, glasses (field, opera, marine), golf sticks, guns, musical instruments, parasols, photographs, smokers' articles, steamer rugs and shawls, toys, trunks, valises, etc. Clothing and other personal effects taken out of the United States by the passenger if not increased in value or improved in condition while abroad. If increased in value or improved in condition, they are dutiable on the cost of the repairs. All articles are dutiable unless specifically exempted by law.

Pack in one trunk, if practicable, all dutiable articles. Receipted bills for foreign purchases should be presented whenever possible. Use does not exempt from duty wearing apparel or other articles obtained abroad, but such articles will be appraised at their value in the condition as imported due allowance being made for depreciation through wear and use.

NONRESIDENTS OF THE UNITED STATES.

Nonresidents of the United States are entitled to bring in free of duty, without regard to the one-hundred-dollar exemption, such articles as are in the nature of wearing apparel, articles of personal adornment, toilet articles, and similar personal effects, necessary and appropriate for their wear and use for the purposes of the journey and present comfort and convenience and which are not intended for other persons or for sale.

Citizens of the United States, or persons who have at any time resided in this country, shall be deemed to be residents of the United States, unless they shall have abandoned their residence in this country and acquired an actual bona-fide residence in a foreign country.

Such citizens or former residents who desire the privileges granted by law to nonresidents must show to the satisfaction of the collector's representative on the pier, subject to the collector's approval, that they have given up their residence in the United States and that they have become bona-fide residents of a foreign country.

The residence of a wife follows that of the husband; and the residence of a minor child follows that of its parents.

GOODS OTHER THAN PERSONAL EFFECTS.

Household effects of persons or families from foreign countries will be admitted free of duty only if actually used abroad by them not less than one year, and if not intended for any other person, nor for sale. Such effects should be declared whether the passenger be a resident or a non-resident of the United States.

Articles intended for use in business, or for other persons, theatrical apparel, properties, and sceneries, must be declared by passengers, whether residents or nonresidents.

CIGARS AND CIGARETTES.

All cigars and cigarettes must be declared. Each passenger over eighteen years of age may bring in free of duty 50 cigars or 300 cigarettes if for the bona-fide use of such passenger. Such cigars and cigarettes will be in addition to the articles included within the \$100 exemption.

BAGGAGE DECLARATIONS.

The law provides that every person entering the United States shall make a declaration and entry of his or her personal baggage. The law further requires that the values of articles shall be determined by customs officers. Irrespective of the statements of passengers relative thereto.

Passengers should observe that on the sheet given them there are two forms of declarations; the one printed in black is for residents of the United States; the one in red, for nonresidents.

The exact number of pieces of baggage, including all trunks, valises, boxes, packages, and hand bags of any description accompanying the passenger, must be stated in the declaration.

The senior member of a family, present as a passenger, may make declaration for the entire family. Ladies travelling alone should state that fact in their declarations in order that an expeditious examination of their baggage may be made.

When the declaration is prepared and signed, the coupon at the bottom of the form must be detached and retained by the passenger, and the form given to the officer of the ship designated to receive the same. A declaration spoiled in its preparation must not be destroyed, but turned over to the purser, who will furnish a new blank to the passenger.

After all the baggage and effects of the passenger have been landed upon the pier, the coupon which has been retained by the passenger must be presented at the inspector's desk, whereupon an inspector will be detailed to examine the baggage. Passengers must acknowledge in person, on the pier, their signature to their declarations.

Examination of any baggage may be postponed if the passenger requests the officer taking his declaration to have it sent to the appraiser's store.

Passengers must not deduct the \$100 exemption in making out their declarations. Such deductions will be made by customs officers on the pier.

CONTESTED VALUATION.

Passengers dissatisfied with values placed upon dutiable articles by the customs officers on the pier may demand a re-examination, but application therefor should be immediately made to the officers there in charge. If for any reason this course is impracticable, the packages containing the articles should be left in customs custody and application for reappraisal made to the collector of customs, in writing, within ten days after the original appraisement. No request for reappraisal can be entertained after the articles have been removed from customs custody.

MISCELLANEOUS PROVISIONS.

Currency or certified checks only can be accepted in payment of duties, but, upon request,

baggage will be retained on the piers for twenty-four hours to enable the owner to secure currency or certified checks. The offering of gratuities or bribes to customs officers is a violation of law.

BAGGAGE FOR TRANSPORTATION IN BOND.

Baggage intended for delivery at ports in the United States other than the port of arrival, or in transit through the United States to a foreign country, may be forwarded thereto without the assessment of duty at the port of arrival, by the various railroads and express companies, whose representatives will be found on the piers.

Passengers desiring to have their baggage forwarded in bond should indicate such intention and state the value thereof in their declarations before any examination of the baggage has been made.

SEALSKIN GARMENTS.

An act of Congress of 1897, as amended in 1910, expressly forbids the importation into the United States of garments made in whole or in part of the skins of seals taken in the waters of the Pacific Ocean; and unless the owner is able to establish by competent evidence and to the satisfaction of the Collector that the garments are not prohibited, they cannot be admitted.

PENALTY FOR NOT DECLARING ARTICLES OBTAINED ABROAD.

Under Sections 2802 and 3082 of the Revised Statutes of the United States, articles obtained abroad and not declared are subject to seizure, and the passenger is liable to criminal prosecution.

United States Court of Customs Appeals.

Presiding Judge—Robert M. Montgomery. *Associate Judges*—James F. Smith, Orlon M. Barber, Marion De Vries, George E. Martin. *Attorney-General*—George W. Wickersham. *Assistant Attorney-General*—William L. Wemple. *Clerk*—Arthur B. Shelton (\$3,500). *Marshal*—Frank H. Briggs (\$3,000).

Sec. 188. There shall be a United States Court of Customs Appeals, which shall consist of a Presiding Judge and four Associate Judges, each of whom shall be appointed by the President, by and with the advice and consent of the Senate, and shall receive a salary of seven thousand dollars a year. The Presiding Judge shall be so designated in the order of appointment and in the commission issued to him by the President; and the Associate Judges shall have precedence according to the date of their commissions. Any three members of said court shall constitute a quorum, and the concurrence of three members shall be necessary to any decision thereon. In case of a vacancy or of the temporary inability, or disqualification for any reason of one or two of the Judges of said court, the President may, upon the request of the Presiding Judge of said court, designate any qualified United States Circuit or District Judge or Judges to act in his or their place; and such Circuit or District Judges shall be duly qualified to so act.

Sec. 189. The said Court of Customs Appeals shall always be open for the transaction of business, and sessions thereof may, in the discretion of the court, be held in the several judicial circuits, and at such places as said court may from time to time designate.

Sec. 195. The Court of Customs Appeals shall exercise exclusive appellate jurisdiction to review by appeal, as herein provided, final decisions by a Board of General Appraisers in all cases as to the construction of the law and the facts respecting the classification of merchandise, and the rate of duty imposed thereon under such classification, and the fees and charges connected therewith, and all appealable questions as to the jurisdiction of said board, and all appealable questions as to the laws and regulation governing the collection of the customs revenues; and the judgments and decrees of said Court of Customs Appeals shall be final in all such cases.

Sec. 196. No appeal shall be taken or allowed from any Board of United States General Appraisers to any other court, and no appellate jurisdiction shall thereafter be exercised or allowed by any other courts in cases decided by said Board of United States General Appraisers, but all appeals allowed by law from such Board of General Appraisers shall be subject to review only in the Court of Customs Appeals hereby established, according to the provisions of this chapter: *Provided*, That nothing in this chapter shall be deemed to deprive the Supreme Court of the United States of jurisdiction to hear and determine all customs cases which have heretofore been certified to said court from the United States Circuit Courts of Appeals on applications for writs of *certiorari* or otherwise, nor to review by writ of *certiorari* any customs case heretofore decided or now pending and hereafter decided by any Circuit Court of Appeals, provided application for said writ be made within six months after August fifth, nineteen hundred and nine: *Provided further*, That all customs cases decided by a Circuit or District Court of the United States or a court of a Territory of the United States prior to said date above mentioned, and which have not been removed from said courts by appeal or writ of error, and all such cases theretofore submitted for decision in said courts and remaining undecided may be reviewed on appeal at the instance of either party by the United States Court of Customs Appeals, provided such appeal be taken within one year from the date of the entry of the order, judgment, or decrees sought to be reviewed.

Sec. 197. Immediately upon the organization of the Court of Customs Appeals, all cases within the jurisdiction of that court pending and not submitted for decision in any of the United States Circuit Courts of Appeals, United States Circuit, Territorial or District Courts, shall, with the record and samples therein, be certified by said courts to said Court of Customs Appeals for further proceedings in accordance herewith: *Provided*, That where orders for the taking of further testimony before a referee have been made in any of such cases, the taking of such testimony shall be completed before such certification.

Sec. 198. If the importer, owner, consignee, or agent of any imported merchandise, or the Collector or Secretary of the Treasury, shall be dissatisfied with the decision of the Board of General Appraisers as to the construction of the law and the facts respecting the classification of such merchandise and the rate of duty imposed thereon under such classification, or with any other appealable decision of said board, they, or either of them, may, within sixty days next after the entry of such decree or judgment, and not afterward, apply to the Court of Customs Appeals for a review of the questions of law and fact involved in such decision: *Provided*, That in Alaska and in the insular and other outside possessions of the United States ninety days shall be allowed for making such application to the Court of Customs Appeals. Such application shall be made by filing in the office of the clerk of said court a concise statement of errors of law and fact complained of; and a copy of such statement shall be served on the collector, or on the importer, owner, consignee, or agent, as the case may be. Thereupon the court shall immediately order the Board of General Appraisers to transmit to said court the record and evidence taken by them, together with the certified statement of the facts involved in the case and their decision thereon; and all the evidence taken by and before said board shall be competent evidence before said Court of Customs Appeals. The decision of said Court of Customs Appeals shall be final, and such cause shall be remanded to said Board of General Appraisers for further proceedings to be taken in pursuance of such determination.

Sec. 199. Immediately upon receipt of any record transmitted to said court for determination the clerk thereof shall place the same upon the calendar for hearing and submission; and such calendar shall be called and all cases thereupon submitted, except for good cause shown, at least once every sixty days: *Provided*, That such calendar need not be called during the months of July and August of any year.

Postal Information.

(Revised by the Post-Office Department for THE WORLD ALMANAC.)

DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations. (Domestic rates apply to mail for Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, the Philippines, the "Canal Zone," the Republic of Panama, and Shanghai, China), also to officers or members of the crew of vessels of war of the United States, and officers and men of the United States Navy in the United States Naval Hospital, Yokohama, Japan.

First-Class Matter—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection, except sealed packages of proprietary articles described under "Fourth-class Matter," or anything containing writing not authorized on second, third or fourth-class matter.

First class or letter rate of postage to any part of the United States, its possessions, or the above-named countries, *two cents per ounce or fraction thereof.*

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, and the addressee cannot be served by rural free delivery carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Postal cards issued by the Post-Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized will subject the card, when sent in the mails, to postage according to the character of the message—at the letter rate if wholly or partly in writing or the third-class rate if entirely in print. In either case the postage value of the stamp impressed upon the card will not be impaired.

3. Postal cards must be treated in all respects as sealed letters, except that when undeliverable to the addressee they may not be returned to the sender. Undeliverable "double" postal cards will be returned to the sender if known.

4. Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are *unmailable*, except when inclosed in tightly sealed envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Cards that have been spoiled in printing or otherwise will be redeemed from the *original purchasers* at 75 per cent. of their face value if unutilized.

POST CARDS—(private mailing cards)—bearing written or printed messages are transmissible in the mails:

Private mailing cards ("post cards") in the domestic mails must conform to the following conditions:

(a) A "post card" must be an unfolded piece of cardboard not exceeding approximately 3-9-16 by 5-9-16 inches, nor less than approximately $\frac{23}{4}$ by 4 inches.

(b) It must in form and in the quality and weight of paper be substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "post card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. Cards, without cover, conforming to the foregoing conditions are transmissible in the domestic mails (including the possessions of the United States) and to Cuba, Canada, Mexico, the Republic of Panama, and Shanghai, China, at the postage rate of 1 cent each.

3. When post cards are prepared by printers and stationers for sale, it is desirable that they bear in the upper right hand corner of the face an oblong diagram containing the words "Place postage stamp here," and at the bottom of the space to the right of the vertical dividing line, the words "This space for the address."

4. Cards which do not conform to the conditions prescribed by these regulations are, when sent in the mails, chargeable with postage according to the character of the message—at the letter rate, if wholly or partly in writing, or at the third-class rate, if entirely in print.

5. Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are *unmailable*, except when inclosed in tightly sealed envelopes, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Rate on special delivery letters, ten cents on each letter in *addition* to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such letters. Ordinary stamps to the value of ten cents affixed to a letter or other piece of mail will entitle it to special delivery if it is marked "Special Delivery." The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be *fully* prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so, they will be sent

POSTAL INFORMATION—Continued.

to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rate is charged on typewriting and carbon or letter press copies thereof, and on all printed imitations or reproductions of typewriting or manuscript obtained by mechanical process unless such reproductions are presented at post-office windows in the minimum number of twenty identical unsealed copies.

Letters and other matter prepaid at the letter rate—two cents an ounce or fraction thereof—(but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope or wrapper. The limit of weight is four pounds, except for a single book.

Prepaid letters will be forwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed. Nothing may be added to such letters except the forwarding address without subjecting them to new postage.

Second-Class Matter—This class includes all printed newspapers and periodicals that have been "Entered as second-class matter," and are regularly issued at stated intervals as frequently as four times a year, from a known office of publication and mailed by the publishers or news agents to actual subscribers or as sample copies or to news agents for sale, and newspapers and publications of this class mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, organized under the lodge system and having a membership of a thousand persons, and the publications of strictly professional, literary, historical, and scientific societies, and incorporated institutions of learning, trade unions, etc., provided that these be published at stated intervals not less than four times a year, and that they be formed of printed paper sheets without board, cloth, leather or other substantial binding. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations, societies, and institutions represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers and news agents, *one cent a pound or fractional part thereof*, prepaid in currency. Publications designed primarily for advertising or free circulation, or circulation at a nominal rate, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay the third-class rate.

Publications sent to actual subscribers in the county where printed and published are free, unless mailed for delivery at a letter-carrier office.

Rates of postage on second-class newspapers, magazines, or periodicals, mailed by others than the publishers or news agents, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are *third-class matter*. Second-class matter will be entitled to special delivery when special delivery stamps (or ten cents in ordinary stamps and the words "Special Delivery" placed on the wrapper) are affixed in addition to the regular postage.

Second-class matter must be so wrapped that it may be easily examined. The sender's name and address may be written in them or on the wrapper, also the words "sample copy" when sent as such, or "marked copy" when it contains a marked item or article. Typographical errors in the text may be corrected, but any other writing subjects the matter to letter postage.

Third-Class Matter—Mail matter of the third class includes printed books, pamphlets, engravings, circulars in print (or by the hectograph, electric-pen, or similar process when at least twenty identical copies are mailed at post-office windows at one time), and other matter wholly in print, proof sheets, corrected proof sheets, and manuscript copy accompanying the same.

The rate on matter of this class is *one cent for each two ounces or fraction thereof*. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed under special permit when the postage at that rate may be paid in money.

Manuscript unaccompanied by proof sheets must pay letter rate.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rate on delivery. It must be fully prepaid, or it will not be despatched. New postage must be prepaid for forwarding to a new address or returning to senders.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage, or when ten cents in ordinary stamps are affixed in addition to the regular postage and the words "Special Delivery" are placed on the wrapper.

Upon matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be placed in writing or otherwise the words "Please do not open until Christmas" or words to that effect, and there may be printed any matter mailable as third class. Written designation of the contents such as "book," "photo," "printed matter," is also permissible, but there must be left on the address side a space sufficient for a legible address, postmark and the necessary stamps.

Fourth-Class Matter—Fourth-class matter is all mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined, except that sealed packages of proprietary articles of merchandise (not in themselves unmailable), such as pills, fancy soaps, tobacco, etc., put up in fixed quantities by the manufacturer for sale by himself or others, or for samples, in such manner as to properly protect the articles, so that each package in its simplest mercantile or sample form may be examined, are mailable as fourth-class matter. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, *one cent for each ounce or fraction thereof* (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is *one cent for each two ounces or fraction thereof*). This matter must be fully prepaid, or it will not be despatched. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed at one time when the postage at that rate may be paid in money. New postage must be prepaid for forwarding or returning. The affixing of special delivery ten-cent stamps in addition to the regular postage entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

On the wrapper, envelope, tag, or label, in addition to the name and address of the addressee, there may be written or printed the name, occupation, and residence, or business address of the

POSTAL INFORMATION—Continued.

sender preceded by the word "from," as well as any marks, numbers, names or letters for the purpose of description, also the words "Please do not open until Christmas" or words to that effect, and any printed matter which is not in the nature of personal correspondence. On the address side or face of the package there must be left a space sufficient for a legible address, postmark, and the necessary postage stamps. A request to the delivering postmaster may also be written asking him to notify the sender in case the package is not delivered.

On the matter itself, or upon the tag or label attached thereto, may be written or printed any matter authorized to be placed on the wrapper.

Written designation of contents such as "samples," "candy," "cigars" are permissible upon the wrapper of mail matter of the fourth class.

Inclosures.—With a package of fourth-class matter, prepaid at proper rate for that class, the sender may inclose any mailable matter of the third class. A single card bearing the written name of the sender and such inscription as "Merry Christmas," "Happy New Year," "With best wishes," etc., may also be inclosed with fourth-class matter without affecting its classification.

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live or dead animals, insects, fruits or vegetable matter liable to decomposition, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent when it is apparent that they are harmless.

Liquids, Etc.—The following Postal Laws and Regulations relate to articles absolutely excluded from the mails, and to the manner in which liquids and other articles liable, unless properly protected, to hurt, harm or injure another, or damage, deface, or otherwise injure the mails, must be packed before they can be admitted to domestic mails. These regulations must be strictly complied with in every particular—postmasters having no authority to modify or make exceptions to them in any case.

SECTION 494. All kinds of poison and all articles and compositions containing poison, and all poisonous animals, insects and reptiles, and explosives of all kinds and inflammable materials, and infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode, and all disease germs or scabs, and all other natural or artificial articles, compositions or materials of whatever kind which may kill or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, whether sealed as first-class matter or not, are hereby declared to be nonmailable matter, and shall not be conveyed in the mails or delivered from any post-office or station thereof, nor by any letter carrier; but the Postmaster-General may permit the transmission in the mails, under such rules and regulations as he shall prescribe as to preparation and packing, of any article hereinbefore described which are not outwardly or of their own force dangerous or injurious to life, health, or property: *Provided*, That all spirituous, vinous, malted, fermented, or other intoxicating liquors of any kind, are hereby declared to be nonmailable and shall not be deposited in or carried through the mails. Whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place at which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable unless in accordance with the rules and regulations hereby authorized to be prescribed by the Postmaster-General, shall be fined not more than one thousand dollars, or imprisoned not more than two years, or both; and whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place to which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable, whether transmitted in accordance with the rules and regulations authorized to be prescribed by the Postmaster-General or not, with the design, intent, or purpose to kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, shall be fined not more than five thousand dollars, or imprisoned not more than ten years, or both.

2. Spirituous, vinous, malted, fermented, or other intoxicating liquors of any kind, poisons of every kind, and articles and compositions containing poison (except as prescribed in the fourth paragraph hereof, and section 496 below paragraph 1), and poisonous animals, insects, and reptiles, and explosives of every kind, and inflammable materials (including matches, kerosene oil, gasoline, naphtha, benzine, turpentine, denatured alcohol, etc.), and infernal machines, and mechanical, chemical or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in section 495 of Postal laws), and other natural or artificial articles, compositions, or materials of whatever kind which may kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mail or other property, live or dead (and not stuffed) animals (except as prescribed in section 496 below), raw hides or pelts, guano, or any article exhaling bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails.

3. Liquids not spirituous, vinous, malted, fermented, or otherwise intoxicating (including samples of altar or communion wine used in church services), and not liable to explosion or spontaneous combustion or ignition by shock or jar, and not inflammable, fruits or vegetable matter liable to decomposition, comb honey, soft soap, paste or confections, ointments, salves, and articles of similar consistency, may be admitted to the mails for transmission in the domestic mails when inclosed in packages in conformity with the conditions prescribed in section 496 below.

4. Medicines composed in part or wholly of poison or poisons, and anaesthetic agents, which are not outwardly or of their own force dangerous or injurious to life, health or property, and not in themselves unmailable (see sections 480 and 497, of Postal laws), may be admitted to the mails for transmission in the domestic mails from the manufacturer thereof or dealer therein to licensed physicians, surgeons, pharmacists and dentists, and not otherwise, when inclosed in packages in conformity with the conditions prescribed in section 496 below: *Provided*, That the package bears the label or superscription of the manufacturer or dealer in the article mailed.

SECTION 496. Articles of the fourth class, not absolutely excluded from the mails, but which from their form or nature might, unless properly secured, destroy, deface, or

POSTAL INFORMATION—Continued.

otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, may be transmitted in the mails, when they conform to the following conditions, except as otherwise herein provided:

(a) When not liquid or liquefiable, they must be placed in a bag, box or removable envelope or wrapping, made of paper, cloth or parchment.

(b) Such bag, box, envelope or wrapping must again be placed in a box or tube made of metal or some hard wood, with sliding clasp or screw lid.

(c) In cases of articles liable to break, the inside box, bag, envelope or wrapping must be surrounded by sawdust, cotton or other elastic substance.

2. Admissible liquids and oils (not exceeding four ounces, liquid measure), pastes, salves or articles easily liquefiable must conform to the following conditions:

(a) When in glass bottles, such bottles must be very strong and must be inclosed in a metal, wooden or papier-mache block or tube, and there must be provided, between the bottle and the block or tube, a cushion of cotton, felt or other absorbent. The block or tube must be of sufficient strength to resist rough handling and support the weight of the mails piled in bags. If of wood, it must be at least three-sixteenths of an inch thick in the thinnest part; if of papier-mache it must be at least five thirty-seconds of an inch thick for bottles holding from two to four ounces, and at least one-eighth of an inch thick for bottles holding two ounces or less. The block or tube must be rendered water-tight by an application of paraffine or other suitable substance, so that if the bottle be broken in transit the liquid will not escape or the tube become softened and allow the broken glass to be scattered in the mails.

(b) When inclosed in a tin cylinder, metal case or tube, such cylinder case or tube should have a lid or cover so secured as to make the case or tube water tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described.

(c) Pastes, salves, etc. not easily liquefiable (not exceeding four ounces, liquid measure), when inclosed in water-tight tin boxes with screw-top lids, may be placed in a box of thick corrugated pasteboard, and then well wrapped with strong paper and tied with twine.

3. Manufacturers or dealers intending to transmit articles or samples in considerable quantities should submit a specimen package, showing the mode of packing, to the postmaster at the mailing office, who will see that the conditions of this section are carefully observed.

4. Where sharp pointed instruments are offered for mailing, the points must be capped or incased so that they may not by any means be liable to cut through their inclosure; and where they have blades, such blades must be bound with wire so that they shall remain firmly attached to each other and within their handles or sockets. Needles must be inclosed in metal or wooden cases so that they cannot by any means prick through or pass out of their inclosures.

5. Seeds or other articles not prohibited which are liable from their form or nature to loss or damage, unless specially protected, must be put up in sealed envelopes, made of material sufficiently transparent to show the contents clearly without opening.

6. Ink powders, pepper, snuff, or other powders not explosive, or any pulverized dry substance, not poisonous, may be sent in the mails when inclosed in the manner prescribed herein for liquors, or when inclosed in metal, wooden or papier-mache cases in such secure manner as to render the escape of any particles of dust from the package by ordinary handling impossible, and of such strength as to bear the weight and handling of the mails without breaking; the method of packing to be subject to the approval of the General Superintendent of the Railway Mail Service.

7. Queen bees and their attendant bees, when accompanied by a copy of a certificate of the current year from a State or Government apriary inspector to the effect that the apriary from which said queen bee are shipped is free from disease or by a copy of a statement by the bee-keeper made before a notary public or other officer having a seal that the honey used in making the candy used in the queen mailing cage has been diluted and boiled in a closed vessel; beneficial insects, when shipped by departments of entomology in agricultural colleges and persons holding official entomological positions; other live insects, when addressed to the Bureau of Entomology of the United States Department of Agriculture, to departments of entomology in State agricultural colleges, and to persons holding official entomological positions, and dried insects and dried reptiles, may be sent in the mails when so put up as to render it practically impossible that the package shall be broken in transit, or the persons handling the same be injured, or the mail bags or their contents soiled.

8. Nursery stock, including florists' stock, trees, shrubs, plants, vines, cuttings, grafts, scions, buds, bulbs, and roots (which may carry injurious insects), may be admitted to the mails only when accompanied by a certificate from a State or Government inspector to the effect that the nursery from which the said nursery stock is shipped has, within a year, been inspected and found free from injurious insects.

9. Hard candies or confectionery, yeast cakes, soap in hard cakes, when wrapped in strong paper boxes or heavy paper wrappers, adequate to prevent all injury to other matter in the same mail bags, are admissible in the domestic mails.

10. Pistols or revolvers may be sent in the mails, but the postmaster at the mailing office will carefully examine such packages, and will receive them only when sure they are harmless.

11. No specified mode of packing is prescribed for samples of flour, but they should be put up in such manner as to certainly avoid risk of the package breaking or cracking or the flour being scattered in the mails, and if this be not done the samples should be excluded.

12. Articles of fourth-class matter must be so wrapped that their contents may be easily and thoroughly examined by postmasters, both with reference to the safety of the mails and postal employees and to the exclusion of matter chargeable as of the first class. (See section 489 of Postal laws.)

13. Proprietary articles of merchandise, not in themselves unmarketable (see sections 480, 494 and 497 of Postal laws), such as fancy soaps, tobacco, pills, tablets, or other harmless medical preparations put up in fixed quantities by the manufacturer, for sale by himself and others, which may be sealed in such manner as to properly protect the article, but to allow examination of such package in its simplest mercantile form, will be accepted for mailing.

Limit of weight of fourth-class matter (excepting liquids and single books), four pounds.
Third or Fourth Class Matter Mailable Without Stamps—Under special permits postage may be paid in money for third or fourth class matter mailed in quantities of 2,000 or more

POSTAL INFORMATION—Continued.

identical pieces. For information concerning the regulations governing such mailings inquiry should be made of the postmaster.

Registration—All kinds of postal matter may be registered at the rate of *ten cents for each package* in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, when indorsed "receipt desired," or words of similar import. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$50 for any one registered piece, or the actual value of the piece, if it is less than \$50—shall be paid for the loss of first-class registered matter mailed at and addressed to a United States post-office, and an indemnity not to exceed \$25 is paid for domestic third and fourth class matter. The limit of indemnity paid for registered articles lost in the International mails is 50 francs.

Domestic Money Orders—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

Stamped Envelopes—Embossed stamps and newspaper wrappers of several denominations, sizes and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless, but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in a substantially whole condition.

Unmailable Matter—Unmailable domestic matter—that is, matter which is not admissible to the United States mails for delivery in the United States or in any of its possessions—includes:

1. All matter illegally, incorrectly, or insufficiently addressed.
2. All second-class matter and all matter of the third or fourth class not wholly prepaid; and letters and other first-class matter not prepaid one full rate—2 cents.
3. All matter weighing over four pounds, except second-class matter, single books, official matter emanating from the Executive Departments and documents printed and circulated by authority of Congress.
4. All matter harmful in its nature, as poisons, explosive or inflammable articles, matches; live or dead (but not stuffed) animals, and reptiles, guano, or any article exhaling a bad odor, vinous, spirituous or malt liquors, and liquids liable to explosion, spontaneous combustion, or ignition by shock or jar, such as kerosene oil, naphtha, benzine, etc.
5. All indecent, obscene, lewd, lascivious or filthy matter, and every article or thing intended, designed, or adapted for any indecent or immoral purpose, or for the prevention of conception or procuring abortion, or for any indecent or immoral use.
6. Postal, post, or other cards mailed without wrappers and all matter bearing upon the outside cover or wrapper any delineations, epithets, terms, or language of an indecent, lewd, lascivious, obscene, libelous, scurrilous, defamatory or threatening character, or calculated by the terms or manner or style of display, and obviously intended to reflect injuriously upon the character or conduct of another. Dunning postal or post cards are included in this class.
7. Post cards, bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except as provided under "First-Class Matter."
8. All matter concerning any lottery, gift, enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or concerning schemes devised for the purpose of obtaining money or property under false pretences.

Applications for the establishment of post-offices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.
3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter to any Government official or to any person correspondence, not over four ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps unless inclosed in "penalty" envelopes furnished for replies.

Suggestions to the Public—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employes. Names of States should be written in full (or their abbreviations very distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col.; Pa., Va., Vt.; Me., Mo., Md.; Ia., Ind.; N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb.; Penn., Tenn., etc., when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

As void as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter. Any person who sends money or jewelry in an unregistered letter not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were

POSTAL INFORMATION—Continued.

always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain *unmailable* matter nor exceed the limit of weight as fixed by law; and that it is fully prepaid and properly addressed.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope of sufficient value to pay the postage to which it is subject. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Post-Office Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

Foreign Mails.

POSTAGE RATES AND CONDITIONS.

THE rates of postage to all foreign countries and colonies are as follows:

Letters.....	first ounce or less, 5 cents; each additional ounce	3 cents.
Postal cards, each.....		2 cents.
Newspapers and other printed matter, per 2 ounces.....		1 cent.
Commercial papers (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.).....	Packets not in excess of 10 ounces. { Packets in excess of 10 ounces, for each 2 ounces or fraction thereof.....	5 cents. 1 cent.
Samples of merchandise.....	{ Packets not in excess of 4 ounces. Packets in excess of 4 ounces, for each 2 ounces or fraction thereof	2 cents. 1 cent.
Registration fee on letters or other articles.....		10 cents.

On printed matter and commercial papers the limit of weight is 4 pounds 6 ounces, except that single volumes of books to Salvador, Canada, Mexico, Cuba, and Panama, are unrestricted as to weight. Size—The limit of size is 18 inches in any one direction, except that printed matter or commercial papers in rolls may be 30 inches long by 4 inches in diameter.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Domestic rates apply to matter for Porto Rico, Guam, Philippine Islands, Cuba, "Canal Zone," Republic of Panama, Tutuila, Hawaii, Shanghai City, U. S. Naval Vessels and officers and men of the U. S. Navy in the U. S. Naval Hospital, Yokohama, Japan.

EXCEPTIONS.

GREAT BRITAIN AND IRELAND AND NEWFOUNDLAND.

The rate on Letters for these countries is two cents for each ounce or fraction. The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples.

GERMANY.

The postage rate on Letters for Germany by direct ocean transportation is two cents an ounce. Letters paid at the two-cent rate are despatched only by steamers able to land the mails at a German port. Letters paid at the Postal Union rate are despatched by the quickest route.

A fast steamer sailing for Germany via Plymouth and Cherbourg carries letters for Germany prepaid at the Postal Union rate and at the two-cent rate—the letters paid at the five-cent (Postal Union) rate are landed at Plymouth (the quickest route), whereas the letters paid at the two-cent rate are carried through to Germany by the Transatlantic steamer.

The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples regardless of the route by which sent, also to Letters despatched via England and France.

CANADA.

Matter mailed in the United States addressed to Canada is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States, except that plants, seeds, etc., are subject to the postage rate of one cent an ounce; that prints "commercial papers" and samples of merchandise are transmissible at the Postal Union postage rates and conditions. Goods and merchandise (fourth-class matter), not samples, may be sent in unsealed packages, not over 4 pounds in weight, for one cent per ounce. There is no limit of weight to single volumes of printed books or packages of second-class matter. Sealed articles, other than letters in their usual and ordinary form, are unmailable.

All articles, except the reply half of double postal cards, must be fully prepaid with postage stamps at the rate of postage applicable to similar articles in the domestic mails of this country, and are required to be delivered free of postage to addressees, except that letters upon which only one rate of postage has been prepaid are required to be forwarded, any deficiency being collected on delivery.

Any article of correspondence may be registered. Packages of merchandise are subject to the regulations of either country to prevent violations of the revenue laws; must not be closed against inspection, and must be so wrapped and inclosed as to be easily examined. Samples must not exceed 12 ounces in weight.

Advertising circulars are liable to a specific customs duty at the rate of 15 cents per pound, which duty Canadian customs officials are required to collect when such pamphlets arrive by mail, even

FOREIGN MAILS—Continued.

though each pamphlet bears a different address. But bona-fide trade catalogues and price lists of goods for wholesale, not exceeding three to any one address, are admitted free of customs duty. Almanacs, advertising periodicals and printed matter designed to advertise the sale of goods by any person in Canada are not included in the exemption from duty granted to "bona-fide trade catalogues" and "price lists." Only bona-fide trade catalogues and price lists of goods for wholesale in any country beyond the limits of Canada, and not exceeding three to one address, are admitted free of duty.

CUBA AND PANAMA.

Matter for Cuba and the Republic of Panama is mailable at the same rates of postage and under the same conditions as it would be if addressed for delivery in the United States, except that "samples" and "commercial papers" may be sent subject to the Postal Union postage rates and conditions; that articles, other than letters in their usual and ordinary form, must be so wrapped or inclosed that the contents may be readily and thoroughly examined; that packages—except single volumes of printed books—must not exceed 4 pounds 6 ounces in weight, and that (in addition to other prohibited articles) liquids (except samples thereof) fatty substances and those which easily liquefy are nonmailable.

Letters and post cards must be despatched even if they do not bear any postage stamps. Other articles must be prepaid at least in part. Postage due on short-paid matter will be collected from the addressee on delivery.

MEXICO.

Matter mailed in the United States addressed to Mexico is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States, except that articles of miscellaneous merchandise (fourth-class matter) other than liquids, not sent as bona-fide trade samples should be sent by "Parcels Post;" and that prints commercial papers and bona-fide trade samples are transmissible in the regular mails at the Postal Union postage rate and conditions. Limit of weight for commercial papers and printed matter, 4 pounds 6 ounces, except single volumes of printed books, to which no limit is fixed. Articles, other than letters in their usual and ordinary form, must be so wrapped that the contents can be easily examined.

Matter addressed to Mexico must, in all cases, bear as part of the address the name of the State in which the city or town is located. For example, Acapulco, Guerrero, Mexico; not Acapulco, Mexico.

U. S. NAVAL VESSELS.

Mall matter for officers or members of the crew of United States vessels of war stationed abroad is subject to domestic postage rates and conditions. Articles should be addressed "U. S. S. (name of vessel), care of Postmaster, New York, N. Y." and be fully prepaid. Mail so addressed will be forwarded to the vessels. *Errand packages will not be received at the post-office unless they conform to the Postal Regulations and are placed in the mail with the postage properly prepaid.*

SHANGHAI, CHINA.

Domestic postage rates and conditions apply to articles addressed for delivery in the city of Shanghai, but for other places in China the Universal Postal Union (foreign) rates apply.

SAMPLES OF MERCHANDISE

must be bona-fide trade samples without any salable value. **Wrapping**—Samples of merchandise must be wrapped so that the contents may be easily examined without injury to wrappers. **Permissible Writing**—They must bear no writing except the name or the social position of the sender, a manufacturer's or trade mark, numbers, prices and indications relating to the weight, size, dimensions and quantity to be disposed of, and words which are necessary to precisely indicate the origin and nature of the merchandise. **Weight**—Packages of samples must not exceed 12 ounces in weight. **Size**—The size must not exceed 12 inches in length, 8 inches in breadth, and 4 inches in depth, except when in the form of a roll, they may be 12 inches in length and 6 inches in diameter. **Postage**—The postage on samples is 2 cents for the first 4 ounces or less, and 1 cent for each additional 2 ounces or fraction of 2 ounces. Register all valuable articles. Registration fee 10 cents.

PARCELS POST.

Postage, 12 cents a pound or fraction thereof; greatest length (unless specially noted below), 3 feet 6 inches; greatest length and girth combined (unless specially noted below), 6 feet; limit of weight (unless specially noted below), 11 pounds; value (unless specially noted below), not limited; registration fee, 10 cents.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Dutch Guiana (parcels cannot be registered. See item "Customs Declarations"), Uruguay (parcels cannot be registered). See item "Customs Declarations," Hungary, Bermuda, Jamaica, including Cayman Islands, Turks Island, including Caicos Island, Barbadoes (parcels cannot be registered), the Bahamas, British Honduras, Mexico (limit of size, 2 feet in length, 4 feet in girth; limit of weight for places named in "Postal Guide," 11 pounds; for other places, 4 pounds 6 ounces), Leeward Islands (Antigua, Anguilla, Barbuda, Dominica, Montserrat, Nevis, Redonda, St. Kitts and the Virgin Islands), Colombia (limit of size, 2 feet in length, 4 feet in girth), Costa Rica, Salvador, (see item "Customs Declarations,") British Guiana, Danish West Indies (St. Croix, St. John and St. Thomas), and the Windward Islands (Grenada, Grenadines, St. Lucia, and St. Vincent), Trinidad including Tobago, Venezuela (see item "Customs Declarations,") Bolivia, Ecuador (parcels must not exceed \$50 in value), Peru and Chile, Newfoundland, Honduras (Republic of), Germany, Italy, including: Erythrae, Benadir, Bengazi and Tripoli in Tripoli (Barbary) and Republic of San Marino, Netherlands (parcels cannot be registered. See item "Customs Declarations"), New Zealand, including Cook and Fanning Islands; Nicaragua, Guatemala, Norway, Japan including Formosa, Karafuto (Japanese Saghalien), and Korea (parcels must not exceed \$80 in value), Hongkong, including Kowloon, Austria, Belgium, France, excluding Algeria and Corsica (parcels cannot be registered), see item "Customs Declarations", Great Britain and Ireland (parcels cannot be registered), Australia, including Tasmania Denmark, Sweden (parcels must not exceed \$80 in value), China, the following places only: Amoy, Canton, Changsha, Chefoo, Chingkiang, Foochow, Hangchow, Hankow, Hoibao (Hoibow), Hongkong, Kiangnan, Li, Kung Tau, Nanking, Newchwang, Ningpo, Shanghai, Shanghaiwan, Shasi, Soochow, Swatow, Peking, Tientsin, Tientsin, Tientsin, Wei Hai Wei and Wuku; Manchuria, the following places only: Antoken (Antung), Bujun (Fushun), Chosbun (Changchun), Dairen (Dairen), Taiien (formerly Dainy), Dalsekkia (Tashihua), Daitoko (Tatungkuo), Furan (Pulntien), Gaihei (Kaiping), Ginkaton (Newchatun), Gwaboten (Wafangtien), Hishiko (Pitzuow), Honkeiko (Pen-haichun), Hoken (Mukden), Howojie (Fenghuangcheng), Kalgen (Kalyen), Kaijio (Haichang), Kinshu (Chinchow), Koshanrei (Kungchuling), Mojan (Port Arthur), Ryojo (Liaoyang), Rlujuton (Lushutun), Senkinsai (Chienchinsai), Shibeigai (Ssuipingchih), Shinminfu (Shingmingfu), Shoto (Changtu), Sokako (Tsoahokow), Sokaton (Suchiatun), Taikozau (Takushan), Tetsuro

FOREIGN MAILS—Continued.

(Tiehling), Yendal (Yental), Yugakujlo (Hsiungyocheng) (parcels must not exceed \$80 in value). Hayti, Brazil and Turkey, the following places only: Alexandretta, Beirut, Cavalla, Constantinople (including Galata, Pera and Stamboul), Dardanelles, Dedeagatch, Durazzo, Halfa, Inebol Jaffa, Janina, Jerusalem, Kerassund, Lagos, Mersine, Mitylene, Prevesa, Ritimo (Rethymo), Rhodes, Saloniki (Salonica), Samsoun, San Jean de Medua, Santi Quaranta, Scio (Schios), Scutari, Smyrna, Trebizond, Tunesme, Tripoli (Syria), Valona, Vathy (Samos), and the Isle of Crete. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. The presence, in an unsealed parcel, of sealed receptacles containing mailable articles which cannot be safely transmitted in the unsealed receptacles, will not render the parcel unmailable, provided the contents of the sealed receptacles are plainly visible, or are unmistakably indicated by the method of packing or by a precise statement on the covers. But such sealed receptacles will not be admitted to the Parcels Post unless inclosed in an outside cover open to inspection. Any article absolutely prohibited admission to the regular mails for any country is also inadmissible to Parcels Post mails for that country; but no article is excluded from Parcels Post mails solely because it is dutiable in the country of destination. Liquids, poisonous, explosive, and inflammable substances are excluded.

CUSTOMS DECLARATIONS.

A "Customs Declaration" Form 4402 (which will be furnished on application at the post-office or a station) must be properly and fully filled out, stating the actual contents, value, etc., of the parcel. General terms, such as "merchandise" or "samples," will not answer; the contents must be accurately described. "Customs Declarations" must be firmly attached to the cover of the parcel, but not pasted or affixed so that they will seal the package and prevent examination of the contents without damaging the cover. In addition to being tied by means of a cord passing through the eyelet, the tag should be bound flat to the parcel (with the front or "declaration" side facing out), so that the tag cannot be used as a handle to lift the parcel while in transit.

Two (2) copies of the "declaration" (Form 4402) must be attached to each parcel for Dutch Guiana, Dutch West Indies, Netherlands, Salvador and Uruguay, and three (3) copies to each parcel for Venezuela.

France—Two copies of the special declaration, "Form No. 2 Bis" (4402½), showing in addition to the usual entries the gross weight of the parcel and net weight of the contents, must be attached to parcels for France. One copy may be pasted to the package, but the other copy must be affixed in such a manner that it can be readily removed at the exchange office where the mail is prepared for despatch to France.

GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.

Postage can be prepaid upon articles (other than the reply half of double postal cards) only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union and insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Packages of newspapers and periodicals sent in the mails to foreign countries are restricted to a single (outside) address. Those sent to Canada, Cuba, Mexico, Panama, and Shanghai (City), China, are transmissible as in domestic mails.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, Mexico, Panama, and Shanghai City, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can be used if conforming in size, etc., to Government cards, such cards should bear the words "post card."

Mail matter of all kinds received from any country of the Postal Union is required to be reforwarded at the request of the addressee, from one post-office to another, and in the case of articles other than Parcels Post packages, to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

FOREIGN (INTERNATIONAL) MONEY ORDERS.

When payable in Apia, Austria, Belgium, Bolivia, Cape Colony, Costa Rica, Denmark, Egypt, Germany, Great Britain, Honduras, Hongkong, Hungary, Italy, Japan, Liberia, Luxemburg, New South Wales, Natal and Zululand, New Zealand, Orange River Colony, Peru, Portugal, Queensland, Russia, Salvador, South Australia, Switzerland, Tasmania, the Transvaal, Uruguay and Victoria rates are as follows:

Forsums from \$0.01 to \$2.50.....	10 cents	From \$30.01 to \$40.00.....	45 cents
From \$2.51 to 5.00.....	15 "	" 40.01 to 50.00.....	50 "
" 5.01 to 7.50.....	20 "	" 50.01 to 60.00.....	60 "
" 7.51 to 10.00.....	25 "	" 60.01 to 70.00.....	70 "
" 10.01 to 15.00.....	30 "	" 70.01 to 80.00.....	80 "
" 15.01 to 20.00.....	35 "	" 80.01 to 90.00.....	90 "
" 20.01 to 30.00.....	40 "	" 90.01 to 100.00.....	1 dollar

When payable in any foreign country not named above rates are as follows:

Forsums from \$0.01 to \$10.00.....	10 cents	From \$50.01 to \$60.00.....	60 cents
From \$10.01 to \$20.00.....	20 "	" 60.01 to 70.00.....	70 "
" 20.01 to 30.00.....	30 "	" 70.01 to 80.00.....	80 "
" 30.01 to 40.00.....	40 "	" 80.01 to 90.00.....	90 "
" 40.01 to 50.00.....	50 "	" 90.01 to 100.00.....	1 dollar

NOTE—It should be understood that these tables are subject to change, it being the aim of the Post-Office Department to make reductions whenever conditions warrant such action.

Parcels Post.

THE Sixty-second Congress of the United States, Second Session, enacted the following Postal law, effective January 1, 1913.:

Sec. 8. That hereafter fourth-class mail matter shall embrace all other matter, including farm and factory products, not now embraced by law in either the first, second, or third class, not exceeding eleven pounds in weight, nor greater in size than seventy-two inches in length and girth combined, nor in form or kind likely to injure the person of any postal employé or damage the mail equipment or other mail matter and not of a character perishable within a period reasonably required for transportation and delivery.

That for the purposes of this section the United States and its several Territories and possessions, excepting the Philippine Islands, shall be divided into units of area thirty minutes square, identical with a quarter of the area formed by the intersecting parallels of latitude and meridians of longitude, represented on appropriate postal maps or plans, and such units of area shall be the basis of eight postal zones, as follows:

The first zone shall include all territory within such quadrangle, in conjunction with every contiguous quadrangle, representing an area having a mean radial distance of approximately fifty miles from the centre of any given unit of area.

The second zone shall include all units of area outside the first zone lying in whole or in part within a radius of approximately one hundred and fifty miles from the centre of a given unit of area.

The third zone shall include all units of area outside the second zone lying in whole or in part within a radius of approximately three hundred miles from the centre of a given unit of area.

The fourth zone shall include all units of area outside the third zone lying in whole or in part within a radius of approximately six hundred miles from the centre of a given unit of area.

The fifth zone shall include all units of area outside the fourth zone lying in whole or in part within a radius of approximately one thousand miles from the centre of a given unit of area.

The sixth zone shall include all units of area outside the fifth zone lying in whole or in part within a radius of approximately one thousand four hundred miles from the centre of a given unit of area.

The seventh zone shall include all units of area outside the sixth zone lying in whole or in part within a radius of approximately one thousand eight hundred miles from the centre of a given unit of area.

The eighth zone shall include all units of area outside the seventh zone. That the rate of postage on fourth-class matter weighing not more than four ounces shall be one cent for each ounce or fraction of an ounce; and on such matter in excess of four ounces in weight the rate shall be by the pound, as hereinafter provided, the postage in all cases to be prepaid by distinctive postage stamps affixed.

That except as provided in the next preceding paragraph postage on matter of the fourth class shall be prepaid at the following rates:

On all matter mailed at the post-office from which a rural route starts, for delivery on such route, or mailed at any point on such route for delivery at any other point thereon, or at the office from which the route starts, or on any rural route starting therefrom, and on all matter mailed at a city carrier office, or at any point within its delivery limits, for delivery by carriers from that office, or at any office for local delivery, five cents for the first pound or fraction of a pound and one cent for each additional pound or fraction of a pound.

For delivery within the first zone, except as provided in the next preceding paragraph, five cents for the first pound or fraction of a pound and three cents for each additional pound or fraction of a pound.

For delivery within the second zone, six cents for the first pound or fraction of a pound and four cents for each additional pound or fraction of a pound.

For delivery within the third zone, seven cents for the first pound or fraction of a pound and five cents for each additional pound or fraction of a pound.

For delivery within the fourth zone, eight cents for the first pound or fraction of a pound and six cents for each additional pound or fraction of a pound.

For delivery within the fifth zone, nine cents for the first pound or fraction of a pound and seven cents for each additional pound or fraction of a pound.

For delivery within the sixth zone, ten cents for the first pound or fraction of a pound and nine cents for each additional pound or fraction of a pound.

For delivery within the seventh zone, eleven cents for the first pound or fraction of a pound and ten cents for each additional pound or fraction of a pound.

For delivery within the eighth zone and between the Philippine Islands and any portion of the United States, including the District of Columbia and the several Territories and possessions, twelve cents for the first pound or fraction of a pound and twelve cents for each additional pound or fraction of a pound.

The classification of articles mailable as well as the weight limit, the rates of postage, zone or zones and other conditions of mailability under this act, the Postmaster-General shall find on experience that they or any of them are such as to prevent the shipment of articles desirable, or to permanently render the cost of the service greater than the receipts of the revenue therefrom, he is hereby authorized subject to the consent of the Interstate Commerce Commission after investigation, to reform from time to time such classification, weight limit, rates, zone or zones or conditions, or either, in order to promote the service to the public or to insure the receipt of revenue from such service adequate to pay the cost thereof.

The Postmaster-General shall make provision by regulation for the indemnification of shippers, for shipment injured or lost, by insurance or otherwise, and, when desired, for the collection on delivery of the postage and price of the article shipped, fixing such charges as may be necessary to pay the cost of such additional services.

That the establishment of zones and postage rates of this section shall go into effect January first, nineteen hundred and thirteen.

That this act shall not in any way affect the postage rate on seeds, cuttings, bulbs, roots, scions and plants, as fixed by Section 432 of the Postal Laws and Regulations.

That for the purpose of a further inquiry into the subject of the general parcels post and all related subjects a joint committee of six persons (Members of Congress), three of whom shall be appointed by the President of the Senate, and three by the Speaker of the House of Representatives, is constituted, with full power to appoint clerks, stenographers and experts to assist them in this work. That the Postmaster-General and the Interstate Commerce Commission shall furnish such data and otherwise render such assistance to the said committee as may be desired or available. The committee shall report fully to Congress at the earliest date possible.

That all laws and parts of laws in conflict with the provisions of this section are hereby repealed.

NOTE.—When this edition of the ALMANAC went to press, the geographical boundaries of the zones mentioned above were not defined by the Postmaster-General.

Postal Savings System.

INFORMATION FOR DEPOSITORS AS ANNOUNCED BY THE POST-OFFICE DEPARTMENT.

Object—1. The Postal Savings System is established for the purpose of providing facilities for depositing savings at interest with the security of the United States Government for repayment.

Safety—2. The faith of the United States is solemnly pledged to the payment of deposits made in postal savings depository offices with accrued interest as provided by the Postal-Savings act.

Who May Deposit—3. Accounts may be opened and deposits made by any person of the age of 10 years or over in his or her own name and by a married woman in her own name and free from any interference or control by her husband. No person can have more than one account at any one time.

4. Any person may open a postal-savings account.

5. All accounts must be opened in person by the depositor or his authorized representative. After opening an account a depositor may for all subsequent deposits to the post-office by mail.

6. Deposits will be accepted only from individuals and no account will be opened in the name of any corporation, association, society, firm, or partnership, or in the names of two or more persons jointly.

7. No account will be opened in the name of one person in trust for or on behalf of another person or persons.

Service Free—8. The service of the Postal Savings System is free, and no charge or fee is collected or required in connection with the opening of an account or the withdrawal of money deposited.

Privacy of Accounts—9. No person connected with the Post-Office Department or the postal service is permitted to disclose the name of any depositor or give any information concerning an account except to the depositor himself, unless directed to do so by the Postmaster-General.

How to Open an Account—10. When a person applies to open an account he must furnish the necessary information for the postmaster or his representative to fill out an application, which he will then be required to sign. If the applicant signs by mark his signature must be witnessed by a disinterested person.

Deposits—11. Deposits are evidenced by postal-savings certificates issued in fixed denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100, each bearing the name of the depositor, the number of his account, the date of issue, the name of the depository office, and the date on which interest begins. The postmaster or his representative will make out a duplicate of each certificate issued, which the depositor will be required to sign and which the postmaster will retain in his records.

12. No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit.

13. No person is permitted to deposit more than \$100 in any one calendar month nor to have a total balance to his credit at one time of more than \$500 exclusive of accumulated interest.

14. Savings certificates can not be transferred or negotiated and will be payable only to the person to whom issued.

15. On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. On this envelope is printed information for his guidance, and also a blank ledger record on which to keep an account of his deposits and withdrawals.

16. In case a savings certificate is lost or destroyed the depositor should notify the postmaster. If deemed proper, a new certificate will be issued upon compliance by the depositor with the necessary requirements.

17. Postmasters are not permitted to receive savings certificates for safe-keeping.

Savings Cards and Stamps—18. Amounts less than \$1 may be saved for deposit by the purchase of 10-cent postal-savings cards and adhesive 10-cent postal-savings stamps. Each postal-savings card contains blank spaces to which savings stamps may be affixed from time to time as purchased, and a postal-savings card with nine 10-cent savings stamps thus affixed will be accepted as a deposit of \$1 either in opening an account or in adding to an existing account.

19. Savings cards and stamps will be redeemed only by the issue of savings certificates and are not valid for postage. They will not be received in exchange for postage stamps nor will postage stamps be accepted in exchange for postal-savings cards or stamps.

Interest—20. Interest will be allowed on all deposits at the rate of 2 per cent. per annum, computed on each savings certificate separately, and payable annually. No interest will be paid on money which remains on deposit for a fraction of a year only.

21. Deposits will bear interest from the first day of the month next following that in which deposited.

22. Interest will continue to accrue on a savings certificate as long as it remains outstanding, certificates being valid until paid, without limitation as to time.

23. Compound interest is not allowed on an outstanding certificate, but a depositor may withdraw interest payable and include it in a new deposit, which will bear interest at the regular rate.

Withdrawals—24. A depositor may at any time withdraw the whole or any part of his deposits to his credit with any interest payable by surrendering savings certificates, properly indorsed, for the amount desired.

25. A depositor presenting a certificate for payment in full, with all interest payable, must indorse it on the back in the presence of the postmaster or his representative and surrender it. The postmaster or his representative, if satisfied as to the depositor's identity, will then make payment.

26. When a depositor desires to withdraw only a part of the amount called for by any certificate the postmaster will cancel the certificate and issue a new certificate covering the amount to be left on deposit. The new certificate will be so dated that the depositor will not lose interest on the amount remaining continuously on deposit.

27. When a depositor desires to withdraw merely the interest payable on any certificate, instead of indorsing and surrendering the certificate as in case of full payment, he will be required to give his receipt in duplicate for the amount of the interest paid. The postmaster will enter the interest payment on the back of the certificate and return it to the depositor.

Deposits Not Made in Person—28. When a person who has opened an account cannot appear personally to make an additional deposit, because of infirmity or for other good and sufficient reason, the amount to be deposited may be sent by a representative or forwarded by mail. On receipt of the amount the postmaster will send to the depositor the duplicate of each savings certificate to be issued. When the duplicate or duplicates thus delivered have been signed by the depositor and returned to the depository office, the postmaster will send him the original certificates covering the amount of the deposit. New accounts cannot be opened by mail. When an intending depositor desiring to open an account is unable to appear in person he may forward the money by a representative, who will be provided with an application form, which must be properly filled out by the intending depositor and returned with the duplicate certificate or certificates.

Withdrawals Not Made in Person—29. When under similar circumstances a depositor

POSTAL SAVINGS SYSTEM—Continued.

cannot appear in person to make a withdrawal, a blank order will be furnished for his use upon request by his representative. When such order has been properly filled in and signed by the depositor, with his signature witnessed by a disinterested person, and has been returned to the postmaster, together with each certificate to be paid properly indorsed, payment will be made to the depositor's representative.

30. When a depositor who is unable to appear in person desires to withdraw merely the interest payable on any certificate, the blank order furnished will include receipts for the interest to be paid, upon return of which, properly signed by the depositor, the postmaster will make payment to his representative.

Death of Depositor—31. In case of the death of a depositor, the amount standing to his credit will be paid to the executor or administrator of his estate upon compliance with the necessary requirements. In case no formal administration is desired by his relatives, the postmaster may, if it is deemed proper, be authorized to pay the amount of the deposit, on application in proper form, to the persons entitled to receive it, without the appointment of an administrator.

Account of Woman Who Marries—32. A woman who opens an account and afterward marries must present her savings certificates at her office in order that the certificates may be indorsed as payable to her in her new name. The postmaster will receive no further deposits from a depositor failing to comply with this requirement, nor will he make any partial or interest payment to her.

Postal-Savings Bonds—33. A depositor will be permitted to exchange the whole or any part of his deposits in sums of \$20, \$40, \$60, \$80, \$100, or multiples of \$100 up to and including \$500, into United States registered or coupon bonds bearing interest at the rate of 2½ per cent. per annum, payable semi-annually, and redeemable at the pleasure of the United States after one year from a date of issue, both principal and interest payable twenty years from such date in United States gold coin. Such exchange may be made under date of January 1 and July 1 of each year, provided such bonds are then available.

34. A depositor desiring to convert his savings deposits into bonds on January 1 and July 1 of any year must make application at least fifteen days before either of the dates named to the postmaster in triplicate on a form which will be supplied him for that purpose. At the time of making application he must indorse and surrender savings certificates covering the amount of the bonds desired, for which the postmaster will give him a receipt. Interest will continue to accrue on certificates surrendered until the date on which the bonds are issued. When the bonds applied for are received by the postmaster, the depositor will be notified and the bonds will be delivered by the postmaster on presentation of the receipt for the certificates surrendered. At the same time all interest due on the certificates surrendered will be paid.

35. Savings deposits converted into bonds are not counted as a part of the maximum of \$500 allowed one depositor, and there is no limitation upon the amount of available postal-savings bonds which may finally be acquired by a depositor.

36. Postal-savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

37. Postal-savings bonds can only be procured by the conversion of postal-savings deposits, and will not be issued to persons who are not depositors, but whether in registered or coupon form they may, upon receipt by the depositor, be sold and assigned at any time to any person desired.

Information—38. Further information concerning the Postal Savings System may be obtained by application at any depository office or by inquiry addressed to the Postmaster-General (Postal Savings System), Washington, D. C.

Mills, Department of the Treasury; Fred G. Plummer, Forest Service, Department of Agriculture; Charles W. Stewart, Library and Naval War Records Office, Department of the Navy.

By executive order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determining, changing, and fixing place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority. Advisory powers were granted the board concerning the preparation of maps compiled, or to be compiled, in the various offices and bureaus of the Government, with a special view to the avoidance of unnecessary duplication of work; and for the unification and improvement of the scales of maps, of the symbols and conventions used upon them, and of the methods of representing relief. Hereafter, all such projects as are of importance shall be submitted to this board for advice before being undertaken.

Labor Legislation.

BOYCOTTING, BLACKLISTING AND INTIMIDATION LAWS.

The States having laws prohibiting *boycotting* in terms are Alabama, Colorado, Illinois, Indiana, and Texas.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arkansas, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi (applies to telegraph operators only), Missouri, Montana, Nevada, North Carolina, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington, and Wisconsin.

A number of States have enacted laws concerning *intimidation*, conspiracy against workmen, and interference with employment, viz.: Alabama, Connecticut, Delaware, Florida, Georgia, Idaho (applies to mine employes only), Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employe not to join or become a member of a labor organization, as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Kansas, Massachusetts, Minnesota, Mississippi (applies to telegraph operators only), Nevada, New Jersey, Ohio, Oklahoma, Oregon, Pennsylvania, Porto Rico, South Carolina, Utah, and Wisconsin.

EIGHT-HOUR LAWS.

Arizona.—Eight hours constitute a day's labor in all underground mines and workings.

Arkansas.—Eight hours constitute a day's work on public highways and bridges and for railway telegraph operators.

California.—Unless otherwise expressly stipulated, eight hours constitute a day's work. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, and of employes in mines and smelters, is limited and restricted to eight hours in any one calendar day.

Colorado.—A day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town, and for all employes in underground or open cut mines or workings, and in smelting and refining works, is restricted to eight hours.

Connecticut.—Eight hours of labor constitute a lawful day's work unless otherwise agreed. Railroad telegraph operators controlling the movement of trains may work but eight hours, except at stations kept open only in the daytime. Engineers, firemen, machinists and other mechanics employed in State institutions may work but eight hours, except in case of emergency.

Delaware.—Eight hours constitute a lawful day's work for all municipal employes of the city of Wilmington.

District of Alaska.—Eight hours are a day's labor on the public roads.

District of Columbia.—A day's work for all laborers and mechanics employed by the District of Columbia, or by any contractor or sub-contractor upon any public works of the District, is limited to eight hours.

Hawaii.—For all mechanics, clerks, laborers, and other employes on public works and in public offices eight hours of actual service constitute a day's work.

Idaho.—Eight hours' actual work constitute a lawful day's labor for manual laborers employed by the day on all State, county, and municipal works. Labor in mines and smelters is limited to eight hours per day.

Illinois.—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; the law does not apply to service by the year, month or week. Eight hours constitute a day's labor on the public highways.

Indiana.—Eight hours of labor constitute a legal day's work on the public roads, and for all classes of mechanics, workmen, and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted.

Iowa.—Eight hours constitute a day's labor on the public roads.

Kansas.—Eight hours are a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township or other municipality.

Kentucky.—Eight hours constitute a day's work on all public works of the State.

Maryland.—No mechanic or laborer employed by the Mayor or City Council of Baltimore, or by any agent or contractor under them, shall be required to work more than eight hours as a day's labor.

Massachusetts.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the Commonwealth or any county therein, or of any city or town in the Commonwealth upon acceptance of the statute by a majority of voters present and voting upon the same at any general election.

Minnesota.—Eight hours constitute a day's labor for all laborers, workmen, or mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

Mississippi.—Eight hours are a day's labor on highways.

Missouri.—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to agricultural laborers. It is unlawful for employers to work their employes longer than eight hours per day in mines and smelters, or as train dispatchers, etc., on railroads, unless the office is open only during the daytime. Eight hours are a day's labor on highways.

Montana.—Eight hours constitute a legal day's work for persons engaged to operate or handle hoisting engines at mines. The law applies only to such plants as are in operation sixteen or more hours per day, or at or in mines where the engine develops fifteen or more horse-power, or where fifteen or more men are employed underground in the twenty-four hours. A day's labor on public works and in smelters, underground mines and in railroad and other tunnels is limited to eight hours.

Nebraska.—Eight hours constitute a day's work on public roads and on all public works in cities of the first class.

Nevada.—For labor on public highways, in and about all mines, in smelters, plaster and cement mills, as train dispatchers, etc., on railroads, and on all works and undertakings carried on or aided by the State, county, or municipal governments, the hours of labor are fixed at eight per day.

New Jersey.—Eight hours is the limit of a day's work by any person employed by or on behalf of the State or any municipality thereof.

New Mexico.—Eight hours constitute a day's labor on public roads and highways.

New York.—Eight hours constitute a day's work on highways, and on work done by or for the State, or a municipal corporation, whether directly by contractors or sub-contractors; also for all classes of employes, except in farm or domestic labor, though overwork for extra pay is permitted in private employments.

LABOR LEGISLATION—Continued.

North Carolina.—Train despatchers, etc., on railroads may work only eight hours, unless otherwise permitted by the corporation commission.

North Dakota.—Eight hours are a day's labor on public roads.

Ohio.—Eight hours shall constitute a day's work in all engagements to labor in any mechanical, manufacturing or mining business, unless otherwise expressly stipulated in the contract.

Oklahoma.—Eight hours constitute a day's labor on all public works, and in underground mines.

Oregon.—Eight hours constitute a day's labor on all public works, and in underground mines yielding metal.

Pennsylvania.—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor or to service by the year, month or week. Eight hours constitute a day's labor for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works. This act shall be deemed to apply to employes of contractors. Engineers hoisting workmen at anthracite coal mines may work but eight hours per day.

Philippine Islands.—Eight hours constitute a day's work on highways.

Porto Rico.—No laborer may be compelled to work more than eight hours per day on public works.

South Dakota.—For labor on public highways a day's work is fixed at eight hours.

Tennessee.—Eight hours shall be a day's work on the highways.

Texas.—Eight hours constitute a day's work on the highways, and by train despatchers, etc., except at stations where but one operator is employed.

Utah.—Eight hours constitute a day's labor on all works carried on or aided by the State, county or municipal governments, and in all underground mines or workings, and in smelters and all other establishments for the reduction of ores.

Washington.—Eight hours in any calendar day shall constitute a day's work on any work done for the State, or for any county or municipality, and in underground coal mines.

West Virginia.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State, and for telegraph operators directing the movement of trains where three or more passenger or ten or more freight trains pass in 24 hours.

Wisconsin.—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours, but the law does not apply to contracts for labor by the week, month or year. Eight hours constitute a day's labor on the public highways. Employes on public works and train despatchers may be employed but eight hours per day.

Wyoming.—Eight hours' actual work constitute a legal day's labor in all underground mines, in smelters, and on all State and municipal works.

United States.—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, is limited to eight hours.

THE WORLD ALMANAC is indebted to Commissioner Charles P. Neill of the U. S. Bureau of Labor for this Summary of Labor Legislation revised to date.

State Labor Bureaus.

LIST OF BUREAUS OF LABOR AND LABOR STATISTICS IN UNITED STATES.

LOCATION.	Title.	Organ-ized.	Chief Officer.	Address.
District of Col.	United States Bureau of Labor	1885	Charles P. Neill	Washington.

General Labor Organizations.

AMERICAN FEDERATION OF LABOR.

PRESIDENT, Samuel Gompers, 801-809 G Street, N.W., Washington, D.C.; **Secretary**, Frank Morrison, same address; **Treasurer**, John B. Lennon, Bloomington, Ill.; **First Vice-President**, James Duncan, Hancock Building, Quincy, Mass.; **Second Vice-President**, John Mitchell, 3 Claremont Avenue, Mt. Vernon, N. Y.; **Third Vice-President**, James O'Connell, 512 Onray Building, Washington, D. C.; **Fourth Vice-President**, D. A. Hayes, 930 Witherspoon Building, Philadelphia, Pa.; **Fifth Vice-President**, Wm. D. Huber, Carpenters' Building, Indianapolis, Ind.; **Sixth Vice-President**, Jos. F. Valentine, Commercial Tribune Building, Cincinnati, Ohio; **Seventh Vice-President**, John R. Alpine, 401 Bush Temple of Music, Chicago, Ill.; **Eighth Vice-President**, H. B. Perham, Star Building, St. Louis, Mo.

The Federation is composed of 113 national and international unions, representing approximately 27,000 local unions, 5 departments, 41 State branches, 564 city central unions, and 616 local unions. The approximate paid membership is 2,000,000. The affiliated unions publish about 540 weekly or monthly papers, devoted to the cause of labor. The official organ is the *American Federationist*, edited by Samuel Gompers. There are 1,659 organizers of local unions acting under the orders of the American Federation of Labor. The objects and aims of the American Federation of Labor are officially stated to render employment and means of subsistence less precarious by securing to the workers an equitable share of the fruits of their labor.

INTERNATIONAL UNIONS COMPRISING THE AMERICAN FEDERATION OF LABOR.

Syndicalism.

So diverse are the views on Syndicalism held by Syndicalists and their avowed enemies that a middle course will give a clearer outline of its aims and expectations than would a full statement drawn from the many and conflicting reports available to date.

Syndicalism was born of the growing differences and controversies within labor and trade unions. The first symptoms appeared in France, whence the doctrine soon spread to Italy, to England, and thence to America. Syndicalism is antagonistic to government, to existing labor unions and to capital alike, and is even designed to supplant socialism.

Born in the brain of the intellectuals within the great unions, Syndicalism has made a profound impression upon workers within and without the unions in a remarkably short time. The doctrine of Syndicalism demands the turning over of every and all means of production and distribution to the Syndicalist trade unions, to be controlled by said unions so that the workmen will become their own employers, thus securing the whole product for themselves. The first objective aim is to eliminate the present owners, but means to accomplish this vary.

In France the Syndicalists adopt the general "strike," but in a different sense from which strikes are known in America. For instance, the Syndicalists strike not for higher wages. Primarily they aim at the total cessation of all activity, stoppage of mails, lighting, transportation and every activity that now binds society together. They depend upon non-interference or co-operation of the army (in Europe) and upon crippling the power of all established government wherever the army is not a factor. They rely upon the consequent uprising of all society wherever active Syndicalism prevails, and trust to the peaceful reapportionment of all authority and rights to the associated labor and trade unions true to the doctrine of Syndicalism.

The government is regarded as the greatest enemy by the Syndicalists. They claim that corrupt political control makes just economic control impossible. While the objects to be attained seem reasonable enough, the means of accomplishing these objects are dangerously speculative and appear to threaten society with anarchy in its direst form.

Syndicalism demands that social revolution come through labor unions in order to abolish capitalism, whereas Socialists expect to work reform by political agitation through Parliamentary majorities. Syndicalists see the futility of all endeavor to obtain government majorities and hence ignore the government altogether in their propaganda, relying upon the genius of Syndicalism to permeate the mind of the masses sufficiently to sap the strength and power of government opposition and thus obtain all their demands by a bloodless revolution.

France now counts some 600,000 avowed Syndicalists. Agricultural Italy is a veritable hotbed of Syndicalism. Organized farm laborers now control over 200,000 acres of tillable land, which are farmed on the co-operative plan, and the entire Italian railway system is under the influence of advanced Syndicalism.

At a conference of Syndicalists held in England in November, 1910, 60,000 professed followers attended, since which date their doctrine has spread considerably, especially among the more intelligent of the industrial workers.

Here in America Syndicalism first showed its head during the labor troubles at Lawrence, Mass., under direction of the Industrial Workers of the World. The Syndicalists have also widened and extended the definition of the word labor by including in its comprehension all workers who are actively useful within the community. This includes the physician, teacher, artist and those engaged in other professions.

L. F. B.

INDUSTRIAL WORKERS OF THE WORLD.

(A distinct organization from that given on following page bearing same name.)

HEADQUARTERS, 160 North Fifth Avenue, Chicago, Ill. Vincent St. John, General Secretary-Treasurer; James P. Thompson, Assistant Secretary and General Organizer. Executive Board—J. J. Ector, Phineas Eastman, F. H. Little, Ewald Koetgen, John M. Foss.

PREAMBLE—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage system. We find that the centering of the management of industries into fewer and fewer hands makes the trades unions unable to cope with the ever-growing power of the employing class. The trades unions foster a state of affairs which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. Moreover, the trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in such a way that all its members in any one industry, or in all industries, if necessary, cease work whenever a strike or lockout is on in any department thereof, thus making an injury to one an injury to all.

Instead of the conservative motto, "A fair day's wages for a fair day's work," we must inscribe on our banner the revolutionary watchword, "Abolition of the wage system."

It is the historic mission of the working class to do away with capitalism. The army of production must be organized, not only for the every day struggle with capitalists, but also to carry on production when capitalism shall have been overthrown. By organizing industrially we are forming the structure of the new society within the shell of the old.

The organization differs from syndicalism in that great stress is laid upon having a form of organization to correspond cell for cell, tissue for tissue, with capitalist industry itself, and also because it seeks to build a new union on revolutionary lines rather than to attempt to change the present reactionary and out-of-date craft unions. The organization claims to have blended the practical features of socialism, anarchism, and syndicalism, and yet it is distinct from all three.

The I. W. W. is composed of 160 local unions, two National Industrial unions (textile industry and lumber industry), having a total membership of 70,000, four National administrations, Hawaiian, Australian, New Zealand and South African.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen National industrial departments, National industrial unions, local industrial unions, local recruiting unions, industrial councils, and individual members.

The annual convention of the Industrial Workers of the World shall be held on the third Monday of September each year at such place as may be determined by previous convention.

Members-at-large shall pay an initiation fee of \$2.00 and \$1.00 per month dues and assessments. No working man or woman shall be excluded from membership in local unions because of creed or color.

That to the end of promoting industrial unity and of securing necessary discipline within the organization, the Industrial Workers of the World refuse all alliances, direct or indirect, with existing political parties or anti-political sects.

INDUSTRIAL WORKERS OF THE WORLD.

(A distinct organization from that given on preceding page bearing same name.)

HEADQUARTERS, Detroit, Mich. General Secretary-Treasurer, H. Richter, Detroit; Assistant Secretary and General Organizer, Adolf S. Carm, Chicago, Ill.

PREAMBLE—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until all the toilers come together on the political, as well as on the industrial field, and take and hold that which they produce by their labor through an economic organization of the working class, without affiliation with any political party.

The rapid gathering of wealth and the centering of the management of industries into fewer and fewer hands make the trades unions unable to cope with the ever-growing power of the employing class, because the trades unions foster a state of things which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. The trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen national industrial departments, national industrial unions, local industrial unions, local recruiting unions, industrial councils and individual members.

A national industrial union shall be comprised of the local industrial unions of the various localities in America in a given industry.

The industrial departments shall consist of not less than ten local unions, aggregating a membership of not less than ten thousand members. The industrial departments shall be sub-divided in industrial unions of closely kindred industries in the appropriate organizations for representation in the departmental administration. The departments included are: Department of Mining Industry; Transportation Industry; Metal and Machinery Industry; Glass and Pottery Industry; Food-Stuffs Industry; Brewery, Wine and Distillery Industry; Floricultural, Stock and General Farming Industries; Building Industry; Textile Industries; Leather Industries; Wood Working Industries; Public Service Industries; Miscellaneous Manufacturing.

The annual convention shall be held on the third Monday in September of each year at such place as may be determined by previous convention.

Individual members may be admitted to membership-at-large in the organization on payment of 50 cents initiation fee and 25 cents per month dues, together with assessments.

None but actual wage-workers shall be members of the Industrial Workers of the World. No member of the Industrial Workers of the World shall be an officer in a pure and simple trade union. No member of one industrial or trade organization in the Industrial Workers of the World can at the same time hold a card in another industrial or trade organization of this body. No workman or workwoman shall be excluded from membership because of creed or color.

Commission on Industrial Relations.

THE SIXTY-second Congress of the United States, Second Session, passed the following:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a commission is hereby created to be called the Commission on Industrial Relations. Said commission shall be composed of nine persons, to be appointed by the President of the United States, by and with the advice and consent of the Senate, not less than three of whom shall be employers of labor and not less than three of whom shall be representatives of organized labor. The Department of Commerce and Labor is authorized to co-operate with said commission in any manner and to whatever extent the Secretary of Commerce and Labor may approve.

Sec. 2. That the members of this commission shall be paid actual travelling and other necessary expenses and in addition a compensation of ten dollars per diem while actually engaged on the work of the commission and while going to or returning from such work. The commission is authorized as a whole, or by subcommittees of the commission, duly appointed, to hold sittings and public hearings anywhere in the United States, to send for persons and papers, to administer oaths, to summon and compel the attendance of witnesses and to compel testimony, and to authorize its members or its employes to travel in or outside the United States on the business of the commission.

Sec. 3. That said commission may report to the Congress its findings and recommendations and submit the testimony taken from time to time, and shall make a final report accompanied by the testimony not previously submitted not later than three years after the date of the approval of this act, at which time the term of this commission shall expire, unless it shall previously have made final report, and in the latter case the term of the commission shall expire with the making of its final report; and the commission shall make at least one report to the Congress within the first year of its appointment and a second report within the second year of its appointment.

Sec. 4. That the commission shall inquire into the general condition of labor in the principal industries of the United States, including agriculture, and especially in those which are carried on in corporate forms; into existing relations between employers and employes; into the effect of industrial conditions on public welfare and into the rights and powers of the community to deal therewith; into the conditions of sanitation and safety of employes and the provisions for protecting the life, limb and health of the employes; into the growth of associations of employers and of wage-earners and the effect of such associations upon the relations between employers and employes; into the extent and results of methods of collective bargaining; into any methods which have been tried in any State or in foreign countries for maintaining mutually satisfactory relations between employes and employers; into methods for avoiding or adjusting labor disputes through peaceful and conciliatory mediation and negotiations; into the scope, methods and resources of existing bureaus of labor and into possible ways of increasing their usefulness; into the question of smuggling or other illegal entry of Asiatics into the United States or its insular possessions, and of the methods by which such Asiatics have gained and are gaining such admission, and shall report to Congress as speedily as possible with such recommendation as said commission may think proper to prevent such smuggling and illegal entry. The commission shall seek to discover the underlying causes of dissatisfaction in the industrial situation and report its conclusions thereon.

Sec. 5. That the sum of one hundred thousand dollars is hereby appropriated out of any money in the Treasury of the United States not otherwise appropriated for the use of the commission for the fiscal year ending June thirtieth, nineteen hundred and thirteen: Provided, That no portion of this money shall be paid except upon the order of said commission, signed by the chairman thereof: Provided, That the commission may expend not to exceed five thousand dollars per annum for the employment of experts at such rate of compensation as may be fixed by the commission, but no other person employed hereunder by the commission, except stenographers temporarily employed for the purpose of taking testimony, shall be paid compensation at a rate in excess of three thousand dollars per annum.

Approved, August 23, 1912.

United States Law for Eight Hours' Work Per Diem.

THE Sixty-second Congress of the United States, Second Session, passed "An act limiting the hours of daily service of laborers and mechanics employed upon work done for the United States, or for any Territory, or for the District of Columbia, and for other purposes."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That every contract hereafter made to which the United States, any Territory, or the District of Columbia is a party, and every such contract made for or on behalf of the United States, or any Territory, or said District, which may require or involve the employment of laborers or mechanics shall contain a provision that no laborer or mechanic doing any part of the work contemplated by the contract, in the employ of the contractor or any subcontractor contracting for any part of said work contemplated, shall be required or permitted to work more than eight hours in any one calendar day upon such work; and every such contract shall stipulate a penalty for each violation of such provision in such contract of five dollars for each laborer or mechanic for every calendar day in which he shall be required or permitted to labor more than eight hours upon said work; and any officer or person designated as inspector of the work to be performed under any such contract, or to aid in enforcing the fulfillment thereof, shall, upon observation or investigation, forthwith report to the proper officer of the United States, or of any Territory, or of the District of Columbia, all violations of the provisions of this act directed to be made in every such contract, together with the name of each laborer or mechanic who has been required or permitted to labor in violation of such stipulation and the day of such violation, and the amount of the penalties imposed according to the stipulation in any such contract shall be directed to be withheld for the use and benefit of the United States, the District of Columbia, or the Territory contracting by the officer or person whose duty it shall be to approve the payment of the moneys due under such contract, whether the violation of the provisions of such contract is by the contractor or any subcontractor. Any contractor or subcontractor aggrieved by the withholding of any penalty as hereinbefore provided shall have the right within six months thereafter to appeal to the head of the department making the contract on behalf of the United States or the Territory, and in the case of a contract made by the District of Columbia to the Commissioners thereof, who shall have power to review the action imposing the penalty, and in all such appeals from such final order whereby a contractor or subcontractor may be aggrieved by the imposition of the penalty hereinbefore provided such contractor or subcontractor may within six months after decision by such head of a department or the Commissioners of the District of Columbia file a claim in the Court of Claims, which shall have jurisdiction to hear and decide the matter in like manner as in other cases before said court.

Sec. 2. That nothing in this act shall apply to contracts for transportation by land or water, or for the transmission of intelligence, or for the purchase of supplies by the Government, whether manufactured to conform to particular specifications or not, or for such materials or articles as may usually be bought in open market, except armor and armor plate, whether made to conform to particular specifications or not, or to the construction or repair of levees or reverments necessary for protection against floods or overflows on the navigable waters of the United States: Provided, That all classes of work which have been, are now, or may hereafter be performed by the Government shall, when done by contract, by individuals, firms, or corporations for or on behalf of the United States or any of the Territories or the District of Columbia, be performed in accordance with the terms and provisions of section one of this act. The President, by Executive order, may waive the provisions and stipulations in this act as to any specific contract or contracts during time of war or a time when war is imminent, and until January first, nineteen hundred and fifteen, as to any contract or contracts entered into in connection with the construction of the Isthmian Canal. No penalties shall be imposed for any violation of such provision in such contract due to any extraordinary events or conditions of manufacture, or to any emergency caused by fire, famine, or flood, by danger to life or to property, or by other extraordinary event or condition on account of which the President shall subsequently declare the violation to have been excusable. Nothing in this act shall be construed to repeal or modify the act entitled "An act relating to the limitation of the hours of daily service of laborers and mechanics employed upon the public works of the United States and of the District of Columbia," being chapter three hundred and fifty-two of the laws of the Fifty-second Congress, approved August first, eighteen hundred and ninety-two, as modified by the acts of Congress approved February twenty-seventh, nineteen hundred and six, and June thirtieth, nineteen hundred and six, or apply to contracts which have been or may be entered into under the provisions of appropriation acts approved prior to the passage of this act.

Sec. 3. That this act shall become effective and be in force on and after January first, nineteen hundred and thirteen.

Approved, June 19, 1912.

Children's Bureau.

(Department of Commerce and Labor.)

CHIEF of Bureau—Miss Julia C. Lathrop, Washington, D. C. (\$5,000).

The Sixty-second Congress of the United States, Second Session, passed "An act to establish in the Department of Commerce and Labor a bureau to be known as the Children's Bureau."

Sec. 2. That the said bureau shall be under the direction of a chief, to be appointed by the President, by and with the advice and consent of the Senate, and who shall receive an annual compensation of five thousand dollars. The said bureau shall investigate and report to said department upon all matters pertaining to the welfare of children and child life among all classes of our people, and shall especially investigate the questions of infant mortality, the birth rate, orphanage, juvenile courts, desertion, dangerous occupations, accidents and diseases of children, employment, legislation affecting children in the several States and Territories. But no official, or agent, or representative of said bureau shall, over the objection of the head of the family, enter any house used exclusively as a family residence. The chief of said bureau may from time to time publish the results of these investigations in such manner and to such extent as may be prescribed by the Secretary of Commerce and Labor.

Approved, April 9, 1912.

The above bill as drawn and recommended for passage by the Committee on Education and Labor confines the operation of the bureau primarily to the question of investigation and of reporting the same, the design and purpose being to furnish information in this general way for all parts of the country to the respective States to enable them to deal more intelligently and more systematically and uniformly with the subject. The bill is not designed to encroach upon the rights nor relieve the States from the duty of dealing with this subject, but to furnish information to enable them to more successfully deal with it. It was the opinion of the committee that the duty devolves primarily upon the States to legislate upon this important subject and the States can more effectively deal with it. But it seemed to the committee that there was a duty upon the part of the National Government to aid in getting information and data with a view of assisting in this work and that the National Government could get such information and data more effectively than the respective States.

The National Civic Federation.

OFFICE, 1 MADISON AVENUE, NEW YORK.

An organization of prominent representatives of capital, labor, and the general public formed as the direct outgrowth of conventions held in Chicago and New York in 1900-1901. Its purpose is to organize the best brains of the nation in an educational movement toward the solution of some of the great problems related to social and industrial progress; to provide for study and discussion of questions of national import; to aid thus in the crystallization of the most enlightened public opinion; and when desirable, to promote legislation in accordance therewith. At the present time the work of the federation is carried on through the following agencies:

(1) The Industrial Conciliation Department dealing entirely with strikes, lockouts and trade agreements. Its membership includes representatives of the general public and the leading organizations of employers and wage-earners. The services of this department have been enlisted in more than five hundred cases involving every phase of industrial controversy.

(2) The Industrial Economics Department organized to promote discussion and to aid in the solution of practical economic and social problems such as "Wages, and the Cost of Living," "The Injunction," "Opened and Closed Shop," "Restriction of Output," "Compulsory Arbitration," "Initiative and Referendum," "The Income Tax," "The Trusts," etc.

(3) Employers' Welfare Department, composed of employers of labor in stores, factories, mines and on railroads, and officials who have to do with the working conditions of public employes, chairmen of boards of health, heads of departments of public safety, leading physicians connected with public hospitals, heads of charity boards and others. It is devoted to securing improvements in the working and living conditions of the employé by the employer.

(4) The Woman's Welfare Department, composed largely of women who are themselves stockholders or who through family relationships are financially interested in industrial organizations. The object of this department is to use its influence in securing needed improvements in the working and living conditions of women and men wage-earners in the various industries and governmental institutions, and to co-operate, when practicable, in the general work of the federation.

(5) The Department on Compensation for Industrial Accidents and Their Prevention, composed of employers, representative labor men, attorneys, insurance experts, economists, State officials, members of State compensation commissions, and others concerned. Its object is: To inquire into the need for amending State laws on employers' liability with a view to securing uniform provisions looking toward compensation for industrial accidents; and to look into means of preventing accidents in commercial and manufacturing enterprises.

(6) Wage-Earners' Insurance Department: To promote employers' voluntary relief associations, and to investigate the need for uniform legislation covering such employers' voluntary sick, accident, pension and death benefit associations.

(7) Department on Uniform State Legislation: To promote uniform State legislation in those matters that are interstate; to work for the co-ordination of State with Federal legislation where there now is conflict, and to secure Federal legislation in matters that are purely interstate. Local councils have been organized in thirty-one States in the Union to promote this movement.

(8) Department on Regulation of Combinations and Trusts: Working for co-ordination of Federal and State laws and unification of the latter.

(9) Department on Regulation of Interstate and Municipal Utilities: Is studying this subject in all its phases through expert investigations and will report recommendations, including a skeleton law designed to secure uniformity.

(10) The Pure Food and Drugs Department is composed of representatives of State food and dairy departments, public health associations and organizations of physicians, farmers, labor and food and drug manufacturers, as well as large individual employers of labor. Its object is to promote uniform legislation on this subject among the States, work for effective co-operation between State and Federal governments, stimulate the public to demand a better enforcement of existing laws and to make evident to employers how their employes too frequently are defrauded in both quality and measurement.

OFFICERS AND EXECUTIVE COUNCIL.

President, Seth Low; Vice-Presidents, Samuel Gompers, Ellison A. Smyth, Benjamin I. Wheeler; Treasurer, Isaac N. Seligman; Chairman Executive Council, Ralph M. Easley; Chairman Committee on Organization, John Hays Hammond; Chairman Employer Welfare Department, William R. Wilcox; Chairman Department on Uniform State Legislation, Alton B. Parker; Chairman Industrial Economics Department, Nicholas Murray Butler; Chairman Department Compensation Industrial Accidents, August Belmont; Chairman Department Interstate and Municipal Utilities, Emerson McMillin; Chairman Wage-Earners' Insurance Department, George W. Perkins; Ex-Officio Chairman Conciliation Department, Seth Low; Chairman Woman's Welfare Department, Mrs. John Hays Hammond; Chairman Taxation Department, E. R. A. Seligman.

EXECUTIVE COMMITTEE.

ON THE PART OF THE PUBLIC:

William H. Taft (President of the United States), Washington, D. C.; Franklin MacVeagh (Secretary of the Treasury), Washington, D. C.; Elihu Root (United States Senator), New York City; Andrew Carnegie (Philanthropist), New York City; John Ireland (Archbishop of the Roman Catholic Church), St. Paul, Minn.; James Speyer (Speyer & Co.), New York City; Walter George Smith, (President Conference of Commissioners on Uniform State Laws), Philadelphia, Pa.; Albert Shaw (Editor Review of Reviews), New York City; V. Everit Macy (Philanthropist), New York City; Theodore Marburg (Political Economist), Baltimore, Md.; Jeremiah W. Jenks (Political Economist), Ithaca, N. Y.; Frederick N. Judson (Attorney), St. Louis, Mo.; Talcott Williams (Economic Writer), Philadelphia, Pa., and New York City; John M. Stahl, (Farmers' National Congress), Chicago, Ill.

ON THE PART OF EMPLOYERS:

William D. Baldwin (President Otis Elevator Co.), New York City; William Barbour (President of the Linen Thread Co.), New York City; William C. Brown (President New York Central lines), New York City; George B. Cortelyou (President Consolidated Gas Co.), New York City; Frederick H. Eaton (President American Car and Foundry Co.), New York City; Otto M. Eidlitz (Building Trades Employers' Association), New York City; David R. Francis (President Laclede and Mercantile National Bank), St. Louis, Mo.; Marcus M. Marks (President Association of Clothiers), New York City; Samuel Mather (Pickands, Mather & Co.), Cleveland, Ohio; Charles A. Moore (manufacturer), New York City; George M. Reynolds (President Continental and Commercial National Bank), Chicago, Ill.; Herman Ridder (President New York Staats-Zeltung Corporation), New York City; Louis B. Schram (Chairman Labor Committee, United States Brewers' Association), New York City; Frank Trumbull (Chairman Board of Directors, Chesapeake & Ohio Railway), New York City; Theodore N. Vall (President American Telephone and Telegraph Co.), New York City; Harris Weinstein (Weinstock-Nichols Co.), San Francisco, Cal.

THE NATIONAL CIVIC FEDERATION—Continued.

ON THE PART OF WAGE-EARNERS:

Samuel Gompers (President American Federation of Labor), Washington, D. C.; Warren S. Stone (Grand Chief International Brotherhood of Locomotive Engineers), Cleveland, Ohio; James M. Lynch (President International Typographical Union), Indianapolis, Ind.; A. B. Garretson (President Order of Railway Conductors), Cedar Rapids, Iowa; James Duncan (General Secretary Granite Cutters' International Association of America), Quincy, Mass.; W. G. Lee (Grand Master Brotherhood Railroad Trainmen), Cleveland, Ohio; William D. Mahon (President Amalgamated Association of Street Railway Employees of America), Detroit, Mich.; Timothy Healy (President International Brotherhood of Stationary Firemen), New York City; W. S. Carter (President Brotherhood Locomotive Firemen and Enginemen), Peoria, Ill.; Daniel J. Tobin (President International Brotherhood of Teamsters), Indianapolis, Ind.; John F. Tobin (General President Boot and Shoe Workers' Union), Boston, Mass.; Joseph F. Valentine (President Iron Molders' Union of North America), Cincinnati, Ohio; Denis A. Hayes (President Glass Bottle Blowers' Association of United States and Canada), Philadelphia, Pa.; William D. Huber (President United Brotherhood of Carpenters and Joiners of America), Indianapolis, Ind., and members of Executive Council.

DEPARTMENT ON COMPENSATION FOR INDUSTRIAL ACCIDENTS AND THEIR PREVENTION.

Chairman, August Belmont; Chairman Committee on Legislative Policy, Francis Lynde Stetson; Chairman Legal Compensation Committee, P. Tecumseh Sherman; Chairman Committee on Statistics and Costs, Sylvester C. Dunham; Chairman Committee on Improvement of State Factory Inspection with Special Reference to Safeguarding Machinery, Louis B. Schram; Chairman Model Safety Act Committee, Cyrus W. Phillips; Chairman Finance Committee, Otto M. Eldlitz; Secretary, Launcelot Packer; Secretary Executive Committee, Miss Gertrude Beeks.

OFFICERS AND EXECUTIVE COUNCIL EMPLOYERS' WELFARE DEPARTMENT.

Chairman, William R. Willcox; Vice-Chairmen, Cyrus H. McCormick, Emerson McMillin, Ellison A. Smyth, Nathan Straus; Treasurer, Isaac N. Seligman; Secretary, Miss Gertrude Beeks; Chairman Ways and Means Committee, B. J. Greenhut; Chairman New York Welfare Committee, W. L. Saunders; Chairman Department Compensation for Industrial Accidents and their Prevention, August Belmont; Chairman Department on Prevention of Mining Accidents, John Hays Hammond; Chairman Department on Wage-Earners' Insurance, George W. Perkins; Chairman Committee Public Employés' Pensions, W. R. Willcox; Consulting Architect, Robert D. Kohn; Commissary Expert, Christoph D. Koehr; Medical Director, Alexander Lambert.

EXECUTIVE COUNCIL WOMAN'S WELFARE DEPARTMENT.

The Honorary Chairman, Mrs. William Howard Taft; Chairman, Mrs. John Hays Hammond, Washington, D. C.; First Vice-Chairman, Mrs. Alfred E. Bates, Washington, D. C.; Second Vice-Chairman, Mrs. Charles S. Hamlin, Boston, Mass.; Third Vice-Chairman, Mrs. George Huntington Williams, Baltimore, Md.; Fourth Vice-Chairman, Mrs. August Belmont, New York City; Fifth Vice-Chairman and Chairman Georgia and Florida Section, Mrs. John K. Otlely, Atlanta, Ga.; Sixth Vice-Chairman, Mrs. Eva MacDonald Valesh, New York City; Chairman New York and New Jersey Section, Mrs. Francis McNeill Bacon, Jr., New York City; Chairman District of Columbia Section, Mrs. Archibald Hopkins, Washington, D. C.; Chairman Virginia and West Virginia Section, Mrs. W. T. Harris, Danville, Va.; Chairman Massachusetts and Rhode Island Section, Mrs. George T. Rice, Boston, Mass.; Chairman for Rhode Island, Mrs. Bradford Norman, Newport, R. I.; Chairman Alabama and Mississippi Section, Mrs. Cyrus Pitman Orr, Birmingham, Ala.; Chairman North and South Carolina Section, Mrs. B. Frank Mebane, Spray, N. C.; Chairman for Florida, Miss Margaret Weed, Jacksonville, Fla.; Chairman National Congressional Section, Mrs. Samuel McCall, Winchester, Mass.; Chairman Industrial Employés Committee, Mrs. J. Borden Harriman, New York City; Chairman Government Employés Committee, Mrs. Herbert Wadsworth, Washington, D. C.; Chairman Vacation Bureau and Savings Fund Committee, Miss Gertrude Robinson-Smith, New York City; Secretary, Mrs. Robert S. Chew, Washington, D. C.; Treasurer, Miss Maude Wetmore, Washington, D. C.; Executive Secretary, Mrs. Flora E. Durno, Washington, D. C.

National Association of Manufacturers.

President, John Kirby, Jr.; Secretary, George S. Boudinot; Assistant Secretary, W. M. Benny; Treasurer, Alonzo B. See; General Manager, J. Philip BIRD, Headquarters, 30 Church Street, New York.

DECLARATION OF LABOR PRINCIPLES.

The National Association of Manufacturers of the United States of America does hereby declare that the following principles shall govern the association in its work in connection with the problems of labor:

1. Fair dealing is the fundamental and basic principle on which relations between employés and employers should rest.
2. The National Association of Manufacturers is not opposed to organizations of labor as such, but it is unalterably opposed to boycotts, blacklists and other illegal acts of interference with the personal liberty of employer or employé.
3. No person should be refused employment or in any way discriminated against on account of membership or non-membership in any labor organization, and there should be no discriminating against or interference with any employé who is not a member of a labor organization by members of such organizations.
4. With due regard to contracts, it is the right of the employé to leave his employment whenever he sees fit, and it is the right of the employer to discharge any employé when he sees fit.
5. Employers must be free to employ their work people at wages mutually satisfactory, without interference or dictation on the part of individuals or organizations not directly parties to such contracts.
6. Employers must be unmolested and unhampered in the management of their business in determining the amount and quality of their product, and in the use of any methods or systems of pay which are just and equitable.
7. In the interest of employés and employers of the country, no limitation should be placed upon the opportunities of any person to learn any trade to which he or she may be adapted.
8. The National Association of Manufacturers disapproves absolutely of strikes and lockouts, and favors an equitable adjustment of all differences between employers and employés by any amicable method that will preserve the rights of both parties.
9. Employés have the right to contract for their services in a collective capacity, but any contract that contains a stipulation that employment should be denied to men not parties to the contract is an invasion of the constitutional rights of the American workman, is against public policy, and is in violation of the conspiracy laws. This association declares its unalterable antagonism to the closed shop and insists that the doors of no industry be closed against American workmen because of their membership or non-membership in any labor organization.
10. The National Association of Manufacturers pledges itself to oppose any and all legislation not in accord with the foregoing declaration.

Permanent Court of Arbitration of The Hague,

PROVIDED FOR BY THE CONVENTION SIGNED AT THE
HAQUE JULY 29, 1899.

(The following list corrected to September 25, 1912.)

- Argentina**—His Excellency Mr. Estanislao S. Zeballos, LL. D., formerly Minister for Foreign Affairs and Worship.
Mr. Luis María Drago, LL. D., formerly Minister for Foreign Affairs and Worship.
His Excellency Mr. Carlos Rodríguez Larreta, LL. D., formerly Minister for Foreign Affairs and Worship.
Mr. Joaquín V. Gonzales, Senator, President of the National University of La Plata, formerly Minister of the Interior.
- Austria-Hungary**—Count Albert Apponyi, Privy Councillor, formerly Minister of Religion and Public Instruction in Hungary.
Mr. Henri Lammasch, LL. D., Aulic Councillor, Member of the House of Lords of the Austrian Parliament.
His Excellency Albert de Berzeviczy, Privy Councillor, formerly Minister of Religion and Public Instruction in Hungary.
Ernest de Plener, LL. D., Privy Councillor, President of the Supreme Court of Audit.
- Belgium**—His Excellency Mr. Beernaert, Minister of State.
Baron Descamps, Minister of State of Congo.
Mr. Ernest Nils, Councillor of the Court of Appeals of Brussels.
Mr. Arendt, Director-General of the Ministry of Foreign Affairs.
- Bolivia**—Mr. Severo Fernandez Alonso, LL. D., formerly President of Bolivia.
Mr. Claudio Pinilla, LL. D., Minister for Foreign Affairs.
His Excellency Gen. Ismael Montes, LL. D., formerly President of Bolivia, Envoy Extraordinary and Minister Plenipotentiary at London, Paris, and Brussels.
His Excellency Mr. Ignacio Calderon, Envoy Extraordinary and Minister Plenipotentiary to the United States; formerly Professor of Law in the University of La Paz; formerly Minister of Finance.
- Brazil**—His Excellency Mr. Lafayette Rodrigues Pereira, LL. D., formerly President of the late Imperial Council of Ministers.
His Excellency Mr. Ruy Barbosa, LL. D., Senator, formerly Ambassador.
Mr. Clovis Bevilacqua, Jurisconsulte of the Ministry for Foreign Affairs.
- Bulgaria**—Mr. Stoyan Daneff, LL. D., formerly President of the Council of Ministers and Minister for Foreign Affairs.
Mr. Dimitri Stancioff, LL. D., formerly Minister for Foreign Affairs, Minister at Paris and Brussels.
- Chile**—Mr. Carlos Concha, LL. D., formerly Minister of State.
Mr. Miguel Crucchaga, LL. D., formerly Minister of State.
Mr. Alejandro Alvarez, LL. D., formerly Legal Adviser to the Ministry for Foreign Affairs.
Mr. José Antonio Gaudarilla, formerly Minister of State.
- China**—His Excellency Wu Ting-fang, formerly Envoy Extraordinary and Minister Plenipotentiary to the United States of America, formerly Imperial Commissioner for the Revision of Laws.
His Excellency Hoo-Wel-Teh, formerly Minister at Tokio.
His Excellency Liou-She-Shun, Envoy Extraordinary and Minister Plenipotentiary at Paris.
His Excellency F. van den Heuvel, Belgian Minister of State, formerly Minister of Justice.
- Colombia**—Gen. Jorge Holguin, formerly Minister for Foreign Affairs, Financial Delegate in Europe.
General Marcellano Vargas, formerly Minister of the Interior.
Mr. J. Marcellino Hurtado, Minister the Quirinal.
Mr. Felipe Diaz Erazo, Councillor of Legation at Paris.
- Cuba**—Mr. Antonio Sanchez de Bustamante, LL. D., Senator, Professor of International, Public and Private Law at the University of Habana.
Mr. Gonzalo de Quesada, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington.
- Denmark**—Mr. Manuel Sanguily, Minister for Foreign Affairs, formerly Senator.
Mr. Juan B. Hernandez Barreiro, LL. D., President of the Supreme Tribunal of the Republic.
- Denmark**—Mr. J. H. Deuntzer, Privy Councillor, formerly Professor at the University of Copenhagen, Judge of the Supreme Court.
Mr. Axel Vedel, Chamberlain, formerly Director at Ministry of Foreign Affairs.
Mr. C. E. Cold, Councillor of Court of Appeals of Copenhagen.
Mr. P. J. Jorgensen, Professor at the University of Copenhagen.
- Dominican Republic**—Mr. Francisco Henriquez I. Carvajal, formerly Minister for Foreign Affairs.
Mr. Rafael J. Castillo, LL. D., Member of the Supreme Court of Justice.
Mr. Eliseo Grullon, formerly Minister for Foreign Affairs.
Mr. José Lamarché, LL. D., Senator.
- Ecuador**—Mr. Luis Felipe Carbo, Deputy Senator, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington.
Mr. Honorato Vasquez, LL. D., Deputy Senator, Under Secretary of State at the Department for Public Instruction and Foreign Affairs, Envoy Extraordinary and Minister Plenipotentiary at Lima and Madrid.
Mr. Victor Manuel Rendon, Envoy Extraordinary and Minister Plenipotentiary at Paris and Madrid.
- France**—Mr. Leon Bourgeois, LL. D., Senator, Minister of Labor.
Mr. A. Decrais, Senator, formerly Ambassador to Italy, to Austria-Hungary and to Great Britain, formerly Minister of the Colonies.
Baron D'Estournelles de Constant, Minister Plenipotentiary, Senator.
Mr. Louis Renault, Minister Plenipotentiary, Law Officer of the Department for Foreign Affairs.
- German Empire**—Mr. Krieger, LL. D., Councillor of Legation, Director of the Department for Foreign Affairs.
Mr. Von Martitz, LL. D., Privy Councillor, Professor at University of Berlin.
Mr. von Bar, LL. D., Judicial Privy Councillor, Professor at University of Göttingen.
Mr. de Staff, LL. D., President of the Superior Court of Marlenwerder.
- Great Britain**—The Right Hon. Sir Edward Fry, LL. D., formerly of the Court of Appeals, Member of the Privy Council.
The Right Hon. Sir E. Satow, formerly Envoy Extraordinary and Minister Plenipotentiary at Peking, Member of the Privy Council.

PERMANENT COURT OF ARBITRATION OF THE HAGUE—Continued.

The Hon. Sir Charles Fitzpatrick, Member of the Privy Council, Chief Justice of the Supreme Court of the Dominion of Canada.

The Earl de Desart, K. C. B., formerly Solicitor of the Treasury.

Greece—Mr. Denis Stephanos, Deputy, formerly Minister for Foreign Affairs.

Mr. Georges Streit, Professor of International Law at the University of Athens.

Mr. Michel Kebedji, formerly Judge of the Mixed Court of Appeals at Alexandria.

Mr. A. Typaldo Bassia, Professor of Political Economy University of Athens.

Guatemala—Mr. Francisco Angulano, LL. D., Vice-President of the National Assembly, President of the Council of State, formerly Minister for Foreign Affairs of the Interior and of Justice.

Mr. Antonio Batres Jauregui, Councillor of State, formerly President of the Judicial Power and of the Supreme Court of Justice, formerly Minister for Foreign Affairs and Public Instruction, formerly Envoy Extraordinary and Minister Plenipotentiary at Rio de Janeiro and at Washington.

Mr. Carlos Salazar, Substitute Dean of the Faculty of Law, Guatemalan Counsel at the Court of Justice of Central America, formerly Member of the Court of Appeals.

Mr. Francisco de Arce, LL. D., Charge d'Affaires at The Hague, Brussels, Paris, London and Rome.

Hayti—Mr. Jaques Nicolas Leger, Barrister, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington.

Mr. Solon Menos, Barrister, formerly Secretary of State for Finance, Commerce, Justice and Foreign Relations.

Mr. F. D. Legitime, Publicist, formerly President of Hayti.

Mr. Tertullien Guillaud, Barrister, formerly Member of the Constitutional Assembly, formerly Senator.

Italy—His Excellency Commander Jean Baptiste Pagano Guarnaschelli, LL. D., Senator of the Kingdom, First President of the Court of Cassation at Rome.

Mr. Guido Fusinato, Deputy Councillor of State, Professor of International Law.

Mr. Victor Emmanuel Orlando, Lawyer, University Professor, Member of Parliament, formerly Minister of Justice.

His Excellency Tommaso Tittoni, Senator, Ambassador at Paris.

Japan—Baron Ichiro Motono, LL. D., Envoy Extraordinary and Minister Plenipotentiary at St. Petersburg.

Mr. Henry Willard Denison, Law Officer of the Ministry for Foreign Affairs at Tokio.

Luxemburg—Mr. Henri Vannerus, President of the Council of State, formerly President of the Superior Court of Justice.

Mexico—Mr. José Yves Limantour, LL. D., formerly Minister of Finance and Public Credit.

Mr. Pablo Macedo, LL. D., formerly President of the Monetary Commission.

Mr. Joaquin Obregon Gonzalez, LL. D., Governor of Guanajuato.

Mr. Joaquin D. Casasus, LL. D., formerly Ambassador at Washington.

Montenegro—(No appointments have been made).

Netherlands—His Excellency T. M. C. Asser, LL. D., Minister of State, Member of the Council of State.

Mr. F. B. Conlck Liefstijf, LL. D., formerly President of the Court of Cassation.

His Excellency Mr. Jonkheer A. F. de Savornin Lohman, LL.D., formerly Minister of the Interior.

Mr. Jonkheer G. L. M. H. Ruys de Beerenbrouck, LL.D., formerly Minister of Justice.

Nicaragua—Mr. Desre Pector, Consul-General at Paris.

Norway—Mr. G. Gram, Provincial Governor, formerly Minister of State of Norway.

His Excellency Mr. George Francis Hagerup, LL. D., formerly Minister of State and President of the Council.

Mr. Sigurd Ibsen, LL. D., formerly Minister of State.

Mr. H. J. Horst, formerly President of the Lagthing.

Panama—His Excellency Dr. Belisario Porras, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington, formerly Envoy Extraordinary and Minister Plenipotentiary at San José, Costa Rica.

Mr. Faucundo Mutis Duran, LL. D., formerly Judge of the Superior Court of the former Department of Panama.

Persia—His Excellency Mirza Samad-Khan Momtazos-Saltaneh, Envoy Extraordinary and Minister Plenipotentiary at Paris.

His Excellency Mirza Hassan-Khan Muchir ul Devlet, formerly Envoy Extraordinary and Minister Plenipotentiary at St. Petersburg.

Peru—His Excellency Mr. Carlos G. Candamo, Envoy Extraordinary and Minister Plenipotentiary at Paris and London.

Dr. Ramon Ribeyro, Member of the Supreme Court of Justice, formerly Minister of State.

Dr. Luis F. Villarín, Rector of the University of San Marcos, Member of the Supreme Court of Justice, formerly Minister of State.

His Excellency Dr. Manuel Alvarez Calderon, Minister at Berne, formerly Envoy Extraordinary and Minister Plenipotentiary at Brussels.

Portugal—His Excellency Fernando Mattoso Santos, formerly Peer of the Realm, and Minister of Finances and Foreign Affairs.

His Excellency Mr. Francisco Antonio da Veiga Belrao, Councillor of State, formerly Minister for Foreign Affairs and of Justice.

His Excellency Mr. José Capello Franco Frazao, formerly President of the Chamber of Deputies.

His Excellency Mr. Arthur Pinto de Miranda Montenegro, LL. D., formerly Minister of Justice.

Roumania—Mr. Theodore G. Rosetti, formerly President of the Council of Ministers, formerly President of the High Court of Cassation and Justice.

Mr. Jean Kalinderu, LL. D., formerly President of the High Court of Cassation and Justice.

Mr. Jean N. Lahovary, Minister of Agriculture, of Industry, of Commerce and of Domain, formerly Envoy Extraordinary and Minister Plenipotentiary, formerly Minister for Foreign Affairs.

Mr. Constantin G. Dissescu, formerly Minister of Worship and Public Instruction.

Russia—Mr. A. Sabouloff, Secretary of State, Member and President of the First Department of the Council of the Empire, Senator, Privy Councillor.

Mr. Tagantzeff, Member of the Council of the Empire, Senator, Privy Councillor.

Baron Taube, Permanent Member of the Council of the Ministry for Foreign Affairs, Professor of International Law at the Imperial University of St. Petersburg, Councillor of State.

Count L. Kamarovsky, Professor of International Law at the Imperial University of Moscow, Councillor of State.

Salvador—Mr. Manuel Delgado, LL. D., formerly Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary, formerly Rector of the National University.

PERMANENT COURT OF ARBITRATION OF THE HAGUE—*Continued.*

- Mr. Salvador Gallegos, LL. D., formerly Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary.
- Mr. Salvador Rodriguez Gonzalez, LL. D., formerly Minister for Foreign Affairs, of Justice and Public Charities.
- Mr. Alonso Reyes Guerra, LL. D., Consul-General at Hamburg, Germany.
- Serbia**—Mr. George Pavlovitch, formerly Minister of Justice, President of the Court of Cassation, Professor of Law of the University of Belgrade.
- Dr. Milovan Milovanovitch, LL. D., Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary at Rome.
- Dr. Milenko R. Vesitch, LL. D., formerly Minister of Justice, Envoy Extraordinary and Minister Plenipotentiary at Paris.
- Siam**—Mr. Frederick W. Verney, Member of Parliament, formerly Counsellor of Legation at London.
- Mr. Corragioni d'Orelli, LL. D., Counsellor of Legation at Paris.
- Mr. Jens I. Westengard, General Adviser to the Siamese Government.
- Spain**—Mr. Rafael de Urena y Smenjaud, LL. D., Professor in the Faculte of Madrid.
- His Excellency Mr. Sigmund Moret y Prendergast, Deputy, formerly President of the Council of Ministers.
- His Excellency E. Dato, Deputy, formerly Minister of Justice.
- His Excellency R. M. de Labra, Senator, Barrister at the Court of Cassation.
- Sweden**—Mr. Knut Hjalmar Leonard de Hammarskjold, LL. D., formerly Minister of Justice, and Minister Plenipotentiary at Copenhagen.
- Mr. Johan Frederik Ivar Afzelius, LL. D., Member of the First Chamber of the Diet.
- Mr. Johannes Hellner, LL. D., formerly Minister, Member of the Supreme Court.
- Baron Carl Nils Daniel Bldt, D. Litt., Envoy Extraordinary and Minister Plenipotentiary to Italy.
- Switzerland**—His Excellency Mr. Charles Lardy, LL. D., Swiss Minister at Paris.
- Mr. Eugene Huber, LL. D., Professor at the University of Berne.
- Col. Leo Weber, LL. D., formerly Federal Judge, Colonel of the Military Justice, Auditor-in-Chief of the Swiss Army.
- Turkey**—His Highness Ibrahim H. Pasha, formerly Ambassador at Rome.
- His Excellency Yorghiadis Effendi, Senator.
- His Excellency Said Bey, formerly Vice-President of the Council of State.
- His Excellency Gabriel Effendi Nouradoughlian, Senator.
- United States**—Mr. John W. Griggs, formerly Attorney-General of the United States.
- Mr. George Gray, United States Circuit Judge, formerly United States Senator.
- Mr. Oscar S. Straus, formerly Secretary of Commerce and Labor, Ambassador Extraordinary and Plenipotentiary at Constantinople.
- Mr. Elihu Root, United States Senator, formerly Secretary of War.
- Uruguay**—Mr. Juan Pedro Castro, LL. D., formerly Envoy Extraordinary and Minister Plenipotentiary at Paris and Brussels.
- Mr. Juan Zorrilla de San Martin, LL. D., formerly Minister Plenipotentiary at Madrid, Lisbon and Paris.
- Mr. José Pedro Massera, LL. D., Member of the Chamber of Deputies.
- Venezuela**—Dr. Carlos Leon, LL. D., formerly Minister of Public Instruction, formerly Member of the Court of Cassation.
- Dr. Nicomedes Zuloaga, LL. D., formerly Member of the Court of Cassation.
- Dr. Francisco Arroyo Parejo, LL. D., formerly Procuror-General.
- Gen. Manuel Antonio Matos, formerly Senator, formerly Minister of Finance.
- Secretary-General**—Baron Michiels van Verduynen.
- First Secretary of the Court**—Jonkheer W. Roell.
- The Administrative Council**—The Administrative Council consists of the Minister for Foreign Affairs of the Netherlands and the diplomatic representatives at The Hague of the ratifying powers.

DECISIONS RENDERED BY THE PERMANENT COURT OF ARBITRATION AT THE HAGUE.

- October 14, 1902—In the matter of the case of the Plus Fund of the Californias between the United States and Mexico.
- February 22, 1904—Respecting the preferential claims of the creditor nations of Venezuela under the protocols of May 7, 1903.
- May 22, 1905—In the difference between France, Germany and Great Britain on the one hand, and Japan on the other, respecting leases held in perpetuity.
- May 22, 1909—In the matter of the Casablanca dispute between France and Germany.
- August 3, 1909—In the matter of the dispute between Great Britain and France, respecting the right of certain Muscat Dhows to fly the French flag.
- October 23, 1909—Respecting the maritime boundary between Norway and Sweden.
- September 7, 1910—In the North Atlantic Fisheries case between the United States and Great Britain.
- October 25, 1910—In the Orinoco steamship case between the United States and Venezuela.
- February 24, 1911—In the "Savarkar" case between Great Britain and France.

INTERNATIONAL TRIBUNALS OF EGYPT.

In 1876, as the result of negotiations between the Ottoman and Egyptian Governments and the various Christian powers having representatives at Cairo, certain courts were created in Egypt for the trial of civil and commercial causes arising between natives and foreigners of different nationality, as well as all questions of real estate between any person and suits of foreigners against the Egyptian Government and members of the Khedival family. These mixed tribunals, in civil matters within their exclusive jurisdiction, superseded the consular courts. A mixed tribunal consists of five judges, three of whom are foreigners and two natives. The foreign judges are appointed by the Khedive on the recommendation of the great powers, each of which is represented by from one to three judges. There are three tribunals of original jurisdiction (first instance), one each at Cairo, Alexandria, and Mansura, and a Court of Appeals at Alexandria. The United States is represented in these courts by the following judges:

- Court of Appeals.—Somerville P. Tuck, of New York (appointed 1908; appointed to Court of First Instance 1894).
- Court of First Instance.—William G. Van Horne, of Utah (appointed 1902); Pierre Crabités, of Louisiana (appointed 1911).

International Congress on Hygiene and Demography.

THE object of the congress is to extend the knowledge and improve the practice of hygiene, public health and vital statistics in the countries which participate. Naturally, these benefits accrue in largest measure to the country which is for the time being the host of the congress.

The work of the congress falls into two branches: First, an exhibition of the recent progress and the present condition of the public health movement in the co-operating countries; and secondly, a series of scientific meetings at which leading scholars of both hemispheres will report upon and discuss current questions of fundamental importance in the various fields. For the latter purpose the congress has been divided into nine sections as stated below. Each section holds daily meetings during the week of the congress and may propose resolutions regarding matters of practice or lines of desirable investigations. Such resolutions are referred without debate to the Permanent International Commission and come later before the closing session of the full congress.

American administrative work for public health is mainly in the hands of the State and city governments. The participation of these governments in the projected exhibition has been requested by Congress through the adoption of a joint resolution inviting the Governors of each of the States to appoint State Committees, of not less than five members each, to co-operate with the committee on organization. Arrangements of this part of the congress have been placed in charge of Dr. J. W. Scherschewsky, of the United States Public Health Service.

The official languages for papers and discussions are English, French and German, but probably a majority of the participants will speak in English. The cordial co-operation, both of American representatives of State and city health work and of private organizations and individuals is confidently anticipated.

Any person engaged in the study or practice of hygiene or demography may become a member of the congress, but the Committee of Organization reserves the right to withhold the privileges of membership in particular cases. The fee for membership is five dollars. Each member will receive a report of the transactions of the congress and of the protocol to be published after the adjournment of the congress.

The Permanent International Commission of the Congresses of Hygiene and Demography is made up of the representatives of twenty-one nations. The President is Dr. Max Rubner, Director of the Institute of Hygiene, Berlin, Germany; the Vice-President, Mr. S. N. D. North, late Director of the United States Census Bureau, and the Secretary-General, Dr. Johannes Nietner, of Berlin, Germany. The representatives of the United States on the Commission are, besides Mr. North, Dr. Rupert Blue, Surgeon-General of the Public Health Service; Dr. Hermann Biggs, of the New York City Dept. of Health, and Lieut.-Col. Walter D. McCaw, Surgeon-General's Library, Washington, D. C.

The Fourteenth International Congress was held at Berlin in 1907, and the Fifteenth at Washington, D. C., September, 1912. The decision as to the time and place of meeting of the Sixteenth Congress was left to the Permanent International Commission.

The United States Census.

THE Constitution requires that a census of the United States shall be taken decennially. The First Census was taken in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervision of the census was transferred to the newly organized Department of the Interior, and continued under the control of that department until the passage of the act of 1903, creating the Department of Commerce and Labor; by this act the Census Bureau was transferred to the new department. Congress, by act approved March 6, 1902, made the Census Bureau a permanent bureau of the Government.

The work of the Census Bureau is divided into two main branches, namely, the decennial census and special statistical inquiries, the latter mostly made in the intervals between the decennial censuses. The Thirteenth Decennial Census was taken as of date April 15, 1910. It covered the three main subjects—(1) population, (2) agriculture, and (3) manufactures, mines and quarries.

The results of this census are now being compiled and published, and have been used wherever available for the tables of the present ALMANAC. The aggregate cost of the census of 1910 when completed will be about \$13,500,000. Of this amount \$6,500,000 represents the cost of collecting the data through the employment of over 70,000 paid enumerators, besides supervisors, clerks, and special agents. The balance is the cost of tabulating and publishing the result. A more detailed account of the census of 1910 is given in the 1911 issue of THE WORLD ALMANAC.

The permanent work of the Census Bureau is provided for by the act of Congress approved March 6, 1902, and amendments thereto. These acts authorize and direct the Bureau to make statistical inquiries regarding the insane, feeble-minded, deaf and dumb, and blind; crime, pauperism and benevolence; deaths and births in the areas maintaining registration system; social and financial statistics of cities; wealth, debt and taxation; religious bodies; electric light and power, telephones and telegraphs, and street railways; transportation by water; cotton production and distribution; and production of forest products. The statistics of deaths (which now cover a little over half of the country) of cities, and of production of cotton and forest products, are secured annually; the other statistics mentioned are taken usually at intervals of five or ten years, not, however, at the same time as the regular decennial censuses. The act of 1902 also provides for a census of manufactures in the fifth year intervening between the decennial censuses, and the new Thirteenth Census act further provides for a census of agriculture in 1915, as well as in 1910.

The Director of the Census is appointed by the President of the United States and receives a salary of \$6,000 per annum. The present Director is E. Dana Durand, of California. The permanent office organization includes a chief clerk, William A. Hathaway; four chief statisticians; for Population, William C. Hunt; for Manufactures, William M. Stewart; for Finance and Municipal Statistics, Le Grand Powers; for Vital Statistics, Cressy L. Wilbur; a geographer, Charles S. Sloane, and eight chiefs of division. The entire number of employes in the Bureau at Washington is now about 775, including 175 temporary clerks employed in completing the work of the Thirteenth Census; in addition there are about 700 special agents employed intermittently in the Southern States for the collection of cotton statistics. The number of employes in Washington was greatly increased during the decennial census; on November 1, 1910, it was 3,565, in addition to field employes.

University Forum.

AN educational institution of travelling professorships of eminent men of action, and original investigators, whose lectures are based on personal experience and observation. The lectures are delivered before the leading universities, colleges and other educational bodies throughout North America, Europe and in other parts of the world.

The Forum acts as a standing committee, a bureau of information, a clearing-house, through which universities and colleges may promptly and readily secure national leaders to speak at first-hand and authoritatively concerning their particular line of life-work and activity.

President—Alexander Cumming, LL.B., A. M., Ph. D., 557 W. 124th Street, New York. Secretary—Almeron W. Smith, A. M. Treasurer—Henry Clews, Ph. D., LL. D.

The Panama Canal.

The present composition of the Isthmian Canal Commission is as follows:

Chairman and Chief Engineer, Col. George W. Goethals; Assistant Chief Engineer, Col. H. F. Hodges; Assistant to the Chief Engineer, Civil Engineer H. H. Rousseau, U. S. N.; Division Engineer, Central Division, Lieut.-Col. D. D. Gallard; Division Engineer, Atlantic Division, Lieut.-Col. William L. Sibert; Chief Sanitary Officer, Col. W. C. Gorgas; Head of the Department of Civil Administration, Maurice H. Thatcher. The members of the Commission receive salaries of \$14,000 per annum, except the Chairman, who receives \$15,000.

The Canal will have a summit elevation of 85 feet above the sea. It is to be about 50 miles in length from deep water in the Caribbean Sea to deep water in the Pacific Ocean. The distance from deep water to the shore line in Limon Bay is about $4\frac{1}{2}$ miles, and from the Pacific shore line to deep water is about 4 miles; hence the length of the Canal from shore to shore will be approximately $4\frac{1}{2}$ miles. The channel ranges in width from 300 to 1,000 feet. The average bottom width of the channel in this project is 649 feet, and the minimum width is 300 feet. The Canal will have a minimum depth of 41 feet. It is estimated that the time required for the passage of a ship of medium size through the entire length of the Canal would be from $9\frac{1}{2}$ to 10 hours, and for larger vessels from $10\frac{1}{2}$ to 11 hours.

The Gatun dam along the crest will be 8,000 feet long, including the spillway, or about $1\frac{1}{2}$ miles, and 2,100 feet wide at its greatest width. The crest of the dam will be at an elevation of 115 feet above sea level, or 30 feet above the normal level of Gatun Lake, and 100 feet wide. The width of the dam at the normal water level of the lake, *i. e.*, 85 feet above sea level, will be about 388 feet.

The amount of excavation completed up to September 15, 1912, was 218,000,000 cubic yards, leaving approximately 24,000,000 yards to be dug. The average rate of excavation per month is about 2,500,000 cubic yards. At this rate of progress all the digging should be finished before September 15, 1913. The big dam, locks and spillways projects show stages of completion, varying from 75 to 90 per cent. It is estimated that the Gatun locks will require about 2,000,000 cubic yards of concrete work. Up to September 15, 1912, over 19,000,000 cubic yards had been put in place. The concrete work of the Pedro Miguel locks is nearly 95 per cent. completed, and that of the Miraflores locks over 92 per cent. Other engineering features show an equally advanced stage toward completion.

The cost estimated by the present Commission for completing the Canal is \$325,201,000, which includes \$20,053,000 for sanitation and \$7,382,000 for civil administration.

These figures do not include the \$50,000,000 paid to the New French Canal Company and to the Republic of Panama for property and franchises. Hence, it is estimated that the total cost of the Canal to the United States will approximate \$375,000,000.

The date set for the official opening of the Panama Canal is January 1, 1915, but according to revised estimates made public September 19, 1912, at the Panama Canal Commission, October 15, 1913, is the tentative date set for the passage of the first vessel through the Canal. A naval vessel will probably be selected for the initial trip. Shipping interests will be advised as soon as the Commission feels assured that vessels can be passed without unnecessary delay.

In the month of April, 1912, there were approximately 45,000 employés on the Isthmus on the rolls of the Commission and of the Panama Railroad Company, about 5,000 of whom were Americans. There were actually at work on May 29, 1912, 35,063 men, 28,272 for the Commission and 6,791 for the Panama Railroad Company. Of the 28,272 men working for the Commission, 4,129 were on the gold roll, which comprises those paid in United States currency, and 24,143 men on the silver roll, which comprises those paid on the basis of Panamanian currency, or its equivalent. Those on the gold roll include mechanics, skilled artisans of all classes, clerks, and higher officials, most of whom are Americans; those on the silver roll include principally the common laborers, who are practically all foreigners. Of the 6,791 Panama Railroad employés, 820 were on the gold roll.

Receipts and expenditures—Appropriations to April 30, 1912.

Receipts and Expenditures—Appropriations by Congress, \$293,561,468; armament and fortifications (March 4, 1911), \$3,000,000; private acts for relief of individuals, \$5,460. Total credited by United States Treasury to April 30, 1912, \$296,566,928; miscellaneous, \$8,142,423; total receipts, \$304,709,351. Disbursements—Including classified expenditures, \$270,184,410; balance available April 30, 1912, \$34,524,940; total, \$304,709,350.

Distances from New York to San Francisco by water, present route, 13,400 miles; via Panama Canal, 5,300 miles. New York to Hawaii, present all-water route, 12,800 miles; by Canal, 7,000 miles. New York to Manila via Hawaii, now 17,800 miles; by Canal, 12,000 miles.

FORTIFICATION OF THE PANAMA CANAL.

CHAPTER 285 of the Statutes of the Sixty-first Congress, third session, "An act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1912, and for other purposes," approved March 4, 1911, contained the following appropriations for the fortification of the Isthmian Canal:

"For construction of sea-coast batteries on the Canal zone, two million dollars;

"For the purchase, manufacture and test of sea-coast cannon for coast defence, including their carriages, sights, implements, equipments and machinery necessary for the manufacture at the arsenals (to cost ultimately not to exceed one million, nine hundred and sixty-six thousand dollars), one million dollars, the same to be immediately available and to continue available until expended."

Public Law No. 302—An act making appropriations for Sundry Civil Expenses of the Government for the fiscal year ending June 30, 1913, and for other purposes, approved August 24, 1912, contained the following appropriations for the fortification of the Isthmian Canal.

For the following for fortifications and armament thereof for the Isthmian Canal, to be immediately available and to continue available until expended, namely:

Surveys—For detailed surveys of the areas on the Canal zone required for military purposes, including the cost of marking permanently the boundaries of such areas, \$50,000;

Causeway—For the construction of a causeway or bridge for use in connection with fortifications, Isthmian Canal, \$150,000;

Seacoast Batteries—For construction of seacoast batteries on the Canal zone, \$1,000,000, and any balances in the appropriation for the construction of seacoast batteries on the Canal zone made by the act of March 4, 1911.

Submarine Mine Structures—For the construction of mining casemates, cable galleries, torpedo storehouses, cable tanks and other structures necessary for the operation, preservation and care of submarine mines and their accessories on the Canal zone, \$220,200;

THE PANAMA CANAL—Continued.

Seacoast Batteries—For construction of seacoast batteries on the Canal zone, \$1,000,000, and any balances of the appropriation for the construction of seacoast batteries on the Canal zone made by the act of March 4, 1911.

Submarine Mine Structures—For the construction of mining casemates, cable galleries, torpedo storehouses, cable tanks and other structures necessary for the operation, preservation and care of submarine mines and their accessories on the Canal zone, \$220,200;

Field Fortifications and Camps—For the construction of field fortifications and the preparation of camp sites on the Canal zone, \$200,000;

Armament of Fortifications—For the purchase, manufacture and test of seacoast cannon for coast defence, including their carriages, sights, implements, equipments and the machinery necessary for the manufacture at the arsenals (to cost ultimately not to exceed \$2,324,000), \$500,000;

For the purchase, manufacture and test of ammunition for seacoast cannon, including the necessary experiments in connection therewith, and the machinery necessary for its manufacture at the arsenals, \$575,000;

Submarine Mines—For the purchase of submarine mines and the necessary appliances to operate them for closing the channels leading to the Isthmian Canal, \$111,750.

In all, specifically for fortifications and armament thereof for the Isthmian Canal, \$2,806,950.

DISTANCE PROJECTILES HAVE BEEN THROWN FROM WARSHIPS OR COAST-DEFENCE GUNS.

THE following table will show the range of guns on board warships at an elevation of 15 degrees, which is, on board ship, the highest projectile range:

Size of Gun.	Distance projectile will be thrown.	Size of Gun.	Distance projectile will be thrown.
3 inch	4.80 miles	7 inch	7.70 miles
4 inch	6.00 miles	8 inch	10.00 miles
5 inch	6.25 miles	10 inch	10.80 miles
6 inch	6.80 miles	12 inch	12.00 miles

All these guns have been fired, and, in a number of instances, the projectile has gone slightly further than indicated above.

The 16-inch gun at Sandy Hook, which is the largest and, in fact, the only gun of this character in the Army, has a muzzle velocity of 2,150 feet per second. Computations indicate that, under the most favorable conditions as to elevation, it would throw a projectile weighing 2,400 pounds a distance of about 21 miles.

The 12-inch rifle of the Army has a muzzle velocity of 2,250 feet per second, and will throw a projectile weighing 1,046 pounds about 8.5 miles at the extreme elevation permitted by the carriage.

The Panama Canal Act of 1912.

PROVISION FOR THE PERMANENT GOVERNMENT OF THE CANAL ZONE AND EXEMPTION OF COASTWISE VESSELS FROM TOLLS.

THE Sixty-second Congress, Second Session, passed "An act to provide for the opening, maintenance, protection and operation of the Panama Canal and for the sanitation and government of the Canal zone," which was approved August 24, 1912, and is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the zone of land and land under water of the width of ten miles extending to the distance of five miles on each side of the centre line of the route of the canal now being constructed thereon, which zone begins in the Caribbean Sea three marine miles from mean low-water mark and extends to and across the Isthmus of Panama into the Pacific Ocean to the distance of three marine miles from mean low-water mark, excluding therefrom the cities of Panama and Colon and their adjacent harbors located within said zone, as excepted in the treaty with the Republic of Panama dated November 18, 1903, but including all islands within said described zone, and in addition thereto the group of islands in the Bay of Panama named Perico, Naos, Culebra and Flamenco, and any lands and waters outside of said limits above described which are necessary or convenient or from time to time may become necessary or convenient for the construction, maintenance, operation, sanitation, or protection of the said canal or of any auxiliary canals, lakes, or other works necessary or convenient for the construction, maintenance, operation, sanitation, or protection of said canal, the use, occupancy, or control whereof were granted to the United States by the treaty between the United States and the Republic of Panama, the ratifications of which were exchanged February 26, 1904, shall be known and designated as the Canal zone, and the canal now being constructed thereon shall hereafter be known and designated as the Panama Canal. The President is authorized, by treaty with the Republic of Panama, to acquire any additional land or land under water not already granted, or which was excepted from the grant, that he may deem necessary for the operation, maintenance, sanitation, or protection of the Panama Canal, and to exchange any land or land under water not deemed necessary for such purposes for other land or land under water not so acquired shall become part of the Canal zone.

Sec. 2. That all laws, orders, regulations, and ordinances adopted and promulgated in the Canal zone by order of the President for the government and sanitation of the Canal zone and the construction of the Panama Canal are hereby ratified and confirmed as valid and binding until Congress shall otherwise provide. The existing courts established in the Canal zone by Executive order are recognized and confirmed to continue in operation until the courts provided for in this act shall be established.

Sec. 3. That the President is authorized to declare by Executive order that all land and land under water within the limits of the Canal zone is necessary for the construction, maintenance, operation, sanitation, or protection of the Panama Canal, and to extinguish, by agreement when advisable, all claims and titles of adverse claimants and occupants. Upon failure to secure by agreement title to any such parcel of land or land under water the adverse claim or occupancy shall be disposed of and title thereto secured in the United States and compensation therefor fixed and paid in the manner provided in the aforesaid treaty with the Republic of Panama, or such modification of such treaty as may hereafter be made.

A PERMANENT GOVERNMENT FOR THE CANAL ZONE.

Sec. 4. That when in the judgment of the President the construction of the Panama Canal shall be sufficiently advanced toward completion to render the further services of the Isthmian Canal Commission unnecessary the President is authorized by Executive order to discontinue the Isthmian Canal Commission, which, together with the present organization, shall then cease to exist; and the President is authorized thereafter to complete, govern, and operate the Panama Canal and govern the Canal zone, or cause them to be completed, governed and operated, through a Governor

THE PANAMA CANAL ACT OF 1912—Continued.

of the Panama Canal and such other persons as he may deem competent to discharge the various duties connected with the completion, care, maintenance, sanitation, operation, government, and protection of the canal and Canal zone. If any of the persons appointed or employed as aforesaid shall be persons in the military or naval service of the United States, the amount of the official salary paid to any such person shall be deducted from the amount of salary or compensation provided by or which shall be fixed under the terms of this act. The Governor of the Panama Canal shall be appointed by the President, by and with the advice and consent of the Senate, commissioned for a term of four years, and until his successor shall be appointed and qualified. He shall receive a salary of ten thousand dollars a year. All other persons necessary for the completion, care, management, maintenance, sanitation, government, operation, and protection of the Panama Canal and Canal zone shall be appointed by the President, or by his authority, removable at his pleasure, and the compensation of such persons shall be fixed by the President, or by his authority, until such time as Congress may by law regulate the same, but salaries or compensation fixed hereunder by the President shall in no instance exceed by more than twenty-five per centum the salary or compensation paid for the same or similar services to persons employed by the Government in Continental United States. That upon the completion of the Panama Canal the President shall cause the same to be officially and formally opened for use and operation.

Before the completion of the canal, the Commission of Arts may make report to the President of their recommendation regarding the artistic character of the structures of the canal, such report to be transmitted to Congress.

NO TOLLS ON AMERICAN COASTWISE VESSELS.

Sec. 5. That the President is hereby authorized to prescribe and from time to time change the tolls that shall be levied by the Government of the United States for the use of the Panama Canal: Provided, That no tolls, when prescribed as above, shall be changed, unless six months' notice thereof shall have been given by the President by proclamation. No tolls shall be levied upon vessels engaged in the coastwise trade of the United States. That section forty-one hundred and thirty-two of the Revised Statutes is hereby amended to read as follows:

"Sec. 4132. Vessels built within the United States and belonging wholly to citizens thereof; and vessels which may be captured in war by citizens of the United States and lawfully condemned as prize, or which may be adjudged to be forfeited for a breach of the laws of the United States; and seagoing vessels, whether steam or sail, which have been certified by the Steamboat Inspection Service as safe to carry dry and perishable cargo, not more than five years old at the time they apply for registry, wherever built, which are to engage only in trade with foreign countries or with the Philippine Islands and the Islands of Guam and Tutuila, being wholly owned by citizens of the United States or corporations organized and chartered under the laws of the United States or of any State thereof, the President and managing directors of which shall be citizens of the United States or corporations organized and chartered under the laws of the United States or of any State thereof, the President and managing directors of which shall be citizens of the United States, and no others, may be registered as directed in this title. Foreign-built vessels registered pursuant to this act shall not engage in the coastwise trade: Provided, That a foreign-built yacht, pleasure boat, or vessel not used or intended to be used for trade admitted to American registry pursuant to this section shall not be exempt from the collection of ad valorem duty provided in section thirty-seven of the act approved August 5, 1909, entitled 'An act to provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes.' That all materials of foreign production which may be necessary for the construction or repair of vessels built in the United States and all such materials necessary for the building or repair of their machinery and all articles necessary for their outfit and equipment may be imported into the United States free of duty under such regulations as the Secretary of the Treasury may prescribe: Provided further, That such vessels so admitted under the provisions of this section may contract with the Postmaster-General under the act of March 3, 1891, entitled 'An act to provide for ocean mail service between the United States and foreign ports, and to promote commerce,' so long as such vessels shall in all respects comply with the provisions and requirements of said act."

Tolls may be based upon gross or net registered tonnage, displacement tonnage, or otherwise, and may be based on one form of tonnage for warships and another for ships of commerce. The rate of tolls may be levied upon vessels in ballast than upon vessels carrying passengers or cargo. When based upon net registered tonnage for ships of commerce the tolls shall not exceed one dollar and twenty-five cents per net registered ton, nor be less, other than for vessels of the United States and its citizens, than the estimated proportionate cost of the actual maintenance and operation of the canal, subject, however, to the provisions of article nineteen of the convention between the United States and the Republic of Panama, entered into November 18, 1903. If the tolls shall not be based upon net registered tonnage, they shall not exceed the equivalent of one dollar and twenty-five cents per net registered ton as nearly as the same may be determined, nor be less than the equivalent of seventy-five cents per net registered ton. The toll for each passenger shall not be more than one dollar and fifty cents. The President is authorized to make and from time to time amend regulations governing the operation of the Panama Canal, and the passage and control of vessels through the same or any part thereof, including the locks and approaches thereto, and all rules and regulations affecting pilots and pilotage in the canal or the approaches thereto through the adjacent waters.

Such regulations shall provide for prompt adjustment by agreement and immediate payment of claims for damages which may arise from injury to vessels, cargo, or passengers from the passing of vessels through the locks under the control of those operating them under such rules and regulations. In case of disagreement suit may be brought in the district court of the Canal zone against the Governor of the Panama Canal. The hearing and disposition of such cases shall be expedited and the judgment shall be immediately paid out of any moneys appropriated or allotted for canal operation.

The remainder of the section provides for the method of adjusting all claims arising out of injuries to employes.

Section 6 provides for radio-communication at suitable places along the Panama Canal and adjacent coasts and for the establishment and maintenance of dry docks, repair shops, warehouses, etc., for the use of the vessels using the canal.

DUTIES OF THE GOVERNOR OF THE PANAMA CANAL.

Sec. 7. That the Governor of the Panama Canal shall, in connection with the operation of such canal, have official control and jurisdiction over the Canal zone and shall perform all duties in connection with the civil government of the Canal zone, which is to be held, treated and governed as an adjunct of such Panama Canal. Unless in this act otherwise provided, all existing laws of the Canal zone referring to the civil Governor or the civil administration of the Canal zone shall be applicable to the Governor of the Panama Canal, who shall perform all such executive and adminis-

trative duties required by existing law. The President is authorized to determine or cause to be determined what towns shall exist in the Canal zone and subdivide and from time to time resubdivide said Canal zone into subdivisions, to be designated by name or number, so that there shall be situated one town in each subdivision, and the boundaries of each subdivision shall be clearly defined. In each town there shall be a magistrate's court with exclusive original jurisdiction co-extensive with the subdivision in which it is situated of all civil cases in which the principal sum claimed does not exceed three hundred dollars, and all criminal cases wherein the punishment that may be imposed shall not exceed a fine of one hundred dollars, or imprisonment not exceeding thirty days, or both, and all violations of police regulations and ordinances and all actions involving possession or title to personal property or the forcible entry and detainer of real estate. Such magistrates shall also hold preliminary investigations in charges of felony and offences under section ten of this act, and commit or ball in bailable cases to the district court. A sufficient number of magistrates and constables, who must be citizens of the United States, to conduct the business of such courts, shall be appointed by the Governor of the Panama Canal for terms of four years and until their successors are appointed and qualified, and the compensation of such persons shall be fixed by the President, or by his authority, until such time as Congress may by law regulate the same. The rules governing said courts and prescribing the duties of said magistrates and constables, oaths and bonds, the times and places of holding such courts, the disposition of fines, costs, forfeitures, enforcements of judgments, providing for appeals therefrom to the district court, and the disposition treatment, and pardon of convicts shall be established by order of the President. The Governor of the Panama Canal shall appoint all notaries public, prescribe their powers and duties, their official seal, and the fees to be charged and collected by them.

Sections 8, 9 and 10 provide for a judiciary for the Canal zone, and prescribe its duties, and Section 11 provides for jurisdiction by the Interstate Commerce Commission in matters of competition by common carriers through the canals involving disputes as to facts. The remaining sections of the act are as follows:

EXTRADITION.

Sec. 12. That all laws and treaties relating to the extradition of persons accused of crime in force in the United States, to the extent that they may not be in conflict with or superseded by any special treaty entered into between the United States and the Republic of Panama with respect to the Canal zone, and all laws relating to the rendition of fugitives from justice as between the several States and Territories of the United States, shall extend to and be considered in force in the Canal zone, and for such purposes and such purposes only the Canal zone shall be considered and treated as an organized Territory of the United States.

THE CANAL IN TIME OF WAR.

Sec. 13. That in time of war in which the United States shall be engaged, or when, in the opinion of the President, war is imminent, such officer of the army as the President may designate shall, upon the order of the President, assume and have exclusive authority and jurisdiction over the operation of the Panama Canal and all of its adjuncts, appendants, and appurtenances, including the entire control and government of the Canal zone, and during a continuance of such condition the Governor of the Panama Canal shall, in all respects and particulars as to the operation of such Panama Canal, and all duties, matters, and transactions affecting the Canal zone, be subject to the order and direction of such officer of the army.

Sec. 14. That this act shall be known as, and referred to as, the Panama Canal act, and the right to alter, amend, or repeal any or all of its provisions or to extend, modify, or annul any rule or regulation made under its authority is expressly reserved.

Hay-Pauncefote Treaty

BETWEEN THE UNITED STATES AND GREAT BRITAIN

TO FACILITATE THE CONSTRUCTION OF A SHIP CANAL.

Signed at Washington, November 18, 1901.	Ratified by Great Britain, January 20, 1902.
Ratification advised by the Senate, December 16, 1901.	Ratifications exchanged at Washington, February 21, 1902.
Ratified by the President, December 26, 1901.	Proclaimed, February 22, 1902.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas, a Convention between the United States of America and the United Kingdom of Great Britain and Ireland, to facilitate the construction of a ship canal to connect the Atlantic and Pacific Oceans, by whatever route may be considered expedient, and to that end to remove any objection which may arise out of the Convention of the 19th April, 1850, commonly called the Clayton-Bulwer treaty, to the construction of such canal under the auspices of the Government of the United States, without impairing the "general principle" of neutralization established in Article VIII. of that Convention, was concluded and signed by their respective plenipotentiaries at the city of Washington on the 18th day of November, 1901, the original of which Convention is word for word as follows:

The United States of America and His Majesty Edward the Seventh, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, and Emperor of India, being desirous to facilitate the construction of a ship canal to connect the Atlantic and Pacific Oceans, by whatever route may be considered expedient, and to that end to remove any objection which may arise out of the Convention of the 19th April, 1850, commonly called the Clayton-Bulwer Treaty, to the construction of such canal under the auspices of the Government of the United States, without impairing the "general principle" of neutralization established in Article VIII. of that Convention, have for that purpose appointed as their Plenipotentiaries:

The President of the United States, John Hay, Secretary of State of the United States of America;

And His Majesty Edward the Seventh, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, and Emperor of India, the Right Honourable Lord Pauncefote, G. C. B., G. C. M. G., His Majesty's Ambassador Extraordinary and Plenipotentiary to the United States;

Who, having communicated to each other their full powers which were found to be in due and proper form, have agreed upon the following Articles:

ARTICLE I.—The High Contracting Parties agree that the present Treaty shall supersede the afore-mentioned Convention of the 19th April, 1850.

HAY-PAUNCEFOTE TREATY—Continued.

ARTICLE II.—It is agreed that the canal may be constructed under the auspices of the Government of the United States, either directly at its own cost, or by gift or loan of money to individuals or Corporations, or through subscription to or purchase of stock or shares, and that, subject to the provisions of the present Treaty, the said Government shall have and enjoy all the rights incident to such construction, as well as the exclusive right of providing for the regulation and management of the canal.

ARTICLE III.—The United States adopts, as the basis of the neutralization of such ship canal, the following Rules, substantially as embodied in the Convention of Constantinople, signed the 28th October, 1858, for the free navigation of the Suez Canal, that is to say:

1. The canal shall be free and open to the vessels of commerce and of war of all nations observing these Rules, on terms of entire equality, so that there shall be no discrimination against any such nation, or its citizens or subjects, in respect of the conditions or charges of traffic, or otherwise. Such conditions and charges of traffic shall be just and equitable.

2. The canal shall never be blockaded, nor shall any right of war be exercised nor any act of hostility be committed within it. The United States, however, shall be at liberty to maintain such military police along the canal as may be necessary to protect it against lawlessness and disorder.

3. Vessels of war of a belligerent shall not revictual nor take any stores in the canal except so far as may be strictly necessary; and the transit of such vessels through the canal shall be effected with the least possible delay in accordance with the Regulations in force, and with only such intermission as may result from the necessities of the service.

Prizes shall be in all respects subject to the same Rules as vessels of war of the belligerents. 4. No belligerent shall embark or disembark troops, munitions of war, or warlike material, in the canal, except in case of accidental hindrance of the transit, and in such case the transit shall be resumed with all possible dispatch.

5. The provisions of this Article shall apply to waters adjacent to the canal, within 3 marine miles of either end. Vessels of war of a belligerent shall not remain in such waters longer than twenty-four hours at any one time, except in case of distress, and in such case, shall depart as soon as possible; but a vessel of war of one belligerent shall not depart within twenty-four hours from the departure of a vessel of war of the other belligerent.

6. The plant, establishments, buildings, and all works necessary to the construction, maintenance and operation of the canal shall be deemed to be part thereof, for the purpose of this Treaty, and in time of war, as in time of peace, shall enjoy complete immunity from attack or injury by belligerents, and from acts calculated to impair their usefulness as part of the canal.

ARTICLE IV.—It is agreed that no change of territorial sovereignty or of the international relations of the country or countries transversed by the before-mentioned canal shall affect the general principle of neutralization or the obligation of the High Contracting Parties under the present Treaty.

ARTICLE V.—The present Treaty shall be ratified by the President of the United States, by and with the advice and consent of the Senate thereof, and by His Britannic Majesty; and the ratifications shall be exchanged at Washington or at London at the earliest possible time within six months from the date hereof.

In faith whereof the respective Plenipotentiaries have signed this Treaty and thereunto affixed their seals.

Done in duplicate at Washington, the 18th day of November, in the year of Our Lord one thousand nine hundred and one.

JOHN HAY [SEAL.]
PAUNCEFOTE [SEAL.]

And Whereas the said Convention has been duly ratified on both parts, and the ratification of the two Governments were exchanged in the city of Washington on the twenty-first day of February, one thousand nine hundred and two;

Now, therefore, be it known that I, Theodore Roosevelt, President of the United States of America, have caused the said Convention to be made public, to the end that the same and every article and clause thereof may be observed and fulfilled with good faith by the United States and the citizens thereof.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this twenty-second day of February, in the year of Our Lord one thousand nine hundred and two, and of the Independence of the United States the one hundred and twenty-sixth.

[SEAL.]
By the President:

JOHN HAY
Secretary of State.

THEODORE ROOSEVELT.

America's Twenty Best Customers.

(From American Consular Report.)

THE following table is arranged to show the twenty heaviest buyers of American goods, as indicated by the value of exports from the United States during the fiscal years 1909-10 and 1910-11:

1909-10.		1909-10.		1910-11.	
To	Value.	To	Value.	To	Value.
1 England	\$458,142,520	16 Spain	\$18,899,125	7 Cuba	\$60,709,062
2 Germany	246,786,846	17 Russia	16,789,930	8 Italy	60,580,766
3 Canada	202,548,023	18 China	16,252,071	9 Belgium	45,016,622
4 France	114,665,589	19 Austria	14,962,731	10 Argentina	43,918,511
5 Netherlands	84,393,539	20 Denmark	13,644,903	11 Australasia	37,524,586
6 Mexico	57,345,549			12 Japan	36,721,409
7 Italy	53,048,326	1910-11.		13 Scotland	27,373,595
8 Cuba	51,794,848	To	Value.	14 Brazil	27,240,346
9 Argentina	40,364,342			15 Spain	25,064,916

14 Japan	21,761,347	5 Netherlands	96,103,376	20 Denmark	13,196,950
15 Panama	20,489,507	6 Mexico	61,281,715		

Territorial Expansion of the United States.

THERE have been thirteen additions to the original territory of the Union, including Alaska, the Hawaiian, Philippine, and Samoan Islands and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal zone. The area of the original thirteen States (years 1783-1817) comprised 894,407 square miles.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table:

ADDITIONS TO THE TERRITORY OF THE UNITED STATES FROM 1800 TO 1900.

TERRITORIAL DIVISION.	Year	Area Added, S. Miles.	TERRITORIAL DIVISION.	Year	Area Added, S. Miles.	TERRITORIAL DIVISION.	Year	Area Added, S. Miles.
Louisiana purchase..	1803	824,607	Purchase from Texas	Samoan Islands	1899	77
Gained through treaty with Spain	1819	12,732	Gadsden purchase..	1853	30,022	Add'l Philippines	1901	68
Florida.....	1819	58,666	Alaska.....	1867	590,884	Panama Canal Strip..	1904	474
Texas.....	1845	389,332	Hawaiian Islands..	1898	6,449	Total.....	..	2848,937
Oregon Territory..	1846	257,430	Porto Rico.....	1898	3,435	Total United States including original 13 States, 8,743,344		
Mexican cession	1848	529,543	Guam.....	1398	210			
			Philippine Islands..	1898	114,958			

Payments for above were made by the United States as follows: Louisiana purchase, \$15,000,000; Gadsden purchase, \$10,000,000; Alaska, \$7,200,000.

The treaty of February 2, 1848, provided for a payment of \$15,000,000 to Mexico in consideration of the extension acquired by the boundaries of the United States, as defined in that treaty.

The treaty of Paris, of December 10, 1898, terminating the Spanish-American war, provided for a money payment to Spain of \$20,000,000, and a subsequent treaty of November 7, 1900, provided for a further payment of \$100,000.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

A payment of \$10,000,000 was made to the Republic of Panama under treaty stipulations governing the control of the Panama Canal strip.

No money payments were made upon the acquisition of the other territories mentioned in the list.

ACQUISITION OF THE PANAMA CANAL ZONE IN 1904.

Article 2 of the treaty between the United States and the Republic of Panama, ratified by the United States Senate February 23, 1904, treaty in effect February 26, 1904, provided for the cession, in perpetuity, by Panama, of a strip of territory adjacent to the canal, as follows:

"The Republic of Panama grants to the United States in perpetuity the use, occupation, and control of the zone of land and land under water for the construction, maintenance, operation, sanitation, and protection of said canal of the width of ten miles, extending to the distance of five miles on each side of the centre line of the route of the canal to be constructed; the said zone beginning in the Caribbean Sea, three marine miles from mean low-water mark, and extending to and across the Isthmus of Panama into the Pacific Ocean to a distance of three marine miles from mean low-water mark, with the proviso that the cities of Panama and Colon and the harbors adjacent to said cities, which are included within the boundaries of the zone above described, shall not be included within this grant. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of any other lands and waters outside of the zone above described which may be necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said canal or of any auxiliary canals or other work necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said enterprise. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of all islands within the limits of the zone above described, and in addition thereto the group of small islands in the Bay of Panama named Perico, Nacs, Culebra, and Flamingo."

The American Peace and Arbitration League.

THE corporate purposes of the organization favor universal peace by conciliation and arbitration, through a permanent international court, arbitration treaties between all nations, and adequate armament for national security. *Honorary Presidents*—William H. Taft, Theodore Roosevelt and Andrew Carnegie. *President*—Henry Clews. *Treasurer*—J. Van Vechten Olcott. *General Secretary*—Andrew B. Humphrey. Headquarters, 31 Nassau Street, New York City.

American Society of International Law.

Honorary President—William H. Taft. *President*—Elihu Root. *Vice-Presidents*—Chief Justice White, Justice William R. Day, P. C. Knox, Andrew Carnegie, Joseph H. Choate, John W. Foster, George Gray, John W. Griggs, William W. Morrow, Richard Olney, Horace Porter, Oscar S. Straus, Shelby M. Cullom, Jacob M. Dickinson, James B. Angell. *Recording Secretary*—James Brown Scott. *Corresponding Secretary*—Charles Henry Butler. *Treasurer*—Chandler P. Anderson. Headquarters, Washington, D. C.

Publicity of Political Contributions.

THE Sixty-second Congress of the United States, Second Session, passed the following act.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That paragraph ten of section eight of an act entitled "An act providing for publicity of contributions made for the purpose of influencing elections at which Representatives in Congress are elected," approved June 25, 1910, as amended by section two of an act entitled "An act to amend an act entitled 'An act providing for publicity of contributions made for the purpose of influencing elections at which Representatives in Congress are elected,' and extending the same to candidates for nomination and election to the offices of Representative and Senator in the Congress of the United States and limiting the amount of campaign expenses," approved August 19, 1911, be, and the same is hereby, amended so as to read as follows:

"Every statement herein required shall be verified by the oath or affirmation of the candidate, taken before an officer authorized to administer oaths; and the depositing of any such statement in a regular post-office, directed to the Clerk of the House of Representatives, or to the Secretary of the Senate, as the case may be, duly stamped and registered, within the time required herein, shall be deemed a sufficient filing of any such statement under any of the provisions of this act."

Approved August 23, 1912.

Insular Possessions of the United States.

THE PHILIPPINES.

The Philippine group, lying off the southern coast of Asia, extending almost due north and south from Formosa to Borneo and the Moluccas, between longitude $116^{\circ} 40'$ and $126^{\circ} 34'$, and latitude $4^{\circ} 40'$ and $21^{\circ} 10'$ approximately number about 3,141 islands and islets, of which 1,668 are listed by name, while 1,473 are, so far as known, without names. The actual land area is about 115,026 square miles. The six New England States, New York, and New Jersey have about an equal area. The island of Luzon, on which the capital city (Manila) is situated, is the largest, most populous, and wealthiest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. There are two islands with areas exceeding 10,000 square miles each, namely, Luzon with 40,969, and Mindanao with 36,292. There are nine islands each of which has an area of more than 1,000 square miles and less than 10,000. There are twenty between 100 and 1,000 square miles, seventy-three between 10 and 100 square miles, and two hundred and sixty-two between 1 and 10 square miles. The remaining number, 2,775, or seven-eighths of all, have areas less than a square mile each. The areas of the largest islands are: Luzon, 40,969; Mindanao, 36,292; Samar, 5,031; Panay, 4,611; Mindoro, 3,851; Leyte, 2,722; Negros, 4,881; Cebu, 1,762.

The islands with large populations are: Luzon, with 3,798,507 inhabitants, of whom 223,506 are uncivilized; Panay, 743,646 (14,933 uncivilized); Cebu, 592,247 (all civilized); Mindanao, 499,634 (252,940 uncivilized); Negros, 460,776 (21,217 uncivilized); Leyte, 357,641 (all civilized); Bohol, 243,148 (all civilized); Samar, 222,690 (688 uncivilized). The capital of the Archipelago is Manila, with 234,409 inhabitants. Other towns are: In Luzon, Baguio (39,094), Lipa (37,934), Iloilo (34,454), Batangas (33,131), San Carlos (27,166), Tabaco (21,946); in Samar, Calbayog (15,895); in Panay, Janiuay (20,738), Mlagao (20,656), Iloilo (19,054); in Cebu, Argao (35,448), Cebu (31,079), Barili (31,617), Carcar (31,895), Sibonga (25,848); in Leyte, Baybay (22,990), Ormoc (16,128).

A census of the Philippines was taken by the United States Government in 1903 under the auspices of the Census Office. The population returned was 7,835,426. Of this number almost seven millions are more or less civilized. The wild tribes form about 9 per cent. of the entire population. Racially the inhabitants are principally Malays. The civilized tribes are practically all adherents of the Catholic Church, the religion being that introduced into the country by the Spaniards when they took possession of the islands in 1565. The Church has since then been a strong ruling power and the priesthood is numerous. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The total number of non-Christian peoples is 647,740.

The density of population in the Philippines is 67 per square mile. In Continental United States it is 26 per square mile. Foreigners number about 50,000, of whom nearly three-fourths are Chinese. Exclusive of the army there are 8,135 Americans in the islands, nearly one-half being located in the city of Manila. There are about twenty-five different tribes in the islands, speaking fifteen or sixteen distinct dialects, the largest tribe being the Visayans, who form nearly one-fourth of the entire civilized population (3,219,030). The Tagalogs, occupying the provinces in the vicinity of Manila (1,460,695) rank second in numbers, and the Ilocanos (803,942) the third. Education has been practically reorganized by the Americans. The total annual enrollment is 615,795. Nine thousand and eighty-six teachers are employed, of whom 683 are Americans and 8,403 Filipinos. English is very generally taught, and the next generation of Filipinos will probably speak that tongue. Pauperism is almost unknown in the islands. In 1902 there were only 1,668 paupers maintained at public charge. Vital statistics are as yet restricted to Manila. The death rate in the city of Manila is 33.22 per thousand. The birth rate is 39.16 per thousand. In 1908 there were 61 newspapers published in the islands, 18 being in English, 17 in Spanish, 16 in native dialects, 2 in Chinese, 4 in Spanish and native languages, and 4 in Spanish and English. The estimated real estate property value in 1903 was 469,527,055 pesos, and the personal property 152,718,661 pesos. The reported value of church buildings, mostly Catholic, is 41,698,710 pesos.

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in $14^{\circ} 35'$. The thermometer during July and August rarely goes below 79° or above 85° . The extreme ranges in a year are said to be 61° and 97° , and the annual mean 81° .

AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support population equal to that of Japan (42,000,000).

The chief products are hemp, rice, corn, sugar, tobacco, coconuts, and cacao, hemp being the most important commercial product and constituting two-thirds of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in many of the islands, especially Luzon and Negros.

IMPORTS AND EXPORTS.

In the year ending June 30, 1912, the exports of merchandise from the United States to the Philippines were \$23,703,935, and the total imports from the Philippines for the same period were \$23,257,199.

The imports of merchandise from foreign countries, year ending June 30, 1912, were \$33,945,825, and the exports were \$28,802,059. The principal foreign countries trading with the Philippines are Great Britain, French East Indies, China, and Spain.

CIVIL GOVERNMENT OF THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago, except that portion inhabited by Moros, comprising part of Mindanao and the Sulu Islands, and the office of Military Governor was terminated. Wm. H. Taft was appointed Governor by the President. Governor Taft was succeeded by Luke E. Wright in Dec., 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, and W. Cameron Forbes, the present Governor, in 1909. The government was composed of a civil Governor and seven commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1908, the Commission was increased by one member, to be appointed by the President, making the Commission nine members in all, including the Governor-General.

INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

who is President of the Philippine Commission. There are four executive departments—Interior, Finance, and Justice, Commerce and Police, and Public Instruction. There are thirty-eight provinces, each with a Governor, a Treasurer, and prosecuting attorney (provincial fiscal). Local governments have been established in about 650 towns. The officials consist of a President, Vice-President, and Councilmen (the latter varying in number according to the population) and are elected by the qualified voters of the municipality and serve for four years. The Judiciary consists of a Supreme Court, with seven Judges; Courts of First Instance, Justice of the Peace Courts, and a Court of Land Registration. There are seventeen Judicial Districts. In each province there is a Court of First Instance and a Court of the Justice of the Peace in each organized municipality in every province where there is a Court of First Instance. In March, 1907, the President in accordance with the act of Congress, directed the Commission to call a general election of delegates to a Philippine Assembly. The new Assembly was chosen July 30, and was opened October 16 by Secretary of War Taft. It was politically divided as follows: Nationalists, 31; Progresistas, 16; Independents, 20; Immediatistas, 7; Independistas, 4; Nacional Independiente, 1; Catolico, 1. The total vote recorded at the election for delegates was 104,000, which is only 1.4 per cent. of the population. The second election was held on November 2, 1909. The number of persons registered was 208,845 and the number of votes cast 192,975, which is 2.81 per cent. of the population. By act of February 15, 1911, the present membership of the Philippine Assembly and Resident Commissioners to the United States will hold office until October 16, 1916, their successors to be chosen in 1916 and quadrennially thereafter, to hold office from October 16 next following their election. The next election will take place about June 1, 1916. At the first session of the Sixty-first Congress an act was passed and approved August 5, 1909, readjusting the customs duties on imports from all countries, including the United States, on the basis generally of reductions.

The Philippine Constabulary, which is distributed throughout the Archipelago in 119 stations, consists of 303 officers and 4,167 enlisted men.

There are in operation 572 post-offices, free delivery municipal letter carrier service in 115 municipalities, 209 money order offices, and 414 postal savings banks, with 28,804 accounts. Of the 28,745 depositors, 23,174 are Filipinos.

There are 6,691.5 kilometres of insular telegraph lines, 3,008.78 kilometres of telephone lines, 1,853.9 kilometres of cables, and 923.5 kilometres of railroads in operation.

PORTO RICO.

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,600 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The population according to an enumeration made by the United States Government in 1900 showed a population of 953,243, of whom 589,426 are white and 363,817 are colored. The density was 260 to the square mile in 1900; 83.2 per cent. of the population could not read. The population in 1910 is reported as 1,118,012.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, and maize, but oranges, bananas, rice, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is sugar. The next is tobacco. Other exports in order of amount are coffee, fruits, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island, but these resources are very undeveloped. There are salt works at Guanica and Salina on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

The principal cities are Mayaguez, with 16,939, Ponce, 35,027 inhabitants; and San Juan, the capital, with 48,716. The shipments of domestic merchandise from the United States to Porto Rico, year ending June 30, 1912, were \$37,424,545. The exports of domestic merchandise to the United States were \$42,873,401. The foreign trade, year ending June 30, 1912, was: Imports, \$4,501,928; exports, \$6,832,012.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in THE WORLD ALMANAC for 1901, pages 92 and 93. President Roosevelt in his message to Congress in December, 1906, recommended the granting of United States citizenship to the Porto Ricans, and a bill was introduced in the Sixty-second Congress providing for the same, but failed to reach a final vote.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "Upper House," composed of the Government Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "Lower House," consisting of 35 members, elected by the people. The island is represented in the Congress of the United States by a Resident Commissioner.

GUAM.

The island of Guam, the largest of the Mariana Archipelago, was ceded by Spain to the United States by Article 2 of the Treaty of Peace, concluded at Paris December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,000 miles from San Francisco and 1,500 miles from Manila. It is about 32 miles long and 100 miles in circumference, and has a population of 12,517. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Mariana Islands being nearly extinct. The prevailing language is English. Spanish and Chamorro are also spoken. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane.

The island was captured by the U. S. S. Charleston, Captain Henry Glass commanding, June 21, 1898, the American flag raised over Fort Santa Cruz, and a salute fired. Later the island was made a naval station, and Commander E. D. Taussig, of the U. S. S. Bennington, took possession February 1, 1899. The Governor is a naval officer, and the island has a marine garrison as well as a station ship.

INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

TUTUILA (AMERICAN SAMOA).

Tutuila, the Samoan island which, with its attendant islets of Manu'a, Olosega, Ofu, Aunuu and Rose, became a possession of the United States by virtue of the tri-partite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Department of Commerce and Labor, fifty-five square miles, and has (by census of February 1, 1912) 7,251 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate trans-Pacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." Capacity of coaling station, 4,200 tons.

The Samoan Islands, in the South Pacific, are fourteen in number, and lie in a direct line drawn from San Francisco to Auckland, New Zealand. Tutuila is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,580 miles from Auckland, 2,354 miles from Sydney, and 4,200 miles from Manila. Germany governs all the group except the part owned by the United States. The inhabitants are native Polynesians and Christians of different denominations.

The civil government is administered by a Governor, a naval officer nominated by the Navy Department and appointed by the President. All civil affairs are under the jurisdiction of the Navy Department.

WAKE AND OTHER ISLANDS.

The United States flag was hoisted over Wake Island in January, 1899, by Commander Taussig, of the Bennington, while proceeding to Guam. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus Islands. The Midway Islands are occupied by a colony of telegraphers in charge of the relay in the cable line connecting the Philippines with the United States, in all about forty persons.

The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Behring Sea from the North Pacific, a part of Alaska.

HAWAII.

Hawaii was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the census of 1910 the native born numbered but 98,157. Total foreign born (1910), 93,752.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,562; Niihau Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the city of Honolulu was 39,306. The population of Hawaii according to the 1910 census, made by the United States Census Bureau, was 191,909, Honolulu City having a population of 52,183.

POPULATION OF HAWAII, BY ISLANDS, 1910.

Portuguese.....	22,303	Japanese.....	79,674		
Porto Rican.....	4,890	Korean.....	4,533		

The exports from Hawaii to the United States in the twelve months ending June 30, 1911, were valued at \$41,207,941. The imports into Hawaii from the United States for the same period were valued at \$22,322,121. The imports from foreign countries for the same period were \$5,190,449, exports \$730,642.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu February 20, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The Executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, by and with the consent of the Senate of Hawaii. An Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Boards of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Judiciary of the Territory is composed of the Supreme Court, with three Judges, the Circuit Court, and such inferior courts as the Legislature may establish. The Judges are appointed by the President. The Territory is a Federal Judicial District, with a District Judge, District Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a delegate, who is elected biennially by the people. Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States.

Cuba.

THE island of Cuba is 730 miles long, and its width varies from about 25 miles to 100 miles. Its area comprises 44,164 square miles, or about that of Pennsylvania. It has numerous safe and commodious harbors, that of Havana being one of the largest and finest in the world. Measuring from points of nearest approach to its neighbors, Cuba is about 100 miles from Key West, Fla., North; 54 miles from Hayti, East; 130 miles from Yucatan, West, and 85 miles from Jamaica, South.

The two principal agricultural staples of the island are sugar and tobacco. It also produces in considerable quantities fruits, vegetables, timber and metals, mainly iron, manganese and copper ore. The soil is adapted to coffee and cotton. Prof. Robert T. Hill, of the United States Geological Survey, says: "Cuba is the fairest and most fertile of the tropical lands. So far as wealth and lay of soil are concerned Cuba is superior to the rest of the tropical lands, with the possible exception of Porto Rico. The whole island is mantled with rich soils, fertile calcareous loams, which, under constant humidity, yield in abundance every form of useful vegetation of the tropical and temperate climes."

The Government is Republican in form. The President, who is chosen by popular suffrage, serves four years and appoints his own Cabinet. The Congress consists of a Senate and House of Representatives, one representative being chosen for every 25,000 inhabitants, as nearly as possible. The provinces, of which there are six, corresponding to the American States, elect their own Governors and control their own internal affairs.

POPULATION OF CUBA.

A census of Cuba was taken by the United States Provisional Government in 1907, under the direction of the Department of Agriculture, at Washington. The results, of which the following is an abstract, were published in Spanish and English in 1909.

In 1907 Cuba had a population of 2,048,980, an increase from 1899 of 476,183, or 30.3 per cent. The population of the provinces of Cuba was as follows:

Habana.....	538,010	Pinar del Rio.....	240,372
Santa Clara.....	457,431	Matanzas.....	239,812
Oriente.....	455,086	Camaguey.....	118,269

Over half of the population lived in the rural districts, the 134 towns and cities containing 899,667 inhabitants, or 43.9 per cent. of the total. The population of the six large cities was as follows:

Habana.....	297,159	Glencuegos.....	30,100
Santiago de Cuba.....	45,470	Camaguey.....	29,616
Matanzas.....	36,009	Cardenas.....	24,280

The density of population in 1907 was 46.4 per square mile.

Males were more numerous than females, the numbers being 1,074,882 and 974,098, respectively.

Of the total population, 1,369,476, or 66.8 per cent., were single or divorced; 423,537, or 20.7 per cent., were married; 176,509, or 8.6 per cent., were consensually married; and 79,458, or 3.9 per cent., were widowed. The average number of persons to a family was 4.8.

In 1907 over two-thirds 1,428,176, or 69.7 per cent., of the inhabitants were white. The colored population was composed of 274,272 negroes, 334,695 mixed, and 11,837 Chinese. Of the whites, 1,224,539 were native and 203,637 foreign born. Of the latter class, Spain contributed 185,393 and the United States 6,713.

Of the total population, 1,780,628, or 86.9 per cent., were of Cuban and 228,138, or 11.1 per cent., of Spanish citizenship. Of the 551,639 males of voting age, 430,514 were Cuban citizens, and of these, 212,930, or less than one-half, were literate, while 217,584 were illiterate; among those of other citizenship the proportion of literates was much greater, 89,217 being literate and 31,908 illiterate. Among the white males of voting age the literates were in the majority, the numbers being 161,742 literates and 130,944 illiterates for Cuban citizens, and 84,937 literates and 23,056 illiterates for all the others.

Almost one-third, 171,017, or 31.6 per cent., of the children attended school; the corresponding percentage for 1899 was only 15.7. In the six large cities 55,336, or 49.9 per cent., of those of school age, attended school.

Of the population at least ten years of age, 837,958, or 56.6 per cent., could read. For the large cities the percentage was 82.6; for the rest of Cuba it was 47.9.

In 1907, 772,502 persons were engaged in gainful occupations. The 698,982 male breadwinners formed 65 per cent. of all the males, while the 73,520 females gainfully employed formed 7.5 per cent. of all the females. Of the wage-earners, 374,969, or 48.5 per cent., were engaged in agriculture, fishing and mining; 136,419, or 17.6 per cent., in trade and transportation; 126,021, or 16.3 per cent., in manufacturing and mechanical pursuits; 122,288, or 16 per cent., in domestic and personal service; and 12,805, or 1.6 per cent., in professional service.

The principal trade is with the United States, which takes practically all the exports of sugar, fruit, and minerals, and more than nine-tenths of the raw tobacco. Trade with Spain has fallen off greatly.

The total trade of Cuba for the calendar year, 1911, exclusive of coin, was as follows: Imports, \$113,056,000; exports, \$122,944,000, and United States trade with Cuba, merchandise only, for the fiscal year ending June 30, 1912. Imports into the United States from Cuba, \$120,154,326; exports from the United States to Cuba, \$62,203,051.

The Cuban Government.

President. (Salary, \$25,000)..... José MIGUEL GOMEZ,

CABINET.

Secretary of State—Manuel Sanguliy.

Secretary of Justice—J. M. Menocal.

Secretary of the Interior—Federico Laredo.

Secretary of the Treasury—M. Gutierrez Quirós.

Secretary of Public Works—Rafael D. Carrera.

Secretary of Agriculture, Industry and Labor—Emilio del Junco.

Secretary of Public Instruction and Arts—Mario García Kohly.

Secretary of Sanitation—Dr. M. Varona Suarez.

The Territory of Alaska.

THE Sixty-second Congress, Second Session, enacted a law which was approved August 24, 1912, "to create a Legislative Assembly in the Territory of Alaska, to confer legislative power thereon and for other purposes."

The first section provides that "the territory ceded to the United States by Russia by the treaty of March 30, 1867, and known as Alaska, shall be and constitute the Territory of Alaska under the laws of the United States; the government of which shall be organized and administered as provided by said laws.

The second section constitutes the city of Juneau as the capital of the Territory.

By other sections of the act the legislative power and authority of the Territory is vested in a Legislature, to consist of a Senate of eight members (two from each of the four judicial districts into which Alaska is now divided) and a House of Representatives of sixteen members (four from each judicial district). It is provided that the election for members of the first Legislature shall take place the first Tuesday after the first Monday in November, 1912, and subsequent Legislatures shall be elected biennially. The Legislature shall be convened biennially on the first Monday of March and continue in session not longer than sixty days. The veto power is invested in the Governor, but laws vetoed by him may be passed over his veto by a two-third vote of all the members of each House. All laws passed by the Territorial Legislature shall be transmitted by the Governor to the President of the United States and by him submitted to Congress, and if disapproved by Congress, shall be null and void.

The following section of the act creates a Railroad Commission for the Territory:

"Section 18. That an officer of the Engineer Corps of the United States Army, a geologist in charge of Alaska surveys, an officer in the Engineer Corps of the United States Navy, and a civil engineer who has had practical experience in railroad construction and has not been connected with any railroad enterprise in said Territory, be appointed by the President as a commission hereby authorized and instructed to conduct an examination into the transportation question in the Territory of Alaska; to examine railroad routes from the seaboard to the coal fields and to the interior and navigable waterways; to secure surveys and other information with respect to railroads, including cost of construction and operation; to obtain information in respect to the coal fields and their proximity to railroad routes; and to make report of the facts to Congress on or before December 1, 1912, or as soon thereafter as may be practicable, together with their conclusions and recommendations in respect to the best and most available routes for railroads in Alaska which will develop the country and the resources thereof for the use of the people of the United States: Provided further, That the sum of twenty-five thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated to defray the expenses of said commission."

Abrogation of the Russian Treaty.

PUBLIC Resolution No. 13, passed by the Sixty-second Congress, Second Session, and approved December 21, 1911, is as follows:

Joint resolution providing for the termination of the treaty of eighteen hundred and thirty-two between the United States and Russia.

Whereas the treaty of commerce and navigation between the United States and Russia, concluded on the 18th day of December, 1832, provides in Article XII. thereof that it "shall continue in force until the 1st day of January, in the year of our Lord 1839, and if one year before that day, one of the high contracting parties shall not have announced to the other, by an official notification, its intention to arrest the operation thereof, this treaty shall remain obligatory one year beyond that day, and so on until the expiration of the year which shall commence after the date of a similar notification;" and

Whereas on the 17th day of December, 1911, the President caused to be delivered to the Imperial Russian Government, by the American Ambassador at Saint Petersburg, an official notification on behalf of the Government of the United States, announcing intention to terminate the operation of this treaty upon the expiration of the year commencing on the first of January, 1912; and

Whereas said treaty is no longer responsive in various respects to the political principles and commercial needs of the two countries; and

Whereas the constructions placed thereon by the respective contracting parties differ upon matters of fundamental importance and interest to each: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the notice thus given by the President of the United States to the Government of the Empire of Russia to terminate said treaty in accordance with the terms of the treaty is hereby adopted and ratified.

United States Commerce Court.

(For the article entitled "Creation of a Commerce Court" see page 137 in World Almanac for 1912.)

THE judges are Circuit Judges designated for service in this court. Upon expiration of the term for which they are appointed, they do not cease to be judges, but are assigned for duty within some judicial circuit, and other Circuit Judges are designated by the Chief Justice of the Supreme Court for service in this court.

JUDGES.	Commissioned.	Term.
Martin A. Knapp, <i>Presiding</i>	December 31, 1910.	5 Years.
Robert W. Archbald.....	January 31, 1911.	4 Years.
William H. Hunt.....	January 31, 1911.	3 Years.
John E. Carland.....	January 31, 1911.	2 Years.
Julian W. Mack.....	January 31, 1912.	5 Years.

Clerk—George F. Snyder. *Marshal*—F. J. Starek.

NOTE—At the second session of 62d Congress the maintenance of the Commerce Court was provided for until March 4, 1913. Whether the Court is to continue beyond that date or not further legislation is necessary at the next session.

National Parks in United States.

The national parks and reservations mentioned below are under the supervision of the Secretary of the Interior. General information, the annual administrative reports, copies of the rules and regulations, and compilations of the laws relating to the parks may be obtained from the Secretary of the Interior or from the superintendents of the parks.

YELLOWSTONE NATIONAL PARK is in Wyoming, Montana, and Idaho, and has an area of 2,142,720 acres. The superintendent's address is Yellowstone Park, Wyoming. The park can be reached by the following railroads: Northern Pacific Railroad to Gardiner, the northern entrance, via Livingston, Mont.; Oregon Short Line Railroad to Yellowstone, Mont., the western entrance; Chicago, Burlington and Quincy Railroad to Cody, Wyo., from which the eastern entrance to the park is accessible. Stage and private transportation connections for the reservation are made at all these points. The tourist season extends from June 1 to September 15.

YOSEMITE NATIONAL PARK, CALIFORNIA, including the Yosemite Valley and Mariposa Big Tree Grove, embraces an area of 719,622 acres. The superintendent's address is Yosemite, Cal. The park can be reached from Merced on the Atchison, Topeka and Santa Fé and the Southern Pacific railroads by way of Yosemite Valley Railroad, which runs to the western boundary, and by connections of the same roads to Raymond, on the southwest; stage lines run from the terminus of the Yosemite Valley Railroad and from Raymond to Yosemite Valley within the park. The tourist season extends from May 1 to November 1, but the park is accessible and hotel accommodations are furnished the entire year.

GLACIER NATIONAL PARK, MONTANA, has an area of approximately 915,000 acres, of which 15,000 acres have been surveyed. Within the limits stated there are 250 lakes, ranging from 10 miles to a few hundred feet in extent. There are more than 60 glaciers between 5 square miles and a few acres in area. There are wild animals, plants, and rocks in number and quantity to satisfy the most ardent student, and views of great variety, beauty and grandeur to gratify the artist and the lover of nature. The address of the superintendent is Belton, Mont. The park can be reached via the Great Northern Railway. The tourist season extends from May 1 to about September 15.

MOUNT RAINIER NATIONAL PARK, WASHINGTON, has an area of 207,360 acres. The superintendent's address is Ashford, Wash. The park is reached by stage or private transportation from Ashford, Wash., on the Tacoma Eastern Railroad, and by trail from Fairfax, on the Northern Pacific Railroad. The tourist season extends from June 15 to September 15.

SEQUOIA NATIONAL PARK, CALIFORNIA, has an area of 161,597 acres. The address of the superintendent is Ranger, Cal., during the tourist months (June 1 to September 15) and Three Rivers, Cal., the balance of the year. This park may be reached from Visalia, on the Southern Pacific and the Atchison, Topeka and Santa Fé railroads by way of the Visalia Electric Railroad Company to Lemon Cove, thence by stage or private conveyance to the Giant Forest within the park, or by private conveyance from Visalia via Lemon Cove.

GENERAL GRANT NATIONAL PARK, CALIFORNIA, has an area of 2,536 acres. This reservation is administered jointly with Sequoia National Park, and the tourist season extends from June 1 to September 15. The address of the superintendent is given above. The park may be reached from Visalia on the Southern Pacific and Atchison, Topeka and Santa Fé railroads, thence by the Visalia Electric Railway to Woodlake, thence 30 miles by stage or private conveyance, or by trail from Sequoia National Park.

CRATER LAKE NATIONAL PARK, OREGON, has an area of 159,360 acres. The address of the superintendent during the tourist months (June 15 to September 30) is Crater Lake, Ore., and during the balance of the year Klamath Falls, Ore. This park may be reached by stage or automobile from Klamath Falls, Ore., or from Medford, Ore., on the Southern Pacific Railroad.

WIND CAVE NATIONAL PARK, SOUTH DAKOTA, contains 10,522 acres. The superintendent's address is Wind Cave, S. Dak. This park may be reached by private conveyances from Hot Springs, on the Chicago, Burlington and Quincy and the Chicago and Northwestern railroads, or by similar conveyance from Custer, on the Chicago, Burlington and Quincy Railroad. The reservation is open to tourists the entire year.

SULLYS HILL PARK, NORTH DAKOTA, on the shore of Devils Lake, has an area of 780 acres. The address of the superintendent is Fort Totten, N. Dak. Devils Lake, Narrows, and Tokio, on the Great Northern Railroad, are close to the park, and from these points the reservation can be approached by wagon, or by boat (private conveyance).

PLATT NATIONAL PARK, AT SULPHUR, OKLAHOMA, has an area of \$48.22 acres. Sulphur is the post-office address of the superintendent. The town is accessible by the Atchison, Topeka and Santa Fé and the St. Louis and San Francisco railroads. The park, which is open to tourists the entire year, is within walking or riding distance of the railroads.

MESA VERDE NATIONAL PARK, COLORADO, has an area of 42,376 acres, and the 5-mile strip under the park jurisdiction for the protection of ruins, which abuts the park, contains 175,360 acres. The address of the superintendent is Mancos, Col., the nearest railroad station, on the Rio Grande Southern Railroad. This station is about 25 miles from the ruins, which may be reached only by horseback or on foot. The tourist season extends from May 1 to September 30.

CASA GRANDE RUIN, ARIZONA, a reservation, has an area of 480 acres. The nearest railroad station is Casa Grande, on the Southern Pacific Railroad. It may also be reached by private conveyance from Florence, Ariz., on the Phoenix and Eastern Railroad. The address of the custodian is Florence.

The Mesa Verde National Park and the Casa Grande Reservation were set aside to protect the instructive prehistoric ruins and other objects of antiquity which they contain. These ruins are being excavated and repaired and are open for the inspection of visitors. Reports on the repair of such ruins have been issued by the Department of the Interior, and more detailed accounts are distributed by the Bureau of American Ethnology, Smithsonian Institution.

HOT SPRINGS RESERVATION, ARKANSAS (the permanent reservation), has an area of 911.63 acres. Eleven bathhouses on the reservation and thirteen in the city of Hot Springs, as well as several hotels operated in connection with bathhouses, receive hot water from the springs, under lease with the Secretary of the Interior. The address of the superintendent is Hot Springs, Ark.

PRESERVATION OF AMERICAN ANTIQUITIES.—Under the act of Congress approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Applications for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been reserved from entry and set aside as national monuments:

Devils Tower, Wyoming.	Natural Bridges, Utah.	Gran Quivira, New Mexico.
Montezuma Castle, Arizona.	Lewis and Clark Cavern, Montana.	Sitka National Monument, Alaska.
Petrified Forest, Arizona.	Tumacacori, Arizona.	Rainbow Bridge, Utah.
El Morro, New Mexico.	Navajo, Arizona.	Pinnacles, California.
Chaco Canyon, New Mexico.	Mukuntuewap, Utah.	Colorado, Colorado.
Muir Woods, California.	Shoshone Cavern, Wyoming.	

Eleven other national monuments within national forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed.

Forests and Forestry.

Our forests now cover 550,000,000 acres, or about one-fourth of the United States. Forests publicly owned contain one-fifth of all timber standing. Forests privately owned contain at least four-fifths of the standing timber. The timber privately owned is not only four times that publicly owned, but it is generally more valuable.

The original forests of the United States contained timber in quantity and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres, with a stand of not less than 5,200,000,000 board feet of merchantable timber, according to present standards of use. There were five great forest regions—the northern, the southern, the central, the Rocky Mountain and the Pacific.

The present rate of cutting is three times the annual growth of the forests of the United States. The great pineries of the lake States are nearing exhaustion and heavy inroads have been made upon the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing the great centres of lumber industry toward the South and West. In consequence the State of Washington has led for several years in lumber production, now followed in order by Louisiana, Mississippi, Oregon, and Wisconsin. In 1910 the production of yellow pine lumber amounted to fourteen and one-eighth billion feet; the Douglas fir of the Northwest held second place, with nearly five and one-quarter billion feet; while oak came third, with three and one-half billion feet.

We take from our forests yearly, including waste in logging and in manufacture, 20,000,000,000 cubic feet of wood, valued at about \$1,250,000,000.

We use in a single year 90,000,000 cords of firewood, nearly 45,000,000,000 board feet of lumber, 148,500,000 ties, 1,750,000,000 staves, over 125,000,000 sets of heading, nearly 300,000,000 barrel hoops, 3,400,000 cords of native pulp wood, 165,000,000 cubic feet of round mine timbers and nearly 1,500,000 cords of wood for distillation.

In 1911 about 4,330,000 cords of wood were used in the manufacture of paper, of which about 940,000 cords were imported from Canada. The demand for wood pulp is making a severe drain on the spruce forests, which furnish the principal supply, though a number of other woods, such as poplar, hemlock, pine, and balsam, are now being used in considerable quantities. The Forest Service of the United States Department of Agriculture is conducting investigations to determine what other woods, such as scrub pine, white fir, tupelo, and the like, can be successfully used.

A larger drain upon our forest resources is made by the demand for railroad ties. White oak, hitherto the chief source of supply, is not plentiful enough to meet this demand indefinitely, and in many parts of the country the supply of chestnut, cedar, and cypress is dwindling. However, seasoning and treating methods are being found, largely through the work of the Forest Service, by which cheaper and more plentiful woods, such as lodgepole pine in the Northwest and loblolly pine in the South, are made fit for use as ties. A great saving has been effected in the naval stores industry, also largely through the work of the Forest Service, by the introduction of the so-called "cup" systems of turpentine in place of the old destructive system of "boxing." The new systems insure a larger product of better quality and prolong the life of the longleaf pine forests, upon which the industry depends.

UNITED STATES FOREST SERVICE.

The Forest Service is one of the bureaus of the Department of Agriculture. It has charge of the administration and protection of the national forests and also promotes the practice of forestry generally through investigations and the diffusion of information.

The work of the Government in forestry was initiated by the appointment of Dr. Franklin B. Hough in 1876 as special agent in the Department of Agriculture. In 1881 a division of forestry was created in that department. In 1901 this division became the Bureau of Forestry, and in 1905, when the care of the national forests was given to this bureau, its name became the Forest Service.

Previously the care of the national forests had been in the hands of the Department of the Interior. A law authorizing the President to set apart forest reserves was passed in 1891, but no provision for their administration and use was made until 1897. Previous to 1905 the Bureau of Forestry merely gave expert advice, on request, to the Department of the Interior concerning the application of forestry to the forest reserves. The change of name from "forest reserves" to "national forests" was made in 1906 to correct the impression that the forests were, as "reserves," withdrawn from use. Since the Forest Service took charge of them the fundamental aim has been to open them to the widest use consistent with their proper protection.

The reserves were set aside as follows: By President Harrison, 13,416,710 acres; by President Cleveland, 25,686,320 acres; by President McKinley, 7,050,089 acres; by President Roosevelt, 148,346,924 acres.

During the administration of President Taft, prior to July 1, 1912, 3,432,027 acres were added and 9,901,738 acres were eliminated from the national forests, making their area at the close of the fiscal year 1912 187,406,376 acres. The eliminations threw out land which was found to be better suited for agricultural and other purposes than for forestry. An act of Congress passed in 1907, prohibits any additions by the President to the national forest area in Washington, Oregon, Idaho, Montana, Wyoming, and Colorado. In 1912 California was added to this list.

The following table shows the National forest expenditures for the fiscal year 1912 compared with those for the fiscal year 1911:

EXPENDITURES FOR ADMINISTRATION AND PROTECTION AND PERMANENT IMPROVEMENTS DURING FISCAL YEAR 1912, COMPARED WITH 1911.

FISCAL YEAR.	ADMINISTRATION AND PROTECTION.		PERMANENT IMPROVEMENTS.	
	Total.	Per Acre.	Total.	Per Acre.
1912.....	\$4,718,668.96	\$0.02518	\$499,158.55	\$0.00266
1911.....	5,335,886.97	0.02800	273,634.42	0.00143

The following table shows the national forest receipts for the fiscal year 1912 compared with those for the fiscal year 1911:

COMPARISON OF RECEIPTS FROM THE SEVERAL SOURCES FOR THE FISCAL YEARS 1912 AND 1911.

FISCAL YEAR.	GRAZING.		TIMBER.		SPECIAL USES.		ALL SOURCES.	
	Total.	Per Acre.	Total.	Per Acre.	Total.	Per Acre.	Total.	Per Acre.
1912....	\$968,942.26	\$0.00520	\$1,089,702.04	\$0.00580	\$98,712.27	\$0.00050	\$2,157,356.57	\$0.01150
1911....	935,490.38	0.00490	1,014,769.84	0.00526	76,645.93	0.00040	2,026,906.15	0.01060

Under the law 25 per cent. of the gross receipts are paid to the States in which the national forests are located, to be expended for roads and schools. The amount to be paid to the States in this way from the receipts in 1912 is about \$540,000, and an additional 10 per cent. of the 1912 receipts or about \$215,000 was, by the last appropriation act, made available for road and trail building by the

Secretary of Agriculture in national forests, in co-operation with State authorities or otherwise. This is supplementary to the improvement fund of \$400,000 carried by the same act for constructing and maintaining roads, trails, telephone lines, buildings and other improvements necessary for administering and protecting the forests.

The total appropriation for the Forest Service in the fiscal year 1913 is \$5,343,045, as against \$5,533,100 for 1912, with a further provision of \$200,000 available for fighting and preventing forest fires in cases of extraordinary emergency, as against \$1,000,000 which was available for this purpose in 1912.

The grazing receipts for 1912 were paid by the holders of 21,188 permits to graze 1,502,698 cattle, horses and hogs, and of 5,313 permits to graze 7,551,739 sheep and goats. The receipts from timber sales were paid by approximately 5,800 purchasers, who cut the equivalent of 431,492,000 board feet of timber. The receipts from special uses were paid by the holders of approximately 5,000 permits. In other words, these receipts represent profitable use of the forests by some 37,000 individuals or concerns. To the use for which payment was made must be added the heavy free use of the forests by the public. Figures for free use of timber are as follows:

FREE USE OF TIMBER ON NATIONAL FORESTS.

FISCAL YEAR.	Number of Permittees.	Cut.	Value.
1912.....	38,551	Board Feet. 123,233,000	\$196,335.41
1911.....	40,660	123,488,000	196,930.24

In issuing permits for reservoirs, conduits, power-houses and transmission lines for commercial power development the Forest Service has steadfastly insisted on conditions designed to prevent speculative or perpetual holdings and to secure the full development of available power and the payment of reasonable charges for the use of land.

The total stand of timber on the national forests is estimated at nearly six hundred billions board feet.

The following table shows the local cut of timber from the national forests in the fiscal year 1912:

TIMBER CUT FROM NATIONAL FORESTS.

STATE OR TERRITORY.	Cut Under Sale.	Cut Under Free Use.	Total Cut.	STATE OR TERRITORY.	Cut Under Sale.	Cut Under Free Use.	Total Cut.
	Board Feet.	Board Feet.	Board Feet.		Board Feet.	Board Feet.	Board Feet.
Idaho.....	65,656,000	19,841,000	85,497,000	South Dakota.....	9,660,000	5,689,000	15,349,000
Montana.....	55,911,000	18,289,000	74,200,000	Arkansas.....	9,130,000	521,000	9,651,000
Arizona.....	47,433,000	5,025,000	52,458,000	Nevada.....	2,030,000	3,060,000	5,090,000
Alaska.....	44,648,000	395,000	45,043,000	Minnesota.....	617,000	120,000	737,000
California.....	43,914,000	8,490,000	52,404,000	Florida.....	35,000	4,000	39,000
Colorado.....	43,484,000	11,621,000	55,105,000	Oklahoma.....	33,000	199,000	232,000
Washington.....	37,532,000	2,073,000	39,605,000	Michigan.....	4,000	32,000	36,000
Oregon.....	29,337,000	13,176,000	42,513,000	North Dakota.....	2,000	41,000	43,000
New Mexico.....	17,612,000	12,836,000	30,448,000				
Wyoming.....	12,967,000	6,722,000	19,689,000	Total.....	431,492,000	123,233,000	554,725,000
Utah.....	11,487,000	15,099,000	26,586,000				

The average price on the stump for the timber sold in 1912 was \$2.00 as against \$2.56 in 1911. The reduced average is due to the sale of large quantities of fire-killed timber in Idaho, Montana, and Oregon.

The value of the public property administered by the Forest Service is estimated at over two billion dollars.

The great areas contained in the national forests have now been brought to a condition where they are beginning to serve the purposes of the West. The conservation of timber and forage through wise use, and the protection of stream flow, are the means of sustaining many industries which have contributed materially to the prosperity of the country.

ORGANIZATION OF THE FOREST SERVICE.

At the head of the Forest Service are the Forester, Henry S. Graves, and the Associate Forester, A. F. Potter. The work is organized under the following branches: Operation, and also Lands, James B. Adams in charge; Silviculture, W. B. Greeley in charge; Grazing, A. F. Potter in charge, and Products Laboratory, McGarvey Cline in charge; Acquisition of Lands Under the Weeks law, William L. Hall, in charge.

The 163 national forests are distributed in six districts, with a District Forester in charge of each, and headquarters as follows: District 1 (Montana, northeastern Washington, northern Idaho, northwestern South Dakota, northern Michigan, northern Minnesota and southwestern North Dakota), Missoula, Mont., F. A. Silcox, District Forester; District 2 (Colorado, Wyoming, the remainder of South Dakota, Nebraska and western Kansas), Denver, Col., Smith Riley, District Forester; District 3 (most of Arizona, Arkansas, Florida, New Mexico and Oklahoma), Albuquerque, N. Mex., A. C. Ringland, District Forester; District 4 (Utah, southern Idaho, western Wyoming, eastern and central Nevada and a small portion of northwestern Arizona), Ogden, Utah, E. A. Sherman, District Forester; District 5 (California and southwestern Nevada), San Francisco, Cal., Coert DuBols, District Forester; and District 6 (Washington, Oregon and Alaska), Portland, Ore., Geo. H. Ceall, District Forester.

On July 1, 1912, the force employed by the Forest Service numbered 3,678. Of these 3,027 were employed upon the national forests and 651 were engaged in administrative, scientific and clerical work at the Washington and district headquarters. Of the employees on the national forests the force engaged principally in protective work numbered 2,265 men, as follows: Forest Rangers, 276; Assistant Forest Rangers, 1,205; Forest Guards, 780; Game Wardens, 2; Hunters and Trappers, 2. The protective force was therefore about one man for every 83,000 acres, or 130 square miles. (Prussia has one man for every 1,700 acres, and Baden one for every 750.)

BRANCH OF SILVICULTURE.

The branch of silviculture directs the management of the national forests as regards both the systems of cutting mature timber and the work of forest planting; supervises their protection; co-operates with States in developing forest policies adapted to their requirements; co-operates with private forest owners who desire to practise forestry on their lands; and carries on silvicultural investigations of the important species of the United States. Its most important work is in connection with the management of the national forests where the chief problem, after fire protection, is to replace the mature timber as it is sold and cut by young growth of valuable species.

In planting within the national forests the primary object is to produce commercial timber, although in a number of cases planting has been done chiefly with the view of reforesting denuded watersheds in order to control and regulate the flow of streams directly supplying cities and towns. During the year, ending June 30, 1912, 20,543 acres in national forests were sown or planted to trees, chiefly Douglas fir, Western yellow pine, Australian pine and Engelmann spruce. There are 42 Government nurseries which supply the national forests. These have a present stock of about 44,400,000 plants and are capable of

supplying 22,700,000 a year. In the East forest planting has been done mainly in connection with States and private owners, though experiments have been made with the French maritime pine, for turpentine production, and with cork oak and Australian eucalyptus, on the Florida national forest.

At the request of the States the Forest Service makes examinations of their forest conditions and conducts other studies needed to serve as a basis for forest legislation and formulation by each State of a forest policy adapted to its special requirements. The cost of such work is shared by the States and the service. The service co-operates with private owners, especially small owners, in States which have no State Forester, by furnishing advice, with or without field examinations, concerning the best methods for managing and protecting their holdings. The cost of such examination is borne by the owner.

BRANCH OF GRAZING.

The branch of grazing supervises the grazing of live stock upon the national forests, the principal lines of work being the allotment of grazing privileges, the issuance of grazing permits, the division of the ranges between different classes of stock or their owners and the regulation of the stock grazed under permit upon the ranges, and the development of the forage-producing capacity of the national forests by the restoration of depleted areas through systematic control of the stock grazed upon them or by artificial means, through the eradication of noxious range-destroying rodents, and through the institution of new methods of range control. By co-operation with Federal and State authorities in the enforcement of quarantine regulations the national forests have been practically freed from infectious or contagious diseases fatal to live stock, and by an active campaign against predaceous animals destructive to live stock the annual loss from this source within the national forests has been reduced by several hundred thousand dollars.

The number of stock grazed during the past season (1912) under permit was 1,502,698 head of cattle, horses, and swine, and 7,551,739 head of sheep and goats. The annual productive value of this number of stock is more than \$20,000,000. The number of persons holding permits to graze live stock during the past year was in excess of 25,000.

About 20 per cent. of all the sheep in the United States are grazed in the national forests.

BRANCH OF PRODUCTS.

The branch of products carries on studies, tests, and demonstrations to further the more complete utilization of the products of the forest. A forest products laboratory is operated at the University of Wisconsin, where experiments are made to determine the properties of American woods, to ascertain cheap and effective treatments to prevent decay, to test the adaptability of untried woods for specific uses, to develop uses for the material wasted in sawmill operations, and to discover processes of obtaining valuable chemical by-products from the waste which cannot otherwise be utilized. Experiments in the manufacture of paper from pulwood of new kinds, by various processes, are conducted on a commercial scale at a paper mill operated by the Forest Service at Wausau, Wis. Studies are made to find the kind, quantity, and cost of timber consumed in different States and regions and also where the material comes from and what amount is lost through waste. The wood-consuming industries are aided in finding the most suitable raw material and in developing methods of utilizing their waste product. In the Western States all products work centres in the district offices at Denver, San Francisco, and Portland.

EASTERN NATIONAL FORESTS.

The act of March 1, 1911, commonly known as the Weeks law, provides for the acquisition of forest lands on the watersheds of navigable streams. Its purpose is to promote and protect the navigability of the streams by preserving the forest on the upland portions of their watersheds. Through this act means are afforded of extending the national forest system to regions where the Government has hitherto owned no forest lands and taken no direct part in forest preservation.

The act imposes upon the Forest Service new duties in the selection, examination, and valuation of areas for purchase. The original appropriation was \$2,000,000 per year for five and one-half years, beginning with the last half of the fiscal year 1911. The Agricultural Appropriation bill for the fiscal year 1913 modifies its terms by making the appropriation for 1912 and subsequent years available until expended.

In order to concentrate the purchases where they will be of the greatest benefit from the standpoint of watershed protection certain areas have been designated, aggregating 6,383,553 acres, to which purchases will be for the present confined. The United States Geological Survey is examining this land, as required by law, in order to determine whether or not the forest cover exercises a beneficial influence in regulating the flow of navigable streams. Up to July 1, 1912, 2,629,800 acres were reported upon favorably by the Geological Survey.

From April 1, 1911 to June 30, 1912, proposals were received covering 2,531,316 acres, of which 2,102,330 acres were within the general areas which had been selected for purchase in the White Mountains and the Southern Appalachians.

During the same period 840,453 acres were examined, and 287,698 acres have (October 1, 1912) been approved by the National Forest Reservation Commission, and are under contract for purchase. These are located as follows: Georgia Area, 31,876 acres, in Fannin, Union, Gilmer, and Lumpkin Counties, Ga. Massanutten Area, 19,322 acres, in Page and Rockingham Counties, Va. Mount Mitchell Area, 18,701 acres, in McDowell County, N. C. Nantahala Area, 27,815 acres, in Macon and Swain Counties, N. C. Natural Bridge Area, 24,900 acres, in Rockbridge, Bedford, and Botetourt Counties, Va. Smoky Mountain Area, 59,213 acres, in Blount and Sevier Counties, Tenn. White Mountain Area, 72,252 acres, in Coos and Grafton Counties, N. H. White Top Area, 33,619 acres, in Johnson and Sullivan Counties, Tenn., and Washington County, Va.

As these lands are acquired they are administered along the same lines as are the National forests in the West, and the above-named areas will, as title is obtained and plans for handling them are prepared, be given formal designation as national forests.

FOREST POLICY OF THE STATES.

New York has purchased and set aside 1,642,000 acres in the Adirondack and Catskill Mountains as forest preserves, under the control of the Conservation Commission of the State. These lands and private lands in the preserve counties are protected from fire by an adequate system of rangers. Unfortunately the Constitution of the State prohibits the cutting of timber from State lands. In 1910 the Commission distributed at cost to private owners 1,700,000 forest tree seedlings; and the waste and open land on the preserve is being gradually planted to trees under the supervision of trained foresters.

Pennsylvania has purchased more than 920,000 acres of land for State forest preserves, and the Forestry Commission has the right to purchase additional forest lands at a price not to exceed \$5 an acre. The preserves are situated chiefly in the mountains of the central part of the State and located with special reference to protecting the water supply at the sources of rivers. The State forest reserves are not only protected from fire, but are managed according to forestry principles, the mature timber being cut and sold and waste areas reforested. A school for training forest rangers for the reserves is maintained at Mont Alto. There is also a fire warden system organized for the protection of private lands. The State distributes forest trees for planting and gives advice in the management of forest lands to private owners.

Minnesota, Wisconsin, and Michigan have well-organized State forest departments. Minnesota has 51,000 acres reserved, Wisconsin 385,000 acres, and Michigan 232,000. These are protected from fire

and the open land is being planted and the mature timber cut and sold. Each of these States protects the forest land of private owners as well as that of the State forest reserves from fire, and Michigan distributes tree seedlings for forest planting to land owners at cost. Kansas, Connecticut, Ohio, New Hampshire and Vermont also distribute planting material to private owners and give them advice in regard to methods of forest management. The following States have forestry departments which seek to protect from fire by means of an organized warden system all of the greater portion of the forest lands in the State: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Colorado, Montana, Idaho, Connecticut, New Jersey, Maryland, West Virginia, Kentucky, Tennessee, Alabama, Oregon, Washington, and California. With the exception of West Virginia, Tennessee, Alabama, Colorado, and California, each makes a specific appropriation for fire protection. Maine supports a very efficient forest fire service covering the unorganized townships in the northern part of the State; in the remaining townships each bears the cost of an individual service of ex-officio wardens.

Idaho has adopted a co-operative system of fire protection with private owners, and pays its pro rata share of the cost of protecting State lands. Some of these States also have small State forests, those of New Jersey aggregating 14,000 acres. Other States which have forest officers charged with forest interests are Delaware, North Carolina, Louisiana, Ohio, Indiana, and Iowa. All the States, in general, are beginning to consider the enactment of advanced forest legislation, which will create a well-equipped forest department in charge of a technically trained State Forester, with an adequate appropriation for the purchase of land for State forest purposes, for a fire protective system, for the reforestation of waste lands, or for conducting other lines of forest work.

Forest fires in the United States have caused an average annual loss of about 70 human lives and the destruction of at least \$25,000,000 in timber, besides the loss of stock, crops, buildings and other improvements worth many millions more. Added to this are the enormous losses from the destruction of young tree growth, soil deterioration, damage to water courses and water flows, interruption of business and depreciation of property.

Conservation of Natural Resources.

THE National Conservation Association, with headquarters in the Colorado Building, Washington, D. C. is now the organized head of the conservation movement in the United States. The association came into existence because of an urgent need for an organization open to every man and woman who stood for conservation which would give them immediate opportunity for united and effective work.

In a booklet explaining the objects of the association is the following:
 "The National Conservation Association is fighting for the prompt and orderly development of our natural resources, for the welfare of ourselves and our children, and for the rights of the plain people. The association is bound neither by political considerations nor official connections. It is free to speak the whole truth.

"That conservation means the use of our natural resources for the benefit of us all and not merely for the profit of a few is already household knowledge. The task which the National Conservation Association has set itself is to get this principle put into practical effect."

The association is maintained by dues from membership, which are divided into the following classes: Members, \$1.00 a year. Active Members, \$3.00 a year. Contributing Members, \$20.00 a year. Patrons, \$100.00 a year. Life Membership, \$1,000.00 a year.

The organization of the National Conservation Association is as follows:
 Gifford Pinchot, President, Washington, D. C. Charles W. Elliot, Honorary President, Cambridge, Mass. Overton W. Price, Vice-President and Treasurer, Washington, D. C. Harry A. Slattery, Secretary, Washington, D. C.

The first National Conservation Congress was held at Seattle, Washington, in August, 1909, under the auspices of the Washington Conservation Association.

The objects of the Congress are:
 1. To provide for discussion of the resources of the United States as the foundation for the prosperity of the people.

2. To furnish definite information concerning the resources and their development, use and preservation.

3. To afford an agency through which the people of the country may frame policies and principles affecting the conservation and utilization of their resources to be put into effect by their respective representatives in State and Federal Governments.

There is no official connection between the National Conservation Congress and the National Conservation Association, although the two organizations are working closely together along the same lines. The Congress confines its work to an annual gathering of citizens appointed by State and municipal officials as delegates. The Association maintains a permanent working organization throughout the year.

The second National Conservation Congress met at St. Paul, Minn., September, 1910, the third at Kansas City, Mo., September, 1911, and the fourth at Indianapolis, Ind., October, 1912. The officers of the Congress elected at Kansas City are:

President, J. B. White, Kansas City, Mo. Executive Secretary, Thomas R. Shipp, Washington, D. C. Treasurer, D. Austin Latchaw, Kansas City, Mo. Recording Secretary, James C. Gipe, Clark, La.

The American Forestry Association.

THE American Forestry Association whose headquarters are at 1410 H Street, N. W., Washington, D. C., was organized in 1882, and incorporated in January, 1897, with the following objects:

1. The promotion of a businesslike and conservative use and treatment of the forest resources of this country.

2. The advancement of legislation tending to this end both by the States and the Congress of the United States, the inauguration of forest administration by the Federal Government and by the States, and the extension of sound forestry by all proper methods.

3. The diffusion of knowledge regarding the conservation, management, and renewal of forests, the proper utilization of their products, methods of reforestation of wastelands, and the planting of trees.

The Association desires and needs as members all who are interested in promoting the objects for which it is organized—all who realize the importance of using the natural resources of the country in such a manner as not to exhaust them, or to work ruin to other interests. In particular it appeals to owners of woodlands, to lumbermen and foresters, as well as to engineers, professional and business men who have to do with wood and its manifold uses, and to persons concerned in the conservation of water supplies for irrigation and other purposes.

The Association has a membership of several thousands, residents of every State in the Union, Canada and foreign countries. A magazine, *American Forestry*, is published monthly and the subscription and membership fees are \$3.00 a year. The officers of the Association are:

President—Robert P. Bass, of New Hampshire; Treasurer—Otto Liebkert, Washington, D. C.; Executive Secretary—P. S. Ridsdale, Washington, D. C.

THE Bureau of Plant Industry studies plant life in all its relations to agriculture. It investigates the diseases of fruit and forest trees, truck crops and other plants, and carries on field tests and demonstrations of their control and prevention. It studies the bacteriological problems connected with plant production and also the factors of plant nutrition. It is engaged in the improvement of crops by breeding and selection and the acclimatization and adaptation of new crops and varieties. It is encouraging the production of drug-producing crops, tea, and other special crops, and is studying the general physiological problems influencing the growth of plants. It is conducting a campaign for the eradication of poisonous plants, especially in the vast stock-grazing areas of the West. It is investigating various technological problems in connection with crop production, particularly with reference to fibre and paper-producing plants and to the standardization and handling of cotton and grain. It is engaged in the study of various phases of economic botany and in the devising of methods for the improvement of forest-grazing areas. It is carrying on a propaganda in the interest of good seeds for the farmer and the improvement in the quality of farm seeds. It is conducting extensive work in the breeding and testing of the principal field crops, such as the small grains, corn, cotton, tobacco, forage crops, and sugar-producing plants, with special reference to the improvement of these crops. It is engaged in the operation of testing stations in the semi-arid regions for the co-operative investigation of the problems encountered in crop production under the conditions existing in those areas. The adaptation and breeding of crops is a special feature of this work, which also includes physical determinations of the factors influencing plant growth in those regions. The Bureau is conducting farm management investigations throughout the country to devise improved methods of farm management and farm practice.

In the South it is carrying on farmers' co-operative demonstration work, with special reference to the boll-weevil situation and its amelioration. It is conducting horticultural studies of garden crops and maintains an experimental farm for this and other lines of the work of the bureau. It is engaged in investigations of the marketing, transportation, and storage of fruits and in the general upbuilding of the fruit industry. It maintains greenhouses and trial grounds for the work of plant propagation and improvement. It is engaged in the introduction of seeds and plants from foreign countries and in the operation of plant introduction and testing gardens to aid in the development of new plant industries. It is also engaged in the Congressional distribution of seeds and plants.

Irrigation Statistics.

(From a Report Issued by the Census Office.)

THE total number of farms irrigated in 1909 in the arid and semiarid States, comprising all or parts of Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, Wyoming, and part of Texas, was 157,862, against 107,716 in 1899, an increase of 50,146, or 46.6 per cent. Between 1899 and 1909 the whole number of farms in the States mentioned increased 31.3 per cent. Additional irrigated farms, totalling 4,320, in the rice belt of Arkansas, Louisiana and Texas, and 2,228 others in the humid States, most of which were truck gardens, were also reported. The total number of farms on which irrigation was practised in Continental United States was 164,410 in 1909 against 108,218 in 1899, an increase of 56,192, or 51.9 per cent.

The total acreage irrigated in the arid and semiarid States was 13,739,499 acres in 1909, against 7,527,690 acres in 1899, an increase of 6,211,809 acres, or 82.5 per cent. In the rice States 694,730 acres and in the humid States 28,919 acres were irrigated in 1909, making the total acreage irrigated 14,463,148 acres in 1909 against 7,539,545 acres in 1899, an increase of 6,923,603 acres, or 91.8 per cent. In the arid and semiarid States alone the acreage which all enterprises were capable of irrigating in 1910 was 19,335,711 acres, an excess of 5,596,212 acres over the acreage irrigated in 1909. The area included in projects either completed or under construction was, in the arid and semiarid States, 31,112,110 acres in 1910, an excess of 17,372,611 acres over the acreage irrigated in 1909. These figures indicate in a general way the area which will be available within the next few years for the extension of irrigation, and show that the area irrigated in 1909 can be more than doubled without undertaking new enterprises.

The total cost of irrigation systems reported in the arid and semiarid States was \$304,699,450 in 1910, against \$67,482,261 in 1899, an increase of \$237,217,189, or 351.5 per cent. The average cost per acre was \$15.76 in 1910, against \$8.89 in 1899, an increase of \$6.87, or 77.3 per cent. The average cost of operation and maintenance per acre was \$1.07 in 1909. The cost of all plants in the rice States was \$12,877,352, making \$317,576,802 the total cost of all enterprises reporting in 1910, except those in the humid States. No report was secured on cost of enterprises in the humid States, for the reason that water for irrigation in those States is usually obtained from city waterworks or other plants not constructed primarily for irrigation purposes.

National Grange, Patrons of Husbandry.

Master—Oliver Wilson, Peoria, Ill. **Overseer**—L. H. Healey, North Woodstock, Ct. **Lecturer**—N. P. Hull, Dimondale, Mich. **Steward**—D. C. Mullen, Nampa, Idaho. **Assistant Steward**—George R. Shaefer, Appleton, Wis. **Chaplain**—C. F. Smith, Morrisville, Vt. **Treasurer**—Mrs. Eva S. McDowell, Wellesley, Mass. **Secretary**—C. M. Freeman, Tippecanoe City, Ohio. **Gate Keeper**—A. E. Judson, Balfour, Iowa. **Ceres**—Mrs. E. E. Pattee, Plymouth, N. H. **Flora**—Mrs. Ida Judson, Balfour, Iowa. **Pomona**—Mrs. Cordella Atkeson, Morgantown, W. Va. **L. A. Steward**—Mrs. Mary A. Smith, Morrisville, Vt. **High Priest**—George W. F. Gaunt, Mullica Hill, N. J. **Priest Archon**—Oliver Wilson, Peoria, Ill. **Priest Annalist**—F. E. Marchant, Kingston, R. I.

The following proposed legislation is favored by the National Grange, representing the farmers of the United States:

1. Free delivery of mails in the rural districts be placed upon the same permanent footing as the delivery of mails in the cities, and the appropriations to be commensurate with the demands and the benefits of the service.
2. Postal savings banks.
3. Election of United States Senators by direct vote of the people.
4. An amendment to the Constitution granting the power to Congress to regulate and control all corporations and combinations.
5. Enlargement of the powers and duties of the Interstate Commerce Commission, giving it authority to determine what changes shall be made or what practices are discriminative or unreasonable, and their findings to be immediately operative and so to continue until overruled by the courts.
6. Regulation of the use of shoddy.
7. Pure food laws.
8. Extension of the markets for farm products equally with manufactured articles.
9. An anti-trust law, clearly defining what acts on the part of any corporation would be detrimental to public welfare.
10. The speedy construction of a ship canal connecting the Mississippi River with the Great Lakes and the Great Lakes with the Atlantic Ocean.
11. Revision of the fees and salaries of all Federal officers, and placing them on a basis of similar service in private business.
12. Parcels post, telephone and telegraph in the mail service.
13. National and State aid to improve the public highways.

The National Grange has established over 30,000 subordinate granges in 44 States and Territories.

The Public Lands of the United States.

(Prepared for THE WORLD ALMANAC by the General Land Office.)

TABULAR statement showing area of public lands vacant and subject to entry and settlement in the public land States and Territories, June 30, 1912:

*The unsurveyed lands in Alaska are mostly unsurveyed and unappropriated.

Cash receipts of General Land Office during the fiscal year ended June 30, 1912: From sales of public lands, \$6,671,718.74; sales of Indian lands, \$2,284,538.37; sales of reclamation town lots and water-right charges, \$914,542.31; depreciation on public lands, sales of Government property, copies of records and plats, and sales of timber in Alaska, \$102,248.78. Total receipts for the year, \$9,973,048.

Area of public and Indian lands originally entered during the fiscal year, 14,574,688.82 acres; area of land patented, 10,135,475 acres.

The total number of entries made, acres sold and amount received thereunder under the Timber and Stone acts of June 3, 1878, and August 4, 1892, were: From June 3, 1878, to June 30, 1912: Entries, 9,541; acres, 12,999,758.06; amount, \$32,874,935.58.

White House Rules.

The following rules have been arranged for the conduct of business at the Executive Offices during the Winter of 1912-13:

The Cabinet will meet on Tuesdays and Fridays from 11 A. M. until 1 P. M.

Senators and Representatives having constituents whom they desire merely to present to the President will be received from 10 to 10.30 A. M., excepting on Cabinet days.

Senators and Representatives having business to transact will be received from 10.30 A. M. to 12 M., excepting on Cabinet days. In view of the pressure of business at the Executive Offices during the Congressional session it would greatly facilitate matters if Senators and Members could telephone for an appointment before calling, as many will have first made appointments in this way, and those calling without appointments are therefore necessarily delayed in seeing the President.

Visitors having business with the President will be admitted from 12 M. to 1 P. M. daily, excepting Cabinet days, by appointments previously fixed.

The East Room will be open daily, Sundays excepted for the inspection of visitors, between the hours of 10 A. M. and 2 P. M.

CARMIE A. THOMPSON, Secretary to the President.

* Under seal, 10 years. † Unless a different rate is expressly stipulated. ‡ Under seal, 20 years. § Store accounts; other accounts 3 years; accounts between merchants 5 years. ¶ New York has by a recent law legalized any rate of interest on call loans of \$5,000 or upward, on collateral security. †† Becomes dormant, but may be revived. ‡‡ Six years from last item. (a) Accounts between merchants 2 years. (b) In courts not of record 5 years. (c) Witnessed 20 years. (d) Twenty years in Courts of Record; in Justice's Court 10 years. (e) Negotiable notes 6 years, non-negotiable 17 years. (f) Ceases to be a lien after that period, unless revived. (h) On foreign judgments 1 year. (l) Ten years foreign, 20 years domestic. (m) Subject to renewal. (n) Not of record 6 years. (o) No limit. (p) Foreign. Domestic 6 years.

Penalties for usury differ in the various States. California, Colorado, Maine, Massachusetts (except on loans of less than \$1,000), Montana and Nevada have no provisions on the subject. Loss of principal and interest is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon.

Loss of interest in Alabama, Alaska, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Oklahoma, South Carolina, South Dakota, Texas, Virginia, Washington (double amount if paid), Wisconsin, Hawaii, and Wyoming.

Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, New Hampshire (three times), New Mexico, Ohio, Pennsylvania, Tennessee, Vermont, and West Virginia. Loss of principal and interest in Rhode Island, also fine or imprisonment.

New York Public Service Commissioners.

FIRST DISTRICT—Office, 154 Nassau Street, New York City.

- William R. Willcox, Chairman, Manhattan, New York; holds office until February 1, 1913.
- George V. S. Williams, Brooklyn; holds office until February 1, 1917.
- J. Sergeant Cram, Manhattan, New York; holds office until February 1, 1916.
- Milo Roy Maltbie, Manhattan, New York; holds office until February 1, 1915.
- John E. Eustis, Manhattan, New York; holds office until February 1, 1914.
- Secretary—Travis H. Whitney.

SECOND DISTRICT—Office, The Capitol, Albany, N. Y.

- Frank W. Stevens, Chairman, Jamestown; holds office until February 1, 1913.
- John B. Olmsted, Buffalo; holds office until confirmation of successor.
- Winfield A. Huppuch, Hudson Falls; holds office until February 1, 1916.
- Martin S. Decker, New Paltz; holds office until February 1, 1915.
- James E. Sague, New Hamburg; holds office until February 1, 1914.
- Secretary—John S. Kennedy.

The jurisdiction of the Public Service Commission of the First District extends to railroads and street railroads lying exclusively within that district, to any common carrier operating exclusively within that district, and to the manufacture, sale and distribution of gas and electricity for light, heat and power in that district. In addition the Commission of the First District is to exercise the powers heretofore conferred upon the Board of Rapid Transit Railroad Commissioners. All jurisdiction not specifically granted to the Public Service Commission of the First District is granted to the Public Service Commission of the second District. The annual salary of each Public Service Commissioner is \$15,000, of their Secretary, \$6,000, and of their Counsel, \$10,000.

NOTE—For complete summary of the jurisdiction and scope conferred by the New York Public Service act, see page 102 of 1912 ALMANAC.

Passport Regulations.

RULES governing the granting and issuing of passports in the United States:

1. BY WHOM ISSUED AND REFUSAL TO ISSUE.—No one but the Secretary of State may grant and issue passports in the United States (Revised Statutes, sections 4075, 4078), and he is empowered to refuse them in his discretion.

Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secretary of State.

Applications for passports by persons in Porto Rico or the Philippines should be made to the Chief Executives of those islands. The evidence required of such applicants is the same as that required of applicants in the United States.

2. FEE.—By act of Congress approved March 23, 1883, a fee of one dollar is required to be collected for every citizen's passport. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Drafts or checks will not be accepted.

3. APPLICATIONS.—A person who is entitled to receive a passport, if within the United States, must make a written application, in the form of an affidavit, to the Secretary of State. The application must be made by the person to whom the passport is to be issued and signed by him, as it is not competent for one person to apply for another.

The affidavit must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If he has no seal, his official character must be authenticated by certificate of the proper legal officer.

If the applicant signs by mark, two attesting witnesses to his signature are required. The applicant is required to state the date and place of his birth, his occupation, the place of his permanent residence and within what length of time he will return to the United States with the purpose of residing and performing the duties of citizenship.

The applicant must take the oath of allegiance to the Government of the United States.

The application must be accompanied by a description of the person applying, and should state the following particulars, viz.: Age, — years; stature, — feet — inches (English measure); forehead, —; eyes, —; nose, —; mouth, —; chin, —; hair, —; complexion, —; face, —.

The application must be accompanied by a certificate from at least one credible witness that the applicant is the person he represents himself to be, and that the facts stated in the affidavit are true to the best of the witness's knowledge and belief.

4. NATIVE CITIZENS.—An application containing the information indicated by rule 3 will be sufficient evidence in the case of native citizens; but

A person of the Chinese race, alleging birth in the United States, must obtain from the Commissioner of Immigration or Chinese Inspector in charge at the port through which he proposes to leave the country a certificate upon his application, under the seal of such officer, showing that there has been granted to him by the latter a return certificate in accordance with rule 16 of the Chinese Regulations of the Department of Commerce and Labor. For this purpose special blank forms of application for passports are provided.

Passports issued by the Department of State or its diplomatic or consular representatives are intended for identification and protection in foreign countries, and not to facilitate entry into the United States, immigration being under the supervision of the Department of Commerce and Labor.

5. A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES.—In addition to the statements required by rule 3, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. The Department may require that this affidavit be supported by that of one other citizen acquainted with the facts.

6. NATURALIZED CITIZENS.—In addition to the statements required by rule 3, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country, what ship he sailed on, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.

7. WOMAN'S APPLICATION.—If she is unmarried, in addition to the statements required by rule 3, she should state that she has never been married. If she is the wife or widow of a native citizen of the United States the fact should be made to appear in her application which should be made according to the form prescribed for a native citizen whether she was born in this country or abroad. If she is the wife or widow of a naturalized citizen, in addition to the statements required by rule 3, she must transmit for inspection her husband's certificate of naturalization, or a certified copy of the court record thereof, and state that she is the wife (or widow) of the person described therein, and must set forth the facts of his emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen. A married woman citizenship follows that of her husband so far as her international status is concerned. It is essential, therefore, that a woman's marital relations be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established.

8. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT.—In addition to the statements required by rule 3, the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.

9. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES.—In addition to the statements required by rule 3, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government; and must submit affidavits from at least two credible witnesses having good means of knowledge in substantiation of his statements of birth, residence, and loyalty.

10. EXPIRATION OF PASSPORT.—A passport expires two years from the date of its issuance. A new one will be issued upon a new application, and if the applicant be a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization, if the application upon which it was issued is found to contain sufficient information as to the naturalization of the applicant. Passports are not renewed by the Department, but a person abroad holding a passport issued by the Department may have it renewed for a period of two years upon presenting it to a diplomatic or principal consular officer of the United States when it is about to expire.

11. WIFE, MINOR CHILDREN, AND SERVANTS.—When the applicant is accompanied by his wife, minor children, or servant who would be entitled to receive a passport, it will be sufficient to state the fact, giving the respective ages of the children and the allegiance of the servant, when one passport will suffice for all. For any other person in the party a separate passport will be required. A woman's passport may include her minor children and servant under the above-named conditions. The term servant does not include a governess, tutor, pupil, companion, or person holding like relations to the applicant for a passport.

12. TITLES.—Professional and other titles will not be inserted in passports.

13. BLANK FORMS OF APPLICATION.—They will be furnished by the Department to persons who desire to apply for passports, but are not furnished, except as samples, to those who make a business of procuring passports.

14. ADDRESS.—Communications should be addressed to the Department of State, Bureau of Citizenship, and each communication should give the post-office address of the person to whom the answer is to be directed.

Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress, approved June 14, 1902, provides that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States;" the foregoing rules are accordingly prescribed for the issuing and granting of passports in the United States.

The Secretary of State is authorized to make regulations on the subject of granting and issuing passports additional to these rules and not inconsistent with them.

WM. H. TAFT.

The following paraphrase and condensation of the naturalization laws of the United States have been revised by the Chief of the Division of Naturalization of the Department of Commerce and Labor, and includes such minor changes in the law as were provided by the recent amendments embodied in the act of Congress, approved June 25, 1910.

The following courts alone have the power to naturalize aliens: United States Circuit or District Courts now existing, or which may hereafter be established by Congress in any State, United States District Courts for the Territories of Hawaii and Alaska, also all courts of record in any State or Territory now existing, or which may hereafter be created, having a seal, a clerk and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

The power to naturalize, conferred upon the above mentioned courts, is limited to persons residing within the geographical limits over which their respective jurisdiction extends.

DECLARATION OF INTENTION.

Any alien who is a white person, or of African nativity or African descent, is required, if he desires to become naturalized, to file a declaration of intention in the clerk's office of any court having jurisdiction over the place in which he lives, and such declaration may not be filed until the alien has reached the age of eighteen years. This declaration must contain information as to the name, age, occupation, time and place of arrival in the United States, and must further show that it is the declarant's *bona fide* intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign prince, potentate, state or sovereignty, and particularly to the one of which he may be at the time a citizen or subject.

Any alien who has filed a declaration of intention before September 27, 1906, and has continued to reside in the United States since such declaration was filed, is not required to file a new declaration.

Aliens of the age of twenty-one years and upward, who have been honorably discharged from service in the armies of the United States, either regular or volunteer, are not required to make a declaration of intention.

Any alien, of the age of twenty-one years and upward, who has served five consecutive years in the United States navy or one enlistment in the United States marine corps, may be admitted to citizenship without any previous declaration of intention.

The widow and children who are under age at the time that an alien who has made his declaration of intention has died, without having secured a certificate of naturalization, are also exempted from the necessity of filing a declaration of intention.

The minor children of alien parents who, through misinformation as to the law governing the value of declaration of intention as the stepping stone to citizenship, have neglected to comply fully with the naturalization laws will be required to pass through the same formalities as are provided for the admission to citizenship of adult aliens under the operation of the naturalization laws as amended by the act approved June 25, 1910.

By act of June 25, 1910, any person who on May 1, 1905, was an inhabitant and qualified to become a citizen of the United States and who for the five years preceding May 1, 1910, has resided in the United States continuously and who, because of misinformation in regard to his citizenship, has in good faith exercised the rights and duties of a citizen of the United States because of wrongful information and belief, may, upon proof of these facts satisfactory to a court having jurisdiction to naturalize aliens, petition for naturalization without filing the required declaration of intention upon compliance with the other requirements of the law.

PETITIONS FOR NATURALIZATION.

Not less than two years after an alien has filed his declaration of intention, and after not less than five years' continuous residence in the United States, he may file a petition for citizenship in any one of the courts above stated which has jurisdiction over the place in which he resides, provided he has lived at least one year continuously, immediately prior to the filing of such petition, in the State or Territory in which such place is located. This petition must be signed by the petitioner in his own handwriting and shall give his full name, place of residence, occupation, place of birth and the date thereof, the place from which he emigrated, and the date and place of his arrival in the United States. If such arrival occurred subsequent to the passage of the act of June 29, 1906, he must secure a certificate from the Department of Commerce and Labor showing the fact of such arrival and the date and place thereof, and present such certificate to the clerk of the court to be attached to his petition. If he is married he must state the name of his wife and, if possible, the country of her nativity and her place of residence at the time of the filing of his petition, and, if he has children, the name, date and place of birth and present place of residence of each living child. The petition must set forth that he is not a believer in or opposed to organized government, or a member of or affiliated with any organization or body of persons teaching disbelief in or opposition to organized government; that he is not a polygamist or a believer in the practice of polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may, at the time of filing such petition, be a citizen or subject. This petition must be verified at the time it is filed by the affidavit of two credible witnesses, who are citizens of the United States and who shall state that they have known the petitioner during his entire residence in the State in which the petition is filed, which must be not less than one year, and that they have known him to be a resident of the United States continuously during the five years immediately preceding the filing of the petition; that during such time he acted as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same. If a portion of the five years has been passed by the petitioner in some other State than that in which he resides at the time of filing his petition the affidavit of the witnesses may verify so much of the petitioner's residence as has been passed in the State, and the portion of said five years' residence out of the State may be shown by depositions at the time of hearing on the petition.

No petition may be heard until the expiration of at least ninety days after it is filed nor within thirty days preceding a general election. At the hearing upon a petition, which shall be at a date fixed by order of the court, the witnesses are required to again attend and testify in open court so that the judge or judges thereof may be satisfied that the petitioner is qualified and that he has complied with all the requirements of the law.

Any alien who has borne a hereditary title or been a member of an order or nobility must renounce such title or position expressly before becoming naturalized. No alien may become naturalized, if physically capable, who does not speak the English language.

Aliens who are admitted to citizenship by order in open court will be required to take the oath of allegiance and thereafter will be entitled to a certificate of naturalization.

The law also provides as to those persons, who though not citizens owe permanent allegiance to the United States, and who may become citizens of any State or organized Territory of the United States, that they may be naturalized upon compliance with all the requirements of the law, except that they will not be called upon to renounce allegiance to any foreign sovereignty.

At the time of filing his declaration of intention an alien is required to pay to the clerk of the court a fee of one dollar. At the time of filing a petition for naturalization a petitioner is required to pay to the clerk of the court a fee of four dollars. This latter fee is for the cost of recording the petition and hearing the case, as well as for the issuance, if the petition is granted, of the certificate of naturalization.

CHINESE.

The naturalization of Chinamen is expressly prohibited by Sec. 14, Chap. 126, Laws of 1882.

The National Pure Food Law.

THE Pure Food act, approved June 30, 1906, is entitled "An act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines and liquors, and for regulating traffic therein, and for other purposes." It took effect by its terms on January 1, 1907.

The first section of the act makes it unlawful for any person to manufacture within the District of Columbia or any Territory, any article of food or drug which is adulterated or misbranded, under a penalty not to exceed \$500, or one year's imprisonment, or both, at the discretion of the court for the first offence, and not to exceed \$1,000 and one year's imprisonment, or both, for each subsequent offence.

Sec. 2 of the act makes it applicable to food or drugs introduced into any State from any other State, and from or to any foreign country.

Sec. 3. That the Secretary of the Treasury, the Secretary of Agriculture, and the Secretary of Commerce and Labor shall make uniform rules and regulations for carrying out the provisions of this act, including the collection and examination of specimens of foods and drugs manufactured or offered for sale in the District of Columbia, or in any Territory of the United States, or which shall be offered for sale in unbroken packages in any State other than that in which they shall have been respectively manufactured or produced, or which shall be received from any foreign country, or intended for shipment to any foreign country, or which may be submitted for examination by the chief health, food, or drug officer of any State, Territory, or the District of Columbia, or at any domestic or foreign port through which such product is offered for interstate commerce, or for export or import between the United States and any foreign port or country.

Sec. 4. That the examinations of specimens of foods and drugs shall be made in the Bureau of Chemistry of the Department of Agriculture, or under the direction and supervision of such bureau, for the purpose of determining from such examinations whether such articles are adulterated or misbranded within the meaning of this act; and if it shall appear from any such examination that any of such specimens is adulterated or misbranded within the meaning of this act, the Secretary of Agriculture shall cause notice thereof to be given to the party from whom such sample was obtained. Any party so notified shall be given an opportunity to be heard, under such rules and regulations as may be prescribed as aforesaid, and if it appears that any of the provisions of this act have been violated by such party, then the Secretary of Agriculture shall at once certify the facts to the proper United States District-Attorney, with a copy of the results of the analysis or the examination of such article duly authenticated by the analyst or officer making such examination, under the oath of such officer. After judgment of the court, notice shall be given by publication in such manner as may be prescribed by the rules and regulations aforesaid.

Sec. 5. That it shall be the duty of each District-Attorney to whom the Secretary of Agriculture shall report any violation of this act, or to whom any health or food or drug officer or agent of any State, Territory, or the District of Columbia shall present satisfactory evidence of any such violation, to cause appropriate proceedings to be commenced and prosecuted in the proper courts of the United States, without delay, for the enforcement of the penalties as in such case herein provided.

The sections descriptive of the articles which come within the scope of the act are as follows:

"Sec. 6. The term 'drug,' as used in this act, shall include all medicines and preparations, recognized in the United States Pharmacopoeia or National Formulary for internal or external use, and any substance or mixture of substances intended to be used for the cure, mitigation or prevention of disease of either man or other animals. The term 'food,' as used herein, shall include all articles used for food, drink, confectionery or condiment by man or other animals, whether simple, mixed or compound.

"Sec. 7. For the purposes of this act an article shall be deemed to be adulterated:"

In case of drugs:

"First. If, when a drug is sold under or by a name recognized in the United States Pharmacopoeia or National Formulary, it differs from the standard of strength, quality or purity, as determined by the test laid down in the United States Pharmacopoeia or National Formulary official at the time of investigation: Provided, That no drug defined in the United States Pharmacopoeia or National Formulary shall be deemed to be adulterated under this provision of the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopoeia or National Formulary.

"Second. If this strength or purity fall below the professed standard or quality under which it is sold."

In the case of confectionery:

"If it contain terra alba, barytes, talc, chrome yellow, or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug."

In the case of food:

"First. If any substance has been mixed and packed with it so as to reduce, or lower, or injuriously affect its quality or strength.

"Second. If any substance has been substituted wholly or in part for the article.

"Third. If any valuable constituent of the article has been wholly or in part extracted.

"Fourth. If it be mixed, colored, powdered, coated, or stained in a manner whereby damage or inferiority is concealed.

"Fifth. If it contain any added poisonous or other added deleterious ingredient which may render such article injurious to health: Provided, That when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservatives shall be printed on the covering of the package, the provisions of this act shall be construed as applying only when said products are ready for consumption.

"Sixth. If it consists in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance, or any portion of an animal unfit for food, whether manufactured or

THE NATIONAL PURE FOOD LAW—Continued.

not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

"Sec. 8. The term 'misbranded,' used herein, shall apply to all drugs, or articles, or food, or articles which enter into the composition of food, the package or label of which shall bear any statement, design, or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to the State, Territory, or country in which it is manufactured or produced.

"That for the purposes of this act, an article shall also be deemed to be misbranded."

In case of drugs:

"First. If it be an imitation of or offered for sale under the name of another article.

"Second. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate or acetanilide, or any derivative or preparation of any such substances contained therein.

"Third. If its package or label shall bear or contain any statement, design, or device regarding the curative or therapeutic effect of such article or any of the ingredients or substances contained therein, which is false and fraudulent."

In case of food:

"First. If it be an imitation of or offered for sale under the distinctive name of another article.

"Second. If it be labelled or branded so as to deceive or mislead the purchaser, or purport to be a foreign product when not so, or if the contents of the package as originally put up shall have been removed in whole or in part and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substance contained therein.

"Third. If in package form, and the contents are stated in terms of weight or measure, they are not plainly or correctly stated on the outside of the package.

"Fourth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading, in any particular: Provided, That an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

"First. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not an imitation of or offered for sale under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where said article has been manufactured or produced.

"Second. In the case of articles labelled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word of 'compound,' 'imitation' or 'blend,' as the case may be, is plainly stated on the package in which it is offered for sale: Provided, That the term blend as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only: And provided further, That nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding.

"Sec. 9. No dealer shall be prosecuted under the provisions of this act, when he can establish a guaranty signed by the wholesaler, jobber, manufacturer or other party residing in the United States, from whom he purchases such articles, to the effect that the name is not adulterated or misbranded within the meaning of this act, designating it."

The remaining provisions of the act provide the methods of prosecuting offenders and destroying goods imported or offered for import which are adulterated or falsely labelled.

SUMMARY OF RESULTS—1912.

(Bureau of Chemistry, R. E. Doolittle, Acting Chief, Washington, D. C.)

The inspection force of the Bureau of Chemistry collected more than 10,000 official samples of foods and drugs during the fiscal year of 1912, and about 2,000 additional samples for investigating purposes relating to the enforcement of the law.

Three hundred and eighty-eight seizures were made, and reports from the twenty-two branch laboratories indicate that 3,292 interstate samples were legal and 3,624 misbranded or adulterated. In addition 9,962 imported foods and drugs were analyzed, of which 3,634 were adjudged adulterated and misbranded, and several thousand interstate and imported samples were examined in the Washington office.

NOTE.—The quantity of mixed flour withdrawn cannot be stated, owing to the variable number of pounds taxed. (b) Includes 3,259,483 pounds at 10 cents and 122,991,664 pounds at one-fourth of 1 cent per pound and 50 pounds imported at 15 cents per pound.

Receipts of tax on Porto Rican products—spirits, cigars and cigarettes—year ended June 30, 1912, \$614,121.75; on cigars and cigarettes from Philippines, \$224,758.05.

UNITED STATES INTERNAL REVENUE TAXES.

SPECIAL TAXES AND RATES.

Rectifiers of less than 500 barrels a year, \$100; rectifiers of 500 barrels or more a year, \$200.
 Wholesale liquor dealers, \$100; retail liquor dealers, \$25.
 Wholesale dealers in malt liquors, \$50; retail dealers in malt liquors, \$20.
 Manufacturers of stills, \$50; and for stills or worms, manufactured, each, \$20.
 Brewers: Annual manufacture less than 500 barrels, \$50; annual manufacture 500 barrels or more, \$100.
 Manufacturers of filled cheese, \$400; wholesale dealers in filled cheese, \$250; retail dealers in filled cheese, \$12.
 Manufacturers of oleomargarine, \$600; wholesale dealers in oleomargarine artificially colored in imitation of butter, \$480; wholesale dealers in oleomargarine free from artificial coloration, \$200; retail dealers in oleomargarine artificially colored in imitation of butter, \$48; retail dealers in oleomargarine free from artificial coloration, \$6.
 Manufacturers of adulterated butter, \$600; wholesale dealers in adulterated butter, \$480; retail dealers in adulterated butter, \$48; manufacturers of process or renovated butter, \$50; manufacturers, packers or repackers of mixed flour, \$12.

DISTILLED SPIRITS, ETC.

Distilled spirits, per gallon, \$1.10; stamps for distilled spirits intended for export, each, 10 cents; except when affixed to packages containing two or more 5-gallon cans for export, 5 cents.
 Case stamps for spirits bottled in bond, 10 cents.

Wines, liquors, or compounds known or denominated as wine, and made in imitation of sparkling wine or champagne, but not made from grapes grown in the United States, and liquors not made from grapes, currants, rhubarb or berries grown in the United States, but produced by being rectified or mixed with distilled spirits or by the infusion of any matter in spirits, to be sold as wine, or as a substitute for wine, in bottles containing not more than 1 pint per bottle or package, 10 cents; same, in bottles, containing more than 1 pint, and not more than 1 quart, per bottle or package, 20 cents (and at the same rate for any larger quantity of such merchandise, however put up or whatever may be the package). Grape brandy used in the fortification of pure, sweet wine under an act approved June 7, 1906 (to be assessed), per gallon, 3 cents.

FERMENTED LIQUORS.

Fermented liquors per barrel, containing not more than 31 gallons, \$1 (and at a proportionate rate for halves, thirds, quarters, sixths and eighths of barrels); more than one barrel of 31 gallons, and not more than 63 gallons, in one package, \$2.

TOBACCO, SNUFF, CIGARS AND CIGARETTES.

Tobacco, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 8 cents; snuff, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 8 cents.

Cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than 3 lbs. per thousand, \$3; cigars of all descriptions made of tobacco, or any substitute therefor, and weighing not more than 3 lbs. per thousand, 75 cents; cigarettes weighing more than 3 lbs. per thousand \$3.60; cigarettes weighing not more than 3 lbs. per thousand, \$1.25.

OLEOMARGARINE, ADULTERATED BUTTER AND PROCESS OR RENOVATED BUTTER.

Oleomargarine, domestic, artificially colored to look like butter, of any shade of yellow, per lb., 10 cents; oleomargarine, free from coloration that causes it to look like butter, of any shade of yellow, per lb., $\frac{1}{4}$ of one cent; oleomargarine, imported from foreign countries, per lb., 15 cents.
 Adulterated butter, per lb., 10 cents; process or renovated butter, per lb., $\frac{1}{4}$ of one cent.

FILLED CHEESE.

Filled cheese, per lb., 1 cent; same, imported, per lb., 8 cents.

OPIUM.

Prepared smoking opium, per lb., \$10.

MIXED FLOUR.

Mixed flour, per barrel of 196 lbs., or more than 98 lbs., 4 cents; half barrel of 98 lbs., or more than 49 lbs., 2 cents; quarter barrel of 49 lbs., or more than 24 $\frac{1}{2}$ lbs., 1 cent; eighth barrel of 24 $\frac{1}{2}$ lbs. or less, $\frac{1}{2}$ of one cent. (Mixed flour imported from foreign countries, in addition to import duties, must pay internal revenue tax as above.)

CIRCULATION OF AND NOTES PAID OUT BY BANKS AND BANKERS.

Circulation issued by any bank, etc., or person (except a national bank taxed under Section 5214, Revised Statutes, and Section 13, act March 14, 1900), per month, 1-12 of 1 per cent.

Circulation (except national banks) exceeding 90 per cent. of capital, in addition, per month, 1-6 of 1 per cent.

Banks, etc., on amount of notes of any person, State bank, or State banking association, used for circulation and paid out, 10 per cent.

Banks, etc., bankers, or associations, on amount of notes of any town, city, or municipal corporation paid out by them, 10 per cent.

Every person, firm, association, other than national bank associations, and every corporation, State bank, or State banking association, on the amount of their own notes used for circulation and paid out by them, 10 per cent.

Every such person, firm, association, corporation, State bank, or State banking association, and also every national banking association, on the amount of notes of any person, firm, association, other than a national banking association, or of any corporation, State bank or State banking association, or of any town, city, or municipal corporation, used for circulation, and paid out by them, 10 per cent.

PLAYING CARDS.

Playing cards, per pack, containing not more than 54 cards, 2 cents.

TAXES NOT PAYABLE BY STAMPS.

Tax on deficiencies in production of spirits—On excess of materials used in production of spirits; on circulation of banks and bankers; on notes paid out by banks and others; on brandy used in the fortification of wine. Penalties of 50 per cent. and 100 per cent.

CORPORATION TAXES.

Excise tax on corporations, joint stock companies, associations, and insurance companies (including 50 per cent. additional), unassessed penalties, United States' share of penalties recovered by suits, others in compromise, interest, costs, fines, etc. (including duplicate payments, payments in excess, and payments after abatement). Rate of tax equivalent to 1 per cent. of net income above \$5,000.

United States Executive Civil Service.

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the Civil Service Commission.)

THE purpose of the Civil Service act, as declared in its title, is "to regulate and improve the Civil Service of the United States." It provides for the appointment of three Commissioners, a chief Examiner, a Secretary, and other employes, and makes it the duty of the Commissioners to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations to govern all examinations held under the provisions of the act, and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations. The address of the Commission is Washington, D. C.

PROVISIONS OF THE RULES.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population; for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns; and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

EXTENT OF THE SERVICE.

There are 395,460 positions in the Executive Civil Service, over 58 per cent. of which, or 236,061, are subject to competitive examination. The expenditure for salaries in the Executive Civil Service is over \$200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons.

APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States, and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

EXAMINATIONS.

The examinations are open to all persons qualified in respect to age, citizenship, legal residence, character, and health. During the fiscal year ended June 30, 1912, 33,240 persons were appointed. Of those appointed, 2,264 were rural letter-carriers, 12,807 were mechanics and workmen at navy yards appointed on registration tests of fitness given by a board of labor employment at each yard. Several hundred different kinds of examinations were held, each one of which involved different tests. Three hundred and five of these examinations contained educational tests, the others being for mechanical trades or skilled occupations and consisting of certificates of employers or fellow-workmen. Examinations are held twice a year in each State and Territory, the places and dates being publicly announced.

APPOINTMENTS.

In case of a vacancy not filled by promotion, reduction, transfer, or reinstatement, the highest three of the sex called for on the appropriate register are certified for appointment, the apportionment being considered in appointments at Washington. In the absence of eligibles, or when the work is of short duration, temporary appointments, without examination, are permitted. The number of women applying for ordinary clerical places is greatly in excess of the calls of appointing officers. The chances of appointment are good for teachers, matrons, seamstresses, and physicians in the Indian Service, for male stenographers and typewriters, draughtsmen, patent examiners, civil, mechanical, and electrical engineers, and for technical and scientific experts.

PREFERENCE CLAIMANTS.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

INSULAR POSSESSIONS.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Isthmian Canal service.

THE UNCLASSIFIED SERVICE.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act.

PUBLICATIONS OF THE COMMISSION.

Among the publications of the Commission for free distribution are the following: Manual of Examinations, giving places and dates of examinations, rules by which papers are rated, descriptions of examinations, specimen questions, and general information.

The Civil Service act and rules.
The Annual Reports of the Commission, showing its work. These annual reports, of which twenty-six have been issued, may be consulted at public libraries.

The Civil Service of the United States.

CIVIL SERVICE EXAMINATIONS—(July 1, 1910, to June 30, 1911.)

The approximate number of competitive positions was 227,657; the number of persons examined was 105,024; number passed 70,159 or 66.8 per cent.; number appointed 23,256 or 33.2 per cent. of appointed that passed. According to branches of the service, the returns were as follows: Departmental examined 18,752; passed, 9,091; appointed, 1,882; Railway Mail examined, 8,972; passed, 6,760; appointed, 1,982; Post-Office examined, 42,750; passed, 34,149; appointed, 9,328; other Field Services examined 54,550; passed, 20,159; appointed, 10,064.

The term departmental, as now used in the Commissioner's statistics, refers to the service in Washington, D. C.

Civil Service Rules in the City of New York.

SYNOPSIS of regulations governing the admission of persons into the civil service of the city of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, 299 Broadway, New York City.

Under the White Civil Service law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the city of New York except officers elected by the people, all legislative officers and employes, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the civil service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

APPLICATIONS.

Applications of competitors for positions must be addressed to the "Secretary of the Municipal Civil Service Commission, New York City," and must set forth:

Applications are only received when an examination is ordered for a position.

First—The affidavit of the applicant showing his age, whether a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature, and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the city of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office in the service.

Third—The certificate of four reputable persons of the city of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of physician, surgeon, medical officer, medical superintendent, or medical inspector, that the applicant is duly authorized by the laws of the State of New York to practise medicine and surgery.

In positions where the duties are professional, technical, or expert, the candidates will be required to present evidences of the preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 75.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out.

The following municipal departments and offices come under jurisdiction of Civil Service rules:

Inspectors of Elections and Poll clerks are not subject to competitive examination.

Regents' Examinations in New York State in 1913.

REGENTS' EXAMINATIONS under the control of the Education Department of the State of New York (office, Albany, N. Y.) will be held in 1913 at the following times and places: Jan. 20-24 inclusive, at New York, and about 800 academies and high schools; June 16-20 inclusive, at New York, and about 800 academies and high schools. Examinations for teachers' certificates are held on the same dates as the Regents', and August 13-15 and 18-22, Sept. 15-17, inclusive, at New York, Albany, Syracuse, Buffalo; 33 subjects. September examinations are for professional and technical students only. Morning session begins 9.15 o'clock. Afternoon session begins 1.15 o'clock.

UNIVERSITY CREDENTIALS—Preliminary (preacademic) certificate—Reading, writing, spelling, elementary English, arithmetic, geography, and elementary United States history and civics. Students from countries where English is not the mother tongue must pass an examination in second year English for any one of the professional certificates.

LAW, MEDICINE, DENTISTRY, ETC.—Sixty count qualifying certificates. All candidates taking Regents' examinations for the first time after February 1, 1911, for qualifying certificates in law, medicine, dentistry, veterinary science, for admission to examinations for certified public accountant, and for certified shorthand reporter, must earn counts upon examination as follows:

English, three years, 10 counts; elementary algebra, 5 counts; plane geometry, 5 counts; physics and chemistry, 10 counts, or physics and biology, 10 counts, or chemistry and biology, 10 counts; any second year foreign language, 10 counts; American history with civics, 5 counts; electives, 15 counts.

The electives shall be: English fourth year, 3 counts; Latin second year, or Greek second year, or French second year, or German second year, or Spanish second year, or Italian second year, or Hebrew second year, 10 counts; advanced algebra, 5 counts; advanced arithmetic, 2 counts; physical geography, 5 counts; ancient history, 5 counts; history of Great Britain and Ireland, 5 counts; modern history 1, 3 counts; modern history 2, 3 counts; economics, 2 counts; elementary bookkeeping and business practice, 3 counts; advanced bookkeeping and office practice, 5 counts; shorthand 1, 5 counts; shorthand 2, 5 counts; telegraphic representation, 2 counts; advanced design, 2 counts; advanced representation, 2 counts.

PROFESSIONAL CERTIFICATES WITHOUT EXAMINATION—Candidates having credentials which can be accepted in place of examinations should send them to the Education Department.

MEDICAL EXAMINATIONS—The Regents shall admit to any examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State; 4. Has studied medicine not less than four school years, including four satisfactory courses of at least seven months each in four different calendar years in a medical school registered as maintaining at the time a satisfactory standard; 5. Evidence that applicant has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full rights to practise medicine in some foreign country (original credentials). Examinations for license to practise medicine in this State will be held as follows: Jan. 28-31, May 20-23, June 24-27, Sept. 23-26, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

DENTAL EXAMINATIONS—The Regents shall admit to examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of doctor of dental surgery in this State. Matriculates in a registered dental school before Jan. 1, 1896, are exempt from the preliminary education requirement for degrees and for admission to the licensing examinations; 4. Subsequently to receiving such preliminary education either has been graduated in course with a dental degree from a registered dental school, or else, having been graduated in course from a registered medical school with a degree of doctor of medicine, has pursued thereafter a course of special study of dentistry for at least two years in a registered dental school, and received therefrom its degree of doctor of dental surgery, or else holds a diploma or license conferring full right to practise dentistry in some foreign country and granted by some registered authority. Dates and places of examinations same as Medical Examinations shown above, except that no examination is given in May.

VETERINARY EXAMINATIONS—The Regents shall admit to examination any candidate who pays a fee of \$10 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required in all cases after July 1, 1897, preliminary to receiving a degree in veterinary medicine. Matriculates in a registered veterinary medical school prior to Jan. 1, 1896, are exempt from the preliminary education requirement; 4. Has studied veterinary medicine not less than three full years, including three satisfactory courses in three different academic years, in a veterinary medical school registered as maintaining at the time a satisfactory standard; 5. Has received a degree as veterinarian from some registered veterinary medical school. Dates and places of examinations same as Medical Examinations shown above.

CERTIFIED PUBLIC ACCOUNTANTS—1. The full C. P. A. certificate is to be granted only to those at least twenty-five years of age who have had three years' satisfactory experience in the study or practice of accounting, one of which shall have been in the office of an expert public accountant; 2. Two examinations, in January and in June, are held annually. There are to be five sessions as follows: 1. Theory of accounts; 2. Practical accounting; 3. Adding; 4. Commercial law; candidates must complete all subjects at a single examination; candidates for the C. P. A. certificate must be more than twenty-five years of age, and of good moral character. They must pay a fee of \$25, and must have the Regents' academic diploma or its equivalent as prescribed for other professional examinations. Dates of examinations: Jan. 28-30, June 24-26, at New York, Albany, Syracuse, and Buffalo.

REGISTRATION OF NURSES—Who May Practise as Registered Nurses—Any resident of the State of New York, being over the age of twenty-one years and of good moral character, holding a diploma from a training school for nurses connected with a hospital or sanitarium giving a course of at least two years, and registered by the Regents of the University of the State of New York as maintaining in this and other respects proper standards, all of which shall be determined by the said Regents, and who shall have received from the said Regents a certificate of his or her qualifications to practise as a registered nurse, shall be styled and known as a registered nurse, and no other person shall assume such title, or use the abbreviation R. N. or any other words, letters, or figures to indicate that the person using the name is such a registered nurse. Two examinations will be held annually in January and June respectively. Applications should be made at least ten days in advance to Education Department, Examination Division, Albany, N. Y. Dates: Jan. 28-30, June 24-26, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

OPTOMETRY EXAMINATIONS—The Regents admit to examination any candidate who pays a fee of \$15 and submits satisfactory evidence, verified by oath, that he is more than 21 years of age, of good moral character, has a preliminary education equivalent to at least two years in a registered high school, and has also studied at least three years in a registered optometrist's office or has graduated from a recognized school of optometry. The certificate of every candidate successfully passing the examination is numbered and recorded in the Regents' office, together with the candidate's photograph, a duplicate of which must be affixed to his certificate. Dates and places of examinations same as Dental Examinations shown above. (Each candidate is notified as to exact place.) Application should be made at least one week in advance to Education Department, Examinations Division, Albany, N. Y.

*Candidates who have credit in history of Great Britain and Ireland (3 or 5) may receive credit for modern history 2 but not for modern history 1. Candidates who have credit in European history may not have credit in modern history 1 or 2. †Candidates who have credit in elementary drawing based on the 1905 syllabus will receive no additional counts for passing elementary representation, but will receive two counts for passing advanced design and two counts for passing advanced representation. Candidates who have credit for advanced drawing general based on the 1905 syllabus can obtain no additional counts in drawing.

Prosecution of Trusts by the United States.

The following is the status on October 1, 1912, of the cases brought by the United States under the terms of the Sherman Anti-Trust act:

United States vs. American Sugar Refining Company et al. Southern New York.—Indictment under anti-trust act July 1, 1909. Statute of limitations pleaded as a defence. Taken to Supreme Court and decided in favor of the Government. Trial resulted in disagreement of jury.

United States vs. Albia Box & Paper Co. et al. Southern New York.—Indictment returned December 7, 1909, charging combination in restraint of trade in paper board. February 7, 1910, all defendants plead guilty and fines aggregating \$57,000 were imposed and collected.

United States vs. John S. Steers et al. Eastern Kentucky. (So-called night rider case.) Indictment returned February 17, 1910, charging conspiracy to restrain trade. April 16, 1910, verdict of guilty returned as to eight defendants and fines aggregating \$3,500 imposed. Appeal to Circuit Court of Appeals, and verdict affirmed December 5, 1911. May 11, 1912, fines were commuted by the President to payment of costs of suit.

United States vs. National Packing Company et al. Northern Illinois.—Indictment returned March 2, 1910. Demurrer sustained June 23, 1910.

United States vs. National Packing Company et al. Northern Illinois.—Bill in equity for dissolution filed March 21, 1910. Dismissed in order to facilitate prosecution of later criminal case.

United States vs. Imperial Window Glass Company et al. Western Pennsylvania.—Indictment found April 7, 1910. Demurrer overruled. Fines aggregating \$10,000 and costs imposed and paid.

United States vs. Armour Packing Company et al. Savannah, Ga.—Indictment charging combination to control prices and restrict competition returned April 30, 1910. Pending.

United States vs. Missouri Pacific Railroad Company and 24 other railroads.—Petition to restrain violation of Sherman law filed May 31, 1910, and temporary restraining order issued. Referred to Interstate Commerce Commission. Rate advances enjoined and petition dismissed.

United States vs. Southern Wholesale Grocers' Association. Northern Alabama.—Bill in equity praying for dissolution filed June 9, 1910. A perpetual restraining decree was passed by the Court October 17, 1911.

United States vs. Chicago Butter and Egg Board. Northern Illinois.—Petition filed June 13, 1910. Amended bill filed. Pending.

United States vs. Great Lakes Towing Company et al. Northern Ohio.—Petition filed June 19, 1910. Suit in equity to dissolve combination of tug owners on the Great Lakes. Case tried on June 12 and decision awaited.

United States vs. Standard Mfg. Co. et al. Maryland.—Petition in equity filed June 22, 1910, charging unlawful combination in restraint of trade. Case heard at Richmond, June, 1911, decision rendered October 13, 1911, and decree entered against defendant November 25, 1911, from which an appeal was taken and case set for hearing at October term, 1912.

United States vs. Frank Hayne and James A. Patten et al. Southern New York.—Indictment returned against alleged cotton pool conspirators August 4, 1910. Now on appeal to the Supreme Court. Case remanded for reargument at October term, 1912.

United States vs. Louis F. Swift et al. Northern Illinois.—Indictment returned in September, 1910, against ten individuals engaged in the meat packing industry. Defendants filed numerous pleas in bar, etc., which were decided in favor of the Government. After trial jury returned verdict of acquittal on March 27, 1912.

United States vs. John Beardon & Sons Company et al. Massachusetts.—Joint indictment by Federal Grand Jury October, 1910. Demurrer to indictment sustained June 23, 1911.

United States vs. Ferdinand Sulsberger et al. Massachusetts.—Jointly indicted in October, 1910, for violation of the Sherman law. Demurrer to indictment sustained June 23, 1911.

United States vs. Horatio W. Heath and Cyrus S. Hapgood. Massachusetts. Indictment returned in October, 1910, charging violation of the Sherman law. Demurrer to indictment sustained June 23, 1911.

United States vs. Standard Sanitary Manufacturing Company et al. (So-called Bathbub Trust.) Eastern Michigan.—In addition to suit in equity, indictments were returned December 6, 1910. Demurrers overruled. After trial jury reported disagreement March 14, 1912.

United States vs. American Sugar Refining Company et al. Southern New York.—Suit in equity filed November 28, 1910, attacking it as a combination in restraint of trade and praying for its dissolution. Demurrer overruled December 11, 1911. Issues joined and testimony taken.

United States vs. General Electric Company et al. Northern Ohio.—Bill in equity filed March 3, 1911, charging a combination in incandescent electric lamps. October 12, 1911, decision rendered dissolving the combination.

United States vs. Purrington et al. Northern Illinois.—Indictment returned September 14, 1910, charging combination to restrain trade in paving bricks and paving blocks. Demurrer overruled November 9, 1911.

United States vs. Hamburg American Packet Company et al. Southern New York.—Suit filed January 4, 1911, charging a combination of steamship lines regulating steerage traffic on the Atlantic Ocean. Demurrer overruled December 20, 1911. Issues joined and testimony taken.

United States vs. Eastern States Retail Lumber Dealers' Association. Southern New York.—Suit in equity filed May 19, 1911, charging a conspiracy in restraint of trade. Issues joined and testimony taken.

United States vs. Isaac Whiting et al. Massachusetts.—Indictment returned May 26, 1911, charging a combination and conspiracy to restrain trade in milk throughout the New England States. Pending on demurrer.

United States vs. Lumber Secretaries' Bureau of Information et al. Northern Illinois.—Indictment returned June 23, 1911, charging conspiracy to control the marketing of lumber and restraint of trade. Pending on demurrer.

United States vs. Bare Copper Wire Association et al. (Wire Pool Cases.) Southern New York.—Indictment returned June 29, 1911. Eighty-three individuals involved. Aggregate fines imposed and paid \$128,700.

United States vs. Lake Shore & Michigan Southern Railway Company et al. Northern Ohio.—Bill in equity filed August 4, 1911, for injunction to restrain combination and conspiracy in restraint of trade. Case has been argued and decision is awaited.

United States vs. Jay B. Pearce et al. Northern Ohio.—Indictment returned July 19, 1911, against Wall Paper Jobbers, for alleged combination and conspiracy. Trial resulted in a verdict of not guilty on May 24, 1912.

United States vs. William C. Geer et al. Southern New York.—Indictment returned April 28, 1911, against eighteen defendants, members of the Eastern Box Board Club. Pending.

United States vs. Periodical Publishing Co. Southern New York.—Bill in equity filed June, 1911, to enjoin combination and conspiracy to control prices, regulate agencies, restrict contracts and increase prices. Issues joined. Taking of testimony has been completed.

United States vs. Standard Wood Company et al. Southern New York.—Bill filed September,

PROSECUTION OF TRUSTS BY THE UNITED STATES—Continued.

1911, to enjoin combination. Involves monopoly and conspiracy in the manufacture of bundled kindling wood. On default of answer a decree was entered against defendants March 11, 1912.

United States vs. Edward E. Hartwick et al. Eastern Michigan.—Petition in equity filed August 31, 1911, alleging conspiracy and unlawful restraint. Issues joined and testimony taken.

United States vs. Hunter Milling Company et al. Western Oklahoma.—Indictment returned September 16, 1911, charging violation of Section 1 of the Sherman act. Demurrer was argued March 4, 1912 and decision reserved.

United States vs. S. W. Winslow and William Barbour et al. Massachusetts.—Two indictments (113 and 114) returned September 19, 1911, charging combination, conspiracy and monopoly in trade and shoe machinery. Demurrer to indictment 113 was sustained and demurrer to indictment 114 was overruled as to first count and sustained as to second count. From these judgments an appeal was taken to the Supreme Court of the United States, where case is pending.

United States vs. the Colorado and Wyoming Lumber Dealers' Association et al. Colorado.—Petition in equity filed September 25, 1911, for injunction against defendants for conspiracy in restraint of trade. Issues joined and testimony taken.

United States vs. W. S. Hollis et al. Minnesota.—Petition in equity filed October, 1911, alleging conspiracy and combination in the lumber trade. Issues joined and testimony taken.

United States vs. United States Steel Corporation and others. New Jersey.—Petition in equity filed October 27, 1911, alleging combination and restraint of commerce. Issues joined and testimony taken.

United States vs. Joe Cotton, Smith Cotton and Walter Barlow et al. Southern Mississippi.—Indictment returned November 15, 1911, for conspiracy.

United States vs. National Cash Register Company et al. Southern Ohio.—Petition in equity filed December 4, 1911, alleging conspiracy and numerous other unlawful acts.

United States vs. United Shoe Machinery Company et al. Massachusetts.—Petition in equity filed December 12, 1911, alleging unlawful combinations and conspiracies.

United States vs. A. Haines et al. Southern Florida.—Two indictments returned December 6, 1911, for unlawful combination and conspiracy.

United States vs. Pacific Coast Plumbing Supply Association et al. Southern California.—Petition in equity filed December 18, 1911, alleging unlawful restraint of trade. Decree enjoining defendants entered January 6, 1912.

United States vs. Keystone Watch Case Company et al. Eastern Pennsylvania.—Petition in equity filed December 20, 1911, alleging unlawful contracts, combinations and conspiracies with a view to monopolize. Issues joined and testimony taken.

United States vs. American Naval Stores Company et al. Southern Georgia.—Petition in equity filed January 8, 1912, alleging unlawful combination and conspiracy in restraint of trade. Pending on demurrer. Expediting certificate filed.

United States vs. New Departure Manufacturing Company et al. Western New York.—Indictment returned January 8, 1912, charging unlawful combination and conspiracy. Plea in abatement overruled April 2, 1912.

United States vs. North Pacific Wharves and Trading Company et al. District of Alaska.—Indictment returned February 12, 1912, charged with conspiring to monopolize coal business at Skagway. Demurrer sustained May 3, 1912.

United States vs. Pacific and Arctic Railway and Navigation Company et al. District of Alaska.—Indictment returned February 12, 1912, charging conspiracy and unlawful monopoly. Demurrer sustained May 3, 1912.

United States vs. North Pacific Wharves and Trading Company et al. District of Alaska.—Indictment returned February 12, 1912, charging conspiracy and unlawful combination. Demurrer overruled May 3, 1912.

United States vs. Pacific and Arctic Railway and Navigation Company et al. District of Alaska.—Indictment returned February 13, 1912, charging conspiracy and unlawful monopoly. Demurrer sustained, except as to corporation defendants to count No. 6.

United States vs. John H. Patterson et al. Southern Ohio.—Indictment returned February 2, 1912, charging conspiracy and unlawful monopoly. Demurrer overruled June 26, 1912.

United States vs. American-Asiatic Steamship Company et al. Southern New York.—Petition in equity filed March 30, 1912, charging unlawful combination and conspiracy.

United States vs. Miller (New York Charcoal Company) et al. Eastern New York.—Indictment returned April 2, 1912, charging conspiracy, etc. Pending on demurrer.

United States vs. International Harvester Company et al. Minnesota.—Petition in equity filed April 30, 1912, alleging monopoly.

United States vs. Aluminum Company of America. Western Pennsylvania.—Petition in equity filed May 16, 1912, to prevent further monopoly. Decree granting relief entered June 7, 1912.

United States vs. Herman Sleschen et al. Southern New York.—Petition in equity filed May 18, 1912, to prevent further restraint upon interstate and foreign commerce in coffee. Motion for preliminary injunction denied.

United States vs. Prince Line (Limited) et al. Southern New York.—Petition in equity filed June 5, 1912, charging defendants with monopoly by means of conspiracies, etc.

United States vs. Central-West Publishing Company, Western Newspaper Union, American Press Association et al. Chicago, Ill.—Petition in equity filed August 3, 1912. Consent decree entered August 3, 1912.

United States vs. Associated Billposters and Distributors of the United States and Canada and others. Chicago, Ill.—Petition in equity filed August 3, 1912.

United States vs. Motion Picture Patents Company and others. Philadelphia, Pa.—Petition in equity filed August 15, 1912.

United States vs. Calvin N. Payne and others. (Standard Oil.) Dallas, Tex.—Indictment returned August 29, 1912.

The Sherman Law.

THE following is the text of the Sherman law concerning Trusts:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

Sec. 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by a fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

Sec. 2. Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons to monopolize any part of the trade or commerce among the several States, or with foreign nations, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the Court.

Sec. 3. Every contract, combination in form of trust or otherwise, or conspiracy, in restraint of trade or commerce in any Territory of the United States, or the District of Columbia, or in restraint of trade or commerce between any such Territory and another, or between any such Territory or Territories and State or States or the District of Columbia, or with foreign nations, or between the District of Columbia and any State or States or foreign nations, is hereby declared illegal. Every person who shall make any such contract or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

Sec. 4. The several Circuit Courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of this act; and it shall be the duty of the several District-Attorneys of the United States, in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the Court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree, the Court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

Sec. 5. Whenever it shall appear to the Court before which any proceeding under Sec. 4 of this act may be pending, that the ends of justice require that other parties should be brought before the Court, the Court may cause them to be summoned, whether they reside in the district in which the Court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

Sec. 6. Any property owned under any contract or by any combination, or pursuant to any conspiracy (and being the subject thereof) mentioned in Sec. 1 of this act, and being in the course of transportation from one State to another, or to a foreign country, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

Sec. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared to be unlawful by this act may sue therefor in any Circuit Court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained, and the costs of suit, including a reasonable attorney's fee.

Sec. 8. That the word "person" or "persons" wherever used in this act shall be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the territories, the laws of any State or the laws of any foreign country.

Approved July 2, 1890.

Wheat Harvest Calendar.

The Pension Law of 1912.

THE DOLLAR A DAY PENSION PROVIDED FOR UNITED STATES CIVIL AND MEXICAN WAR VETERANS.

CONGRESS, at its Second Session in 1912 passed the following act, approved May 11, increasing the pensions of veteran Union soldiers:

An act granting pensions to certain enlisted men, soldiers and officers who served in the civil war and the war with Mexico.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any person who served ninety days or more in the military or naval service of the United States during the late civil war, who has been honorably discharged therefrom, and who has reached the age of sixty-two years or over, shall, upon making proof of such facts, according to such rules and regulations as the Secretary of the Interior may provide, be placed upon the pension roll and be entitled to receive a pension as follows: In case such person has reached the age of sixty-two years and served ninety days, thirteen dollars per month; six months, thirteen dollars and fifty cents per month; one year, fourteen dollars per month; one and a half years, fourteen dollars and fifty cents per month; two years, fifteen dollars per month; two and a half years, fifteen dollars and fifty cents per month; three years or over, sixteen dollars per month. In case such person has reached the age of sixty-six years and served ninety days, fifteen dollars per month; six months, fifteen dollars and fifty cents per month; one year, sixteen dollars per month; one and a half years, sixteen dollars and fifty cents per month; two years, seventeen dollars per month; two and a half years, eighteen dollars per month; three years or over, nineteen dollars per month. In case such person has reached the age of seventy years and served ninety days, eighteen dollars per month; six months, nineteen dollars per month; one year, twenty dollars per month; one and a half years, twenty-one dollars and fifty cents per month; two years, twenty-three dollars per month; two and a half years, twenty-four dollars per month; three years or over, twenty-five dollars per month. In case such person has reached the age of seventy-five years and served ninety days, twenty-one dollars per month; six months, twenty-two dollars and fifty cents per month; one year, twenty-four dollars per month; one and a half years, twenty-seven dollars per month; two years or over, thirty dollars per month. That any person who served in the military or naval service of the United States during the civil war and received an honorable discharge, and who was wounded in battle or in line of duty and is now unfit for manual labor by reason thereof, or who from disease or other causes incurred in line of duty resulting in his disability is now unable to perform manual labor, shall be paid the maximum pension under this act, to wit, thirty dollars per month, without regard to length of service or age.

That any person who has served sixty days or more in the military or naval service of the United States in the war with Mexico and has been honorably discharged therefrom, shall, upon making like proof of such service, be entitled to receive a pension of thirty dollars per month.

All of the aforesaid pensions shall commence from the date of filing of the applications in the Bureau of Pensions after the passage and approval of this act: Provided, That pensioners who are sixty-two years of age or over, and who are now receiving pensions under existing laws, or whose claims are pending in the Bureau of Pensions, may, by application to the Commissioner of Pensions, in such form as he may prescribe, receive the benefits of this act; and nothing herein contained shall prevent any pensioner or person entitled to a pension from prosecuting his claim and receiving a pension under any other general or special act: Provided, That no person shall receive a pension under any other law at the same time or for the same period that he is receiving a pension under the provisions of this act: Provided further, That no person who is now receiving or shall hereafter receive a greater pension, under any other general or special law, than he would be entitled to receive under the provisions herein shall be pensionable under this act.

Sec. 2. That rank in the service shall not be considered in applications filed hereunder.

Sec. 3. That no pension attorney, claim agent, or other person shall be entitled to receive any compensation for services rendered in presenting any claim to the Bureau of Pensions, or securing any pension, under this act, except in applications for original pension by persons who have not heretofore received a pension.

Sec. 4. That the benefits of this act shall include any person who served during the late civil war, or in the war with Mexico, and who is now or may hereafter become entitled to pension under the acts of June 27, 1890, February 15, 1895, and the joint resolutions of July 1, 1902, and June 28, 1906, or the acts of January 29, 1887, March 3, 1891, and February 17, 1897.

Sec. 5. That it shall be the duty of the Commissioner of Pensions, as each application for pension under this act is adjudicated, to cause to be kept a record showing the name and length of service of each claimant, the monthly rate of payment granted to or received by him, and the county and State of his residence; and shall at the end of the fiscal year 1914, tabulate the record so obtained by States and counties, and shall furnish certified copies thereof upon demand and the payment of such fee therefor as is provided by law for certified copies of records in the executive departments.

International Polar Commission.

ORGANIZED at Brussels, Belgium, May 29, 1908. *President*—Rear-Admiral Umberto Cagni, R. N., Italy. *Vice-President*—Dr. Otto Nordenskjöld, Sweden. *Secretary*—Prof. Georges Lecointe, Uccle, Belgium.

MEMBERS—Prof. E. Bruckner, Prof. G. Trabert, Prof. E. Oberhummer and Prof. A. Grund, Austria; Baron Roland Eötvös, Rear-Admiral A. Gratzl, Prof. R. de Kövesligethy, and Dr. J. Kepes, Hungary; Capt. A. de Gerlache de Gomery, Brussels, and Prof. Georges Lecointe, Uccle, Belgium; Rear-Admiral Louis A. Goué, Chile; Capt. Holm, Capt. Koch, Capt. Amdrup, and Dr. la Cour, Denmark; Rear-Admiral Robert E. Peary, U. S. N., and Herbert L. Bridgman, United States; Capt. Cagni, R. N., Prof. G. Cora, Capt. Roncagli Giovanni, and Cavalier Molinelli Pietro, Italy; Dr. Van der Stok, Capt. Phaff, Dr. Van Everdingen, and J. L. H. Loynes, Netherlands; Prof. Mehedinti, Prof. Coculesco, and Prof. Stefan Popescu, Roumania; Sir John Murray, Prof. Rudmose Brown, Dr. Bruce, Dr. Bartholomew, and Dr. Richardson, Grande Bretagne; Dr. Tchernichoff and Dr. Kuipovitch, Russia; Dr. Baron de Geer, Dr. De Nordenskjöld, Dr. Hamberg and Dr. Andersson, Sweden; Prof. Von Drygalsky, Prof. Albrecht, Dr. Supan and Dr. Wiechert, Germany.

Phoebe M. Wooley (Palmer), the last daughter of a Revolutionary soldier (Jonathan Wooley), on pension roll, died April 25, 1911, age 90.

The number of enrolled pension attorneys in 1912 was 25,000.

The following are the rates for total disability from causes incident to the service:

Army—Lieutenant-colonel and all officers of higher rank, \$30; major, surgeon, and paymaster, \$25; captain, provost marshal, and chaplain, \$20; first lieutenant, assistant surgeon, and deputy provost marshal, \$17; second lieutenant and enrolling officer, \$15; enlisted men, \$8.

Navy—Captain and officers of higher rank, commander, lieutenant commanding and master commanding, surgeon, paymaster, and chief engineer, respectively ranking with commander by law, \$30; lieutenant, surgeon, paymaster, and chief engineer, respectively ranking with lieutenant by law, and passed assistant surgeon, \$25; master, professor of mathematics, assistant surgeon, assistant paymaster and chaplain, \$20; first assistant engineer, ensign, and pilot, \$15; cadet midshipman, passed midshipman, midshipman, clerks of admirals, paymasters, or other officers commanding vessels, second and third assistant engineers, master's mate, and warrant officers, \$10; enlisted men, \$8.

Marine Corps—Lieutenant-colonel and officers of higher rank, \$30; major, \$25; captain, \$20; first lieutenant, \$17; second lieutenant, \$15; enlisted men, \$8.

Pension at certain ages on account of service in the civil and Mexican wars. Act of May 11, 1912.

Any person who served ninety days or more in the military or naval service of the United States during the late civil war, and who has been honorably discharged therefrom, and who has reached the age of sixty-two years or over, on making proof of such facts is entitled to receive a pension as follows: Age sixty-two years—For a service of 90 days, \$13.00 per month; 6 months, \$13.50; 1 year, \$14.00; 1½ years, \$14.50; 2 years, \$15.00; 2½ years, \$15.50; 3 years and more, \$16.00. Age 66 years—For a service of 90 days, \$15.00 per month; 6 months, \$15.50; 1 year, \$16.00; 1½ years, \$16.50; 2 years, \$17.00; 2½ years, \$18.00; 3 years and more, \$19.00. Age 70 years—For a service of 90 days, \$18.00 per month; 6 months, \$19.00; 1 year, \$20.00; 1½ years, \$21.50; 2 years, \$23.00; 2½ years, \$24.00; and 3 years and more, \$25.00. Age 75 years—For a service of 90 days, \$21 per month; 6 months, \$22.50; 1 year, \$24.00; 1½ years, \$27.00, and 2 years and more, \$30.00. And such pension shall commence from the date of filing the application in the Bureau of Pensions. Any person who served sixty days or more in the war with Mexico, and who received an honorable discharge, is entitled to \$30.00 per month. Any person who was wounded in battle or in line of duty in the civil war, and is now unfit for manual labor by reason thereof, or who from disease or other causes incurred in line of duty resulting in his disability, is now unable to perform manual labor, is entitled to \$30.00 per month.

Patent Office Procedure.

THE following statement has been revised by the Patent Office for THE WORLD ALMANAC for 1913:

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specification for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

APPLICATIONS.

If an inventor wishes to file an application for patent, a copy of the Rules of Practice, containing forms and instructions, will be sent upon request. It is advisable, however, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor and attested by two witnesses.

When the nature of the case admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact, and attested by two witnesses. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called on by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, chargé d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge or magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the same is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without

PATENT OFFICE PROCEDURE—Continued.

any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

FEES.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, \$15. On issuing each original patent, \$20. In design cases: For three years and six months, \$10; for seven years, \$15; for fourteen years, \$30. On every application for the reissue of a patent, \$30. On filing each disclaimer, \$10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, \$1; of over three hundred and under one thousand words, \$2; for each additional thousand words, or fraction thereof, \$1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of any drawing, foreign or domestic, in the possession of the office, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12 1/2 inches, fifteen cents. Fee for examining and registering trade-mark, \$10, which includes certificate. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

PATENT OFFICE STATISTICS.

The receipts of the Patent Office during the year ending December 31, 1911, were \$2,019,388.03, and expenditures, \$1,953,689.91. Receipts over expenditures, \$65,698.12. Net surplus in the U. S. Treasury on account of the patent fund, \$7,063,925.76.

The following is a statement of the business of the office for the year ending December 31, 1911:

Number of applications for patents.....	67,370	Number of patents granted, including designs.....	33,927
Number of applications for design patents.....	1,534	Patents reissued.....	157
Number of applications for reissue patents.....	217	Total.....	34,084
Total.....	69,121	Number of trade-marks registered.....	4,205
Number of applications for registration of trade-marks.....	7,055	Number of labels registered.....	659
Number of applications for registration of labels.....	969	Number of prints registered.....	248
Number of applications for prints.....	337	Total.....	5,112
Number of disclaimers filed.....	10	Number of patents expired.....	19,875
Number of appeals on the merits.....	1,693	Number of patents forfeited for non-payment of final fees.....	7,028
Total.....	10,094	Number of applications allowed awaiting final fees.....	11,803
		Number of trade-mark applications passed for publication.....	4,767

The total number of applications filed at the Patent Office in seventy-three years, 1837-1910, was 1,785,912; number of original patents, including designs and reissues issued, 1,068,511.

There is now no law permitting the filing of a caveat, the old law having been repealed July 1, 1910. Patent No. 1,000,000 was granted August 8, 1911, to F. H. Holton, of Akron, O., for an automobile tire.

The following is a statement of patents and designs issued in 1911 according to residence of patentees:

Alabama, 163; Alaska, 5; Arizona, 41; Arkansas, 135; California, 1,575; Canal Zone, 9; Colorado, 477; Connecticut, 845; Delaware, 56; District of Columbia, 239; Florida, 104; Georgia, 224; Hawaii, 19; Idaho, 105; Illinois, 3,172; Indiana, 726; Iowa, 583; Kansas, 382; Kentucky, 240; Louisiana, 165; Maine, 142; Maryland, 272; Massachusetts, 1,842; Michigan, 1,035; Minnesota, 475; Mississippi, 113; Missouri, 945; Montana, 112; Nebraska, 318; Nevada, 39; New Hampshire, 81; New Jersey, 1,360; New Mexico, 50; New York, 4,777; North Carolina, 191; North Dakota, 132; Ohio, 2,233; Oklahoma, 235; Oregon, 246; Pennsylvania, 2,919; Philippine Islands, 6; Porto Rico, 7; Rhode Island, 315; South Carolina, 65; South Dakota, 109; Tennessee, 175; Texas, 591; Utah, 103; Vermont, 61; Virginia, 226; Washington, 410; West Virginia, 196; Wisconsin, 703; Wyoming, 26; U. S. Army, 10; U. S. Navy, 16. Total, 429,801.

Foreign countries: Austria-Hungary, 140; Belgium, 37; Canada, 554; Cuba, 10; Denmark, 32; England, 935; France, 347; Germany, 1,320; Italy, 62; Japan, 12; Mexico, 42; Norway, 36; Russia, 49; Scotland, 47; Sweden, 92; Switzerland, 108; other countries, 235. Total foreign, 4,058.

GENERAL PATENT STATISTICS.

The following table is compiled from the report of the Commissioner of Patents for 1912. It exhibits the number of patents issued by foreign countries (estimated) and the United States from the earliest records to December 31, 1911:

COUNTRIES.	To 1870 inclusive.	1871 to 1911.	Total.	COUNTRIES.	To 1870 inclusive.	1871 to 1911.	Total.
Austria.....		70,463	70,463	Russia.....	1,464	25,453	26,917
Austria-Hungary..	15,350	67,583	82,933	Spain.....		46,915	46,915
Belgium.....	35,014	213,156	248,170	Sweden.....	1,629	33,696	35,325
Canada.....	4,081	137,325	141,406	Switzerland.....		53,449	53,449
France.....	103,931	352,710	456,641	All other foreign countries.....	8,363	178,323	186,686
Germany.....	9,996	249,638	259,634	Total foreign.....	238,437	2,003,658	2,242,095
Great Britain.....	53,408	389,627	443,035	United States.....	120,573	902,478	1,023,051
Hungary.....		50,474	50,474	Grand total.....	359,010	2,906,136	3,265,146
India.....	445	11,476	11,921				
Italy and Sardinia.	4,723	102,179	106,902				
Japan.....		21,191	21,191				

* Including 9,957 Patents issued prior to July 1, 1836, on which date the present series began. † Not including 157 reissues and 63 patents withdrawn.

Registration of Trade-Marks

IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," approved February 20, 1905, and amended by act approved March 2, 1907, and by act approved February 18, 1909.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the mind of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By act of Congress approved February 18, 1909, the second section of the trade-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought

REGISTRATION OF TRADE-MARKS—Continued.

to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

TRADE-MARK TREATIES WITH FOREIGN NATIONS.

The following is a list of the Governments with which conventions for the reciprocal registration and protection of trade-marks have been entered into by the United States—Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain (including colonies), Italy, Japan (including China and Korea), Luxemburg, Mexico, Russia, Roumania, Servia, Spain. The laws of Switzerland and the Netherlands being so framed as to afford reciprocal privileges to the citizens or subjects of any Government which affords similar privileges to the people of those countries, the mere exchange of diplomatic notes, giving notice of the fact, accomplishes all the purposes of a formal convention.

Naval History Society.

President—Rear-Admiral Stephen B. Luce, U. S. N., Newport, R. I. *Vice-President*—Rear-Admiral French E. Chadwick, U. S. N., Newport, R. I. *Secretary-Treasurer*—Robert W. Neeser, 247 5th Ave., New York City.

The Sixty-second Congress of the United States, Second Session, enacted the following law: Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Charles Francis Adams, of Massachusetts; James Barnes, of New York; Willard H. Brownson, of the District of Columbia; French E. Chadwick, of Rhode Island; William C. Church, of New York; George Dewey, of the District of Columbia; Henry A. du Pont, of Delaware; Loyall Farragut, of New York; Caspar F. Goodrich, of Connecticut; Charles T. Harbeck, of New York; Grenville Kane, of New York; Stephen B. Luce, of Rhode Island; John F. Meigs, of Pennsylvania; Robert W. Neeser, of New York; Herbert L. Satterlee, of New York; Charles H. Stockton, of the District of Columbia; Charles W. Stewart, of the District of Columbia; Robert M. Thompson, of New York; Richard Wainright, of the District of Columbia; John W. Weeks, of Massachusetts, and their associates and successors, be, and they are hereby, incorporated and made a body politic and corporate in the District of Columbia, by the name of "The Naval History Society;" and by that name may sue or be sued, plead and be impleaded, in any court of law or equity, and may have and use a common seal, and change the same at pleasure, and be entitled to use and exercise all the powers, rights and privileges incidental to fraternal and benevolent corporations within the District of Columbia.

SEC. 2. That the object of such corporation shall be to discover and procure data, manuscripts, writings, and whatever may relate to naval history, science, and art, and the surroundings and experiences of seamen in general and of American seamen in particular, and to preserve same by publication or otherwise.

SEC. 4. That said corporation shall have the right to hold meetings at any place in the United States, but annual meetings for the election of officers shall be held in the city of Washington, where the principal office of said corporation shall be.

SEC. 5. That the said corporation shall have the power to take and hold, by gift, grant, purchase, or devise, real and personal property not exceeding in value five hundred thousand dollars, which shall not be divided among the members of the corporation, but shall be used and administered as a trust for the purposes of the corporation, and so far as unexpended transmitted to their successors for the further promotion of such purposes.

SEC. 6. That the government of such corporation shall be vested in a board of eleven managers, to be elected by the members of such corporation, and the corporation shall have such officers as its constitution and by-laws may prescribe. The incorporators herein named, or a majority of them, shall act as the board of managers until their successors in office are chosen at the first meeting of the society after the passage of this act.

Harvest Moon.

THE Harvest Moon is the full moon that makes its appearance at the time of the harvest or about the Autumnal equinox. Because of the small angle that is made by the moon's orbit with the horizon, it rises at the same time for several days and it enables the farmer to continue his work after sunset.

Hunters' Moon follows the Harvest Moon and is similar inasmuch as it rises at the same hour for several days. It is called Hunters' Moon because the crops having been harvested, there is nothing to interfere with the pleasures of the sportsman.

The Chamber of Commerce OF THE UNITED STATES OF AMERICA.

ORGANIZED at the National Commercial Conference called by the President of the United States and held at Washington, D. C., April 22 and 23, 1912.

President—Harry A. Wheeler, Chicago, Ill. *Vice-Presidents*—J. N. Teal, Portland, Ore., for Pacific Slope; Sam. D. Jones, Atlanta, Ga., for Southern States; A. B. Farquhar, York, Pa., for Eastern States, and H. E. Miles, Racine, Wis., for Mississippi Valley States. *Treasurer*—John Joy Edson, Washington, D. C. *Chairman Executive Committee*—John H. Fahey, Boston, Mass. *General Secretary*—Elliot H. Goodwin, Washington, D. C. *Assistant Secretary*—D. A. Skinner, Washington, D. C. *Field Secretary*—E. F. Trefz, Chicago, Ill. *Chief, Editorial Division*—Grosvenor Dawe, Washington, D. C.

PURPOSES—To encourage and promote the organization of associations of business men in all parts of the country. To study the work of existing organizations and their value to their respective trades and communities, and to clear the information thus acquired for the benefit of all organizations desiring to increase their efficiency. To advocate the standardization of association methods and of association effort, and to urge the adoption of those standards which have been found most effective in so far as they may be applicable to local or trade conditions.

To study the work performed by all Government Bureaus in any way related to the commerce of the country, to encourage and support appropriation measures for their further development, and to utilize the data which they gather by directing it into the channels to which it is immediately applicable.

To carefully analyze all statistics with regard to the production and distribution of our manufactures at home and abroad; to be watchful of every influence calculated to retard our commercial development, and to become the source of information with respect to new opportunities for trade expansion, especially in foreign markets.

When debatable policies affecting our National commerce are advocated by the Federal authorities, there should be a recognized organization capable of expressing the business opinion of the entire country available for conference, alike to the Executive and legislative branches of the Government. It is the purpose of the Chamber of Commerce of the United States of America to act in this capacity—not to originate legislation, nor to be unnecessarily critical of legislation proposed by others, but rather to assume that the National Government desires to act in harmony with the commercial interests of the country and will accept our co-operation in an endeavor to make all business legislation constructive.

There are three great wealth-producing factors in our National life—Commerce, Labor and Agriculture. Labor, through its State and National organizations, strives for legislation in its own interest and presents its demands with the united voice of two million union workers. Agriculture likewise presents its demands through its National organization, and these are heeded in both State and National Legislatures. Commerce has been organized into local and trade groups, but not as an effective National unit, and it is to provide such a unit, as powerful as those enjoyed by Labor and Agriculture, that the Chamber of Commerce of the United States is now organized. These three great factors, through their National organizations, may find a means for co-operation on many subjects in which there is a vital joint interest.

MEMBERSHIP—Every commercial or manufacturers' association not organized for private purposes, shall be eligible for membership in the Chamber. Such associations shall be of two classes.

First—Local or State commercial or business organizations whose chief purpose is the development of the commercial and industrial interests of a single State, city or locality.

Second—Local, State, interstate or National organizations whose membership is confined to one trade, or group of trades.

Election to membership shall only be by majority vote of the Board of Directors. It will be observed from the foregoing provision that the Chamber of Commerce will be composed only of organizations, individual membership not being permissible.

REPRESENTATION—Each member of the Chamber of Commerce of the United States of America shall be entitled to one delegate and one vote for the first twenty-five members, and one delegate and one vote for each additional one hundred members in excess of twenty-five, but no member shall be entitled to more than ten delegates and ten votes. Organizations having less than twenty-five members may be admitted to membership if in the judgment of the Board of Directors their importance would justify their admission, and these shall be entitled to one delegate and one vote.

The United States Government Printing Office.

IN this establishment practically all the printing for the United States Government is done except the manufacture of paper money and postage stamps. The Public Printer is the executive head of the Government Printing Office. Directly or through his principal officers he purchases all materials and machinery subject to the provisions of law, disburses all money, appoints all officers and employees, and exercises general supervision over the affairs of the office. The Superintendent of Documents has general supervision over the distribution of all public documents, excepting those printed for the use of the two Houses of Congress and for the Executive Departments. He is required to prepare a comprehensive index of public documents and consolidated index of Congressional documents, and is authorized to sell at cost any public document in his charge, the distribution of which is not specifically directed.

The principal officers are as follows: Public Printer, Samuel B. Donnelly; Deputy Public Printer, Henry T. Brian; Chief Clerk, William J. Dow; Purchasing Agent, Edward S. Moores; Superintendent of Work, John R. Berg; Foreman of Printing, Frank C. Wallace; Congressional Record Clerk, William A. Smith; Superintendent of Documents, August Donath.

Society of the Chagres.

President—Col. Thos. M. Cooke. *Vice-President*—John Burke. *Secretary-Treasurer*—William F. Shipley, Cristobal, Canal Zone.

Membership in the Society is limited to white employes of the Isthmian Canal Commission or of the Panama Railroad Company, who have earned the Roosevelt Canal Medal and two bars prior to the official opening of the Canal. The Roosevelt Canal Medal and two bars is only conferred on American citizens who serve six years continuously on the Isthmus of Panama for the Isthmian Canal Commission or Panama Railroad Company.

The Society was organized October 7, 1911, and consists of about 310 members.

National German-American Alliance.

FOUNDED IN 1900.

HEADQUARTERS, Philadelphia, Pa. *President*—Dr. C. J. Hexamer, 419 Walnut Street, Philadelphia, Pa. *First Vice-President*—Joseph Keller, Indianapolis, Ind. *Treasurer*—H. Weniger, 437 Arch Street, Philadelphia, Pa. *Secretary*—Adolph Timm, 522 W. Lehigh Avenue, Philadelphia, Pa.

Membership in United States over 2,000,000.

PRINCIPLES OF THE NATIONAL GERMAN-AMERICAN ALLIANCE OF THE UNITED STATES OF AMERICA.

The National German-American Alliance aims to awaken and strengthen the sense of unity among the people of German origin in America with a view to promote the useful and healthy development of the power inherent in them as a united body for the mutual energetic protection of such legitimate desires and interests not inconsistent with the common good of the country, and the rights and duties of good citizens; to check nativistic encroachments; to maintain and safeguard the good friendly relations existing between America and the old German fatherland. To read the history of German immigration is to be convinced how much it has contributed to the advancement of the spiritual and economic development of this country, and to realize what it is still destined to contribute, and how the German immigrant has at all times stood by his adopted country in weal or in woe.

The Alliance demands therefore the full honest recognition of these merits and opposes every attempt to belittle them. Always true to the adopted country, ever ready to risk all for its welfare, sincere and unselfish in the exercise of the duties of citizenship, respecting the law—still remains the watchword! It has no exclusive interests in view, nor the founding of a State within a State, but sees in the centralization of the inhabitants of German origin the shortest road to and the surest guarantee for the attainment of the aims set forth in this constitution; it calls therefore on all German organizations—as the organized representatives of the German spirit and manners—to co-operate with it for their healthy development, and recommends further the formation of societies in all the States of the Union for the preservation of the interests of German-Americans, looking toward an eventual centralization of these societies into a great German-American Alliance, and would have all German societies consider it a duty and an honor to join the organization in their respective States. The Alliance engages to labor firmly and at all times with all the legal means at its command for the maintenance and propagation of its principles, and to defend them energetically wherever and whenever they are in danger; its purposes are the following platform:

1. The Alliance, as such, refrains from all interference in party politics, reserving, however, the right and duty to defend its principles also in the political field, in case these should be attacked or endangered by political measures.

2. Questions and matters of religion are strictly excluded.

3. It recommends the introduction of the study of German into the public schools on the following broad basis:

Along with English, German is a world language; wherever the pioneers of civilization, trade and commerce have penetrated, we find the people of both languages represented; wherever real knowledge of another language prevails more generally, there an independent, clear and unprejudiced understanding is more easily formed and mutual friendly relations promoted.

4. We live in an age of progress and invention; the pace of our time is rapid, and the demands on the individual are inexorable; the physical exertion involved increases the demands on the bodily force; a healthy mind should live in a healthy body. For these reasons the Alliance will labor for the introduction of systematic and practical gymnastic (physical culture) instruction in the public schools.

5. It furthermore declares in favor of taking the school out of politics, for only a system of education that is free from political influence can offer the people real and satisfactory schools.

6. It calls on all Germans to acquire the right of citizenship as soon as they are legally entitled to it, to take an active part in public life, and to exercise their right at the polls fearlessly and according to their own judgment.

7. It recommends either a liberal and modern interpretation, or the abolition of laws that put unnecessary difficulties in the way of acquiring the right to citizenship, and frequently entirely prevent it. Good character, unblamable upright life, obedience to laws should decide, and not the answering or non-answering of arbitrary selected political or historical questions, which easily confuse the applicant.

8. It opposes any and every restriction of immigration of healthy persons from Europe, exclusive of convicted criminals and Anarchists.

9. It favors the abolition of antiquated laws no longer in accordance with the spirit of the times, which check free intercourse and restrict the personal freedom of the citizen.

10. It recommends the founding of educational societies which will foster the German language and literature, teach those anxious to learn, and arrange courses of lectures on art and science and questions of general interest.

11. It recommends a systematic investigation of the share Germans have had in the development of their adopted country, in war and in peace, in all kinds of German-American activity, from the earliest days, as the basis for the founding and continuance of a German-American history.

12. It reserves the right to extend or supplement this platform, when new conditions within the scope of its time and aims make it desirable or necessary.

Public Health Service.

[Public Law No. 265.]

BE it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Public Health and Marine-Hospital Service of the United States shall hereafter be known and designated as the Public Health Service, and all laws pertaining to the Public Health and Marine-Hospital Service of the United States shall hereafter apply to the Public Health Service, and all regulations now in force, made in accordance with law for the Public Health and Marine-Hospital Service of the United States, shall apply to and remain in force as regulations of and for the Public Health Service until changed or rescinded. The Public Health Service may study and investigate the diseases of man and conditions influencing the propagation and spread thereof, including sanitation and sewage and the pollution either directly or indirectly of the navigable streams and lakes of the United States, and it may from time to time issue information in the form of publications for the use of the public.

Approved August 14, 1912.

Fisheries of the United States.

UNITED STATES BUREAU OF FISHERIES.

DEPARTMENT OF COMMERCE AND LABOR.

THE work of the Bureau of Fisheries comprises (1) the propagation of useful food fishes, including lobsters, oysters and other shellfish, and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish-culture, and the investigation of the fishing grounds of the Atlantic, Gulf and Pacific coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries and the study of their methods and relations. The Bureau also has jurisdiction over the fur-seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the Bureau is as follows: *Commissioner*, George M. Bowers; *Deputy Commissioner*, Hugh M. Smith; *Chief Clerk*, I. H. Dunlap. *Chief, Division of Alaska Fisheries*, Barton W. Evermann. *Assistants in Charge of Division: Inquiry Respecting Food Fishes*, Henry F. Moore; *Fish Culture*, Robert S. Johnson; *Statistics and Methods*, A. B. Alexander; *Architect and Engineer*, Hector von Bayer.

The Life-Saving Service.

THE ocean and lake coasts of the United States are picketed with the stations of the Life-Saving Service attached to the United States Treasury Department, Sumner I. Kimball is general superintendent, with headquarters at Washington, and there is a corps of inspectors, superintendents, station keepers, and crews, extending over the entire coast line, together with a Board on Life-Saving Appliances, composed of experts selected from the Revenue Cutter Service, the Army, the Life-Saving Service, and civilians.

At the close of the last fiscal year the life-saving establishment embraced 284 stations, 203 being on the Atlantic coast, 61 on the lakes, 19 on the Pacific coast, and 1 at the falls of the Ohio, Louisville, Ky. In the following table are the statistics of the service:

	Year Ending	Since Introduction		Year Ending	Since Introduction
	June 30, 1912.	of Life-Saving Sys- tem in 1871, to June 30, 1912.		June 30, 1912.	of Life-Saving Sys- tem in 1871, to June 30, 1912.
Disasters.....	455	23,166	Shipwrecked persons succored		
Value property Involved.....	\$11,896,205	\$316,877,974	at stations.....	280	23,702
Value property saved.....	\$9,860,995	\$254,461,277	Days' succor afforded.....	612	53,886
Value property lost.....	\$2,035,210	\$61,970,972	Vessels totally lost on U. S.		
Persons involved.....	3,731	149,824	coasts.....	46
Persons lost.....	61	1,283			

In addition to the foregoing there were 1,275 casualties to smaller craft, such as sailboats, row-boats, etc., on which there were 3,458 persons, of whom 10 were lost. The cost of the maintenance of the service during the year was \$2,346,881.02.

U. S. Volunteer Life-Saving Corps.

(Incorporated and Organized in most of the States.)

Officers—James R. Howe, President; Ernest H. Luebbers, Jr., Secretary; K. F. Mehrtens, Assistant Secretary; Wm. P. Jackson, Treasurer. W. E. Longfellow, General Superintendent.

The United States Volunteer Life-Saving Corps has 2,000 patrolled stations and 22,000 enrolled members, all expert swimmers, yachtsmen and boatmen, with about 6,000 boats, from dories to expensive sail, steam, and gasoline launches. (It has saved in the Greater City, approximately, 200 lives; rendered "First Aid" in 600 cases; assisted 300 people on the water, and assisted 125 boats in distress.)

The corps is well organized in New York State, Massachusetts, Connecticut, New Jersey, Maryland, District of Columbia, Pennsylvania, Kentucky and other States as far West as California. It has been giving free instruction in swimming in both male and female departments of all the Public Free Baths of Greater New York—2,500 persons having been taught during the season of 1911, and has built 20 life-saving stations, one dock, and placed 45 lifeboats throughout the Greater City.

The corps furnishes its various crews, free of charge, according to the funds available for the various districts and departments, ring life preservers, metallic life preservers, ice balls, medicine chests, flags, signs, charts and boats, and builds life-saving stations at the most dangerous points. It is supported wholly by voluntary contributions, with the exception of the Departments of Greater New York, Rhode Island, Bayonne, N. J.; Bridgeport, Ct.; New Rochelle, N. Y., and Yonkers, N. Y., which are aided by appropriations from the cities and States, respectively.

LIFE-SAVING STATIONS IN GREATER NEW YORK.

The city of New York is divided into sixteen Inspection Districts as follows:

District No. 1—Bronx, Hunter's Island to Port Morris. Inspector Edward F. Otto.

District No. 2—Both sides Harlem River. Inspector Ernest Hultgren.

District No. 3—Hudson River, Spuyten Duyvil to Forty-second Street. Inspector Wm. P. Schott.

District No. 4—Forty-second Street to Pier 1, Hudson River.

District No. 5—Pier 1 to Fulton Ferry.

District No. 6—Manhattan side of East River to 120th Street. Inspector George White.

District No. 7—Bayside to Wallabout. Inspector George White.

District No. 8—Brooklyn Shore to Fort Hamilton. Inspector Charles Snyder.

District No. 9—Coney Island Creek and both shores Gravesend Bay. Inspector John Herold.

District No. 10—Coney Island, Ocean front, Sheepshead Bay, Plum Island. Inspector George B. Hunt.

District No. 11—Jamaica Bay to trestle. Inspector Otto Nueske.

District No. 12—Head Jamaica Bay above trestle. Inspector Harry Eschenbacher.

District No. 13—Rockaway Ocean front, Far Rockaway to Hollands. Inspector C. F. Watkins, acting.

District No. 14—Seaside to Rockaway Point. Inspector Fred C. Mills.

District No. 15—Staten Island, St. George to Woodland Beach, inclusive.

District No. 16—Woodland Beach around Totenville, the Kills to St. George on Jersey side of Staten Island.

National Women's Life-Saving League.

ORGANIZED for work among women and children. Its purposes are: To encourage swimming by women and children; to co-operate with other organizations, whenever advisable, in the dissemination of knowledge on life-saving from drowning and "first aid" to the injured; to encourage interest and promote efficiency in swimming and life-saving by the holding of annual competitions for medals, prizes and the like; to encourage and advocate simplicity and rationalism in bathing and swimming costumes; to establish an athletic branch for the supervision of athletics for women by women, in order to raise the dignity of such branch of outdoor sports so that all women may participate in the healthful and instructive exercises of swimming and life-saving; to advocate the general adoption of swimming and life-saving—Rescue and Resuscitation—as a branch of elementary education.

It conducts free classes of instruction in swimming at all the Municipal plunges, free competitions for the entertainment and benefit of its members, and public exhibition drills for the purpose of public instruction. The dues of the League are 50 cents a year, to cover postage and incidentals, bringing the membership of the organization within the reach of all working women.

President—Katherine F. Mehrtens. **Vice-President**—Florence West. **Treasurer**—Sarah L. Marrin. **Secretary**—Adeline Trapp, 143 Havemeyer Street, Brooklyn, N. Y.

International Peace Forum.

To promote peace among the nations of the world, by encouraging a systematic study of the causes of war and the best methods to effect its abolition:

1. By the maintenance of a literary bureau for the moulding of public opinion regarding the various phases of the peace movement and the appalling nature and consequences of war;
2. By conducting a speakers' bureau to secure representative men for mass meetings, religious and patriotic services, conferences, conventions, chautauquas and congresses;
3. By organizing in every State in the Union and throughout the world, auxiliaries of the Forum, to be controlled and directed from the International headquarters;
4. By the speedy discovery and execution of the means best calculated to unite the nations of the earth in a proclamation establishing compulsory arbitration and consequent abolition of war;
5. Also to work for the establishment of peace in the industrial world, by diffusing information relating to economic questions, and thus safeguard the rights of life, liberty and property—securing such conditions of industrial and economic competition as are fundamental to the peace of the world.

The Forum in endeavoring to bring about industrial peace is striving for the enactment of a measure which will make illegal the calling of a strike until the lapse of a fixed period of time for the purpose of investigation by an impartial tribunal, which shall render a report on the merits of the controversy.

Honorary President—Hon. William H. Taft; **President**—John Wesley Hill; **Secretary**—Loog Kedick; **Treasurer**—Henry Clews. Headquarters, 185 Madison Avenue, New York City.

The United States Revenue Cutter Service.

THE United States Revenue Cutter Service is a military arm of the Government attached to and under the direction of the Treasury Department. The Service was organized in 1790 and constituted the original naval force of the country. There being at that time no Navy Department, the Service was placed under the Treasury Department, where it has remained ever since. It is charged with the enforcement of the navigation and customs laws of the United States, the assistance of vessels in distress, the protection of the sealing industry in Alaska, the enforcement of the quarantine laws, the destruction of derelicts and other floating dangers to navigation, and numerous other duties appropriate to its class of vessels. Each Winter, by direction of the President, a number of the cutters patrol the coast for the special purpose of assisting vessels in distress. The Service co-operates with the Navy when directed by the President and has so co-operated in every war in which the United States has been engaged. The officers of the Service are commissioned by the President and hold rank by law with officers of the Army and Navy as follows:

Captain-Commandant with Colonel in the Army and Captain in the Navy; Senior Captains and Engineer-in-Chief with Lieutenant-Colonels in the Army and Commanders in the Navy; Captains with Majors in the Army and Lieutenant-Commanders in the Navy; First Lieutenants with Captains in the Army and Lieutenants in the Navy; Second Lieutenants with First Lieutenants in the Army and Lieutenants (Junior Grade) in the Navy; Third Lieutenants with Second Lieutenants in the Army and Ensigns in the Navy.

There are now in the Service 228 commissioned officers and cadets on the active list, and 1,500 petty officers and enlisted men. The officers are: 1 Captain-Commandant, 6 Senior Captains, 31 Captains, 37 First Lieutenants, 42 Second Lieutenants, 22 Third Lieutenants, 16 Cadets of the line, 1 Engineer-in-Chief, 6 Captains of Engineers, 28 First Lieutenants of Engineers, 22 Second Lieutenants of Engineers, 16 Third Lieutenants of Engineers, 2 Cadet Engineers and 2 Constructors.

Commissioned officers of the line are appointed from Cadet graduates of the School of Instruction at New London, Ct. The Cadet course covers three years and embraces professional and academic subjects. Cadets are appointed after competitive examinations, conducted by boards of commissioned officers of the Revenue Cutter Service. Candidates must be not less than eighteen nor more than twenty-four years of age.

Appointments to the Engineer Corps are made after competitive examination, and successful candidates are appointed Cadet Engineers for a period of six months prior to being commissioned Third Lieutenants of Engineers in the Service. Candidates for the Engineer Corps must be not less than twenty-one nor more than twenty-six years of age.

The present Commandant of the Service is Captain-Commandant Ellsworth P. Bertholf, U. S. R. C. S., and Engineer-in-Chief Chas. A. McAllister, U. S. R. C. S., is head of the Engineer Corps.

The organization of the Division of Revenue Cutter Service is as follows:

Captain Preston H. Ueberroth, U. S. R. C. S., in charge of Personnel and Operations; Second Lieutenant William Williams, U. S. R. C. S., Assistant for Personnel; First Lieutenant Leonard T. Cutter, U. S. R. C. S., Equipment Officer; and First Lieutenant Bernard H. Camden, Ordnance Officer.

The United States Light-House Service.

BUREAU of Light-Houses. Commissioner, George R. Putnam; Deputy Commissioner, John S. Conway; Chief Constructing Engineer, Horatio B. Bowerman; Superintendent of Naval Construction, George Warrington; Chief Clerk, T. S. Clark.

The Light-House Service is charged with the establishment and maintenance of light-houses, light-vessels, buoys, and other aids to navigation on the coasts and rivers of the United States, as authorized by Congress, and with the direction of the offices, depots and tenders required in this work.

The field work of the service is divided into nineteen districts, each in charge of an inspector.

American and Foreign Shipping.

Tonnage of the United States in 1912; 7,714,183.

The above tables have been compiled from the report of the Commissioner of Navigation of the United States.

*From Bureau Veritas; gross for steam vessels, net for sailing.

Notable Marine Disasters.

In the following list mention is made only of those disasters which involved a loss of life of 100 or more persons. The data has been gathered from the most authentic sources available.

- 1841—March 11. Steamer *President*, New York to Liverpool, with 136 persons on board; never heard from.
- 1841—August 9. Steamboat *Erie* burned on Lake Erie; about 175 lives lost.
- 1841—August 28. Transports *Abercrombie*, *Robinson* and *Waterloo* wrecked off Cape of Good Hope; 189 lives lost.
- 1847—April 28. Emigrant ship *Exmouth*, Londonderry to Quebec; over 200 lives lost.
- 1847—November 19. Steamers *Tallman* and *Tempest* in collision on Ohio River; over 100 lives lost.
- 1847—November 21. Steamer *Phoenix* burned on Lake Michigan; about 240 lives lost.
- 1847—December 20. British steam-frigate *Avenge* wrecked off coast of Africa; nearly 200 lives lost.
- 1848—August 24. American emigrant ship *Ocean Monarch* from Liverpool burned off Carnarvonshire, North Wales; about 200 lives lost.
- 1850—March 30. Steamer *Royal Adelaide* wrecked off Margate; over 400 lives lost.
- 1850—June 17. Steamer *Griffith* burned on Lake Erie; about 300 lives lost.
- 1850—November 12. Emigrant ship *Edmund*, *Limerick* to New York, wrecked off coast of Ireland; about 100 lives lost.
- 1852—January 24. Steamer *Amazon* burned off Selly Islands; over 100 lives lost.
- 1852—February 26. Troopship *Birkenhead*, Queenstown to Cape of Good Hope, wrecked; 454 lives lost.
- 1852—August 20. Steamer *Atlantic* sunk by collision on Lake Erie; 250 lives lost.
- 1853—February 16. The *Independence* burned off coast lower California; 140 lives lost.
- 1853—September 29. Emigrant ship *Annie Jane* wrecked on coast of Scotland; about 348 lives lost.
- 1853—December 23-31. Steamer *San Francisco* bound for California with 700 United States troops, foundered at sea and 240 of the soldiers were lost.
- 1854—January 20. Emigrant ship *Taylor* wrecked off Lanbay; about 380 lives lost.
- 1854—March. Steamer *City of Glasgow*, Liverpool to Philadelphia, with 450 passengers; never heard from.
- 1854—May 10. Troopship *Lady Nugent* from Madras foundered in a storm; 400 lives lost.
- 1854—September 27. Steamer *Arctic* from Liverpool sunk in collision in fog, 40 miles off Cape Race, N. F.; about 350 lives lost.
- 1854—November 13-16. Eleven transports with supplies for the army in Crimea wrecked in storm on Black Sea; nearly 500 lives lost.
- 1855—May 1. Emigrant ship *John* wrecked off Falmouth; 200 lives lost.
- 1856—January 30. Chilian warship *Cazador* wrecked; 314 lives lost.
- 1856—September 23. Steamer *Pacific*, Collins line, 240 persons on board, never heard from.
- 1856—November 2. Steamer *Le Lyonsals* sunk off Nantucket in collision; 260 lives lost.
- 1857—February 26. Steamer *Tempest*, Anchor line, 150 persons on board, never heard from.
- 1857—June 26. Steamer *Montreal*, Quebec to Montreal, burned; about 250 lives lost.
- 1857—August 20. Ship *Dunbar* wrecked near Sydney, Australia; 120 lives lost.
- 1857—September 12. Steamer *Central America*, Havana to New York, sunk; over 400 persons lost.
- 1858—September 13. Steamer *Austria*, Hamburg to New York, burned in midocean; 471 lives lost.
- 1859—April 27. American ship *Pomona*, Liverpool to New York, wrecked; about 400 lives lost.
- 1859—October 25. Steamer *Royal Charter* wrecked on the Angetsea coast; 446 lives lost.
- 1860—February 19. American ship *Luna* wrecked off Barfleur; about 100 lives lost.
- 1860—February 19. Steamer *Hungaria* wrecked near Cape Sable, N. S.; 205 lives lost.
- 1860—September 8. Steamer *Lady Elgin* sunk by collision on Lake Michigan; 247 lives lost.
- 1863—February 7. British steamer *Orpheus* wrecked off coast of New Zealand; about 190 lives lost.
- 1863—April 27. Steamer *Anglo-Saxon* wrecked in fog off Cape Race, N. F.; about 237 lives lost.
- 1865—August 24. Emigrant ship *Eagle Speed* foundered near Calcutta; 265 lives lost.
- 1866—January 11. Steamer *Louisa* foundered in Bay of Biscay; 230 lives lost.
- 1866—January 30. Steamer *Missouri* boilers exploded on Ohio River; 100 lives lost.
- 1866—January 30. Steamer *Miami* boilers exploded on Mississippi River; 150 lives lost.
- 1866—October 3. Steamer *Evening Star*, New York to New Orleans, foundered; about 250 lives lost.
- 1867—October 29. Royal mail steamers *Rhone* and *Wye* and about fifty other vessels driven ashore and wrecked at St. Thomas, West Indies, by a hurricane; about 1,000 lives lost.
- 1868—April 9. Steamer *Sea Bird* burned on Lake Michigan; 100 lives lost.
- 1869—October 27. Steamer *Stonewall* burned below Calro, Ill.; 200 lives lost.
- 1870—January 24. American *Onelda* sunk in collision off Yokohama; about 115 lives lost.
- 1870—January 28. Inman line steamer *City of Boston*, New York to Liverpool with 177 persons on board; never heard from.
- 1870—September 7. British warship *Captain* foundered off Finisterre; 472 lives lost.
- 1870—October 19. Steamer *Cambria* lost off Inshtrahul; about 170 lives lost.
- 1871—July 30. Staten Island ferryboat *Westfield's* boilers exploded in New York harbor; 100 lives lost, 200 persons injured.
- 1875—January 22. British steamer *Northfleet* sunk in collision off Dungeness; 300 lives lost.
- 1873—April 1. White Star steamer *Atlantic* wrecked off Nova Scotia; 547 lives lost.
- 1873—November 23. French line steamer *Ville du Havre*, New York to Havre, in collision with ship *Loch Earn* and sunk in sixteen minutes; 230 lives lost.
- 1874—December 6. Emigrant ship *Cospatriek* burned at sea; 470 lives lost.
- 1875—May 7. Hamburg mail steamer *Schiller* wrecked in fog on Selly Islands; 200 lives lost.
- 1875—November 4. American steamer *Pacific* sunk by collision off Cape Flattery; 236 lives lost.
- 1875—December 6. Steamer *Deutschland*, Bremen to New York, wrecked at mouth of the Thames; 157 lives lost.
- 1877—July 15. British steamer *Eten* wrecked off Valparaiso; about 100 lives lost.
- 1877—November 24. United States sloop-of-war *Huron*, wrecked off North Carolina coast; about 100 lives lost.
- 1877—November. Steamer *Atacama* wrecked off Caldera, Chile; about 104 lives lost.
- 1878—January 31. Steamer *Metropolis*, wrecked off North Carolina; about 100 lives lost.
- 1878—March 24. British training ship *Eurydice* foundered near the Isle of Wight; 300 lives lost.
- 1878—September 3. British steamer *Princess Alice* sunk in collision in the Thames River; 700 lives lost.
- 1878—December 18. French steamer *Byzantin* sunk in collision in the Dardanelles; 210 lives lost.
- 1878—December 2. Steamer *Borussia* sank off the coast of Spain; 174 lives lost.
- 1880—January 31. British training ship *Atlanta* left Bermuda with 290 men and was never heard from.
- 1880—November 24. French steamer *Oncle Joseph* sank by collision off Spezzia; 250 lives lost.
- 1881—May 24. Steamer *Victoria* capsized in Thames River, Canada; 200 lives lost.
- 1881—August 30. Steamer *Teuton* wrecked off the Cape of Good Hope; 200 lives lost.
- 1883—July 3. Steamer *Daphne* capsized in the Clyde; 124 lives lost.
- 1884—January 18. American steamer *City of Columbus* wrecked off Gay Head light, Mass.; 99 lives lost.
- 1884—April 3. Steamer *Daniel Steinhman* wrecked off Sambre Head, N. S.; 131 lives lost.
- 1884—April 18. Bark *Pomona* in collision with

NOTABLE MARINE DISASTERS—Continued.

- steamer State of Florida off coast of Ireland, both vessels sunk; about 150 lives lost.
- 1887—July 22. Spanish steamer Gijoa and British steamer Laxham in collision off Cape Finisterre; both sunk; over 150 lives lost.
- 1886—March 14. Steamer Oregon, Cunard line, Liverpool to New York, in collision with unknown schooner, 18 miles east of Long Island; passengers and crew saved.
- 1887—January 20. Steamer Kapunda, in collision with bark Ada Melmore off coast of Brazil; 300 lives lost.
- 1887—November 15. British steamer Wah Yeung burned; 400 lives lost.
- 1887—November 19. Steamer W. A. Scholten sunk by collision in the English Channel; 134 lives lost.
- 1888—August 14. Steamship Geiser sunk by collision with the Thingvala; 105 lives lost.
- 1889—March 16. United States warships Triton, Vandalla and Nipsic and German ships Adler and Eber wrecked on Samoan Islands; 147 lives lost.
- 1890—January 2. Steamer Persia wrecked on Island of Corsica; about 130 lives lost.
- 1890—February 17. British steamer Duburg wrecked in China Sea; 400 lives lost.
- 1890—March 1. British steamship Quetta wrecked off Cape York; 124 lives lost.
- 1890—September 19. Turkish frigate Ertogrul foundered off coast of Japan; 540 lives lost.
- 1890—November 10. British cruiser Serpent wrecked in storm off coast of Spain; 167 lives lost.
- 1890—December 27. British steamer Shanghai burned in China Sea; 100 lives lost.
- 1891—March 17. Steamer Utopia, Anchor line, sunk by collision off Gibraltar; 574 lives lost.
- 1891—April 22. Chilean warship Blanco Encalada, blown up in Caldera Bay; over 200 lives lost.
- 1891—December 18. Steamer Abyssinia, Gulon line, burned at sea.
- 1892—January 13. Steamer Namchow wrecked in China Sea; 414 lives lost.
- 1892—October 28. Steamer Roumania, Anchor line, wrecked off Portuguese coast; 113 lives lost.
- 1893—February 8. Steamer Trinacria, Anchor line, wrecked off coast of Spain; 115 lives lost.
- 1893—February 11. White Star steamer Naronic, Liverpool to New York on her maiden voyage; never heard from.
- 1893—June 22. British battleship Victoria sunk by collision with her sister ship Camperdown off Tripoli; over 350 lives lost.
- 1894—February 2. United States corvette Kearsarge wrecked on Roncardo Reef.
- 1894—November 1. Steamer Wairaro wrecked off coast of New Zealand; 134 lives lost.
- 1895—January 30. German steamer Elbe sunk in collision with British steamer Crathie in North Sea; 335 lives lost.
- 1895—March 11. Spanish cruiser Reina Regenta foundered in the Atlantic at entrance to the Mediterranean; 400 lives lost.
- 1895—May 28. French steamer Dom Pedro wrecked off coast of Galicia; about 100 lives lost.
- 1896—June 17. Steamer Drummond Castle wrecked off Brest, France; nearly 250 lives lost.
- 1898—February 15. United States battleship Maine blown up in Havana harbor; 260 lives lost.
- 1898—July 4. French line steamer La Bourgogne in collision with British sailing ship Cromartyshire; about 560 lives lost.
- 1898—November 27. Steamer Portland sunk in storm off Cape Cod, Mass.; 157 lives lost.
- 1898—October 14. Steamer Mohegan, Atlantic Transport line, wrecked off the Lizard; about 170 lives lost.
- 1901—February 22. Pacific mail steamer Rio de Janeiro wrecked in San Francisco harbor; 128 lives lost.
- 1901—April 1. Turkish transport Aslam wrecked in Red Sea; over 180 lives lost.
- 1902—July 21. Steamer Primus sunk in collision with steamer Hansa, on the Elbe; 112 lives lost.
- 1903—June 7. French steamer Libau sunk in collision near Marseilles; 150 lives lost.
- 1904—June 15. Steamboat General Slocum, took fire going through Hell Gate, East River; over 1,000 lives lost.
- 1904—June 28. Steamer Norge wrecked off Scottish coast; 646 lives lost.
- 1905—September 13. Japanese warship Mikasa sunk by explosion; 599 lives lost.
- 1906—January 21. Brazilian battleship Aquidaban sunk near Rio Janeiro by explosion of powder magazines; 212 lives lost.
- 1906—January 22. American steamer Valencia lost off Vancouver Island; 129 lives lost.
- 1906—August 4. Italian emigrant ship Sirio wrecked off Cape Palos; 350 lives lost.
- 1906—October 21. Russian steamer Variag on leaving Vladivostok, accidentally struck by a torpedo and sunk; 140 lives lost.
- 1907—February 12. Steamer Larchmont sunk in Long Island Sound; 131 lives lost.
- 1907—February 21. British steamer Berlin stranded off the Hook of Holland; over 100 lives lost.
- 1907—February 24. Austrian steamer Imperatrix wrecked; 137 lives lost.
- 1907—March 12. Explosion on French battleship Jena; killed 117 persons.
- 1907—July 20. American steamers Columbia and San Pedro collided on the Californian coast; 100 lives lost.
- 1907—November 26. Turkish steamer Kaptan foundered in North Sea; 110 lives lost.
- 1908—March 23. Japanese steamer Mutsu Maru sunk in collision near Hakodate; 300 lives lost.
- 1908—April 30. Japanese training cruiser Matsu Shima sunk by explosion off the Pescadores; 200 lives lost.
- 1908—July 28. Steamer Ying King foundered off Hongkong; 300 lives lost.
- 1908—November 6. Steamer Tash sunk in storm; 150 lives lost.
- 1908—November 27. Steamer San Pablo sunk off the Philippines; 100 lives lost.
- 1909—January 23. Collision between steamer Florida and White Star steamer Republic, latter sunk off Nantucket Lightship during a fog; 6 lives lost.
- 1909—August 1. British steamer Waratah, from Sydney via Port Natal for London, left Port Natal July 26; never heard from; 300 lives lost.
- 1909—November 14. Steamer Seyne sunk in collision with steamer Onda, off Singapore; 100 lives lost.
- 1910—February 9. French line steamer General Chanzy wrecked off Minorca; 200 lives lost.
- 1911—April 2. Steamer Koombuna wrecked; 150 lives lost.
- 1911—September 25. French battleship Liberté sunk by explosion in Toulon harbor; 285 lives lost.
- 1912—April 14. Steamer Titanic, White Star line, wrecked by collision with iceberg; about 1,503 lives lost.

According to Lloyd's Register, more than 2,000 vessels were wrecked throughout the world in 1911. Of these 888 were ships of over 100 tons each. The comparisons of losses for the last two years are as follows:

1911—Number of vessels, 888; gross tonnage, 884,843; of which 427 vessels of 619,752 tons were steamers, and 461 of 265,091 tons were sailing vessels.

1910—The wreckage of vessels of over 100 tons each aggregated 947,690 tons, of which 667,440 tons represented steamers.

In addition, in 1911, vessels of over 100 tons each, aggregating 255,517 tons, were broken up by hand and dismantled, as against 356,154 tons so destroyed in 1910.

Of steamers and sailing vessels removed from the merchant fleets of the world in 1911, about 29 per cent. of the sailing vessels were got rid of by dismantling. Of such tonnage 34 per cent. represented British vessels. One-quarter of all the vessels destroyed were abandoned, foundered or missing at sea, and the rest were stranded.

The Titanic Disaster.

ONE of the most appalling disasters in the history of the sea occurred on Sunday, April 14, 1912, at about half past ten o'clock in the night, when the trans-Atlantic liner Titanic, of the White Star Line, while on her maiden trip from Liverpool to New York, collided with an iceberg, and four hours later sank to the bottom. In response to her wireless messages for help flashed to Cape Race, Newfoundland, and to the neighboring stations and vessels, a number of steamers went to find her. On Monday morning at daybreak the Cunard liner, Carpathia, commanded by Capt. Roström, arrived at the scene of the disaster and picked up twenty boatloads of people numbering 703. According to an official report by the President of the British Board of Trade, there were 2,206 persons aboard the Titanic, and of these 1,503 perished. The report indicated that the Titanic sank in latitude 41.46 north and longitude 50.14 west, which is about 1,600 miles almost due east.

Of the survivors, 202 were first class passengers, 115 were second class, 176 were third class, 206 were members of the crew and 4 were officers of the ship. Of the 1,503 persons who lost their lives, 120 were first class passengers, 162 were second class, 533 were third class and 688 were members of the crew.

The cable ship Mackay-Bennett, which was the first ship sent out to recover the bodies of the dead, arrived at Halifax on April 30 with 190 bodies. Of these 130 were identified. The steamship's crew picked up 116 other bodies, which they buried at sea and of these 57 had been identified. The Minia, another cable ship, picked up seventeen bodies, two of which were buried at sea.

CLASS.	CARRIED.			SAVED.			LOST.		
	Men.	Women.	Children.	Men.	Women.	Children.	Men.	Women.	Children.

Total	1,662	439	105	315	336	52	1,347	103	53

The Titanic was 882 feet 6 inches long; 92 feet 6 inches in breadth; 64 feet in depth, and had four funnels, each one 81 feet 6 inches high above the boat deck. There were 11 steel decks and 30 watertight bulkheads. The registered tonnage was 45,000, and the actual displacement 66,000. There were accommodations for 2,500 passengers and a crew of 860. The approximate cost of ship was \$7,500,000. The entire loss was about \$15,000,000. The Titanic was launched at Belfast on May 31, 1911.

The findings of the British Board of Trade, on July 20, as to the loss of the Titanic and those of the United States Senate Committee, reached May 28, are contrasted in the following parallel:

BRITISH COURT FOUND:

The seriousness of the disaster was realized by the officers within fifteen or twenty minutes of the crash, and proper discipline was maintained.

The apparatus for lowering the boats was in good order, and the lowering was properly managed; but some of the lifeboats were undermanned and improperly equipped.

The Titanic was sufficiently and efficiently officered and manned and complied with all the regulations of the British Merchant Shipping act regarding safety, but the arrangements for manning and launching the lifeboats in an emergency were insufficient and no drill had been held.

The outward and homeward southern tracks were reasonably safe, provided great precaution and vigilance were used in crossing the ice region. Capt. E. S. Smith of the Titanic was not fettered by orders to remain in the track, but naturally would keep near the accepted route. The speed of 22 knots an hour was excessive.

Recommended that the boat and raft accommodations on sea-going vessels be sufficient for all on board.

Capt. Smith's course in maintaining speed in face of ice warnings was in accordance with the long-existing custom. "I am unable to blame Capt. Smith."

The Board of Trade should investigate the practicability of providing sea-going ships, in addition to their watertight transverse bulkheads, with a double skin, carried above waterline, or with a longitudinal vertical watertight bulkhead on each side of the vessel, or with both.

The Leyland liner Californian saw the signals, could have reached the scene of disaster and saved the lives of many or all.

SENATE COMMITTEE FOUND:

There is evidence tending to show that even the watertight compartments were not successfully closed either above or below. No general alarm was given, no ship's officers formally assembled, no orderly routine was attempted or organized system of safety begun. Haphazard, they rushed by one another, on staircase and hallway.

No sufficient tests were made of boilers or bulkheads or gearing or equipment, and no life-saving or signal devices were reviewed; officers and crew were strangers to one another and passengers to both; neither was familiar with the vessel or its implements or tools; no drill or station practice or helpful discipline disturbed the tranquility of that voyage.

Of contributing causes there were very many. In the face of warning a gale, speed was increased and messages of danger seemed to stimulate her to action rather than to persuade her to fear.

All ships should carry lifeboats sufficient to hold every soul aboard.

"Capt. Smith's indifference to the danger was one of the direct and contributing causes of this unnecessary tragedy, while his own willingness to die was the expiating evidence of his fitness to live."

That the supposedly watertight compartments of the Titanic were not watertight because of the non-watertight condition of the decks where the transverse bulkheads ended.

The officers of the Californian saw the Titanic's distress signal and she might have saved all of the passengers and crew.

United States Law for Greater Safety at Sea.

The Sixty-Second Congress of the United States, Second Session passed the following law designated as "Public Law 238" and approved July 23, 1912.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Section 1 of an act entitled "An act to require apparatus and operators for radio communication on certain ocean steamers," approved June 24, 1910, be amended so that it will read as follows:

"SECTION 1. That from and after October 1, 1912, it shall be unlawful for any steamer of the United States or of any foreign country navigating the ocean or the Great Lakes and licensed to carry, or carrying, fifty or more persons, including passengers or crew or both, to leave or attempt to leave any port of the United States unless such steamer shall be equipped with an efficient apparatus for radio communication, in good working order, capable of transmitting and receiving messages over a distance of at least one hundred miles, day or night. An auxiliary power supply, independent of the vessel's main electric power plant, must be provided which will enable the sending set for at least four hours to send messages over a distance of at least one hundred miles, day or night, and efficient communication between the operator in the radio room and the bridge shall be maintained at all times.

The radio equipment must be in charge of two or more persons skilled in the use of such apparatus, one or the other of whom shall be on duty at all times while the vessel is being navigated. Such equipment, operators, the regulation of their watches, and the transmission and receipt of

UNITED STATES LAW FOR GREATER SAFETY AT SEA—Continued.

messages, except as may be regulated by law or international agreement, shall be under the control of the master. In the case of a vessel of the United States; and every willful failure on the part of the master to enforce at sea the provisions of this paragraph as to equipment, operators, and watches, shall subject him to a penalty of one hundred dollars.

"That the provisions of this section shall not apply to steamers plying between ports, or places less than two hundred miles apart."

SEC. 2. That this act, so far as it relates to the Great Lakes, shall take effect on and after April 1, 1913, and so far as it relates to ocean cargo steamers shall take effect on and after July 1, 1913: Provided, That on cargo steamers, in lieu of the second operator provided for in this act, there may be substituted a member of the crew or other person who shall be duly certified and entered in the ship's log as competent to receive and understand distress calls or other usual calls indicating danger, and to aid in maintaining a constant wireless watch so far as required for the safety of life.

The United States Congress on August 1, 1912, passed an act to encourage assistance to vessels in distress and salvage at sea. The following are some of the provisions:

The right to remuneration for assistance or salvage services shall not be affected by common ownership of the vessels rendering and receiving such assistance or salvage services. The master or person in charge of a vessel shall, so far as he can do so without serious danger to his own vessel, crew, or passengers, render assistance to every person who is found at sea in danger of being lost; and if he fails to do so, he shall, upon conviction, be liable to a penalty of not exceeding one thousand dollars or imprisonment for a term not exceeding two years, or both.

Salvors of human life, who have taken part in the services rendered on the occasion of the accident giving rise to salvage, are entitled to a fair share of the remuneration awarded to the salvors of the vessel, her cargo and accessories.

A suit for the recovery of remuneration for rendering assistance or salvage services shall not be maintainable if brought later than two years from the date when such assistance or salvage was rendered, unless the court in which the suit is brought shall be satisfied that during such period there had not been any reasonable opportunity of arresting the assisted or salvaged vessel within the jurisdiction of the court or within the territorial waters of the country in which the libellant resides or has his principal place of business.

Nothing in this act shall be construed as applying to ships of war or to Government ships appropriated exclusively to a public service.

LIFEBOAT REQUIREMENTS.

As announced by the United States Steamboat Inspection Service in Bureau Circular of June 29, 1912, and as amended in circular letter of September 13, 1912:

All pleasure steamers, and all other steamers over 150 tons, but not exceeding 750 tons, limited by their certificates of inspection to routes not more than 15 miles from any harbor, shall not be required to have more than one of the lifeboats to be of 150 cubic feet capacity. Nothing, however, in this proviso shall exempt any such steamer from carrying the aggregate cubic feet of lifeboat capacity required by the rules.

All steamers other than steamers carrying passengers, except as otherwise provided for in the rules, must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board. One-half of such equipment may be in approved life rafts or approved collapsible lifeboats.

Ocean steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew. One-half of such lifeboat equipment may be in approved life rafts or approved collapsible lifeboats.

Coastwise steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew: Provided, however, that such steamers navigating during the interval from the fifteenth day of May to the fifteenth day of September in any one year, both dates inclusive, will be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 60 per cent. of all persons on board, including passengers and crew; two-thirds of such required lifeboat equipment throughout the year may be in approved life rafts or approved collapsible lifeboats.

Lake, bay and sound steamers carrying passengers and navigating the waters of the lakes, bays and sounds tributary to the Pacific coast, the Atlantic coast south of the 33d parallel of north latitude and the Gulf of Mexico, must be equipped with lifeboats of sufficient capacity to accommodate at one time at least 30 per cent. of all persons on board, including passengers and crew: Provided, however, that such steamers navigating routes lying at all points within a distance of five miles from land, or over waters whose depth is not sufficient to entirely submerge the vessel in case of disaster, will be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of the lifeboat capacity required on lake, bay and sound steamers may be in approved life rafts or approved collapsible lifeboats.

River steamers carrying passengers must be equipped with lifeboats of sufficient capacity to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of such lifeboat equipment may be in approved life rafts or approved collapsible lifeboats.

The navigation of ferry boats must be confined to the ferry routes specified in the certificate of inspection, but such vessels may be permitted, under excursion permits, to go beyond their authorized routes with passengers only, or without such permit, to lighten or relieve vessels in distress. When any ferry boat leaves her ferry route and carries passengers she shall be required to carry the same officers, crew, and equipment, as required of other steamers carrying passengers.

An International Maritime Conference.

—THE Sixty-second Congress at its second session, passed an act which was approved June 28, 1912, providing that the President be authorized to convey to maritime nations the desire of Congress that an international maritime conference be held, and that he be also authorized to appoint commissioners to represent the United States at any such conference, whether called by the United States or by any other nation, the purpose of said conference being to consider uniform laws and regulations for the greater security of life and property on merchant vessels at sea, including, if practicable, regulations to establish standards of efficiency of the officers and crews of merchant vessels and the manning of such vessels; regulations for the construction and inspection of hulls, boilers and machinery; regulations for equipment of ocean steamers with radio apparatus, search lights, submarine bells, lifeboats, and other life-saving and fire-extinguishing appliances; regulations concerning lights, sound signals, steering and sailing rules; regulations for an international system of reporting and disseminating information relating to aids and perils to navigation; the establishment of lane routes to be followed by trans-Atlantic steamers; and such other matters relating to the security of life and property at sea as may be proposed.

The sum of \$10,000 was appropriated for the representatives of the United States at said conference.

The fastest day's run was made by the Mauretania of the Cunard line, January, 1911—676 knots, or 27.04 knots per hour.

World Battleship Speed Record made by U. S. ship Wyoming, July 19, 1912. On the twenty-first standardization run she made a speed of 22,045 knots. This is more than half a knot better than the previous record, 21,493 knots, made by her sister ship, the Arkansas.

1905 record.—Allen line's turbine Steamer Virginia passed Cape Race June 13, 11 A. M., inward bound, having left Mobile on the afternoon of June 9, thus crossing in less than four days.

The Pacific Mail Steamship Company's Steamer City of New York, left Sandy Hook, New York, December 19, 1875, anch. red off Cape Virgins, entrance to Strait of Magellan, January 18, 1876, at 7 P. M., passed Cape Pillar (Pacific entrance) January 22, and arrived at San Francisco, 13,533 miles, on February 16, at 2 P. M., being the first steamer that ever made that voyage without stopping en route for coal. Time from New York 54 days, 14 hours.

Steamship development as shown in the relative proportions, speed, etc., of the Great Eastern and Mauretania:

Great Eastern.		Mauretania.	
Length	692 ft.	Length	790 ft.
Breadth	80 ft.	Breadth	88 ft.
Displacement	27,000 tons.	Displacement	45,000 tons.
Paddle, Screw and Sail: Speed	13 to 14 knots.	Quadruple Screws	27½ knots (trial speed).

Fourth of July Accidents.

The *Journal of the American Medical Association* has kept a record of the accidents in the United States, due annually to the celebration of Independence Day, in the past ten years. The following are the figures:

YEAR.	Killed.	Injured.	Total.	YEAR.	Killed.	Injured.	Total.
1903	466	3,393	3,859	1909	215	5,092	5,307
1904	183	3,986	4,169	1910	131	2,792	2,923
1905	182	4,994	5,176	1911	57	1,546	1,603
1906	158	5,308	5,466	1912	41	947	988
1907	164	4,249	4,413				
1908	163	5,460	5,623	Total, 10 years	1,760	38,357	40,117

The decrease from 466 deaths in 1903 to 41 in 1912 was due to more intelligent methods of celebration, the most marked decrease taking place in States where the agitation for restrictive measures was strongest.

The National Reform Association.

President—Henry C. Minton, D. D. Corresponding Secretary—T. B. Stevenson. Treasurer—James S. Tibby. The official organ is *The Christian Statesman*, published monthly. Headquarters, 603 Publication Building, 209 Ninth Street, Pittsburgh, Pa.

WORLD'S CHRISTIAN CITIZENSHIP CONFERENCE.

The Second World's Christian Citizenship Conference will be held under the auspices of the National Reform Association in Portland, Oregon, June 29 to July 6, 1913.

Canals.

STATEMENT showing the cost and date of construction, length, number of locks, and navigable depth of the principal canals of the United States used for commercial purposes.

Pennsylvania.	7,731,750	1839	193	71	6	Columbia, Northumberland, Wilkes-Barre, Huntingdon, Pa.
Portage Lake and Lake Super ^r	598,892	1873	25	None.	15	From Keweenaw Bay to Lake Superior.
Port Arthur.	Port Arthur, Tex., to Gulf of Mexico.
Santa Fe.	70,000	1880	10	Waldo, Fla., to Melrose, Fla.
Sault Ste. Marie (ship canal).	4,000,000	1895	3	2	18	Connects Lakes Superior and Huron at St. Mary's River.
Schenly Navigation Company.	12,461,600	1826	108	71	6½	Mill Creek, Pa., to Philadelphia, Pa.
Sturgeon Bay and Lake Mich ⁿ	99,561	1881	1½	None.	15	Between Green Bay and Lake Michigan.
St. Mary's Falls.	7,909,867	1896	1½	1	21	Connects Lakes Superior and Huron at Sault Ste. Marie, Mich.
Susquehanna and Tidewater.	4,931,345	1840	45	32	5½	Columbia, Pa., to Havre de Grace, Md.
Walhonding.	507,259	1843	25	11	4	Rochester, O., to Roscoe, O.
**Welland (ship canal).	26,080,366	1833	26½	26	14	Connects Lake Ontario and Lake Erie.

* And improvements. † Navigable depth. ** Depth to be increased to 22 feet so that vessels can navigate the waterway from the head of Lake Superior to Precourt, on the River St. Lawrence, within a hundred miles of Montreal. Total cost of improvement about \$30,000,000. † Building.

† The Erie Canal, Oswego Canal and Champlain Canal are now being enlarged by the State of New York to a depth of 12 feet, and with locks of a capacity to pass barges having a net tonnage capacity of 2,000 tons each. The enlarged Champlain Canal will probably be opened in May, 1914. It is anticipated that this entire enlargement will be completed during the year 1915. The Canal Commission has decided to use a standard size of boat which probably will be 275 feet long by 30 feet beam, with a draught of 12 feet. These will be used in transporting ore along the Champlain Canal from Port Henry to Communi-paw, in New York Harbor. The cost of enlarging these three canals was not to exceed \$101,000,000 and will probably be within that figure.

§ The Cayuga and Seneca Canal will be enlarged to pass barges of the same capacity as the improved Erie Canal at a cost estimated at \$7,000,000.

¶ Cape Cod Canal (Sea Level Ship Canal) about 19 miles long and 25 feet deep, to connect Massachusetts Bay and Buzzard's Bay, under construction, will shorten sea route between New York and Boston by about 63 miles and will be opened for traffic about January, 1914.

‡ Trent Valley Canal, from Orillia on Lake Couchiching to the Trent River, at foot of Rice Lake, Canada, about 160 miles, Total cost to 1911, \$7,873,501.

Canal, connecting Berlin with the River Oder and with Stettin.

The Harlem River Ship Canal, connecting the Hudson River and Long Island Sound, by way of Spuyten Duyvil Creek and Harlem River, was opened for traffic on June 17, 1895, and cost about \$2,700,000. For the year 1911, incoming tonnage, 2,011,708; outgoing tonnage, 892,571.

FOREIGN SHIP CANALS.	Length, Miles.	Depth, Feet.	Bottom Width, Feet.	Cost.
Suez-Mediterranean and Red Seas.	90	35	108	\$100,000,000

PASSING OF THE SAILING SHIP.

The efficiency of steam as compared with sail is customarily rated in the proportion of 4 to 1. Yet it was many years before the tonnage of steamships was as great as that of sailing ships and the latter have not yet died out, not less than a quarter of the world's tonnage still consisting of sail. But the disproportion grows yearly, although the expenses of maintaining the sailing ship in the absence of coal and motive power are smaller and the absence of engine space and bunkers make it possible for the sailing ship to utilize almost the whole of her capacity below deck. The London Economist prints the following table, showing the net tonnage of steamships and sailing vessels on the register of Great Britain and Ireland from 1840 to 1909:

YEAR.	Steam.	Sail.	Total.	YEAR.	Steam.	Sail.	Total.
1840.	87,930	2,680,330	2,768,260	1900.	7,207,610	2,096,490	9,304,100
1860.	454,330	4,204,360	4,658,690	1909.	10,284,810	1,301,060	11,585,870
1880.	2,723,470	3,851,040	6,574,510				

The Submarine Cables of the World.

(From report issued by the Bureau International de l'Union Télégraphique.)

The following table sets forth the entire system of submarine cables of the world, including those along the shores and in the bays, gulfs, and estuaries of rivers, but excepting those in lakes and the interior watercourses of continents. The list includes all cables operated by private companies, and in addition thereto under the name of each nation is given the list of cables operated by the government of that nation.

COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.	COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.
<i>Commercial Cable Co.</i>	15	16,595	<i>Direct West India Cable Co.</i>	2	1,263

Telegraph Rates.

WESTERN UNION TELEGRAPH COMPANY RATES.

NIGHT LETTERS of 50 words or less, address and signature free, filed before midnight, are transmitted during the night and delivered the next morning at the same rate as that shown for "Day telegrams of 10 words."

DAY LETTERS of 50 words or less, address and signature free, filed at any hour during the day, are transmitted and delivered subject to the priority of Day telegrams. Rates for Day Letters are one-half higher than rates for Night Letters.

Words above 50 in Night Letters or Day Letters are one-fifth the 50-word rate for each additional 10 or fraction of 10 words.

TELEGRAPH RATES—*Continued*.

On November 10, 1910, Clarence H. Mackay, President of the Commercial Cable Company and the Postal Telegraph Company announced an intended reduction in cable rates on plain language (not code) messages from 25 cents for a word not exceeding fifteen letters to 12½ cents for every five letters sent. The plan has been worked out, but instead of this plan being adopted, a plan of the Postmaster-General of Great Britain, proposed in 1909, to reduce the rates on plain language from 25 cents to 12½ cents a word, the message to be subject to a delay not exceeding 24 hours, has been accepted. It went into effect with the co-operation of the British, French and German Governments on January 1, 1912. Many other countries have since accepted the plan. In foreign countries the telegraph lines are owned by the Governments. The plan involves proportionate reductions of the Government rates and hence the co-operation of the Governments is necessary.

The Postal Telegraph Cable Company also transacts business in the United States, and in 1912 operated 66,154 miles of poles and 408,735 miles of wire, by means of which it reached 85,230 places.

TELEGRAPH STATISTICS.

THE WESTERN UNION TELEGRAPH COMPANY.

Theodore N. Vall, President; Belvidere Brooks, General Manager. Executive Offices, 195 Broadway, New York.

Capital stock outstanding, \$99,786,758.96. Funded debt, \$32,602,000. Capital stock in subsidiary companies not owned by Western Union, \$3,893,375. Total capital liabilities, \$136,282,133.96.

Annual report for fiscal year ending June 30, 1912: Gross Income, \$42,987,807.15; operating expenses and taxes, \$36,063,836.10; net profits, \$6,923,971.05; interest on bonds, \$1,670,416.79; appropriation for reserves for repairs, \$1,250,000; dividend (3%), \$2,991,823.50. Balance to surplus, \$1,011,730.76. Number of offices, 25,392. Miles of wire added during the year, 29,972.

Total telephones in United States, December 31, 1907, 6,118,578 (United States Census); December 31, 1910, 7,598,000, of which 5,883,000 are in Bell system, leaving 1,713,000 rural and other company telephones not connected with Bell system.

The independent telephone companies of the United States, which are owned and operated entirely apart from the Bell organization, are represented in the National Independent Telephone Association, which has its headquarters in the McCormick Building, Chicago. There are about 15,000 of these companies, operating a reported aggregate of over 4,000,000 telephones, of which 2,158,454 connect with the Bell system. The capital invested is approximately \$400,000,000, the number of stockholders over 500,000, and the income is roughly estimated at about \$105,000,000 per annum. The independent companies, which are for the most part financed in the territories which they cover, are particularly strong throughout the middle and far West. They are established in nearly every large city in the United States except those on the Atlantic coast.

National Collegiate Athletic Association.

Organized in December, 1905, on the initiative of New York University, with over seventy universities and colleges as members; includes nearly every important college in the United States except Yale, Princeton and Cornell, Secretary-Treasurer, Prof. F. W. Nicolson, Wesleyan University, Middletown, Ct. Annual meeting is held each year in New York City in the week after Christmas.

Electrical Progress in 1912.

BY CHARLES H. HUGHES.

IN GENERAL.

DURING the past year although no discovery in the field of electrical engineering stands out prominently in advance of all others, yet manufacturers of electrical apparatus have brought out a large number of new machines and have made many important improvements in the standard lines manufactured by them.

The advantages of electrically operated trains for railroad terminals, as the Grand Central and the Pennsylvania railroad stations in New York City, have been conclusively proved, and many railroads in cities where the interurban and long distance traffic is badly congested are either considering or actually having plans prepared for changing their present interurban steam service to electric. A case in point is the New York, New Haven & Hartford Railroad, which has found its electric service from New York to Stamford, Ct., so satisfactory that it is extending it to New Haven, Ct., and is planning to electrify its road from Boston to Providence, R. I.

Several types of trolley cars, among which are improved forms of pay-as-you-enter cars, have been brought out. In one type, instead of the conductor and motorman being at opposite ends, both are at the same, the car having doors only at the forward end. Another type is the one called the "stepless" trolley. As its name signifies, there are no steps, a person stepping directly from the street level onto the floor of the car. This car is much lower than those with steps, and is rather unique in appearance. Still another type is the double-deck trolley, consisting of a boxed-in lower portion, for use on stormy days, while on the roof are seats, reached by stairs.

It is interesting to note the development that there has been in low pressure steam turbines, which are directly connected with generators for furnishing light and power. In many cases factories and mills are being lighted by turbo-generator units, using the exhaust steam from the main engines which run the machinery in the shops.

Among the many novel purposes which electricity has been used for, its use in a 30,000 egg incubator at Muskogee, Okla., is worth mentioning. Here the heat and air circulation are controlled electrically while the growth of the chicks is artificially forced by tungsten electric lights.

The amount of electricity consumed in an up-to-date department store is astounding. A typical store in a large city had an installation of 177 electric motors, having an aggregate of nearly 4,800 H. P., besides a complete system for electric lighting. The motors were used for electric elevators, fans, hand dryers, running package conveyors and many other purposes.

Electric vehicles have been extensively employed not only by public service corporations but by companies having large quantities of comparatively light packages to be delivered. Many other instances could be cited of the uses of electricity which during the past year has become more of an every day necessity than ever before.

In closing, mention should be made of the increasing use of the electric furnace for producing steel of a higher grade at a lower cost than by the crucible process, and the building of the United States collier Jupiter, a ship 575 feet long, having a displacement of 19,600 tons, which will be driven by electric motors.

ELECTRIC LIGHTING.

The most powerful searchlight ever designed for a merchant ship was built for the new German steamer Imperator. The lens is 42 inches in diameter and gives a light of 80,000 candle power. It is effective for seven miles at sea, and when thrown upon the clouds the light is visible for nearly 30 miles.

An electric lamp for miners was devised by H. Anderson, which indicated the presence of fire damp in the atmosphere by a reduction of the light given out.

It is claimed that Federal Street, north side, Pittsburgh, Pa., has been made the most brilliantly lighted street in the world. The street is lighted by 90 Westinghouse flame carbon arc lamps, spaced 60 feet apart, each having a commercial rating of 3,000 candle power.

An improved flame arc lamp was brought out by a German company. An important feature is that the electrodes touch one another when the lamp is not in circuit, and do not have to be brought together by a special striking mechanism.

An interchangeable electric lamp letter sign was brought out. Every letter consists of an individual lamp, consequently as the letters are interchangeable the sign can be varied at will.

A quartz lamp giving a light with a larger proportion of yellow and orange rays than the standard Cooper Hewitt lamp, was built by the Cooper Hewitt Electric Co. The large volume of light produced gives a steady diffused illumination which is not dazzling. The new lamp is suited for high-roofed industrial plants, rolling mills and general exterior lighting.

A semi-indirect lighting unit has been installed in many hospital wards. It consists of a tungsten lamp, with a shade at the apex, which throws the rays of light upward or toward the ceiling.

A new form of photometric apparatus for measuring illumination was devised by Prof. S. A. Rumi of Genoa, Italy. The important feature is that measurements can be made at any inclination by means of a detached screen.

A novel electric sign for advertising purposes was placed on the market. It consists of a bulletin panel studded with lamps and a controller. A perforated ribbon runs through the controller lights and extinguishes the lamps in the proper sequence, thus producing the effect of moving letters.

The development of the three-phase flame arc lamp is worthy of attention, there being a demand for a lamp that is particularly suited for a low frequency current, and when using such a current there should be little or no flickering.

A photographic method for obtaining candle power distribution curves, particularly applicable to arc lamps and other fluctuating sources, was published in the "Transactions Illuminating Engineers' Society" for March, 1912.

An electric lighting and ignition system for use on automobiles was brought out by the Westinghouse Electric and Manufacturing Company. One generator supplies the ignition and the lighting in connection with a storage battery.

Drawn wire filament tungsten lamps are replacing those with carbon filaments. Owing to the improvements made during the past year in tungsten lamps, the lamps can be burned in any position and can be handled with very little danger of breaking.

ELECTRO-CHEMISTRY AND ELECTRO-METALLURGY.

An experimental ore dressing and metallurgical plant was opened at the Colorado School of Mines.

The general use of ferrosilicon and ferromanganese in connection with the Bessemer converter, open hearth and crucible processes, can, it is claimed by A. J. Rossi, be dispensed with if a treatment with ferrotitanium is substituted.

A new method of detinning was patented by Dr. J. Weber of Essen, Germany. It consists in treating tin scrap with an alkaline solution containing an oxidizing agent, as saltpetre.

ELECTRICAL PROGRESS IN 1912—Continued.

The number of electric furnaces used in the production of steel is becoming larger every year, as high grade electric steel can be produced at a lower cost than crucible steel, and electric steel ingots crack less in rolling than either Bessemer or basic open hearth steel.

A number of patents relating to the production of titanium alloys and the uses of titanium as a purifier in the metallurgy of iron and steel as well as of the non-ferrous metals were granted.

A patent on an improved brick for metallurgical furnaces was assigned to the Harblson-Walker Refractories Company of Pittsburg, Pa. The main portion of the brick may be of silicon or fire clay, while the refractory facing is of chrome ore, burned magnesite or aluminous clays. A suitable binding material is placed between the body portion and the facing, so that in burning the completed brick the facing will be fused to the main body.

A process for making refractory articles of magnesite and aluminum without the use of a binder was developed by G. Weintraub, of the General Electric Company.

A combined open hearth and electric furnace for steel refining was brought out by W. R. Walker and J. H. Gray of the United States Steel Corporation. They first employ the furnace as an open hearth, the electrodes being removed, and reduce silicon, carbon and phosphorus. The slag is removed, a new basic slag is furnished and by introducing the electrodes from the top the furnace is operated as an electrical one.

A process of making pig steel directly from ore in the electric furnace was outlined by J. W. Richards in the March proceedings of the Engineering Society of Western Pennsylvania.

Valuable papers on the magnetic properties of alloys were presented at a meeting of the Faraday Society in London, on April 23.

Among the improved processes for the reduction of zinc, those of F. L. Clerc of Colorado and C. V. Thliery of France are worth noting. A novel feature in the furnace employed by the former is the method of conducting heat to the charge through a bath of molten copper, which in turn is heated by burning a suitable fuel. In Mr. Thliery's process he uses an electric resistance furnace to smelt the charge.

A new electric steel furnace designed by Nathusius, and in practical use at Friedenshutte, Upper Silesia, Germany, has proved very satisfactory. The important feature is the heating of the bottom by the current from the bottom electrodes, the furnace being a combined arc and resistance one.

A process for the recovery of cobalt, nickel and arsenic from silver ores, occurring in the Cobalt District, Canada, was assigned to the General Electric Company. The ore is ground, fluxed to reduce the metals and form a slag of the gangue, and charged into a furnace where it is heated under reduced pressure. By this treatment the greater part of the arsenic is volatilized and the charge in the crucible separates into strata of metallic silver, speiss of cobalt, nickel and slag, silver being the lowermost.

An eight ton electric Heroult furnace with three electrodes, which will be the first of its kind to employ three phase currents in England, was built at Sheffield by Vickers, Ltd.

An electric furnace for the melting of dross, scrap metal and cyanide precipitates was brought out, which utilizes the arc at the start, and afterward the electric conductivity of melted glass to maintain the action.

TELEGRAPH AND TELEPHONE.

A regular wireless commercial system between San Francisco and Honolulu, a distance of 2,350 miles, was established by the Federal Telegraph Company. About 1,800 words of special reading matter for newspapers is sent every day, besides a large number of business messages.

Work was started on a wireless station at Nauen, near Berlin, Germany, which will have a tower nearly 900 feet high. The radius of action of the station is expected to include New York City.

The first automatic telephone exchange in Great Britain was installed at Epsom. The subscriber, by means of an attachment to his telephone, selects and calls up the desired number, instead of communicating as heretofore with an exchange operator.

A cable between Syracuse and Tripoli was completed in July. It has a total length of 280 nautical miles, and is composed of five sections distinguished by different diameters, the middle portion measuring 19mm., the two intermediate lengths 28 mm., and those adjacent to the coasts 35 mm.

The new wireless station of the Navy Department at Arlington, Va., which is one of the largest in the world, will send out time signals to all parts of the United States and as far out to sea as the radius of the station may reach. Many of the large jewelry stores will install wireless stations, so they can correct their clocks by wireless.

An improved system of submarine communication was brought out by Count L. Szechenyi and tested at Newport by the Navy Department. The system does not require the complicated instruments used in other submarine systems and the cost of installation is very much less.

The entire main line of the Lehigh Valley Railroad was equipped with a telephone despatching system. Not only is despatching done by telephone, but freight and passenger trains and section gangs are supplied with portable telephone seats. By means of an extension pole a connection can be made at any time with the overhead wires along the right of way, thus securing communication with division headquarters or with the general offices of the company.

In a new wireless telegraph system devised by Prof. Zehnder no antennae is required. On August 16 President Taft approved the Bourne bill, regulating radio-communication. This bill requires every person, company or corporation within the jurisdiction of the United States, operating any apparatus for commercial radio-communication among the several States or with foreign nations, to obtain a license from the Secretary of Commerce and Labor.

Wireless communication was established between Lima, Peru, and Para, Brazil, a distance of about 2,100 miles. It is interesting to note that the wireless waves had to pass over mountains nearly 20,000 feet high between the two stations.

A bill was passed by Congress requiring all vessels carrying 50 or more passengers to have at least two wireless operators, so one may be on duty at all times. The wireless apparatus must be powerful enough to receive and transmit messages at least 100 miles. The bill went into effect October 1, 1912.

A contract was signed by the Norwegian Government with the Marconi Company for the erection of high power stations in Norway and in the vicinity of New York for conducting a commercial telegraph service between northern Europe and the United States.

A loaded submarine telephone cable, which goes away with the bulges or thickened places where the loading coils are inserted in the ordinary cables of this type, was laid across the English Channel between Abbotscliff and Cape Gris Nez, France.

Wireless telegraphy will be utilized to synchronize all the public clocks throughout the German Empire.

ELECTRIC RAILWAYS.

The first alternating current railless trolley in the world was shown in successful operation at the electrical exhibition at Leipzig, Germany. The car is operated by a 1,000 volt single phase, 50 cycle 15 H. P. motor, which is started and controlled by shifting the brushes.

The New York, New Haven & Hartford Railroad made a contract with the Westinghouse Electric & Manufacturing Company for the electrification of its road from Stamford, Ct., to New Haven, Ct. This will call for an expenditure of several millions of dollars and is one of the largest electrical contracts awarded in the past year. The same road will also electrify its line from Boston, Mass., to Providence, R. I. Single phase alternating current will be used, the current being carried by overhead wires.

The low floor car of the Pittsburgh Railways Company is one of the novelties of the year. The cars have two centre doors on each side, but the unique feature is the small trucks, which have wheels only 22 inches in diameter and called for the designing of special motors. Another type of car, viz., a double door (with the doors about 7 feet apart), double deck car was tried experimentally by the same company.

A centre entrance car known as the Brooklyn Centre Entrance Car was adopted by the Brooklyn Rapid Transit Company of New York. The car is 45 feet 6 inches long and weighs 638 pounds per seated passenger. The electrical equipment consists of two Westinghouse commutating pole motors with field control.

The first prepayment cars in England were inaugurated on June 25, by the Gateshead & District Tramways Company.

Where demands of a local street car service do not justify the installation of a trolley system, battery cars are often adopted. The cars are equipped with storage batteries for furnishing current to electric motors. A large number using Edison storage batteries have been in successful operation.

Economy in first cost and in maintenance has led a number of interurban railways to adopt automatic block signal equipments in which semaphore mechanism is done away with and incandescent lamps used instead.

It is claimed that the single unit electric locomotives, designed for a Swiss railway, are the most powerful ever constructed. Each locomotive weighs 108 tons, and has a maximum speed of about 75 miles an hour.

One of the largest orders for electric locomotives was the order of 36 single phase alternating current electric locomotives from the New York, New Haven & Hartford Railroad to the Westinghouse Electric & Manufacturing Company. They are primarily for fast freight trains and can handle a trailing load of 1,500 tons at a maximum speed of 35 miles per hour.

One of the most important developments for electric motors in traction service is the use of field control. This is effected by employing motors having a large number of turns in the field winding, and by arranging the control so that on certain notches a portion of the field winding is cut out of circuit.

A pay-as-you-leave car, which was in operation on the lines of the Cleveland Railway Company, Cleveland, Ohio, for several months, was withdrawn as being unsatisfactory because of the time required in the passengers leaving the car.

It was recognized more than ever before, that the great advantage possessed by electric operated trains is the high acceleration that can be quickly attained. The average acceleration is from 1. to 1.3 miles per hour per second, while with steam trains the average is only .4 to .5 miles per hour per second.

POWER AND TRANSMISSION.

The first large electric propelled ship was placed in commission by the United States Government. The ship was named Jupiter and was built to serve as a coller. The propelling machinery consists of a six stage Curtis turbine connected with a bipolar alternator, which furnishes the current to two motors; on the shaft of each is a propeller. The turbine is equipped with a governor that can automatically hold the speed at any point from about 5 knots up to the maximum.

Tower trucks for overhead line service, using storage batteries and electric motors or gasoline engines, have been installed on many trolley lines.

What are reported as the two largest vertical synchronous-booster and commutating rotary converters ever constructed were built by the Westinghouse Electric & Manufacturing Company, East Pittsburgh, Pa. Each is of 3,000 K. W. They are the only converters ever built with the synchronous-booster and commutating pole features.

Electric fans were made by the Westinghouse Electric & Manufacturing Company with the entire frame of drawn steel. The steel being only 3-16 of an inch thick, makes a lighter and more attractive fan than the cast iron one formerly used.

In the mine of the Christopher Coal Company, Christopher, Ill., was installed one of the largest if not the largest electric mine hoist in America. A 1,150 H. P. 550 volt direct current motor drives the hoist and is directly connected with the drum shaft by a flexible coupling. The equipment is designed to make 1,000 trips from a 600-foot depth in 7 hours.

The electric installation on the bascule bridge near South Chicago, Ill., has several interesting features. The bridge has a span of 186 feet and is one of the longest single span bridges in the world. It is raised by two 65 H. P. electric motors, supplied by current from storage batteries. The batteries are charged by directly connected gasoline engines and dynamos.

The 140,000 volt line of the Eastern Michigan Power Company is one of the highest if not the highest transmission line in the world. Among the special equipment required the switches are worth noting. A tandem mechanism is used for operating them, in which the operating handle moves through an angle of 180 degrees. The switches were tested to 465,000 volts.

A 5,000 K. W. turbo-alternator was installed by the County of London Electric Supply Company, which has novel features. The turbine is of the 6 stage, horizontal Curtis type, the high pressure steam being admitted to the centre, passing through two stages in succession to the centre of the casing, and then passing through the remaining four stages in the other direction to the exhaust.

Perhaps the heaviest transmission line ever constructed is the one from Keokuk, Iowa, to St. Louis, Mo. The distance covered is 140 miles, and a current of 90,000 H. P. will be transmitted over two three-phase lines. The towers are of steel, some of which are 220 feet high. The longest span of 3,200 feet is over the Missouri River.

An instrument for the direct measurement of voltages up to 150,000 volts without the use of condensers was constructed. Oil is employed as the dielectric, with the advantage that the attractive force is greater in oil than in air on account of the high dielectric constant of oil.

A combined insulator and pin of one piece of wood was brought out. The wood is thoroughly impregnated with an insulating compound. Insulators of the above type have been in service on 9,000 and 12,000 volt lines without arcing.

One of the largest turbo-alternators ever built was installed at the Saint Denis power station in Paris, France. The unit is of 25,000 H. P., having a total length of 45 feet, the turbine being 28 feet long and the alternator 17 feet.

Improved electric indicating meters were placed on the market by the Westinghouse Electric & Manufacturing Company, which permit a saving of 25 per cent. in the space on the switchboard.

A sub-station where the equipment is started, stopped, and operated by electrical means from the main station without the necessity for the presence of a sub-station attendant was installed by the Detroit Edison Co. This is the first remote controlled sub-station ever built.

Interstate Commerce Law.

THE following is a synopsis of the provisions of the Interstate Commerce law and acts amendatory thereof, prepared for the Official Congressional Directory:

Under "An Act to Regulate Commerce," approved February 4, 1887; as amended March 2, 1889; February 10, 1891; February 8, 1895; the "Elkins act" of February 19, 1903, and the amending act approved June 29, 1906, the Interstate Commerce Commission is composed of seven members, each receiving a salary of \$10,000 per annum. The regulating statutes apply to all common carriers engaged in the transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines, or partly by pipe line and partly by rail, or partly by pipe line and partly by water, and to common carriers engaged in the transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment). The statutes apply generally to interstate traffic, including import and domestic traffic, and also that which is carried wholly within any territory of the United States. Only traffic transported wholly within a single State is excepted.

The Commission has jurisdiction on complaint, and, after full hearing, to determine and prescribe reasonable rates, regulations, and practices, and order reparation to injured shippers; to require any carriers to cease and desist from unjust discrimination, or undue or unreasonable preference, and to institute and carry on proceedings for enforcement of the law. The Commission may also inquire into the management of the business of all common carriers subject to the provisions of the regulating statutes, and it may prescribe the accounts, records, and memoranda which shall be kept by the carriers, and from time to time inspect the same. The carriers must file annual reports with the Commission, and such other reports as may from time to time be required. Various other powers are conferred upon the Commission. Carriers failing to file and publish all rates and charges, as required by law are prohibited from engaging in interstate transportation, and penalties are provided in the statute for failure on the part of carriers or of shippers to observe the rates specified in the published tariffs.

The Commission also appoints a Secretary and clerks, whose duties are not specifically defined by the act, and also appoints attorneys, examiners, and special agents.

By amendment of June 18, 1910 ("Mann-Elkins law"), a Court of Commerce was created with jurisdiction to restrain or enforce orders of the Commission. This court is composed of five judges selected from the Circuit Court judges of the United States, and the amendment contains specific provisions as to jurisdiction and procedure. Telegraph, telephone and cable companies are made subject to the Commission. The jurisdiction of the Commission is increased as to through routes and joint rates, freight classification, switch connections, long and short hauls, filing or rejection of rate schedules, investigations on own motion, making reasonable rates, suspension of proposed rates, and other matters. (See Index for "United States Commerce Court.") An important section authorizes the President to appoint a special commission to investigate issuance of railroad stocks and bonds.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the Circuit Court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins law, penalizes the offering, soliciting, or receiving of rebates, allows proceedings in the courts by injunction to restrain departures from published rates, and makes the Expediting act of February 11, 1903, include cases prosecuted under the direction of the Attorney-General in the name of the Commission.

Under the act of August 7, 1888, all railroad and telegraph companies to which the United States have granted any subsidy in lands or bonds or loan of credit for the construction of either railroad or telegraph lines are required to file annual reports with the Commission and such other reports as the Commission may call for. The act also directs every such company to file with the Commission copies of all contracts and agreements of every description existing between it and every other person or corporation whatsoever in reference to the ownership, possession, or operation of any telegraph lines over or upon the right of way, and to decide questions relating to the interchange of business between such Government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to perform and carry out within a reasonable time the order or orders of the Commission.

The act of March 2, 1893, known as the "Safety Appliance act," provides that within specified periods railroad cars used in interstate commerce must be equipped with automatic couplers and standard height of drawbars for freight cars, and have grab irons or hand holds in the ends and sides of each car. A further provision is that locomotive engines used in moving interstate traffic shall be fitted with a power driving-wheel brake and appliances for operating the train-brake system, and a sufficient number of cars in the train shall be equipped with power or train brakes. The act directs the Commission to lodge with the proper District-Attorneys information of such violations as may come to its knowledge. The Commission is authorized to, from time to time, upon full hearing and for good cause, extend the period within which any common carrier shall comply with the provisions of the statute. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia to all cases when couplers of whatever design are brought together, and to all locomotives, cars, and other equipment of any railroad, engaged in interstate traffic, except logging cars and cars used upon street railways, and also to power or train brakes used in railway operation.

By act of April 14, 1910, the safety appliance acts were supplemented so as to require railroads to equip their cars with sill steps, hand brakes, ladders, running boards and grab irons, and the Commission was authorized to designate the number, dimensions, location and manner of application of appliances.

The act of June 1, 1898, concerning carriers engaged in interstate commerce and their employes, known as the "Arbitration act," directs the Chairman of the Interstate Commerce Commission and the Commissioner of Labor to use their best efforts, by mediation and conciliation, to settle controversies between railway companies and their employes. Every agreement of arbitration made under the act must be forwarded to the Chairman of the Interstate Commerce Commission, who shall file the same in the office of that Commission. When the agreement of arbitration is signed by employes individually instead of a labor organization, the act provides, if various specified conditions have been complied with, that the Chairman of the Commission shall, by notice in writing, fix a time and place for the meeting of the Board of Arbitrators. If the two arbitrators chosen by the parties fail to select

INTERSTATE COMMERCE LAW—Continued.

a third within five days after the first meeting, the third arbitrator shall be named by the Chairman of the Interstate Commerce Commission and the Commissioner of Labor.

The act of March 3, 1901, "requiring common carriers engaged in interstate commerce to make reports of all accidents to the Interstate Commerce Commission," makes it the duty of such carrier to monthly report, under oath, all collisions and derailments of its trains and accidents to its passengers, and to its employes while on duty in its service, and to state the nature and causes thereof. The act prescribes that a fine shall be imposed against any such carrier failing to make the report so required.

By act of May 6, 1910, the prior Accident Reports law was repealed and a new statute passed giving more power to the Commission as to investigating accidents, and is more comprehensive than the former law.

The act of March 4, 1907, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is made unlawful to require or permit employes engaged in, or connected with, the movement of trains to be on duty more than a specified number of hours in any twenty-four.

The act of May 23, 1908, by section 16 thereof, gives the Interstate Commerce Commission limited control over the street railroads in the District of Columbia.

The act of May 30, 1908, directs the Interstate Commerce Commission to make regulations for the safe transportation of explosives by common carriers engaged in interstate commerce. A penalty is provided for violations of such regulations.

The act of May 30, 1908, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is provided that after a certain date no locomotive shall be used in moving interstate or foreign traffic, etc., not equipped with an ash pan which can be emptied without requiring a man to go under such locomotive. A penalty is provided for violation of this act.

Public resolution No. 46, approved June 30, 1906, and the sundry civil appropriation act of May 27, 1908, direct the Commission to investigate and report on the use and need of appliances intended to promote the safety of railway operation.

The act of March 3, 1909, authorizes the Commission to prescribe the form of bookkeeping for the gas and electric companies of the District of Columbia.

The act of February 17, 1911, confers jurisdiction upon the Commission to enforce certain provisions, compelling railroad companies to equip their locomotives with safe and suitable boilers and appurtenances thereto.

The Panama Canal act of August 24, 1912, amends sections 5 and 6 of the act to regulate Commerce by conferring upon the Commission jurisdiction to enforce a provision prohibiting a railroad company subject to the act, after July 1, 1914, from owning, leasing, operating, controlling or having any interest in water carriers operating through the Panama Canal or elsewhere; gives the Commission power to establish physical connection between the lines of a rail carrier and the dock of a water carrier; authorizes the Commission to establish through routes and joint rates over rail and water lines, and to determine all the terms and conditions under which such rail and water routes shall be operated; authorizes the Commission to establish maximum proportional rates by rail to and from ports to which traffic is brought by water carriers; authorizes the Commission, where a rail carrier has entered into arrangements with a water carrier operating from a port in the United States to a foreign country, for the handling of through business, to require the railway company to enter into similar arrangements with other water lines.

The Post-Office Appropriation act of August 24, 1912, empowers the Commission to co-operate with the Postmaster-General in reforming, from time to time, the classification, weight limit, rates, zones, or conditions, in order to promote the parcels post service created by the act, and requires the Commission to furnish data to a Congressional committee appointed to investigate the subject of a general parcels post.

Census Report on Shipbuilding in the United States.

THE Census Office has reported the following statistics of shipbuilding in the United States, according to the Thirteenth Census. The figures are for 1909 compared with those of 1904.

	GENERAL SUMMARY.			GOVERNMENT ESTABLISHMENTS.		
	CENSUS.		P. C. of Increase, 1904 to 1909.*	CENSUS.		P. C. of Increase, 1904 to 1909.
	1909.	1904.		1909.	1904.	
Number of establishments.	1,353	1,097	23
Capital.	\$126,118,000	\$121,624,000	4
Cost of materials used.	\$31,214,000	\$37,463,000	-17	\$9,526,000	\$6,732,000	42
Salaries and wages.	\$29,303,000	\$32,581,000	-10	\$15,317,000	\$10,422,000	47
Salaries.	\$4,035,000	\$3,340,000	21	\$2,647,000	\$699,000	279
Wages.	\$25,268,000	\$29,241,000	-14	\$12,670,000	\$9,723,000	30

* A minus sign (—) denotes decrease.

Regulation of Railroad Rates.

THE following are the clauses of the acts approved June 29, 1906, and June 18, 1910, to amend the act of 1887 and other acts amendatory thereof entitled "An act to Regulate Commerce," which specifically relate to the construction of switches, filing of schedules of rates and fares, prohibition of discriminations and rebates and hearing of complaints and remedial action thereon by the Interstate Commerce Commission, etc.

SWITCH CONNECTIONS.

Any common carrier subject to the provisions of this act, upon application of any lateral, branch line of railroad, or of any shipper tendering interstate traffic for transportation, shall construct, maintain, and operate upon reasonable terms a switch connection with any such lateral, branch line of railroad, or private side track which may be constructed to connect with its railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability, without discrimination in favor of or against any such shipper.

FILING OF SCHEDULES OF RATES.

Every common carrier subject to the provisions of this act shall file with the commission created by this act and print and keep open to public inspection schedules showing all the rates, fares, and charges for transportation between different points on its own route and between points on its own route and points on the route of any other carrier by railroad, by pipe line, or by water when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print, and keep open to public inspection, as aforesaid, the separately established rates, fares and charges applied to the through transportation. The schedules printed as aforesaid by any such common carrier shall plainly state the places between which property and passengers will be carried, and shall contain the classification of freight in force, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges which the commission may require, all privileges or facilities granted or allowed and any rules or regulations which in anywise change, affect, or determine any part of the aggregate of such aforesaid rates, fares, and charges, or the value of the service rendered to the passenger, shipper, or consignee. The commission may suspend new rates or regulations before they become effective for a period not exceeding ten months, pending investigation.

DISCRIMINATION FORBIDDEN.

No carrier, unless otherwise provided by this act, shall engage or participate in the transportation of passengers or property, as defined in this act, unless the rates, fares, and charges upon which the same are transported by said carrier have been filed and published in accordance with the provisions of this act; nor shall any carrier charge or demand or collect or receive a greater or less or different compensation for such transportation of passengers or property, or for any service in connection therewith, between the points named in such tariffs than the rates, fares, and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares, and charges so specified, nor extend to any shipper or person any privileges or facilities in the transportation of passengers or property, except such as are specified in such tariffs.

REBATES.

The wilful failure upon the part of any carrier subject to said acts to file and publish the tariffs or rates and charges as required by said acts, or strictly to observe such tariffs until changed according to law, shall be a misdemeanor, and upon conviction thereof the corporation offending shall be subject to a fine of not less than one thousand dollars nor more than twenty thousand dollars for each offence, and it shall be unlawful for any person, persons, or corporation to offer, grant, or give, or to solicit, accept or receive any rebate, concession, or discrimination in respect to the transportation of any property in interstate or foreign commerce by any common carrier subject to said act to regulate commerce and the acts amendatory thereof whereby any such property shall by any device whatever be transported at a less rate than that named in the tariffs published and filed by such carrier, as is required by said act to regulate commerce and the acts amendatory thereof, or whereby any other advantage is given or discrimination is practised. Every person or corporation, whether carrier or shipper, who shall, knowingly, offer, grant, or give, or solicit, accept, or receive any such rebates, concession, or discrimination shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than one thousand dollars nor more than twenty thousand dollars: Provided, That any person, or any officer or director of any corporation subject to the provisions of this act, or the act to regulate commerce and the acts amendatory thereof, or any receiver, trustee, lessee, agent, or person acting for or employed by any such corporation, who shall be convicted as aforesaid, shall, in addition to the fine herein provided for, be liable to imprisonment in the penitentiary for a term of not exceeding two years, or both such fine and imprisonment, in the discretion of the court.

Any person, corporation, or company who shall deliver property for interstate transportation to any common carrier, subject to the provisions of this act, or for whom as consignor or consignee, any such carrier shall transport property from one State, Territory, or the District of Columbia to any other State, Territory, or the District of Columbia or foreign country, who shall knowingly by employe, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transportation of such property, as fixed by the schedules of rates provided for in this act, shall in addition to any penalty provided by this act forfeit to the United States, a sum of money three times the amount of money so received or accepted, and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and the Attorney-General of the United States is authorized and directed, whenever he has reasonable grounds to believe that any such person, corporation, or company has knowingly received or accepted from any such common carrier any sum of money or other valuable consideration as a rebate or offset as aforesaid, to institute in any court of the United States of competent jurisdiction, a civil action to collect the said sum or sums so forfeited as aforesaid; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

REGULATION OF RAILROAD RATES—Continued.

LONG AND SHORT HAUL CLAUSE.

That it shall be unlawful for any common carrier subject to the provisions of this act to charge or receive any greater compensation in the aggregate for the transportation of passengers, or of like kind of property, for a shorter than for a longer distance over the same line or route in the same direction, the shorter being included within the longer distance, or to charge any greater compensation as a through route than the aggregate of the intermediate rates subject to the provisions of this act; but this shall not be construed as authorizing any common carrier within the terms of this act to charge or receive as great compensation for a shorter as for a longer distance; Provided, however, That upon application to the Interstate Commerce Commission such common carrier may in special cases, after investigation, be authorized by the Commission to charge less for longer than for shorter distances for the transportation of passengers or property; and the Commission may from time to time prescribe the extent to which such designated common carrier may be relieved from the operation of this section: Provided, further, That no rates or charges lawfully existing at the time of the passage of this amendatory act shall be required to be changed by reason of the provisions of this section prior to the expiration of six months after the passage of this act, nor in any case where application shall have been filed before the Commission, in accordance with the provisions of this section, until a determination of such application by the Commission.

Whenever a carrier by railroad shall in competition with a water route or routes reduce the rates on the carriage of any species of freight to or from competitive points, it shall not be permitted to increase such rates unless after hearing by the Interstate Commerce Commission it shall be found that such proposed increase rests upon changed conditions other than the elimination of water competition.

HEARING OF COMPLAINTS.

Whenever, after full hearing upon a complaint made as provided in section thirteen of this act, or after full hearing under an order for investigation and hearing made by the Commission on its own initiative (either in extension of any pending complaint or without any complaint whatever), the Commission shall be of opinion that any individual or joint rates or charges whatsoever demanded, charged, or collected by any common carrier or carriers subject to the provisions of this act for the transportation of persons or property or for the transmission of messages by telegraph or telephone as defined in the first section of this act, or that any individual or joint classifications, regulations, or practices whatsoever of such carrier or carriers subject to the provisions of this act are unjust or unreasonable or unjustly discriminatory, or unduly preferential or prejudicial or otherwise in violation of any of the provisions of this act, the Commission is hereby authorized and empowered to determine and prescribe what will be the just and reasonable individual or joint rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged, and what individual or joint classification, regulation, or practice is just, fair and reasonable, to be thereafter followed, and to make an order that the carrier or carriers shall cease and desist from such violation to the extent to which the Commission finds the same to exist, and shall not thereafter publish, demand, or collect any rate or charge for such transportation or transmission in excess of the maximum rate or charge so prescribed, and shall adopt the classification and shall conform to and observe the regulation or practice so prescribed. Burden of proof to show reasonableness of increased rates is on carrier.

ESTABLISHMENT OF THROUGH ROUTES AND JOINT RATES.

The Commission may also, after hearing, on a complaint or upon its own initiative without complaint, establish through routes and joint classifications, and may establish joint rates as the maximum to be charged and may prescribe the division of such rates as hereinbefore provided and the terms and conditions under which such through routes shall be operated, whenever the carriers themselves shall have refused or neglected to establish voluntarily such through routes or joint classifications or joint rates; and this provision shall apply when one of the connecting carriers is a water line. The Commission shall not, however, establish any through route, classification or rate between street electric passenger railways not engaged in the general business of transporting freight in addition to their passenger and express business and railroads of a different character, nor shall the Commission have the right to establish any route, classification, rate, fare, or charge when the transportation is wholly by water.

RIGHT OF SHIPPERS TO DESIGNATE ROUTING OF SHIPMENTS.

In all cases where at the time of delivery of property to any railroad corporation being a common carrier, for transportation subject to the provisions of this act to any point of destination, between which and the point of such delivery for shipment two or more through routes and through rates shall have been established as in this act provided to which through routes and through rates such carrier is a party, the person, firm, or corporation making such shipment, subject to such reasonable exceptions and regulations as the Interstate Commerce Commission shall from time to time prescribe, shall have the right to designate in writing by which of such through routes such property shall be transported to destination, and it shall thereupon be the duty of the initial carrier to route said property and issue a through bill of lading therefor as so directed, and to transport said property over its own line or lines and deliver the same to a connecting line or lines according to such through route, and it shall be the duty of each of said connecting carriers to receive said property and transport it over the said line or lines and deliver the same to the next succeeding carrier or consignee according to the routing instructions in said bill of lading: Provided, however, That the shipper shall in all instances have the right to determine, where competing lines of railroads constitute portions of a through line or route, over which of said competing lines so constituting a portion of said through line or route his freight shall be transported.

COMMODITIES CLAUSE.

From and after May 1, 1908, it shall be unlawful for any railroad company to transport from any State, Territory, or the District of Columbia, to any other State, Territory, or the District of Columbia, or to any foreign country, any article or commodity, other than timber and the manufactured products thereof, manufactured, mined, or produced by it, or under its authority, or which it may own in whole or in part, or in which it may have any interest, direct or indirect, except such articles or commodities as may be necessary and intended for its use in the conduct of its business as a common carrier.

COURT OF COMMERCE.

The Mann-Elkins law, of June 18, 1910, created a Court of Commerce, which has jurisdiction to restrain or enforce orders of the Commission. This court is composed of five Circuit Court Judges of the United States, and the amendment contains specific provision as to jurisdiction and procedure. An important section authorizes the President to appoint a special Commission to investigate issuance of railroad stocks and bonds. (Pending new legislation by Congress this court will expire on March 4, 1913.)

INTERSTATE COMMERCE COMMISSION.

WASHINGTON, D. C.

Charles A. Prouty, of Vermont, Chairman; Judson C. Clements, of Georgia; Franklin K. Lane, of California; Edgar E. Clark, of Iowa; James S. Harlan, of Illinois; Charles C. McCord, of Kentucky; Balthasar H. Meyer, of Wisconsin; John H. Marble, of California, Secretary.

STATE RAILROAD COMMISSIONERS.

Alabama Railroad Commission—Montgomery. Chas. Henderson, President, Troy; Leon McCord, Albertville; Frank N. Julian, Tusculumbia; S. P. Kennedy, Secretary, Montgomery.

Arizona Railway Commission—Phoenix. Corporation Commission of Arizona.

Arkansas Railroad Commission—Little Rock. R. P. Allen, Chairman; Geo. W. Bellamy, Wm. F. McKnight; Wm. E. Floyd, Secretary.

California Railroad Commission—San Francisco. John M. Eshleman, President; H. D. Loveland, Alexander Cordon, Max Thelen; E. O. Edgerton, Chas. R. Detrick, Secretary.

Colorado Railroad Commission—Denver. A. P. Anderson, President; Sheridan S. Kendall; D. H. Staley, Secretary.

Connecticut Railroad Commissioners—Hartford. Richard T. Higgins, Chairman; Wm. Stunged; T. B. Ford, Bridgeport, John H. Hale, S. Glastonbury; Henry F. Billings, Secretary, Hartford.

Florida Railroad Commissioners—Tallahassee. R. Hudson Burr, Chairman; N. A. Blitch; Royal C. Dunn; J. Will Yon, Secretary.

Georgia Railroad Commission—Atlanta. C. M. Candler, Chairman; George Hillyer, Paul B. Trammell, Dalton; J. A. Perry, Lawrenceville; Joseph F. Gray, Savannah; Campbell Wallace, Secretary.

Idaho—S. D. Taylor, State Auditor, Boise City. Secretary State Board of Equalization.

Illinois Railroad and Warehouse Commission—O. F. Berry, Chairman, Carthage; B. A. Eckhart, Chicago; J. A. Willoughby, Belleville; Wm. Kilpatrick, Secretary, Springfield.

Indiana Railroad Commissioners—Indianapolis. Wm. J. Wood, Chairman; John F. McClure, Frank E. Payne; Jos. L. Reilly, Secretary.

Iowa Board of Railroad Commissioners—Des Moines. N. S. Ketchum, Chairman; C. Thorne, David J. Palmer; Geo. L. McCaughan, Secretary.

Kansas Railroad Commission—Topeka. George Plumb, Chairman; John T. White, F. J. Ryan; W. G. Grice, Secretary.

Kentucky Railroad Commission—Frankfort. Laurence B. Finn, Chairman, Franklin; Wm. F. Klair, Lexington; H. G. Garrett, Winchester; Richard Tobin, Secretary.

Louisiana Railroad Commission—Baton Rouge. J. J. Meredith, Chairman, Columbia; Henry B. Schriber, New Orleans; Shelby Taylor, Crowley; Henry Jastremski, Secretary.

Maine Railroad Commissioners—Augusta. Elmer P. Spofford, Chairman, Deer Isle; John A. Jones, Lewiston; Frank Keizer, Rockland; Geo. F. Giddings, Clerk, Augusta.

Maryland Public Service Commission—Baltimore. Philip D. Laird, Chairman; J. W. Hering, E. Clay Timanus.

Massachusetts Board of Railroad Commissioners—Boston. Frederick J. Macleod, Chairman, Cambridge; Clinton White, Melrose; George W. Bishop, Newtonville; Charles E. Mann, Clerk, Malden.

Michigan Railroad Commission—Lansing. C. L. Glasgow, Chairman; G. W. Dicklusion, Lawton T. Hemans; Willard N. Sweeney, Secretary.

Minnesota Railroad and Warehouse Commission—St. Paul. Ira B. Mills, Chairman; C. E. Elmquist, C. F. Staples; A. C. Clausen, Secretary.

Mississippi Railroad Commission—Jackson. F. M. Sheppard, President, Richton; Geo. R. Edwards, McCool; W. B. Wilson, Coriuth; James Galceran, Secretary.

Missouri Railroad and Warehouse Commission—Jefferson City. H. R. Oglesby, Chairman; John A. Knott, F. A. Wightman; T. M. Bradbury, Secretary.

Montana Railroad Commission—Helena. B. F. Stanton, Chairman; Dan Boyle, E. A. Morley; R. F. McLaren, Secretary.

Nebraska State Railway Commission—Lincoln. H. J. Winnett, Chairman; H. T. Clarke, Jr., Thos. L. Hall; A. B. Allen, Secretary.

Nevada—Carson City. H. F. Bartine, Chief Commissioner; W. H. Simmons, J. F. Shaughnessy; E. H. Walker, Secretary.

New Hampshire Railroad Commission—Concord. Edward C. Niles, Chairman; John E. Benton, Clerk; Thos. W. D. Worthen.

New Jersey Board of Public Utility Commissioners—Trenton. Robert Williams, President; Thos. J. Hillery, W. Moore Daniels; A. N. Barber, Secretary.

New York Public Service Commission—First District—(Greater New York) New York City—Wm. R. Willcox, Chairman; Geo. V. S. Williams, J. Sergeant Cram, Milo R. Maltbie, John E. Eustis; T. H. Whitney, Secretary. Second District—(all of State outside Greater New York), Albany, N. Y. Frank W. Stevens, Chairman; John B. Olmsted, Winfield A. Huppuch, James E. Sagne, Martin S. Decker; J. S. Kennedy, Secretary.

North Carolina Corporation Commission—Raleigh. Franklin McNeill, Chairman; Edward L. Travis, Wm. T. Lee; A. J. Maxwell, Secretary.

North Dakota Commissioners of Railroads—Bismarck. W. H. Stutsman, President, Mandan; O. P. N. Anderson, Starkweather; W. H. Mann, New Salem; Thomas Hall, Secretary.

Ohio Railroad Commission—Columbus. O. P. Gotthlin, Chairman; O. H. Hughes, J. C. Sullivan; C. A. Radcliffe, Secretary.

Oklahoma Corporation Commission—Oklahoma City. J. E. Love, Chairman, Woodward; A. P. Watson, Shawnee; Geo. A. Henshaw, Madill; J. H. Hyde, Secretary.

Oregon Railroad Commission—Salem. Clyde B. Atchison, Chairman; Thos. K. Campbell, Frank J. Miller; H. H. Corey, Secretary.

Pennsylvania State Railroad Commission—Harrisburg. Nathaniel Ewing, Chairman; Samuel W. Pennypacker; Milton J. Brescht; Archibald B. Millar, Secretary.

Rhode Island Railroad Commission—Providence. J. P. Burlingame; D. J. White, Deputy, East Greenwich.

South Carolina Railroad Commissioners—Columbia. B. L. Caughman, Chairman, Columbia; John G. Richards, Jr., Liberty Hill; G. McD. Hampton, Columbia; J. P. Darby, Secy., Columbia.

South Dakota Railroad Commissioners—Pierre. George Rice, Chairman, Flandrean; F. C. Robinson, Groton; W. G. Smith, Sidney; T. E. Cassill, Secretary.

Tennessee Railroad Commissioners—Nashville. B. A. Enloe, Chairman; Frank Avent, H. H. Hannah; Miss Willie Fields, Secretary.

Texas Railroad Commission—Austin. Allison Mayfield, Chairman; John L. Worthan, W. D. Williams; E. R. McLean, Secretary.

Vermont Public Service Commission—Newport. J. W. Redmond, Chairman, Newport; Wm. R. Warner, Vergennes; S. H. Jackson, Barre; R. W. Spear, Clerk, Newport.

Virginia State Corporation Commission—Richmond. Robert R. Prentiss, Chairman, Richmond; William F. Rhea, J. R. Wingfield; R. T. Wilson, Clerk.

Washington—Olympia. George A. Lee, Chairman; Harry E. Wilson, J. S. Jones; Frank M. Larned, Secretary.

West Virginia—Fred O. Blue, State Tax Commissioner, Charleston.

Wisconsin Railroad Commission—Madison. John H. Roemer, Chairman; David Harlowe, Halford Erickson; John M. Winterbotham, Secretary.

Wyoming Board of Equalization—Cheyenne. John L. Baird, President; Robert B. Forsyth, Secretary; Frank L. Haux.

NOTE—Items 1 to 5, inclusive, cover all accidents to and around trains, cars and engines, including, in general, all casualties resulting from train operation. "Industrial" accidents (Items 6 to 10, inclusive) are those which do not involve train operation but occur to railroad employes other than trainmen on railroad premises.

The yearly tables show for the year ending June 30, 1911, the total number of casualties 160,555 (10,396 killed and 150,159 injured). Of this number, 430 killed and 79,237 injured were railroad employes, on railroad premises, by accidents in which the movement of cars or engines is not involved; 5,284 persons were killed and 5,614 injured while trespassing on the property of the railroads, principally while walking on the tracks or seeking rides on trains.

The number of passengers carried during the year ending June 30, 1911, was 997,409,882. The corresponding number for the year ending June 30, 1910, was 971,683,199. The passenger mileage was 33,201,694,699 and 32,338,496,329, respectively.

* Russian capitalization includes Asiatic railways and covers 41,586 miles, from which the capitalization per mile is computed. † Exclusive of roads of local interest. ‡ Twenty-three per cent. of the Swedish railways are narrow-gauge local roads. In 1908 the State roads had cost \$48,500 per mile of securities. Mileage corresponds to the capital.

The "Archiv für Eisenbahnen" places the total capital cost of the railways of the world in 1909 at \$53,584,000,000, of which \$25,293,000,000 is apportioned to Europe and \$28,291,000,000 to the rest of the world.

Italic letters designate the different years of reports used, viz.: a, 1906; b, 1907; c, 1908; d, 1908-09; e, 1909; f, 1910; g, 1911.

Railroad Pensions in the United States.

The following table shows the estimated number of employes on the twenty-six roads now having pension systems in force. In general all the roads here shown base their pensions on a percentage of the employe's wages, multiplied by the number of years that he has been in service. For example, the rate on the Pennsylvania is 1 per cent. A man having worked 40 years received a pension equal to 40 per cent. of his average salary for the 10 years preceding retirement. Most companies include in their rules a reservation of the right to vary the rate of pensions if the total requirements of any one year shall demand more than a predetermined gross amount. All of the companies in counting time include years of service under other companies bought by or consolidated with the present one. Short breaks in the service not due to any fault of the employe, or due to a minor fault involving suspensions, are generally overlooked.

The U. S. Steel Corporation dedicated \$8,000,000 for a fund with which to pension superannuated and disabled employes. This fund has been consolidated with the \$4,000,000 fund created by Andrew Carnegie after he sold out his holdings in the Carnegie Steel Company to the U. S. Steel Corporation. The new fund, therefore, will be \$12,000,000 and will be known as "The United States Steel and Carnegie Pension Fund."

The Western Union early in 1912 established a pension system with minimum pensions of \$25 per month and maximum pensions of \$100 per month. It is estimated that the pensions will cost the company from \$300,000 to \$500,000 per year.

Passenger Railway Rates in Europe.

PASSENGER rates differ considerably in the different countries. Most of the railroads are owned and operated by the state, but in some countries there are both State and private roads, and in England the railroads are all private corporations. The following are approximate passenger rates, reduced to cents per mile, in the various European countries:

OWNERSHIP.	Class I. Class II. Class III.			OWNERSHIP.	Class I. Class II. Class III		
	Cents.	Cents.	Cents.		Cents.	Cents.	Cents.
Germany, Government	2.73	1.75	1.16	Italy, Government....	3.60	2.53	1.62
Belgium, Government..	2.91	1.98	1.17	England—			
France, Government..	3.16	2.35	1.53	Gt. East. Ry., min...	4.02	3.02	2.01
France, private.....	3.48	2.34	1.53	Gt. East. Ry., max...	6.03	4.02	3.02
Holland, Government..	3.29	2.47	1.65	Southeast'n & Chat-			
Holland, private.....	3.29	2.47	1.65	ham Railway.....	4.02	2.51	2.01

In Italy the rate per mile is higher than on any other Government-owned road, though a differential tariff offers some advantages that tend to reduce the price and to make the long-distance journeys as cheap as in other countries.

National Association of Railway Commissioners.

President—Charles F. Staples, St. Paul, Minn. First Vice-President—O. P. Gohlth, Columbus, Ohio. Second Vice-President—H. Warner Hill, Atlanta, Ga. Secretary—William H. Connolly, Interstate Commerce Commission, Washington, D. C. Assistant Secretary—William Kilpatrick, Springfield, Ill.

The fastest time on record for a distance of over 440 miles was made by the Lake Shore and Michigan Southern R.R. from Buffalo to Chicago, in June, 1905, noted above. The fastest long-distance run less than 440 miles was on the New York Central R.R. September 11, 1895, from New York to Buffalo, 436.1-2 miles, in 407 minutes actual time. Average speed, 64.1-3 miles an hour, with two stops and 28 slow-ups, and on January 1, 1903, from Albany to Buffalo, 302 miles, in 295 minutes.

Among the fastest regular trains in the United States, for a shorter distance, are believed to be the New York Central "Empire State Express" between New York and Albany, 143 miles in 175 minutes, and the "Congressional Limited," on the Pennsylvania Railroad, which makes the run from Jersey City to Washington in 4 hours, 46 minutes, a distance of 227 miles. Also the "Pennsylvania Special" over P. R. R. which runs from Jersey City to North Philadelphia, 84 miles, in 83 minutes; from Jersey City to Harrisburg, Pa., 194 miles in 196 minutes.

On August 15, 1898, on P. & R. and C. & R. of N. J., "Royal Blue Line," between Elizabeth, N. J., and Jenkintown, a distance of 69 miles, in 61 minutes, including 2 slow-ups, some of the miles being traversed in 35 seconds.

Other notable long-distance fast runs: February 1-15, 1897-Pennsylvania Railroad and C. & B. and Q., Jersey City to Denver, 1,937 miles, in 48 hours; average speed, 41.3 miles per hour; August 29-31, 1891-Canadian Pacific, Vancouver to Brockville, 2,302 miles, in 77 hours 9 minutes; average speed, 36.32 miles per hour.

The Jarrett and Palmer special theatrical train, Jersey City to Oakland (San Francisco), 2,311 miles, June, 1876, 83 hours 45 minutes; average speed, 39.53 miles per hour.

In October, 1905, the "Harriman Special" made the run from Oakland to Jersey City (2,239 miles) in 73 hours, 12 minutes, or 41.30 miles per hour. In May, 1906, the "Harriman Special" made the run from Oakland, Cal., to New York City in 71 hours, 27 minutes.

The "Scott Special" left Los Angeles, Cal., July 9, 1905, and arrived in Chicago (2,415.5 miles), July 11, having made the run in 44 hours 54 minutes, maintaining an average speed while in motion of 51 miles an hour.

On November 15, 1907, at Clayton, N. J., in a trial test on Pennsylvania R. R. between steam and electric locomotives, the steam engine made 93.5 miles an hour on a specially built seven mile curved track, while the electric locomotive made but 90 miles an hour.

A special train of an engine and two cars, which was run in January, 1911, to carry J. P. Morgan from Washington to New York over the Pennsylvania Railroad, made the trip of 226.5 miles in 3 hours, 55 minutes and 30 seconds, or at the rate of 67.8 miles an hour. The speed over the New York division, West Philadelphia to New York, 90.5 miles, averaged 67 miles an hour.

In February, 1911, the "Gates Special," from Yuma, Ariz., to New York, 2,787 miles, made the run in 74 hours 19 minutes, or an average of 40.41 miles per hour, including stops. From Albany to New York the trip, 143 miles, was made in 143 minutes.

A remarkable record was made in the run of a silk train between Seattle and New York in October, 1911. The distance is 3,178 miles, and the time made 82½ hours. The average speed all the way across the continent, including stops and a delay of more than two hours in switching at Chicago, was 38½ miles per hour.

SOME FOREIGN RAILWAY RUNS.

The Northern Railway runs a day express from Berlin to Paris, which covers the distance from Paris to St. Quentin (96¼ miles) in 93 minutes. The Eastern Railway Company has an afternoon express from Paris to Bale, which runs the first 104.37 miles in 107 minutes. The fastest train in Germany is the so-called "D-Zug 20" between Berlin and Hamburg, which maintains an average speed of 55.177 miles per hour. (U. S. Consul H. Dug)

Railroad Equipment.

WEIGHT AND HORSE POWER OF DIFFERENT TYPES OF LOCOMOTIVES, INCLUDING THE MODERN ELECTRIC TRACTOR, AND ALSO THE WEIGHT, SIZE AND COST OF FREIGHT CARS, ORDINARY COACHES, PARLOR AND SLEEPING CARS.

RECENT HEAVY LOCOMOTIVES.

* This is not the heaviest locomotive, but is the most powerful locomotive in the world. The heaviest locomotive was built some years ago for the A. T. & S. F. and weighed a total of 616,000 lbs., but had a tractive effort of but 111,600 lbs. The Mallet for the Virginian, in every particular except weight, outclasses all other locomotives. These engines have ten wheels on each side and are 65 ft. 11¼ in. over all. They are used entirely in pusher service, and with two of these locomotives as helpers and one lighter locomotive at the head of the train, they take a train weighing 4,230 tons over Clarke's Gap, Va., which has a 2.07 per cent. grade on 11 miles and maximum curves of 12 deg.

† These are the largest simple locomotives in the world and the largest passenger locomotives, with the exception of some Mallet locomotives that were built for the A. T. & S. F. as an experiment.

‡ These are the largest non-articulated (rigid wheel base) locomotives ever built.

§ These are now considered the standard locomotives for heavy freight and passenger service under ordinary conditions. The Mikado is replacing the old consolidation locomotive in freight service. The Pacific type is for heavy fast passenger business.

HEAVY ELECTRIC LOCOMOTIVES.

ROAD.	Weight on Drivers. (Pounds.)	Max. Guar. Speed (Miles per hour.)	Type.	Desig. for Trail Load. (Tons.)

* Steel underframe, steel side frames and steel roof.

Railways of America "Grouped" by Capitalists.

The great railroad systems of the United States have been reduced to a few "groups" by means of consolidation and reconsolidation. The following is a list of these groups, which comprise three-quarters of all the railroad lines of the country:

GROUPS.	Miles.	Stocks.	Bonds.
Vanderbilt.....	25,360	\$622,510,000	\$757,900,000
Pennsylvania.....	20,320	770,400,000	572,300,000
Harriman.....	28,110	952,500,000	1,237,360,000
Hill.....	13,410	388,900,000	422,700,000
Morgan.....	13,563	570,900,000	542,200,000
Gould.....	21,411	534,912,000	816,525,000
Moore-Reid.....	28,340	366,400,000	484,700,000
Rockefeller's.....	17,210	254,910,000	312,800,000
Walters.....	11,351	148,300,000	200,610,000
Erh Syndicate.....	12,512	341,500,700	521,360,000
Independent.....	24,510	452,601,000	344,769,000
Total.....	216,097	\$5,403,833,700	\$6,211,245,000

Important Tunnels of the World.

Alberg—Under the Alps at the Arl Mountain and extends from Langen to St. Anton, 6¼ miles; opened 1884.

Andes Mountains—See "Trans-Andine."

Big Bend—Drains the Feather River in California, 2 miles; opened 1886.

Bitter Root Mountains (Montana and Idaho)—10,100 feet long.

Blackwell—Under River Thames, England, 1½ miles; opened 1897.

Cascade Mountain—Through the Cascade Mountains in Washington, 3 miles (building).

Detroit (Michigan Central Ry.)—Under Detroit River.

Gunnison—Southwestern Colorado, 6 miles; opened 1909.

Hoosac—Through Hoosac Mountains, Mass., 4¼ miles; opened 1873.

Khojak Pass—India, from Quetta to Kandahar, 2 miles.

Loetschberg—Through the Alps, in Oberland, Switzerland, 9¼ miles; boring completed 1911.

Mt. Roberts—From the shore of Gastneau Channel at Juncau, Alaska, into Silver Bow Basin, 1-1.3 miles (building).

Mont d'Or—Passes under the Jura, 3¾ miles (building).

Mont Cenis—Italy to France, under the Col de Frejus, 8 miles; opened 1871.

New Croton—Supplies water to New York City, 33 1-8 miles; opened 1888.

Otra—In New Zealand, 5 1-3 miles (building). **Rothschonberg**—Drains the Felberg mines Saxony, 3½ miles; opened 1877.

St. Clair—Under St. Clair River from Sarnia, Ont., to Port Huron, Mich., 2 miles; opened 1891.

St. Gothard—Through the Alps, connects Goscheneu with Airolo, in Switzerland, 9 1-3 miles; opened 1881.

Severn—From Monmouthshire to Gloucestershire, England, 4½ miles; opened 1886.

Simplon—Through the Alps, 12½ miles; opened 1905.

Strawberry—Through the Wasatch Mountains, 50 miles.

Sutro—Drains the Comstock Lode in Nevada, 4½ miles; opened 1879.

Trans-Andine Ry. tunnel—5 miles long, 12,000 feet above sea level and affords direct communication between Valparaiso and Buenos Ayres; opened April 5, 1910.

Wasserfuh—In the Alps, between Bunnadern and Lichtensteig, Switzerland, 2 miles; opened 1909.

Woodhead—Between Manchester and Sheffield, England, 3 miles.

TUNNELS IN AND ABOUT NEW YORK CITY.

(For Subways in and about New York City, see Index).

PENNSYLVANIA RAILROAD SYSTEM—Tunnels under Hudson River connecting Weehawken, N. J., with the Pennsylvania Railroad Station at Seventh Ave., between 31st and 33d Sts., New York. Work started April 1, 1904; completed in 1910. Two tubes of cast iron rings, 23 feet outside diameter and 21 feet 2 inches inside diameter; subaqueous portion 6,118 feet long.

Manhattan Cross-Town Tunnels from the Pennsylvania Railroad station, mentioned above, across New York under 32d and 33d Sts. to First Ave. Started July, 1905, completed in 1910. There are two tunnels, each with two tracks. The tunnels are built of concrete with the crown about 60 feet below the surface of the street.

East River Tunnels connect with the Cross-Town Tunnels and extend under the East River to Long Island City. Started September, 1904; completed in 1910. Four separate tubes with rings 23 feet outside diameter, each tube from the Manhattan shaft to the Long Island City shaft, 3,900 feet long.

HUDSON AND MANHATTAN RAILROAD SYSTEM—North tunnels under the Hudson River from Jersey City to Morton St., New York. Started November, 1874; the first in New York, officially opened February 25, 1903. Two single track tubes, with a minimum inside diameter of 15 feet 3 inches, and approximately 5,700 feet long.

Up-town tunnels connect with north tunnels at Morton St. and extend to Christopher St. thence to Sixth Ave. and up Sixth Ave. to 33d St. Started March, 1904, completed in 1910. Section from Morton to 12th Sts. shield construction, remainder cut and cover.

Forty-second Street Subway Extension from 33d St. and 6th Ave. to Grand Central on 42d St. Work started in 1911.

South tunnels under Hudson River from Jersey City to the Church St. Terminal Buildings (Cortlandt, Church and Fulton Sts.), New York. Started May, 1905; opened for traffic July, 1909. Two tubes about 5,950 feet long with cast iron rings, 16 feet 7 inches outside diameter and 15 feet 3 inches inside diameter.

Two tunnels, both under the East River from the Battery, Manhattan, to Brooklyn, will be built. These tunnels will form part of the new subway system now under construction.

A tunnel from Brooklyn to Staten Island, under the Narrows, is contemplated.

Tunnels (consisting of two single track tubes) extend from the Hoboken terminal of the Lackawanna Railroad to Washington St., Jersey City, with connections to the north tunnels and to the Erie Railroad station. At Washington St. a branch runs to the Pennsylvania Railroad station at Jersey City, where connections are made with the south tunnels. West from Washington St. to a point east of Summit Ave. is a double track concrete tunnel with a centre wall dividing the tracks. Work started March, 1906; completed in July, 1911.

BELMONT TUNNEL under the East River from 42d St., New York, to Long Island City. Subaqueous portion two single track tubes with cast-iron ring 16 feet 10 inches outside diameter, and a clear inside diameter of 15 feet 6 inches. Through rock a horseshoe shaped concrete section is used and in other places a rectangular double track cross section with reinforced concrete lining. Construction started by New York and Long Island Railroad, July 12, 1905; practically completed January 1, 1908.

RAPID TRANSIT TUNNEL under the East River from the Battery, New York, to Joralemon St., Brooklyn, connecting the New York and Brooklyn Subways. Started April, 1903; trains running January 9, 1908. Two tubes, 6,784 feet long, with a finished inside diameter of 15 feet 6 inches.

BERGEN CUT of Erie Railroad through Bergen Hill Jersey City, parallel to the present tunnel, which is 4,700 feet long. The Bergen cut was started March, 1906, and completed July 1, 1910. It has five four-track tunnels, with open cuts between the tunnels, making a total length of 4,300 feet. Tunnel sections 58 feet wide at the bottom and 21 feet high.

LACKAWANNA RAILROAD TUNNEL through Bergen Hill, Jersey City. Started February 28, 1906; completed February 14, 1909. Parallel to and 24 feet away from old tunnel and of the same length, viz., 4,283 feet. New tunnel is double tracked, lined with concrete, having inside dimensions 23 feet high by 30 feet wide. Bush track construction used.

Foreign Trade of the United States.

(Compiled from the Report of the Bureau of Foreign and Domestic Commerce of the Department of Commerce and Labor.)

a Including Asiatic Russia. b Actual production unknown; c Clean rice equivalent to 74,710 million pounds of uncleaned rice. d Figures of domestic exports; no data of production. e Total entries at Brazilian ports for the season ended June 30, 1912. During the calendar year 1911. Brazilian exports of coffee totalled 11,257,802 bags. f Unofficial estimate. g Included 71,780,640 lbs. of scoured wool reduced to terms of greasy wool at the ratio of 1 lb. of scoured wool equal to 2 lbs. of greasy wool. h Production unknown; exports of raw, including wild silk from China during 1911, 20,113,333 lbs. (Not including waste silk.) i Preliminary data. j Commercial value.

The Twelve Greatest Seaports.

The following table, prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce and Labor, shows the relative rank in tonnage movement of the principal ports of the world. Figures of coastwise trade are not included:

Port.	Year.	Entered Tons.	Cleared Tons.	Port.	Year.	Entered Tons.	Cleared Tons.
New York a.....	1912	13,673,765	13,549,138	Shanghai d.....	1911	9,170,309	9,429,996
Antwerp b.....	1911	13,330,699	13,325,781	Marseilles.....	1910	8,161,344	8,186,315
London.....	1911	11,973,249	9,004,974	Liverpool.....	1911	7,887,719	6,890,271
Hamburg.....	1911	11,880,949	11,945,239	Singapore e.....	1910	7,407,143	7,419,373
Rotterdam.....	1911	11,052,186	10,800,490	Colombo f.....	1911	7,087,747	7,083,085
Hongkong-Victoria. c	1910	10,489,203	10,477,301	Cardiff.....	1911	5,526,426	8,328,447

a Fiscal year. b The figures for Antwerp are not strictly comparable with those for other ports as the Belgian methods of tonnage measurement differ from those adopted by other nations. c Exclusive of Chinese junks engaged in the foreign trade, and of steamers under 60 tons. In 1911 the total of entrances and clearances was 20,360,428 tons. d Tonnage of vessels entered and cleared at the Maritime Customs. e Exclusive of native craft, warships, transports, yachts, and sailing and steam vessels under 50 tons, but including vessels engaged in trade between the Settlements. f Excluding the tonnage of vessels that called for the purpose of coaling and for orders only.

Imports and Exports of Principal Countries.

(Compiled by the Bureau of Foreign and Domestic Commerce, Department of Commerce and Labor from the official records of the various countries.)

(Years ending December 31, unless stated otherwise; imports for consumption and exports of domestic merchandise, gold and silver bullion and coin not included, unless stated otherwise.)

(j) Inclusive of Intercolonial trade and treasure. (k) Merchandise only, exclusive of Government stores. (l) Exclusive of Interstate commerce.

Domestic Commerce on the Great Lakes.

SUMMARY FOR CALENDAR YEARS.

(From the Report of the Bureau of Statistics, Department of Commerce and Labor.)

RECEIPTS AT LAKE PORTS.

COMMODITY.	1906.	1907.	1908.	1909.	1910.	1911.
Wheat..... bushels	48,634,291	62,456,753	56,322,913	54,983,602	36,707,315	41,863,591
Flour..... short tons	1,313,895	1,313,895	1,186,781	1,231,331	1,169,911	1,150,497
Corn..... bushels	35,038,398	38,172,953	19,290,736	23,615,761	32,284,915	37,994,362
Oats..... bushels	32,436,489	20,019,906	15,693,456	14,137,412	20,669,747	22,557,483
Barley..... bushels	18,496,834	13,600,307	13,538,933	17,849,217	13,838,287	10,161,740
Rye..... bushels	2,159,308	2,156,239	1,690,370	1,167,988	970,396	2,187,969
Flaxseed..... bushels	18,385,232	15,620,897	15,610,219	9,678,432	3,106,792	4,540,149
Coal, hard..... short tons	2,980,605	4,062,184	4,186,401	3,610,863	4,168,935	4,365,470
Coal, soft..... short tons	12,552,109	15,406,026	13,174,394	13,628,249	18,401,700	17,080,184
Iron ore..... long tons	36,891,900	40,689,046	24,936,616	40,715,382	41,507,626	31,118,610
Iron, pig..... long tons	387,659	205,039	90,320	136,601	165,738	95,176
Iron manufactures..... short tons	610,093	489,739	319,038	674,326	573,513	391,041
Copper..... short tons	140,487	105,163	135,525	167,736	167,603	142,075
Salt..... short tons	554,811	560,268	619,622	567,227	532,351	450,870
Lumber..... 1,000 feet	1,748,555	1,377,807	944,227	1,154,551	1,207,972	1,163,925
Unclassed freight..... short tons	5,773,445	6,471,004	6,078,688	7,577,213	7,528,318	8,340,178
Total freight, reduced to net tons.....	73,178,213	81,123,687	58,909,345	78,752,767	84,414,636	72,320,544

SHIPMENTS FROM LAKE PORTS.

COMMODITY.	1906.	1907.	1908.	1909.	1910.	1911.
Wheat..... bushels	47,726,778	63,349,585	57,754,183	56,114,633	37,179,364	42,292,488
Flour..... short tons	1,334,979	1,314,987	1,188,831	1,248,891	1,171,327	1,152,807
Corn..... bushels	43,531,540	44,355,900	22,546,795	28,954,760	39,521,929	47,149,095
Oats..... bushels	33,638,055	20,680,188	15,701,406	17,828,717	22,659,792	27,562,921
Barley..... bushels	18,252,250	13,564,074	13,516,156	14,137,662	13,837,037	10,161,740
Rye..... bushels	2,227,813	2,186,444	1,695,370	1,167,988	970,396	2,187,969
Flaxseed..... bushels	18,638,862	15,647,509	15,610,219	9,883,432	3,106,792	4,540,149
Coal, hard..... short tons	3,087,227	4,079,177	4,189,672	3,616,063	4,170,813	4,374,100
Coal, soft*..... short tons	14,488,240	17,445,540	14,681,911	15,652,293	18,406,469	18,774,211
Iron ore..... long tons	36,872,508	40,727,972	24,939,185	40,732,677	41,517,641	31,121,116
Iron, pig..... long tons	369,741	206,939	90,407	136,656	165,640	95,132
Iron manufactures..... short tons	620,563	495,740	325,207	680,554	578,224	393,100
Copper..... short tons	130,552	106,695	135,693	167,614	167,439	142,075
Salt..... short tons	567,986	558,288	619,788	561,829	532,719	450,502
Lumber..... 1,000 feet	1,807,570	1,380,284	944,742	1,155,765	1,207,792	1,164,544
Unclassed freight..... short tons	5,842,426	6,528,378	6,030,193	7,534,003	7,470,005	8,270,723
Total freight, reduced to short tons.....	75,609,649	83,498,171	60,518,024	80,974,605	86,732,316	74,311,019

* Includes coal shipped for vessels' fuel consumption: 1904, 1,321,619 net tons; 1905, 1,777,837 net tons; 1906, 2,003,453 net tons; 1907, 2,017,231 net tons; 1908, 1,477,902 net tons; 1909, 2,021,393 and 1910, 2,103,659 net tons, and 1911, 1,692,846 net tons.

The above figures are exclusive of imports into and exports from domestic lake ports.

Grain Receipts

BY SPECIFIED PORTS, CALENDAR YEARS 1907-1911.

(From Annual Reports of the New York Produce Exchange.)

PORTS.	1907.	1908.	1909.	1910.	1911.
New York:					
By canal, via river.....	<i>Bushels.</i> 9,558,500	<i>Bushels.</i> 7,228,000	<i>Bushels.</i> 9,676,000	<i>Bushels.</i> 11,000,700	<i>Bushels.</i> 7,895,000
Coastwise and river.....	254,613	957,259	1,863,504	441,588	3,913,254
By rail.....	112,397,811	95,532,736	82,895,110	86,635,278	107,411,728
Total New York.....	122,210,924	103,717,995	94,434,614	98,077,566	119,219,982
Portland, Me.....	25,061,918				
Boston.....	37,776,856	24,637,968	25,968,955	22,451,292	28,904,930
Philadelphia.....	53,918,914	44,614,736	35,126,455	30,120,980	41,195,845
Baltimore.....	51,274,138	40,329,270	31,654,690	32,801,922	42,123,546
New Orleans.....	22,444,681	17,737,501	17,127,626	16,213,444	15,919,182
Total.....	312,687,431				
Montreal, Canada.....	42,954,386	41,006,738	43,551,119	45,427,290	50,539,637

Grain embraces wheat flour reduced to equivalent in wheat, corn, rye, oats, barley, malt and peas. Receipts at New York, Portland, Boston, Philadelphia and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers, and therefore duplicate an equivalent quantity of wheat received in grain.

Salt Industry. •

THE quantity of salt produced in this country in 1911, according to statistics compiled by the United States Geological Survey, amounted to 31,183,968 barrels of 280 pounds, valued at \$8,345,-692. Expressed on a tonnage basis, these quantities represent an output of 4,365,756 short tons. The average net value of the product in 1911 was 26.763 cents per barrel, or \$1.91 per short ton. The States producing the greatest quantity were as follows: New York, 11,234,928 barrels; Michigan, 10,320,074 barrels; Ohio, 4,302,507 barrels; Kansas, 2,159,859 barrels; California, 1,086,163 barrels. In both quantity and value of output the United States stands at the head of the salt-producing countries of the world.

Manufactures in the United States.

(From Census Bureau's Summary for 1909, issued April, 1912.)

THE statement of the general results of the Thirteenth United States Census of Manufactures includes a summary comparing the figures for 1904 and 1909, by totals, for Continental United States, as follows:

SUMMARY FOR THE UNITED STATES FOR 1909.*

	CENSUS.		Per Cent. of Increase, 1904 to 1909.
	1909.	1904.	
Number of establishments.	268,491	216,180	24.2
Persons engaged in manufactures.	7,678,578	6,213,612	23.6
Proprietors and firm members.	273,265	225,673	21.1
Salaried employes.	790,267	519,556	52.1
Wage-earners (average number).	6,615,046	5,468,383	21.0
Primary horsepower.	18,680,776	13,487,707	38.5
Capital.	\$18,428,270,000	\$12,675,581,000	45.4
Expenses.	\$18,453,080,000	\$13,138,260,000	40.5
Services.	\$1,365,613,000	\$3,184,884,000	37.1
Salaries.	\$938,575,000	\$574,439,000	63.4
Wages.	\$3,427,038,000	\$2,610,445,000	31.3
Materials.	\$12,141,791,000	\$8,500,208,000	42.8
Miscellaneous.	\$1,945,676,000	\$1,453,168,000	33.9
Value of products.	\$20,672,052,000	\$14,793,903,000	39.7
Value added by manufacture (value of products less cost of materials).	\$8,530,261,000	\$6,293,695,000	35.5

*Not including Alaska, Hawaii or Porto Rico.

The value added by manufacture in 1909, namely, the difference between the cost of materials and the total value of products, was \$8,530,261,000. This figure best represents the net wealth created by manufacturing operations, because the gross value of products includes the cost of the materials used, which are either the products of non-manufacturing industries, such as agriculture, forestry, fisheries and mining, or else are themselves the product of manufacturing establishments. The value of products derived from this latter class of materials involves a duplication, inasmuch as the value of these materials has already figured in the value of products reported for the establishments manufacturing them in the first instance; in some cases, indeed, where a given product has passed through several distinct stages of manufacture in different establishments before reaching its final form, this duplication may be repeated several times. All such duplications, as well as the original value of materials, are, however, eliminated in the figures for value added by manufacture. This value covers salaries and wages—which represent over one-half of the total—overhead charges, depreciation, interest, taxes, and other expenses attendant upon the manufacturing operations, as well as the profits of the undertaking.

VALUES OF PRINCIPAL ARTICLES OF DOMESTIC MANUFACTURES EXPORTED FROM THE UNITED STATES FROM 1890 TO 1912, YEAR ENDING JUNE 30.

NOTE.—These ten groups form about 75 per cent. of the total value of manufactures exported.

YEAR	Iron and Steel Manufactures.	Copper Manufactures.	Agricultural Implements.	Wood Manufactures.	Mineral Oils, Refined.	Chemicals, Drugs, Dyes, etc.	Leather, and Manufactures of.	Cotton Manufactures.	Books, Maps, Engravings, etc.	All Other Paper and Manufactures of.
1890..	\$5,542,208	\$2,349,392	\$3,859,184	\$4,458,854	\$5,424,279	\$12,428,847	\$9,999,277	\$1,886,694	\$1,226,686

* In the year 1909. (a) Increase in average number of wage-earners, 1899-1909. (b) Increase in value of products, 1899-1909.

Manufactured Etc.

The Census Office on November 13, 1911, issued a statement regarding the manufacture of ice in the United States. It does not cover ice manufactured in breweries, in meat, provision and cold storage warehouses and in other plants that produce it for their own use. The general summary shows that there were 2,004 manufacturing establishments in 1909 and capital invested \$118,642,000. The value of products was \$42,953,000 in 1909 and \$23,790,000 in 1904, an increase of \$19,163,000, or 81 per cent. The average per establishment was approximately \$21,000 in 1909 and \$18,000 in 1904. The cost of materials used in 1909 was \$11,317,000; the salaries and wages, \$13,647,000 and number of employes, 19,041.

Manufacture of Glass in the United States.

A CENSUS Bulletin of November 9, 1911, reported the number of establishments manufacturing glass in 1909 as 363; the capital employed, \$129,288,000; salaries and wages, \$44,293,000, and value of products, \$59,976,000.

Some of the principal classes of products of the year 1909 were: Plate glass, 60,105,694 square feet; window glass, 6,921,611 fifty-foot boxes; tumblers and goblets, 11,637,036 dozen; globes and other electrical goods, 11,738,798 dozen; blown tumblers, stem ware and bar goods, 9,182,000 dozen bottles and jars, 12,306,311 gross.

The Fertilizer Industry.

The number of establishments manufacturing fertilizers in the United States, according to a Census Office report of November, 1911, was in 1909, 550. The capital employed was \$121,537,000 and the value of products for the year \$103,960,000. The number of persons employed in the manufacturing industry was 21,627, and their salaries and wages for the year were \$11,883,000. The increase in production in five years, 1904 to 1909, was 60 per cent.

MANUFACTURES IN THE UNITED STATES—Continued.

*In the year 1909. (a) Increase in average number of wage-earners, 1899-1909. (b) Increase in value of products, 1899-1909. † Decrease.

In the above table the industries are arranged in the order of their gross value of products—Some of the industries which hold a very high rank in gross value of products rank comparatively low in the average number of wage-earners employed and in the value added by manufacture. Where this is the case it indicates that the cost of materials represents a large proportion of the total value of products, and that therefore the value added by manufacture, of which wages constitute usually the largest item, is not commensurate with the total value of products. Thus the slaughtering and meat-packing industry, which ranks first in gross value of products, and the flour-mill and grist-mill industry, which ranks fifth in that respect, both hold a comparatively low rank with regard to number of wage-earners or to the value added by manufacture. The blast-furnace industry, the smelting and refining of copper, the manufacture and refining of sugar and molasses, the manufacture of butter and cheese and condensed milk, the refining of petroleum, and the smelting and refining of lead, are other industries which rank much higher in gross value of products than in the number of wage-earners or the value added by manufacture.

Illuminating and Heating Gas.

THE number of establishments engaged in the manufacture of illuminating and heating gas in the United States in 1909, according to the Census report issued November 15, 1911 was 1909. The capital employed was \$915,537,000 and the value of the year's product was \$166,814,000. There were 50,730 persons engaged in the business. The number of cubic feet produced was 150,535,793,000 of which carburated water gas represented 79,418,486,000 cubic feet, mixed coal and water gas 40,775,283,000 cubic feet and straight coal gas 19,985,253,000 cubic feet. These statistics do not include gas made in coke and other establishments producing gas as a by-product.

The Phonograph Industry.

A STATEMENT regarding the production of phonographs and graphophones in the United States in the year 1909 was issued by the Census Bureau, November 22, 1911.

The number of manufacturing establishments was 18, and the capital employed \$14,363,000. The year's value of products was \$11,726,000.

The number of instruments produced was 344,681, valued at \$5,407,000, and the number of records and blanks produced was 17,183,959, valued at \$5,007,000.

Lumber and Timber Products.

THE Census Office in June, 1912, published statistics of lumber and timber products in the United States in 1909, according to the Thirteenth Census.

The industry considered was, in value of products, the third in rank in the census year. It embraces logging operations, ordinary sawmills, planing mills, and establishments engaged in the manufacture of wooden packing boxes. It does not include statistics of mills engaged exclusively in custom sawing for local consumption.

In 1909 there were in the United States 40,671 establishments; 784,989 persons engaged in the industry, of which number, 48,825 were proprietors and firm members, 19,340 were salaried officers, superintendents and managers; 18,088 were male, and 3,717 female clerks. The average number of wage-earners was 695,019; the number in the maximum month, November, was 739,160, and in the minimum month, January, 649,239. The total number of wage-earners on December 15, 1909, or the nearest representative day, was 838,160, of which number, 326,978 were males, and 4,027 females, all being 16 years of age and over; while 6,886 males, and 269 females, were under 16. The capital invested was \$1,176,675,407. The total expenses were \$995,622,839, of which, the officials received \$29,448,332, clerks \$17,979,364, wage-earners \$318,739,207, fuel and rent of power \$5,082,287, other materials \$503,035,292, rent of factory or works \$2,623,146, taxes, including internal revenue \$9,863,384, contract work \$32,491,242, and other miscellaneous \$76,360,585. The primary horsepower was 2,840,082. The value of products \$1,156,128,747. The value added by manufacture, which is the difference between cost of materials and value of products, was \$648,011,168.

In average number of wage-earners, the first of the ten leading States was: Louisiana, with 46,072; then Washington, 43,749; Michigan, 35,627; Wisconsin, 34,093; North Carolina, 34,001; Mississippi, 33,397; Arkansas, 32,932; Virginia, 33,287; New York, 27,471, and Pennsylvania, 26,873.

In value of products, the ranking order was: First, Washington, \$89,154,825; New York, \$72,529,813; Louisiana, \$62,837,912; Michigan, \$61,513,560; Wisconsin, \$57,969,170; Pennsylvania, \$57,453,583; California, \$45,000,276; Minnesota, \$42,352,507; Illinois, \$44,951,804, and Mississippi, \$42,792,844.

In value added by manufacture, the first was: Washington, \$52,275,954; then Louisiana, \$39,681,716; Michigan, \$32,471,918; Wisconsin, \$32,381,700; New York, \$30,824,722; Pennsylvania, \$30,139,347; Mississippi, \$28,586,246; California, \$26,631,376; Arkansas, \$26,340,660, and Virginia, \$21,962,911.

Foundry and Machine Shop Products.

THE products of factories engaged in the manufacture of foundry and machine shop products in Continental United States, according to the United States Census of 1910, were summarized in a Census Office bulletin issued in June, 1912.

The industry considered was, in value of products, the second in rank in the census year. It includes all allied industries excepting those which manufacture a distinctive product indicated by some other classification, such as cash registers, calculating machines, sewing machines and electrical machinery. The establishments engaged in the manufacture of bells, gas machines, meters, hardware, plumbers' supplies, saddlery hardware, steam fittings, structural ironwork and cast iron and cast steel pipe, some of which were reported under separate classifications at previous censuses, are all included under this general heading.

In 1909 there were 13,253 establishments, employing 615,485 persons, of which number 9,851 were proprietors and firm members; 21,754 were salaried officers, superintendents and managers; 42,242 were male, and 10,627 female, clerks; the average number of wage-earners was 531,011; the number of wage-earners in the maximum month, December, being 597,234; and in the minimum month, January, 482,080. The total number of wage-earners on December 15, 1909, or the nearest representative day, was 604,167, of which 587,636 were males and 11,895 were females, all 16 years of age and over; while 4,093 were males and 543 females, under 16 years of age. The capital invested was \$1,514,332,273. The total expenses were \$1,077,736,456, of which \$47,817,236 were paid officials, \$45,977,781 clerks, \$321,520,917 wage-earners, \$23,750,838 fuel and rent of power, \$516,260,301 other materials, \$5,970,800 rent of factory or works, \$6,269,172 taxes, including internal revenue, \$6,653,816 contract work, and \$103,515,297 other miscellaneous expenses. The value of products was \$1,228,475,148. The value added by manufacture, which is the difference between value of products and cost of materials, was \$688,464,009. The primary horsepower was \$69,305.

Pennsylvania, with an average of 86,821 wage-earners, \$210,746,257 value of products, and \$109,735,517 value added by manufacture, was considerably in lead. The other leading States, with the exception of New York, held the same relative rank with respect to all three of the items mentioned. New York held second place with \$154,570,346 value of products, and \$92,749,146 value added by manufacture, but, with regard to its average of 64,066 wage-earners, was third in order. Ohio was in the third place with \$145,836,648 value of products and \$81,276,753 value added by manufacture, but, with an average of 64,817 wage-earners, was ahead of New York. Fourth in rank was Illinois with 52,266 wage-earners, \$138,578,993 value of products and \$74,768,805 value added by manufacture.

Manufactures of Cutlery and Tools.

ACCORDING to the Thirteenth United States Census there were 959 establishments engaged in the manufacture of cutlery and tools in this country in 1909 and 838 in 1904, an increase of 14 per cent. This includes knives, scissors, shears, gimlets, planes, axes, hatches and implements of a similar character; also all kinds of cutting tools, hammers, screwdrivers and wrenches. It does not include cutlery and tools made by establishments engaged primarily in the manufacture of other products, such as general hardware, brass ware, and foundry and machine shop products. The capital invested as reported in 1909 was \$67,380,000, a gain of \$23,651,000, or 54 per cent., over \$43,729,000 in 1904. The average capital per establishment was approximately \$70,000 in 1909 and \$52,000 in 1904. The value of products was \$53,266,000 in 1909 and \$39,022,000 in 1904, an increase of \$14,244,000, or 37 per cent. The average per establishment was approximately \$56,000 in 1909 and \$47,000 in 1904. The cost of materials used was \$18,279,000 in 1909, as against \$13,278,000 in 1904, an increase of \$5,001,000, or 38 per cent. The value added by manufacture was \$34,987,000 in 1909 and \$25,744,000 in 1904, an increase of \$9,243,000, or 36 per cent. The average number of wage-earners employed during the year was 32,996 in 1909 and 26,188 in 1904, an increase of 26 per cent.; their wages increased from \$13,125,000 in 1904 to \$17,581,000 in 1909, or 34 per cent.

Manufacture of Woollen Goods.

THE Census Bureau in June, 1912, published statistics of manufacture of woollen, worsted and felt goods and wool hats in the United States in 1909. In that year there were 989 establishments, with 175,176 persons engaged in the industry. The capital invested was \$430,578,574; the total expenses were \$387,993,515 and the value of products \$435,978,558. The following were the returns of wage-earners and value of products by States:

STATE.	Wage-Earners.	Value of Products.	STATE.	Wage-Earners.	Value of Products.
California.....	272	\$585,410	North Carolina.....	424	\$675,265

Meat Packing.

IN June, 1912, the United States Census Bureau published the following statistics of slaughtering and meat packing in 1909:

In 1909 there were in the United States 1,641 establishments; 108,716 persons engaged in the industry. The capital invested amounted to \$383,249,170. The expenses were \$1,316,366,878. The value of products \$1,370,568,101. The value added by manufacture, which is the difference between cost of materials and value of products, was \$168,740,317.

Illinois, with an average number of 26,705 wage-earners, with \$45,618,899 in value added by manufacture, and \$389,594,956 in value of products, or about 30, 27 and 28 per cent., respectively, of the general total for each item, was far ahead of the next State in rank. This latter was Kansas, with an average number of 10,951 wage-earners, \$17,714,526 in value added by manufacture and \$165,360,516 in value of products. New York ranked third with 6,110 wage-earners, \$16,961,817 added by manufacture and \$127,130,051 value of products.

The Mining Industries.

(Census Report.)

A PRELIMINARY statement of the results of the Thirteenth Census relative to the persons engaged in mining industries was issued October 24, 1912, by Director Durand of the Bureau of the Census.

The number of persons engaged in these industries which include the operation of mines, quarries and wells, as returned for December 15, 1909, or nearest representative day was 1,139,332; of whom 1,065,283, or 93.5 per cent., were wage-earners; 49,374, or 4.3 per cent., were proprietors or officials; and 24,675, or 2.2 per cent., were clerks. The proportion of proprietors and officials ranged from 0.7 per cent. in the anthracite branch of the coal mining industry to 31.1 per cent. in the copper mining industry, being high in the petroleum and natural gas industries and in the industries mining precious metals, lead and zinc. Of the 3,804 females connected with the mining industries, 1,443 were proprietors and officials, and 2,361 were clerks, the wage-earners being exclusively males.

In the mining industries, 8,151, or 0.8 per cent., of the wage-earners were boys under sixteen, of whom 6,968, or 85.4 per cent., were employed in coal, 489 in iron and 694 in other mining industries. The boys employed in the coal industries were about equally divided between the bituminous and anthracite mines, which employed respectively 3,721 and 3,247 boys; but the proportion under sixteen among anthracite wage-earners—about 2 per cent.—although not in itself high, was nevertheless higher than in any other industry. Practically all of the boys employed in the anthracite mines, however, worked above ground, only 13 being at work below, while of the 3,721 boys employed in mining bituminous coal 2,904, or more than three-fourths (78 per cent.), worked under ground. Of the 200 boys working under ground in other mining industries 169 were in the iron mines.

Manufacture of Jewelry.

A CENSUS Office Bulletin of December 28, 1911, gave a summary of the manufacture of jewelry in the United States in 1909, which covered rings, pins, bracelets, chains and other articles made from precious metals, including trimmings for umbrellas and canes, rolled plate and filled wire, and also diamond setting and mounting. There were 1,537 establishments engaged in this industry in 1909 and 1,023 in 1904, an increase of 50 per cent. The capital invested as reported in 1909 was \$63,811,000. The average capital per establishment was approximately \$42,000. The value of products was \$80,350,000 in 1909 and \$53,226,000 in 1904, an increase of \$27,124,000, or 51 per cent. The value added by manufacture was \$43,675,000 in 1909 and \$29,049,000 in 1904, an increase of \$14,626,000, or 50 per cent. The average number of wage-earners employed during the year was 30,347 in 1909 and 22,080 in 1904, an increase of 37 per cent.; their wages increased from \$12,593,000 in 1904 to \$18,358,000 in 1909, or 46 per cent.

Manufacture of Agricultural Implements.

A CENSUS Bulletin issued November 3, 1911, reported the number of establishments in the United States in 1909 manufacturing agricultural implements as 640; the capital employed was \$256,281,000, and the value of products in that year \$146,329,000. The number of employes was 59,764. The following is a classified statement of the number of agricultural implements manufactured in 1909:

Seeders, 61,970; corn planters, 219,245; cotton planters, 79,271; potato planters, 23,092; drills, 142,547; seed sowers, 7,847; cultivators, 905,957; cotton scrapers, 20,180; disk harrows, 193,000; spring-tooth harrows, 112,832; spike-tooth harrows, 394,988; listers, 44,840; disk plows, 22,132; shovel plows, 254,737; walking plows, 1,110,006; gang, steam, sulky, or wheel plows, 228,977; grain cradles, 22,635; harvesters, 152,351; hay rakes (horse), 266,260; mowers, 359,264; reapers, 58,294; other harvesting implements 200,678; corn shellers, 83,272; fanning mills, 33,805; threshers, 24,408; Grand total, 5,024,637.

Cotton Goods Made in the United States.

A CENSUS Bureau report issued June 17, 1911, showed that the number of establishments engaged in the manufacture of cotton goods in the United States in 1909 was 1,206, an increase of 24 per cent. since 1899, and that the value of the products was \$616,297,000, an increase of 85 per cent. since 1899. The following is a tabular statement of the kinds of products of cotton goods by kind, quantity and value in 1909:

Plain cloths for printing or converting:			Upholstery goods: Tapestries (piece goods and curtains)—		
Square yards.....	2,437,967,000		Square yards.....	11,753,000	
Value.....	\$121,341,000		Value.....	\$5,015,000	
Brown or bleached sheetings and shirtings:			Lace and lace curtains—		
Square yards.....	1,307,958,000		Square yards.....	85,350,000	
Value.....	\$80,318,000		Value.....	\$9,725,000	
Twills and sateens:			Other, including covers—		
Square yards.....	388,315,000		Square yards.....	3,222,000	
Value.....	\$34,274,000		Value.....	\$1,256,000	
Fancy woven fabrics:			Bags and bagging:		
Square yards.....	427,769,000		Square yards.....	52,694,000	
Value.....	\$47,666,000		Value.....	\$4,332,000	
Ginghams:			Cotton towels and toweling:		
Square yards.....	536,443,000		Square yards.....	52,808,000	
Value.....	\$37,801,000		Value.....	\$6,066,000	
Duck:			Cotton yarn manufactured for sale:		
Square yards.....	163,487,000		Pounds.....	470,221,000	
Value.....	\$27,846,000		Value.....	\$109,219,000	
Drills:			Thread:		
Square yards.....	215,580,000		Pounds.....	23,701,000	
Value.....	\$16,265,000		Value.....	\$20,516,000	
Ticks, denims, and stripes:			Twine:		
Square yards.....	264,175,000		Pounds.....	13,600,000	
Value.....	\$27,288,000		Value.....	\$2,397,000	
Napped fabrics:			Batting and wadding:		
Square yards.....	305,656,000		Pounds.....	10,626,000	
Value.....	\$25,695,000		Value.....	\$1,472,000	
Corduroy, cotton velvet, and plush:			Cotton waste, sold as such:		
Square yards.....	19,706,000		Pounds.....	309,298,000	
Value.....	\$6,966,000		Value.....	\$10,834,000	
Mosquito and other netting:			All other products, value.....	\$14,557,000	
Square yards.....	59,101,000				
Value.....	\$2,104,000				

The number of wage-earners engaged in cotton manufacture in 1909 was 371,120.

Wools of Classes I and II are used for the manufacture of cloths, dress goods, and similar fabrics. Domestic wools are of these two classes. Class III wools are used principally in the carpet manufacture, and are practically not grown in the United States. The domestic wool shown in the above table is the quantity in its greasy state as shorn from the sheep. Fleece wool is wool shorn from living sheep. Pulled wool is wool removed from the skin of slaughtered animals.

Reduced to the scoured condition fit for use in manufacture, the annual production and total value based on the price in Boston in October of each year for the years 1901-1911, inclusive, are as follows:

YEAR.	Fleece and Pulled, Scoured.	Total Value.	Value per Pound.		YEAR.	Fleece and Pulled, Scoured.	Total Value.	Value per Pound.	
			Fleece.	Pulled.				Fleece.	Pulled.
			Pounds.	Cents.				Cents.	Pounds.
1901.....	126,814,690	\$61,164,709	41.1	36.7	1907.....	130,359,118	\$73,263,165	62.3	50.2

1906.....	129,410,942	79,721,383	63.8	54.5					

The wool statistics in above tables were prepared by Wm. J. Battison, of Boston, for the National Association of Wool Manufacturers.

Number of sheep in the world according to the most recent available statistics and estimates: North America, 58,623,834; South America, 99,592,967; Europe, 183,901,261; Asia, 92,848,787; Africa, 50,293,014; Oceania, 116,050,409; total world, 601,691,272.

MANUFACTURE OF WOOLLEN GOODS.

THE number of establishments in the United States in 1909 engaged in the manufacture of woollen goods and worsted goods (exclusive of carpets, felt goods, wool hats, hosiery and knit goods), according to the census report issued in April, 1911, was 913, employing capital of \$415,465,000 and producing goods valued at \$419,826,000. The value of products increased in five years 76 Per cent.

The quantities and values of the different products manufactured in 1909 are as follows:

ITEMS.	Square Yds.	Value.
All-Wool Woven Goods—		
Woolen cassimeres, suitings, overcoatings, etc.....	55,441,000	\$40,528,000
Woolen dress goods, opera flannels, etc.....	29,100,000	16,385,000
Worsted coatings, suitings, overcoatings, etc.....	120,309,000	102,725,000
Worsted dress goods, cassimeres, serges, etc.....	105,799,000	54,030,000
Flannels for underwear.....	3,805,000	1,244,000
Blankets.....	5,130,000	3,226,000
All other all-wool goods.....	3,179,000	1,705,000
Union or Cotton-Mixed Woven Goods—		
Suitings and overcoatings.....	23,498,000	10,509,000
Dress goods, opera and similar flannels.....	4,320,000	1,777,000
Flannels for underwear.....	7,064,000	1,308,000
Blankets.....	5,495,000	1,429,000
All other union goods.....	1,243,000	448,000
Cotton-Warp Woven Goods—		
Wool-filling, cassimeres, suitings, overcoatings, etc.....	46,722,000	12,363,000
Wool-filling dress goods.....	13,116,000	2,642,000
Worsted-filling suitings, overcoatings, etc.....	29,830,000	15,333,000
Worsted-filling dress goods.....	65,113,000	14,799,000
Satinets and linseys.....	5,103,000	912,000
Linings, Italian cloths, etc.....	29,603,000	9,089,000
Cotton-warp blankets.....	5,970,000	1,902,000
All other cotton-warp goods.....	11,555,000	3,875,000
Upholstery Goods and Sundries.....		1,805,000

* The word "Census" in this table refers in all cases to Census of 1910.
 (a) Not including rice. (b) Included in orchard products. (c) Including wax. (d) \$172,276,753, was the aggregate value of milk, butter and cheese by the Census of 1910. (e) Not including peanuts. (f) Value of product in 1905, based on the export value of refined. (g) Includes Hawaii and Porto Rico.
 The Census of 1910 gives the following farm statistics for the United States: Farms, total number, 6,340,357; total acres in farms, 873,729,000; improved acres in farms, 477,445,000; value of land in farms, \$28,386,770,000; value of buildings on farms, \$6,294,137,000; value of implements and machinery on farms, \$1,292,022,600; value per acre of land and buildings, \$39.69; value per acre of land alone, \$32.49. Value of wealth produced on farms in 1910, estimated by Secretary of Agriculture, \$8,928,000,000.

World's Crops.

In November, 1911, the International Institute of Agriculture at Rome, Italy, announced its estimates of world-crop production as follows:

Wheat, 100.2 per cent. of last year's production, or 3,055,733,000 bushels.
Rye, 93.0 per cent. of last year's production, or 1,324,000,000 bushels.
Barley, 99.4 per cent. of last year's production, or 1,208,667,000 bushels.
Oats, 90.8 per cent. of last year's production, or 3,384,500,000 bushels.
Corn—The estimated production in Hungary is 69,032,000 hundred weight, or 138,064,000 bushels of 56 pounds. Rice—Area probably harvested in British India is 52,792,000 acres. Cotton—Estimated area planted in British India is 17,331,000 acres.

Sugar Production.

MULHALL gives the following estimates of the production of cane and beet sugar in the world in English tons from 1850 to 1898; and Willett & Gray, New York, for the years following:

YEARS.	Cane.			YEARS.	Cane.			YEARS.	Cane.		
	Tons.	Tons.	Tons.		Tons.	Tons.	Tons.		Tons.	Tons.	Tons.
1850...	1,200,000	200,000	1,400,000	1900...	3,056,294	5,590,992	8,647,286	1906...	6,781,165	7,216,060	13,947,225
1860...	1,830,000	400,000	2,230,000	1901...	3,646,059	6,066,939	9,712,998	1907...	7,329,317	7,143,818	14,473,135
1870...	1,850,000	900,000	2,750,000	1902...	4,079,742	6,913,504	10,993,346	1908...	6,917,663	7,002,474	13,920,137
1880...	1,860,000	1,810,000	3,670,000	1903...	4,163,941	5,756,720	9,920,661	1909...	7,625,639	6,927,875	14,553,514

1898...	2,850,000	4,650,000	7,500,000	1905...	4,594,782	4,918,480	9,513,262	1911...	8,441,183	8,560,346	17,001,529

The production of sugar in 1910-1911 by sugar-growing countries, in tons of 2,240 pounds, as reported by Willett & Gray, was:

COUNTRIES.	Cane Sugar.	COUNTRIES.	Cane Sugar.	COUNTRIES.	Beet Sugar.
Louisiana.....	306,000	Java.....	1,229,100	United States.....	455,220
Porto Rico.....	295,000	Hawaii.....	506,096	Germany.....	2,606,122
Cuba.....	1,483,451	Queensland.....	210,756	Austria.....	1,538,034
British West Indies.....	113,333	Mauritius.....	226,099	France.....	1,724,897
Haiti and S. Domingo.....	89,979	Demerara.....	108,297	Russia.....	2,140,000
Peru.....	140,000	Argentina.....	148,855	Belgium.....	284,714
Brazil.....	287,000	Philippines.....	207,219	Holland.....	221,359

Beet sugar production in the United States in 1910-11, by States, in tons of 2,240 pounds: Michigan, 116,315; Wisconsin, 16,786; Colorado, 92,180; Utah, 34,389; Idaho, 12,740; California, 129,950; all others, 52,860. Total, 455,220 tons.

CONSUMPTION OF SUGAR.

Licht's estimate of consumption of sugar of all kinds in various countries in 1910-11 per capita in pounds was: Germany, 47.91; Austria, 28.53; France, 42.84; Spain, 13.69; England, 91.68; Switzerland, 76.34; United States (W. & G.), 79.20; Russia, 22.49; Netherlands, 45.67; Denmark, 84.23; Italy, 10.10; Belgium, 38.37; Turkey, 13.60.

The consumption of sugar in the United States in the calendar year 1911, estimated by Willett & Gray, of New York, was:

Imported (including 482,231 tons Hawaiian, 280,622 Porto Rican, and 168,408 Philippine sugar).....	2,340,520	Domestic Maple.....	8,000
Domestic, manufactured from imported molasses.....	8,910	Domestic Beet.....	506,825
Domestic Cane.....	288,074	Domestic Total.....	811,809
		Total product consumed in the U. S.	3,351,391
		or 79.20 pounds per capita.	

Production of Poultry and Eggs.

THE Census of 1910 gave the production of poultry in the United States, in 1909, as 488,468,354. The enumeration covered chickens, guinea fowls, turkeys, geese, ducks, pigeons and peafowls. The total value of fowls raised during 1909 was reported at the Census of 1910 to be \$202,506,272, or an increase of 47.9 per cent. over the total value reported ten years earlier.

According to the Census of 1910, Illinois was the leading State in the number of fowls raised during 1909, the number being 32,352,888. Missouri ranked second in this respect, reporting the number of fowls raised in 1909 as 31,913,210. Iowa ranked third and reported the production of 29,990,147 fowls in 1909.

The production of eggs during the calendar year 1909 for the United States as a whole was 4,591,311,371 dozen. The production for the leading States was as follows: Missouri, 111,816,693; Iowa, 109,760,487; Ohio, 100,889,599; Illinois, 100,119,418; Kansas, 81,659,304; Indiana, 80,755,437; Texas, 77,845,047; Pennsylvania, 74,729,705; New York, 72,349,034; Michigan, 59,915,851.

The report of the Census of 1910 shows the production in 1909 of 5.32 fowls per capita, and 17.3 dozen of eggs per capita per annum for the United States.

Dairy Products.

THE Thirteenth Census presented the following condensed analysis of the dairy industry of the United States for the census year 1909:

Cows kept for milk on farms.....	number..	20,625,432
Cows kept for milk not on farms.....	".....	1,170,338
Total number of cows kept for milk.....		21,795,770
Milk produced on farms.....	gallons..	5,813,699,474
Butter made on farms.....	pounds..	994,650,610
Butter made in factories.....	".....	624,765,000
Total pounds of butter made.....		1,619,415,610
Cheese made on farms.....	pounds..	9,405,864
Cheese made in factories.....	".....	311,126,317
Total pounds of cheese made.....		320,532,181
Condensed milk produced.....	pounds..	494,796,544

The quantity of milk reported was produced on farms reporting 16,069,298 dairy cows and does not include estimates for 4,556,134 cows reported as dairy cows by farmers but for which no statement was given of quantity of milk produced. In many cases the reason for not giving the quantity of milk produced was that the farmers were unable to make even a rough estimate. Generally speaking, however, these cows were on farms in the western and southern parts of the United States where the production is likely to be less than the average for other parts of the country. Also, many cows reported as dairy cows are as a matter of fact milked only a very small part of the year. No estimate is included for the "cows kept for milk" not on farms.

Tea, Coffee and Cocoa.

(Compiled by the Bureau of Foreign and Domestic Commerce, Department of Commerce and Labor.)

Coffee.—Sources of supply in 1910. Exports from coffee-growing countries in pounds.

Brazil.....	1,286,277,000	Porto Rico.....	33,937,000
Central America.....	201,218,000	Jamaica.....	9,782,000

Hayti and Santo Domingo.....	84,216,000	Other countries.....	29,121,000
Mexico.....	41,587,000	Total.....	1,926,527,000

Consumption of leading countries, in pounds.

United States (continental, 1912).....	880,551,000	Sweden (1911).....	71,840,000
Germany (1911).....	404,035,000	Italy (1911).....	58,301,000
France (1911).....	244,830,000	Norway (1911).....	29,376,000
Austria-Hungary (1911).....	127,196,000	United Kingdom (1911).....	28,029,000
Netherlands (1911).....	95,424,000	Russia (1910).....	25,797,000
Belgium (1911).....	93,177,000	British South Africa (1911).....	24,708,000

Imports of coffee in the United States, year ending June 30, 1912, were: From Brazil, 632,527,267 pounds, value \$53,869,713; Colombia and Venezuela, 110,021,773 pounds, value \$13,789,769; Central America, 39,264,532 pounds, value \$4,444,906. The remainder in smaller quantities from other countries.

Tea.—Sources of supply: Exports from principal tea-growing countries in pounds.

British India (1911).....	268,854,000	Java (1911).....	50,524,000
China (1911).....	195,040,000	Japan (1910).....	42,917,000
Ceylon (1910-11).....	183,905,000	Formosa (1910).....	22,778,000

Consumption of leading countries, in pounds:

United Kingdom (1911).....	293,502,000	Netherlands (1911).....	11,466,000
Russia (1910).....	154,704,000	Germany (1911).....	8,405,000
United States (1912).....	100,395,000	New Zealand (1910).....	7,477,000
Canada (1912).....	38,072,000	Austria-Hungary (1911).....	3,551,000
Australia (1910).....	34,622,000	France (1911).....	2,962,000

The number of pounds of tea consumed per capita was: United Kingdom, 6.48; United States, 1.05; Russia, 0.96; Australia, 7.92; Canada, 5.28; France, 0.07; Germany, 0.13.

The imports of tea into the United States in the fiscal year 1910-11 were 101,406,816 pounds, valued at \$18,207,141. Of this 53,747,386 pounds were imported from Japan and 17,605,670 pounds from China.

Cocoa.—World's production of cocoa, 1911, in pounds: Gold Coast, 88,971,000; Ecuador, 87,081,700; St. Thomas (Portuguese), 77,161,000; Brazil, 77,147,800; Trinidad, 46,781,000; Santo Domingo, 43,712,800; Venezuela, 38,318,100; Grenada, 13,113,000; all others, 66,836,900; Total production, 529,123,900.

World's consumption of cocoa, 1911, in pounds: United States, 129,994,200; Germany, 112,114,900; France, 60,273,800; England, 55,988,000; Holland, 51,887,500; Switzerland, 21,719,700; Spain, 14,063,200; Austria-Hungary, 13,038,000; Belgium, 12,116,500; all others, 35,835,700; Total consumption, 507,031,500. (Data from the "Gordian.")

Imports of raw cocoa into the United States in the fiscal year 1910-11 were 145,968,945 pounds. There has been an immense increase in the importation of cocoa in the past ten years.

Reports of the Principal Express Companies for 1911.

Production of 1910 in pounds: United States, 1,103,415,000; Cuba, 46,081,000; Mexico (1906), 34,711,000; Santo Domingo (1908), 32,500,000; Argentina, 31,000,000; Brazil (exports), 75,285,000; Hungary, 159,764,000; France, 36,446,000; Germany, 63,611,000; Russia (including Asiatic), 200,773,000; Turkey (European, 1907), 49,177,000; Java (exports, 1909), 84,000,000; Sumatra, East Coast of, 44,699,000; Japan, 91,850,000. Grand total, 2,053,282,000.

Production of Coal.

AREA OF THE COAL-FIELDS IN SQUARE MILES.

United States, 310,296. Not including 160,705 square miles of which little is known, but which may contain workable coal, and 31,805 square miles where coal lies under heavy cover and is not at present available. Estimated available supply at close of 1911 (short tons), 3,062,022,020,000.

In regard to the coal supplies of the countries outside of the United States, the Geological Survey does not know of any official estimates, with the exception of those of Great Britain, which have been placed by the Royal Commission of Coal Supplies at approximately 180,000,000,000 short tons. A recent statement by Mr. Henry S. Fleming, Secretary of the Bituminous Coal Trade Association, places the German supply at 164,344,000,000 short tons, Canada's known supplies at 100,000,000,000 short tons, Japan at 50,000,000,000 short tons. Mr. Fleming estimates in short tons the other countries of Europe as follows: France, 25,000,000,000; Austria-Hungary, 30,000,000,000; Belgium, 20,000,000,000; Spain, 4,000,000,000.

Mr. Fleming places the contents of the Chinese fields at 1,500,000,000,000 short tons. His estimates of the areas in square miles of the countries outside of the United States are as follows: China, 232,500; Canada, 65,000; India, 35,000; New South Wales, 24,000; Russia, 20,000; Great Britain, 12,000; Spain, 5,500; Japan, 5,500; France, 2,500; Austria-Hungary, 1,800; Germany, 1,700; Belgium, 500; Siberia, Central Asia, and Africa, 180,000.

COAL PRODUCTION IN THE UNITED STATES, 1911 (TONS OF 2,000 POUNDS).

* Production is for calendar year preceding the fiscal year. † Export statistics for the fiscal years ending June 30. ‡ Residuum—tar, pitch, and all other from which the light bodies have been distilled. In 1898 this amounted to 19,973,604 gallons. In 1899 to 30,668,983 gallons, in 1900 to 16,629,156 gallons, in 1901 to 29,146,596 gallons, in 1902 to 30,309,510 gallons, in 1903 to 22,801,506 gallons, in 1904 to 22,560,510 gallons, in 1905 to 43,819,322 gallons, in 1906 to 75,031,224 gallons, in 1907 to 65,228,009 gallons, in 1908 to 70,561,822 gallons, in 1909 to 103,188,033 gallons, in 1910 to 124,055,263 gallons, in 1911 to 123,398,188 gallons, and in 1912 to 168,339,478 gallons.

The above is compiled from the Report of Bureau of Foreign and Domestic Commerce, Department of Commerce and Labor. Over 297,000,000 barrels (of 42 gallons) of crude petroleum, according to the office of the Geological Survey, were produced in the world in 1909. Of this amount 182,134,274 barrels were produced in the United States, 65,970,350 in Russia, and the remainder was distributed among a dozen countries, Austria producing 14,932,799; Sumatra, Java and Borneo, 11,041,852; Roumania, 9,321,138; India, 6,676,517; Mexico, 2,488,742; Japan (including Formosa), 2,012,409; Peru, 1,316,118; Germany, 1,018,837.

Production of Copper, Tin, and Zinc.

THE production of copper in the world in 1911, stated in metric tons of 2,204.6 lbs., was as follows: United States, 491,634; Spain and Portugal, 52,880; Chile, 33,088; Japan, 52,303; Germany, 22,363; Mexico, 61,884; Australasia, 42,512; Africa, 17,252; Canada, 25,570; Newfoundland, 1,174; Norway, 9,576; Peru, 28,500; Russia, 25,980; Italy, 2,642; Sweden, 2,032; Argentina, 1,036; Austria-Hungary, 2,566; United Kingdom, 508; Bolivia, 1,829; Cuba, 3,753; Turkey, 1,016. Total of the world, 880,098.

The copper production of the United States in 1911 was distributed as follows (figures are in pounds): Alaska, 19,412,000; Arizona, 300,578,816; California, 36,806,762; Colorado, 8,474,848; Idaho, 3,745,210; Michigan, 216,412,867; Montana, 271,963,769; Nevada, 65,385,728; New Mexico, 1,518,288; Utah, 138,336,905; Wyoming, (f) 130,499; Southern States, 19,656,971; other States, 1,433,708. Total production, 1,083,856,371.

The production of tin in the world in 1911, in long tons, was: England, 4,500; Straits Settlements, 53,670; China, 2,600; Banka and Billiton, 15,231; Australasia, 3,825; Bolivia, 22,064; South Africa, 2,200; United States, none. Total of the world, 104,090.

The production of zinc in the world in 1911, in metric tons, was as follows: Austria, 13,925; Belgium, 195,102; France, 55,170; Germany, 235,776; Holland, 22,734; Italy, (d) Russia, 9,652; Spain, 9,053; United Kingdom, (e) 67,907; United States, 268,578. Total of the world, 877,697.

(d) Included in Austria. (e) Includes 508 tons from Australia. (f) Included in "Other States." The statistics of Production of Copper, Tin and Zinc, and those of Pig Iron and Steel, which follow, were furnished by the *Engineering and Mining Journal*.

* Estimated. † Not including Canada, which in 1905 produced 403,449 tons; in 1906, 515,200 tons; in 1907, 516,300 tons; in 1908, 598,183 tons; in 1909, 766,795 tons, and in 1910, 835,487 tons.

American Wood-Preservers' Association.

President—E. A. Sterling, Philadelphia, Pa. *Vice-President*—A. M. Smith, Argenta, Kan.
Secretary-Treasurer—F. J. Angler, Mt. Royal Station, B. & O. R. R. Co., Baltimore, Md.

The objects and purposes of the association shall be to advance the wood-preserving industry in all its branches; to afford its members opportunities for the interchange of ideas with respect to improvements in the wood-preserving industry, and for the discussion of all matters bearing upon the industry of wood preserving; to maintain a high business and professional standard in all respects, and to standardize specifications for wood preservatives and their introduction into the materials to be preserved.

The means to be employed for this purpose shall be meetings for the presentation and discussion of appropriate papers, and for social and professional intercourse; the publication of such papers and discussions as may be deemed expedient; co-operation with other societies, associations and organizations in the work of standardizing specifications affecting the wood-preserving industry, and all other things incidental or conducive to the attainment of the objects of the association or any of them, and as the members may from time to time consider advisable.

Election of officers will take place on January 21-23, 1913.

Mineral Products of the United States.

* Not including the value of zinc ore.

(c) Does not include sulphate made from metallic copper. (d) Does not include manganiferous iron ore. (e) Estimated. (f) One "square" covers 100 square feet. (g) Barrels of 265 lbs. (h) Barrels of 380 lbs. (i) Barrels of 42 gallons. (k) Includes salt used in manufacture of alkali; the barrel of salt weighs 280 lbs. (m) Includes a small quantity made from spelter. (o) Flasks of 75 lbs. (q) Includes spiegeleisen, although the value is given as for ferromanganese. (s) Including zinc from foreign ore. (t) Barrels of 330 lbs. (u) Figures reported by the United States Geological Survey. (v) Recovered from scrap metal. (w) Statistics not collected. (x) Includes only metal produced from domestic ores except in case of zinc. (y) Flasks of 75 lbs.

The foregoing statistics of "Mineral Products of the United States" were furnished by *The Engineering and Mining Journal*.

Building and Loan Associations.

THE following statistics of local Building and Loan Associations in the United States were reported at the last annual meeting of the United States League of Local Building and Loan Associations. The returns are for 1911-12:

STATES.	No. of Associations.	Total Membership.	Total Assets.	STATES.	No. of Associations.	Total Membership.	Total Assets.
Pennsylvania.....	1,570	443,180	\$197,240,000	North Carolina....	113	25,174	\$8,375,305

* Reports issue biennially—figures for 1910 used.

The following was the statement of receipts and expenditures by local associations in 1911:

Receipts: Weekly dues, \$233,718,046; paid-up stock, \$23,544,378; deposits, \$65,516,912; loans repaid, \$192,526,056; interest, \$59,796,988; premium, \$4,091,758; fines, \$865,916; pass books and initiation, \$597,604; borrowed money, \$72,316,182; real estate sold, \$4,256,404; miscellaneous receipts, \$22,646,702; cash on hand, \$28,308,186; total, \$708,185,132.

Disbursements: Pass book loans, \$15,245,000; mortgage loans, \$283,252,100; stock withdrawals, \$196,562,932; paid-up stock withdrawals, \$19,385,542; deposit withdrawals, \$57,516,336; expenses, \$7,122,464; borrowed money repaid, \$69,913,570; interest, \$1,622,068; real estate purchased, \$3,902,720; miscellaneous, \$20,708,808; cash on hand, January 1, 1912, \$32,953,592; total, \$708,185,132.

The officers of the League, elected at the annual meeting of 1912-1913, are as follows: President, Chas. O'C. Hennessy, New York City; First Vice-President, W. J. Bayersdorfer, Shreveport, La.; Second Vice-President, Chas. Eugene Clark, Covington, Ky.; Third Vice-President, Peter Hinkel, Chicago, Ill.; Treasurer, Joseph K. Gamble, Philadelphia, Pa.; Secretary, H. F. Cellarius, Cincinnati, Ohio; Assistant Secretary, Herbert W. Pinkham, Quincy, Mass.

In 1893 there were 240 national building and loan associations in the United States, with total assets of \$37,020,366. Since that date this class of associations has greatly decreased in numbers and assets.

CENSUS REPORT OF MINERAL INDUSTRIES IN 1909.
MINES AND QUARRIES; GENERAL SUMMARY, BY INDUSTRIES.

INDUSTRIES.	Number of Operators.	Number of Mines, Quarries and Wells.	Expenses of Operation and Development.	Value of Products.	Number of Persons Engaged in Industry.
All Industries (Con'tental U.S.)	19,933	\$1,042,642,693	\$1,238,410,322	1,139,332

All other Industries (b).....	10	27	740,874	778,938	560

(a) Includes 326 persons, who could not be distributed among the several industries.

(b) Includes enterprises as follows: Antimony, 1; bismuth, 1; borax, 2; chromite, 2; manganese iron, 2; nickel and cobalt, 1; and tin, 1.

In the distribution of the value of products by States, Pennsylvania, with a product valued at \$349,059,786, or 28.2 per cent. of the product of all States, ranked first. Of Pennsylvania's products, bituminous and anthracite coal contributed \$296,424,311, or 84.9 per cent. of the total for the State.

Other States with a product of over \$23,000,000, with the value of their products, were as follows: Illinois, \$76,658,974; West Virginia, \$76,287,889; Michigan, \$67,714,479; Ohio, \$63,767,112; California, \$63,382,454; Minnesota, \$58,664,852; Montana, \$54,991,961; Colorado, \$45,680,135; Arizona, \$34,217,651; Missouri, \$31,667,525; Oklahoma, \$25,637,892; Alabama, \$24,350,667; Nevada, \$23,271,597.

There are several States in which the the mineral production is quite insignificant. In the District of Columbia and Mississippi no mineral production was reported. Rhode Island, North Dakota, Nebraska and Delaware each contributed less than one-tenth of 1 per cent. of the whole value of mineral products, while the contribution of Maine, New Hampshire, Massachusetts, Connecticut, North Carolina, South Carolina, Georgia, Arkansas and Oregon was less than one-half of 1 per cent. in each case.

The total capital invested in all mining enterprises on December 31, 1909, as reported, was \$3,662,527,064, of which \$3,380,525,841 was invested in productive enterprises and \$282,001,223 in those in which development work only was carried on.

United States Brewers' Association.

President—Jacob Ruppert, Jr., New York. First Vice-President—William Hamm, St. Paul, Minn.
Second Vice-President—Edward A. Schmidt, Philadelphia, Pa. Third Vice-President—Gustave Pabst, Milwaukee, Wis.
Treasurer—Anton C. G. Huppel, New York. Secretary—Hugh F. Fox, New York.

Liquor Traffic.

LIQUOR LICENSES AND FEES.

Alaska—Local option under acts of Congress. License, \$1,000.

Arizona—Local option, quarterly fee, United States license \$25 annually. County and State \$300 annually.

Arkansas—Local option, fee \$800.

California—Local option, fee by authorities.

Colorado—Local option, fee \$500 up.

Connecticut—Local option, fee \$150—\$450.

Delaware—New Castle County and city of Wilmington, licensed. Kent and Sussex Counties, local option, fee \$200—\$300.

District of Columbia—License by excise board on the written consent of the majority of the owners of real estate, and of the residents on the front of the square on which the saloon is to be located, and of the owners of real estate and of the residents of the confronting side of the opposite square, fee \$800.

Florida—Local option, fee \$1,000.

Hawaii—License by Commissions appointed by the Governor.

Idaho—Local option by counties, fee \$750.

Illinois—Local option license by city council or village or county board, fee not less than \$500.

Indiana—City and township. Whenever 20 per cent of the voters of the county petition the county commissioners the latter shall be a "yes" or "no" vote as to prohibiting the sale of intoxicants by saloons within the county.

Iowa—License by petition of voters, fee \$600 up.

Kentucky—County local option, except cities of the first, second and third classes may vote separately; fee \$150.

Louisiana—Local option, fee \$200 up.

Maryland—Local option, fee \$18—\$450.

Massachusetts—Local option, fee for first-class license not less than \$1,000; number limited, one to one thousand inhabitants; in Boston, one to five hundred.

Michigan—Local option, fee \$500—\$800.

Minnesota—License fee, \$500—\$1,000.

Missouri—The counties (and cities of 2,500 population, or more) may, by majority vote, pass

the local option law, and if this is not done the county courts may grant a license and fix a tax of not less than \$200, nor more than \$400 per year, for State and not less than \$500, nor more than \$800 for county purposes.

Montana—Semi-annual fee \$150—\$300.

Nebraska—Local option, fee \$500—\$1,000.

Nevada—State license \$50 per annum; wholesale \$100 per annum; retail drug store \$12 per annum; county \$30 per quarter.

New Hampshire—License by majority of voters, fees based on population, maximum \$1,200.

New Jersey—Local option, fee \$100—\$300.

New Mexico—License by local authorities, in incorporated cities and towns, by county commissioners in unincorporated towns. License fee \$100—\$1,500, varying in different municipalities.

New York—Local option in towns, fee \$1,500—\$1,200, according to population.

Ohio—Local option, fee \$1,000.

Oregon—Local option, fee \$400.

Pennsylvania—License under control of courts, fee \$100—\$1,100.

Rhode Island—Local option, fee \$300—\$1,500.

South Carolina—Local option, county control or prohibition.

South Dakota—License by local authorities, fee \$400—\$600.

Texas—License for State and county issued by the County Clerk; fees, State \$375, county \$187.50, city \$187.50; city license issued by city tax collector.

Utah—License granted by local authorities, fee \$400—\$2,000.

Vermont—License local option act was adopted February 13, 1903, and took effect March 3, 1903.

Virginia—Control of local courts, malt liquor bar license \$250, retail ardent spirits \$550, wholesale ardent spirits \$1,250, wholesale malt liquors \$500, retail and shippers \$1,000, local option provided for.

Washington—Local option, fee \$300—\$1,000.

Wisconsin—Local option, fee \$100—\$200, with power in voters to increase from \$200—\$500.

Wyoming—Wholesale dealer, \$300; retail, \$1,000.

LIQUOR MOVEMENT IN STATES.

Alabama—Since the repeal of the Prohibition law a number of counties have held local option elections, the majority of them deciding for a licensed liquor traffic. Since the passage of the Smith-Parks Local Option and Regulation bills there have been sixteen elections held in different counties in the State, eight counties voting "wet" and eight counties voting "dry." The Supreme Court of Alabama has recently held the Parks-Smith Local Option bills to be constitutional, an attack having been made thereon by the Anti-Saloon League.

Arkansas—In October, 1912, a State-wide Prohibition amendment was voted upon at a referendum election and rejected by a majority of 17,000.

California—During the past year, under the Wylie Local Option and Initiative laws, there have been 156 elections. Of the 57 incorporated cities that voted on the question of "license or no license," 37 remained "wet" and 20 went "dry," while of the 95 supervisorial districts 40 favored license and 55 did not. The total "wet" vote was 150,396 and the "dry" vote 96,170. The "wet" majorities amounted to 68,843, while the victories achieved by the "dry" forces gave them an advantage of only 14,617, leaving a balance of 54,226 in favor of licensing the sale of alcoholic liquors.

Colorado—Voted on State-wide Prohibition in November, 1912.

Connecticut—54 towns recently voted on the question of license, 40 of them deciding to retain the saloon. There are now 81 license towns in the State and 87 no-license, as compared with 75 license and 93 no-license last year.

Georgia—The Tippins bill, designed to close the "near-beer" saloons, passed both houses and was vetoed by the Governor, the Legislature failing to repass it over his veto. The Prohibition law is practically a dead letter in the cities and poorly enforced in the country districts. There is a strong movement in favor of resubmission in this State.

Idaho—Seventeen of the twenty-seven counties of Idaho are "dry," Canyon and Bannock counties having recently voted to remain so by large majorities. In the local option election on June 19, Boise voted "wet" by a majority of 2,300. Bonner, Lemhi, Kootenai and Idaho counties, after being "dry" two years, returned to the "wet" column at the late election.

Illinois—Summing up the "wet" and "dry" situation in this State, according to the census of 1900, the population of the places now "wet" is 3,198,781; and the population of the places now "dry" 704,809.

Indiana—Figures have been made public showing that 247 units have held local option elections under the new Proctor law. Of these 46 were cities and 201 townships. Of the cities 30 voted "wet" and 16 "dry;" of the townships, 39 voted "wet" and 161 "dry," and one township had a tie vote.

Kansas—Prohibition.

Maine—The proposed amendment to the Maine Constitution to allow local option on the question of permitting the manufacture and sale of liquor in all the cities and in such towns as accept the provisions of the resolution, was defeated in the Legislature, March 23, 1912. Maine is a prohibition State.

Maryland—The Anti-Saloon League's bill extending local option to counties not already "dry" was passed by the House of Delegates and sent to the Senate, where it was defeated on

April 1. The measure had been amended so as to provide that Baltimore City, several of the counties and two towns be permitted to vote as units on the question instead of by wards and districts.

Massachusetts—In the elections the only important change was the return to license of Gloucester.

Michigan—In Michigan, after four years of constant agitation the score of "wet" and "dry" counties now stands 48 "wet" and 35 "dry," as compared with 44 "wet" and 39 "dry" in 1911 and 43 "wet" and 40 "dry" in 1910. The sentiment of the people with reference to county prohibition is clearly demonstrated by the fact that only 763,501 persons are living in so-called "dry" territory, while 1,987,702 are living in "wet" territory. Elections April 1 were a net loss to the Anti-Saloon League for four counties.

Minnesota—The license question has been an issue in many towns and villages, but in a large majority of instances the status remains unchanged.

Mississippi—Prohibition.

New Jersey—The Legislature rejected a local option bill that was strongly urged by the Anti-Saloon League.

New York—Recent local option elections have not materially changed the status quo.

North Carolina—Prohibition.

North Dakota—Prohibitionists of North Dakota are opposed to the adoption of the Initiative and Referendum amendment to the Constitution under which constitutional amendments could be submitted by the initiative plan, declaring that the enactment of such a measure would open the way to the liquor interests to wage a fight in the State that would be parallel to that under way in Maine. North Dakota is a prohibition State.

Oklahoma—Express companies are prohibited from carrying shipments of liquor in the part of Oklahoma known as Indian Territory prior to Statehood and over which prohibition for twenty-one years was established by the Federal Government, according to a decision handed down by the United States Circuit Court of Appeals.

Ohio—In September, 1912, a constitutional amendment licensing the liquor traffic was voted upon by the people and adopted by a heavy majority. Briefly stated, the license amendment provides that the State shall grant license, but that license shall not affect territory now "dry," or which may hereafter be voted "dry," nor abrogate any present or future local option law, etc. The license amendment is to apply only to such territory as is or may be voted "wet."

Oregon—There has been considerable agitation and Governor West of that State has set himself determinedly to enforcing the liquor laws.

South Carolina—In South Carolina the Lide bill, providing for an election on the question of re-establishing the dispensary system in certain "dry" counties, passed the House in an amended form. The time of the election fixed by the House amendment is the "Tuesday after the first Monday, 1913." The bill was further amended to apply only to those counties which held an election on the dispensary question in August, 1909.

South Dakota—In mid-April two-thirds of the cities and towns in South Dakota voted on the license question. In many places the contests were close, but the majority of the towns voting adhered to license. Not a single town in the Black Hills went "dry." Sioux Falls declared for license by a large majority.

Tennessee—Prohibition.

Texas renominated the pro-license Governor Colquitt by an increased majority.

Utah has joined the local option States by a law making the units the cities and towns and the territory of counties exclusive of its cities and towns. Utah has largely added to its "dry" counties.

Virginia—The Senate of the Virginia General Assembly, by a vote of 24 to 16, turned down the Jordan enabling bill, which provided for referendum of the State-wide prohibition question to a vote of the people.

West Virginia—Prohibition. Ohio County voted "wet."

Wisconsin is investigating the liquor business through a public commission.

NOTE—Indiana, Illinois and Ohio are now practically "dry" train States. The Erie, Lackawanna, Reading and Jersey City railroads have followed the decision of the Pennsylvania to submit to adverse State laws, and abolish the sale of liquors in their trains within the State of Pennsylvania. The Supreme Court of the United States has ruled that beer is a commodity, and railroads must carry it when offered for transportation from one State into "dry" counties of another State, regardless of the laws of the latter State.

The seeming failure to execute the Prohibition law in Tennessee and in the Carolinas has led to unusual activity on the part of moonshiners and the selling of illicit whiskey, about 2,500 stills have been destroyed by Federal officers during the year.

LIQUOR TRAFFIC IN NEW YORK CITY.

Comparative table showing the number of licenses issued and net receipts under excise boards for year ending April 30, 1896 (old law), also number of liquor tax certificates in force, net revenue, State's share net revenue, boroughs' share net revenue, benefit to boroughs by diminished State tax, together with total benefit to each borough comprising the city of New York, for the year ending September 30, 1912 (new law).

When to Serve Beverages.

(From Osborn's Vintage and Production of Wines and Liquors.)

Appetizer—Dry Pale Sherry plain or with a dash of bitters, Vermouth plain or a Cocktail.

With Oysters—Rhine Wine, Moselle, Dry Sauternes, Chablis or Capri; cool.

With Soup—Sherry, Madeira, or Marsala; cool.

With Fish—Sauternes, Chablis, Rhine Wine, Moselle or Capri; cool.

With Entrées—Claret or Chianti.*

With Roast—Claret, Burgundy, or Chianti.*

With Game—Champagne (cold), Old Vintage Champagne; cool.

With Pastry—Madeira; cool.

With Cheese—Port.*

With Fruit—Tokay, Malaga, or Muscat.*

With Coffee—Brandy or Cordial.*

* Temperature of room.

Suicides.

THE suicide rate of the registration area of the United States in 1910 was 16.0 per 100,000 population. The estimated number of suicides in the entire United States, but excluding insular possessions, in 1912 was 125,000. The most common means of self-destruction in 1910, according to the mortality reports of the Census, were: Fire-arms, 2,561; poisoning, 2,456; asphyxiation, chiefly illuminating gas, 941; cutting or piercing instruments, 544; drowning, 517; jumping from high places, 137, and by crushing, 88.

The suicide rate of large American cities for 1911, according to Frederick J. Hoffman, Statistician, Prudential Insurance Company of America, was 19.6 per 100,000 of population. The number of suicides in 100 American cities in the ten years ending with 1911 was 39,536. The average suicide rates for 20 leading cities for the decade ending with 1910 were as follows: San Francisco, 51.2; San Diego, 38.3; Sacramento, 35.5; Hoboken, 35.2; Los Angeles, 30.9; Oakland, Cal., 30.5; St. Louis, 30.2; Denver, 28.2; Springfield, Ill., 28.1; Seattle, Wash., 27.7; Davenport, Ia., 25.8; Pueblo, Col., 25.3; Newark, N. J., 25.0; McKeesport, Pa., 23.7; Milwaukee, 23.3; Spokane, Wash., 22.7; Haverhill, Mass., 22.5; Cincinnati, 22.4; Chicago, 22.3; Indianapolis, 22.3. The rate for Manhattan and the Bronx was 20.8.

The number of suicides during the decade ending with 1911 was 7,135 for Greater New York, 4,434 for Chicago, 2,308 for Philadelphia, 1,951 for San Francisco, and 2,011 for St. Louis.

The average suicide rates for large foreign cities for recent years was 31.4 for Berlin, 24.8 for Paris, 16.0 for Buenos Ayres, 11.6 for London, and 10.6 for Sydney, New South Wales.

The average annual suicide rates for the more important countries have been as follows: Ireland, 3.4; Scotland, 5.7; Netherlands, 6.7; Norway, 6.4; England and Wales, 10.2; Australia, 11.6; Belgium, 12.4; Sweden, 12.4; U. S. Registration Area, 16.0; Austria, 17.3; Japan, 18.9; Hungary, 19.2; Denmark, 19.4; Germany, 21.3; Switzerland, 22.7, and France, 22.8.

Mortality Statistics.

THE Census Office published in 1912 the completed reports of Mortality Statistics of States and cities of the United States which have laws or ordinances requiring the registration of deaths. There were in 1909, when the enumeration was taken, eighteen of such registration States (California, Colorado, Connecticut, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington and Wisconsin) and the District of Columbia, with fifty-four cities in non-registered States, included in the registration area. They represented a population of 50,870,518 or 56.1 of the population of Continental United States. The total number of deaths reported was 732,533 for the year (1909), the rate per 1,000 of the population being 15.0.

The Census enumeration of 1900 covered the whole United States and is the latest enumeration of that character. It was not deemed advisable by the Census Office to make the Thirteenth Census apply to other than the registration States and cities, because the attempt to enumerate the deaths that occurred in the non-registration States has been unsuccessful, and the data obtained misleading. The registration area now includes a large proportion of the total population and it seems preferable by the Census Office to present only data based on fairly complete registration. The number of registration States and cities is increasing and by the time of the next enumeration many more will be included. The first table presented below is that of the reported number of deaths in the Census year 1900.

DEATHS IN THE UNITED STATES IN CENSUS YEAR 1900.

(Compiled from the Report of the Census Office.)

The largest number of deaths returned for any month in 1909 was 70,093 for March. With the great majority of the registration States and cities it is the month having the largest number of deaths, while June is the month of lowest mortality.

The following was the death rate per thousand in various countries in 1900: Austria, 25.4; Belgium, 19.3; Denmark, 16.9; England and Wales, 18.2; France, 21.9; German Empire, 22.1; Hungary, 26.9; Ireland, 19.6; Italy, 23.8; Netherlands, 17.8; Norway, 15.9; Scotland, 18.5; Spain, 28.9; Sweden, 16.8; Switzerland, 19.3; United States (registration area), 17.6. (In 1909, United States, 15.0.)

It is a fact of much interest, as showing the general prevalence in 1909 of extremely favorable conditions for human life, that the death rate of England and Wales for that year was 14.5 per thousand, which was also the lowest on record for that country, while the rate of 14 for the city of London was even lower and demonstrates the fallacy of the belief that high death rates are necessarily found in large cities.

DEATH RATE OF LARGE CITIES.

The report on Mortality Statistics of 1909 (registration area) contained the following table of percentages of deaths per 1,000 of population in cities of the United States with over 100,000 population:

CITIES.	Annual Average: 1900 to 1909.	1909.	CITIES.	Annual Average: 1900 to 1909.	1909.	CITIES.	Annual Average: 1900 to 1909.	1909.

FOREIGN CITIES—Percentage of deaths per 1,000 of population in 1909: London, 14.0; Edinburgh, 15.3; Glasgow, 17.5; Dublin, 22.4; Paris, 17.4; Berlin, 15.1; St. Petersburg, 24.6; Moscow, 29.6; Stockholm, 14.3; Copenhagen, 14.5; Amsterdam, 13.1; Hamburg, 14.6; Munich, 17.6; Vienna, 16.8; Trieste, 24.6; Rome, 19.3; Milan, 20.3; Venice, 22.1; Bucharest, 26.4; Dresden, 14.0; The Hague, 17.7; Melbourne, 12.5; Sydney, 10.3; Toronto, 22.3.

AVERAGE AGE AT DEATH IN 1909.

The following table shows the average age at death from all causes of persons dying in the registration area in 1909. The average age at death is the result obtained by multiplying the number of persons dying at each age by that age and dividing the sum of the products by the total number of persons who died:

All causes*	38.8	Other diseases of respiratory system	42.1
I.—General diseases.	36.8	V.—Diseases of digestive system	22.0
Typhoid fever	29.0	Diseases of mouth	12.7
Malarial fever	36.0	Tonsillitis	17.1
Small-pox	28.1	Other diseases of pharynx	37.2
Measles	3.8	Ulcer of stomach	50.6
Scarlet fever	6.7	Gastritis	42.7
Whooping cough	1.6	Other diseases of stomach	32.4
Diphtheria	6.2	Dentition	0.9
Croup	3.8	Diarrhoea and enteritis	6.9
Influenza	55.5	Hernia	54.0
Cholera nostras	43.3	Obstruction of intestines	39.3
Dysentery	43.4	Other diseases of intestines	38.5
Erysipelas	37.3	Acute yellow atrophy of liver	43.8

MORTALITY STATISTICS—Continued.

RESULTS FROM THE CENSUS INQUIRY OF 1909.

(From Census Office Bulletins, 1910.)

Consumption—While the total number, 81,720, of deaths from tuberculosis in 1909 was greater than for any preceding year and exceeded by 3,431 the number, 78,289, compiled for 1908, the death rate in the Census Bureau's death registration States and cities, showed a decline from 173.9 in 1908 to 167.5 per 100,000 estimated population in 1909. The 1909 rate is the lowest on record for the census registration area, although it should be remembered that the rates for this area, to which large additions were made in 1906, 1908 and 1909, may not be strictly comparable throughout the period covered with respect to constitution of population. The addition of the new registration State of Ohio for 1909, for example, by bringing in a considerable rural population with a normally low death rate from tuberculosis, would tend to depress the death rate from this cause for the registration area as a whole. Excluding Ohio, which is shown only for 1909, 11 of the 17 registration States for which data are given presented numerical decreases in deaths from tuberculosis for 1909 as compared with 1908, the largest being for New York (415) and Rhode Island (107). Deaths from tuberculosis increased in Washington (91) and California (78) among the 6 States showing more deaths from this cause. Among the larger cities the chief fluctuations were increases of 85 for St. Louis, Mo., 61 for Minneapolis, Minn., 53 for Toledo, Ohio, and 56 for New Haven, Ct.; significant from their small amount; while decreases of 222 occurred for New York City, 194 for Philadelphia, Pa., and 149 for New Orleans, La.

Cancer—Cancer showed a much greater proportional increase in the number of deaths than tuberculosis, rising from 33,465 for 1908 to 37,562 for 1909. The death rate increased from 74.3 to 77, the latter being the highest crude death rate from cancer thus far recorded for the registration area of the United States. The uniform tendency to increase in the number of deaths reported from cancer is shown in the totals reported for the registration States and cities for 1908 and 1909. All the 17 States for which data are given for the two years showed more deaths from this cause in the latter year, except Maryland and South Dakota, for which slightly diminished numbers were returned. Of the 36 large cities only 5 showed more deaths from cancer in 1908 than in 1909, and the amounts of decrease were very small in each case. The numerical increase in the deaths registered from cancer was not large for any particular State or city, but the most impressive feature is the widespread increase shared by all States and cities with but few exceptions.

Typhoid Fever—The total number of deaths caused by typhoid fever in the registration area for the year 1909 was 10,722, a reduction of 653 from the number, 11,375, recorded for the somewhat smaller registration area of 1908. The death rate fell from 25.3 to 22 per 100,000 estimated population, these rates being based on the populations as estimated upon the average annual increase between the last two censuses. The typhoid fever death rate for 1908 was the lowest recorded since the series of census annual reports was instituted, and the rate for 1909 shows a marked reduction from that of the previous year. It is nearly one-third less than the rate shown for the five-year period 1901-1905 (32.2), although still more than twice as large as that of England and Wales. The success already obtained in its reduction should encourage further progress in this direction until residence and travel in this country shall be as safe in this respect as in the best regulated countries of Europe, where the disease is becoming practically negligible as a menace to public health.

Homicides—The total number of deaths from homicide, as reported for 1909, was 2,854, a decrease of 149 from the number compiled for 1908. Not all deaths from homicide are specified, so that the total number that actually occurred would be in excess of that compiled. The increase in the death rate, 5.9, from this cause for 1909 over the annual average rate, 2.9, for the five-year period 1901-1905 is probably due largely to greater precision in the returns in this respect.

Accidental Deaths—Among the causes of accidental deaths, in the order of numerical importance for the year 1909, were the following: Railroad accidents and injuries, 6,659; drowning, 4,558; burns and scalds, 3,992; injuries at birth, hereafter to be classified under diseases of early infancy, 3,508; injuries by horses and vehicles, 2,152, not including injuries by street cars, 1,723, and automobile accidents and injuries, 632; injuries in mines and quarries, 1,997; inhalation of poisonous gases, including conflagration, 1,837; other accidental poisoning, 1,779; accidental gunshot wounds, 944; heat and sunstroke, 816; cold and freezing, 251; lightning, 150.

Infantile Paralysis—It is reported that, of the 569 deaths from infantile paralysis, 552 were of white and only 17 of colored persons. There was a somewhat greater incidence of disease among males and an increased mortality in August, September and October. The bulletin states that no statistical segregation of infantile paralysis as a cause of death has been made heretofore, but the increasing importance of the disease and its wide prevalence throughout the country in the form of local epidemics render a statement of the mortality important. Numerous outbreaks have occurred in this country, the most important of which were those in Vermont in 1894, and in New York and Connecticut in 1907. The 569 deaths compiled for the registration area for 1909 were widely distributed, and indicate endemic or epidemic prevalence in many parts of the country.

Pneumonia—Pneumonia, in the aggregate, caused more deaths than other diseases, except tuberculosis. The number increased from 61,259, or 136 per 100,000 population in 1908, to 70,033, or 143.6 per 100,000 population in 1909, the latter number being only 7 less than the number, 70,040, from tuberculosis of the lungs. The rates for both years were lower than for any previous year of the decade.

Infant Mortality.

THE greatest infantile mortality appears to occur during the third quarter of the year. Taking the average of the decennium 1896-1905, the deaths of children in England and Wales under one year of age numbered—139 per 1,000 births in the first quarter of the year; 118 per 1,000 births in the second quarter; 187 per 1,000 births in the third quarter; and 144 per 1,000 births in the fourth quarter. The mortality for the whole year was, on the average, 147 per 1,000 births.

There appears to be a close relationship existing between weather conditions on the one hand, and infantile mortality on the other. The deaths of children under one year was 118 per 1,000 in 1907 and was the lowest on record. The mortality in the third quarter of the year, was exceptionally low. The Summer of that year was unusually cool and showery in Great Britain.—*Widdowhall*,

In France, according to the *Journal Officiel*, there were in 1910 309,289 marriages, 13,049 divorces, 774,358 living children born, and a total of 703,777 deaths, not including those of stillborn children, which numbered 35,944. The net excess of births over deaths was therefore 70,581. In 1909 the excess of births over deaths was only 13,424, but the decided improvement shown in the figures for 1910 was largely due to a decrease of 52,768 in the deaths of that year. The excess of births over deaths in Paris and the Department of the Seine was 2,670, or 804 less than the excess in the Department of Seine Inférieure, which contains the cities of Rouen and Havre.

For the five-year period from 1901 to 1905, inclusive, the number of births per 1,000 of population in six leading countries of Europe was as follows: In Holland 155, in Germany 149, in Great Britain 121, in Austria 113, in Italy 106, and in France 18.

Statistics of Cremation.

MODERN cremation originated in 1866. To-day, after forty-five years of agitation, there are eighty crematories in Europe. Of these, twenty-two are in Germany, seven in Switzerland and thirty in Italy. About 13,000 bodies were cremated in Europe during 1909. In the United States, from 1876 to 1900, there were 13,012 cremations recorded. In Boston, the substitution of crematories for potter's fields has long been agitated. In New York, the bodies of immigrants dying of infectious diseases at the quarantine station are cremated, unless the surviving relatives have religious scruples against this method.—*Journal of the American Medical Association.*

Some 1912 Records.

A SEVENTH son of a seventh son of a seventh son was born at Pittsburgh, Pa., September 26, to Mr. and Mrs. David Geiger. Mr. Geiger is a mail carrier.

Mrs. F. H. Seeley, at Dorchester (Mass.) Hospital, on August 5, gave birth to quadruplets, all girls, who have survived and are thriving. The mother was also in good health.

On September 14 the fourteenth child was born at Frankfort, Kan., to Mr. and Mrs. John J. Hayes, prosperous farmers, the mother being but 39 years old.

At the age of 29 years Mrs. Patrick Lyng, of Victor, Col., became a grandmother on April 13. Her daughter, Mrs. Alta Garrigthy, aged 15, wife of a young Portland miner, gave birth to a nine and one-half pound boy. She was married when 13 years old. Mrs. Lyng's great-grandfather is still living at Kingfisher, Col.

Representative Francis, of Ohio, in the House of Representatives at Washington on April 6, introduced a bill to grant a pension to Mrs. Sarah Brandon, of Jacobsburg, Ohio, who has had thirty-three children, sixteen of whom, sons, served in the Union Army during the civil war.

The first baby known to have been born in an automobile came into the world at San Luis Obispo, Cal., May 14, the mother being Mrs. George Ingert. The child has been named by the parents after the machine in which it was born.

Mrs. Martha Erickson and Mrs. Bertha Fogelstad, twin sisters, celebrated their ninety-first birthday at Chicago, May 15. Several great-grandchildren were present. The twins were born in Norway.

Prof. R. C. Brenner, of the University of Pittsburgh, Pa., found a quart of soot in the lung of a Pittsburgh man, aged fifty, on May 15. He exhibited the soot at a Board of Trade meeting.

An eight-legged fish was caught in a net by Steven Ghlo near San Diego, Cal., May 21. The unclassified creature had teeth like a dog and gills and dorsal fins, as well as scales like a fish. It was two feet in length and slender. The feet were without nails and covered with soft fur. It would not eat meat, but eagerly devoured raw potatoes and seemed fond of seaweed. It ate out of Ghlo's hand, but could not remain out of water long.

The Defective Classes.

The Insane.—From a report for 1908 issued by the Commissioner of Immigration, the number of inmates of institutions for the insane in the United States were: Aliens, 25,610; naturalized citizens, 25,130; native-born persons, 121,450; total, 172,190. These figures include 100 insane persons in institutions in Alaska, 210 in Hawaii, and 340 in Porto Rico.

The total number of insane in the United States on June 1, 1890 (latest complete Census Report) was 106,485, of whom 74,028 were in hospitals. In the collection of statistics of the insane in 1903 (Census Special Report issued August, 1906), only the insane in hospitals were considered. These had increased to 150,151 on December 31, 1903 and to 187,798 on January 1, 1910. (The last figure is an advance statement of the Census Bureau based on the enumeration of 1910.) The number of hospitals for the insane increased from 162 in 1890 to 328 in 1903 and to 373 in 1910.

In 1903 the number of insane males in hospitals was 78,523, and insane females 71,628. In proportion to population there were more white than negro insane. The investigation includes only those patients who were twelve years of age and over. The maximum concentration was on the ages thirty-five and forty-five years. Female insane live longer than male insane, and white insane than negro insane.

More than one-fourth, 27.8 per cent. of the hospital insane had been inmates less than one year, less than one-sixteenth per cent. had been in hospitals at least twenty years, 41.6 per cent. had been employed as laborers and servants before becoming inmates, 22.5 per cent. had been occupied in agriculture, transportation and other outdoor pursuits, and 16 per cent. in manufacturing and mechanical industries. Of the 328 hospitals for the insane, 226 were public and 102 private in character. The annual cost of maintenance of insane in public hospitals approximated \$21,000,000.

The Feeble-Minded.—The number of feeble-minded in institutions on January 1, 1910, was 20,755, on January 1, 1905, the number was 15,318. The total number of feeble-minded in the United States has been estimated at not less than 150,000. Of the feeble-minded in institutions 58 per cent. were under twenty years of age, and 85 per cent. were under thirty years of age. About one-fifth of the inmates were epileptics.

The Deaf and Dumb.—The total number of deaf mutes in the United States in 1900 was 89,287, of this number 51,871 were deaf from childhood. It is probable that a certain number of persons who were not deaf were included in this total by the enumerators. The deaf in 1910 were 84,361—whites, 37,447; negroes, 4,926; males, 46,915; females, 42,372; native-born whites, 69,926; foreign-born whites, 13,786; nativity unknown, 710.

Of the total number of deaf in 1900, 55,501 were able to speak well, 9,417 imperfectly, and 24,369 not at all.

The Blind.—The total number of blind in the United States in 1900 was 64,763, of whom 35,645 were totally blind and 29,118 were partially blind—whites, 56,535; negroes, 8,228; males, 37,054; females, 27,709; native-born whites, 45,479; foreign-born whites, 10,694, and in 362 cases the nativity was unknown.

The number of insane persons in England and Wales in 1908, according to Webb-Mulhall, was 126,084, or 356.7 per 100,000 population.—Germany (in 1901), 120,570; France (in 1906), 94,400; Belgium (in 1905), 16,940; Holland (in 1906), 9,670.

Mother's Day.

OBJECT—To Honor and uplift Motherhood, and to give Happiness to "The Best Mother Who Ever Lived."—YOUR MOTHER.

OBSERVANCE—Loving remembrance of your Mother (or her memory) through some distinct act of kindness, visit, tribute or letter. Live this day as your Mother would have you live it.

BADGE—A WHITE CARNATION.

TIME—Second Sunday in May Annually—Schools Friday.

FOUNDER—Anna Jarvis, 2031 North 12th St., Philadelphia, U. S. A.

The Governors of forty-nine States, territories and dependencies have recognized and recommended Mother's Day.

The Non-Smokers' Protective League.

THE Non-Smokers' Protective League was organized in New York, May 9, 1910, *President*, Dr. Chas. G. Pease. *Secretary*, John S. Nicbols. *Directors*: Chancellor James R. Day, Syracuse. President David Starr Jordan, Leland Stanford University; Dr. Harvey W. Wiley; Prof. Burt G. Wilder, Cornell; Rev. Dr. Jenkin Lloyd Jones, Chicago; Prof. Thomas B. Stowell, University of Southern California; Prof. Winfield S. Hall, Northwestern University; Prof. W. A. McKeever, Kansas State Agricultural College; Dr. J. W. Seaver; Dr. Stephen F. Peckham, Brooklyn, and William H. Douglas, William B. Chapman, Asa F. Smith, Horace Greeley Knapp, Charles H. Valentine, George A. Rutherford, T. O. Abbott, Alphonse Major, New York; G. L. Fabri, New York; F. W. Roman, University of S. Dakota, and Dr. Charles G. Pease of New York City. Membership is open to anyone in sympathy with the purposes of the League.

The Procreation Commission.

THIS Commission, created by an act of the Legislature of New York State, is to examine into the mental and physical condition and the record and family history of the feeble-minded, epileptic, criminal and other defective inmates confined in the State hospitals, reformatories, charitable and penal institutions; and if in the judgment of the majority of the board procreation by any such person would produce children with an inherited tendency to crime, insanity, feeble-mindedness, idiosyncrasy, or imbecility, and there is no probability of an improvement in their condition, then the board shall appoint one of their number to perform such operation for the prevention of procreation that shall be decided to be most effective. All orders made under this law are subject to review by the Supreme Court.

The board, as appointed by Governor Dix, consists of Dr. Charles H. Andrews, Buffalo, N. Y., surgeon; Dr. Leomon Thompson, Glens Falls, N. Y., neurologist; Dr. Charles C. Duryea, Schenectady, N. Y., practitioner.

The Income Tax Amendment

TO THE CONSTITUTION OF THE UNITED STATES PROPOSED BY THE SIXTY-FIRST CONGRESS TO THE STATES.

THE following joint resolution was proposed at the first session of the Sixty-first Congress and was passed by the Senate July 5, 1909, by a unanimous vote, and by the House of Representatives July 12 by a vote of 317 to 14, and received the approval of the President.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which, when ratified by the Legislatures of three-fourths of the several States, shall be valid to all intents and purposes as a part of the Constitution:

"Article XVI. The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment, among the several States, and without regard to any census or enumeration."

The adoption of the amendment by three-fourths of the States is necessary for its ratification in accordance with the Constitution. The affirmative vote of thirty-six States is therefore necessary.

Thirty-four States, as follows, have ratified the amendment: Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Washington, Wisconsin.

On November 1, 1912, four States had notified the Secretary of State of their rejection of the amendment: Connecticut, New Hampshire, Rhode Island and Utah.

On the same date ten States had not yet notified the Secretary of State of ratification or rejection, these being Delaware, Florida, Massachusetts, New Jersey, New Mexico, Pennsylvania, Vermont, Virginia, West Virginia and Wyoming. Of these States, Vermont had rejected the amendment by the vote of both Houses. In Florida, Massachusetts, New Jersey, Virginia and West Virginia, one House had favored and the other opposed ratification so far; in Pennsylvania one House had voted "yes" and the other House had not voted, while Delaware, New Mexico and Wyoming had taken no action.

Prices Paid for Rare American Coins

BY DEALERS IN NEW YORK.

VALUE of rare coins varies according to their conditions. A worn coin is not worth as much as one showing features sharply and distinctly. The date of a coin may not give it as much value as variation from the ordinary type of that year. Owners of rare coins living at a distance from New York can take impressions of them with lead pencil rubbings on white paper, which can be sent by mail to dealers with minute and careful descriptions.

American Numismatic Association.

THE SIXTY-second Congress of the United States, Second Session, passed "An act to incorporate the American Numismatic Association."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that H. O. Grandberg of Oshkosh, Wis.; William A. Ashbrook of Johnstown, Ohio; Henry Chapman of Philadelphia, Pa.; J. M. Henderson of Columbus, Ohio; Howland Wood, Brookline, Mass., together with such persons as they may associate with themselves, and their successors, be and they hereby are, constituted a body corporate of the District of Columbia.

Sec. 3. That the objects of the said corporation shall be to advance the knowledge of numismatics along educational, historical, and scientific lines in all its various branches; to assist in bringing about better co-operation between all persons interested in the coinage, circulation, classification, collection, sales, exhibition, use and preservation of all coins, bills and medals; to acquire and disseminate trustworthy information bearing upon these topics; to promote greater popular interest in the science of numismatology, and for the particular purpose of bringing the numismatists of America into closer relations with one another, and of promoting friendly feeling for one another through social intercourse, the interchange of ideas and discussions of mutual interest; to acquire, own, hold and dispose of such personal property and own real estate for its own use, as may be necessary to properly carry into effect the purposes herein set forth, and to perform all such other acts and things as may be necessary to the full carrying into effect the said purposes, but such purposes do not include operations for pecuniary profit.

Sec. 4. That the principal office of said association shall be in the District of Columbia, but the association through its representatives shall have power to establish and maintain such other offices throughout America as the business of the association may require.

Sec. 5. That the control of such corporation shall be vested in a board of five governors, to be elected by the members of such association. The incorporators hereof shall act as the Board of Governors for the first year and until others are chosen in their stead.

Sec. 7. That said association shall further have power to have and use a common seal and to alter and change the same at its pleasure; to sue and be sued in any court of the United States or other court of competent jurisdiction; to take or receive for the purposes of the association any gift, grant, or devise, and to accept and administer any trust for the purpose of the association.

For list of officers, see Index.

Public Debt of the United States.

Government Securities.

AVERAGE ANNUAL NET PRICE OF GOVERNMENT BONDS OF ENGLAND, FRANCE, GERMANY AND UNITED STATES.

The quotations for English consols, French rentes and German imperial loans from 1880 to 1905 are taken from the "Materialien zur Beurteilung der Zusammenhänge zwischen dem öffentlichen Schuldenwesen und dem Kapitalmarkt," Berlin, 1908. Figures for more recent years compiled by the Bureau of Statistics from returns of the Bank of England and data given in the Statistisches Jahrbuch des Deutschen Reichs. The quotations for United States bonds were compiled by the United States Treasury Department.

New York Stock Exchange Seats.

THE following table, prepared by *The Wall Street Journal*, shows the high and low prices of New York Stock Exchange seats since 1901:

YEAR.	High.	Low.	YEAR.	High.	Low.	YEAR.	High.	Low.
1901.....	\$80,000	\$49,500	1905.....	\$95,000	\$70,000	1909.....	\$96,000	\$72,500
1902.....	81,000	65,000	1906.....	95,000	78,000	1910.....	94,000	65,000
1903.....	82,000	51,000	1907.....	80,000	51,500	1911.....	73,000	65,000
1904.....	81,000	57,000	1908.....	72,000	52,000	1912*.....	73,000	59,000

Fluctuations are due to trend upward and downward of stock market. * To October 15, 1912. To show how the aggregate value of all the seats on the Stock Exchange has enhanced, the following table is appended. The average number of seats, now approximately 1,100, is used, and the high price each year is taken in computing the table:

YEAR.	High Price.	Aggregate Value.	YEAR.	High Price.	Aggregate Value.	YEAR.	High Price.	Aggregate Value.
1909.....	\$96,000	\$105,600,000	1904.....	\$81,000	\$88,000,000	1879.....	\$20,000	\$22,000,000
1908.....	72,000	79,000,000	1903.....	82,000	96,800,000	1866.....	10,000	11,000,000
1907.....	80,000	88,000,000	1902.....	81,000	88,000,000	1863.....	4,500	4,950,000
1906.....	95,000	104,500,000	1901.....	80,000	88,000,000	1823 (500 seats).	25	12,500
1905.....	95,000	104,500,000	1900.....	35,000	38,500,000			

In 1823 the initiation fee was \$10, while at the present time it is \$2,000. From 1863 to the high-record mark reached in 1909 the total number of seats increased in value \$105,600,000, or over 2,300 per cent.

Ratio to gold.....	15.938 to 1.	14.953 to 1.	5 cents, 1 cent.
Limit of issue.....	Unlimited.	Coinage ceased in 1905.	Needs of the people.	Not to exceed 25 cents.
Denominations.....	\$20, \$10, \$5, \$2½.	\$1.	50 cents, 25 cents, 10 cents.
Legal tender.....	Unlimited.	Unlimited, unless otherwise contracted.	Not to exceed \$10.
Receivable....	For all public dues.	For all public dues.	For all dues up to \$10.	For all dues up to 25 cents.
Exchangeable..	For gold certificates, as below, and subsidiary and minor coin.	For silver certificates and smaller coin.	For minor coin.
Redeemable....	In "lawful money" at the Treasury in sums or multiples of \$20.	In "lawful money" at the Treasury in sums or multiples of \$20.

	Gold Certificates.	Silver Certificates.	United States Notes.	Treasury Notes of 1890.	National Bank Notes.
Limit of issue.	Unlimited for gold coin unless gold reserve falls below \$100,000,000.	Amount of silver dollars coined, \$562,173,530.	\$346,681,016.	No further issues; volume steadily diminishing by redemption in silver dollars.	Not to exceed capital of banks.*
Denominations	\$10,000, \$5,000, \$1,000, \$500, \$100, \$50, \$20, \$10.	\$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$160, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$100, \$50, \$20, \$10, \$5.
Legal tender..	Not a tender.	Not a tender.	For all debts, public and private, except customs and interest on public debt.	Unlimited, unless otherwise contracted.	Not a tender.
Receivable....	For all public dues.	For all public dues.	For all public dues.	For all public dues.	For all public dues except customs.
Exchangeable..	For subsidiary and minor coin.	For silver and minor coin.	For subsidiary and minor coin.	For silver and minor coin.	For subsidiary silver and minor coin.
Redeemable....	In gold coin at the Treasury.	In silver dollars at the Treasury.	In gold at the Treasury.	In gold at the Treasury.	In "lawful money" at the Treasury, or at bank of issue.

* "Lawful money" includes gold coin, silver dollars, United States notes and Treasury notes. United States notes are by regulation receivable for customs so long as they continue redeemable in coin. There are still in use small amounts of \$1 and \$2 national bank notes; also \$500 and \$1,000 silver certificates. Treasury notes were issued for purchases of silver bullion, which was coined into dollars wherewith the notes are being redeemed as rapidly as practicable. The issue of national bank notes is practically dependent upon the market price of United States bonds. When the premium is high it is not profitable to issue notes.

** "Emergency" issues based upon other bonds and upon commercial paper are authorized under certain conditions beyond the amount of the capital, under act of May, 1908, expiring May, 1914.

The above table was prepared for THE WORLD ALMANAC by Maurice L. Muhleman, former Deputy Assistant United States Treasurer, New York.

Banking Statistics.

THE NATIONAL BANKS OF THE UNITED STATES.

(From the annual report of the Comptroller of the Currency.)

Year Ending Sept. 1.	No. of Banks.	Capital.	Surplus.	Total Dividends.	Total Net Earnings.	Ratio of Dividends to Capital.	Ratio of Dividends to Capital and Surplus.	Ratio of Earnings to Capital and Surplus.

*Total cash.

June 30, 1907, the Bank of Portugal had \$5,600,000 in gold, \$8,100,000 in silver, \$74,500,000 circulation and \$29,300,000 in deposits and current accounts; Imperial Ottoman Bank \$12,300,000 in gold and silver, \$6,100,000 in circulation, \$58,000,000 in deposits and current accounts; Bank of Japan \$10,800,000 in gold, \$170,800,000 in circulation and \$200,800,000 in deposits and current accounts; banks of the United Kingdom, including colonial and foreign joint stock banks with London offices, circulation \$306,100,000, deposits and current accounts \$7,691,000,000.

Premiums on Gold.

GOLD sold first at a premium early in January, 1862, the New York banks having suspended specie payments December 28, 1861. The highest point reached was 285, July 11, 1864. The premium on gold disappeared at the end of 1878, just prior to resumption of specie payments.

Following is given a table of the high and low prices of gold from 1862 to 1878 inclusive:

DATE.	Low.	High.	Date.
1862..... March 25.....	101 $\frac{1}{2}$	134	December 4
1863..... August 25.....	122 $\frac{1}{2}$	172 $\frac{1}{2}$	February 25
1864..... January 6.....	151 $\frac{1}{2}$	285	July 11
1865..... June 5.....	135 $\frac{1}{2}$	234 $\frac{1}{2}$	January 4
1866..... March 24.....	124 $\frac{1}{2}$	167 $\frac{1}{2}$	June 18
1867..... January 11.....	132 $\frac{1}{2}$	146 $\frac{1}{2}$	September 12
1868..... November 6.....	132	150	August 6
1869..... November 30.....	121 $\frac{1}{2}$	162 $\frac{1}{2}$	September 24
1870..... November 4.....	110	123 $\frac{1}{2}$	January 10
1871..... April 8.....	110 $\frac{1}{2}$	115	October 7
1872..... January 11.....	108 $\frac{1}{2}$	115 $\frac{1}{2}$	August 5
1873..... January 6.....	106 $\frac{1}{2}$	119 $\frac{1}{2}$	April 5
1874..... July 31.....	109	114 $\frac{1}{2}$	April 15
1875..... January 15.....	111 $\frac{1}{2}$	117 $\frac{1}{2}$	October 5
1876..... December 30.....	107	115	March 3
1877..... October 8.....	102 $\frac{1}{2}$	107 $\frac{1}{2}$	April 17
1878..... Dec. 17 to Dec. 31.....	100	102 $\frac{1}{2}$	January 2

Above table was prepared by James B. Colgate & Co., New York City.

Cost of Membership in Leading Exchanges.

THE *Investment Guide* of Henry Clews & Co. gives the following table of cost of membership in the leading exchanges of the world, as of November 1, 1912:

Baltimore Stock Exchange.....	\$4,500	New Orleans Cotton Exchange.....	\$2,700
Berlin Bourse (entrance fee, not transferable).....	750	New York Coffee Exchange.....	1,950
Boston Stock Exchange.....	23,000	New York Cotton Exchange.....	18,000
Chicago Stock Exchange.....	1,600	New York Produce Exchange.....	600
Cincinnati Stock Exchange.....	3,100	New York Stock Exchange.....	69,000
Cleveland Stock Exchange.....	1,000	Paris Bourse (appointments made and controlled by French Government).....	
Consolidated Stock and Petroleum Exchange, New York.....	300	Philadelphia Stock Exchange.....	9,000
Liverpool Cotton Exchange.....	8,000	Pittsburgh Stock Exchange.....	2,950
London Stock Exchange (entrance fee, not transferable).....	2,000	St. Louis Stock Exchange.....	3,000
Montreal Stock Exchange.....	30,000	Toronto Stock Exchange.....	20,000
		Washington Stock Exchange.....	4,550

The value of a membership in an exchange depends in a large measure upon the prevailing state of business and the market level of securities.

The total receipts of the United States from the beginning of the Government, 1789 to 1912, have been: From customs, \$12,016,249,418; internal revenue, \$9,267,402,977; miscellaneous, \$1,931,802,131; total, excluding loans and premiums, \$24,340,587,617.

The total disbursements, excluding postal service, Panama Canal, and public debt, same period, have been: For civil and miscellaneous, \$5,272,899,110; war, \$7,318,792,233; navy, \$2,944,033,193; Indians, \$563,564,247; pensions, \$4,619,655,700; interest, \$3,300,324,684; total, \$24,622,612,273.

* Disbursements in excess of receipts.

National Statuary Hall.

WORKS of art in the Capitol Building, Washington, have been acquired by gift from private individuals interested in the preservation of the historical, biographical, or pictorial art of the nation; by the gift from States, as instanced by the statues of distinguished citizens forming the collection in Statuary Hall, and by purchase by the Government. A general supervision of the art works of the Capitol is exercised by the Joint Committee on the Library. This committee also has charge of accessions to the art works of the Capitol Building, except as otherwise provided by law.

Statuary Hall, formerly the hall of the House of Representatives, was established as Statuary Hall by act of Congress of July 2, 1864. By this legislation a National Hall of Statuary was created, and the President was authorized to invite each State to contribute to the collection to be formed; two statues in either marble or bronze, of deceased citizens of the State whom "for historic renown or from civil or military services" the State should consider as worthy of commemoration in this National Hall of Statuary.

The following is a list of statues presented by the States and the dates of the works:

STATE.	Name.	Date.	STATE.	Name.	Date.
Alabama	J. L. M. Curry	1906	New Jersey	Richard Stockton	1886

Alcohol, 94 per cent., per gallon.....	2.40	2.59	2.61	2.54	2.64	2.56
Opium, per pound.....	3.15	4.25	5.60	4.60	7.75	7.00
Quinine, domestic, in bulk, per ounce.....	.32	.15	.14	.14	.14	.195
MISCELLANEOUS.						
Hops, New York State, choice, per pound.....	.09	.05	†.13	†.13	†.30	.27
Rubber, up-river, Para, fine new, per pound....	1.08	1.15	2.05	1.38	1.00	1.03
Tobacco, med. leaf, Burley (Louisville), per pound	.095	.1775	.175	.13	.09	.08
Paper, news, roll, per pound.....	.03	.024	.021	.026	.0215	.0225
Ground bone, fine, average per ton, steamed....	20.00	22.50	22.50	24.50	22.00	21.00
Hay, prime (New York), per 100 pounds.....	.85	.80	.95	1.10	1.25	1.10
Cottonseed (Houston), per ton 2,000 pounds....	16.00	13.50	26.00	23.00	16.00	17.00

* Basis of 100 lbs. † Pacific Coast. Average of index numbers yearly since 1895 reveals the following:

YEAR.	Number.	YEAR.	Number.	YEAR.	Number.
1895.....	\$6.4346	1901.....	\$7.5746	1907.....	\$8.9045
1896.....	5.9124	1902.....	7.8759	1908.....	8.0094
1897.....	6.1159	1903.....	7.9364	1909.....	8.5153
1898.....	6.5713	1904.....	7.9187	1910.....	8.9881
1899.....	7.2100	1905.....	8.0987	1911.....	8.7132
1900.....	7.8839	1906.....	8.4176	1912.....	9.1216

The figures for 1912 are based on the numbers ruling on the first of January, February, March, April, May, June, July, August, September, and October.

Average Savings of Salaried Men.

THE Massachusetts Labor Bureau in 1910, published statistics showing the average income, expenditures, and savings of various classes. Some of the figures relating to salaried persons and professional men are as follows:

	Average Income.	Average Expenditures.	Average Savings.		Average Income.	Average Expenditures.	Average Savings.
Bankers and brokers..	\$7,726	\$5,338	\$2,388	Clergymen.....	\$3,150	\$2,581	\$369
Lawyers.....	4,169	2,685	1,474	Professors and tutors	2,878	2,335	543
Physicians.....	3,907	3,190	717	Steamboat officials...	2,529	1,926	603
Railroad officials....	3,441	2,813	628	Express officials.....	1,906	1,647	259
Supts. of Man'g Co's	3,262	2,533	729				

It is stated that thirty out of every one hundred acknowledged having saved nothing.

Digestiveness of Foods.

	H.	M.		H.	M.
Apples, sweet.....	Raw	1 30	Game (most kinds)...	Roasted	4 15
Asparagus.....	Bolled	1 30	Liver (calves).....	Fried or sauteed.	2 30
Beans.....	Bolled	2 30	Lamb.....	Grilled	2 30
Beef, lean.....	Roasted	3 00	Milk.....	Raw	3 15
Beef, fresh salted..	Bolled	2 45	Milk.....	Bolled	2 00
Beef, old salted....	Bolled	6 00	Mutton.....	Bolled and broiled.	3 00
Beets.....	Bolled	3 45	Nuts.....		5 00
Bread, fresh.....	Baked	3 30	Oysters.....	Raw	2 55
Cabbage.....	Pickled	4 30	Oysters.....	Stewed	3 30
Celery.....	Bolled	1 30	Onions.....	Stewed	3 30

Cheese, old.....		3 30	Potatoes.....	Fried or baked	2 30
Duck.....	Roasted	2 00	Rice.....	Bolled	1 00
Eggs, fresh.....	Raw	2 00	Sausage.....	Grilled	3 30
Eggs, fresh.....	Soft bolled	3 00	Tripe.....	Bolled	1 00
Eggs, fresh.....	Hard bolled	4 00	Trout.....	Bolled	1 30
Fish, not fat.....	Bolled	1 30	Turkey.....	Roasted	2 30
Fish, not fat.....	Fried	3 00	Veal.....	Roast or grilled.	5 00

Principal Trusts in the United States.*

(Prepared for THE WORLD ALMANAC by Byron W. Holt.)
 LEADING CORPORATE INDUSTRIAL TRUSTS.† (Corrected to November 18, 1912.)

PRESENT NAME OF TRUST.	No. of Plants Acquired or Controlled.	When Organized.	Where Organized.	Location of Main Office.	PRESENT CAPITALIZATION.‡		
					Com. Stock.	Pref. Stock.§	Bonds.
(With Rates of Interest and Dividends.)							
Adirondack Electric Power Corp.	8	1911	N. Y.	Glens Falls.	\$9,500,000	\$2,500,000 (6)	\$5,000,000 (5)
Aeolian-Weber Piano & Pianos Co. (piano & piano player cos.)	13	1903	N. J.	New York.	6,478,200	3,500,000 (7)	500,000 (6)
Allgheny Steel Co.	4	1905	Pa.	Pittsburgh.	3,000,000 (6)	19,820,000	12,318,000 (5, 6)
Allis-Chalmers Co. (4 heavy machinery plants)	6	1901	N. Y.	New York.	16,050,000	2,000,000
Alpha Portland Cement Co.	8	1910	N. J.	Easton, Pa.	8,400,000	600,000 (6)
Aluminum Co. of America.	8	1889	Pa.	Pittsburgh.	19,000,000 (12)
Amal. Copper Co. (many cos., mines, timber and coal lands; reduction works, railroads, sawmills, etc.)	18	1899	N. J.	New York.	153,887,900 (6)	16,000,000 (5)
Amal. Sugar Co. (3 Western beet sugar cos.)	13	1902	Utah.	Ogden.	2,551,400 (6)
Am. Agrl. Chemical Co. (28 fertilizer plants)	30	1899	Ct.	New York	18,330,900 (2)	27,092,700 (6)	10,578,000 (5)
Am. Axe & Tool Co.	8	1899	Ky.	Glassport, Pa.	1,936,250
Am. Beet Sugar Co. (5,000 tons daily)	5	1899	N. Y.	New York.	15,000,000 (5)	5,000,000 (6)
Am. Book Co. (school book combine)	5	1907	N. Y.	New York.	5,000,000 (10)	4,000,000	2,000,000 (6)
Am. Bottle Co.	12	1905	Ohio.	Chicago.	3,000,000 (7)	4,000,000
Am. Brake Shoe & Foundry Co.	12	1902	N. J.	Matwah, N. J.	3,600,000 (6)	780,000 (5)
Am. Brass Co. (largest consumer of copper in U. S.)	40	1901	N. J.	Waterbury.	15,233,300	41,233,300 (7)
Am. Car & Foundry Co. (railroad cars, 18 cos.)	54	1893	N. Y.	New York.	10,233,300	30,233,000 (7)
Am. Caramel Co.	5	1896	Pa.	New York.	31,000,000 (2)	1,000,000 (8)
Am. Cement Co.	7	1899	N. J.	Philadelphia.	1,000,000 (2)	344,000 (6)
Am. Central Co. (85% chewing gum in U. S.)	9	1899	N. J.	New York.	2,100,000	3,000,000 (6)	550,000 (5)
Am. Control Stencil Chiclet Co.	7	1909	Mo.	New York.	6,000,000 (18)
Am. Coal Producer.	40	1903	N. Y.	New York.	4,000,000 (7)	2,500,000 (7)	2,597,000 (6)
Am. Colortype Co.	4	1902	N. J.	New York.	10,539,300 (7)	1,100,000 (7)	3,023,000
Am. Cotton Oil Co. (17 cos.)	60	1889	N. J.	New York.	2,000,000	10,198,600 (6)	5,000,000 (5)
Am. Dyewood Co. (U. S. and foreign cos.)	6	1904	Pa.	New York.	20,237,100	644,000
Am. Felt Co. (plano and organ felt)	6	1911	Mass.	Boston.	1,500,000	1,627,300 (6)	352,000 (5)
Am. Fork & Hoe Co. (controls 90% of output)	13	1910	N. Y.	Cleveland.	3,894,400 (4)	2,300,000 (7)
Am. Fruit Product Co. (cider, vinegar, etc.)	15	1902	Ohio.	Rochester.	1,750,000	1,000,000 (7)
Am. Glue Co.	13	1906	Mass.	Boston.	800,000 (4)	2,000,000 (8)
Am. Graphophone Co. (cos. in U. S. and Europe)	15	1887	W. Va.	Bridgeport.	2,627,550	2,095,630 (1)	1,480,670 (5, 6)
Am. Hardware Corp.	5	1902	Ct.	New York.	9,920,000 (6)	12,548,300	6,126,000 (6)
Am. Hide & Leather Co. (75% of U. S. leather output)	21	1899	N. Y.	New York.	11,274,100	1,163,500 (6)	577,500 (5)
Am. Hominy Co.	45	1905	N. J.	Indianapolis	2,347,500 (2)	2,793,980 (6)
Am. Ice Securities Co. (holds Am. Ice Co.)	5	1902	N. Y.	New York.	19,042,500	900,000 (6)
Am. Iron & Steel Mfg. Co. (bolts and nuts)	6	1899	N. Y.	Lebanon.	2,550,000 (7)	3,009,900 (7)
Am. La France Fire Engine Co.	10	1904	N. Y.	Elmira.	5,938,200	989,500
Am. Laundry Machine Co. (6 cos.)	6	1909	Ohio.	Cincinnati.	5,544,522	1,681,540
Am. Linsseed Co. (85% U. S. product)	30	1898	N. J.	New York.	16,723,050	16,723,648	7,892,000 (4, 5, 6)
Am. Locomotive Co.	12	1901	N. Y.	New York.	25,000,000	28,700,000 (7)	2,834,000 (6)
Am. Malt Corp. (holds Am. Malt Co.)	13	1907	N. Y.	Jersey City.	3,505,000
Am. Metal Co., Ltd.	5	1899	N. Y.	New York.	3,500,000	350,000 (6)
Am. Oatling Co. (cattle feed, etc.)	3	1881	Ohio.	Cincinnati.	3,628,700 (6)	1,206,100 (5)
Am. Piano Co. (8 piano cos.)	3	1908	N. Y.	New York.	3,161,100	3,888,600 (7)
Am. Pipe & Construction Co.	18	1889	N. J.	Philadelphia.	5,000,000 (8)	1,700,000 (5)

Am. Pneumatic Service Co. (9 cos.)	28	1899, Del.	Boston.	9,991,325	7,828,800 (3)	2,649,000 (5)
Am. Radiator Co. (75% in U. S.)	12	1899, N. J.	Chicago.	6,765,000	3,000,000 (7)	
Am. Rolling Mill Co.	3	1899, N. J.	Middletown.	5,200,000 (12)	800,000 (6)	
Am. Screw Co. (6 cos.)	2	1860, R. I.	Providence.	3,000,000		
Am. Seating Co. (church and school furniture)	10	1906, N. J.	New York.	2,000,000 (4)	1,370,000	
Am. Sewing Machine Co.	10	1906, Ohio	Springfield.	5,000,000 (7)		
Am. Sewer Pipe Co. (85% U. S.)	34	1906, N. J.	Pittsburgh.	7,000,000		
Am. Simplex Rubber Co. (6 cos., etc., on Great Lakes)	3	1899, N. J.	Pittsburgh.	7,000,000 (7)	7,900,000 (7)	
Am. Smelting and Refining Co. (copper and lead)	124	1899, N. J.	New York.	50,000,000 (5, 6)	49,000,000 (5, 6)	15,000,000 (6)
Am. Soda Ash Smelter and Securities Co.	13	1902, N. J.	New York.	30,000,000		
Am. Soda Fountain Co. (3 big cos.)	4	1911, Me.	Boston.	1,250,000		
Am. Steel Foundries Co.	19	1902, N. J.	Chicago.	1,184,000		
Am. Stove Co.	12	1901, N. J.	St. Louis.	5,000,000		
Am. Sugar Refining Co. (50% refined sugar in U. S., controlling interest in many beet and cane sugar cos.)	70	1891, N. J.	Jersey City.	45,000,000 (7)		
Am. Thread Co.	13	1898, N. Y.	New York.	4,890,475 (6)		
Am. Tobacco Co. (segregated in 1911—see foot note).	180	1904, N. J.	New York.	6,000,000 (4)	6,000,000 (4)	
Am. Type Founders' Co.	38	1892, N. J.	Jersey City.	4,000,000 (4)	2,000,000 (7)	
Am. Valve and Pipe Mfg. Co.	4	1911, N. J.	Chicago.	1,000,000		
Am. Controls Barnhart Bros. & Spindler.	2	1901, Del.	Wilmington.	2,215,200		
Am. Window Glass Machine Co.	25	1903, N. J.	Pittsburgh.	12,557,794	6,557,794	
Am. Window Glass Co. (85% U. S. product).	31	1901, Pa.	Pittsburgh.	12,310,808		
Am. Wood Working Machinery Co.	32	1899, Pa.	Rochester.	1,500,000 (4)	3,489,000 (6)	
Am. Woolen Co.	11	1889, N. Y.	Boston.	20,000,000	350,000 (4)	
Am. Wringer Co.	4	1891, R. I.	New York.	900,000 (6)	4,000,000 (7)	
Am. Writing Paper Co. (31 plants, 76% all).	30	1899, N. J.	Holyoke.	9,500,000 (2)	850,000 (7)	
Am. Shoes and Tool Co.	8	1901, N. Y.	Boston.	2,000,000 (7)	12,500,000 (2)	
Amsco Co. (cameras, films, etc.)	17	1907, N. Y.	Binghamton.	2,000,000	3,000,000 (7)	
Associated Oil Co. (beef packers)	10	1900, Ill.	Chicago.	20,000,000	280,354	
Atlantic Coast Lumber Corp.	17	1903, Cal.	San Fran.	40,000,000		
Atlantic Fruit & Steamship Co.	10	1901, S. C.	New York.	1,000,000		
Atlantic Terra Cotta Co. (largest in world).	5	1907, N. Y.	New York.	1,488,200		
Automatic Electric Co.	30	1908, Ill.	Chicago.	4,579,200	1,487,900	
Autosales Gum & Chocolate Co.	3	1911, N. Y.	New York.	6,000,000 (1)		
Baldwin Locomotive Works	30	1911, Pa.	Philadelphia.	20,000,000 (2)	20,000,000 (7)	
Baltimore Brick Co.	22	1902, Del.	Baltimore.	1,500,000		
Beatrice Creamery Co. of Iowa (34,000,000 lbs. butter)	22	1905, Iowa.	Lincoln.	1,500,000 (10)	1,500,000 (7)	
Bethlehem Steel Corp.	12	1904, N. Y.	New York.	14,862,000 (6)	2,900,000 (5)	
Bishop-Babeck-Becker Co. (faucets, etc.)	5	1911, Ohio	Cleveland.	3,476,300	4,908,000 (6)	
Bliss (E. W.) Co. (dies, presses, etc.)	5	1892, W. Va.	Brooklyn.	1,250,000 (8)	4,008,700	
Block Light Co. (gas mantles, etc.)	7	1905, N. Y.	Youngst'n, O.	1,300,000	1,250,000	
Booth Fisheries Co.	8	1909, Del.	Chicago.	5,000,000 (3)	500,000 (6)	
Borden's Condensed Milk Co.	7	1899, N. J.	New York.	21,250,000 (8)	2,000,000 (6)	
Brill (J. G.) Co. (8 electric and steam car cos.)	5	1906, Pa.	Philadelphia.	5,000,000	7,500,000 (6)	
Bucyrus Co. (steam shovels, dredges, etc.)	4	1911, Wis.	S. Milwaukee.	4,580,000 (7)	400,000 (5)	
California & Hawaiian Sugar Refining Co.	2	1899, Cal.	San Fran.	5,000,000 (10)		
California Fruit Cannery Association	25	1899, Cal.	San Fran.	2,991,600		
California Wine Association (controls Cal. trade).	12	1894, Cal.	San Fran.	4,754,200		
Castell Steel Co.	16	1898, Pa.	Philadelphia.	4,500,000 (5)	1,426,260 (6)	
Castrol Co. of America (glue, paints & milk products).	12	1900, N. J.	New York.	5,487,000	1,000,000 (8)	
Central Coal & Coke Co.	8	1890, N. J.	New York.	5,975,000 (6)		
Central Fireworks Co. (controls 6 big cos.)	9	1890, Mo.	Newark.	5,123,000	1,875,000 (5)	
Central Foundry Co. (95% soil pipe output)	14	1890, N. Y.	New York.	3,600,000	1,367,000 (5)	
Central Leather Co. (70% tanneries, etc., in U. S.)	40	1901, Me.	New York.	39,701,030	4,600,700	
Champion Coated Paper Co.	3	1902, Ohio	Hamilton.	3,000,000 (10)	33,290,050 (7)	
Chicago Pneumatic Tool Co. of New Jersey	12	1901, N. J.	New York.	6,000,000 (6)	600,000 (6)	
Chicago Railway Equipment Co. (over 225 patents)	18	1892, Ill.	Chicago.	2,480,500 (7)		
Cleveland-Akron Bag Co.	5	1903, Ohio.	Cleveland.	1,500,000 (6)	500,000 (7)

* Trust, as properly understood, means a consolidation, combine, pool or agreement of two or more naturally competing concerns, which establishes a limited monopoly—locally, nationally or internationally—with power to fix prices or rates in any industry or group of industries. Only the incorporated industrial consolidations are included in the tabular list of trusts on the 6 preceding pages. Nondum is made at the bottom of the next page of some of the other kinds of trusts.

† This list of 294 industrial trusts, with a total capitalization of \$8,524,159,452, is compiled from Moody's Manual of Railroad and Corporation Securities of 1912. Hundreds of minor combinations are not included in this list. Mr. J. M. Moody, in his "Truth About the Trusts," published in 1904, said that there were then in the United States over 440 large industrial, machine and transportation trusts of an important and active character, with a total floating capital of \$20,379,162,511. His list included railroad, street railway, gas and other public service combinations which are natural monopolies.

‡ In principle, any case the amount of stock includes only the amount issued. The amount of bonds includes the guaranteed bonds of subsidiary companies, when known, and sometimes important issues of notes—notes now constituting a popular method of borrowing capital. In many instances rates were lower in 1911 and 1912 than in previous years.

§ The rates of dividends given, on both preferred and common stocks, are the rates actually paid during the last year, so far as known. In many cases the plants of the American Tobacco Co., as now constituted (the readjustment to comply with the Supreme Court mandate being practically completed), will use over 120,000,000 lbs. of tobacco. The selling value of its products was, in 1910, \$46,522,948 and the net profit \$11,369,809. The company also manufactures machinery, boxes, bags, etc. Including \$3,160,753 net revenue from its \$40,098,870 investment in other securities, its surplus is equal to 28.38% on the common stock, as estimated by Josephthal, Louchheim & Co. As to volume of business in the United States, this company (since dissolution) will do about 37.11% as to cigarettes; 33.08% as to smoking tobacco; 25.32% as to plug tobacco; 9.94% as to fine cut tobacco, and 15.43% as to little cigars. The more important statistics of the 13 other segregated companies of the American Tobacco Co. are as follows:

COMPANY.	Chief Products.	Selling Value of Products.	Capitalization and Rates of Dividends and Interest.		
			Com. Stock.	Pref. Stock.	Bonds.
Liggett & Myers Co.	Plug, smoking, etc.	\$46,531,775	\$21,496,300 (12)	\$15,383,700 (7)	\$30,567,400 (5, 7)
P. Lorillard Co.	Smoking, little cigars, etc.	38,718,053	15,155,500 (10)	11,307,600 (7)
Am. Snuff Co.	Snuff.	5,520,442	11,001,700 (12)	4,000,000 (6)
Geo. W. Helme Co.	Snuff.	4,594,357	4,000,000 (10)	4,000,000 (7)
Weyman & Bruhn Co.	Snuff.	4,780,458	4,820,000 (20)	4,000,000 (7)
Conley Filter Co.	In foil.	1,670,120	3,000,000 (20)
MacAndrews & Forbes Co.	Licence paste.	1,670,120	3,000,000 (10)	100,000
J. S. Reynolds Tobacco Co.	Plug and smoking.	1,201,109	1,000,000 (10)	1,000,000 (7)
United Cigar Stores (700 stores)	Sells cigars, etc.	13,903,529	7,525,000 (10)
Porto Rican—Am. Tob. Co.	Cigars, cigarettes, etc.	30,000,000	9,001,000 (8)	3,600,000 (6)
British—Am. Tob. Co.	All kinds.	3,000,000	1,999,400 (6)	1,000,000 (5)

(6) The Standard Oil Co. of N. J. on May 15, 1911, was declared to be an illegal trust. The company has since dissolved itself into 34 legally distinct companies. Practically these companies appear to be working as closely together as formerly. So far as consumers are concerned the other 33 companies may still be treated as subsidiaries of the New Jersey Co. The prices of many important petroleum products have recently been advanced. The combined earnings of the 34 corporations are greater than ever before, although not all of the subsidiary companies have, as yet, begun to pay dividends. The total of all dividends paid in 1912 is equal to 52% on the old stock, which is more than the stock holders ever before received in one year. The Standard Oil Trust, with its 107 subsidiaries, handles about 80% of the crude oil (108,000,000 bbls.) and refines about 80% of the refined oil in the United States. It has 18 refineries, 8,000 miles of trunk pipe lines and 75,000 of feeders, storage tanks for 82,000,000 bbls., 12,000 tank cars, 72 oil tank steamers, 150 steamers and barges. Its total investment is over \$600,000,000 with a present value of about \$1,200,000,000. It has 65,000 employees. Its net profits, for the 12 years ending 1910, were about \$815,315,930 and dividends paid \$483,405,035. Its 33 subsidiary companies with their capital, supposed rates of dividends (but little is known of their earnings since 1906 when they were exposed in court) and bid prices of their stocks on November 12, 1912, are as follows: Anglo-American, \$5,000,000. (par £1) 40%, 18%; Atlantic Refining, \$5,000,000, 45%, 570; Borne-Strymser, \$200,000, (25% in 1906), 175; Buckeye Pipe Line, \$10,000,000 (par \$50), 40%, 176; Chesbrough Mfg.,

\$500,000, 40%, 630; Colonial Oil, \$250,000, % (?) 125; Continental, \$300,000, 50%, 920; Crescent Pipe Line, \$3,000,000 (par \$50), 12%, 66; Cumberland Pipe Line, \$1,000,000, % (?) 80; Eureka Pipe Line, \$5,000,000, 40%, 390; Gatena-Signal, \$8,000,000-\$2,000,000, 6% preferred, 16%, 230; Indiana Pipe Line, \$5,000,000, 40%, 390; National Transit, \$12,727,572 (par \$25), 12%, 44; New York Transit, \$5,000,000, 40%, 352; Northern Pipe Line, \$4,000,000, 20%, 127; Ohio Oil, \$15,000,000 (par \$25), 20%, 123; Prairie Oil & Gas, \$18,000,000 and \$16,000,000 bonds, 24%, 302; Solar Refining, \$500,000 (90% in 1906), 530; Southern Pipe, \$10,000,000, 28%, 382; South Penn Oil, \$2,500,000, 40%, 720; South West Pa. Pipe Lines, \$3,500,000, 20%, 160; Standard Oil of California, \$45,000,000 (net earnings in 1911, \$3,141,626), 10%, 163; Standard Oil of Indiana, \$30,000,000, 12%, 310; Standard Oil of Kansas, \$1,000,000 (13% in 1906), 335; Standard Oil of Kentucky, \$1,000,000 (200% in 1906), 350; Standard Oil of Nebraska, \$800,000, 40%, 300; Standard Oil of New York, \$15,000,000 (assets worth \$100,000,000), 26%, 560; Standard Oil of Ohio, \$3,500,000 (5% in 1906), 255; Swan & Finch, \$500,000 (earned \$150,080 in 1906), 200; Union Tank Line, \$12,000,000, % (?) 73; Vacuum Oil, \$15,000,000, 12%, 176; Washington Oil, \$100,000 (par \$10), (35% in 1906), 20; Waters-Pierce, \$400,000 (earnings of \$500,873 in 1911), 1350.

(b) The United States Steel Corporation produced 9,476,248 tons of finished steel, in 1911, as against 10,733,995 tons, in 1910. Its full capacity is over 14,000,000 tons. It will produce about 12,000,000 tons in 1912, with a value of about \$450,000,000. Its net earnings were \$104,305,466, in 1911, \$141,054,754, in 1910, and \$160,964,673, in 1907—the record year. Its employees numbered 196,888, in 1911, and 218,435, in 1910. It owns hundreds of furnaces and steel mills; 240,501 acres of coking and steam coal lands in the north, and 343,000 acres of coal lands in the south; about 80 iron ore mines in the Lake Superior region, and 20 in the Alabama and Georgia region; 29 railroads, about 3,500 miles in length; 81 steamers, 22 barges; many ore docks; 188,829 acres of natural gas property; 629 miles of pipe lines; water supply plants; cement plants with a capacity of 4,000,000 barrels annually. In 1907, it leased the 39,296 acres of ore lands of the Great Northern Railroad, containing over 400,000,000 tons of iron ore. This lease will be terminated January 1, 1915. The United States Steel Corporation, in 1901, acquired practically all of the stocks of the Federal Steel, National Tube, American Steel & Wire, National Steel, American Tin Plate, American Steel Hoop, American Sheet Steel, American Bridge, Lake Superior Cons. Iron mines, Shelby Steel Tube and the Carnegie Co. The total amount of the preferred and common stocks of these companies was \$720,725,940. In 1902, the United States Steel Corporation acquired the stock of the Union Steel Co., which controlled the Sharon Steel Co., and a number of tin plate, coal and coke companies. In 1904, it acquired the stock of the Clairton Steel Co. In 1907, it acquired control of the Tenn. Coal, Iron & R. R. Co. In October, 1911, the United States Department of Justice filed suit against the United States Steel Corporation and its subsidiaries, charging them with being an unlawful combination.

Besides the incorporated industrial trusts there are innumerable price and rate fixing agreements, profit-sharing pools, selling or buying agencies, product-restricting agreements, etc. They exist in nearly every industry and in nearly every State and city. They are often very effective for longer or shorter periods. Thus, much of the profits of the steel-rail makers during the last twenty years are due to the Steel-Rail Manufacturers' Association. Pools or agreements control the prices of steel beams, steel billets, armor plate, and, in fact, with intermittent relapses, the prices of most important steel and hardware products. The price for iron ores in the Great Lakes districts is fixed yearly by the Bessemer and non-Bessemer Associations. The Anthracite Coal Trust was never more than an agreement by the principal hard coal carrying railroads as to production, freight rates and prices.

Wholesale and retail grocers and druggists are more or less effective in controlling prices in most States and cities. Lumber dealers and chemical manufacturers have many price and selling agreements or pools.

Natural monopolies, such as railroads, street railways, gas, electric light and water companies are not classed as trusts because they are not composed of naturally competing concerns. Consolidations and price and rate fixing agreements in these industries exist in nearly every State and city in the country.

Many of the combinations in these lines are very important. Our greatest railroads have rate-fixing agreements or "community of interest" understandings for controlling rates and the distribution of freights. Besides, they are rapidly coming together, through absorption into larger companies, so that competition no longer exists in most sections of the country.

State Flowers.

The following are "State Flowers," as adopted in most instances by the vote of the public school scholars of the respective States:

Alabama.....	*Golden Rod	Minnesota.....	Moccasin
Alaska.....	Forget-me-not	Mississippi.....	Magnolia
Arkansas.....	Apple Blossom	Montana.....	Bitter Root
California.....	Golden Poppy	Nebraska.....	*Golden Rod
Colorado.....	Columbine	Nevada.....	†Sagebrush, its Shrub
Connecticut.....	Mountain Laurel	New Mexico.....	†Cactus
Delaware.....	Peach Blossom	New York.....	Rose
District of Columbia.....	Nasturtium	North Carolina.....	Golden Rod
Florida.....	Orange Blossoms	North Dakota.....	Wild Rose
Georgia.....	Cherokee Rose	Ohio.....	*Carnation
Idaho.....	Syringa	Oklahoma.....	Mistletoe
Illinois.....	The Native Violet	Oregon.....	Oregon Grape
Indiana.....	Corn Flower	Rhode Island.....	Violet
Iowa.....	Wild Rose	South Dakota.....	Anemone Patens
Kansas.....	*Sunflower	Utah.....	Sego Lily
Kentucky.....	†Golden Rod	Vermont.....	Red Clover
Louisiana.....	Magnolia	Washington.....	Rhododendron
Maine.....	†Pine Cone and Tassel	West Virginia.....	Rhododendron
Maryland.....	Black Eyed Susan	Wisconsin.....	Violet
Michigan.....	Apple Blossom	Wyoming.....	Gentian

In other States the scholars or State Legislatures have not yet taken action.

* Adopted by State Legislature, not by public school scholars.

† Not adopted but generally accepted.

In England the primrose is worn on the birthday of Lord Beaconsfield. On the anniversary of Parnell's death his followers wear a sprig of ivy. The Jacobites wear white roses on June 10. In France the Orleanists wear white daisies and the Bonapartists the violet.

Life Insurance Progress in the United States.

It is within the past sixty years that the vast business of life insurance in the United States has been developed. The experimental stage was ended and the era of advance was opened when, in 1843, the Mutual Life Insurance Company of New York began business, its first policy having been issued on February 1 of that year.

Since then a large number of life insurance companies have been established. The following list includes those now transacting business which had their inception between 1843 and 1860 inclusive, arranged according to the date of the first policy issued:

Mutual Life Insurance Company, 1843, February 1; New England Mutual Life Insurance Company (1), 1844, February 1; New York Life Insurance Company, 1845, April 17; Mutual Benefit Life Insurance Company (2), 1845, May 6; State Mutual Life Assurance Company (3), 1845, June 1; Connecticut Mutual Life Insurance Company, 1846, December 15; Penn Mutual Life Insurance Company, 1847, June 25; Union Mutual Life Insurance Company, 1849, October 1; National Life Insurance Company of Vermont, 1850, February 1; United States Life Insurance Company, 1850, March 4; Etna Life Insurance Company, 1850, August 1; Manhattan Life Insurance Company, 1850, August 1; Massachusetts Mutual Life Insurance Company, 1851, August 2; Phoenix Mutual Life Insurance Company, 1851, September 11; Berkshire Life Insurance Company (4), 1851, October 27; Northwestern Mutual Life Insurance Company, 1858, November 25; Equitable Life Assurance Society, 1859, July 28; Washington Life Insurance Company, 1860, February 2; Home Life Insurance Company, 1860, May 1; Germania Life Insurance Company, 1860, July 16.

How life insurance has progressed since the early part of 1843 is shown in the subjoined table by periods of years as indicated, assessment insurance not being included.

	DECEMBER 31.	Amount of Outstanding Insurance.	Amount of Assets.
1843.....		\$6,500,000	\$1,000,000
1867.....		1,235,000,000	124,534,000

American Experience Table of Mortality.

This is the mortality table prescribed by statute in most of the States as the basis upon which the reserves of life insurance companies shall be computed:

AGE.	Number Living.	Number Dying.	Expectation of Life.	AGE.	Number Living.	Number Dying.	Expectation of Life.	AGE.	Number Living.	Number Dying.	Expectation of Life.
10	100,000	749	48.72	39	78,862	756	28.90	68	43,133	2,243	9.47
11	99,251	746	48.08	40	78,106	765	28.18	69	40,890	2,321	8.97

a \$300,000 of this amount is special reserve fund under laws of State of New Jersey.

* Annual statements of the fire insurance companies are rendered to the insurance departments during the month of January; therefore the statistics of condition January 1, 1913, were not ready when this publication went to press.

† The New York law requires a deposit of \$200,000 from foreign companies with the insurance department. This is treated by the department as "deposit capital," and the surplus stated in the next column is "surplus beyond deposit capital" and other liabilities.

State Fire Marshals.

FOLLOWING is a list of the Fire Marshals holding office in each of the States; their duties being to provide and put in operation means for the prevention of fires and to investigate the causes of fires that have taken place. The laws of almost all the States give them extensive powers, and they have the right to enter premises and compel the attendance of witnesses in the pursuance of their duties. The officials are usually appointees by the Governors of their respective States, but in Maine, Michigan and North Carolina the State Insurance Commissioners are State Fire Marshals ex-officio. In a number of States Fire Marshal laws have not yet been passed, but legislation to this effect may be expected within the next few years.

STATES.	Fire Marshals.	Addresses.	STATES.	Fire Marshals.	Addresses.
Alabama . . .	Lorrie Rice	Montgomery.	Nebraska . . .	C. A. Randall	Lincoln.
Dist. of Col. . .	P. W. Nicholson	Washington.	N. Carolina . .	Jes. R. Young	Raleigh.
Colorado . . .	Vacant	Denver.	New York . . .	Thomas Ahearn	Albany.
Illinois	C. J. Doyle	Springfield.	Ohio	John W. Zuber	Columbus.
Iowa	Ole O. Roe	Des Moines.	Oklahoma . . .	C. C. Hammond	Okla. City.
Kentucky . . .	C. C. Bosworth	Louisville.	Pennsylvania .	J. L. Baldwin	Harrisburg.
Maine	A. T. Havey	Augusta.	S. Carolina . .	B. A. Wharton	Cross Hill.
Louisiana . . .	C. H. Trousdale	New Orleans.	S. Dakota . . .	S. E. Crans	Lead.
Maryland . . .	G. Edw. Myers	Baltimore.	Tennessee . . .	J. E. Oliver	Nashville.
Massachus'ts .	J. H. Whitney	Boston.	Texas	Walter English	Austin.
Michigan	C. A. Palmer	Lansing.	Virginia	Joseph Button	Richmond.
Minnesota . . .	C. E. Keller	St. Paul.	W. Virginia . .	Chas. Ellison	Charleston.
Mississippi . .	J. W. Miller	Jackson.	Wisconsin . . .	T. M. Purtell	Madison.
Montana	George W. Reif	Helena.			

The Fire Marshal for Canada is E. F. Gunther, Victoria, B. C., and for Manitoba, A. Lindback, Winnipeg.

NATIONAL ASSOCIATION OF STATE FIRE MARSHALS.

The officers of the National Association of State Fire Marshals are C. A. Palmer, President; T. M. Purtell of Madison, Wis., Secretary and Treasurer. The Executive Committee is composed of A. Lindback of Winnipeg, Can., Chairman; Charles Ellison of Charleston, W. Va., and Frank Craft of Mitchell, S. Dak.

Rules in Case of Fire.

CRAWL on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Ex-Chief Hugh Bonner, of the New York Fire Department, issued the following rules applying to houses, flats, hotels, etc.:

Familiarize yourself with the location of hall windows and natural escapes. Learn the location of exits to roofs of adjoining buildings. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Should you hear cry of "fire," and columns of smoke fill the rooms, above all KEEP COOL. Keep the doors of rooms shut. Open windows from the top. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke. Stand at window and get benefit of outside air. If room fills with smoke keep close to floor and crawl along by the wall to the window.

Do not jump unless the blaze behind is scorching you. Do not even then if the firemen with scaling ladders are coming up the building or are near. Never go to the roof, unless as a last resort and you know there is escape from it to adjoining buildings. In big buildings fire always goes to the top. Do not jump through flame within a building without first covering the head with a blanket or heavy clothing and gauging the distance. Don't get excited; try to recall the means of exit, and if any firemen are in sight DON'T JUMP.

If the doors of each apartment, especially in the lower part of the house, were closed every night before the occupants retired there would not be such a rapid spread of flames.

ADVICE BY EX-CHIEF CROKER.

The following rules are suggested by Edward F. Croker, ex-Chief of the New York Fire Department:

1. At the first sign of fire do not run away from it. 2. Get well acquainted with the surroundings where you live. 3. Do not resist a fireman in attempting rescue. 4. Do not be too hasty to jump from high places. 5. Fire drills should become a fixed law. 6. Everybody should learn how to use fire appliances. 7. At any cost calm the fears of little children. 8. No matter how hot the fire, bend every effort to keep calm. 9. Cleanliness in the home, an important preventive of fire. 10. In case of too much smoke try to get a wet cloth about the mouth.

FIRE DEPARTMENT DON'TS FOR CITY RESIDENTS.

The New York Fire Department has prepared the following series of "Don'ts" regarding danger from fires, which are especially applicable to cities:

Don't block the fire escapes, you may need them yourself to-night. Don't leave everything to the landlord; inspect your own house from cellar to garret and locate all exits. Don't throw cigars or cigarettes out of windows. They drop on awnings and set them afire. Don't allow children to play with matches. Don't use matches or candles in dark closets or cellars. Don't keep matches except in a tin box with cover attached. Don't toss away a match unless completely extinguished, and then toss it into a metal or porcelain receptacle. Don't fill lamps or oil stoves while lighted. Don't use kerosene oil in lighting fires. Don't use naphtha or gasoline for cleaning purposes where there are open lights or fires. Don't put hot ashes on a dumb-waiter. Don't accumulate old beds and bedding or other trash in cellars. Don't allow delivery boys to tie back the dumb-waiter door in cellar; by this means fires have spread throughout buildings. Don't neglect to have the chimney flue cleaned once a year. You are responsible, not the landlord. If you must have lace curtains or other draperies near gas jets, see that the jets are properly protected.

Help in Case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or liseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

Stings of Venomous Insects, etc. Apply weak ammonia, oil, salt water, or iodine.

Fainting. Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

Tests of Death. Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark. If a person is dead decomposition is almost sure to set in after 72 hours have elapsed. If it does not, then there is room for investigation by the physician. Do not permit burial of dead until some certain indication of death is apparent.

Cinders in the Eye. Roll soft paper up like a lamplighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

Fire in One's Clothing. Don't run—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woollen rug or blanket. Keep the head down, so as not to inhale flame.

Fire from Kerosene. Don't use water, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woollen rug, table-cloth, or carpet.

Suffocation from Inhaling Illuminating Gas. Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

Rules in Case of Fire (consult Index).

Antidotes for Poisons.

First. Send for a physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

Arsenic. All the compounds of this substance are extremely poisonous, operate in the same manner, and require the same treatment.

SYMPTOMS. Burning pain in stomach, with sickness and faintness, violent vomiting and retching, great thirst, hoarseness, difficulty of speech, cramps in legs, feeble, rapid, and small pulse; cold, clammy sweats; countenance expressive of great torture and anxiety; tongue and mouth parched; delirium, coma, and finally death.

ANTIDOTES. Evacuate the contents of the stomach by emetics (mustard is the best), give milk, farinaceous or slippery elm decoction both before and after vomiting has begun. The chemical antidote is the "hydrated sesquioxide of iron," readily prepared by adding ammonia water to the common tincture of iron—both of which are found in every drug store; of the precipitate thrown down on mixing these teaspoonful doses in water may be freely given. An insoluble and therefore inert substance is formed with the arsenical compound.

Opium and its active principles, Morphine, Codeine, Narcotine, etc.

SYMPTOMS. Giddiness, stupor, slow breathing, pupils contracted; the patient lies motionless and insensible. As the poisoning advances the features become ghastly, pulse feeble or imperceptible, and muscles relaxed.

ANTIDOTES. Emetics such as sulphate of zinc or mustard; stimulants such as ammonia, atropine hypodermically. The patient should be continually roused. Stomach pump should be used if solid opium has been taken, but it is of little use when morphine or laudanum has been taken.

When the Boat Overturns.

DON'T go out in a pleasure boat without being assured that there are life-saving buoys or cushions aboard sufficient to float all on board in case of an upset or collision. All persons should be seated before leaving shore, and no one should attempt to exchange seats in midstream or to put a foot on the edge or gunwale of the boat to exchange seats. Where the waters become rough from a sudden squall or passing steamers, never rise in the boat, but settle down as close to the bottom as possible, and keep cool until the rocking danger is passed. If overturned, a woman's skirts, if held out by her extended arms, while she uses her feet as if climbing stairs, will often hold her up while a boat may pull out from the shore and save her. A non-swimmer, by drawing his arms up to his side and pushing down with widely extended hands, while stair-climbing or treading water with his feet, may hold himself several minutes, often when a single minute means a life; or throwing out the arms, dog fashion, forward, overhand and pulling in, as if reaching for something—that may bring him in reach of help.

Acknowledgment of Deeds.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

Promissory Notes and Checks.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington and Wisconsin—and the same general rules apply in all the States.

Administration of Deceased Persons' Estates.

INHERITANCE TAX LAWS.

THE following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.

Second—To one or more of the next of kin entitled to share in the estate.

Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors. In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate or personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE.	Inheritance Tax.	Preferred Obligations.
Alabama	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employés.
Arizona	None.	No statutory provision.
Arkansas	To grandparents, parents, husband, wife, descendant, brother, sister, or adopted child the rate is 1%. \$5,000 exempt. To uncle, aunt, niece, nephew, or their descendants the rate is 2%. \$2,000 exempt. To others the rates are 3% up to \$10,000; \$10,000 to \$20,000, 4%; \$20,000 to \$50,000, 5%; 6% above \$50,000; \$1,000 exempt.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California	For the purpose of determining the rate of tax, beneficiaries are divided into five classes: (a) husband, wife or children; (b) brothers, sisters or their descendants, also son-in-law or daughter-in-law; (c) uncles, aunts or their descendants; (d) great-uncles, great-aunts or their descendants; (e) others more remote. The tax also varies with the amount of the estate or legacy. On amounts not exceeding \$25,000, the rates for the five classes of beneficiaries are respectively 1%, 2%, 3%, 4% and 5%. On amounts from \$25,000 to \$50,000 the above rates are multiplied by 2. On amounts from \$50,000 to \$100,000 the original rates are multiplied by 3. On amounts from \$100,000 to \$500,000 they are multiplied by 4, and on amounts in excess of \$500,000 they are multiplied by 5. Amounts exempt from taxation are as follows: To widow or minor child, \$24,000; to other beneficiaries in class (a), \$10,000; to beneficiaries in class (b), \$2,000; to beneficiaries in class (c), \$1,500; to class (d), \$1,000; to class (e), \$500.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages due within sixty days. 4. Debts preferred by U. S. laws. 5. Judgments, mortgages and other liens.
Colorado	To parents, husband or wife, child, brother or sister, wife or widow of son, husband of daughter, lineal descendant, or adopted child the rate is 2%, with \$10,000 exempt. To uncle, aunt, nephew or niece or their descendants, 3%. To all others above \$500: On \$500 to \$10,000, tax is 3%; \$10,000 to \$20,000, 4%; \$20,000 to \$50,000, 5%; \$50,000 to \$500,000, 6%; above \$500,000, 10%.	1. Moneys held in a fiduciary capacity. 2. Administration expenses. 3. Expenses for funeral and last sickness. 4. Allowances to widow and orphans.

STATE.	Inheritance Tax.	Preferred Obligations.
Connecticut...	To parents, husband or wife, descendants, adopted child or its descendants, brother or sister, son-in-law or daughter-in-law the rate is 1%, \$10,000 exempt. To others 5%, with \$500 exempt.	<ol style="list-style-type: none"> 1. Funeral and administration expenses. 2. Expenses of last sickness. 3. Taxes. 4. Wages within three months. 5. Other preferred claims by State laws.
Delaware.....	Exempt to parents, grand-parents, husband, wife, descendants, adopted child. To others exempt to \$500 and taxable on excess as follows: To brothers, sisters or their descendants, 1%; to uncles, aunts or their descendants, 2%; to great-uncles, great-aunts or their descendants, 3%; to those more remote in blood, 5%.	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. 3. Wages to servants and laborers. 4. Rent (not over one year). 5. Judgments. 6. Obligations of record. 7. Obligations under seal. 8. Contracts for payment of money or delivery of goods.
District of Columbia....	None.	<ol style="list-style-type: none"> 1. Judgments or decree of Court. 2. Other debts.
Florida.....	None.	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Judgments and debts due to State.
Georgia.....	None.	<ol style="list-style-type: none"> 1. Year's support of family. 2. Expenses of funeral and last sickness. 3. Administration expenses. 4. Taxes. 5. Fiduciary obligations. 6. Judgments, mortgages and other liens. 7. Rent. 8. Liquidated demands.
Idaho.....	<p>Tax on estates less than \$25,000 at following rates:</p> <p>(a) To husband or wife, lineal issue or ancestor, 1%; exempt to widow or minor child, \$10,000; to others of Class A, exempt \$4,000.</p> <p>(b) To brother or sister, or their descendants, or wife or widow of son, or husband of daughter, 1½%; exempt, \$2,000.</p> <p>(c) To uncles, aunts or descendants, 3%; exempt, \$1,500.</p> <p>(d) To great-uncles, great-aunts or descendants, 4%; exempt, \$1,000.</p> <p>(e) To more distant relatives or strangers in blood, 5%; exempt, \$500.</p> <p>On larger estates than \$25,000 the above rates are multiplied as follows: \$25,000 to \$50,000, 1½ times above; \$50,000 to \$100,000, 2 times above; \$100,000 to \$500,000, 2½ times above; \$500,000 and upward, 3 times above.</p>	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Judgments and mortgages.
Illinois.....	<p>To parents, husband, wife descendant, adopted child, brother, sister, wife of son, husband of daughter, on amounts from \$20,000 to \$100,000 the rate is 1%; above \$100,000, 2%; exempt below \$20,000.</p> <p>To uncle, aunt, niece, nephew or their descendants the rate is 2% on amounts less than \$20,000; 4% on amounts in excess of \$20,000; exempt below \$2,000.</p> <p>To all others the rates vary with amounts as follows: Up to \$10,000, 3%; \$10,000 to \$20,000, 4%; \$20,000 to \$50,000, 5%; \$50,000 to \$100,000, 6%; above \$100,000, 10%; exempt to \$500.</p>	<ol style="list-style-type: none"> 1. Funeral and administration expenses. 2. Allowance to widow and children. 3. Expenses of last sickness, except doctor's bill and wages to servants. 4. Debts to common school or township funds. 5. Doctor's bill, last sickness. 6. Money owed in fiduciary capacity.
Indiana.....	None.	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Taxes. 5. Debts secured by liens on real estate. 6. Wages, not over \$50.
Iowa.....	<p>Property passing to parents, husband or wife, lineal descendants, adopted child or issue thereof is exempt.</p> <p>To others 5% tax above \$1,000.</p> <p>To alien non-residents of the State tax is 20%, unless alien is brother or sister, when tax is 10%.</p>	<ol style="list-style-type: none"> 1. Debts preferred by U. S. laws. 2. Public rates and taxes. 3. Claims filed within six months after notice.
Kansas.....	Exempt to \$5,000 to husband, wife, father, mother, child or adopted child; exempt to \$1,000 to brother, sister, nephew or niece.	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. Administration expenses. Wages of servants.

STATE.	Inheritance Tax.	Preferred Obligations.
Kansas..... <i>Continued.</i>	<p>Estates are classified by amount in five classes, with increasing rate of tax. Up to \$25,000; from \$25,000 to \$50,000; from \$50,000 to \$100,000; from \$100,000 to \$500,000; amounts in excess of \$500,000.</p> <p>To husband, wife, ancestor, descendant, adopted child or descendant thereof, wife of son or husband of daughter, the rates on the above classes are 1%, 2%, 3%, 4%, and 5%.</p> <p>To brother, sister, nephew or niece, the rates are 3%, 5%, 7½%, 10% and 12½%.</p> <p>To all others the rates are 5%, 7½%, 10%, 12½% and 15%.</p>	<ol style="list-style-type: none"> 3. Debts due to State. 4. Judgments. 5. All demands presented within one year after letters of administration. 6. Demands presented after one year and before two years.
Kentucky.....	<p>Tax of 5% on all estates over \$500 except to parents, husband or wife, lawful issue, husband of daughter, wife or widow of son, lineal descendants or adopted child, which are exempt.</p>	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Administration expenses. 3. Moneys due in fiduciary capacity.
Louisiana.....	<p>Exempt to \$10,000 to parents or lineal ancestors, children or descendants; excess taxable at 2%; to others 5%.</p>	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Legal expenses. 3. Expenses of last sickness. 4. Servants' wages within one year. 5. Salaries, clerks.
Maine.....	<p>To ancestors, parents, husband, wife, descendants, adopted child, wife of son, husband of daughter, the rates are as follows: Up to \$50,000, 1%; \$50,000 to \$100,000, 1½%; above \$100,000, 2%; \$10,000 exempt to parents, husband, wife, child or adopted child.</p> <p>To brother, sister, uncle, aunt, nephew, niece or cousin, the rates on the above amounts are 4%, 4½% and 5%; \$500 exempt.</p> <p>To others, rates on the same amounts are 5%, 6% and 7%; same exemption.</p>	<ol style="list-style-type: none"> 1. Funeral and administration expenses. 2. Allowance to husband, widow or children. 3. Expenses of last sickness. 4. Debts preferred under U. S. laws. 5. Taxes.
Maryland.....	<p>Exempt to parents, husband or wife, children, or lineal descendants; to others, 5% above \$500.</p>	<ol style="list-style-type: none"> 1. Taxes. 2. Funeral expenses. 3. Arrears of rent. 4. Judgments or decrees of Court.
Massachusetts.	<p>(a) To husband or wife, parents, ancestors, children, adopted children, descendants, son-in-law or daughter-in-law the rates are 1% up to \$50,000; 1½%, \$50,000 to \$100,000; 2% above \$100,000. Exemptions are \$10,000 to parents, husband, wife or children, or adopted children, to others in Class A, \$1,000 exempt.</p> <p>(b) To brother, sister, nephew or niece the rates are 3% up to \$25,000; 4%, \$25,000 to \$100,000; 5% above \$100,000; \$1,000 exempt.</p> <p>To all other persons the rate is 5%.</p>	<ol style="list-style-type: none"> 1. Debts preferred by U. S. laws. 2. Public rates and taxes. 3. Wages, not over \$100. 4. Debts for necessities furnished within six months not exceeding \$150.
Michigan.....	<p>Tax of 1% to parents, husband or wife, child, brother or sister, wife or widow of son, husband of daughter, lineal descendants, adopted child, or one to whom deceased stood in relation of parent, exempt to \$2,000. To others, 5% over \$100.</p>	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Debts preferred by U. S. laws.
Minnesota.....	<p>Five classes of beneficiaries are recognized: (a) wife, or lineal descendant; (b) husband, parents, ancestors, adopted children or issue thereof or brother or sister or their descendants, son-in-law or daughter-in-law; (c) uncles, aunts or their descendants; (d) others more remote.</p> <p>The rates for amounts not exceeding \$15,000 (called the primary rates) for the classes given above are respectively 1%, 1½%, 3%, 4% and 5%. On amounts from \$15,000 to \$30,000 the primary rates are multiplied 1½ times; from \$30,000 to \$50,000 twice; from \$50,000 to \$100,000 2½ times; and above \$100,000 3 times.</p> <p>Exemptions are to classes (a) and (b), except ancestors, \$3,000; to class (c) \$1,000; to class (d) \$250 and to class (e) \$100.</p>	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Debts preferred by U. S. laws. 5. Taxes.
Mississippi.....	None.	No statutory preference.
Missouri.....	<p>All inheritances taxable at 5% except to parents, husband or wife, adopted child, or lineal descendants, which are exempt.</p>	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness; wages of servants. 3. Taxes and public debts. 4. Judgments. 5. All demands presented within six months after letters. 6. All demands exhibited after six months and before one year.

STATE.	Inheritance Tax.	Preferred Obligations.
Montana.....	Tax of 1% to parents, husband, wife, child, brother, sister, descendant, adopted child, son-in-law, daughter-in-law, \$7,500 exempt. To all others, 5% over \$500.	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred under U. S. laws. 4. Judgments and mortgages.
Nebraska.....	Taxable at 1% to parents, husband or wife, child, brother or sister, wife or widow of son, husband of daughter, adopted child, and lineal descendants in lawful wedlock, exempt to \$10,000. To uncle, aunt, nephew or niece, or descendants, 2%; exempt to \$2,000. To others, above \$500 as follows: \$500 to \$5,000, 2%; \$5,000 to \$10,000, 3%; \$10,000 to \$20,000, 4%; \$20,000 to \$50,000, 5%; above \$50,000, 6%.	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws.
Nevada.....	None.	<ol style="list-style-type: none"> 1. Funeral expenses. 2. Expenses of last sickness. 3. Wages, within ninety days. 4. Debts preferred by U. S. laws. 5. Judgments and mortgages.
N. Hampshire...	Exempt to parents, husband or wife, lineal descendants, brother, sister, adopted child, or issue thereof, wife or widow of son, husband of daughter. To all others, 5%.	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral expenses. 3. Allowance to widow. 4. Taxes and expenses of last sickness.
New Jersey....	Exempt to parents, husband or wife, children, lineal descendants, brother or sister, husband of daughter, wife or widow of son. To all others, 5%; \$500 exempt.	<ol style="list-style-type: none"> 1. Expenses of last sickness. 2. Funeral expenses. 3. Judgments and decrees.
New Mexico...	None.	<ol style="list-style-type: none"> 1. Administration expenses. 2. Funeral and last sickness expenses. 3. Allowance for widow and minor children. 4. Debts preferred by U. S. or State laws. 5. Taxes.
New York.....	To parents, husband, wife, child, descendants, brother, sister, son-in-law, daughter-in-law or adopted child, exempt to \$5,000; on excess rates are \$50,000, 1%; \$50,000 to \$250,000, 2%; \$250,000 to \$1,000,000 3%; 4% above \$1,000,000. To others exempt to \$1,000; rates on excess on above amounts are 5%, 6%, 7% and 8%.	<ol style="list-style-type: none"> 1. Funeral and administration expenses. 2. Debts preferred under U. S. laws. 3. Taxes. 4. Judgments and decrees.
N. Carolina....	Exempt to husband or wife. (1) To lineal ancestors, or descendants, brothers or sisters, or where mutual relation of parents and child existed $\frac{3}{4}$ %. To uncles, aunts, nephew, niece, or their descendants, 2%; \$500 exempt. To others more remote the rates are: Under \$10,000, 4%; \$10,000 to \$20,000, 6%; \$20,000 to \$50,000, 8%; above \$50,000, 10%.	1. Funeral expenses. 2. Expenses of last sickness. 3. Administration expenses. 4. Wages for 60 days. 5. Debts preferred by U. S. laws. 6. Debts secured by liens on property of deceased.
Tennessee.....	To parents, husband, wife, child or descendants, \$5,000 exempt. Upon excess, 1% up to \$20,000; 1 1/4% above \$20,000. To others, 5% above \$250.	No priority.
Texas.....	Exempt to parents, husband or wife or descendants. The rate of taxation on other legacies varies (above such sum as is exempt) with the amount of the legacy. Six divisions as to amount are recognized: (1) up to \$10,000; (2) \$10,000 to \$25,000; (3) \$25,000 to \$50,000; (4) \$50,000 to \$100,000; (5) \$100,000 to \$500,000; (6) above \$500,000. To ancestors, brothers, sisters or their descendants, the rates on the above amounts are 2%, 2 1/2%, 3%, 3 1/2%, 4% and 5%; \$2,000 being exempt. To uncles, aunts or their descendants the rates are 3%, 4%, 5%, 6%, 7% and 8%; \$1,000 being exempt. To others more remote the rates are 4%, 5 1/2%, 7%, 8 1/2%, 10% and 12%, \$500 being exempt.	1. Funeral and last sickness expenses. 2. Administration expenses and one year's support of widow and children. 3. Debts secured by mortgage or other lien. 4. Other debts presented within twelve months.
Utah.....	Tax of 5% on all estates over \$10,000.	1. Funeral expenses. 2. Expenses of last sickness and administration. 3. Wages up to \$100. 4. Debts preferred by U. S. or State laws. 5. Debts secured by liens.
Vermont.....	Exempt to parents, husband or wife, lineal descendants, adopted child, or lineal descendant thereof, wife or widow of son, husband or daughter. To all others, 5%.	1. Funeral expenses. 2. Expenses of last sickness. 3. Taxes. 4. Debts due to State. 5. Debts due to U. S.
Virginia.....	Exempt to lineal ancestors or lineal descendants, husband or wife, brother or sister. To all others, 5%	1. Funeral and administration expenses. 2. Expenses of last sickness, not exceeding \$50, doctor or druggist. 3. Taxes. 4. Money owing as trustee or in fiduciary capacity.

STATE.	Inheritance Tax.	Preferred Obligations.
Washington...	(a) Tax of 1% above \$10,000 to parents, husband or wife, lineal descendants, adopted child, or lineal descendant thereof. (b) To collaterals, including the third degree of relationship, 3% up to \$50,000, 4½% from \$50,000 to \$100,000, and 6% from \$100,000 upward. (c) To those further removed, 6% up to \$50,000, 9% up to \$100,000, 12% above \$100,000.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Wages, within ninety days. 5. Taxes. 6. Judgments and mortgages which are liens on land.
West Virginia...	To lineal ancestor, husband, wife, descendant, the rate is 1% on amounts up to \$25,000; \$25,000 to \$50,000, 1½%; \$50,000 to \$100,000, 2%; \$100,000 to \$500,000, 2½%; above \$500,000, 3%. Exempt up to \$10,000, except in case of widow, where \$15,000 is exempt. To brother or sister the rate is 3% up to \$25,000, and for the varying amounts stated above the rates are 4½%, 6%, 7½% and 9%. To others more remote the rates are 5%, 7½%, 10%, 12½% and 15%.	1. Funeral and administration expenses. 2. Debts owing to U. S. 3. Taxes. 4. Fiduciary obligations.
Wisconsin....	(1) Tax of 1% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof. (2) To brothers, sisters and descendants, wife or widow of son, or husband of daughter, 1½%. (3) To uncles, aunts or their descendants, 3%. (4) To great-uncles, great-aunts and their descendants, 4%. (5) To all others, 5%. When the estate is above \$25,000 the above rates are multiplied as follows: \$25,000 to \$50,000, 1½ times on excess; \$50,000 to \$100,000, 2 times on excess; \$100,000 to \$500,000, 2½ times on excess; above \$500,000, 3 times on excess. Exempt \$10,000 to widow and lesser amounts to other relatives, down to \$100 exemptions to strangers in blood.	1. Last sickness and funeral expenses. 2. Debts preferred by U. S. laws.
Wyoming.....	Tax of 2% on amount above \$10,000 to parents, husband or wife, child, brother, sister, lineal descendants, wife or widow of son, husband of daughter, adopted or acknowledged child for ten years. Except that to husband, wife or child resident of the State \$25,000 to each is exempt. To others than above, tax of 5%; \$500 exempt.	1. Funeral and administration expenses. 2. Expenses of last sickness and sixty days' wages, including medical attendance and medicines. 3. Judgments and mortgages. 4. All claims presented within six months. 5. All claims presented within one yr.

The Bankruptcy Law.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898,
AS AMENDED BY ACT OF JUNE 25, 1910.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(a) Any person except a municipal railroad, insurance or banking corporation shall be entitled to the benefits of this act as a voluntary bankrupt.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

(b) Any natural person, except a wage-earner or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company and any moneyed business, or commercial corporation, except a municipal railroad, insurance or banking corporation, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial and shall be subject to the provisions and entitled to the benefits of this act.

SEC. 7. DUTIES OF BANKRUPTS.—(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Distribution of Intestate's Personal Estate.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from \$100 to \$500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ from those of a wife in the estate of her deceased husband, which will be shown in a separate table.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow or descendants (given below): Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, South Carolina, South Dakota and Virginia.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to \$5,000 and one-half of the residue.

(d) In Connecticut and Vermont the widow takes the entire estate up to \$2,000 and one-half of the residue.

(e) In New York, in case deceased leaves a father surviving, the widow takes one-half; if no father surviving, the widow takes one-half and \$2,000 in addition.

(f) In New Hampshire the widow takes \$1,500, and, if the estate exceeds \$3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to \$10,000 and three-fourths of the residue.

(i) In Michigan the widow takes the entire estate up to \$3,000 and one-half of the residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than \$400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia, and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota, and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—*Continued.*

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New Jersey, New York, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, Virginia and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother; and if both parents are dead, then to the brothers and sisters or their descendants: Arkansas, District of Columbia, Nevada and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally. Georgia, Illinois, Mississippi, Missouri, and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, New Jersey, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

Law Examinations in New York State.

To entitle an applicant to an examination as an attorney and counsellor he shall pay to the examiners a fee of \$15, and he must prove (15 days in advance) to the satisfaction of the State Board of Law Examiners: 1. That he is a citizen of the State, twenty-one years of age, and that his residence for six months prior to the examination is actual and not constructive, which proof must be made by his own affidavit. 2. That he has studied law in the manner and according to the conditions prescribed for a period of four years, except that if the applicant is a graduate of any college or university his period of study may be three years instead of four, and except also that persons who have been admitted as attorneys in the highest court of original jurisdiction of another State or country, and have remained therein as practicing attorneys for at least three years, may be admitted to such examination after a period of law study of one year within this State. 3. That the applicant has passed the regents' examination or its equivalent must be proved by the production of a certified copy of the regents' certificate filed in the office of the Clerk of the Court of Appeals.

Address communications concerning law examinations to F. M. Danaher, Secretary, Albany, N. Y.

Law of Contracts.

A contract is an agreement of two or more parties, by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration, without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him, unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies, or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid, whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old English Statute of Frauds, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor, or administrator, to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from \$30 to \$200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy. Except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

Arrest in Civil Action.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing it in actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander or the like. Other States only allow arrest to prevent or punish the escape of a defendant from the State and the concealment or transfer of his property with intent to defraud creditors. Still other States combine these two theories or modify them in different ways.

The following synopsis shows a grouping of the States along lines of approximately similar legislation.

In the following States no civil arrest is allowed: Alabama, Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, Tennessee and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, New York (also for fine or penalty or to recover property concealed from Sheriff); only after judgment for fraud or personal injuries, New Mexico.

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State, or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, sheriffs or other officers of the Court for failure to pay over money collected, and in certain circumstances against defendant who conceals property from Sheriff.

In Wyoming and Ohio (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

Marriage and Divorce Laws.

(Revised to December 1, 1912.)

Marriage Licenses.—Required in all the States and Territories except Alaska, New Mexico, and South Carolina. California requires man and woman to appear and be examined under oath, or submit affidavit.

Marriage, Prohibition of.—Marriages between whites and persons of negro descent are prohibited and punishable in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, and West Virginia.

Marriages between whites and Indians are void in Arizona, North Carolina, Oregon, and South Carolina; and between whites and Chinese in Arizona, California, Mississippi, Oregon, and Utah.
